

THE O'DONNELL INDEX

VOLUME XIII

O'DONNELL, LYNN COUNTY, TEXAS, THURSDAY, MARCH 26, 1936

NUM

Contracts Being Turned Down

Cotton Loans Invalidated; Government Calls For Immediate Payment

During the past week practically every farmer in this territory who placed cotton in the Commodity Credit Corporation 10-cent or 9-cent loan has been notified that the cotton which was placed with the Federal Government as security for these loans does not come up to stipulations of the contract signed when application was made for the loan, and the Government is therefore demanding immediate payment of each and every loan. Contract signers are notified that they have fifteen days from the date of the notification to call at their local bank and take up these loans.

To say that this is a serious matter is expressing it mildly. Each man who signed the contract in two places, and he himself personally guaranteed the cotton to be no middling or better in grade and 7-8 inch in staple, for the 10-cent loan, or low middling, 13-15 inch in staple for the 9-cent loan. Therefore our farmers, innocent and unknowingly, find themselves in the position of having made false oath and securing money under false pretense.

According to Section 16 (a) of the Reconstruction Finance Corporation, they are liable for a fine of \$1,000 or imprisonment for 2 years, or both. This section reads as follows:

"Whoever makes any statement knowing it to be false, or whoever willfully overvalues any security, for the purpose of obtaining for himself or for any applicant any loan, or extension thereof by renewal, deferment of action, or otherwise, or who procures, releases, substitution of security therefor, or for any purpose of influencing in any way the action of the Corporation, or for the purpose of obtaining money, property, or anything of value, under this act shall be punished by a fine of not more than \$5,000, or imprisonment for not more than 2 years, or both."

This clause appears in two places on each and every contract which was taken to the office at Washington, and each contract was signed in two places by each applicant for loan. In one place on each contract appears the statement that "All cotton listed in the above attached schedule classes is no middling or better in grade and 7-8 inch in staple, or better, unless the number in the above or attached schedule is marked 'X'." Letters received by scores of farmers in our territory this week have read as follows: "Dear Sir: The Corporation is the holder of the above described note executed by you on S-26 CCC cotton Form A, and a check of the cotton pledged to secure the discloses that either a part or all of the cotton is below the grade eligible for a loan."

Demand payment of this note is hereby made in accordance with the provisions of the note and loan agreement wherein you represented and warranted the cotton pledged to secure the loan was low middling or better grade.

Unless payment of this note is made within fifteen days from date of this notice the cotton will be sold and you will be held liable for any deficiency provided in said Loan Agreement."

Make New Loans
When the storm first broke here, news was received with mixed feelings, the chief being that it was all impus in a teapot, that the producer could not be held liable, and there was no use in paying any attention to it.
The Index has never been an alarm or a political organ or anything of that kind, but dear readers, permit me an institution vitally interested in the welfare of our people, to urge you come in immediately and see the matter. To the shame and humiliation of the Government service, known that through some means, thousands of bales of cotton have been misclassified, and that now it is up to the farmer to get it all straightened.
Messrs. Louis Drucke and Leroy Lindsay, both of them experienced in cotton situation and both authorized to handle this present emergency, working day and night at the bank to re-write the contracts applications in such a manner as to give some order out of chaos. All those who have received such a notification from Washington are

Negroes To Be Required To Have Marriage License

In the report from the Grand Jury sent to us from the office of District Clerk W. S. Taylor, we find the following paragraph:

"We have further, from our investigation, found that in this county there are many negroes living together as husband and wife without being married. We do not understand it to be the law of this State that negroes exempt from marriage when they are living together as husband and wife. We further find that much crime exists in the negro communities of this county because of such manner of living. We condemn such practice by them, and request our officers and good citizens of this county to report, apprehend, and punish such persons found to be living in adulterous relations."

We have no information as to how this ruling will affect our own colored population, and make no comment upon it. We merely publish this statement in its entirety so that local officers may not be criticised by apparently meddling in something which does not concern them and which, by long usage, has become almost a custom in many sections of the South.

CONTRACT TO COMPLETE

Big Spring Weekly News announces that the State Department has let the contract for completion of a caliche base and asphalt surface through Howard county from Big Spring to the Dawson county line on Highway 9. With the completion of this stretch of road, we will have a hard surfaced highway right on into Big Spring, which will be a great convenience to those parties who so often lose the way on the detour. We know from experience that while it is comparatively easy to follow the detour into Big Spring, many drivers have considerable trouble following it out again.

Mrs. E. T. Wells and daughters, Misses Beverly and Jim Ellen, were in Lubbock Friday shopping.

urged to come in and see these gentlemen and get their loans straightened up.

Mr. Drucke and Mr. Linderman explain that, even if you have placed one hundred bales as security, and only one of the number fails to come up to standard, your whole contract, loan and note comes back on you. The only thing to do, then, is to take up the old loan, sell the cotton which was turned down, taking your own loss, and then write a new contract and get another loan to care for the whole thing. This naturally means a hundred and one fretsome details and thousands of yards of red tape to be untingled, but that would be better than a fine and imprisonment.
When the situation was first presented to us, we immediately said that inasmuch as the cotton was classed by a man holding a Government certificate, the classer would be responsible, not the producer. However, we were soon informed that a man may hold a certificate as cotton classer from the Government but he does not represent the Government in any way, and the producer is held responsible under the contract.

