

Folks You Know

Mr and Mrs. Don Smith have moved to Albuquerque to make their home.

Mr and Mrs. Ervin Jones visited in Colorado City Sunday.

Mr and Mrs. Cleon Eason and relatives of Lubbock returned last week from an extensive tour of Mexico City.

For Sale — 4 room house, Florence Taylor estate, 8650 Mrs. Earl way, Rt. 3 20p

GAIL WINS 44TH STRAIGHT GAME

The Borden County Gail Coyotes racked up their 44th straight win and the 23rd victory this year. They took Pettite 65 to 6 in District 1 B eight man football last Friday.

Rev. and Mrs. J O Brown and children, Assembly of God Missionaries to the Pima Indians at Chandler, Ariz. will speak at the local Assembly of God Church Wednesday night at 7:30 showing slides of their work. Everyone is cordially invited.

Will buy USED furniture, O'Donnell Bargain Store

Mr and Mrs. W E Wood of Colorado City visited his sister in hospital in Lamesa. Mrs. B. K. Cooley had surgery there. They had Sunday dinner with Mr and Mrs. H L Wood.

Congratulations to Dr and Mrs Carl Paze of Dimmitt on arrival of a fine 6 lb daughter last week.

Jordan Goddard escaped injury when his pickup was hit Sunday morning by a car driven by a Negro. Mr Goddard was on 87 highway near Barrington residence traveling toward town when the Negro entered from a side street hitting him.

Mr. and Mrs. Troy Veach of Muleshoe spent the week end here.

Tampa Richardson, daughter of Mr and Mrs. Loyd Richardson, celebrated her birthday with a party at her home Friday afternoon from 4 to 6.

Mr and Mrs. W W Caswell and Mr and Mrs. F M Jones visited with relatives in Levelland Sunday.

Mrs. Elsie Brewer spoke to the MY of Methodist Church using 3rd psalm as the theme.

The Lydia Sunday School class of the First Baptist Church enjoyed their annual Thanksgiving luncheon Monday at noon in the home of Mrs R. C. Carroll. Twelve members were present for turkey and all the trimmings.

Jackie Tatum, granddaughter of Mr and Mrs. John Tidwell, received scratches Friday when she fell from a frightened horse.

The Jr. Hi Football banquet will be Nov. 21st at Cafeteria

Miss Polly Etter of Canyon visited her mother, Mrs. Vera Etter over week end.

Mrs. C F Thompson and Mrs. C W Stubbfield were in Lubbock Monday to be with Mrs. Farrell Farrington who had surgery in West Texas hospital Monday.

Members of O'Donnell Fire Department enjoyed a barbecue at fire hall Monday night.

A round up of local gins Tuesday morning showed 19,890 bales being ginned from this year's crop. About half the Mexican nationals have returned home and more are leaving this week end. Gins are running to capacity and the crop is estimated at 65 to 75 completed. Open weather is favoring a rapid harvest.

Look Who's New — Congratulations to Mr and Mrs. Ken Patton of Kermit on arrival of a fine new track star, Cecil Jackson, born Sunday weighing 7 lb 11 oz.

Theory is all right for the books, but it takes practical expression of ideas is make life better.

OBSCENITY IN THE MAILS

Suppose you received objectionable materials in the mail. Can you call your postmaster and have him stop such mail?

Changes are he can't, at least right away, and without having the postal authorities start an action which may wind up in court. This may entail a knotty problem.

Low Priced, Quality Private

O'DONNELL

39th year No. 12 O'DONNELL, LYNN COUNTY, TEXAS

SOIL TESTING SERVICE TO BE AVAILABLE

Area Soil Chemist James H. Valentine, A. and M. College Extension Service, has completed preparations for the formal opening of a new Soil Testing Laboratory in Lubbock. Above, he is making a final check of the delicate chain balance which is used to measure the minute quantities of chemicals required in running a soil analysis.

