

The O'Donnell Index

The best advertising medium in Lynn County. Read in 1,800 homes each week.

O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, MAY 10, 1929

NUMBER 33

ty Grades All Streets In Town

street department of the City has about finished working the streets of the city since the new tractor and the work finished so far is the most satisfactory in the past and the council commended for the good street which has been one of the best streets in the city in good shape. The street has been widened and a good top which leaves it in better condition than it has ever been in during the past. William Singleton stated that the expenditure on reconstruction of the city has been approximately \$300 which is considerably more than the work of the previous year. The finishing touches will be on the streets after the first which is expected to place the streets in as good condition as could be made. New streets will be used to cut off the old streets and fill in the low spots ready for use when the rain

Many New Homes Being Built Here

According to information given in the Index this week, some thirty-two homes, have been built or now under construction or will be under construction within the next few days. This represents an investment of approximately \$100,000.00 in new homes alone during the past ninety days. A short time ago the Index announced that building permits which included homes and all public improvements exceeded a quarter of a million dollars and some folks seemed to think the figure sounded high, but after carefully checking the figures over with the latest information, we find that the previous figure of a quarter of a million dollars was rather conservative. The previous figures did not include but about \$35,000 for construction of residences.

We are proud of the number of new homes going up in O'Donnell. It is evidence of the faith our people have in the future of our town.

23 To Graduate From Grammar School

On Thursday evening, May 16 at 8:30 twenty three happy and excited boys and girls will receive diplomas from O'Donnell Grade School. They have been exceedingly busy for several weeks planning the program for the occasion, and all indications point to an impressive and interesting evening. There is always an element of drama as well as a touch of sadness on an occasion of this nature, and the farewell of the Seventh Grade of '29 to the old Grade School will have all the traditional parts.

The program is as follows:
Invocation—Mrs. Hazel Gary.
Practical—
Salutatory—Raymond Deberport.
Class Motto: "To Thine Own Self Be True"—Edwyna Vermillion.
Class flower: The Rose—Viola Wyatt.
Class Colors: Old Rose and Silver—Lois Burdette.
Address—Rev. C. A. Duncan.
Class Vision—Hassett Newsom.
Valedictory—Lois Ash.
Presentation of Diplomas—A. S. Graham.
Benediction—Rev. Duncan.
Recessional—Mrs. Gary.

The following pupils will receive diplomas: Raymond Deberport, Alma Green Vera Seely, Elkie Davis, Vernon Kirkland, Lois Burdette, Maudine Crawford, Wilma Green, Ruby Burdine, Edwyna Vermillion, Hasseltine Newsom, Jewel Bean, Georgia Mae Smith, Allen Chandler, Lois Ash, Esta Pemberton, Waldine Kirkland, Willard Green, Faye Tomlinson, James Catherby, Mary V. Shook, Viola Wyatt, and T. A. Greenwood.

Program for Baccalaureate Services

Services Will be Held at the High School Auditorium, Sunday May 12, 11:00

Professional—Mrs. Hazel Gary.
Invocation.
Anthem, Great Is the Lord—Choir.
Song, All Hail the Power of Jesus' Name.
Scripture—Send Out Thy Light—Choir.
Anthem—Send Out Thy Light—Choir.
Sermon—W. A. Kercheville.
Benediction.
Recessional—Mrs. Hazel Gary.
It has been announced in these columns several times that the Rev. J. Douglas Carver, of White Deer, would preach the Baccalaureate sermon, but he has notified us that he will not be able to do so. Our friend and former pastor of one of our churches, W. A. Kercheville, will be here instead. It is very fitting that he should do so, since many of the graduates were in his church, and when we consider the interest that he and Mrs. Kercheville have always manifested in the welfare of the school, we are very glad indeed to have him with us.

Leta Frances Wyatt who is in a Lubbock Sanitarium is slowly improving. Miss Leta Rodgers is spending part of this week with her.

Chamber of Commerce Re-Organized During Past Week

O'Donnell and community united in a Festival Week which closed on Friday night of last week during which time a Chamber of Commerce was organized embracing O'Donnell and surrounding territory. The weeks programs conducted by Capt. C. S. Nusbauer were all good and enjoyed by everyone who heard them. The new organization elected the following officers:

C. H. Mansell, president; Waldo McLaurin, first vice-president; M. J. Whitsett, second vice-president; W. E. Guye, Treasurer; J. P. Aylor, temporary secretary; Ben S. Coib, E. M. Wilder, A. A. House, H. L. Hohn, Tom Brewer, Mack Hancock, Ed Cook, T. J. Yandell, D. A. Edwards, Harvey Jordan, with the other officers mentioned above compose the Board of Directors.

The Board of directors are to meet each Tuesday noon at 12:15 to transact any business that might come before the organization. On next Tuesday noon, the first meeting of the directors, will be held at Johnnie's Cafe, at which time the finishing touches will be given the new organization.

A drive for membership was begun last Thursday which has not been finished according to officers of the organization, and up until today (Wednesday) one hundred and twenty-one members have pledged their support to the organization. \$4,000.00 has been set as a goal for the year's budget and it is believed this amount or more will be raised within another few days. It is the intention of the new organization to employ a full time secretary just as soon as the budget is completed. The team who made the drive for membership reported they were unable to see a number of citizens who were out of town on the days of the drive. Both teams were very enthusiastic and believe that the budget will be easily raised by the time all have been solicited.

Below is a list of those who have signed up for membership to date:

- First National Bank
- J. L. Bevell
- Grover L. Sutton
- S. A. Billington
- J. L. Lester
- J. H. Jordan
- Manuel Medley
- B. L. Parker

- Lynn County Motor Co.

The above list may not be absolutely correct as it has not been checked. The committees ask that if anyone's name does not appear in the above list who has signed up, to please see either of the officers and have same corrected.

The present organization is different to any ever organized here in the past, as one will note that about fifty per cent of the membership is composed of farmers.

Son of Okay Farmer Dies Friday Afternoon

Bruce E. Dillard, thirteen year old son of Mr. and Mrs. W. P. Dillard, of the Okay community died suddenly last Friday afternoon after an illness of only a few hours. Funeral services were conducted at Tahoka and interment took place in the cemetery there. We deeply regret that we are unable to furnish more than the bare details of the sad affair. The entire community was shocked and grieved to hear of the death of this promising youth. The Index extends deepest sympathy to the bereaved family.

W. M. Mask spent the first of the week with his family in Haskell. Mr. Mask states he will move his family to O'Donnell as soon as school is out.

INDEX WILL BE ISSUED DAY EARLIER IN THE FUTURE

Last week the index was published a day earlier than usual, the paper going out on Thursday morning instead of Friday, and our readers and advertisers were so well pleased with the change that we have decided to move the date of publication up a day. Hereafter the paper will be in the mails each Thursday morning instead of Friday. The Index will still carry a Friday dating for the present, but will be read by every reader in the O'Donnell territory on Thursday. To change the dating from Friday to Thursday would necessitate the changing of a number of advertising contracts with foreign firms which might cause a lot of confusion.

In order to make the mails a day earlier, all advertising copy must be in the Index office not later than ten o'clock Wednesday morning. When we say ten o'clock, we mean that will be the deadline hour for advertising copy, and no advertisements will be accepted after that hour for that week.

Our advertising patrons realize the benefit of making the change mentioned above and we feel sure they will co-operate in every way possible in making a better paper. The better the paper the more effective is the advertising carried in its columns. In setting a deadline at ten o'clock Wednesday morning, we wish to make ourselves clear, it is absolutely for the benefit of the advertisers. If we accepted advertising copy up until the time of going to press on Wednesday evening, in many cases it might mean that the Index force would have to work all night and possibly miss the mails on Thursday morning.

The rush caused by such a practice would not allow the printer ample time for proper display of ads brought in late. A successful newspaper must run on schedule as regular as a clock and to do so they must follow a set rule regarding advertising and copy.

The Index will be in the mails on Thursday morning of each week in the future. Watch for it.

Mamie Alma Tune Passes Away Friday

Our entire community was shocked and grieved last Friday afternoon when the sad news flashed through the town that Baby Mamie Alma Tune had passed away just before five o'clock. She had been slightly indisposed for several days but no thought of fatality was entertained until a few minutes before she breathed her last. Her medical attendant and loved ones did all that science and love could do to revive the little life, but to no avail.

Funeral services were conducted in the Church of Christ by Elder Eubanks, from Tahoka, in the presence of a throng of mourning friends. There has never been a sadder or more beautiful funeral in O'Donnell. Young and old loved the sunny baby alike, for she had a smile for each. Senior boys were pall bearers, and immediately following in the sad procession were Miss Hazel Burke, her Sunday School teacher, and the members of her Sunday School Class who were also her school mates, followed by her teachers, Mrs. J. W. Shaw, all carrying the flowers Mamie loved so well.