To say that we were indignant and amazed at the outcome of the cotton loan was a very mild way of expressing our feelings, so we can imagine just how some of our farmer friends felt. We believe that this affair will go down in history as one of the scandals of the century, when thousands of innocent farmers were compelled to lose thousands of dollars through no fault of their own. But no matter how highly incensed we may be, nor what we may do or say, the fact remains that such is the situation now confronting our farmers, and it seems that all they can do is come in and make the new loan applications.

Mr. Drucke and Mr. Linderman have been at work ever since the news first reached this territory, filling out new forms for each application which has gone from this office, so that when any man comes in to renew the business, all the papers will be ready, and considerable time will be saved. The bank at Lamona is handling the situation for them, and they urge and implore that every man who placed cotton in the CCC loan, come in immediately and try to get the situation cleared up.

Coming Out of Hibernation

Walker Is Appointed Motor Vehicle Inspector

Announcement comes to this desk that J. B. Walker of Tahoka has been appointed by the State Railroad Commission to the position of Motor Bus and Truck Inspector. Mr. Walker, it will be remembered, has for several weeks been engaged in taking the business census of Lynn County, and during this work has become well known among business men in all sections.

He placed his application some time ago, but there was no vacancy at that time. The job carries a very nice salary, we are informed, and we congratulate Mr. Walker on his good fortune.

He began work Tuesday of last week, but has not yet been assigned to any certain district. We are somewhat uncertain as to the nature of his duties, but his title sounds very dignified.

Crop Loans Again To Be Available

A. L. Lockwood of Tahoka announces that he will soon be prepared to accept applications for crop loans, perhaps sometime this week. Application blanks had not been received when we were given this information, but Mr. Lockwood was expecting them at any time.

Tenants desiring loans must be prepared to furnish waivers from their landlords of the landlord's lien, as has been the ruling in past years. Loans this year will be limited, Mr. Lockwood stated, to \$300 to each individual farmer. The maximum in past years has been \$500.

Almost 100 per cent of past crop loans in Lynn county have been repaid, Mr. Lockwood said, which is an outstanding record for any part of the nation.

Mmes. Grifff McConal and little son and Ben McConal were here from Welch Wednesday, visiting friends and attending to business.

Mrs. C. C. Caldwell and daughter, Betty Rhea, spent the week-end with Mr. Caldwell at Jal, N. M.

Jno. A. Minor made a business trip to Lovelland Wednesday.

Prominent Business Man Seriously Ill

Mr. Don Edwards, for years manager of the local Cicero Smith lumber yard, is gravely ill in a Lubbock sanitarium, suffering from a cancer of the stomach. Mr. Edwards has been in rather poor health for several years, but for the past few weeks has been obliged to remain away from his business much of the time.

Quiet and conservative, Mr. Edwards has always been a prime force in any move for civic welfare. For a number of years he served as teacher of the Men's Bible class at the Methodist church, and was also chairman of the board of stewards much of the time. Recently, however, his physician had advised him to leave off all outside work and rest as much as possible.

High school athletics also found a firm sponsor in Mr. Edwards, and he was an enthusiastic football fan during the past three seasons. It will be remembered that he made the dedication address at the opening of Johnson Field, the high school athletic field, two years ago.

The many friends made during his years of residence in O'Donnell will await news from the sick room with much anxiety.

Local Students Placed High In Literary

Placing second for county championship at Inter-scholastic League meet at Tahoka last week-end, O'Donnell students made an amazing record in literary events. Track work showed up hardly as well, but the two track teams and the baseball team did some excellent work.

With no debate team in the running, the local school came away with a total of 85 points in literary work as compared with Tahoka's 87, and debate counts 40 points.

Both our boy and girl extemporaneous speakers, Donald Street and Thelma Parker, won first places. Byle Pirtle won first in senior girls' declamation, while Hulon Bolch won second in senior boys' declamation. R. O. Burdett placed second in junior high school boys' declamation, and Peggy Jane Adams placed 4th for the girls. In Ready Writing, high school, Joyce Mae Maxwell placed first.

In word school events, Betty Rhea Caldwell won first in essay writing. Bart Anderson and Margie Lee Buchanan both won second in declamation, while Essig Arnold and Billie Frank Gibbs both placed second in story telling. Betty Lou Pierce and Ruth Walker placed third in 6-7 grade spelling.

Almarino Nunnay won first in girls' tennis singles, Ivan Line second for boys. The O'Donnell volleyball team placed first. On Wednesday the team played the winners of the Class B tournament, the Wells team, and also played the rural winner, New Lynn, to see who represented the county at district meet at Lubbock. The O'Donnell team won both matches, beating Wells by one point and New Lynn by two points.

The senior track team was made up of the Tune twins, Truett Angel and composed of Harris, Walker and Line. Marvin Payne; the junior team was Our high school junior boys' baseball team also placed first in the county.

Miss Merle Wornack spent several days this week visiting relatives and friends in Lubbock, returning Wednesday.

Burl Koening has returned from a visit with relatives and friends in Bridgeport.

Mahon Protests Actions Of National P.

Congressman George Mahon, has made something of a record for young congressmen in his first term recently made perhaps the best speech of his career when he got up in the House and hurled a few pointed remarks at those representatives of the national press who persist in calling his district the Dust Bowl, and even going so far as to call it the 'dust of dust' territory.