QUESTION AND ANSWERS ON WATER AUTHORITY

- 1. Will the project be financed thru ad valorem or property taxes? A. No.
2. Will the project be financed thru bonded indebtedness? A. No.
3. How will it be financed? A. By revenue from water sales?
4. Who is eligible to vote in this election?
A. All presently qualified voters in the city of O'Donnell.
Necessity of the project —
1. Do we need the Canadian River project?
Yes, The Canadian River is the only known source of a permanent water supply for O'Donnell.
2. What is the estimated cost of the project?
A. \$92,960,000. Of this amount O'Donnell's part of the cost is \$425,000 payable over a 50 year period. An additional cost of \$3,130,000 will be paid by the Federal Government for flood control.
3. What is the capacity of the Reservoir?
A. 1,331,500 acre feet — this is over 10 times the capacity of Lake J B Thomas
4. What will be the quality of the water?
A. All reports indicate that it will be of higher quality than most underground water now being used in the member cities.
5. Will the water be treated?
Yes. It has not been determined whether the city will build its own treatment plant or one central plant for all or part of the cities.
Cost figures do not include the treatment of water.
6. Is the flow of the river sufficient to maintain the project planned?
A. Yes. After checking records over a long period of time, engineers have certified that even in severe drought periods a minimum dependable yield in excess of 103,000 acre feet (92 million gallons per day) the amount contracted for by member cities, can be expected from the reservoir drainage area of 12,455 sq. miles.
Project Effect On Member Cities —
1. Will the price of the water be the same for all cities?
A. No.
2. Why is there a difference in rates?
A. Because it cost a lot more to build the pipelines to the southernmost cities. O'Donnell and other cities in the area below Lubbock are not charged any on construction costs of the reservoir. We share only in the aqueduct costs.
3. Can the average water user in O'Donnell expect an increase in water rates?
A. Yes. With or without the river project, water rates will have to be increased in O'Donnell over the coming years. Cost of producing underground water continues to go up each year. We are at the point that we must spend more for exploration and yet we still remain short of water in the city.
4. When do we start paying?
A. When we start getting the water.
5. How much water will O'Donnell get?
A. Under our contract we can receive as much as 90 million gallons annually. We can start by taking only 60 percent of this figure 54 million gal. each year and gradually increase this for 20 years.
6. What will the water rates per 1000 gal. be for the various cities?
A. Pampa, 13.52, Borger 12.88, Amarillo, 12.90, Flatview 14.13, Lubbock, 17.66, Slaton, 21.70, Tahoka, 22.85, O'Donnell 25.43, Lamesa 29.16, Levelland, 27.85, and Brownfield 29.13
7. Who is going to build the dam and pipelines?
A. The Bureau of Reclamation will let the contracts on a bid basis to private contractors.
8. What happens if we fail to approve these contracts?
A. We give up all rights to Canadian River water. Then we will have to rely solely upon underground water which is being depleted annually. In this area our chances for

Jr. Hi Has Good Season

The O'Donnell Junior High 8th grade team came thru the season like everyone wanted them to — they won their district title again this year. They worked hard but now realize that the hard work was worth the glory and good wishes they received. The 8th grade was NOT scored upon except one team while the B team was playing. They played ball with their heads as well as their hearts. Coach James Thompson said.

The 7th grade didn't do as well but with more experience, training and work they will field a winning team next year. It has been a swell year for the Eaglets — and everybody's HAPPY

The redempting committee from the state Department of Education will be in the local school system on Dec. 2nd. The committee will observe all phases of the school program.

The Senior English class has begun its annual term project with assignments in compilation of a book entitled "Profile of England in Literature." Mrs. Virgil Bolch is the teacher.

Country Editor

Next Tuesday is "the moment of truth" for Big O as her sons and daughters go to ballot on approval of a contract with the Canadian River Authority. In 1953 when the town voted to join the Authority the approval here was 100 percent and civic workers hope this will again be the case.

Down thru the years the town has had a number of local men as directors on the Authority including Sumner Clayton, Jr., J T Forbes and now the current director, Wayland Taylor. During all the years, the various city councils here have worked for the project. Until recent months the project was in a "knot" due to conflict of interests of Lubbock and Amarillo.

When approved next Tuesday by member cities, the project should be completed by 1967. There seems to be no opposition locally as all of us know how we need water for future growth which is sure to come with water.

At this time our hat is off to A. A. Merideth, genial secretary of the Authority and of Borger, who, at times, carried the "baby" by himself. We wish all of O'Donnell could know him.

