scarcity of space available is causing millions of bushels of grain to be piled on the ground. The milling company official in charge of the care taken by the growers has written as follows: "The sorghum grain is to be harvested with combines, then there is a tremendous amount of grain (high moisture) put in the market in a short period of time. This rush movement, in our opinion, will be a very bearish factor. We think that all crops, that is of which will justify heading, should be headed. Maize and kafir should be ricked in the open and any reasonable length of time should be allowed for them to dry out damage. This method will scatter the period of harvest over many months and keep the market from sinking to the cost of production." It will be a good feeding device for maize heads through the spring months, he also

Busy Little Japanese, You'll Soon Receive A Sewing Machine

About 30 years ago, a lady who didn't like the Japs, sewed industriously on her sewing machine—and soon those same Japs may have to do some sewing on their scalps when parts of that machine come down upon their heads.

Into the scrap metal drive will go that old machine, now owned by Marshal Whitsett, but once used by his mother.

"My mother told me when a boy that we were doing many nice things for the Japs; that we would one day regret the day when we helped them become a powerful nation, and for her sake, I'm going to turn the machine into the scrap drive." Whitsett said Thursday.

Incidentally, the nation's war effort is needing scrap of every kind.

Do you have any scrap metal or rubber around your place you haven't turned in?

It doesn't matter how small it is—get it all together and give it to the Japs and Hitler from above!

Raymond Knight Drowns Tuesday, Funeral Friday

TAHOKA, August 12 (Special) — James Raymond Knight, 20, son of Mr. and Mrs. J. H. Knight, who reside four miles north of Tahoka, home on a furlough from the U. S. naval station at San Diego, was drowned at about six o'clock Tuesday afternoon in a stock tank at Guthrie Lake three miles southwest of Tahoka.

Funeral services will be conducted at the W. M. Harris Funeral Chapel here at 10:00 o'clock this forenoon by Rev. H. A. Nichols, pastor of the Methodist Church, with interment in the Tahoka cemetery.

Survivors include the parents, Mr. and Mrs. J. H. Knight; two brothers, Roy and Robert; and three sisters, Mrs. Ed (Ruby) Bayer of Long Beach, California, Mrs. Ray (Ruth) Atkins, and Miss Rosemary Knight of Tahoka, all of whom are present for the funeral services.

Raymond had just arrived home Sunday morning on a furlough from Camp Kidd, Balboa Island, San Diego, California, where he was a seaman guard. In company with his younger brother Robert, he visited at the News office Monday, and in the course of the conversation he stated that he was liking the Navy better

Report Is Received Of Cecil White's Death; No Details

A message stating that his son, Cecil White, 25, had passed away August 6 was received from the war department a few days ago by J. F. White. He is the father of a son, Ronnie, aged four years.

No further word has been received by the parents.

It is believed that Cecil was in Alaska. He had written letters, and his mail address was simply in care of the Seattle postmaster. He enlisted in the army at the outbreak of the hostilities, and had vowed then to "get a few of those Japs."

Friends, knowing his nature, believe he must have received wounds in action and later passed away.

Young White was well known for his athletic ability, having played both basketball and softball here while a member of the Draw team where he went to school.

Besides the parents, he is survived by nine brothers and sisters, as follows: Virgil White of Camp Wallace, Galveston; Mrs. Bertha Kenley, of Gordon, Lynn County; Willie White of O'Donnell; Mrs. Lois Carmichael of Wellman; J. F. White Jr., somewhere on the Pacific; Mrs. Beatrice McLaurin of Gordon; and Alta, Parnell, and Udell of the family home.

O'Daniel Visits Tahoka In Swing

TAHOKA, August 12 (Special) — Devoting fifteen minutes of his time here Wednesday to an address over a radio hook-up, Senator W. Lee O'Daniel spoke to the smallest crowd that he ever addressed in Tahoka.

The smallness of the crowd, however, does not necessarily indicate any waning of his popularity but doubtless was due chiefly to the fact that he had given his appearance here no previous newspaper publicity, the only newspaper notice of his coming here being contained in his itinerary for the week published in some of the daily newspapers Sunday, long after all the weekly newspapers were in the mails.

His radio address here was devoted almost solely to a discussion of the labor question and a denunciation of labor racketeering much along the same lines as his address here during the first campaign.