Elder Eubanks paid touching tribute to the sweet character and loving disposition of the baby while the tears of a multitude of friends mingled with those of her family. Interment took place immediately after in the local cemetery.

Mamie Alma is survived by her parents, Mr. and Mrs. T. R. Tune, her sister Eva, brother Dick, Bezi, Earl and Billie. "Mam" God lend them strength to say "The Lord giveth and the Lord taketh away; blessed be the name of the Lord."

Mr. and Mrs. W. H. Thornhill were Sunday Guests of Mr. and Mrs. J. L. Cohen and family of west of town.

If you don't think these prosperous farmers live well, ask the Thornhills. My! Chickens, fish and squabs with all the trimmings.

COW TESTING CUTS MILK COSTS

San Antonio—That cow testing results in greater profits per cow is indicated in the report of the Bexar County Herd Improvement Association showing that the cost of producing butterfat per pound has been reduced more than five cents per pound in one year, and the return per dollar spent for feed increased by nearly 70 cents. T. H. Royder, assistant county agent here, has compared data from four months of testing this year with the same data from the same period a year ago and finds that it now costs members an average of only about 24 cents per pound to produce fat, whereas a year ago the cost was in excess of 29 cents. A dollar's worth of feed returned owners \$2.74 a year ago but now they are getting back \$3.44. This means a net gain of \$1.0 per cow per year. "It's due partly to the fact that we culled out and sold 90 poor producers as a result of testing," Royder says, "but the primary cause is the change in feeding method brought about by testing." There are 591 cows in the association.

NEW RECORD ESTABLISHED BY CHEVROLET MOTOR CO.

Detroit, May 11—Exceeding by approximately 10,000 units its best previous monthly manufacturing record, the Chevrolet Motor Company in April established a new all-time monthly production record with an output of 157,137 cars and trucks. April was the second consecutive month during which Chevrolet set up a new all-time monthly production mark, March having been high with 147,273 units.

The sensational April achievement brings Chevrolet production in the first four months up to the record total of 511,837 units as compared with 477,967 for the corresponding period of 1928, a gain of more than 33,000 units over the best previous corresponding period in the company history.

The most significant feature of Chevrolet's manufacturing performance during the first four months is the fact that during that limited period Chevrolet built more six cylinder cars than any other manufacturer has ever built in an entire year.

Co-incident with the announcement of this latest Chevrolet production achievement was the indication that in response to the greatest demand Chevrolet has ever known, May will see another all-time monthly record established. Tentative schedules arranged for the current month call for a May production of 160,000 cars and trucks.

Sixteen giant factories located at strategic points from coast to coast are now working with all the speed consistent with Chevrolet's precision manufacturing methods to accommodate the greatest Spring business in the history of the company.

HELPING TO BUILD TEXAS

Over 500,000 additional fruit trees have been planted in 32 East Texas counties within the past two years as the direct result of the home orchard campaign inaugurated by the East Texas Chamber of Commerce. In 1927-28 the total was 260,000 and in the second year of the campaign just ended it was 275,000. New home orchards have been added to 6,100 homes in the 52 counties. Smith with 40,000 trees planted this year won first place among the counties included and Gregg was second.

Williamson County put on an unique kind of fair—"educational." All but two of the 98 schools in the county were represented in the parade of 8,000 pupils who took part in a pageant depicting the development of America from the time of the Indian down to the administration of President Harding.

A Wood County banker says his bank has loaned more money for the purchase of dairy cows this spring than in the previous five years. He holds that "dairy farming is our salvation."

Itasca, down in Hill County, celebrated "Jersey Day," the feature being the unloading of thirty registered Jerseys from Tennessee and their distribution to farmers interested in the development of dairying in that fertile farm section.

Although Texas hasn't even scratched its possibilities as an industrial state, it still leads all the Southern States in value of its industrial output with a total of nearly one and a quarter billions in 1927, according to a Census Bureau report. This was nearly \$100,000,000 above the total of North Carolina, where industrial development is probably the most intense in the South. Manufacturing plants in Texas jumped from 3,603 in 1925 to 4,065 in 1927; wage earners in industrial plants increased 10,000; and wage paid workers climbed from \$116,000,000 to \$130,000,000 in the two years. "It's great to be a Texan."

With three commercial hatcheries of a combined capacity of 72,000 eggs running full time, Weatherford expects to set a new high record this year in poultry and egg production.

The strawberry season has been in full blast in East Texas with early prices ranging from \$1.75 to \$2 a crate, at Tyler, which also reports the blackberry bushes full of blooms and it's great to be a Texan.

NEW CURRENCY WILL BE CIRCULATED IN JULY

This country's first view of the new and smaller currency which is to be put into use throughout the country will probably come in the early part of July, according to reports.

However, no definite date when the new money will be put into use has been received.

GOOD DAIRY BULLS A SOUND INVESTMENT

College Station—There are now 150 regular organized dairy bull circles in Texas, and the number of registered bulls in these associations is 700, according to a recent estimate of J. L. Thomas, dairy specialist in the Extension Service. New circles are being formed practically every week, and good bulls, aside from

With a cigarette
as good as Camels
the simple truth
is enough

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

- Camels are made of the choicest tobaccos grown—cured and blended with expert care.
- Camels are mild and mellow.
- The taste of Camels is smooth and satisfying.
- Camels are cool and refreshing.
- The fragrance of Camels is always pleasant, indoors or out.
- They do not tire the taste nor leave any cigarette after-taste.

© 1929, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

those in circles, are being rapidly introduced into the growing dairy herds of the state, he says. Last year county agents reported more than 2000 pure bred bulls placed on farms, and during the last six years 5,085 registered dairy sires are shown to have been purchased by farmers or groups of farmers.

"The dairy business can be overdone in Texas," Mr. Thomas believes, "especially where farmers who are just learning expand the business too rapidly, buy too many high priced cows or fail to raise sufficient feed and pasture crops. But there is little danger of over-doing bull circles for this means better cows, cheaper milk and higher profits at the least expense.

In buying dairy bulls he suggests that only those from tested herds be bought so that the production records of dams be known. Otherwise the buyer is forced to take a chance

as to the increased production of daughters. It is not necessary to run such a risk for sires from proven dams are available, and although they are usually double in price they are worth the difference.

Cottontail rabbits show remarkable discrimination in selecting certain varieties of crops to eat. In

Oregon they have been seen eating Arabian Alfalfa down to the roots but to do no damage to other plants in adjacent plots. In the Mammoth Yellow soybeans is about the only crop for from their deprecatation the field to be protected. In large, it pays to build a fence of woven-wire netting.

"Bring me the winner"

THE story is told of a man dining in a restaurant, who was served a lobster with only one claw. Upon complaining he was told by the waiter that this happened occasionally because the live lobsters fought among themselves in the kitchen. "Bring me the winner!" said the diner.

At the General Motors Proving Ground, a fleet of specimen cars, built long in advance of ordinary production, fight a battle of hills, bumps, and every other sort of torture. These cars are torn down and rebuilt until they are able to beat every test. The tests involve speed, power, endurance, braking, riding comfort, handling ease; fuel, oil, and tire economy; body strength—every phase of car construction and performance.

Only the winner of all these tests is sent back to the factory to be used as a model for the construction of the car you buy. No matter what driving condition you face, your General Motors car is equal to it. You have the winner.

Designed from photograph of an endurance test on General Motors' proving ground test track, the largest in the world.

"A car for every purse and purpose"

- CHEVROLET**, 7 models, \$125—\$475. A six in the price range of the four. Smooth, powerful 6-cylinder valve-in-head engine. Beautiful new Fisher Bodies. *Alta* Light delivery chassis. Sedan delivery model. 1½ ton chassis and 1½ ton chassis with cab, both with four speeds forward.
- PONTIAC**, 7 models, \$73—\$495. Now offers "big six" meeting luxury at low cost. Larger 4-head engine; larger Bodies by Fisher. New attractive colors and stylish line.
- OLDSMOBILE**, 7 models, \$87—\$1035. The Fine Car at Low Price. New models offer further refinements, mechanically and in the Fisher Bodies—yet at reduced prices. Also new Special and De Luxe models.
- OAKLAND**, 8 models, \$1145—\$1375. New Oakland All American Six. Distinctively original appearance. Splendid performance. Luxurious appointments. Attractive colors. Bodies by Fisher.
- VIKING**, 3 models, \$1195. General Motors' new "eight" at medium price. 90-degree V-type engine. Striking Bodies by Fisher. Unusual appointments. Three years spent in its development and test.
- BUICK**, 19 models, \$1195—\$2145. The Silver Anniversary Buick. Three wheelbases from 115 to 178 inches. Masterpiece Bodies by Fisher. More powerful, vibrationless motor. Comfort and luxury in every mile.
- LA SALLE**, 14 models, \$2295—\$2875. Comparison car to Cadillac. Continental lines. Distinctive appearance. 90-degree V-type 8-cylinder engine. Striking combinations in beautiful Bodies by Fisher.
- CADILLAC**, 25 models, \$3295—\$5495. The Standard of the world. Famous 6-cylinder 90-degree V-type engine. Luxurious Bodies by Fisher. Fleetwood. Extensive range of upholstery combinations.

