## NEW MOTOR CO HAS OPENING THIS WEEK

This week the O'Donnell Motor Company is formally opening their new building and announcing their appointment as dealers of the Chrysler - Plymouth automobiles. Their garage was opened for business last week.

The building shown above, is one of the nicest of several new buildings erected within the year. Construction was started on May 21st and completed about a month ago. The structure is 60 by 100 feet and of tile with the interior of the most modern design in the way of plumbing, lighting, etc. The owners are William Jackson and Floyd Williams, both formerly of Lubbock. Jackson will be sales manager and Williams shop foreman. Estimated cost of the plant is in the range of \$30,000.

Both men are veterans of World War I. Jackson was a combat pilot in the air force stationed in the northwest Pacific serving more than four years while Williams was in the army stationed in South America with 39 months service. As foreman of the shop, Williams is an experienced mechanic. As a gesture of goodwill many business firms have extended their greetings.

## SANDERS TELLS OF FARMERS' ELECTION

Farmers in Lynn county will receive notices within the next few days about annual elections of community and county farmer committees. Carl Sanders, Chairman of the County Agricultural Committee said today. Each of the county's ten farming communities will elect 3 committeemen and two alternates, as well as a delegate to the County convention where a three man county committee will be elected.

Sanders said that approximately 3,000 farmers are eligible to vote in the elections this year. Eligible farmers are those who are participating in the 1946 Agricultural Conservation program, or who have a contract with the Federal Crop Insurance Corporation. This includes owners, operators, tenants and sharecroppers on farms where the conservation of the sugar program is being carried out. Because of the community property laws in Texas, the wife may vote if the husband is eligible whether he be landlord, tenant or sharecropper.

In announcing the elections, Sanders urged that all farmers who are entitled to go to the polling places in the community and vote. Since the committeemen are responsible for developing, adapting and administering national farm programs to meet local problems and needs, it is important that the men elected really represent the choice of the majority of the farmers in the community.

## German Education Must Be Recast in Democratic Mold

By BAUKHAGE  
News Analyst and Commentator.

WNU Service, 1616 Eye Street, N.W., Washington, D. C.

WASHINGTON.—Whether we are going to have two worlds or one of the battle grounds on which the issue will be decided is Germany. Lines for that battle are forming now between one of the most powerful forces for democracy, the American public school, and one of the most anti-democratic forces of old Germany, the Prussian educational system.

Baukhage

When congress meets it must consider the report of the mission of educators who were sent to the American zone by the state and war departments to study education in Germany. They came back with a careful and detailed study, including a description of conditions and a set of recommendations which, if they can be carried out, will have a vital effect in building democracy in Germany.

Perhaps an educational system based on the American model may not be sufficient to democratize Germany but I think it is no exaggeration to state that without such a system, democracy never will be achieved in the Reich.

I had the privilege of attending a conference presided over by William Benton, assistant secretary of state in charge of public affairs, at which Chairman Zook and members of the educational mission were present. I came away deeply impressed, not only with the factual data presented—I was familiar with some of the data—but also with the importance of the program as a means of determining whether democracy or totalitarianism will dominate western Europe and perhaps the world.

### System Mixture of Master, Servant

We know how Germany's history, her political and social institutions, have all tended to create a peculiar type of thinking which has resulted in a caste system with a strange mixture of super-ordination and sub-ordination on the part of the individual German. The superficial and erroneous explanation is that the German is half dominating and half servile. There isn't space here to go into German psychology but there was one point in the educational mission's report which was emphasized by their chairman and echoed by Assistant Secretary of State Benton, which partially explained this phenomenon. It reveals perhaps the greatest single factor that can block democratic evolution in Germany. This factor, the mission says, "has cultivated attitudes of superiority in one small group and of inferiority in the majority of the members of German society, making possible the submission and lack of self determination upon which authoritarian leadership has thrived."

The bars go down on the path of democracy for the German child in the fourth grade of elementary school. It is here that the fortunate 10 per cent who are to be the "superiors" leave the unfortunate 90 per cent, for at this point—when the children are about 10—those who expect to attend the universities and prepare for a professional career are set aside in secondary schools. It is largely the financial or social position of the parents which forms the basis of selection for these secondary schools. The overwhelming majority of pupils, a large proportion of whom deserve university education because of their ability, finish elementary school and then go on to vocational education. This makes a fundamentally "undemocratic division of the educational stream."

Until they are 10 years old little Fritz and Johann have studied and played together in something approximating the comradeship of two American boys, though one's father owns the bank and the other's runs a tailoring shop. But when they leave the fourth grade, their ways part and each year from then on, the wall between them grows higher. Dr. Zook's voice was filled with real emotion when he described one of the many experiences he had when the mission visited the Ger-

man elementary schools. It was his practice to ask the fourth grade children: "What are you going to be?" And without the slightest hesitation they would answer: "Butcher, baker, clock-maker, cobbler" or whatever it may have been, never dreaming that it could be anything else, because their way already had been chosen for them. This revelation, Dr. Zook said, was as heart-breaking to him as when again and again, four out of five of the children answered "no" to the question: "Did you have any breakfast today?"

Contrast the life of these children with the American children who spend eight years together in the grade schools, many of them four more in high school, where all compete on equal terms, where ability can be assayed, where ambition can be estimated.

### School Plant Hit Hard by War

This is only one facet of the problem with which the educators who must guide German education will have to deal. There are a great many physical difficulties, too. In the first place, there is a dearth of buildings, of teachers, of equipment.

Many of the school buildings are rubble. Many have been requisitioned for various uses by the military government. In the winter there is the question of heat—this winter probably will be one of the worst—and this is one of the most difficult problems to overcome because of the shortage of coal in the American zone.

As to teachers, more than one-half of the Germans were dismissed because of their participation in the Nazi setup.

There are few books. There is a paper shortage because there is no machinery to make paper. There is no machinery because there is no steel. There is no steel because there is no coal. And so the vicious circle continues, affecting the whole question of supply and equipment.

There are, on the other hand, some things on the credit side. For instance, the fact that the Germans have an inborn respect for learning and after a generation behind the "iron curtain" they are literally starving for information concerning the rest of the world. I can testify to this from my own conversations with a number of the young people, as well as the older ones, who had had at least a glimmering of the world before Goebbels.