In his address to the local crowd, he added the corporations and the newspapers, particularly the daily newspapers, to his list of public enemies who deserve the contempt of the people of Texas and some kind of punishment at their hands. He did not explain what he had ever done or proposed to do that had offended the corporations and did not name any corporation that had been so offended, but of course that was not necessary for his purposes.

The newspapers are against him in this campaign because they have been bought, he charged. He did not produce nor attempt to produce one iota of evidence to support the charge, but that was unnecessary, too. If O'Daniel said it, that was enough.

While the Senator was out on his campaign truck making his charges and insinuations against the newspapers, one of his press agents was sitting over in the office of the Lynn County News using its facilities, to which he was just as welcome as the flowers in May, to advance the candidacy of his chief.

By the way, in the turmoil of the campaign, the Senator seems to have suffered a strange mental lapse of some kind since his appearance in Tahoka during "the first half of the campaign." When here on that occasion he was greeted by a much larger crowd than that which was present Wednesday, and at that time he literally fell all over himself telling the people of Tahoka how glad he was to be back in the old town and to see their smiling faces again, and a lot of other similar gush.

So Wednesday, the people were greatly astonished when he began to explain to them that he was trying to visit places in this run-off campaign that he did not have the opportunity to visit in the first half of the campaign, and that as he didn't get to visit Tahoka then he had come now to pay them a kind of "Appreciation visit" and to thank them for their support, etc. It was a strange lapse of memory that must have brought a deep feeling of disappointment and depression to some of his local followers.

Anyway, Mike and Pat and Texas Rose gave us some dandy good music.

Suddarth Enters Censorship Office

TAHOKA, August 12 (Special) — W. E. Suddarth left Friday for San Antonio, where he had accepted a position in the Postal Censorship Office in the Federal Building there. He expected to go to work Saturday morning.

Mr. Suddarth indicates that this is quite a large business enterprise, about eight hundred employees being used at the present time.

Mr. Suddarth was postal inspector in the North and East and in Texas for many years, but tiring of that kind of work, he accepted a position as mail carrier here. He served here and at O'Donnell for ten or twelve years and was then automatically retired with pay, having reached the age limit. During that time he served for a number of years as editor of the Texas Carrier, official organ of the Texas Rural Letter Carriers Association.

He had been restless without regular work to do, however, and so when the opportunity came he gladly accepted the San Antonio position.

Soil Conservation Man Locates

TAHOKA, August 12 (Special) — Work of the Lynn County Soil Conservation District was begun here this week when the board of supervisors met Wednesday with the new unit leader, H. E. Mather, who is moving here from Brownfield. Mather has had seven years experience in the Soil Conservation Service, since January 1 with the Cochran, Yoakum, Terry county district. He is a graduate of Kansas State College.

At Wednesday's meeting, the board completed the work program plans, and Mr. Mather has already started to work. The board is composed of R. L. Littlepage, Loyd McCormick, John Sanders, R. E. Askew, and R. M. Stewart.

The office will be located temporarily at least in the County Agricultural building. Eventually, the office will have a staff of three or four people, including engineering and clerical assistants. O. T. Williams of the Lubbock district office will work with the local board as district conservationist.

Mr. Mather's wife and four children, two of college age and two of high school age, will move here before the opening of school.

Red Communiques Admit Grave Peril As New Flank Attacks Harass Nazis; CIO President Proposes Peace Plan; Cargo Planes Get Qualified Approval

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.) Released by Western Newspaper Union

One of Uncle Sam's newest weapons for the armored force, the M4 tank, is shown on special demonstration at Fort Knox, Ky. Here the 28-ton tank plows through a barn to demonstrate its ability to negotiate obstacles. It has a 75-mm. cannon in a revolving turret and a completely welded hull.

RUSSIA: Flank Tactics

While Moscow's official radio was telling the Germans in their own language that the United States and Russia had come to their agreement on the creation of the second front in 1942, Soviet troops were busy with flank attacks on the Nazi forces all along the 300-mile Don river front.

German drives had pushed far beyond Rostov, toward the Caucasus, but the Russians were claiming that their new flank attacks were netting a terrific toll of Nazi tanks and men.

At Voronezh, northern anchor of the Don front, the Russians had been holding out doggedly while their columns were being pushed back in the other sectors.

If Germans in the homeland had been listening to the Russian radio tell of the coming of the second front, they heard too that their country would be confronted with 15,000,000 men, 85,000 tanks, 100,000 guns, and 50,000 airplanes.