WM. A. WILSON RE-ELECTED SECRETARY LAMESA C. OF C.

LAMESA—The Directors of the Lamesa Chamber of Commerce, this week re-elected for the fourth consecutive year Wm. A. Wilson, as manager of the local Chamber of Commerce for the ensuing year. The local directors also went on record as favoring the National School for executives at Evanston, Ill. At this meeting the Board also pledged its further support to the Dal-Paso Cavern Highway Association. Twelve of the fifteen directors of the organization were present. W. D. Arnett is the president, W. B. Collins, First Vice-President; and F. T. McColum, Jr., Sec. Vice President. Other directors are Dr. John Bennett, S. L. Foster, Carl Rountree, Clyde Brannon, J. E. Barron, T. F. Vaughn, G. Weeks, J. W. Bryant, Phillip Yonge, Dixie Kilgore, O. B. Norman, and C. E. Cameron.

TAHOKA FARMER GAINS HEALTH IN A SHORT TIME

Fourteen Months' Stomach Disorder Disappearing After He Took Organatone Now He Feels Fine

"Since Organatone is overcoming my troubles I am gaining in health and strength and am in better general health than for years" was the statement made by J. W. Armotroust, a well known farmer living on rural route four, Tahoka, Texas.

"During the fourteen months I suffered I tried everything I knew of to get relief, but nothing reached my case until I got hold of Organatone. I had a poor appetite and my digestion was so bad that sometimes I could hardly retain a thing I ate. I had pains in my stomach caused from the gas and bloating so bad at times that I did not feel able to do my work. Sometimes for hours I would be in misery which would upset my nerves terribly. I could never sleep good at night and I became so run down I felt bad all the time. I was also troubled a great deal with constipation which only added to my other troubles.

"Organatone was certainly a blessing to me and from the way it went

FAIRLEY & HAYMES

INSURANCE AND REAL ESTATE OF ALL KINDS O'DONNELL, TEXAS

after my troubles it seemed it was made especially for me. My digestion now is perfect and it makes no difference what I eat I am never troubled afterwards. The pains in my stomach have disappeared and I never miss any time from my work. The constipation has left me and I am no longer nervous and every night I sleep sound. I have regained my strength and I am feeling stronger than I have in years. I am always going to keep Organatone in my house so it will be handy at all times."

Genuine Organatone may be obtained at O'Donnell, Texas at the Whitsett Drug Company.

HERE'S HOW I WEST TEXAS DESCRIBES A SAND STORM

The folks were treated to a real blowout Wednesday night. Prior to that hour the weather man was letting things rock along in peaceful slumber. The moon had not come this way; the stars way up in their homes, were blinking and winking merrily; an occasional howl was let out by some prowling canine, and once in a while a Thoms Cat would give event to some loud static as he passed the premises of his lady love. Otherwise a sleeping world was curtailed in silence and weary mortals were forgetting the perplexities of a day filled with worry and annoyance.

But all at once the scene was changed. The solitude was broken by a yelping noise as if the tight breeches of ardent swain were being rent in twain. The sentimental Tom Cat hurriedly hunted for refuge from the impending storm; the singing dog sought his kennel with the rapidity of the Spirit of St. Louis. The wind swooped down to earth and grabbed up the sand in huge handfuls, and gleefully scattered it to the east, west, north and south. The entire country was filled with some dirt, more dirt and then most dirt. In other words it was a dirty deal throughout. No matter how tightly the houses were constructed the inmates were almost strangled when they tried to breathe. Many, upon suddenly being awakened, thought the burglars had resumed operations and were scattering sleeping potions over the house in order to quiet any who might be of an inquisitive turn of mind. But after an investigation was made it was found that it was the same old story over again—merely the West pulling off another sand

demonstration. Nothing to be worried about; nothing to frighten the most timid; if nothing but surplus ozone and released rest estate taking a midnight joy ride thru endless space.—Rale Review.

The higher the grade of a feeder steer, the more economical will be its use of feed. A high-grade steer has greater capacity for feed and makes more economical use of it in laying on flesh in the regions of the valuable cuts.

LEGUME ACREAGE IS STEADILY INCREASING

College Station—The number of Texas farmers planting legumes of some sort for grazing, hay or soil building purposes shows a small increase from year to year, reports of county agents show. For three years the number beginning such demonstrations has run more than \$500 each year and in the last six years a total of 37,356 farmers have started these crops in cooperation with the Extension Service.

The lowly cow pea leads the list for the popularity by a substantial margin, with sweet clover, alfalfa, velvet beans and soy beans following in order. The increasing emphasis placed on legume hay and pas-

DEMPESTER NO. 12. BACK GEARED ANNU-OILED WINDMILL

GUARANTEED

The Dempster No. 12 is guaranteed against defective workmanship and materials. You are assured a mill that will serve for years without constant trouble or expense. Has Twelve Special Features. Positive Brakes, Machine Cut Gears, Oil-It Once-a-Year Feature, Cast Iron and a competent windmill and pumpman will show you a sample.

HIGGINBOTHAM-BARTLETT CO. O'Donnell, Texas Also carrying a complete line of Dempster water supplies.

tures for the growing dairy business of Texas leads authorities here to believe that their present year will see the greatest expansion of these crops in history.

The dairy cow fed baled hay or mill feed is apt to eat sharp-pointed wires or nails along with the feed. Such material is collected and held in one compartment of her stomach, where it often does no harm. It is

not uncommon, however, for a piece of wire or nail to penetrate the wall of the stomach and reach a vital organ with fatal result. It is well to use pliers for cutting the wire on baled hay instead of a hatchet or axe, as there is less danger of short pieces of wire being broken off with the hay. Some farmers use magnets over which all ground feed is passed.

Cinderella and The Old Dress

Once upon a time a Miss named Cinderella was invited to a ball—not at the palace but the country club. And all she had hanging in the closet was last summer's dress—dingy and so wrinkled. But the telephone was two steps away, and Miss Cindy knew a magic formula:

TELEPHONE 66

A messenger appeared, took away a soiled frock and soon returned. And now our heroine is the belle of the evening, glorious in a fluffy frock that yesterday, hung dusty and old.

We Clean Everything Clean!

C. E. RAY

Bill Der Says

CONSIDER THE ANT He never pays rent. He doesn't move from place to place, month after month. He builds his home. Day after day, week after week, he digs away until he has a commodious and comfortable habitat. And—His Home is His Castle! He loves it. He will defend it to the death. Woe to the enemy that intrudes.

WHY?

not be as wise as the ant. Why not build your own home? We can help you plan it. We can help you finance it. And when completed it will be commodious and comfortable. It will be your Castle.

EDUCATIONAL PREPARATION A GROWING REQUIREMENT FOR SUCCESS IN MODERN BUSINESS

Death-Knell Sounded for Guesswork and Slipshod Methods by Advancing Technical Proficiency in Finance, Trade and Industry—How Banks Are Developing a Professionally Qualified Generation of Younger Bankers.

By HAROLD STONIER
American Bankers Association

THE great school of Experience is still holding classes in America, but the scientific spirit of the age has so generally invaded the workshops of industry and trade that they have largely become technical research and training laboratories in business. The old-fashioned cut-and-dry methods of former generations when Experience was considered the only teacher. It would be hard to find a working force in any pre-eminently successful business or industrial organization in the United States today but what the dominating leadership is schooled in the scientific principles of its specific field, whether manufacturing, merchandising or finance. The rapidly advancing standards of business in this country, with their relentless demands for efficiency as the only hope for survival in the competitive struggle for economic existence, has sounded the death-knell for guesswork and slipshod methods.

As a result, educational preparation in the techniques of commerce, industry and finance are virtually essential to outstanding success in these fields, as it is already an absolute prerequisite in the various recognized professions. This is not to depreciate the value of native ability and experience in business, but education after all is a means for helping the individual to apply the net good of the accumulated experience of many to his own day's work—a means for helping special native ability to come into its own more rapidly and surely and for enabling all classes of ability to gain the maximum of success to which they are entitled.

These facts are plainly recognized by practical, work-a-day business in every line. Every progressive business organization in America is emphasizing the importance of education as never before. Education has come to be looked upon as the answer to many of the problems within the organization as well as to problems affecting industry as a whole.

Business Organizing Institutes
Institutes for developing specifically qualified workers are being organized in many fields of commercial and industrial activity. These institutes are trying various methods of educational work with a distinct trend toward more and more emphasis upon education for the rank and file of business employees of all grades.