Index readers will recall that we published an article several weeks ago deploring the adverse publicity which was being given to our still-growing section by its inclusion in the Dust Bowl Rehabilitation area along with such northwestern states as Kansas, Nebraska, etc., and stating at the time that we could expect to be treated as a stepchild, as usual, since administration of this project was to be placed in the hands of men from those states, men who had never been in Texas and who knew nothing of conditions and problems which confronted us. We pointed out in the same article that we have always had sand storms, but that our worst ones last year caused by dust which drifted in from our neighboring states on the northwest, leaving our own section in the same condition it has been for countless centuries.

Evidently Mr. Mahon agreed with us along many of these lines, even though he had not honored us by asking our opinion. (We're not that important, dear readers, so do not gain the impression that we're getting a swelled head.) Mr. Mahon particularly lambasted the Pathe News, which had recently shown news pictures which referred to this district as the 'dust of Death' area, and declared that men and livestock cannot live here. Our congressman produced some facts and figures showing that in practically every county in the district, crop records were broken last year following the drought and dust storms, and also stated that there were enough people still able to live here to break records in payment of poll taxes. Perhaps we are poor, simple West Texans, not considered 'men' by some of the higher-ups in Washington; maybe we should be considered some new-fangled kind of duck or animal.

Cast Selected This Week For School Operetta

Each spring the operetta which is presented by students of the grammar school is one of the most important events for residents of the entire district and is anticipated from one year to another with much pleasure.

It has been decided during the past few days that it will be more convenient for the operetta to be staged some what earlier than has been customary, and we are authorized to announce that "Dream Boat" will be staged at the Ma High six auditorium on the night of May 1st. As is usual, the little drama will be in two acts, and we feel free to say that this will be the most strikingly beautiful of all the operettas which have ever been presented here. The Dream Boat actually appears on the stage, drawn by the Night Moths, to take the children over Slumber Sea to a land where they can really see the Picture Book folk of whom they have dreamed. More than one hundred children will appear in costume in groups of six to ten in number, and will be fairies, gnomes, pirates, Indians, brownies, sailors, etc. Sometime between now and the night of actual production, the index will carry a complete list of all these characters. In the meantime those who will have the talking roles are:

Her Majesty, the Queen, Jo Anne Campbell; Puck, Billy McKown; Indian Chief, Alfred Ratliff; Pirate Captain, Bobby Dan Blocker; Sailor, C. L. Tomlinson; Children who visit the Mountain of Dreams will be played by Billie Jane Johnson, Billy Schneider, Berta Mae DeBusk, Berl Keeton, Billie Frank Gibbs, Frank Stokes, Dorothy Eaker, Ina Merl Beach will play the Fairy; Joe Baker Stokes the Gnome, Albin Ratliff the Maker of Good Dreams; Billie Blocker, Maker of Bad Dreams; Billy Edwards, the Messenger; Monroe Blalock, the Scribbler. The operetta will be presented by children from the Primary room, the second grade and the third grade, and will be directed by Mmes. Westmoreland and Vermillion and Miss Milwee. Mrs. Gibbs will assist with the piano accompaniment, and Miss Florence Gary will assist in working out some of the dance routines.

HOPE TO COMPLETE BUSINESS CENSUS SOON

W. E. Innon, Supervisor of the Census of Business, announces that the effort is being made to finish the canvass in O'Donnell and environs within the next few days. He asked that all business firms cooperate by furnishing the necessary census information as quickly as possible.

He reiterated previous assurance all enumerators and other persons connected with the Census are under oath not to disclose or discuss any information submitted for Census purposes, and that under the Census law no access to individual reports is permitted, not even to other Governmental, State or local agencies, and no information will be disclosed which would in any way reveal the facts or figures given in the returns.

Mr. Innon added that the census is progressing nicely in Lynn county and in O'Donnell, and that so far Mr. Walker has had the full cooperation of everyone with whom he has come in contact.

NOTICE TO AUTOMOBILE OWNERS

Because so many cars and trucks are to be registered by April 1st, I would appreciate your applying for automobile, truck and drivers license at your earliest convenience in order to avoid the rush. We have the last few days. On all vehicles not registered by the first of April there will be a statutory penalty of 20% added to the registration fee of such vehicle.

As heretofore I have placed a supply of truck, passenger and drivers licenses with Mr. J. M. Noble Jr. at the Lynn County Motor Co. for the convenience of the O'Donnell territory. If you wish to have the above will enable me to give you quicker service. Thanking you for your usual cooperation, I am, yours very truly,

A. M. Cade, Assessor and Collector, Lynn County.

Revival Services To Be Held At M. E. Church

Beginning Sunday morning, March 29 to continue throughout Easter Sunday April 12, the pastor, Mr. R. Pike will conduct the services, the first week at night only beginning at 8:00 o'clock, the second week services will be held twice daily, mornings 6:30 o'clock and evenings at 8:00 o'clock.

Throughout the 2nd week the pass will be assisted by Rev. Prestonence of Seagraves, Texas. Presence will lead in Visitation and you are cordially invited to attend these services.