Meanwhile, through England and the United States the cry was getting louder for military officials to establish the much-discussed second front. From widely diversified groups and sections came the urging.

ALEUTIANS: 10,000 Japs

Breaking an official silence, a navy spokesman officially estimated that the Japanese have succeeded in putting "not more than 10,000" troops into the Aleutian island area and at the same time announced there was no evidence that the Pribilof island to the north had been occupied by the Nipponese.

The statement came in answer to a report made by the Alaskan delegate to congress, Anthony J. Dimond, that between 20,000 and 25,000 Jap troops were on the Aleutians and that the Pribilofs had been occupied.

Questioned about Dimond's reports, the spokesman said that "we believe that not more than 10,000 Japanese are in the Aleutians, probably one-half ashore and one-half afloat."

PETRILLO SAYS 'NO': To Davis Plea

"I cannot grant your request to cancel the notice that the AFM members will not play for transcriptions or records."

With those words, James C. Petrillo, president of the American Federation of Musicians, refused a request by Elmer Davis, director of the Office of War Information, to rescind his ban against the making of new phonograph records or radio transcriptions for commercial purposes by union members.

PEACE PLAN: For CIO-AFL

A proposal that the Congress for Industrial Organization and the American Federation of Labor "initiate discussions regarding possible establishment of organic unity" was made by Philip Murray, CIO president, in a letter to William Green, AFL chief.

Peace proposals between the two organizations have been discussed for several months as a step toward speeding war production. In his letter, Murray proposed the establishment of a committee composed of representatives of both organizations, with an impartial arbitrator, to settle all jurisdictional disputes between the two groups.

Murray named a committee of three to discuss the problem of "organic unity." He named himself, R. J. Thomas, president of the CIO United Automobile Workers, and Julius Ermpak, secretary of the United Radio and Machine Workers union.

BEEF: Two Varieties

In butchershops from the Bronx to Boise there was considerable beefing about beef. Beef was high. Beef was hard to get. What was the trouble?

President Roosevelt told his press conference there were three main reasons for the current meat shortage: (1) this is the off-season for beef; (2) people have more purchasing power now, with which to buy better cuts of meat; and (3) around 4,000,000 men under arms are now eating much more meat than they ever ate on their own dinner tables at home.

Meanwhile Agriculture Secretary Claude Wickard reported that there may be some relief in the temporary beef shortage this fall when more cattle are brought in off the range. But other sources looked with disfavor on what effect this would have on the normal spring beef market.

GIANT PLANES: From Shipyards

There was a new answer to the shipping problems of the United Nations looming on the horizon. It was an unofficial agreement from the War Production board to give the "green light" to plans of Henry K. Kaiser, West Coast shipbuilder, to build giant cargo and troop transport planes in nine of the nation's shipyards.

First hitch to be overcome in the suggested set-up was the granting of authority by military officials to release engines and other parts needed in the building of aircraft for the army and navy.

Donald Nelson, WPB head, appeared to be willing to proceed with the plan if these materials could be obtained without hampering the war effort. This came as a surprise as WPB first voiced skepticism on the plan.

Kaiser's idea calls for the conversion of three shipyards on each coast to produce 5,000 flying boats a year. The ships would be of 100-ton design fashioned after the 70-ton flying boat Mars, now in active use. Support of Glenn Martin, Baltimore bomber builder, Tom Girdler, steel magnate and all others with knowledge of production problems of plane building would be sought, according to Kaiser.

After Kaiser had discussed the idea with Nelson he appeared before a senate military subcommittee to testify and Nelson later issued a statement stating that the WPB was willing to "co-operate to the limit in any practical way for increasing the effectiveness of our transportation systems."

At the same time, James H. R. Cromwell, former U. S. minister to Canada, was proposing that Kaiser be made "czar of air transportation." He said: "If we can't get supplies to the fronts by air transport we are going to lose this war."

Here's Why U. S. Navy Is Proud of Its Chow

Pictured at the left, officers of the U. S. navy make sure that the rigid standards set for navy food are not lowered. Here they sample corned beef to determine content of fat, gristle and lean meat. This year's navy order for fresh beef amounted to approximately 60,000,000 pounds. Right: this navy cook is lading fresh peas, an important part of navy chow. During the year ended July 1, the navy consumed about 192,874,500 pounds of fresh vegetables.

