Taxial Gearing for O'Donnell Clinch

There is a possibility of a taxial gearing for the O'Donnell Clinch. The taxial gearing is a process of making the teeth of a gear mesh with the teeth of another gear. This process is used in the manufacture of gears for machinery. The taxial gearing is a process of making the teeth of a gear mesh with the teeth of another gear. This process is used in the manufacture of gears for machinery.

Another Victim of the Racketeer

Fire Boys Accepting Honorary Members

The Index is requested to notify the public that each member of the O'Donnell Voluntary Fire Department is supplied with Honorary Membership cards and will be glad to issue same to those who desire to assist the local fire department. Honorary Membership cards are issued to the general public to assist in raising funds for the various needs of the department. The price of honorary memberships are \$1.00 and up, depending on the individual who buys one. The price is entirely optional with the purchaser. Last year's honorary membership cards are now out of date, so if you believe the boys are doing their work well, call on any one of the members and secure your honorary membership card for this year. Any one of the following members will supply you: Chief Clyde Ash, W. J. Shook, Paul Welch, Ollie Harris, Naome Brewer, Chas. Minton, J. W. Campbell, C. D. and R. C. Willis, H. G. Gantt, C. B. Hubbard, J. D. Fairley.

Local Basket Ball Teams Win Games

O'Donnell's basket ball teams are the proper dope—and how! Last Saturday evening the girls romped home with the big end of a 16-15 score, vs Tahoka, the game being played on Tahoka's court. The game was fast and clean and enjoyable.

On Tuesday afternoon the boys met the Berry Flat team at Berry Flat, winning easily with a score of 26-16.

Do we have good teams? We'll tell the world.

MANY ACRES BEING PUT IN IN DAWSON COUNTY

LAMESA—We have thousands of acres of Dawson County Farm Lands which have been and are now being put up in preparation for the 1929 Spring Crop. The season is an excellent for looking according to the farmers who are now putting up the land. Most of harvesting is finished and the farmers are now hastening land preparation and taking advantage of the season they have to put up their lands for this year.

It is estimated that ten per cent of the land now in cultivation are now going under the plow for the first time as new lands this year. The season is fine for sowing and the moisture made upon the land for this county have encouraged more tenants to come into this section this year. As the reason for the extra land cultivation, Dawson county still has approximately 200,000 acres of good tillable agricultural lands to go under the plow. This land is still undeveloped and is of the Sandy Loam Catfish Type. Farmers and stockmen are interested in cutting large tracts now given over to grazing to agricultural lands.

The past year Dawson County has received probably the largest food crop in her history amounting to approximately 1,000,000 tons of grain and cotton. The cotton crop will reach the 1,000,000 bale mark when all is in and counted. The crop has been so short on account of low rain and poor during last summer.

NEW HIGHWAY BEING GRADED

LAMESA—The Dallas-Carroll Highway Association through the cooperation of J. J. Carraway, town site proprietor of North Star, Mexico is building and grading the road West from the town site following the survey of the New Mexico State Highway body. The grade will connect in the West End of Dawson County to the already completed road graded for the State Highway Department, of Texas and will connect eight miles west through North Star, Mexico. The work on this road will have been on within twenty West Texas States to connect to the Dallas Highway which leads through North Star, Mexico. The officials of the Dallas Highway Association are hoping that this new road will be open and graded leading the Federal Highway which leads through North Star, Mexico.

Train Schedules Changed Monday

The New Mexico Railway Co. has changed its schedule of train service between the Dallas-Ft. Worth and El Paso lines. The change is effective Monday, February 1, 1929. The new schedule is as follows: Dallas to El Paso, 10:00 a.m.; El Paso to Dallas, 10:00 p.m. The change is effective Monday, February 1, 1929.

Lubbock is to Have Hilton Hotel Soon

A contract for \$750,000 has been awarded to the Lubbock Hotel Co. for the construction of a new Hilton Hotel in Lubbock, Texas. The hotel is to be built on the corner of Broadway and 10th streets. The hotel is to be built on the corner of Broadway and 10th streets. The hotel is to be built on the corner of Broadway and 10th streets.

Haymes Report 90 Per Cent School Taxes Collected

According to a statement issued by R. E. Haymes collector of O'Donnell Independent School Taxes, approximately 90 per cent of taxes on the collector's books, have been collected to date. This is a larger percentage than was shown to have been collected on the same date a year ago.

LEAGUE REPRESENTATIVES ATTEND INSTITUTE AT ABERNATHY LAST SAT.

Misses Lucile Dunham, Violet Patten, and Eva Smith, Messrs. J. A. Dawson and Vernon Eckland represented the local Epworth League at the District Institute held at Abernathy, Tex. Saturday and Sunday. The program opened Saturday morning at 8:30 with registration. An address by Rev. J. B. Thompson of Waco, was followed by a social hour.