1881 - 1936
TIME
HAS BROUGHT GREAT CHANGES—
"That's something I get down my sorrel coat—don't see why it wouldn't cure you Aunt Hetti." Over the same counter, Ezra Jenkins sold pruing hooks, pitch forks, and all the panikillers known to man. Ezra had heard that Jerusalem Oak was good for young'uns and that Blue Mass was good for your liver. Outside of this, Ezra knew nothing.
Time has brought great changes. In 1881, the Ezra type of pharmacist was in every general store. Today, university trained, druggists guard your health.
Davis accentuates the modern drug store of 1936. Here only the highest quality drugs and pharmaceuticals are used. Only experienced and registered pharmacists are employed and service is synonymous with the name.

**P. T. A. Program
Wednesday Of
Unusual Interest**

An unusually interesting program has been planned for the next meeting of the Parent-Teachers' Association, which will be held at four o'clock on Wednesday afternoon of next week, or April 1st.

All members are urged to attend this meeting, while any patron of the school or any prospective member of the association will also be heartily welcomed.

One special feature of Wednesday's program will be several numbers rendered by the little girls' Choral Singing Club the same group which re-

presented the school at Tahoka last week at the county meet. Many patrons of the school saw and heard them on that occasion, and they were indeed well worth the time. Wearing pure white linen dresses and suits with blue ties, this group of ten and twelve year old boys and girls did some singing and presented the appearance of a professionally trained club. Their director Miss Christine Millwee, deserves a great deal of credit and praise for the quality of work done by these children.

There will be no need to urge those who have already heard them not to miss this second opportunity, but we do join with the PTA in insisting that those who did not go to the county meet make every effort to attend the meeting next Wednesday and hear these youngsters sing.

**No New Candidates
File For Trustee**

All indications are that Messrs. Ed James and T. R. Tune have been very satisfactory members of the board of education of the O'Donnell Independent school district, as no opponents have been filed on the ballot for the coming election.

Notices of the election date, the first Saturday in April, have been published in the Index the required number of times, and have also been posted in several prominent places, so that everyone had ample opportunity to know about the election.

It was our privilege to work with the board for some time, and we found those members most interested in school affairs, so it is our humble and unsolicited opinion that we could hardly get better men to serve, or to find anyone who would take as much interest. At this particular time, too, when efforts are being made to refinance the school bonds and to settle a number of other important matters, it would perhaps be the wise thing to keep men on the board who are familiar with all details of the situation now faced by the district.

At any rate, Tuesday of this week was the last day for filing names of candidates, and no names other than those of Mr. James and Mr. Tune were listed with the secretary, Miss Beverly Wells.

Mr. John Hardberger of Littlefield has been here on business this week visiting friends and relatives and looking after business interests.

Club News

**LYNN COUNTY CLUBS
ENTER MEAT SHOW**

South Plains Home Demonstration Club women, among whom clubwomen of our own county will have important parts, will have much to do with the success of the annual Lubbock Quality Meat Show which is to be held at Lubbock March 30th thru April 1, at the Panhandle-South Plains fairgrounds.

Miss Grace Neely, food preservation specialist of the State Extension service at College Station, will judge the products.

It will be remembered that Lynn county club entries at the show last year, and Miss Sylvia Robb, county demonstration agent, reports that entries for this year will far surpass that of last year. Eight of the eleven women's clubs in this county will have complete exhibits at the show, Miss Robb said Tuesday afternoon. The remaining three clubs will have one or more entries each so that you can really say that our county clubs will go to the meat show one hundred per cent.

A complete exhibit will include entries in each of the following groups: Canned pork; No. 2 or No. 3 can of roast; No. 2 solid pack sausage; No. 2 can sausage, in cakes; No. 2 can sausage in casings; No. 1 or No. 2 can liverpaste; No. 2 enamel can mince-meat.

Canned Chicken; No. 1 can boned chicken ground, cubed, and chicken tamales.

Tamales, No. 2 can
Canned Beef; No. 2 or No. 3 can roast, half, mince-meat.

Soap; Child pound cold soap, half pound cooked soap.

Lard; Quail Jar.
A minimum of 35 entries from a county will be required to enter in the county competition. Prizes are to be awarded on the following score: percentage of home demonstration clubs having entries, 230; points won, 270; total, 500 points. Points per prize will be: 1-10; 2-9; 3-8; 4-7; 5-6; 7-4; 8-3; 9-2; 10--. First place winner will receive 75 cents, second place 50 cents third place, 25c; fourth place, 20c.

Cash prizes for clubs will be \$8, \$6 \$4, \$2, and \$1.

The program will begin at ten o'clock Tuesday morning, with Miss Neely judging in an open program. Team demonstrations will be held at one o'clock of the same day. The exhibitors' banquet is to be held that evening, and we understand that a number of Lynn county women are planning to spend the day in Lubbock remaining over for the banquet.

All entries must be at the fairgrounds by noon of March 30th, and must have the Texas Home Demonstration pantry label. Demonstrators whose products have been approved for market should carry the Texas Better 4-H products label.

**DAIRY SHOW INTERESTING
FOR CLUB WOMEN**

Lynn County Clubs will be represented one hundred per cent at the annual Dairy Show at Plainview on April 6-9, states Miss Sylvia Robb. This is quite a contrast to our entries last year, when the entire county sent up 2 pints of cream.

Five Lynn county clubs, New Home, Midway, Wilson, Tahoka, and New Lynn, will have complete exhibits of dairy products. A complete exhibit includes American cheese, Quick Process cheese, Cottage cheese, butter, sweet cream and milk. In each instance, the American cheese is being furnished by the farm food demonstrators from each club.