It is generally admitted that the first two objectives of the occupation forces have been realized more fully in the American zone than anywhere else. I refer to denazification and demilitarization. These are important but negative. On the positive side, democratization lags. We know very little about what is happening in the Russian zone but a nation that has progressed as far in moulding the minds of its own people, undoubtedly is not neglecting its efforts in Germany.

The recommendations outlined in the mission's report include similar projects for the future, as well as various other steps extending beyond the schools themselves and operating through the parents and teachers organizations and other groups. There is no intention to superimpose upon the Germans any system against their will. So far there has been excellent co-operation and educational circles in Germany are enthusiastic about the steps already taken. They hope that trained educators will come to Germany; they would be only too glad to send their people to this country for instruction. They may not know what democracy is but there is plenty of evidence that they want to find out.

Presumably the report as forwarded to the secretary of state will receive his approval, and congress will have the opportunity to pass upon the whole program but, as the report concludes: "The development of this program is not the responsibility of the government alone. Equally, if not more, important is the intelligent backing of the American people in the reorientation of the German people. We have committed ourselves to a program in which education plays a critical role. There must therefore be no turning back on our support of that program so vital to the enduring peace of the world."

## BARBS . . . by Baukhage

It's time to quit making children study maps that they have to recolor with their own blood.

Someone says it's a fine commentary on radio that its most successful comedians are the ones who kid the silly commercials. Well, remember the Ford jokes—they did streamline Lizzie eventually.

"The Iceman Cometh" has made a great hit on Broadway. Now if you could get a plumber like that when you want one.

The Monsanto Chemical company has invented a doo-dle-proof tablecloth. It has a plastic protection like the inside of unbreakable windshields.

## Molly the Loot Sleuth Likes Her Work in Germany

Tracks Down Works of Art And Other Valuables Stolen by Nazis.

BERLIN.—It is doubtful whether any person in the American occupational forces in Germany enjoys her work more than does Capt. Molly J. Regan, formerly of Boston and now a loot sleuth.

That's a clipped version of her formal title — art intelligence research officer in the restitution branch of the monuments, fine arts and archives section of the economic division of the office of military government for Germany (U. S.).

Her job is to help track down works of art and other valuables looted by the Nazis from countries they formerly occupied, and classify them for restitution to their rightful owners.

Recovers Millions. The department in which Captain Regan works has recovered millions of dollars worth of stolen art in its search through the nooks and crannies of occupied Germany and beyond.

Recoveries and restitutions in a year have included more than a million books and nearly 50,000 works of art, some of them priceless masterpieces.

France alone has received 40,000 cultural pieces.

Some of these recoveries have been made in museum basements, some behind false walls in houses, in barns and in sealed salt mines.

Captain Regan's part in this vast hunt is not a traveling job. She sits in a small office in military government headquarters here, surrounded by packing boxes and an occasional minor masterpiece.

Not All Big Looters. One of her field workers shares the cramped quarters with her as she keeps an organized network of activity going over the continent.

Captain Regan advises her department chief of particulars of missing objects and classifies clues as to their whereabouts.

She works with the army's G-2, the counter-intelligence corps, and maintains liaison with representatives of other occupying powers, with United Nations military missions here and with art intelligence in occupied Austria.

The culprits on whom she helps get the lowdown are not all big Nazi looters. She also helps prepare cases against accused members of the American forces.

### Three Couples in Car Are Robbed of \$2,200

NEW YORK.—An armed bandit escaped with \$2,200 in cash and jewelry in a holdup of three couples who were sitting in a parked car after visiting a night club.

Arthur Maier, jewelry salesman whose wife is the daughter of Leon Erkek, a partner in Leon and Eddie's night club, was at the wheel of the automobile when the slim, polite young bandit forced his way into the car.

Steering with one hand and holding his gun in the other, the bandit drove several blocks and then stopped and asked the three couples to hand over their money and jewelry. Jules Reichgutt of Chicago was robbed of \$325 and jewelry valued at \$1,000. L. G. Eyer lost \$900.

The bandit then forced his victims to leave the car and drove off.

### Orders Decrease in Air Forces' Civilian Staff

WASHINGTON.—Army air forces ordered a 20 per cent reduction in the number of its civilian employees.

General Spaatz, air forces commander, said the number of employees would be reduced from 163,000 to 131,000 between October 1 and January 1. He said the reduction will be "across the board" with high and low salaried employees treated equally in proportion to numbers.

War department said reductions by other army branches had been agreed to and would be worked out in detail.

Reductions will be made in accordance with President Truman's directive that the army and navy must absorb the cost of 14 per cent salary increases voted by congress to government civilian employees, and also costs of pay increases ranging from 10 to 50 per cent voted military personnel.

### Woman Wades In and Goes Over Niagara Falls

NIAGARA FALLS, N. Y.—A woman tentatively identified by state park police as Julia Fink, 56, of Buffalo, N. Y., was carried to her death over the 165-foot American falls.

Sgt. Charles Poole said witnesses reported the woman waded into the rapids about 500 yards above the cataract. Her body was recovered a few minutes later at the Canadian Maid of the Mist landing across the gorge from the falls.

### Husband Asks for Wife-Beating Permit

BOSTON.—A man walked into the Roxbury crossing police station and asked for a permit "to beat my wife."

"She's misbehaving and I can fix everything all right by beating her up, but I want a permit first," he said.

A policeman denied the request.

### Bogus Currency Ring Is Smashed

Secret Service Agent Given Main Credit for Big Job.

NEW YORK.—A secret service agent, who posed as a West coast racketeer and dope peddler, was credited by the treasury department with smashing a currency counterfeiting ring and "recovering the largest haul of bogus money in 10 years."

The agent, Victor Carl of the Los Angeles bureau, was assigned to the case after the counterfeiters had passed a \$20 bill at a bank.

Working closely with the ring to establish confidence, Carl offered to buy \$110,000 of the \$20 bills at \$7 a \$100. As the deal was consummated in a hotel lobby, other agents closed in and arrested Joseph Soroka, 33, alias "Mousey," and Joseph Giarruso, 39, of 13 Foster street, Bergenfield, N. J.