We have been having business failures in this country at the rate of about 2,000 a month. This score speaks for itself. It is glaring evidence of incompetence on the part of thousands of business men in handling the problems inherent in their fields of endeavor. The detailed records show that practically 75% of business failures in this country is due to lack of training and competence on the part of those who failed. This is conclusive evidence that no one can afford to undertake executive business responsibilities without adequate education and training. It is for that reason that every enlightened business organization is today insisting as never before that its employees take advantage of some type of technical training.

American banking is fortunate and has just cause for pride in that it has a record of twenty-eight years of definitely organized educational activity among its workers to its credit for developing trained bankers. People in banks in large numbers are taking advantage of the educational opportunity given by the great non-commercial college of the banking business, the American Institute of Banking. They have on every hand evidence of the value of the training it gives. Of the 10,000 graduates of this institute, 70% now occupy official positions in American banks. The other 30% are still too young to have attained such heights. Here is an example and an encouragement to the people of all lines of business.

The American Institute of Banking has a membership of 64,320. Of these 33,851 are class enrollees, comprising younger bank people, both men and women, who are learning the scientific technique of their chosen business at the same time they are engaged in the practical work of earning their livings at it. The difference between the 33,851 enrolled in classes and the 64,320 total membership comprises older bankers who have taken the institute courses in the past or at the present time sponsoring some type of educational work in the organization.

Banking Educates Its People
It has been estimated that there are probably 375,000 bank officers and employees in the United States at the present time. These figures would mean that about one banker in every six is either enrolled in institute classes in banking or is actively reporting some educational function of the organization. No statement could possibly give more emphasis to the importance placed on education by the banking laboratories of America than these facts.

Only American Institute of Banking

SCHOOL NEWS

Exams are the topic of the day and the question of the day is "Do you think you'll pass?" Yes, another school year is almost over, and teachers and pupils alike are working as hard as they can to make this a good year. A good percentage of the students in both High School and Grade School are making excellent averages.

The operetta will be one of the prettiest programs ever presented in O'Donnell. The costumes are beautiful, the songs and dances are pretty and catchy and the story of the play is very interesting. This will be presented Monday evening in the High School auditorium.

High 6th and Low 7th Grade News.
The blues and reds are running a race in spelling this term. The blues are 109 and the reds 84 therefore the blues are expecting a great feed the end of this week. This month is the last month of school and every one thinks they are going to pass. Mrs. Martin was fruit showered by her old pupils in Mr. Graham's room. In spelling this week Thomas Hanes, Melvin More, Joe Earl Wilson, Lawrence Tredway, Cubie Brang, Mavis Hart, Hargret Miller, Lorene Beach, Wilma Williams, Veda Shoemake and Marie Atten have all made a hundred.

Low and High 4th News.
All pupils in this room are "looking out," about final exams. Every body is getting ready for the last week of school. Those who made 100 per cent in spelling this week are Marl Miles, L. A. Green, Marvin Paine, Norma Ruth Vermillion, Mildred Goddard, W. L. Parr, G. C. McPherson, James Clayton, Jimmie Lee Shook, G. H. Brewer, Irene Roberts, Garland Curtis, Dalton Summers, Mildred Ash, Earl Tune, Roxcenne Terry, Donald Ballew, W. C. Ables, Wynelle Scott, Pearl Tune, Marcelle Hanes, Monette Hanes, Alice Hanes, Roxie Petty, and Cullen Newsom.

GIBSON-BREWER

Last Saturday afternoon Mr. One Brewer and Miss Lorene Gibson were quietly married at the court house at Taboka, Judge G. C. Grier performing the ceremony. The bride wore a lovely white crepe ensemble suit, very becoming to her beauty. Miss Audy Ratliff was the only witness. Mrs. Brewer is the daughter of Mr. and Mrs. W. R. Gibson, and has made hosts of friends since her family came to make their home here. She is a charming and talented young lady who will be an inspiration to her husband.

Mr. Brewer is the son of Mr. and Mrs. Brewer of Sanger, and is well

and favorably known to O'Donnell people. He is the third son of the family to marry within a week, two brothers having married at Ft. Worth the same week.

Both these young people are popular among a wide circle of friends, who wish them every happiness and success. The Index joins in extending congratulations to the groom on his success in winning so lovely a girl as his helpmate, and best wishes to them for a long and happy married life.

MRS. JACK KENDALL HONORED WITH PARTY

When Mrs. Kendall went to town last Thursday she was surprised to find, on her return, a hostful of seventh Grade students. Each brought a little gift for the bride and also for her birthday.

Mrs. Kendall played a few pieces on the piano for them and they all found that she was a wonderful musician. Afterward they were served with delicious ice cream and cake.

Everyone had a wonderful time. Mrs. Kendall is the daughter of Mr. and Mrs. A. S. Graham. She is newly married and is in O'Donnell for a visit with her parents. Everyone extends a hearty welcome and best wishes to her in her married life.

MRS. WHITSETT CHANGES ROUTINE OF THURSDAY CLUB

If anybody wonders what all the noise at Mrs. M. J. Whitsett's last Thursday afternoon was about, this will explain. Mrs. Whitsett, with her usual charm and originality, elected to change the custom of the Thursday Club for one day at least, and made eighty-four the diversion of the afternoon instead of forty-two. The noise was the effort of her guests to remember and to learn the play the old game which, nevertheless was new to some.

After a number of amusing games, the hostess served dainty pink and white brick ice cream and angel food squares to Mesdames Guy Bradley, J. P. Bowlin, J. W. Campbell, John Hardberger, R. O. Stark, E. L. Sorrels, Harvey Jordan, Mack Garner, John Earls, Marvin Tull, Edgar Ellis, Hal Singleton, Jr., A. H. Koeniger, Raymond Champion, and Miss Laynette Smith.

S. S. CLASS TO HAVE PARTY AT THE SCHOOLER HOME

On Saturday evening, the Commanders class of the Methodist Sunday School will have a party at the home of Rebecca Scholer. All members are cordially invited to attend.

City Will Hold Special Election, June 11th

At a special meeting of the City Council on Monday night of this week...

"Shall the City Council by Ordinance prohibit the keeping of hogs hereafter, within the corporate limits of the City of O'Donnell, Texas?"

The above proposition has been discussed both pro and con during the past several months...

All voters who favor the proposition shall have written or printed on their ballots the words, "For the prohibiting by Ordinance of the keeping of hogs hereafter, within the corporate limits of the City of O'Donnell, Texas."

All voters who are opposed to the proposition shall have written or printed on their ballots the words, "Against the prohibiting by Ordinance of the keeping of hogs hereafter, within the corporate limits of the City of O'Donnell, Texas."

Every voter of the City of O'Donnell should study carefully the Order of Election found elsewhere in this paper and go to the polls on June 11th and vote for what they believe to be for the best interests of the town and people who live here.

COMMENCEMENT SPEAKERS ARE CHOSEN FOR NEXT WEEK'S PROGRAMS

The Reverend J. Douglas Carver, Baptist minister of White Deer, will preach the Baccalaureate sermon at the High School auditorium next Sunday morning when Commencement Week for 1929 is ushered in.

The Rev. Mr. Carver is no stranger to O'Donnell people, since he has officiated in the same capacity here in past years. He has been remembered as a forceful and earnest speaker, and his address will be a pleasure to all.

Prof. Arrant, head of the Chemistry department of Simmons University, will deliver the Commencement address. He is not known to many of our citizens, but those who know him are delighted that he is to be here.

Special music is being arranged for the Baccalaureate services, and will be an important part of the proceedings. The choir is being directed by Mrs. L. P. Hardy, who has had extensive experience with such work.

"END OF THE RAINBOW" ROMANTIC COLLEGE PLAY

The Senior Class Play, "At the End of the Rainbow" is one of the best plays we have ever had the privilege of hearing. A strong cast is at work, and under capable direction are doing a gratifying piece of work on the play.

The scenes of the play are located in a college town. The students are practicing for a football game with a rival college team and much interest in the outcome is shown.

Robert Prestino, a lawyer, secretary of Mrs. Brown, stepmother of Douglas, learn that a second will disinheriting them has been found and is among the papers in Preston's safe.

They plot to obtain possession of the document at a mask ball given by Marion. Louise wears a costume identical with that of Marion's, deceives Preston, learns from him the combination of the safe, obtains the papers by the aid of Jack Austin, unaware of the fact that the original packet has been removed by Preston and other documents substituted.

"The Imp," a girl student, see and recognizes her. Preston enters and recognizes Jack, who is assisting Louise in the belief that she is Marion, and convinced that Jack meditates robbery, upbraids him. Marion enters and comprehending the situation as she fancies, she shields Jack by assuming the guilt.