The remaining six clubs will be represented in one or more of these departments, so that Lynn county will have some fifty entries this year.

It seems to us that this wonderful increase over last year's showing makes a record of some kind.

**PETTY CLUB WOMAN
IMPROVES KITCHEN**

"I didn't realize what a difference just a little bit of work, time, and expense could make in a kitchen," said Mrs. R. B. Nowlin, kitchen demonstrator for the Petty H. D. Club, as she discussed her attractive and convenient kitchen which has been brought up to standard by following club suggestions.

Mrs. Nowlin has this spring papered the walls of her kitchen, painted the woodwork, and laid new linoleum. She used a color scheme of soft ivory and gray, painting in her color in touches here and there, a decidedly unusual feature of Mrs. Nowlin's kitchen is the radio.

"A housewife spends so many hours alone in the house," said Mrs. Nowlin, "when the radio in the living room is of no benefit to anyone. Now my kitchen work goes faster, is more pleasant, and when I hear a recipe I want, I can go right ahead with my work, and hear at the same time."

Realizing that many of a housewife's hours are spent looking out the kitchen window, Mrs. Nowlin has made her work more pleasant in still another way, by improving the view from her kitchen window. Trees have been set and shrubs placed so as to build up a beautiful scene, all framed in the window.

Do you wonder that the Nowlin family now spends more time in the kitchen than anywhere else?

**CLUB GIRL ADDS CLOSET
AT LITTLE EXPENSE**

Following the girls club project of building or improving clothes storage space, Maggie Russell of the Midway 4-H club now has one of the most convenient and attractive closets which ever graced a girl's bedroom. In only a small space, and at a very small expense, Maggie has arranged a closet which comfortably cares for her clothing and that of her sister.

Old materials were used, with the exception of a door. Shelves were built and painted, rods were installed and equipped with hangers, overhead storage space was built to care for unseasonable clothing or linens, all at little or no expense.

**YARD IMPROVEMENT NOTED
THROUGHOUT COUNTY**

"There has been more interest manifested, and more actual planting and work done on yards this spring than in both the preceding springs I have witnessed in Lynn county," said Miss Sylvia Robb Tuesday afternoon as she discussed this phase of civic improvement with your writer.

"And this interest is apparent all over the county, not only among club members, but on the part of every home owner I have contacted. Each week the office receives letter after letter, or men and women come in person to secure information as to the best shrubs to use, method of setting, etc."

This news will be gratifying to every citizen of the county who is really interested in the development of this section. Gracious homes beautifully framed in stately trees, embellished with the dark green of evergreens, and enhanced by the charm of blooming annuals and perennials, are the best advertisement any county can have.

Miss Robb points out that another pleasing feature of this interest is that permanent plantings are being done.

trees and shrubs being placed in the back and side of the houses in such a manner as to frame them and bring out all their good points. Along with these permanent shrubs, beds of hardy annuals and perennials are being started also.

Everyone in the county is urged to go and see the Oscar Roberts home recently built on the Brownfield highway out of Tahoka. The grounds of this place are landscaped according to standard rules, and give one of the best examples we know of just how much can be done with only a few 'exactly right' plants. Mr. and Mrs. Roberts, by the way, are the Lynn County Centennial Yard Improvement contestants.

(Editor's Note: Index readers are reminded of the Lawn Improvement contest which is being sponsored this spring by Davis Drug store here. Mr. Davis is following all regulations laid down by the Centennial committee.)

**Class Play Next Week
Is Term Project**

Because the instructor and director, Mrs. Charles Cathey, will be one of the judges at Brownfield for the Terry County Inerscholastic League Meet on Friday night of this week, it has been necessary to postpone the staging of the Public Speaking play, 'Up the Hill to Paradise,' to Wednesday evening of next week, which will be on April 1st.

This play, a three-act drama which will be staged free of charge, is the term project for students of the Public Speaking department, corresponding to a term thesis in any other line of work. Miss Almarie Nunnally and Hulon Bolch will play the leads, with a strong supporting cast. We are told that this is one of the strongest plays which has ever been attempted by local amateurs, and that it will be a fair display of what the students have learned in the years' work. Mrs. Cathey has coached several plays during her teaching career in O'Donnell, so that local people know how much she can get out of a group of high school girls and boys. Personally, we are looking forward with much interest to this production, and we urge that other school patrons do not pass up this opportunity.

B. M. Haymes has this week purchased a handsome four-door Dodge sedan from Mr. John Ellis, local representative of the company.

UNIVERSAL "J"

A half century of research and experiment on the part of highly skilled engineers are exemplified in your Twin City tractor. All the errors, all the details which have been not absolutely perfect and satisfactory, have been checked and eliminated from this year's model.

For fifty years, Minneapolis-Moline farm machinery has been the standard by which others were judged, and it is a source of pride to all dealers that this confidence has not been betrayed or misplaced. The M-M company unconditionally guarantees that every piece of machinery will give absolute satisfaction. On some of the biggest commercially-operated farms in the nation, Twin City tractors have been used without interruption for a quarter of a century and the management will not consider using anything else.

Before you buy your new tractor and start this year's crop, call at our office and let us demonstrate to you how much money you can save and how much more satisfactory your work can be if you use a Twin City. We have models to suit the needs of small-scale or large-scale farming; terms are easy, and we give you the very best possible trade-in value on your stock, old implements, etc.