The program was given Sunday with the following sessions:

- 8:30—Morning Worship
- 9:30—District Epworth Meeting
- 10:30—Church Service, "What is Christian Living"—Rev. J. F. McCall
- 11:30—Lunch
- 1:30—District Conference
- 2:30—District Prayer by Rev. Charles W. Smith
- 3:30—District Session—District Epworth
- 4:30—W. I. C. in a Christian Home
- 5:30—District Epworth Meeting
- 6:30—District Supper
- 7:30—District Entertainment

"COTTON FACTS"

Our English word "cotton" comes from the Arabic "keeten."
George Washington signed the patent papers on Eli Whitney's cotton gin in 1793.
The earliest records of the uses of cotton date back to 800 B. C. It was Hindu law that certain cotton goods be used in their religious rites.
The ancients believed cotton to be half plant and half animal and called it wool tree.
Cotton was discovered growing in Texas in 1856 by Cabela de Yaca.
"Thou shalt not let thy cattle cumber with a diverse kind; thou shalt not sow thy fields with mingled seed."—Jeremiah 19:19.
A bushel of average size cottonseed contain about 120,000 seed.
Cotton normally sheds about 50 per cent of its forms.
Humus is the master key to soil fertility.
Cottonseed will not give maximum germination under sixty to ninety days after the bolls open.
Seed of a good variety will yield 20 per cent more cotton than mixed mongrel seed. This is a conservative estimate.
A mature dry cotton plant is 8.8 per cent roots, 23.15 per cent stems, 20.25 per cent leaves, 14.21 per cent burs, 23.03 per cent seed, and 10.50 per cent lint.
Long-staple varieties of cotton do not, as a rule, show high lint percentage.
Extremely large-boll varieties are usually later in maturing.
Large seed varieties rarely show high lint per cent.
State certified cottonseed have been endorsed by practically all farm papers, and magazines, various cotton committees, farmer organizations, banks, county agent, and leading farmers over the State.
Varieties of cotton planted in alternate rows and alternate hills will result to the extent of 18.5 per cent.
It is estimated that 72 sections of land 3 feet deep are washed down the Mississippi River yearly. How much of your farm helps make this total?
Approximately 25 per cent mixture at the gin will occur from 1 bale into the second and a gradual decrease on through the 4 and 5 bales.—Farm & Ranch.

BALANCED RATION MULTIPLIES MILK FLOW

Canadian—By substituting a balanced dairy ration for one consisting of bundle sorghum and a little cottonseed cake, John Simpson, who lives 12 miles southeast of here, increased milk production in his herd of 14 cows by 400 per cent in one month. Before the change in feeding, the cows gave seven gallons of milk daily but after one month on the new feed the daily average of weighed milk was 28 gallons and the milk flow was still increasing. The ration used was worked out by the county agent, Parker D. Hanna, and is composed of ground maize heads, all the roughage the cows will clean up. Mr. Simpson's milk is bringing him about 20 cents per gallon from butterfat and he figures it costs about 7 cents per gallon to produce. He makes a further profit from the skim milk which he feeds to hogs and chickens.

KNOW TEXAS

In 1744 Texas had a population of only about 1,500, centered largely about San Antonio. In 1806 the population was estimated at 7,000. In 1821 it was about 20,000, increasing to about 50,000 in 1836 when Texas voted for the first president of their Republic. The greatest percentage of growth was between 1870 and 1880 when the population increased 94.5 per cent.
The largest percentage of foreign white population in Texas is Mexi-

can. Next come the Germans.

The first German colony was found at the present site of Industry, Austin county, 1842.

The city of New Braunfels was established by German colonists in 1845.

The present constitution of Texas was ratified by the people in 1876. The old capital of Texas burned in 1881 and the present capitol at Austin was completed in 1888. The present structure was built at a cost of 3,000,000 acres of land.

The University of Texas at Austin was established in 1883.

The Texas Railroad Commission was established in Gov. Jim Hogg's administration in 1891.

There are 106 daily and 662 weekly newspapers in Texas.

MISS DOROTHY GREATHOUSE

An announcement of unusual interest to West Texas has just been made from Wichita Falls with the decision of Miss Dorothy Greathouse, late of Chicago, to locate in that city to become director of the newly created Wichita Falls Conservatory of Music. Miss Greathouse will be in direct charge of the voice department, in addition to being the active head of the school. She will be assisted by Miss Kathryn Orr, also of Chicago, who will be in charge of the piano department. It is planned to add violin and other departments as the school progresses and grows.
Miss Greathouse, a girl of the Southwest, a native of New Mexico, will be remembered by thousands of West Texans who attended the annual convention of the West Texas Chamber of Commerce at Ft. Worth last June. She represented Miss New Mexico and sang at a number of programs. Her wonderful voice, her charming personality, her gracious manner and her joyousness in singing, endeared her to all who heard her. She is recognized as one of the leading prima donna soprano's of the Southwest and Wichita Falls is to be congratulated that such an able artist has located in that city. She was induced to come to Texas after receiving inviting letters from Governor Dan Moody, President A. M. Bourland, and General Manager Homer D. Wawe of the West Texas Chamber of Commerce, W. R. Hamilton of Wichita Falls and numerous other citizens who heard her sing and recognized her ability.

TEXAS LOSES VALUABLE CITIZEN; A. B. SPENCER DIES

A. B. Spencer, president of the West Texas Chamber of Commerce in 1922-24, and the only man to serve as president of the organization for two years, died suddenly at his home 2010 Sixth avenue, Fort Worth, Saturday evening, January 5. In his passing West Texas lost a true friend, Texas a valued citizen, and the family suffered an irreparable loss. Heart failure was the cause of the untimely ending of this citizen, who for many years had been an outstanding civic worker and leader in West Texas.
The deceased came to Texas at a time when the West was being trans-

formed from a cattle range to an empire. He quickly caught step with the spirit of the times and never faltered during his long and useful efforts. As a railroad man he rose rapidly from station clerk to general agent, then seeing a wider field he associated himself with the C-B Livestock company, becoming manager of the vast interests of that company with headquarters at Crosbyton. As a resident of that city he soon became its mayor, a position he filled with honor and success. During this time his enterprise and popularity was so marked that he was elevated to the position of president of the West Texas Chamber of Commerce, having been an easy victor over several well known men.