Two others, Joseph Paternoster, 44, of 95 State street, Newark, N. J., and George A. Larkin, 41, of 20 Court street, Newark, were arrested later in Newark, where Paternoster allegedly printed the bills on presses purchased recently from Larkin.

Arrangements were made for the secret service agent to pick up the bills at Soroka's home and they were brought there from Newark in a carton by Giarruso, according to U. E. Baughman, acting supervisor of the New York secret service office. Carl protested that the \$7,700 purchase price was "a little too dangerous" to carry around, and persuaded the pair to accompany him to the hotel for the payoff.

At a print shop in Newark, agents found a negative for the back of a \$20 bill and a strip of nine counterfeit ration coupons. The recovered bills are believed to represent practically the entire output of the plant, although one \$20 bill was taken by a taxi driver in addition to the bill passed at the bank.

Soroka and Giarruso were held in \$10,000 bail each by United States Commissioner Garrett W. Cotter on charges of printing and passing bogus bills. Larkin and Paternoster were to be arraigned later.

### Asks Red Cross Help in Tracing German Youths

BERLIN.—Carlo Mariotti, delegate of the International Red Cross in Berlin, said an appeal of German mothers for help in locating teen-age boys reported to have vanished without trace in the Russian-occupied province of Brandenburg since last summer would be referred to his superiors in Geneva.

A delegation of three German men handed Mariotti recently two lists carrying the names of 280 boys, mostly 17 and 18 years old.

The majority of them were reported to have disappeared in July and August, 1945.

Earlier, a Red Cross spokesman disclosed that a delegation of German mothers had appealed for aid in finding thousands of children they said had disappeared from the Russian-occupied province.

The parents maintain, according to the British-licensed newspaper Tagesspiegel, that the children have been taken to Russian camps where they are being schooled in a "new weltanschauung" (philosophy of life).

### Fliers Dangle High in Tree Until Rescued

LIVINGSTON MANOR, N. Y.—Residents of this village heard a funny sounding crash and shouts for help from somewhere up in the air.

A tiny airplane was tangled in the branches of a giant tree, its three unhurt occupants dangling anxiously some 60 or 70 feet above the ground.

Villagers with ropes climbed the tree and rescued the three, James A. Howlett of Niagara Falls, N. Y., 44; his wife, June, 30, and their daughter, Judith, 4.

Howlett said they struck the tree during a take-off.

### \$289,625 Is Recovered For Vets in Job Cases

WASHINGTON.—Veterans have recovered \$289,625 from their pre-employment cases, department of justice said.

The recoveries were made by U. S. attorneys in 230 cases between July 1, 1944, and August 26, 1946, Assistant Attorney Gen. John F. Sonnett said. In many instances the cash recoveries were arranged without resort to the courts.

Sonnett stressed that "in most cases, the veterans have been taken back by their prewar employers without question."

### Guest Pillowcases Make a Nice Gift

IF YOU want to give an exquisite gift to a special friend at Christmas-time, then make up these pretty guest pillowcases. You'll need a couple of skeins of lavender, purple, pink and green floss to embroider the pansy clusters—a ball or so of crochet thread to work up the pineapples, the symbol of hospitality.

To obtain complete crocheting instructions and transfer design for the Pineapple and Pansy Designs (Pattern No. 5056) color chart for embroidering, send 20 cents in coin, your name, address and the pattern number.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

By Boyce House  
And yet you know of parents who sacrifice for their children ——— preachers content to make a bare living in order to preach Jesus Christ and Him crucified ——— teachers who go on teaching when they could make more money in something else ——— because they love to teach.

Some of the finest "breaks" I've ever received came because some friend perceived an opportunity and thought of me as the man for the opening. That was a disinterested act, a service rendered to a friend.

When you do something generous and unselfish, you do get something out of it; you get the satisfaction of doing something for others.  
Back when I was a newspaper reporter, I attended two funerals on successive afternoons. One was the funeral of a financier and theatrical producer. He had made millions but he had forgotten to make friends. There was not a moist eye at the service.

The other funeral was that of a school janitor. They held the service in the school auditorium; it was felt that the scene of his labors should be the place where the last rites for him should be held ——— besides, there was not a church in the community big enough to hold

**TELLS OF WHOOPING COUGH**

Inasmuch as the incidence of whooping cough in Texas is expected to show an increase during the coming months, the State Health department released a statement to day urging that strenuous efforts be made to control the spread of this debilitating childhood disease.

Whooping cough can only be contracted by direct exposure to the disease, and isolation of cases must be universally practiced if the incidence is to be controlled.

The infectious agent or germ of whooping cough is transmitted by droplets expelled in coughing, sneezing or speaking, and the discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious.

The first sign of this disease is usually a dry cough, which persists day and night and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of coughs. Dr. Cox stressed the fact that children who have whooping cough should not attend school or come in contact with other children until three weeks after the appearance of typical signs of the disease.

all who wanted to attend. He had been hard-working, honest, honorable, quiet, unpretentious. The teachers respected him. The students all dall the thousands who had been students during the many years he had served, loved him. Three ministers took part in the service; all three had tears in their eyes as they spoke.  
Making money is all right, but there are other things to life ——— for example, doing something for others.

Prevention and control of whooping cough, especially among infants and small children, may be accomplished thru use of approved vaccine and convalescent serum and it is important that such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may serious impair his future health.

**Civil Service Exam is Announced**  
New examinations for Budget examiner and Organization and Methods Examiner were announced recently by the Civil Service Commission to fill Federal positions in Washington, D. C. Salaries range from \$3,397 to \$5,995 a year.  
Further information and application forms may be obtained from the Commission's local secretary, Mrs. Lora Ellis at the local Post Office.

**BAPTISTS TO MEET IN CONVENTION**  
The Baptist General Convention of Texas will have its annual sessions at Mineral Wells beginning at 7:15 on Tuesday night, November

11th and running thru a night session on Thursday. E. D. Head of Ft Worth is president of the convention. Other officials are Forrest Feezor of Waco, Odell Jameson of Dallas, D. B. South of San Antonio and Roy Jackson of Canyon.