Water

The Canadian River Water Authority has called for Nov. 22 n the various towns to vote for or against the Authority the right to contract with the U. S. Government for a loan of \$30,000,000 appropriated for the project to furnish water to towns forming the Authority.

Also on November 22 (Tuesday) on separate ballots will express their wishes against the City of O'Donnell a water contract with Canadian River Municipal Authority.

The City of O'Donnell's would be 25.43 cents per 1,000 gallons of untreated water delivered from the proposed lake on the Canadian River near Borger to local city also necessarily be applied to individual rates, according to Mayor L. J. Hash, Jr. This of treating the water, however, will be very small and the latter will not increase the individual rates any important degree.

The proposed rates, made by the U. S. Bureau of Reclamation, are figured on the distance of the town involved to the lake. The cities near the lake would have lower rates while those at the distance would be somewhat higher because of the expense of pipelines.

Originally the rates for all member cities were set the same but some near the lake refused to agree to the proposal under those conditions. Members of the Authority include Amarillo, Lubbock, Plainfield, Borger, Pampa, O'Donnell, Lamesa, Brownfield, Levelland, Tahoka and Slaton. Voting here will be the City Hall from 8 to 7.

24 acres and modern home 1-2 mile from town, Luther Kenley Real Estate 2c

B. B. Team Listed

Members of boys high school basketball team are — Thomas Agnew, Sr., Billy Amaro, Jr., Sammy Anderson, Sr., Weidon Bessire, Sr., Gary Bowles, Sr., Charles Burleson, Sr., Reynaldo Casarez, Fr., Dale Finch, Jr., Bobby Joe Furlow, Sr., Danny Furlow, Sr., Jimmy Garrett, Sr., Mack Isaacs, Sr., Fernando Lopez, Sr., Jesse Lopez, Fr., Rosenda Luna, Fr., Buddy Mahurin, Sr., Coy Mahurin, Sr., Roy Mahurin, Sr., Bob Moore, Fr., Alton Newby Jr., Ronald Casarez, Fr., Buster Sanguero Jr., Jerry Utecht, Fr., Wendell White, Sr., Charley Shaw, Sr.

Friday night, Nov. 18th Cub Scouts and Boy Scouts and their parents are invited to a film of the recent Scout Jamoree taken by a Lubbock man, Time is 7:30 at Legion hall.

ALL STORES WILL BE CLOSED HERE NEXT THURSDAY FOR THANKSGIVING

Homer Dan Vaughn and Wendell McClelland, Texas Tech students from here and their two Tech girl friends were in a traffic mishap Sunday on Ave. Q in Lubbock. Their car was hit on the side by another entering from a side street. Homer Dan was the only one injured with a broken collar bone.

SILENT KILLERS

The thick compilation of statistics is entitled "Accidental Poisoning by Gases and Vapors." Published by the Texas State Department of Health, it shows there were 44 such deaths in Texas in 1959. Some were caused by open gas jets which should have been closed tightly or capped when in prolonged disuse. Others were the result of inhaling certain toxic chemical substances.

But most poisonings by gases and vapors are the direct results of carbon monoxide — the silent killer. During the chilling days of winter, hardly a week goes by that someone somewhere in Texas does not die from carbon monoxide poisoning. Such deaths come under the broad heading of "accidental" but a more apt heading would be "careless."

The fact of the matter is that carbon monoxide poisoning is the end result of improperly adjusted heaters, leaky vents or none at all, and lack of ventilation in rooms where any kind of fire is burning.

Perhaps the greatest danger lies in the tasteless, odorless, and colorless character of carbon monoxide. Unless you have complicated testing equipment and keep checking about every 15 minutes, there is absolutely no warning of the presents of the gas until symptoms appear.

Even these symptoms are masked. A seemingly mild headache, slightly watering eyes or a touch of upset stomach are easily mistaken for a cold; when they may really be early symptoms of carbon monoxide poisoning.

If sleeping in a closed room with a faulty heater burning, death may come without waking or warning. In fact, most carbon monoxide deaths follow this pattern.

Regardless of the heating fuel, precautions must be taken, since carbon monoxide is the result of incompletely burned fuel. Proper venting should be installed with outlets leading outside the building and carefully checked for leaks. Under all conditions ventilation is a must, if nothing more than a "cracked" window.