SUL ROSS GETS LABORATORY EQUIPMENT

Over \$500 worth of laboratory equipment for Sul Ross College has been purchased and installed since the beginning of the fall term in the two science departments. Much more that was ordered last month, is expected to arrive soon.
The chemistry and physics departments combined added \$350 worth of the new material consisting of two new supply cases, one for physics and one for chemistry, and a key case for all of the locker keys.
The remaining \$150 for supplies was for the biology department. It consisted of a Truag soil acidity tester, a calorimeter, a respirometer, an osmometer and other material for the use in advanced work being done in that department.

CASHES IN ON TURKEYS

Observing a few years ago that an old turkey hen and a few young poulters caught lots of insects in his cucumber field, W. A. Stein, of San Antonio county, invested in 9 hens, last year. In giving his results to the county agent, P. Donald, it is disclosed that the turkeys not only kept Mr. Stein's spring cukes crop practically free from insects but made a total net profit of \$205.50, besides. From the sale of 63 birds came a revenue of \$185.20 and there are now 26 turkeys on hand valued at \$50. The only feed consumed was home-grown consisting of 1 1/2 tons of kafir valued at \$30. Mr. Stein is so enthused that he now pro-

HOW NATURE APPEALED TO FISHING

"I never saw anything like it! It was wonderful! Such color! I seemed to stand on a wall of taupe, fading away to a dim olive ecru in the distance, while on my left was a cathedral of golden airdate, touched with aloma, antique, and ashes of roses with just a suggestion of bamboo and beaver. And in the distance walls upon walls of blonde, brick-dust, heather and brunette reflected by dying sun in a thousand tints of nutria, gamboge, honeydew and horse-chestnut."
"And always the colors seemed to change and blend. Kit fox faded to wild horse and died away into vandyke; Spanish gold blushed and became tangerine, the sun kissed it and it became sherry deepening into jocky; glowing monkey skin became

Hardware Talk
SERVICE—What does the much used word usually mean which appears in an advertisement? So little or nothing, but in this case for a great deal.
Giving good service in hardware is no small task. We have just finishing inventory and we find that it stocking our shelves with about different items. And more than have got to know the uses and purposes of all those items.
When we brag about our service something.

the average yearly grocery bill was only \$168. Considerable acreage of corn, wheat, oats, barley and hay, including legumes, were grown by these men. Gardens and orchards were found on every farm and running water in the houses. Four had electric lights."

CASHES IN ON TURKEYS

Odem—Observing a few years ago that an old turkey hen and a few young poulters caught lots of insects in his cucumber field, W. A. Stein invested in nine hens last year. In giving his results to the county agent P. Donald, it is disclosed that the turkeys not only kept Mr. Stein's spring cuck crop practically free from insects but made a total net profit of \$205.20, besides. From the sale of 63 birds came a revenue of \$185.20, and there are now 36 turkeys on hand valued at \$50. The only feed consumed was home-grown consisting of 1 1/2 tons of kafir valued at \$20. Mr. Stein is so enthused that he now proposes to fence his entire farm turkey-proof and cash in still further on his insect destroyers.

MAKING POULTRY PAY

Whether laying hens are profitable or not depends largely on the care given them, although breeding is a fundamental requirement of good layers, but even the ordinary hen will show her gratitude for good treatment by a greatly increased yield of eggs, according to a poultry expert who says: "Take the average farm hen, feed and house her poorly and she will lay only about 70 eggs per year. Give her a chance on good feed in a good house and she will produce 140 or more eggs. But take the same hen and breed her to a pedigreed egg-bred female and the pullet resulting will produce from 150 to 200 eggs a year if properly cared for."

Under ordinary conditions it is not advised that the average farmer try to raise his own males for breeding purposes, because of the great amount of trouble involved, as well as skill required in breeding. It is less expensive and far more satisfactory to buy high class cockerels from professional breeders. Poultry raising is one of the most profitable of the farm activities if profitably conducted. But haphazard methods will result in failure as in every other undertaking. The main thing is to have good hens in the flock and then treat them right.

DID YOU KNOW THAT—

- The South produces ALL of the Nation's bauxite. 99.9 per cent of the Nation's sulphur? 99 per cent of the Nation's phosphate? 99 per cent of the Nation's graphite? 99 per cent of the Nation's carbon black? 71 per cent of the Nation's barite? 93 per cent of the Nation's asphalt? 85 per cent of the Nation's fuller's earth? 65 per cent of the Nation's gasoline? 65 per cent of the Nation's natural gas? 63 per cent of the Nation's petroleum? —57 per cent of the Nation's zinc? 49 per cent of the Nation's marble? 45 per cent of the Nation's lead? 44 per cent of the Nation's field-spar? 39 per cent of the Nation's granite? 39 per cent of the Nation's coal? 35 per cent of the Nation's domestic clays?

HARLEY SADLER BUYS TENT WITH SEATING CAPACITY OF 2,000

A canvas top theatre that will seat more than two thousand persons will be delivered to Harley Sadler some time in April, Mr. Sadler has reported. He recently made arrangements for the giant top, in itself costing \$6,000, while at Kansas City.—Scurry County Times.

ENOUGH

The editor at the pearly gates, His face looked worn and old, He meekly asked the man his fate, For admission to the fold. "What have you done," asked Peter, "To seek admission here?" "Oh, I used to run a country paper On Earth for many a year." The gate swung sharply open And Peter touched the bell, "Come in, my lad, and take your harp, 'You've had enough of hell."