Dr. J. Howard Williams of Dallas will climax the sessions when he brings the first annual report of his current tenure as Executive Secretary of Texas Baptists on Thursday night. Dr. Williams will report a year in which accomplishments have outstripped all previous years in every phase of endeavor.

Preliminary reports from the churches indicate that more persons were baptized in 1946 than in 1945 which was the year of the Centennial Evangelistic Crusade. Texas Baptists have experienced remarkable growth in the last ten years. In 1945 the churches raised \$4,282,669 in 1939 compared to \$18,796,279 in 1945.

The convention will be at Mineral Wells and 10,000 visitors are expected.

Miss Virginia Vandivere, daughter of Mr. and Mrs. E. Vandivere, and a student at Bethel-Penal College at Bethel, Okla., spent the week end with home folks.

### London Today

England suffered much during the war. Many blocks in the heart of the great city of London, completely razed by the Nazi "Luftwaffe," remain unrepaired. All parts of the city sustained scattered damage from the raids. They took much punishment bravely, and they are industriously setting about to repair their country.

Perhaps it is partly Britain's proximity to continental troublemakers and the consequent disaster, although some of these trouble spots have been pawn as well as threat during her history, that gives the people such an awareness of foreign relations. They have learned the defenses that are usually provided by a good foreign office, and have developed shrewd international statesmen. There is little apparent disunity in their foreign policy.

Nonetheless, war came to them, and their sufferings were great. Reconstruction in Britain is moving slowly. A long time will be required for complete rebuilding, even of her damaged streets and destroyed buildings. Materials are short, and rationing diverts most materials into home building, which is proceeding slowly also.

### CARD OF THANKS

We wish to take this means of expressing our heartfelt thanks and appreciation to our friends and neighbors who comforted us and assisted in every way possible during the illness and passing of our husband and father; also do we especially appreciate the thoughtfulness of those who stayed at the bedside of our loveone during his illness; and the beautiful floral offering. May God bless you for your love.

### TIPS ON FLU GIVEN

Reports coming in from various sections of the State indicate that the number of influenza cases appears to be increasing with the advance of the fall season, and during the past week 930 cases were reported in Texas.

Commenting on this situation today, the State Health officer said that most of these cases are mild and lend themselves to treatment readily. He pointed out that two cooperative factors are essential to victims of this disease; first, to call the family physician promptly when suspicious symptoms appear and second, to take it easy for a reasonable length of time after the acute stage has subsided.

It is essential to realize that influenza, no matter how mild the attack, calls for a period of convalescence, because serious complications can occur if this important fact is ignored. Influenza is not mass controllable. However, those persons who maintain the highest possible health level at all times, increasing their resistance to communicable disease germs, will have a protective advantage over those more careless persons who continually abuse their health.

Living by the laws of nature, getting plenty of sleep, daily exercise in the open, nourishing foods and good personal hygiene offers the best known bulwark against all respiratory diseases and added that avoiding habits of any and all kinds detrimental to maximum well being is a wise course to take in the pursuit of good health.

# Forces of Attraction Hold the Moon "Up" in the Sky....and OIL-PLATE Your Engine!

THE moon isn't really "up" in the sky, but it is held from flying off into space by gravitational attraction between it and the earth.

Exploring the realms of molecular attraction, Conoco chemists have been able to bring America new and better oils. In fact, the force of molecular attraction bonds a special ingredient in Conoco N<sup>th</sup> motor oil to working surfaces of your engine. So strong is this attraction that cylinder walls and other parts are OIL-PLATED.

And because molecular attraction holds Conoco OIL-PLATING up where it belongs... prevents it from all draining down to the crankcase, even overnight, you get these benefits:

- added protection when your engine starts up
- added protection from corrosive action
- added protection from wear that leads to fouling sludge and carbon
- added smooth, silent miles

That's why OIL-PLATE now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Co.

## THERE SIMPLY ARE NOT ENOUGH NEW CHEVROLETS TO GO AROUND

We are getting our fair share of the current production of new Chevrolet passenger cars and trucks. And as strikes and shortages decrease, as the Chevrolet plants are able to produce more and more new passenger cars and trucks, we'll get more and more of them to deliver to our customers.

Meanwhile, as long as shortages do exist, it is our purpose to apportion our share of the new Chevrolets available fairly and justly among the many customers, new and old, whose continued friendship and patronage are the keystone of our business.

So that you may have no doubt as to our method of distribution of new Chevrolet passenger cars and trucks, we make the following—

### DECLARATION OF POLICY

1. PRIORITY OF DELIVERY—New Chevrolet cars and trucks will be apportioned on the basis of: (1) essential public services, (2) veterans' occupational requirements, (3) priority of date in placing orders.
2. PRICES—All new Chevrolet cars and trucks will be sold at the authorized prices current at time of delivery.
3. TRADE-INS—No trade-in will be required from any customer who does not have a car to dispose of at the time of the transaction. Customers who do have cars will be given allowances based on honest appraisal and fair value at the time of delivery.

4. ACCESSORIES—No customer will be asked to purchase accessories as a condition of securing delivery.
5. STATUS OF ORDERS—Customers will be informed, upon request, of the true status of their orders in our files.
6. NEW ORDERS—We welcome your order for a new Chevrolet at any time.

WE THANK YOU FOR  
YOUR PATIENCE AND LOYALTY  
IN AWAITING DELIVERY OF  
YOUR NEW CHEVROLET

## Santa Fe ..that's the System!

One shipper tells another:  
the way to get better on-  
time delivery of freight ship-  
ments to and from the West  
and Southwest is to ship  
Santa Fe.

Here are some of the reasons Santa Fe keeps freight service "on the advertised" (which is railroad language for "on-time performance"):

- 1 || world's largest fleet of freight diesel locomotives.
- 1 || more miles of double track than any other western road.
- 1 || more miles of Centralized Traffic Control, which enables freight trains to meet and pass non-stop.
- 1 || world's largest private telephone system, to keep shipments moving more swiftly.
- 1 || increased yard capacity, and improvements along the line, such as curve straightening, new bridges, longer sidings.

It all adds up to getting what you want where and when you want it, when you ship Santa Fe.