Her innocence is finally established by the "Imp," who exposes Louise. Meanwhile Douglas wins the game for the team and realizes that he loves Phyllis, but when he learns that she has trifled with him he becomes cool. This, however, passes away and happiness follows.

When Marion's self-sacrificing effort to save Jack is brought to Preston's attention through the exposure of Louise's duplicity, he discovers that he loves her and their dream of the pot of gold at "The End of the Rainbow" is happily realized.

The cast of characters is as follows: Robert Prestino, Travis Everett, Douglas Brown, Kendrick Gaston, Dick Preston, Truett Hodnett, Stanley Palmer, J. A. Duncan, Ted Whitney, Dick Tune, Marion Dayton, Una Morrow, Nellie Preston, Irma D. Palmer, Louise Ross, Hazel Burk, Phyllis Lane, Florence Gary, Kathleen Knox, Beulah Estie, The Imp, Trixie Harville, Emily Elliott, Nannie Belle Smith, Jane Evelyn Edwards, Mrs. Brown, Lola Edgerton, Polly Price, Era Harris, Elsa Ernest, Gladys McGee, Marjorie Arnold, Vera Nichols, Marie Swift, Lola Edgerton, Molly Bruce, Pauline Wheeler.

A nominal admission fee of 20c and 25c will be charged for this play, the proceeds to be used for class expenses.

O'DONNELL H. S. HAS LARGEST SENIOR CLASS IN HISTORY

The class of '29 is the largest class in the history of O'Donnell High School, there being twenty-two graduates. The largest heretofore was last year's class of fourteen graduates.

Miss Florence Gary is valedictorian, Truett Hodnett salutatorian, both with averages of more than 90 per cent. This has been one of the strongest and best organized classes we have ever had.

They have functioned smoothly with a corps of splendid officers and their capable sponsor, Miss Rice, and the class has left a goal and inspiration for those following.

Imagine having three leading ladies and two leading men instead of the customary here and heroine, in a single picture.

That is the case in First National lively comedy-drama, "Naughty Baby," which is showing Thursday and Friday at the Lynn Theatre.

At the head of the cast are the regular leads, Alice White and Jack Mulhall in featured roles. The Thelma Todd, beautiful and blonde leading lady of many recent pictures, essays a "ramp" role.

She was a wonderful siren of an entirely new sort in her title-role vehicle, "Vamping Venus." Doris Dawson, who is now leading lady in a talkie and who played another lead opposite Harry Langdon, has an important role in "Naughty Baby."

James Ford, Corrine Griffith's handsome and silver-voiced discovery from musical comedy and film extra ranks, is the second leading man of the picture.

Other important roles in "Naughty Baby" are enacted by Natalie Joyce, Frances Hamilton, Fred Kelsey, Benny Rubin, Jay Eaton, Georgie Stone, Andy Devine, Fanny Midgley and Raymond Turner. Mervyn LeRoy directed the picture.

WESTMORELAND'S MOVE TO NEW LOCATION TUESDAY

Westmoreland's Dry Goods store who have been operating in the San-

person building since opening for business in O'Donnell some fifteen months ago, has moved to a new location in the Miles Building first door east of W. E. Gaye Dry Goods Co. Instead of handling a general line of dry goods as has been in the past, Mr. Westmoreland states that he will change to an exclusive Men's and Boys' furnishing store, and will carry everything in stock worn by men and boys, from work clothing to dress apparel.

Three Leading Women In One Film Comedy

Two Leading Men Added For Extra Measure in "Naughty Baby"

TEXAS TECH WINS DEBATE FROM WACO UNIVERSITY

LUBBOCK, Texas, May 6.—Texas Technological College debaters won a unanimous decision of the judges in their contest with Baylor University at Waco in the last debate scheduled for the College this year.

Tech was represented by Hal B. Lary of Clovis, N. M., and J. W. Jackson of Lubbock.

The girls' debating team, composed of Miss Lois Harkey of Jayton and Miss Gladys Leary of Estelitte, defeated the Simmons University girls here, defending the negative side of the question, "Resolved, that a substitute for trial by jury be adopted."

STATE OF GUERRERO SEES NEW KIND OF MACHINE

A new kind of machine was seen recently in Atoyac, Mexico. Natives of the Pacific Coast town viewed this modern invention with a great deal of curiosity.

It was an automobile. General Rafael Sanchez, commander of the State of Guerrero, drove a Model A Ford phaeton across the country from Acapulco to Atoyac, over land so rough that none had made such a journey before.

"For your pleasure be informed that the Ford car I purchased from you is the first automobile that has ever reached this town, over a different country where there are no roads at all and the land is strewn with rocks and soft sand. Motor in perfect condition after terrible test. Small native towns along path regarded first automobile with positive wonder."

JOE BAILEY 4-H CLUB GIRLS ENJOY PICNIC

The Joe Bailey 4-H Club girls also enjoyed a picnic Monday, April 29. Mrs. Alma Ragan our club sponsor carried the club girls and we also invited a few to go along with us.

We left Joe Bailey School house about eight-thirty, went to the Hackberry Lake and stayed about one and one-half hours, then on to the Devil's Breakfast table. We arrived there about twelve o'clock, prepared our lunch, all ate then went to the Devils Breakfast Table, most of us went up on it. After playing there a while, we all went down in the valley and played games.

All that were in roll at this picnic were: Theo Warren, Ina Mae Bowles,

Pauline Capelin, Laurene Godwin, Bertie Payne, Dorothy Payne, Fay Perkins, Bernice Bowles, Beatrice Beckham, Lois Cottrell, Allie Brewer, Mildred Cottrell. These were all club girls, the ones who we invited were:

Oletha Wilson, Thelma Lee, Mr. and Mrs. Jean Warren, Hershall Norval, and Maye Cunningham. Mrs. Hensley, Graham and Pat Hensley, Mr. Robert Ragan.

We arrived back at Joe Bailey school house about seven o'clock, and all reported a real good time. Mildred Cottrell, Reporter.

CALL FOR "SOUTHWEST CONFERENCE ON SOIL AND WATER CONSERVATION"

College Station, Texas, May 10.—As a step looking toward formulation of a broad regional program for the conservation and utilization of farming lands of Texas and Southwest, President T. O. Walton of the A. & M. College has issued a call for the "Southwest Conference on Soil and Water Conservation" to be held at the Texas institution June 20 and 21 of this year.

All agricultural colleges of the Southwestern States will be invited to participate and to designate for attendance other agencies and interests of the state in which they are located.

The purpose of the conference, as set forth by President Walton, will be to develop discussion and to map out a broad and comprehensive program for greater conservation and greater economic utilization of the farming lands of the Southwest.

Experiments conducted by the A. & M. College through its Experiment Station at Spur, in West Texas, have shown an actual loss in soil erosion of as much as forty-two tons an acre in one year on land with a 2 per cent slope and preventable water runoff losses averaging 25 per cent of the total rainfall.

Terracing as a means of conserving both soil and moisture is growing rapidly in Texas, it was pointed out, more than 2,800,000 acres of cultivated land in this state being terraced now. This matter, as it relates to Texas and other states, will come in for discussion at the coming conference.

Call for the regional conference was issued following institutional conference here participated in by representatives of various divisions of the college, including the Extension Service, Experiment Station, Forest Service, School of Agricul-

ture and other divisions.

BUILDING PERMIT ORDINANCE DETERMINED INVALID

LAMESA.—In the district court this week in the case of the City of Lamesa against the contractors of a Catholic Church here charged with failure to secure a building permit. Judge Gordon B. McGuire district judge held that the building permit ordinance was invalid and no good. This leaves the city of Lamesa without a building ordinance and clearly demonstrates the need of a home rule and City manager form of government for Lamesa.

DRILLING ON ASH SNY. DICATE WELL IS RESUMED

Drilling was resumed today on the Ash Snydicade well five miles west of town, with a rotary rig, according to J. B. Nance. Drilling ceased several weeks ago to change from a standard to a rotary rig, since it was found difficult to drill with a standard rig on account of caving. With no mishaps, rapid progress should now be made on this well.—Lynn County News.

CARD OF THANKS

To our many friends and neighbors of the O. K. Community, we take this method of expressing heartfelt thanks and gratitude for the kindness and assistance given us during the illness and death of our dear son Bruce. We also extend thanks for the liberal contributions in money and groceries which came in a time of need. May God in his infinite mercy and wisdom bless them for their bountiful assistance given in a time of great need.

Mr. and Mrs. W. P. Dillard.

C. E. CAMERON

is the representative of the Texas Electric Service Company in O'Donnell.