Water Authority

The Canadian River Water Authority has called for Nov. 22 n the various towns to vote for or against the Authority the right to contract with the U. S. Government for a loan of \$30,000,000 appropriated for the project to furnish water to towns forming the Authority.

Also on November 22 (Tuesday) on separate ballots will express their wishes against the City of O'Donnell a water contract with Canadian River Municipal Authority.

School Menu

Wednesday — Barbecued beef, white beans, onion slice, jello salad, corn bread, butter, milk.
Thursday — meat loaf, green peas, creamed potatoes, carrot stick rolls, butter, milk, apricots.
Friday — fish sticks, green lima cheese and macaroni, cabbage slaw, corn bread, butter, milk.
Monday — tomatoes, cheese wedges, blackeye peas, buttered corn, peas, half, corn bread, butter, milk.
Tuesday — turkey, and dressing, green beans, celery stick, fruit salad, bread, butter, milk.

Mayor L. J. Hash said Monday that the City will put in a few more new street lights. Folks wishing street lights in or near their home should see Mayor Hash within the next ten days.

Baptists Call Bro. Troy Dale As Pastor

Rev. Troy Dale, pastor of a Baptist Church at Houston, filled the pulpit here Sunday morning and night. At the night service the local church voted to call the Rev. Mr. Dale as its pastor. Bro. Dale indicated he would notify the church this week as to his decision. He was pastor here about 8 or 9 years ago. His two sons and a daughter are in college. Bro. Dale's many friends are hoping he will accept the call.

Extension Veterinarian C. M. Patterson suggests to buyers of gilts for the breeding herd that all possible precautions be observed in order to keep damaging swine diseases out of the herd. He lists leptospirosis, brucellosis, atrophic rhinitis and virus pneumonia as major diseases which are very hard to detect.

4-H CLUB IS FORMED

Members of the O'Donnell 4-H club include the following — Randy Bessire, president, Arnold Finch, vice president, Johnny Boles secretary and Terry Vaughn, reporter.

Members include — Jesse Benitez, Wayne Crawford, Richard Cross, Royce Dicky, Jerry Harper, Johnny James, Luciano Lopez, David Merrick, Doroteo Yzoquirre, Frank Montez, George Munoz, Bobby Cantwell, Layne Birdwell, Gene Bagwell, Ronnie Proctor, William Parker, Jesse Ortiz, John Ortiz, Dennis Antry, Rodney Martez, Larry Moore, Robert Garza, Santiago Rios, Nemesio Sainzar, Danny Molina, Ruben Valencia, Angel Caudillo.

Texas Agricultural Extension Service scientist report that farmers have increased the per acre yield of 13 leading field crops by 71 percent in less than 20 years and that more than twice as many workers are required to furnish farmers with needed supplies and to market the products they grow than are needed on the nation's farms.

Water

Draw Farmer Dilemma

Billie Clarence Williams, 63 of near Draw, a bachelor who reared five nieces and nephews, died at about 11:30 a. m. Sunday in his home following a heart attack. A veteran of both World War I and 2, Mr. Williams had been ill for about two years. He had been a Lynn County resident since 1929. Survivors include two nieces, Mrs Woodrow Brewer of Draw, and Mrs Joe Brewer of here, three nephews A F Beckham, of Little Rock, Ark Charlie Beckham of Draw, and Joe Beckham of Draw, a brother. Lee Williams of Burleson County. Funeral services were Tuesday at 3 at First Baptist Church in Tahoka with Rev. D. W. Copeland, pastor of Redwine Baptist Church and the Rev James Elfrd, pastor, officiating. Burial was in Tahoka Cemetery.

S. S. News

The day when a person retires from the job and collects his final pay check or pay envelope can be a time of misgiving for a worker. He is faced with the need for maintaining a regular income for himself and his household — social security retirement benefits may be the only source of that income.

How long will he have to wait until he receives his first monthly benefit check? The answer to that question is — how long did he wait before making his claim for retirement benefits?