Ship Santa Fe all the way

**Watch Your Kidneys!**

**Help Them Cleanse the Blood of Harmful Body Waste** Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, resting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use **Doan's Pills**. **When Friends Drop In**

This is a no-fail cake made by the new, mix-easy method. Raisin filling is tucked in between the layers and the cake is frosted with a tangy lemon frosting.

As weather gets cooler and we tend to stay indoors more, we're bound to be doing some entertaining. No, it probably won't be anything fancy or fussy, but a homemaker is always on the look-out for easily prepared tidbits of deliciousness that will make the evening more pleasant.

The efficient hostess will always see that there are a few cookies stored away in a tin or jar that the family can't reach. Let's call it an insurance cookie jar, if you please, for then you can always be sure of having something on hand to serve with fruit or beverage when friends drop in.

Another idea that has taken many a woman's fancy is a snack shelf. On this she keeps small plates and napkins, cups and glasses and a store of things handy to fix and good to eat. Cheese and cakes or biscuits, thin wafers, jams and jellies, pickles, olives and perhaps jars of delectable snacks are some suggestions you might use in filling a shelf of your own.

As a starter, you'll like these cookie ideas:

- Apple-Butter Cookies. (Makes 2 dozen)**
- 1/2 cup shortening
  - 1 cup brown sugar, firmly packed
  - 1 egg, beaten
  - 1/2 teaspoon salt
  - 1/2 teaspoon baking soda
  - 3 cups sifted flour
  - 1/2 cup buttermilk
  - 1/2 cup apple butter or tart jam
  - Granulated sugar

Cream shortening and sugar until fluffy. Add egg. Sift together dry ingredients and add alternately with buttermilk to the mixture. Chill until easy to handle. Roll to 1/8" thickness on lightly floured board. Cut with a round cutter. Put together 2 pairs with 1 teaspoon of apple butter or jam. Press edges together with fork. Sprinkle with sugar. Place on greased sheets about 1" apart. Bake in a hot (400 degrees) oven for 12 to 15 minutes.

- Molasses Crisps. (Makes 3 dozen)**
- 1/2 cup molasses
  - 1/4 cup shortening
  - 1 3/4 cups sifted flour
  - 3/4 teaspoon soda
  - 1/2 teaspoon ginger
  - 1 teaspoon grated orange rind

Bring molasses and shortening to a boil. Cool slightly; add remaining ingredients and mix well. Chill several hours or overnight. Roll on floured board to 1/8" thickness. Cut in desired shapes and place on baking sheets. Bake in moderately hot (375 degrees) oven for 8 minutes. When cool frost with powdered sugar and water icing. Before icing has a chance to set, decorate with red or green sugar or tiny candies.

Another good idea is to make enough cake that will last for entertaining several times. A good, fruitily cake will keep well; in fact, will mellow with age.

- Pound Fruit Cake. (Makes 3 pounds)**
- 1 cup blanched almonds, cut in strips
  - 1/2 cup diced preserved cherries
  - 1 cup diced, preserved orange peel

**Pointers on Making Cakes**

Sift flour into paper plates which can be used over and over again when making cakes. This will save washing dishes. Set bowl on a towel when creaming and mixing ingredients as this keeps it from slipping and keeps the bowl steady. Remove eggs from refrigerator some time before using as they beat more easily.

**LYNN CHAMBERS' MENUS**

- Broiled Salmon Steaks
- Lemon Wedges
- Boiled Potatoes
- Buttered Broccoli
- Lettuce with Vinegar Dressing
- Raised Rolls
- Beverage
- Lemon Chiffon Pie

- 1/2 cup diced, preserved citron
- 2 1/2 cups sifted flour
- 1 cup butter or substitute
- 1 cup granulated sugar
- 5 eggs
- 1 teaspoon baking powder
- 1/4 teaspoon salt
- 1 teaspoon grated lemon rind
- 1 tablespoon lemon juice

Mix nuts and fruits with 1/2 cup of the flour. Cream butter, add sugar and work together until light and fluffy. Add eggs, unbeaten, one at a time, and beat thoroughly after each addition. Sift together dry ingredients and stir with lemon rind and juice into batter. Add fruit mixture and stir until well blended. Bake in greased heavy waxed paper lined loaf pans in a moderate (325 degrees) oven for 1 3/4 hours.

With cake flour again available after its long absence, you can plan an all-out celebration for family or friends by making the kind of cake everyone has dreamed about for months. Even a beginner can make a tender, fine-textured cake because of this mix-easy recipe:

- Ribbon Cake.**
- 2 cups sifted cake flour
  - 2 teaspoons double-acting baking powder
  - 3/4 teaspoon salt
  - 1 1/4 cups sugar
  - 1 cup shortening
  - 3/4 cup milk
  - 2 eggs, unbeaten
  - 1 teaspoon vanilla
  - 1/2 teaspoon cinnamon
  - 1/8 teaspoon cloves
  - 1/8 teaspoon nutmeg

Sift flour once; measure into sifter with baking powder, salt and sugar. Have shortening at room temperature; mix or stir just to soften. Sift dry ingredients; add milk and mix until all flour is dampened. Then beat 2 minutes. Add eggs and vanilla and beat 1 minute longer.

Line bottoms of 2 8-inch pans with waxed paper, then grease. Turn half of batter into 1 layer pan. To remaining batter add molasses and spices, mixing only enough to blend. Turn into other layer pan. Bake in a moderate oven (375 degrees) for 25 minutes. Spread raisin filling between layers and lemon icing on top of cake.

If you are serving tea when entertaining, make it delicious by bringing the water to the boiling point and then allowing the tea to steep from three to five minutes.

**Raisin Filling.** Mix together 1 tablespoon cornstarch, 1/2 cup sugar, dash of salt, 1/2 cup raisins, finely chopped, 1 teaspoon lemon juice and 1/4 teaspoon grated lemon rind. Add 1/2 cup of water and mix well. Cook gently 3 to 5 minutes, stirring constantly until thick and clear. Add 1 teaspoon butter or substitute and blend. Cool.