TRI-STATE FAIR SIGNS UP RODEO FOR JULY 3, 4, & 5

Miller and King to Bring Famous Performers to Amarillo

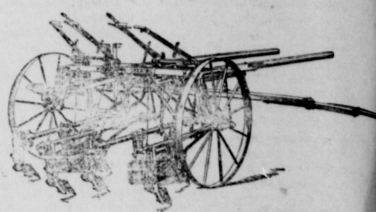

AMARILLO, Texas, May 2.—Announcement of a contract with Miller and King for a great Tri-State Fair association rodeo in Amarillo on July 3, 4 and 5 was made by Wilbur C. Hawk, president of the Tri-State Fair, this week. In addition to announcing the contract with this Amarillo, Colorado firm of rodeo managers and performers, Mr. Hawk announced that \$7,500 in prizes would be offered to riders, ropers and other rodeo contestants in the three day event.

Miller and King will bring some of the most famous bucking horses and Brahma steers in the world to Amarillo in addition to an array of bustlers seldom ever seen in this section.

The rodeo contests will be open to the world, and anyone wishing to compete should write Clyde Miller, Holly, Colorado.

Flytrapping is a help in combating the fly nuisance, but it should be begun in early spring to be of most value. Though comparatively few flies are caught at this time, it means that myriads are prevented from developing in midsummer. Farmers' Bulletin 734-F (Revised), "Flytraps and Their Operations," describes various kinds of traps and baits, and can be obtained from the U. S. Department of Agriculture, Washington, D. C.

An acre will furnish pasture from 5 to 15 hogs averaging 100 lbs. It is a good plan to have two pastures for each lot of hogs. By alternating them the pastures may be grazed fairly closely and still provide succulent feed. Pasture crops are allowed to mature down to good feed for hogs. In turkey production Texas and all the other states in the union, in other kinds of poultry it is down in the list.

McCormick-Deering Two-row Cultivator

Double your cultivating capacity with a McCormick-Deering two-row. It is one of the biggest steps toward lowering the production costs of row crops.

The gangs shifts in pairs, making dodging just as simple as with a single row cultivator. The gangs on each side also lift together, thereby saving time at the end of the rows. The wheels pivot to guide the cultivator, and the gangs can be locked to shift at the same time on the cultivator frame. It assures clean, accurate cultivation. We can show you these features of the 2-row at our store.

We have this cultivator with the gang shovel, and hitch equipment to meet your requirements. Ask us for the price.

ORDER AND NOTICE OF ELECTION

STATE OF TEXAS,
COUNTY OF LYNN, CITY OF O'DONNELL:

On this the 6th day of May, A. D. 1929, the City Council of O'Donnell, Texas, was convened in special session at its regular meeting place in the City Hall of the City of O'Donnell, Texas, with all of its members present, to-wit: E. M. Wilder, Mayor, R. C. Carroll, W. E. Singleton, G. A. Haney, C. L. Davis, and J. H. Hardberger, Aldermen, and W. A. Tredway, Secretary.

WHEREAS, application having been made by certain citizens of said City to the City Council, requesting the passage of a law prohibiting the keeping of hogs within the corporate limits of said City of O'Donnell, for the reason that the keeping of same constitute a menace to public health.

WHEREUPON, it was moved by Alderman, G. A. Haney, and seconded by Alderman R. C. Carroll, that an election be called upon said question, and that there be submitted to the qualified voters of said City of O'Donnell, the following proposition: "Shall the City Council by Ordinance prohibit the keeping of hogs, hereafter, within the corporate limits of the City of O'Donnell, Texas."

Such election to be held at the City Hall building of said City on the 11th day of June, A. D. 1929. The motion was unanimously carried by the following vote: AYES, G. A. Haney, J. H. Hardberger, C. L. Davis, R. C. Carroll and W. E. Singleton. NOES, None.

THEREFORE, be it ordered by the City Council of the City of O'Donnell, Texas, that an election be called in the City of O'Donnell, Texas, to be held on the 11th day of June, A. D. 1929, same being the second Tuesday in said month, at which election the following proposition shall be submitted to the resident, qualified voters of said City, for their action thereupon:

Proposition
"SHALL THE CITY COUNCIL OF THE CITY OF O'DONNELL, TEXAS, PROHIBIT BY ORDINANCE THE KEEPING OF HOGS HEREAFTER WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS."

Said election shall be held in the City Hall Building in said City of O'Donnell and the following named persons are hereby appointed as Judges and Clerks respectively of said election: J. M. CHRISTOPHER, Presiding Judge; C. H. Mansell, Judge; J. D. Fairley and J. Y. Everett, Clerks.

All persons, not otherwise disqualified by law, who shall have attained the age of twenty one years, and who are entitled to vote for members of the legislature, and who shall have resided within the corporate limits of the City of O'Donnell, Texas, for six months next preceding the date of said election shall be entitled to vote at said election.

All voters who favor the proposition shall have written or printed on their ballots the words, "FOR THE PROHIBITING BY ORDINANCE OF THE KEEPING OF HOGS, HEREAFTER, WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS."

All voters who are opposed to the proposition shall have written or printed on their ballots, the words, "AGAINST THE PROHIBITING BY ORDINANCE OF THE KEEPING OF HOGS, HEREAFTER, WITHIN THE CORPORATE LIMITS OF THE CITY OF O'DONNELL, TEXAS." A copy of this order signed by the Mayor and attested by the City Secretary of the City of O'Donnell, Texas, shall serve as proper notice of said election; AND the Mayor and City Secretary are hereby authorized to cause such notice of election to be posted at the hereinbefore named meeting place in said City of O'Donnell, Texas, for thirty (30) full days prior to the date of said election, and to cause such notice to be published in some newspaper of general cir-

culatation which has been regularly published in said City for at least one year before the date of such election, the date of the first publication thereof to be not less than thirty (30) full days prior to such election.
E. M. WILDER,
Mayor, City of O'Donnell, Texas.
ATTEST: W. A. Tredway, City Secretary. (SEAL)

THAT FARM RELIEF CRAZE

The Hugh and cry of the nation Farm Relief, and the politicians and demagogues are making political capital of it, and all along down the ages this stripe of folks have ever catered to the crowd who want the government to go into the boarding house business—Man by nature is a weakling, he's the smartest and the strongest animal of all, and yet the weakest if indulged—Yes, like a hand out, something for nothing, wants to milk the government cow, but wants the government to furnish the hay and bran, forgetting the fact that the government in order to feed the cow will have to sily its hand in your grain bin, and its pitch fork in your hay stack to supply the feed—Now briefly, let's see about this farm relief—Driving along down a country lane the other day, on one side of the road was a one horse farmer, following a mule, and a bull-dog plow down a cotton row, just the same old methods of his grandfather—Ten acres of cotton and five acres of corn, lives in a shack, a starved gut and a starved mind—Now that fellow wants a government donation—on the side of the road, just opposite this one horse farmer was the modern day farmer, sitting on a gasoline tractor, same hooked onto a bunch of gang plows and a four row planter, plowing up the earth and seeding it, forty and fifty acres per day. Now that fellow raises too much stuff, floods the markets, hence he wants the government to go into the price fixing business—It's not government interference that either one of them need—What that one mule farmer needs is to mix gray matter with muscle, by capitalizing and using the tools that science has laid on his door step, just like his neighbor on the other side of the road, gasoline tractors and four row planters—it's not government regulation that either one of them need, but a marketing system, the proper distribution of farm products—Now maybe, the Federal and state governments might help in the matter, show the way, but as to price fixing, putting a fictitious price on cotton, why doggone this scoundrel with its modern methods of farming could raise fifty or sixty million bales of cotton, likewise with the wheat farmers—Going to put the government in the farming business eh Laws and regulation governing same, made by jack legged politicians up there in the nation's capitol who don't know as much about farming and finance as a cat knows about side pockets—Now wouldn't it be a dirty filthy mess? Government ware houses flooded with farm products—Crazy socialism of the direct sort, fictitious price making eh? Supply and demand is the balance wheel of commerce.

MAMIE ALMA

Thy hand reaches out to us,
Through the blue and sunlit sky,
To welcome us there, you thus
Call us there by and by.

You sweet darling rose of life,
Thy soul has left this earthly place,
There to dwell in endless life,
But you left thy footsteps trace.

As the sun was sinking, then
Was your body laid to rest,
With the stars of heaven you'll blend
There you'll praise Him with the best.

The stars and sky call thy name,
The crickets call and call to thee—
Evermore shalt thou remain,
With thy hand outstretched to me.

Call on, sweet girl from beyond,
Call through stars, clouds and moon,
Call on, sweet girl from beyond,
We'll be going to meet you soon!
—By Foy Heathington.

WILLIAM EDWARD SINGLETON CELEBRATES 6TH BIRTHDAY

Master William Edward is very much on his dignity since Friday, and with good reason, for on that eventful day he was six years old. And he had a party, with all the frills and fixin's that go with it, including a birthday cake.

The small guests assembled at 3:00 o'clock and at once went into the serious business of the day, that is helping William Edward celebrate his birthday. Naturally the many beautiful gifts came in for their share of the interest, but the games ranked a close second.