La Grone Implement

GRAND JURY REPORTS

Texas, County of Lynn, District Court of Lynn County, February Term A. D. 1936, 9th day of March A. D. 1936, Honorable Judge of Said Court, our Grand Jury for the February of 1936 of said court, most fully report to the court the

port that the most of these cases have been tried this term of court as soon as they were returned by us. We have investigated various offenses against our laws, most prevalent of which are murder, forgery, theft, burglary, incest, driving while intoxicated and violation of the liquor laws, and we have returned indictments in such cases where we thought the evidence was sufficient.

We have deliberated 7 days in the nature of crime, and have returned to court 24 felony bills of indictment, and one misdemeanor bill of indictment, and we are glad to re-

We find from an investigation that in this county the butchers are failing to obtain bills of sale for animals that they buy, and that they, in many instances, buy cattle without inspecting

YOU CAN DO THIS WHILE WE UNLOAD THAT FEED OF YOURS

Give us a trial before you sell.

ANNOUNCING

The Republic Life, an old line legal reserve registered policy company, of Dallas, Tex., announces that Mr. L. F. Drucke, who is now well known in O'Donnell and vicinity, is a special representative.

Republic Life believes that REGISTERED life insurance gives policyholder real security as no doubt intended by the legislators when this provision was enacted.

Company issues all form of old line legal reserve life insurance that is widely and favorably known throughout the State of Texas. Has paid to policyholders and beneficiaries since organization a total of \$866,597.35.

Drucke solicits on behalf of the Republic Life your business.

REPUBLIC LIFE INS. CO.,

Home Office, P. BENNETT, Dallas, Texas. President.

A new electric percolator or coffee maker will give you a new idea of how good coffee can be when it is made properly. You can taste the difference when it is made electrically, for no matter how good a brand of coffee you buy, the beverage you serve depends upon how it is prepared.

See the new percolators and coffee makers at our store.

Percolators \$4.95 up
Convenient Terms

Penny Wise Says:

"Get all the good flavor out of good coffee with an electric percolator or an electric coffee maker. Making the morning coffee requires only one-half cent's worth of electricity. This is less than the cost of cream for one cup."

TEXAS ELECTRIC SERVICE COMPANY
C. E. CAMERON, Manager

the head and hide that belong to such animal, and that they are further failing to make a report to the commissioner's court each month, stating the number of cattle or animals so bought, a description of such animals, and a bill of sale for each animal so bought with such report. We further find that in many instances those engaged in the business of butchering and slaughtering animals have failed to make bond as required by law before engaging in such business. We have not returned indictments in this term of court for such violation of the laws, but those known to be engaged in such business have been warned by us to comply with the law, and we call upon our officers and good citizens of this county to report any further violations of the butcher laws, and that those so violating the butcher laws of this State be prosecuted by complaint, or that such matter be called to the attention of the next Grand Jury when it convenes.

We have also found that there are those who utterly disregard the rights of other people and get in their automobiles while under the influence of intoxicants, and drive down our public highways and streets in such dangerous condition, a menace to every person which they meet. We cannot express too much condemnation for such violations of our laws, and respectfully request our officers and good citizens to report, apprehend and prosecute such persons so violating this law.

We have further, from our investigations found that in this county there are many negroes living together as husband and wife without being married. We do not understand it to be the law of this state that negroes are exempt from marriage when they are living together as husband and wife. We further find that much crime exists in the negro communities of this county because of such manner of living. We condemn such practice by them, and request our officers and good citizens of this county to report, apprehend and punish such persons found living in adulterous relations.

We have examined the courthouse and jail and find that the same is being kept in a good and sanitary manner, however, we find the jail to be inadequate to hold prisoners that attempt to break out, and we request our county Judge and Commissioner's Court to make an inspection of this jail and do what they can toward strengthening, repairing, or buying new equipment to make a stronger jail, for we cannot see any need for arresting criminals, if they are placed in a jail that will not hold them.

We wish to thank our District Judge, our Sheriff W. B. Balfanz, our District Clerk, County and District Attorneys, and our Janitor for all courtesies and assistance extended to us during our meetings. They have cooperated with us in every way and made our work pleasant. We also want to thank the good citizens of this county, who came before us as witnesses, and gave their testimony in matters of criminal investigation.

Being finally concluded our labor, we most respectfully ask that we be adjourned for the term.

John Heck,
Foreman of the Grand Jury.

Minor's Feed Store To Sponsor Show

Attention of our readers is called to an ad which appears in this issue of the Index, announcing a free picture show which is to be sponsored by the John A. Minor Feed store.

This talkie, "Hidden Harvest" is to be presented at the high school auditorium on Thursday evening, April 2, and will be accompanied by a lecture on modern and scientific farming from one of the leading experts of this section of the country. Mr. Minor is presenting it to all residents of the territory simply to create further interest in learning and applying the newest methods of farming and getting the most out of farm livestock.

GRIFF McCONAL
Welch, Texas

Gov. Allred Expresses His Appreciation

It isn't very often that a simple country-town newspaper editor receives a personal letter from the Governor of the State of Texas, and your editor may be pardoned for admitting a real thrill when she opened a letter from the executive office Monday morning and saw the decisive, dignified signature of our Governor Jimmie.