**Lemon Icing.** Cream together 1/2 teaspoon grated lemon rind and 1 tablespoon butter; add 1/2 cup of confectioners' sugar gradually, beating well. Add a dash of salt, then 1/2 cup more of confectioners' sugar alternately with 2 teaspoons of lemon juice and 1 teaspoon water, beating until smooth and of the right consistency to spread.

Released by Western Newspaper Union.

**LYNN SAYS:**

If you like cakes a little darker than they are ordinarily made, set the temperature a few degrees high and bake the allotted amount of time. Or, let the cakes stay in the oven a few minutes longer. Try the reverse procedure if you like them just faintly browned. If you want to save sugar on icings, use a prepared filling in between the layers in place of icing.

**PAUL FOUNDS THE CHURCH AT PHILIPPI**

LESSON TEXT — Acts 16:11-15; Philip. Plans 2:5-11. MEMORY SELECTION — I can do all things through Christ which strengtheneth me.—Philippians 4:13.

Missionary zeal keeps a Christian in action for God. After a time at the church in Antioch, the urge to preach the gospel sent Paul out on his second missionary journey. This time his partner was Silas, because he and Barnabas had separated over taking Mark along, since he had turned back in the midst of the first missionary journey. Timothy took his place (Acts 16:1-5).

Our lesson is of unusual import because it tells us how the gospel first came to Europe, from whence it later came to America. Paul's efforts to continue his ministry in Asia were hindered by the Holy Spirit (Acts 16:6, 7). It was then that he was given a heaven-sent vision of a man in Macedonia crying for help. At once the party set out to obey the leading of the Holy Spirit (Acts 16:9, 10).

**I. Paul's Ministry to the Philipians (Acts 16:11-15).**

Philippi was an important city, a Roman colony and outpost. Apparently the Jews who had come there to live had not felt any strong desire for religious fellowship, for they had built no synagogue. Certain godly women met on the Sabbath by the riverside for prayer. Here was Paul's opportunity and he took it.

The story of the conversion of Lydia has many elements of special interest. It presents the turning point in the progress of the gospel, which by the grace and leading of God brought it northward to Europe rather than southward into Africa or eastward through Asia. Many of us have heard because of the way Paul was led, and one wonders if Europe and America might not otherwise have been the "dark continents" rather than Africa and India. We are what we are by the grace of God. He sent us the gospel through Paul that day at Philippi.

Then we note that the first convert was a woman. She was not the last woman to give an attentive ear and a believing heart to the gospel message. The church through all its history has been blessed by the readiness of women to bear and heed the gospel.

We like to note that Lydia set a pattern of hospitality and service which her sisters in the church have maintained (see v. 15). She "constrained" the visiting preachers to enjoy the comforts of her home, and thus put forward the work of Christ (see III John 5-8).

It is encouraging to observe how perfectly the leading of the Holy Spirit worked out in the experience of Paul and his brethren. The Lord sent his prepared messenger to the place where there was a prepared heart waiting to receive the Word. We may confidently go on the errands of our God, knowing that when he leads he goes before and prepares the way. That does not mean that there will be no trials and difficulties. Paul had plenty of them (see II Cor. 11:23-33). But it does mean that we may go with the assurance of blessed results, in his name, and with the grace to bear whatever comes along the way for his glory.

The second Scripture portion of our lesson is not related to the first except that it gives a portion of the letter which Paul, by the inspiration of the Holy Spirit, wrote to the church which he had helped to establish at Philippi about 12 years later.

**II. Paul's Message to the Philipians (Phil. 2:5-11).** Although after Lydia's conversion Paul met opposition and suffered imprisonment (Acts 16:16-40), that was only the beginning of a blessed ministry there.

The church at Philippi though poor and persecuted was loyal and warmhearted. They sent a generous gift to Paul, who was in prison in Rome. He wrote to thank them, and his letter became a real hymn of joy and assurance. It discusses Christian experience, its principle, pattern, purpose and power.

Chapter 2 presents the mind of Christ as the pattern of true Christian living. Nothing is to be done for vain glory (v. 3), but in the spirit of Christ, who willingly gave up his glory with the Father that he might become our Saviour. It has well been said that if he had not done so, we should have been amazed at his glory, but we should never have been saved.

He who might have "grasped" (v. 6, R. V.) his equality with God, laid it aside that as a man he might die for the salvation of lost mankind (v. 8).

Little wonder that God has given him such a high and exalted position (vv. 9-11). One day every tongue shall confess that he is Lord. Hasten the day!

## Forces of Attraction Hold the Moon "Up" in the Sky....and OIL-PLATE Your Engine!

THE moon isn't really "up" in the sky, but it is held from flying off into space by gravitational attraction between it and the earth.

Exploring the realms of molecular attraction, Conoco chemists have been able to bring America new and better oils. In fact, the force of molecular attraction bonds a special ingredient in Conoco N<sup>th</sup> motor oil to working surfaces of your engine. So strong is this attraction that cylinder walls and other parts are OIL-PLATED.

And because molecular attraction holds Conoco OIL-PLATING up where it belongs... prevents it from all draining down to the crankcase, even overnight, you get these benefits:

- added protection when your engine starts up
- added protection from corrosive action
- added protection from wear that leads to fouling sludge and carbon
- added smooth, silent cranks

That's why to OIL-PLATE now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Co.

### THERE SIMPLY ARE NOT ENOUGH NEW CHEVROLETS TO GO AROUND

We are getting our fair share of the current production of new Chevrolet passenger cars and trucks. And as strikes and shortages decrease, as the Chevrolet plants are able to produce more and more new passenger cars and trucks, we'll get more and more of them to deliver to our customers.

Meanwhile, as long as shortages do exist, it is our purpose to apportion our share of the new Chevrolets available fairly and justly among the many customers, new and old, whose continued friendship and patronage are the keystone of our business.

So that you may have no doubt as to our method of distribution of new Chevrolet passenger cars and trucks, we make the following—

## DECLARATION OF POLICY

**1. PRIORITY OF DELIVERY**—New Chevrolet cars and trucks will be apportioned on the basis of: (1) essential public services, (2) veterans' occupational requirements, (3) priority of date in placing orders.

**2. PRICES**—All new Chevrolet cars and trucks will be sold at the authorized prices current at time of delivery.

**3. TRADE-INS**—No trade-in will be required from any customer who does not have a car to dispose of at the time of the transaction. Customers who do have cars will be given allowances based on honest appraisal and fair value at the time of delivery.