After a number of games, Mrs. Singleton, assisted by Mesdames Pearce, Johnson and Hal Singleton Jr., served ice cream, cake and chewing gum to Junior McLauren, Mary Lou Gant, Lena Maye Singleton, Aubrey Lee Shook, Yvonne Westmoreland, Willie Joe Hubbard, Elsie Bernice and Billie Louise Elter, Marilyn Roberts, Sonny Boy Bowlin, Mary Louise Cowden, Billie Jane and Margaret Lucile Johnson, W. D. Everett, Merl Miles, Modene McLauren, William Edward and Mary Louise Singleton.

Cottontail rabbits show remarkable discrimination in selecting certain varieties of crops to eat. In Oregon they have been known to eat Arabian Alfalfa down to the ground but to do no damage to other varieties in adjacent plots; and in Tennessee the Mammoth Yellow variety of soybeans is about the only one to suffer from their depredations. When the field to be protected is not too large, it pays to build a rabbitproof fence of woven-wire netting.

COW TESTING CUTS MILK COSTS

San Antonio—That cow testing results in greater profits per cow is indicated in the report of the Bexar County Herd Improvement Association showing that the cost of producing butterfat per pound has been reduced more than five cents per pound in one year, and the return per dollar spent for feed increased by nearly 70 cents. T. H. Royder, assistant county agent here, has compared data from four months of testing this year with the same data from the same period a year ago and finds that it now costs members an average of only about 24 cents per pound to produce fat, whereas a year ago the cost was in excess of 29 cents. A dollar's worth of feed returned owners \$2.74 a year ago but now they are getting back \$3.44. This means a net gain of \$1.00 per cow per year. "It's due partly to the fact that we culled out and sold 90 poor producers as a result of testing," Royder says, "but the primary cause is the change in feeding method brought about by testing." There are 591 cows in the association.

CARD OF THANKS

We wish to express our sincerest thanks to all of those who so faithfully helped us during the short sickness and death of our beloved little daughter and sister. We also thank every one for the beautiful floral offerings.

WAYLAND COLLEGE STUDENTS WILL MAKE THEIR ALMA MATER A "MECCA"

PLAINVIEW, Texas, May 10.—Alumni and Ex-Students of Wayland College, scattered in all parts of Texas and adjoining states will make their Alma Mater a "Mecca," Saturday evening, May 18, when the annual banquet and meeting of the Alumni and Ex-Students Association will be held.

Every indication, at present, points to the largest attendance of any previous meeting. Z. T. Huff, registrar of the college is handling the reservations and officials of the as-

Smith County, in 4928, shipped claiming the lead in the Southwest, over 100 carloads of rose cuttings.

MISSIONARY SOCIETY IS TO SEND BOX

At the social meeting of the Women's Missionary Society of the Methodist Church, which will be held Monday week, a box will be packed for the Virginia K. Johnson Home. All ladies are requested to bring any kind of infants garments and supplies, either used or new clothing.

IN MEMORY OF MAMIE ALMA TUNE

I cannot say and will not say That she is dead—she is just away. One precious to our hearts is gone. The voice we loved is still. The place made vacant in our circle, Can never more be filled.

Our Father in his wisdom called The blossom his love had given, And the on earth her body lies, Her soul is safe in Heaven.

Oh, Mamie Alma the kind voice is hushed, Thy warm true heart is stilled, And on thy pale and peaceful face, Is resting death's cold chill.

Thy hands are clasped upon thy breast, We have kissed thy marble brow, And in our aching hearts we know, We have no Mamie Alma now.

Through all pains at times she'd smile A smile of heavenly birth, And when the Angels called her home She smiled farewell to earth.

Heaven retaineth now our treasure Earth the lonely casket keeps, And the sunbeams long to enter, Where our darling baby sleeps.

'Tis hard to break the tender cord When love has found the heart, 'Tis hard, so hard, to speak the word We must forever part.

Mamie dearest loved one we have laid thee, In the lowly grave's embrace, But thy memory will be cherished Till we see thy heavenly face.

We miss thee Oh in every place, A shadow o'er our life is cast, We miss thy kind and willing hand Thy fond and earnest care.

We miss thee everywhere, Yet we think of her still as the same I say Mamie Alma is not dead, She is just away.

MRS. WHITSETT ENTERTAINS WITH A BRIDGE PARTY

Mrs. M. J. Whitsett was the charming hostess to the Bridge Club last Wednesday afternoon when she placed two tables for this fascinating game. And really charming, in spite of the real estate which was changing locations.

After several interesting games, she served dainty pink ice cream moulded in heart shape, and angel food squares to Mesdames B. J. Boyd, Martin Tull, Guy Bradley, A. A. House, Ben Cowden, L. P. Hardy and Ferrel Farrington.

AT FARM RELIEF CRAZE

Hugh and cry of the nation Relief, and the politicians and rogues are making political capital and are to have ever catered crowd who want the government to go into the boarding house by nature is a weakling's the smartest and the animal of all, and yet the set if indulged—Yes, like a out, something for nothing, to milk the government cow, wants the government to furnish hay and bran, forgetting that that the government in order to the cow will have to slip its hand in grain bin, and its pitch fork in hay stack to supply the Now briefly, let's see about on relief—Driving along down try lane the other day, on one of the road was a one horse following a mule, and a bull-plow down a cotton row, just old methods of his grand-Ten acres of cotton and five of corn, lives in a shack, and a gut an a starved mind—that fellow wants a government on—the side of the road, opposite this one horse farmer modern day farmer, sitting gasoline tractor, same hooked a bunch of gang plows and a row planter, plowing up and seeding it, forty and fifty per day. Now that fellow too much stuff, floods the market he wants the government to the price fixing business— government interference over one of them need—What a mule farmer needs is to mix matter with muscle, by capital- and using the tools that science ad on his door step, just like his er on the other side of the gasoline tractors and four row —It's not government regu- that either one of them need marketing system, the proportion of farm products—Now as, the Federal and state gov- ights might help in the matter, the way, but as to price fixing, a fictitious price on cotton, egone this southland with its methods of farming could fifty or sixty million bales of likewise with the wheat farm- ing to put the government in mling business eh. Laws and ion governing same, made by agged politicians up there in tion's capitol who don't know ch about farming and finance ad knows about side pockets— ouldn't it be a dirty filthy Government ware houses flood- farm products—Crazy social- the direct sort, fictitious price eh? Supply and demand is nce wheel of commerce.

JUST HUMAN STUFF

world is waiting for the man be human, act and write the ery day human stuff, talk in acular of the herd—Saw a y the other night on the sil- em, Dad and Sis and Bud came to the city, and they brought m along with them, you could the hay mow, hear the pigs ing and the hens cackling in ft, the tinkle of the cow bells the squeak of the geese—Dad e regulation whistlers, Bud allus' and brogan shoes Sis a frock, sure enough to good- are clothes just like they wear

on the farm, no slapstick or pie throwing, but real life as lived on the farm—It went over with a thrill—The Scotch Plow Boy invented his own dialect, knew nothing of the cult of colleges, dramatized the human stuff down there in the country side, immortalized the field mouse, raised a controversy between the old bridge and the new bridge—Died in abject poverty on a pallet of straw, and though he has been dead for over a century, yet the civilized world is trekking down to the shrine of this untutored Scotch youth—Just human stuff—Another figure on the world's stage today, one whom presidents, diplomats, statesmen, colleges, princes and lords are glad to honor—Yes, famous throughout two continents; just simply because he dishes out that old human stuff—Brings the range, the cow camp, the lasso and the branding' pen down to the show house—All the world likes a wild west show, and say boy, if you can do the stuff, the world is yours—Just human stuff—Bull-Pen, burnback, stink base, mumble peg, spelling match, log rolling, a coon hunt or down at the old swimming hole—If you can pictureize this life just as it really is acted, put sure enough to God stage clothes on the actors and speak their language, humanity will come and sit in your show house—The language of jazz touches the heart of humanity—Just watch the throng going down to Al Jolson shows—His interpretation of jazz has a nation keeping step to rag-time—A tear in every word, a cry in every sentence, his soul is in a joy-brook, and he puts it over with a scream—Just human stuff.