Index readers will recall that some two weeks ago we listed the names of candidates for the gubernatorial race this year, with the editorial postscript that Governor Allred had made too good a governor not to be returned to his office again. In his personal letter to us, the Governor said: My dear Mrs. Farrington:

I have just finished reading an article in your issue of March 12th concerning the gubernatorial race. I want you to know how deeply appreciative I am of your remarks concerning my administration and am proud to know of your interest in my behalf. It is indeed generous of you to make the statement concerning my re-election. I hope that you will feel free to write to me at any time.

With kindest regards and best wishes to you and yours, I am, Sincerely yours,
James V. Allred,
Governor of Texas.

The Index has gone to the office of the Governor ever since his inauguration, but it had never really occurred to us that any of the secretaries, would have time to glance at the headlines of our admittedly small publication, and any idea of personal attention to any remarks we might have made concerning his administration would have surprised us more than anyone else.

So, on our own part, we are deeply appreciative of the very kind letter from our Governor, and that communication will be carefully put away and kept to be shown and read to our great-grandchildren.

Of further interest, to local people especially, was the fact that the letter was typed by Miss Ola Belle Singleton, a niece of our postmaster Hal Singleton, and daughter of Dr. Bob Singleton of Tahoka.

Mr. and Mrs. Fred Henderson spent several days this week with relatives at Quannah.

LOST: Wednesday of last week, between Gulf Service Station and Bob Burdett farm, a 650x20 tire, mounted on a red rim. Finder please notify John Ellis, O'Donnell.

Penny Holman left Monday to resume his duties at Ft. Bliss where he has been enlisted in the aviation corps for almost a year.

Mrs. J. Mac Noble, Jr., and little son spent Monday in Lamesa with her parents, Judge and Mrs. J. E. Garland.

T. J. Yandell made a business to Tahoka Tuesday afternoon.

Old Newspaper Tells Doings Of Local People

Along with the other interesting articles and curios which have been brought to the office recently is a copy of the Borden Citizen, at one time the Borden county newspaper, published at Gall, and at this time of the year in 1904. The old paper, a four-page four-column publication with pages measuring sixteen inches from top to bottom, had as its motto 'Hew to the line; let the chips fall where they may'. This motto was bravely emblazoned just under the name.

On the front page appears an ad citing the merits of a sure cure for rheumatism, from which we may surmise that the ranchers and cowboys of those days often complained of breaking joints as they climbed stiffly down from their saddles after a hard day of riding the fences. (That is really a term used by stockmen and means riding along beside the fence to see that it is in good repair, dear readers; it doesn't mean that the boys put their saddles across the board fence, as you and I used to do when we played Indian and cowboy.)

On another page we find quite a nice ad from our old friend and former business man, the late J. W. Chandler, who operated a Blue Front Mercantile business in Gall. A news item stated that Mr. Chandler was at that time in St. Louis buying Spring merchandise for the store. Another news item told the tragic details of an accident which had taken the life of one of the ranchers, his horse falling and the rider's neck having been broken in the fall.

But the most interesting feature of the paper, to us at any rate, was the full-page account of the war between the Blues and the Reds, two factions in the race to get the State lands in Borden county. The stockmen made up one group, the farming element the other. The Blues were the stockmen, the Reds the homesteaders. The State had placed five sections of Borden county land on the market on March 4 and three additional sections on March 11. The settlers had filed on the land and had been holding the door of the county clerk's office for two or three months, but the Blues determined to do their best. The sheriff was called out to search all participants in the fray and to remove all weapons. C. B. Morrison, whose paper we are studying, reports that there must have been a wagon load of guns, knives, pistols and other artillery, all stacked up in one pile outside the railing of the courthouse lawn. On February 29 the biggest fight, or one of the biggest, took place on the lawn and in the halls of the courthouse. In this engagement, the Blues were successful in throwing the Reds out on their ears. However, the Reds rallied their forces, and returned to the fray on March 2nd. With fully 225 men taking part in the free-for-all, the Reds were victorious and the Blues were forced to withdraw from the scene of battle in defeat, but they left vowing revenge on the morning of the 11th of March, when the other land was opened. In the time between the dates, both factions scoured the country, bringing in men to help them out, and Mr. Morrison tells us that they came by horseback, on foot, in covered wagons, in buggies and surreys, from all over West Texas. On the morning

of the 11th, both sides had their lines drawn up, with the Blues far outnumbering the Reds. Full details of the exciting engagement are told in the little old paper, right up to the last minute when the Reds succeeded in tossing out the last of their opponents, and the land belonged to the settlers.

Among O'Donnell people whose names are listed in this stirring tale of old days in the West we find that of Mrs. Morrison. E. W. Howell, Will and Bob Orson, J. S. Fritz, Box Jim, John and Matt Cathey, Lee Miller, E. A. Gieghorn, D. C. Stevens.

We are greatly indebted to Mr. Morrison for bringing this copy of the Citizen into the office for our readers to see. The old paper is sadly torn and tattered, but is still plainly legible. In a few more years, we believe it will be worth hundreds of dollars.

Emergency Wind Erosion Program Ready For Action

College Station, Texas.—The emergency wind erosion program being administered by A and M college through the Texas Extension Service is ready to go into immediate action as soon as funds are received from Washington, D. C. Director H. H. Williamson of the Extension Service has announced.

A major part of the counties are organized in the Panhandle area and applications for treasurer's bonds are being received," the Director said.