**4. ACCESSORIES**—No customer will be asked to purchase accessories as a condition of securing delivery.

**5. STATUS OF ORDERS**—Customers will be informed, upon request, of the true status of their orders in our files.

**6. NEW ORDERS**—We welcome your order for a new Chevrolet at any time.

WE THANK YOU FOR  
YOUR PATIENCE AND LOYALTY

## Santa Fe

..that's the System!

One shipper tells another: the way to get better on-time delivery of freight shipments to and from the West and Southwest is to ship Santa Fe.

Here are some of the reasons Santa Fe keeps freight service "on the advertised" (which is railroad language for "on-time performance"):

- ||| world's largest fleet of freight diesel locomotives;
- ||| more miles of double track than any other western road.
- ||| more miles of Centralized Traffic Control, which enables freight trains to meet and pass non-stop.
- ||| world's largest private telephone system, to keep shipments moving more swiftly.
- ||| increased yard capacity, and improvements along the line, such as curve straightening, new bridges, longer sidings.

It all adds up to getting what you want where and when you want it, when you ship Santa Fe.

Ship Santa Fe all the way

## When Friends Drop In

This is a no-fail cake made by the new, mix-easy method. Raisin filling is tucked in between the layers and the cake is frosted with a tangy lemon frosting.

As weather gets cooler and we tend to stay indoors more, we're bound to be doing some entertaining. No, it probably won't be anything fancy or fussy, but a homemaker is always on the look-out for easily prepared tidbits of deliciousness that will make the evening more pleasant.

The efficient hostess will always see that there are a few cookies stored away in a tin or jar that the family can't reach. Let's call it an insurance cookie jar, if you please, for then you can always be sure of having something on hand to serve with fruit or beverage when friends drop in.

Another idea that has taken many a woman's fancy is a snack shelf. On this she keeps small plates and napkins, cups and glasses and a store of things handy to fix and good to eat. Cheese and cakes or biscuits, thin wafers, jams and jellies, pickles, olives and perhaps jars of delectable snacks are some suggestions you might use in filling a shelf of your own.

As a starter, you'll like these cookie ideas:

**Apple-Butter Cookies.** (Makes 2 dozen)

1/2 cup shortening  
1 cup brown sugar, firmly packed  
1 egg, beaten  
1/2 teaspoon salt  
1/2 teaspoon baking soda  
3 cups sifted flour  
1/2 cup buttermilk  
1/2 cup apple butter or tart jam  
Granulated sugar

Cream shortening and sugar until fluffy. Add egg. Sift together dry ingredients and add alternately with buttermilk to the mixture. Chill until easy to handle. Roll to 1/4" thickness on lightly floured board. Cut with a round cutter. Put together 2 pairs with 1 teaspoon of apple butter or jam. Press edges together with fork. Sprinkle with sugar. Place on greased sheets about 1" apart. Bake in a hot (400 degrees) oven for 12 to 15 minutes.

**Molasses Crisps.** (Makes 3 dozen)

1/2 cup molasses  
1/4 cup shortening  
1 1/4 cups sifted flour  
3/4 teaspoon soda  
1/2 teaspoon ginger  
1 teaspoon grated orange rind

Bring molasses and shortening to a boil. Cool slightly; add remaining ingredients and mix well. Chill several hours or overnight. Roll on floured board to 1/8" thickness. Cut in desired shapes and place on baking sheets. Bake in moderately hot (375 degrees) oven for 8 minutes. When cool frost with powdered sugar and water icing. Before icing has a chance to set, decorate with red or green sugar or tiny candies.

Another good idea is to make enough cake that will last for entertaining several times. A good, fruity cake will keep well; in fact, will mellow with age.

**Pound Fruit Cake.** (Makes 3 pounds)

1 cup blanched almonds, cut in strips  
1/2 cup diced preserved cherries  
1 cup diced, preserved orange peel

Sift flour into paper plates which can be used over and over again when making cakes. This will save washing dishes.

Set bowl on a towel when creaming and mixing ingredients as this keeps it from slipping and keeps the bowl steady.

Remove eggs from refrigerator some time before using as they beat more easily.

Buttered Broccoli  
Lettuce with Vinegar Dressing  
Raised Rolls Beverage  
Lemon Chiffon Pie

1/2 cup diced, preserved citron  
2 1/2 cups sifted flour  
1 cup butter or substitute  
1 cup granulated sugar  
5 eggs  
1 teaspoon baking powder  
1/4 teaspoon salt  
1 teaspoon grated lemon rind  
1 tablespoon lemon juice

Mix nuts and fruits with 1/2 cup of the flour. Cream butter, add sugar and work together until light and fluffy. Add eggs, unbeaten, one at a time, and beat thoroughly after each addition. Sift together dry ingredients and stir with lemon rind and juice into batter. Add fruit mixture and stir until well blended. Bake in greased heavy waxed paper lined loaf pans in a moderate (325 degrees) oven for 1 1/2 hours.

With cake flour again available after its long absence, you can plan an all-out celebration for family or friends by making the kind of cake everyone has dreamed about for months. Even a beginner can make a tender, fine-textured cake because of this mix-easy recipe:

**Ribbon Cake.**

2 cups sifted cake flour  
2 teaspoons double-acting baking powder  
3/4 teaspoon salt  
1 1/2 cups sugar  
1/2 cup shortening  
3/4 cup milk  
2 eggs, unbeaten  
1 teaspoon vanilla  
1/2 teaspoon cinnamon  
1/2 teaspoon cloves  
1/4 teaspoon nutmeg

Sift flour once; measure into sifter with baking powder, salt and sugar. Have shortening at room temperature; mix or stir just to soften. Sift dry ingredients; add milk and mix until all flour is dampened. Then beat 2 minutes. Add eggs and vanilla and beat 1 minute longer.

Line bottoms of 2 8-inch pans with waxed paper, then grease. Turn half of batter into 1 layer pan. To remaining batter add molasses and spices, mixing only enough to blend. Turn into other layer pan. Bake in a moderate oven (375 degrees) for 25 minutes. Spread raisin filling between layers and lemon icing on top of cake.