STATE INCOME TAX; DUAL LEVIES

The Texas Legislature in adopting the Sixteenth Amendment to the Federal Constitution (Income Tax) ceded this source of revenue to the Federal Government and has no more right to occupy this field until the Federal Government abandons it

that it has to re-occupy any property it has ceded to the Federal Government. Danger of Dual Levies: A separation of tax sources has become an established custom and a written covenant between Federal and State governments for one hundred fifty years. The danger of dual levies between Federal and State taxing jurisdiction was recognized by the founders of our government. In debating the adoption of the Federal Constitution, repeated warnings were issued against their use. Custom Duties: The Federal Constitution gives Congress the right to levy custom and excise taxes provided they be equal and uniform throughout the United States. (Sec. 8, art 1). The Federal Constitution wisely provides that no state can, without the consent of Congress, levy an import duty, thereby setting aside custom duties for the exclusive use of the Federal government. (Sec. 10, art. 2). Direct Property Tax: The Federal Constitution prohibits Congress from levying a direct tax upon property thereby setting aside all direct property taxes for the exclusive use of state governments and subdivisions thereof. (Sec. 4, art. 9.) A distinct separation of tax sources was therefore: compelled by our organic law and approved by custom until the adoption of the Sixteenth Amendment giving Congress the right to levy and collect income taxes from whatever source. The Federal government must occupy this field to the limit in order to liquidate the war debt. Jurisdiction over life and Property: Life and property have inalienable rights. It is as great an injustice for the Federal and State governments to tax the same property twice as for the Federal and State courts to try a man twice for the same offense. Dual jurisdiction on the part of the Federal and State judicial branches of government is as offensive as dual jurisdiction on the part of federal and State legil-

lative branches of government. Whatever obligation any class of property or any citizen owes to government accounting should be made to one jurisdiction. Association are urging that all Alumni and Ex-Students send in their check for \$1.50 for reservation immediate-ly. Charles Curry Pierce, of Dallas, graduate of 1924 will serve as toastmaster at the banquet. The banquet is being held at the First Baptist Church basement here, beginning at eight o'clock Saturday evening, May 18, the night before the baccalaureate sermon is to be preached, the following Sunday morning.

BRS. BRADLEY ENTERTAINS CLUB; FAREWELL PARTY FOR THEIR FRIENDS

Mr. and Mrs. Guy Bradley were hosts last Friday evening to members of the Bridge Club and their husbands when they entertained honoring Mr. and Mrs. M. C. Tull, who will soon move from O'Donnell. As a total surprise to the hosts, their guests remembered that Friday was their tenth wedding anniversary and showered them with all kinds of tinware. Mrs. Tull was the recipient of a lovely sandwich tray, the parting

gift of the Club. At the end of the evening, the hosts served a "bum" lunch, tied up in red and blue bandanna handkerchiefs. The lunch consisted of chicken salad and pimento cheese sandwiches, potato chips, olives, red soda pop, and iced. Those present were the honorees, Messrs. and Mesdames Burley Brewer, M. J. Whitsett, E. J. Boyd, Ferrel Farrington, E. T. Wells, Ben Cowden, Sid Cathey, and Miss Thelma Palmer.

MISSIONARY SOCIETY IS TO SEND BOX

At the social meeting of the Woman's Missionary Society of the

Methodist Church, which will be held Monday week, a box will be packed for the Virginia K. Johnson Home. All ladies are requested to bring any kind of infants garments and supplies, either used or new clothing.

KNOW TEXAS

Texas produces from 30 to 40 per cent of the cotton crop of the United States and from 20 to 30 per cent of the cotton crop of the world.

Statisticians predict the population of Texas in 1950 will be 7,015,000, and that of the 2,500,000 predicted increase only 140,000 will be in farm population.

For Good Cultivating in Wide or Narrow Rows—

JOHN DEERE NF CULTIVATOR

Because it is simpler to operate; because it does a more thorough job of cultivating, this John Deere Two-Row is the thorough favorite among general farmers. The John Deere NF will do good work in your cotton, corn, potato, or cabbage fields, whether you have planted with a one-row or two-row planter.

Some of the advantages that make the NF such an overwhelming favorite are:

1. The easily-operated, conveniently-located spacing lever, which enables you to instantly space gangs in or out as you drive, keeping shovels the desired distance from rows, in all the varying conditions.
2. The tilting lever, which permits changing set and suck of shovels without stopping team.
3. One master lever, which raises or lowers all rigs—no stop necessary at end of rows.

You can get the NF with three-horse or with four-horse hitch with tongue truck. Any style of rigs you require.

Come in and ask to see this famous cultivator.

Power Transmission Lines Bring Many Advantages to a Community

CHIEF among the advantages of electric power transmission lines is flexible service capacity. Many conditions, such as heat or cold, cloudy and stormy weather, cause variations in the demand for electric service in any city. Today the greatest demand may be at six A. M.; tomorrow it may come at ten A. M.; and the next day at eight P. M. When a city has transmission line service these variations are instantly met, with ease. But when a city depends upon an isolated power plant it is probable that a heavy load at an unusual hour will result in poor service for part or all of its customers.

Greater dependability is another big advantage of transmission line service. It is usual for a city to have two and sometimes five or six sources of power when served by transmission lines. So that if one source of power is cut out for any reason, another is instantly switched into use. In case of an isolated power plant an accident in the plant itself is likely to throw all or a part of the city out of service for a time.

Ability to Increase Power Capacity is a mighty important advantage to any city that has ambition to become truly great. Transmission lines permit instant and almost unlimited increases in the amount of electric power which can be served a city. An isolated plant must undergo drastic structural changes at great cost in order to increase its capacity very much. And the process is slow. Cities have been known to lose important industries because they could not supply enough electric power when it was needed for the industry's establishment or expansion.

The TEXAS ELECTRIC SERVICE COMPANY produces electricity in large centrally located generating stations and distributes it by a system of high tension power transmission lines.

The Silent Partner of Progress

Bluebonnet Club Celebrate With Picnic

On Friday evening Misses Alta Rodgers and Roxie Hancock entertained the Bluebonnet Club and several guests with a picnic. Clever invitations had been mailed out early in the week bearing the legend: "Put on your apron and bonnet and come to Alta's house Friday at 7:30, 'cause Alta and Roxie are gonna take the gang and get out and get under the moon," with tiny blue bonnets and aprons attached to the card at the proper places. Miniature blue striped overalls were placed on invitations intended for the gentlemen.

Promptly at the hour indicated the party met at the home of Miss Rodgers, loaded into cars and journeyed out to the open section east of town, where fires were lighted for the cooking of potatoes and wienies. Buns, cookies, pickles, and various and sundry other picnic edibles were on the menu, as well as lemonade. The blue bonnets and overalls were important parts of the festivities also.

After supper the guests reverted to their childhood and played all the exciting games anyone could bring to mind.

Those present were Misses Jeanette and Alice Thomas, Golda and Zada Simmons, Velma Winkler, Irma D. Palmer, Claire Ruth Nichols, Leta and Alta Rodgers, Grace Harville, Jessie Gary, Roxie Hancock and Mary Dean Preston. Messrs Harvey Lines, Claude Malone, John Vermillion, Sumner Clayton, Harry Coin, Desmond Yandill, Earl Grider, Mr. and Mrs. Harvey Jordan.

The house rat has the unenviable reputation of being the most destructive animal in the world, and new poisons are constantly being tried on it. So far, red squill has been found to be one of the most efficient, economical, and safe of rat poisons. Its chief value lies in the fact that it is practically a poison specific for rats, and seldom harms domestic livestock if eaten by them. Red squill, a perennial plant that grows wild on the Mediterranean coast, is dried, powdered, and used in baits in concentrations ranging from 5 to 10 per cent.

B. B. SWEATERS PRESENTED IN PRETTY CHAPEL PROGRAM

Basket Ball sweaters were presented to seven girls last Friday morning at a pretty chapel program, with Miss Velma Winkler, coach, making the speech. The sweaters are gold, with the letters OHS and a basket ball in black, making a striking and effective garment. The girls and the coach wish to express their sincere appreciation to the faculty members who were so generous in their assistance, to the boys' team who backed them up so faithfully, and to other friends of the school who were so interested and so generous in their donations. The sweaters will always be treasured and the

friends remembered.

Those receiving the sweaters were Irma D. Palmer, Pauline Wheeler, both of whom are in the Senior Class this year, Madeline Morrison, Golda Simmons, Audys Ratliff, Dela Belle Williams, and Jessie Middleton.

HELPING TO BUILD TEXAS

Over 500,000 additional fruit trees have been planted in 52 East Texas counties within the past two years as the direct result of the home orchard campaign inaugurated by the East Texas Chamber of Commerce. In 1927-28 the total was 260,000 and in the second year's campaign just ended it was 275,000. New home orchards have been added to 6,100

homes in the 52 counties. Smith with 40,000 trees planted this year won first place among the counties included and Gregg was second.

Williamson County put on an unique kind of fair—"educational." All but two of the 98 schools in the county were represented in the parade of 8,000 pupils who took part in a pageant depicting the development of America from the time of the Indian down to the administration of President Harding.

A Wood County banker says his bank has loaned more money for the purchase of dairy cows this spring than in the previous five years. He holds that "dairy farming is our salvation."

Itasca, down in Hill County, celebrated "Jersey Day," the feature being the unloading of thirty registered Jerseys from Tennessee and their distribution to farmers interested in the development of dairying in that fertile farm section.