PAY TRIBUTE

Tribute was paid to the Nation's newspaper by the American Asso-

ciation of Agricultural Colleges edited at the closing of its annual convention held at Baton Rouge, La., last week, by the department chief who says farmers can get liberal education at home by reading their home town paper. He said further: "If we were called upon to choose between the public press and all the other aids to agricultural extension, we would select the newspapers without a moment's hesitation. They are our greatest ally and the most powerful force in advancing current farm information. The farmer owes to his newspaper the fact that he is getting today a liberal education in agricultural economics and research without leaving his doorstep." Thirty states were represented at the convention.—Norman, Arkansas Visitor.

"Hasn't the fellow finished yet?" asked the reporter who had fallen asleep while "taking in" a political speech. An Irishman, who had been kept awake, promptly answered, "Sure, he finished long ago, but he couldn't stop himself."

RASTUS' MISTAKE

"How come you' in jail again, Rastus?" "A case of mistaken identity." "Why dey mistake you' foh?" "Didn't mistake me foh nobody. Ah mistook a prohibition agen' foh a good customer."—Farmers' Elevator Guide.

CITY OF O'DONNELL. By W. H. Crunk, City Attorney.

MRS. J. L. SEELY

Maggie Hutton Seely was born February 10, 1889 in Grayson County, Texas, she was 39 years, 11 months, 10 days, of age at the time of her death, which occurred January 21, 1929. She was married December 27, 1908 to J. L. Seely. To this union were born four children, Ernest, Marvin, Vera, all survive her except one, Lola, who died at the age of two years. She was converted and united with the Methodist church in 1917. Since her marriage she had lived in Montague County, near Nocona, Texas, up until five years ago, she with her family having moved to Brownfield, Texas, where years later to O'Donnell, Texas, where they continued until the time of her death. Funeral services were conducted at Tahoka, Rev. Vergil McConless of Lubbock officiating. Besides her husband and children, she leaves to mourn her loss, her mother and stepfather, Mr. Ann Mrs. Williams, of Myra, Texas, three sisters and one brother and a host of other relatives and friends. Mrs. Seely had been ill fourteen days, but her condition was so much improved that her death came as a

shock to her family, as with out warning she gently fell asleep to wake with Jesus. She was a faithful wife and loving mother. We will miss her but must be submissive to our heavenly father's will, who doeth all things well, and for the time being we can only say "Goodbye."

Our mother has gone and left us, Bowed down in sorrow deep, She served, she loved, and kept us, Yet while we were asleep, The years of toil and service To us should be a token, To follow in her footsteps and do as she has spoken.

She proved a wife and mother true As well a friend and neighbor To share some burden born on you In this she never ceased to labor But now her labor here is ended, She toils for us no more, But won't our hearts be blended To meet her up on the other shore. A Friend.

Cleaned Suits Wear Longer

Once when a man bought a suit to wear, He never cleaned and pressed it till some big affair: Then he did it mainly to make it look new, With little thought of the good it would do. But now he has found beyond all doubt, That pressed suits wear longer than those without.

C. E. RAY Phone 66

MY GAS BILLS ARE TOO HIGH

VERY OFTEN THEY ARE We will tell you so and tell you why. YOU ARE PAYING FOR NO MORE GAS THAN YOU BURN, but you are burning more than you need.

Long, yellow wavering flames that float along the bottom of the utensils indicate the use of too much gas.

The United States Bureau of Mines, in a bulletin on the correct use of natural gas in the home, describes fifteen different ways this fuel is wasted.

All of these things are due to faulty apparatus, faulty knowledge of how to burn gas, or to carelessness on the part of the consumer.

WEST TEXAS GAS CO. (Headquarters for Gas Appliances)

Wilson to be Supplied With all Kinds Plants

If present plans materialize this community will be well supplied with plants of all kinds the coming season.

Jim Kinnard states that he will have plants for the garden of all kinds and it will be needless to think of buying them out of town.

W. M. Koepcke and the Editor also plan to construct a hot bed with in the next few days and will endeavor to have a good supply of cabbage, tomatoes, pepper and sweet potatoes.

There has been a need of a local supply of plants each spring and with two hot beds in operation people should not experience any difficulty in getting their plants as needed.

P. T. A. RENDERS EXCELLENT PROGRAM

(From Wilson Pointer)
An excellent program was rendered at the school building last Thursday evening, which was arranged by the P. T. A. and committees of the Art Exhibit.

A "sing-song" was directed by Mr. Forrester, followed by a short business session, after which Mrs. Crosby took charge of the program as leader.

The subject, "Prevention of Children's Diseases" was very interesting and educational as ably discussed by Dr. Howe.

A beautiful story was told by Mrs. R. A. Metcalfe, in her usual entertaining way.

Two other numbers were unavoidably cancelled.

At the conclusion of the program, Mrs. Galoway invited the assembly into the Home Economics room to view the Art Exhibit, which was inaugurated. The pictures were beautiful and inspiring and were a great help to the teachers and pupils as well as the public.

A New Industry For Wilson

(From Wilson Pointer)
The past few days load after load of bundle feed has been coming into town. We couldn't figure out where so much bundle feed was going, but on inquiring, we found out that August Fischer was buying and shipping this bundle stuff.

We understand that the bundle feed is bringing around \$7.00 per ton and some of the farmers estimate that at this rate the feed will bring around \$21.00 per acre.

So far as we know this is the first time that bundle feed has been shipped for market from this section, but it opens a new source of revenue.

Mustangs Win a Double Victory

(From Wilson Pointer)
Friday the Mustangs journeyed to the Capitol of Crosby County to engage the Chiefs in two games of basket ball. The Chiefs may be good at scamping Pala Face, but no good at tamping Mustangs.

The first melee went to Wilson, 22-21 and Saturday nights fracas wound up in a 22-14 win for the Ponies.

First Hatch Coming Off at Hatchery

(From Wilson Pointer)
The first hatch of the year is just coming off at the R. E. Swain Feed & Hatchery Company 94,000 egg capacity hatchery here.