**Raisin Filling.**

Mix together 1 tablespoon cornstarch, 1/2 cup sugar, dash of salt, 1/2 cup raisins, finely chopped, 1 teaspoon lemon juice and 1/4 teaspoon grated lemon rind. Add 3/4 cup of water and mix well. Cook gently 3 to 5 minutes, stirring constantly until thick and clear. Add 1 teaspoon butter or substitute and blend. Cool.

**Lemon Icing.**

Cream together 1/4 teaspoon grated lemon rind and 1 tablespoon butter; add 1/2 cup of confectioners' sugar gradually, beating well. Add a dash of salt, then 1/2 cup more of confectioners' sugar alternately with 2 teaspoons of lemon juice and 1 teaspoon water, beating until smooth and of the right consistency to spread.

## LYNN SAYS:

If you like cakes a little darker than they are ordinarily made, set the temperature a few degrees high and bake the allotted amount of time. Or, let the cakes stay in the oven a few minutes longer. Try the reverse procedure if you like them just faintly browned.

If you want to save sugar on icings, use a prepared filling in between the layers in place of icing.

### PAUL FOUNDS THE CHURCH AT PHILIPPI

LESSON TEXT — Acts 16:11-15; Philipplans 2:5-11  
MEMORY SELECTION — I can do all things through Christ which strengtheneth me.—Philippians 4:13

Missionary zeal keeps a Christian in action for God. After a time at the church in Antioch, the urge to preach the gospel sent Paul out on his second missionary journey. This time his partner was Silas, because he and Barnabas had separated over taking Mark along, since he had turned back in the midst of the first missionary journey. Timothy took his place (Acts 16:1-5).

Our lesson is of unusual import because it tells us how the gospel first came to Europe, from whence it later came to America. Paul's efforts to continue his ministry in Asia were hindered by the Holy Spirit (Acts 16:6, 7). It was then that he was given a heaven-sent vision of a man in Macedonia crying for help. At once the party set out to obey the leading of the Holy Spirit (Acts 16:9, 10).

**I. Paul's Ministry to the Philippians** (Acts 16:11-15).

Philippi was an important city, a Roman colony and outpost. Apparently the Jews who had come there to live had not felt any strong desire for religious fellowship, for they had built no synagogue. Certain godly women met on the Sabbath by the riverside for prayer. Here was Paul's opportunity and he took it.

The story of the conversion of Lydia has many elements of special interest. It presents the turning point in the progress of the gospel, which by the grace and leading of God brought it northward to Europe rather than southward into Africa or eastward through Asia. Many of us have heard because of the way Paul was led, and one wonders if Europe and America might not otherwise have been the "dark continents" rather than Africa and India. We are what we are by the grace of God. He sent us the gospel through Paul that day at Philippi.

Then we note that the first convert was a woman. She was not the last woman to give an attentive ear and a believing heart to the gospel message. The church through all its history has been blessed by the readiness of women to bear and heed the gospel.

We like to note that Lydia set a pattern of hospitality and service which her sisters in the church have maintained (see v. 15). She "constrained" the visiting preachers to enjoy the comforts of her home, and thus put forward the work of Christ (see III John 5-8).

It is encouraging to observe how perfectly the leading of the Holy Spirit worked out in the experience of Paul and his brethren. The Lord sent his prepared messenger to the place where there was a prepared heart waiting to receive the Word.

We may confidently go on the errands of our God, knowing that when he leads he goes before and prepares the way. That does not mean that there will be no trials and difficulties. Paul had plenty of them (see II Cor. 11:23-33). But it does mean that we may go with the assurance of blessed results, in his name, and with the grace to bear whatever comes along the way for his glory.

The second Scripture portion of our lesson is not related to the first except that it gives a portion of the letter which Paul, by the inspiration of the Holy Spirit, wrote to the church which he had helped to establish at Philippi about 12 years later.

**II. Paul's Message to the Philippians** (Phil. 2:5-11).

Although after Lydia's conversion Paul met opposition and suffered imprisonment (Acts 16:16-40), that was only the beginning of a blessed ministry there.

The church at Philippi though poor and persecuted was loyal and warmhearted. They sent a generous gift to Paul, who was in prison in Rome. He wrote to thank them, and his letter became a real hymn of joy and assurance. It discusses Christian experience, its principle, pattern, purpose and power.

Chapter 2 presents the mind of Christ as the pattern of true Christian living. Nothing is to be done for vain glory (v. 3), but in the spirit of Christ, who willingly gave up his glory with the Father that he might become our Saviour. It has well been said that if he had not done so, we should have been amazed at his glory, but we should never have been saved.

He who might have "grasped" (v. 6, R. V.) his equality with God, laid it aside that as a man he might die for the salvation of lost mankind (v. 8).

Little wonder that God has given him such a high and exalted position (vv. 9-11). One day every tongue shall confess that he is Lord. Hasten the day!

The public is invited to remember the gift box being prepared for veterans who are in hospitals. These gifts are being sent to veterans so that they may in turn prepare X-mas gifts for loved ones back at home. Gifts may be left at H & S Auto Store. This box should be sent by Nov. 15th so please hurry.

The Fourth grade enjoyed a Hall-oween party in their room last Thursday afternoon. Thanks to Mr. Simpson for helping with our Hall-oween entertainment.

We also wish to thank Mrs. Naymon Everett for the nice Hall-oween horns she sent us.

The Fourth grade and Mrs. Vermillion wish to thank all those who helped Nancy Everett to be Grade School queen. She will be crowned Thursday night.

SIXTH GRADE: Our candidate, Rita Sue Randolph, won third place in the grade school race.

EIGHTH GRADE NEWS: The eighth grade class had a Halloween party October 31 and was enjoyed by all. Mrs. Gooch presented the class with one candy bar each. Our queen candidate, Cleo Fultz, won second place.

FOURTH GRADE: Those making 100 all week in Arithmetic are: Frankie Jo Young and Catherine Wilson.

Those making 100 all week in spelling are: Gwendolyn Gaas, Mary Francis Pierce, Catherine Wilson, Carl Gene Jones, Frankie Jo Young Gerold Davis.