One of the goals of the Social Security Administration is to start the benefits as soon as possible. "To that end," says John G. Hutton, manager of the Lubbock Social Security office, "we must have the cooperation of the worker who is about to retire." Don't wait until that day," he says. "Come to the social security office ahead of time and tell us when you are to retire. Also give us your date of birth and social security number." As an alternative, he suggests that persons who works for a firm that maintains a Personnel office inform that office of their retirement plans. A personnel office can furnish the S. S. office with the needed information.

The S. S. office should have this information about one to two months before the worker's retirement date. It will then immediately obtain a statement of the worker's earnings credited to his social security record keeping office in Baltimore. With the information in hand before the worker's retirement date, less time will be needed to complete his application for old-age benefit payments when he goes to the social security office shortly before or shortly after he retires. As a result his first monthly benefit check will reach him sooner.

For further information, contact your nearest social security office. A representative of the Lubbock Social Security office will be in O'Donnell on Wednesday, Nov. 23rd at 2 p. m. in the Elementary School and will be glad to assist in all matters pertaining to social security.

ing for a Child e Profitable

Economists try to figure out how to control inflation, many have already taken matters into their own hands to make the clothing dollar. With an 18,000,000 pre-teen-age population in the country, ranks of seamstresses are increasing.

The creative satisfaction in making fabric into dainty or practical garments for work and play. There is, also, better fit, sturdier construction in clothes mothers make.

If you haven't hopped on the sewing bandwagon yet, remember that in making children's garments for your first projects, you'll eliminate many of the fitting problems which arise when you sew adult clothing.

Small garments require little fabric and you'll often find these a remnant counter. Many find that leftover yardage from other projects can be enough for a little blouse, skirt or pinafore.

Make Pattern Adjustments

In selecting patterns for children, local sewing center experts advise gauging the size to use by the child's chest measurement rather than by the child's age. Then, too, as when sewing for child or adult, the pattern is to be fitted to the figure and adjustments made before cutting the pattern from the material.

Most patterns for children need shoulder, waist and length adjustment, even though the pattern fits fairly well as to size.

About Wills

The death of an interstate person (one who has made no will) may give rise to many problems regarding distribution of his separate estate. In the preceding column we investigate the manner of dividing the community estate upon the death of a husband or wife. Now we shall see that, where separate property is involved, a completely different set of rules applies in determining heirship and apportioning the estate among the rightful claimants.

It may be well to recall that the separate estate of a husband or wife includes property owned by either before marriage and that which is acquired after marriage by gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Now, here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

If either your husband or wife survives and if, in addition, there are surviving children or descendants of previously deceased children, the children and their descendants immediately obtain a full (fee) title in two-thirds of the real estate involved. The surviving spouse receives a life interest in the remaining one-third of the real property, which passes on to the children and their descendants upon the death of the spouse.

The rule for distributing personal property — cash, stocks, bonds, furniture, or any other items not constituting real estate — is different. Here the surviving spouse gets full ownership of one-third and the children and their descendants inherit the balance.

Now suppose your husband or wife survives, but there are no surviving children or their descendants. In this case the surviving spouse inherits all of the personal property involved.

With regard to real estate, the survivor obtains full title to one-half, and the other half is divided between your mother and father, if both survive you. If only one of them survives, he or she receives only half of this portion, and the other half (or one-fourth of the entire real estate) will be divided among your brothers and sisters (and their descendants) who survive. If there are no surviving brothers and sisters and their descendants, then the one surviving parent inherits the full one-half.

Now, here is a general idea as to how your separate property will be divided if you do not make a will with contrary provisions prior to your death.

Fires in farm homes are most frequently caused by defective heating equipment, faulty chimneys and flues, overloaded wiring systems, matches and smoking. With the coming of cold weather, the Texas Farm and Ranch Safety Council suggests a check-up for all heating equipment before it is put to use for another season.

The inefficient use of farm machinery can be a heavy contributor to lower farm income. Good machinery records provide the information needed to improve machinery efficiency and farm income.

Fires in farm homes are most frequently caused by defective heating equipment, faulty chimneys and flues, overloaded wiring systems, matches and smoking. With the coming of cooler weather, the Texas Farm and Ranch Safety Council suggests a check-up for all heating equipment before it is put in use for another season.