The rapid increase in the business of the Swain hatchery gives an index to the increased interest in poultry raising on the South Plains of Texas, and in the surrounding country.

Swain started a 47,000 capacity incubator January 16, 1928. Business flowed in to such an extent that he was forced to install another 47,000 capacity incubator in March 1928. With these two machines he operated up into the latter days of August to care for the business he had developed.

"The main idea is to get better stock in the country," Swain says in commenting on the future of the poultry industry, on the South Plains of Texas. "You can't raise this half breed stock and make very much profit from them. When the farmers get good pure bred flocks then they are going to make some real money out of them."

"For instance, I have paid the purebred poultry raisers of Lubbock County over \$10,000 for setting eggs this year. This represents \$10,000 that has never been paid to the farmers of Lubbock county in the past. Some of the breeders with no more than 150 hens made an average of \$200 per month over their expenses from their setting eggs and made

over \$3.00 per hen net profit during the past year.
"You take all these farmers are talking chickens—that's what makes things look so good."

Swain shipped out about 10,000 baby chicks last year and he estimates that he will ship over 50,000 baby chicks this year. He will order enough eggs to add about 2,000 hens to his flocks this year. These eggs will be of the very best high bred pedigreed eggs that money can buy. He is shipping baby chicks out as far as Amarillo, Abilene, Spur, Big Springs, Lamesa, Brownfield, Bledsoe, Clovis and intermediate points.

There are between seven and eight thousand pure bred hens in Lubbock County now that were not here last year. Swain says—The Hub.

COMMUNITY CLUB

(From Wilson Pointer)
Friday, February 1st

Below appears the program for this Friday afternoon, February 1st at 3:00 p. m. in the Club room. The Year Books are here, ready for us to do our part towards making this a very successful year. Every woman in the town and community should come to the Club meetings. Try to come this week.

Subject—Magazine Day.

Hostess—
Opening Exercise: Club Prayer.
Leader—Mrs. A. L. Faubion.

Roll Call: My Favorite Magazine or Paper.

1. A story I have read this month—Mrs. Faubion.
2. An article I have read this month—Mrs. Henry Heck.
3. How farm papers help us—Mrs. M. J. Scaer.
4. A household help I have secured from a Magazine—Mrs. E. J. Spurgeon.
5. A satisfactory recipe I found in a Magazine—Mrs. Philip McGahey.
6. Magazine Exchange.
7. Adjournment.

Bring a magazine or two to exchange with your friends.

REV. THOMPSON PREACHES AT ABERNATHY SATURDAY

(From Wilson Pointer)
Rev. Thompson preached the opening sermon at the Lubbock district League meet at Abernathy Saturday night.

Rev. Thompms states that there were something like 150 young people in attendance at this meet.

Those attending from Wilson were Misses Hall, Huffaker; Server and Chloe Huffaker; Mr. Jim Traweck.

One Hundred Dozen Eggs Per Week

(From Wilson Pointer)
No that isn't a produce house report, but Mr. and Mrs. Louis D. Mueller are actually selling that many eggs each week now. At the present price that is netting them the tidy sum of \$25.00 per week.

Mr. and Mrs. Mueller have a pure bred strain of white Leghorns and have something like 500, however a large number of this flock are spring pullets and will not lay for several more weeks.

Mr Mueller states that they have a few of this flock that they paid as high as \$5.00 each when chicks.

This unusual egg production does not happen by accident. Mr. and Mrs. Mueller make the poultry business a study, they have provided good houses for the flock and feed them a balanced ration, thereby obtaining maximum results.

Mr. and Mrs. Mueller are ideally located for the carrying on of their poultry business, being near market only two miles from town and a several acre range for the poultry to graze on. They have what we would call an ideal home, an excellent stucco house with an electric light-

ing plant, excellent out houses in fact everything that goes to make an ideal country home. Wilson community has room for farmers of this type.

Train Schedule Changed Monday

(From Wilson Pointer)
Effective last Monday train service on the Santa Fe serving us, will be reversed. That is we will now receive our mail mornings. The train will leave Slaton in the morning and return in the afternoon.

This will be a great relief to Rural residents, allowing them their mail if not in the morning, then in the early afternoon.

All that is lacking with our mail service now is Sunday mail. Mrs. Dawson states that she thinks that will be worked out in time.

Grandma Swan Dies Monday Afternoon

(From Wilson Pointer)
Mrs. Mattie Swan, 84, died Monday afternoon and was buried in the City Cemetery here Tuesday afternoon. Funeral services were held in the Methodist Church by her pastor, Rev. R. T. Breedlove, many friends and relatives being present to pay homage to the memory of the good woman whose spirit had flown.

Mrs. Swan's maiden name was Flynn. She was born in Louisiana on April 25, 1844. She came with her parents to Texas during the War between the States, settling at Crockett and moving later to Millican in Brazos county. She was married at Crockett to Maj. J. P. McKay, who died about three years after their marriage. She was married the second time at Millican to P. A. Swan, in 1868. Six children were born of this marriage, as follows: Mrs. J. B. Hank, Anson, P. F. Swan, Tahoka, Mrs. Felix Upton, who died in 1902, W. A. Swan, of Ft. Worth, Mrs. G. W. Williams, of Tahoka, and Mrs. J. W. Williams, Bartlesville.—Lynn County News.

Mrs. Swan was the grandmother of Pat Swan.

School Building to Use Natural Gas

(From Wilson Pointer)
Plumbers are busy piping the school building so gas may be used. Mr. Faubion states that there will be three stoves placed in the auditorium and in the future when that room is used no one will suffer from cold as has so often happened in the past.