He went on to say that all application forms have been sent out to the counties and the administrative machinery is set up at College Station to handle the emergency wind erosion program with the least possible delay. Director Williamson explained that the program will be handled in the counties by county wind erosion committees elected by the county council. These committees will consist of three farmers, who will elect a chairman and a treasurer. The treasurer of such an organization need not be a member of the committee.

The county agricultural agent will act as secretary and be responsible for the educational phases of the work and generally supervise the program. The county agricultural agent will represent the Director of the Texas Extension Service.

Other points of the emergency wind erosion program are: The county committee will appoint community committeemen, who must approve farmers' applications, and, after the work has been completed, certify before final payment is made that the work has been completed as specified by the county committee and agreed to by the applicant.

Checks for 60 percent of the total grant will be issued to each farmer upon approval of application, and the balance paid upon certification that the work has been completed.

Only solid listing or strip listing or chiseling can be approved by the county committee, and all work must be done on the contract.

"This requirement has been made," the Director explained, "in order to conserve all moisture and assure a vegetative covering that will prevent the occurrence of the same situation next spring."

Marines Need Men; Ask For 75 Recruits

A communication received at this desk from Lieut.-Col. Tom E. Thrasher, Jr., of the U. S. Marine Corps states that the corps has exhausted its waiting list and will enlist 75 young men who can meet the requirements specified for accepted applicants.

These young men will be enlisted immediately and will be transferred to the marine base at San Diego for their preliminary training. Requirements for enlistment provide that accepted applicants must not be less than 18 nor more than 25 years of age, 66 to 74 inches in height, of good habits and character, American citizens, and have had better than a common school education. (Must have had some high school work.)

Full information may be secured by writing the U. S. Marine Corps Recruiting Station, 257 South Spring St., Los Angeles, Cal. A number of local boys were interested in this announcement, which we published several months ago, and we carry this statement in the hope that it may be of interest and service to some of our readers.

Mr. Malcolm Dolloff has returned to his home in Mercedes after spending several days here with friends and relatives. He was called back to O'Donnell by the tragic death of his brother, Mr. Bob Dolloff. Mr. Dolloff lived in Lynn county for an extended length of time, but moved down in the Valley several years ago.

QUILTING PARTY HELD AT MRS. DEWEY PARKER'S

Mrs. Dewey Parker was the gracious hostess last Thursday afternoon to a number of friends who gathered at her country home ten miles east of O'Donnell, and enjoyed the afternoon at work on one of the new quilt designs, the boy and girl doll quilt, which was the property of little Miss Joy Willard Parker.

At the close of a most delightful afternoon, delicious refreshments were served to Mesdames J. D. Crawford, Elaine Newton, W. H. Veazey, Jim Parker, M. J. Parker, McCauley, S. D. Baptist church officiating.

FORMER O'DONNELL GIRL MARRIED AT TAHOKA

Announcements appeared in the Lynn County News last week of the marriage of Miss Alvera Lawler to Mr. Jack Minor, the ceremony having been performed at Slaton on March 17, by Rev. G. C. Seawall of the First Baptist church officiating.

The bride is a daughter of Mr. and Mrs. H. E. Lawler, former residents of O'Donnell who removed to Tahoka some three years ago. She and the family have many friends here who will be interested in this happy event.

Mr. Minor is a graduate of Tahoka high school and has for several years been employed at Meek's Food store there. We are informed that he is one of the promising and respected young men in his home town.

The Index joins with other friends in extending hearty congratulations and best wishes to the happy couple.

MISS ALINE MOORE AND MR. HARDIN WED

(Intended for last week)
Of interest to local people was the marriage on Saturday evening, March 7, of Miss Aline Moore and Albert Hardin, the ceremony having been performed in the reception room of the First Baptist parsonage at Lamesa by the pastor, Rev. E. F. Cole. Only intimate friends of the couple witnessed the rites.

The bride, whose home is in Abilene, came to O'Donnell this year as a member of the faculty at the O. K. school. She has made her home with Mr. and Mrs. J. W. McDonald, and during the few months she has been here, has made scores of friends throughout the territory. She will fill out her term as teacher, much to the gratification of her patrons and students alike. Mr. Hardin has been employed at Cole's Barber Shop, (formerly the Mills shop) for more than a year, and is highly respected and esteemed by

STOMACH SUFFERERS

If your druggist does not have GAS-TONS send money orders payable to Corner Drug Store, O'Donnell, Texas.—Adv.

a wide circle of friends. For the time being, Mr. and Mrs. Hardin are at home at the McDonald residence. The Index joins with other friends in extending hearty congratulations and best wishes.

TANGIBLE RESULTS OF NEWSPAPER ADVERTISING

Tangible evidence that the Continental Oil Company's heavy use of newspaper space in its marketing territory during 1935 was a sound advertising move is indicated in the figures of the Company's annual report for 1935 just issued.

These show that the Company increased the volume of its general business as well as its profits, and that it enjoyed a notable gain in the sales of its patented "germ-processed" motor oils. This product, which was especially stressed in the Company's advertising, had an increase in sales of over 14 per cent, in comparison with the figures for the previous year.

Continental recently announced that it would again expend the larger part of its 1936 advertising appropriation for newspaper space.

J. L. Shoemaker, cashier and president of the First National bank, has been ill with flu several weeks, and has been absent from bank.