Flameless Electric Clothes Drying

As clean and safe as electric light

So clean . . . so safe . . . so modern . . . that's what electric dryer owners say they like about flameless electric clothes drying. Clean, flameless electric heat gentles your clothes—dries them fluffy-soft and sweet-smelling—never fades colors. And it's so precisely controlled that even your most delicate fabrics can be dried with complete safety.

An electric dryer brings wonderful ease and convenience, too. You can dry clothes any time of day or night in any kind of weather . . . with little more effort than setting the controls. See your favorite appliance dealer soon for a flameless electric clothes dryer that will save you time and work . . . help you live better . . . electrically.

TO COUNT LIVESTOCK

Rural mail carriers from the O'Donnell post office will leave some livestock survey cards along their routes beginning November 16th.
"Information reported on these cards is used to set the yearly inventory of livestock and poultry on Texas farms," Postmaster Hal Singleton explained. In distributing the cards, rural carriers pick boxes at random along their routes. "This means that not every box will get a card", Mr. Singleton said. "For this reason, it is important for everyone who gets a card to return it filled out so that USDA can get a true sample of the State's livestock holdings."

A national marketing quota of 15,562,000 bales and a national acreage allotment of 18,398,424 acres have been proclaimed by Secretary of Agriculture Benson for the nation's 1961 crop of upland cotton. Both are increases over those for 1960. December 13 was also set as the date for the referendum on 1961 upland cotton marketing quotas. More details will be announced later by the USDA.

SCHOOL EVENTS TO COME

Nov. 18 — End 2nd 6 weeks
Nov. 19 — FFA dist. meet at Brownfield
Nov. 21-27 — Thanksgiving

Jan. 31 — Frenship here
Feb. 7 — Plains there
Feb. 10 — Sundown here

The O'Donnell Cemetery Association met last Wednesday to lay plans for the annual Thanksgiving Dinner to be Thursday, Nov. 24th.

Plans call for turkey and dressing and all the trimmings. In the past plans were made to serve 500 but the group plans to serve more this year. Plates will be available to take out anytime during the serving hours of 10:30 to 1 p. m. The event is always a time of reunion with old friends and a time of visiting and friendship.

Easy way to do your new-car sampling —
Drive Chevy once around the block at your Chevrolet dealer's one-stop shopping center!

Just drop in and take a drive in one of the 30 spanking new '61 models your Chevy dealer now offers under the same roof. With every drive, your dealer is giving away free Dinah Shore Christmas records while they last. So hurry! And you'll find that here's the easy, one-stop way to shop for the car you want. There's a model to suit almost any taste or need—at a price to suit almost any budget. There's a whole crew of new Chevy Corvairs, including four family-lovin' wagons. New Biscaynes—the lowest priced full-size Chevrolets. Popular Bel Airs. Sumptuous Impalas. And America's only true sports car—the Corvette. Come on in and pick your new car the easy way—on a one-stop shopping tour!

New '61 Chevrolet IMPALA SPORT SEDAN
You'll see five models in the '61 Impala series—the most elegant Chevies of all. They're sensationally sensible from their more parkable out size to their remarkably roomy in size. And note that trim new roof line.

New '61 Chevrolet 2-DOOR BEL AIR SEDAN
These beautiful Bel Airs, priced just above the thriftiest full-size Chevies, bring you newness you can use. Roomier dimensions reach right back to the easier loading trunk that lets you pile baggage 15% higher.

New lower priced '61 CORVAIR 500 CLUB COUPE
See what Corvair's got in store for you in '61! Thriftier sedans and coupes with nearly 12% more room up front for luggage. That rear engine's spunkier, too, with a gas-saving new axle ratio to go with it.

New '61 Corvair 700 LAKEWOOD STATION WAGON
There's room for almost everything but antifreeze in these new one-and-only 6-passenger Lakewoods. And they're the only wagons with lockable trunk under the hood. Be sure to see the new Greenbriers, too.

New '61 Chevrolet 2-DOOR BISCAIYNE 6 NOW—Big-Car Comfort at Small-Car Prices
These new Biscayne 6's—the lowest priced full-size Chevrolets—let you save money in a big way, yet give you a full measure of Chevy's new roominess—such things as higher easy chair seats, larger door openings, more leg room in front, more foot room in the rear.
*Also available as V8 models