They hope to be using the gas in the next few days.

GIRLS SEXTET LOOSSES TO TAHOKA ON MONDAY

The Wilson girls basket ball team met defeat at the hands of Tahoka 19-17 Monday afternoon. The girls have not been meeting with the success that the boys have this season, but Miss Geppert hopes to have them in form for the opening of the County Championship chase that opens soon.

Mr. and Mrs. A. D. Brown returned last Friday from an extended visit with relatives at Idabel, Newkirk, and Oklahoma City. They plan to be here only a few days before going to their new location.

Messrs Joe Hughes and Homer Meinheimer stopped off for a visit with their old college chum Eugene Wilder first of the week. They were enroute to their home in Jefferson from an extended trip through California.

A common cause of poor growth and high mortality in chicks is contaminated soil. To keep the chicks

free from intestinal worms and various diseases, do not let them on land where old stock has been allowed to range. Chicks should never be brooded essential. Treat the land immediately in front of the brooder house with lime or acid phosphate, cultivate it, and sow it to some crop.

ENOUGH

The editor at the pearly gates. His face looked worn and old, He meekly asked the man his fate, For admission to the fold. "What have you done," asked Peter. "To seek admission here?" "Oh, I used to run a country paper On Earth for many a year." The gate swung sharply open And Peter touched the bell. "Come in, my lad, and take your harp, "You've had enough of hell."

Matching Hats and Bags for the Little Folks

To have a little handbag to match her felt hat, ought to multiply every little girl's happiness. These sets are shown in the shops everywhere, in the prettiest colors imaginable made of felt with trimmings of openwork felt and embroidery. Velvet hats, too! The one pictured comes in black and every new color. Scalloped brims are featured in felt clothes, as illustrated.

WANTED—Old clean rags at the Index Office.

If red clover is seeded with spring wheat, the clover seed may be sown on the ground while it is still freezing and thawing. This ration will help to work the seeds into the ground. A good practice is to sow

half the seed stand results, be necessary; seed can be p ing before an Mr. and Mrs. byton spent Mrs. D. M. Es

The Most Comfortable Home Service

ELECTRICITY has become the versatile servant of the home, the store, and the factory.

In the home it cooks the meals, heats the food, entertains with machines, sweeps the floor, washes clothes and curls the hair. Electrically the emancipator of the house.

In the office, store and factory electricity multiplies the efficiencies of man and increases his income.

It is the business of the TEXAS ELECTRIC SERVICE COMPANY to see that this servant is constantly on the job—night. In spite of the daily increasing demands for its services, this Company always ready with an adequate supply of electric energy to meet every need arises. Tomorrow's service is already in the process of being built today.

Texas Electric Service Company
The Silent Partner of Progress

SPRING

Despite the seeming shortness of the winter months, Spring is merging her way through the bleak, cold wintry weather. We all welcome the glad tidings of Spring for with it comes the most beautiful season of the year.

The New Spring Merchandise emphasizes this fact by trying to rival in beauty and attractiveness.

We are receiving daily the most beautiful Spring Merchandise has ever been our pleasure to buy. See our display window.

LADIES WEARING APPAREL

NEW SPRING COATS: Most attractive styles and colors that have ever been shown for Spring.

SPRING FROCKS: A wonder this season because of the well as lovely styles colors and materials. Never before have we enjoyed such a wide range in wearing apparel.

MILLINERY: As usual is leading in beauty of creation. New styles materials and colors are all that the heart could desire.

Spring Shoes

Not for many seasons have we enjoyed such a wonderful variety of foot-wear. The exquisite style and beauty of the new styles and colors are beautiful to behold.

MEN'S NEW SPRING FOOT-WEAR is stepping right ahead of the ladies. New finishings in leather and colors combined to make many beautiful creations in Men's Footwear for Spring. Children also will have the pleasure of enjoying a wide range of beautiful colors and styles as well.

WEST TEXAS GIRLS HIGH SCHOOL
TOURNAMENT TO BE HELD AT SNYDER

(From Wilson Pointer)
The Wilson Girls High School basketball team has been officially invited to attend the West Texas Girls School Basketball Tournament that will be held at Snyder February 14, 15 and 16 under the sponsorship of the Snyder Lions Club. Plans are being laid to entertain more than fifty girls teams during the three days.

R. H. Schulze, Dallas, southern commissioner for the A. A. U., was in Snyder recently to complete preliminary plans and expressed satisfaction for the fine basketball floor and gymnasium that will be provided during the visit in Snyder of West Texas girls teams.

Six huge loving cups of solid gold and silver, one of which is the actual size of a basketball made of gold is first prize; a silver ball of the same dimensions is second prize; and the four other major prizes are huge loving cups standing waist high. In addition there are three sets of small gold and silver basketballs.

Visitors to Snyder will be privileged to visit the new \$10,000 athletic stadium only recently dedicated by Snyder High School which is said to be the finest outside of college fields in the state of Texas.

Snyder is located in Scurry County on the main line of the Santa Fe railroad and on State Highways Nos. 83, 7, and 101. Teams coming over the Broadway of America should turn off at either Colorado, Roscoe or Sweetwater. Snyder is easily accessible from all points in West Tex-

as. Arrangements for the entertainment of teams and visitors will be in charge of a committee of the Federated Clubs and Parent-Teachers Association, backed by the entire citizenship of Snyder.

Housing for anywhere between 5 and 8 hundred girls with their coaches and escorts will be provided by a special committee whose headquarters will be with the Snyder County Chamber of Commerce.

Officials for the games which will start in early Thursday morning, continuing game after game into the night, will be entirely picked and selected by state officials of the A. A. U.

The coming Snyder tournament will be the largest attended athletic event of more than one day's duration ever handled in West Texas, and it is Snyder's aim to have every detail worked out to clocklike precision that visitors may enjoy every moment of their stay.

Joining in the welcome to all West Texas is included City Supt. C. Wedgeworth, president of the Lions Club; County Supt. A. A. Bullock, general chairman of the tournament and president of the Scurry County Chamber of Commerce, together with every civic, fraternal and social organization of the city and county, who are lending their influence and invitation to the teams and visitors of West Texas to come to Snyder, February 14, 15, and 16.

Mrs. Guy Bradley returned Sunday from Plainview where she had been for several days. We deeply regret the death of her sister.

Mrs. W. S. Cathey was taken to the Lubbock Sanitarium Wednesday suffering from a nervous breakdown.

Little Miss Jim Ellen Wells has been on the martyr list this week, with a bone felon supplying the torture.

Word has just been received here that Mr. Dan Patterson, a former citizen of our community, who is now at Borger, has suffered the loss of his right hand. We are unable to state just how it happened.

Mrs. W. E. Vermillion who has been seriously ill with flu, is now able to be up though still very weak.

MERCURY HITS THE TOBOGAN

(From Wilson Pointer)
The coldest weather of the year was ushered in Thursday night. After a gentle sandstorm throughout the day Thursday, the wind gradually turned to the north and the mercury began dropping, by morning it had hit the new low mark of 5 above, according to local weather men.

The spell was short lived however as the wind shifted to the south Friday morning and the temperature began rising.

Before Planting Time Make Sure Your Planter is Right
The McCormick-Deering and P. & O. Lister-Planter combine, old time proven principles, with a simplified design which insures greater accuracy, a wider range of adaptability, and easier ways of adapting the Lister-Planters to different requirements. It has taken a number of years to perfect this combination. The result is a sense of Planters which have no untried features. Their superiority lies in the manner in which these proved principles are combined and applied.
If you are looking for a Lister-Planter that will list and plant your crops accurately and will require minimum attention it will pay you to come in and see the New McCormick-Deering. We have just received a car load of listers with all the new features on them.
PALMER. & TULL IMP. CO.
"Quality Implements"

ANNOUNCEMENT

We wish to announce to our customers and the public in general that we have sold stock of merchandise to Messrs. C. L. and B. L. Davis who will manage the business in the future. We relinquish our interest in the business on Wednesday morning. The store will close for two days in order to take inventory and undergo a complete remodeling.

Those knowing themselves indebted to GUTHRIE MERCANTILE are asked to please call at the store not later than February 10, and make satisfactory settlement of their account. We will continue to give O'Donnell Trading Stamps on all accounts until that date.

We wish to thank our customers and friends for their splendid patronage they have accorded us in the past and ask that you continue with the new management.

We will continue to handle the Kimble Milling Co. grain account and will appreciate a continuance of your patronage.

We will continue to make O'Donnell our residence in the future and ask that our friends allow us the privilege of serving them in the future in our future line.

Guthrie Mercantile

Under New Management

We have purchased the stock of Merchandise of GUTHRIE MERCANTILE and will assume management of same on Wednesday morning of next week. The store will be closed next Monday and Tuesday for inventory and a complete remodeling. We will be open on Wednesday morning.

The policy of the store will be changed from a credit to a strictly cash store. We will discontinue the delivery of groceries and sell for strictly cash. By doing this, our overhead will be cut to a minimum, thus enabling us to sell merchandise at a much closer margin, passing the saving on to our customers. It will be our aim to sell high quality merchandise at the lowest possible prices. We will keep a clean, fresh stock of groceries including a full line of fresh vegetables at all times and guarantee the best of service.

We will continue to pay the highest market price for your produce at all times. See us before you sell.

Our market department will continue as in the past with the best of service.

On Wednesday of next week when the store reopens for business it will be known thereafter as the B. & O. CASH STORE.

We will appreciate a part of your patronage in the future and strive to merit same by selling you high quality merchandise for less with our guarantee of unexcelled service.

GIVE US A TRIAL, THEN YOU WILL BE A SATISFIED CUSTOMER

them, Wilson Community is destined to become one of the best balanced farming districts on the Plains. There will be seen more chickens, more cows, more hogs and more gardens on the farms of this community this year than ever before.

The Pointer carried a story of the achievements of a Wilson farmer in last week's issue, Earl Tunnell, and it shows what can be and is being done here. Mr. Tunnell has not done any thing that any one else could not do, he merely put into practice what so many of us have been talking about.

According to Mr. John Heck who we chanced to meet in a Lubbock hatchery a few days ago, and who, by the way was in Lubbock at that time seeking information on sheep for this country, "we must get away from cotton or we are ruined," and Mr. Heck has probably had as much experience with cotton as any one man, he is in a position to know.

The United States Department of Agriculture issued a statement recently, urging farmers to raise more chickens. They say that there is a shortage of several hundred thousand hens and that the egg market will no doubt be strong throughout the year. They also go on to say that with the ever increasing price of beef and pork, that the chicken market will doubtless be better than previously, for the simple reason that it will be cheaper to eat chicken meat. J. P. White Sr., head of the Western Produce Co., says that prospects were never better for the poultry and the dairymen. Mr. White says he sees no reason whatever at this time to prohibit the egg and chicken market from being the best that we have ever seen for the year. The Western Produce Co., is spending several hundred thousand dollars in adding new and better equipment to handle the produce from this section.

Milk plants are being built over the state and prospects are bright for one being located near us. The dairy business is sure to prosper.

The future looks rosy for us, where the balanced program is being practiced more and more each year.

Warbles are likely to annoy cattle at this time of year, when the pests are found in little lumps on the backs of the animals, squeeze them out and destroy them. Do not crush the warbles on the animals. Grubs can also be destroyed by using Derris as a wash, ointment, or powder, by pyrethrum ointment, by injection of benzol or carbon tetrachloride, or by the application of fine tobacco powder or nicotine dust, says the U. S. Department of Agriculture. Get your neighbors to destroy any warbles in their herds so your cattle will not be reinfested.

Give the range a chance to recuperate, says the Forest Service of the U. S. Department of Agriculture. An ideal pasture arrangement for livestock where the range is grazed the year round is to divide the range into two units, one for summer and the other for winter grazing, using smaller pastures for the poorest animals. Such a system provides good winter grazing for all the herd and also allows part of the range to recover during the growing season each year.

As aids in producing early plants the hotbed, the "flat" or box, and the cold-frame are the gardener's best friends. Even berry baskets or paper bands or other containers can be used to start tomato, pepper, egg plant, cabbage, lima beans, melons, cucumbers and other garden crops indoors. As many as 20 to 50 hills of extra-early potatoes can be grown by starting the same number of seed pieces in a box in the living-room, or in a hotbed and later handling the plants as one would tomato plants.

Department of Agriculture. This is a convincing argument in favor of forest-fire protection, especially since there was an increase in the total number of fires reported for the two years.

Sweet clover will grow almost anywhere, but the soil must contain lime to get a good stand.

DEMONSTRATION ACTS REACH BIG FIGURE
The value of products demonstration club women communities in Hunt County reaches a total of \$220, according to a report just issued by Miss Myrtle Miller, county demonstration agent. All of these have been produced by methods of the A. M. College Extension and demonstrated by her. Chief among the items demonstrated with a total value of \$347.96, dairy products are \$3,478.32, and poultry third \$86.91. Clothing construction, gardening both exceeded in value with the remainder made up by home linens, articles, linens, rugs, baskets.

A substantial profit has been made by Mrs. J. M. Smith this year, amounting to \$1200, according to a report just received from her. She has been successful in her home demonstration methods as given by the Frio County home demonstration agent. Deciding to clean 200 containers, Mrs. Smith increased her output when she began to accumulate. Her husband's 16 acre tract began to accumulate. Her husband's 16 acre tract began to accumulate. Her husband's 16 acre tract began to accumulate.

A rural school hot item has been inaugurated in a county by school authorities. Miss Will often, local home demonstration agent. They schools participate in the lunch thus they study the applying of such things as onions, celery, and other vegetables for a soup for the children of each township. THE FIRST LAW OF MOTORING—be sure of your OIL

If motorists could only be thoroughly impressed with the paramount importance of proper lubrication, cars would last longer, depreciation would decrease and operating costs would tumble to a fraction of their present staggering figure.
When you allow an unknown, unbranded, "mystery" oil to go into your crankcase you are violating the first law of economical and efficient motoring.
By demanding the tried and tested brands marketed by the Continental Oil Company you are sure of your oil. Back of each of these brands stands the experience of almost 50 years—and a reputation which stands for nothing but the best. Ask for these brands at service stations and the better garages.

CONTINENTAL OIL COMPANY
Producers, Refiners and Marketers of high-grade petroleum products in Arkansas, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

Conoco Amalie is 100% Pennsylvania Oil—refined from premium crudes by a special process. Universally recommended by automotive engineers and lubrication experts. Through exhaustive laboratory and road tests it has demonstrated its ability to lubricate properly under the most trying conditions of motor operation.

Bring Happiness and Comfort to Dependent Texas Families

Value of Life Insurance

By W. A. Fraser

Life insurance has saved many families from going to the poorhouse.

Life insurance has made it possible for children to continue with their education.

Life insurance has eliminated misery; has kept the wife from the door of widows and orphans; has brought comfort in old age.

It is a dawn of hope that will reveal itself when days of sorrow have come.

THE MARVELOUS story of the industry that has been eliminated and the happiness and comfort that has been brought to thousands of Texas families whose providers were members of the Woodmen of the World is strongly emphasized by figures compiled by W. A. Fraser, sovereign commander of the Woodmen of the World.

Sovereign Commander Fraser's figures showed that the Woodmen of the World life insurance association has kept \$4,212,529 in death claims to families of this state since the Woodmen of the World started to do business here in 1891.

"Just think what these millions of dollars paid in insurance benefits have meant to those families whose providers were snatched away from them and their regular incomes stopped," said Sovereign Commander Fraser. "One does not have to stretch his imagination to realize what this money has done for the widows and the orphans of the families of this state. If these bread-winners had not been insured, think of the great misery which would have come into the lives of the wives and children through no fault of their own. Just a little thoughtfulness on the part of the fathers and husbands of these families brought untold happiness, gave the children a chance for an education, kept many families out of orphan asylums and poorhouses and in this way saved the taxpayers of the state thousands of dollars. The Woodmen of the World has been glad to pay these claims and

bring this happiness to thousands of families. "The marvelous work of the Woodmen of the World done for the dependent people of this state, being business here, we will always be an important part in the business and future of families of this state, loss of their bread-winners. "The maintenance of Memorial Hospital at Texas is one of the things performed by the World. Patients are of charge in an amount contains every possible remedy the doctors. Of the 2,000 have been cured and have been returned to work and in a position of useful citizens of communities in which Mr. Fraser announced Woodmen of the World solvent and non-tax municipal bond holders. A large bonds have been issued the state's roads, which public improvements. "The Woodmen of the World are now the richest insurance association said Mr. Fraser.