Soviet troops are pictured as they battled to keep a vital rail line from falling into the hands of the onrushing Nazis somewhere on the southern Russian front. This Is the Army!

(A contribution by the all-soldier cast of Irving Berlin's great hit show at the Broadway theater—for the army emergency fund.)

When one of the boys gave his regimental pin to a girl she demanded to know what the motto "Vale et Potens" meant. He explained: "Willing and able." She returned it pronto. The 33rd Armored Regiment at Camp Polk call their tanks "Hittler Hearses." The Yank of 1942 isn't called a doughboy. He's "Red Legs." There's a 50-Year Old Club at Camp Roberts. The men in it are over 50—all volunteers since Pearl Harbor—going it as buck privates, although many were former officers and non-coms.

Soldiers purchase lots of finger nail polish—but not for their nails. It keeps their buttons shiny and is the perfect remedy for chigger bites. At the India Desert training center the lads are often rationed only one gallon of water daily for all purposes, including drinking, washing, bathing. To condition them for the real thing.

Contrary to popular legend, it is against Army regulations to give a soldier K. P. duty as punishment. At Camp Barkeley the chap who instructs in the art of jujitsu is Harry Morimoto, an American Japanese. In the Army nurses are known as Snow-whites. Soldiers insist that uniforms come in only two sizes—too large and too small.

Personal checks cannot be cashed in the Army without the company commander's okay. When Paul, the son of the late financier, Andrew Mellon, went to the c. o. at Fort Riley to get approval for a \$100 check, the c. o. said: "This is a pretty big check for a private to write. How do I know it is good?" "It oughta be," said Paul. "I own the controlling interest in the bank."

The Indians have supplied more volunteers to the Army than any other racial group. When they first learned of selective service they came to register with their own weapons. The average soldier drinks four cups of coffee a day. G. W., who fathers the "Our Fighting Men" dept' in Collier's, calls the U. S. Armored Division the Anzers. Because they are the answers to Hitler's Panzers. A Jeep is also a nickname for a rookie.

Field Marshal Herman Goering's kin is Werner George Goering of the U. S. Army. Can't wait, he says, to drop a bomb on his relative. In our Army a private can prefer charges against a colonel, and if a corporal sees a captain conducting himself in a manner "unbecoming an officer and gentleman" he can have him put in the guardhouse. The name for woolen underwear is "superman drawers."

When a private at Randolph Field comes to a non-com with a complaint he is handed a mourning-bordered card which says: "Your trials and tribulations have broken my heart. They are unique. I have never heard of anything like them before. As proof of my deepest sympathy, I give you this card which entitles you to one hour of condolence."

Fort Riley's newspaper, The Guidon, has an advice-to-the-lovelorn column. "Betty Lou" is the nom de plume for a pair of privates. For every fighting man in the Army there must be five other soldiers to feed, clothe and supply him. Unless a rookie is smart, he can be trapped into volunteering for unpopular chores. The big gag in the Army concerns the sgt. who approached a bunch of men at play and asked them if any were good at shorthand. A dozen newcomers, angling for soft snaps, eagerly stepped forward. "Fine," said the sergeant, "report to the kitchen, we're short of K.P.s!" The phone number of the Negro Enlisted Men's Service Club at Camp Bowie is, oddly enough—711.

Army men always titter derisively when in the movies a sentry says: "Halt! Who Goes There?" "Halt! The correct challenge is: 'Halt! Who's There?' A letter from a girl is called "a sugar report." There's no favoritism in the Army. Even chaplains must undergo five weeks of training at Fort Detmoin Harrison, Indiana.

Soldiers do not rate preferred treatment over civilians. They cannot buy shaving cream or toothpaste at their post exchanges without turning in a used tube. At Camp Davis the mimeographed directive given to men in the 96th Coast Artillery (for handling of the wire cable winch on army trucks) warns that the apparatus is "as temperamental as Greta Garbo, and treating it carelessly is like asking Lana Turner to scrub the kitchen floor." The men treat it with great affection and care.

As in his other speeches, at other times Senator O'Daniel lambasted the newspapers of the state at Tallahassee Wednesday noon — and used words that dripped with venom. In

fact, he specifically mentioned the big newspapers, but included the state's weeklies with "newspaper editors with poison in their ink wells who won't print the truth about me."

The newspapers of the state have printed the truths and the facts, and that is why the gentleman is so riled. He claims the only way you can get the truth is to read his O'Daniel News. That's drawing a very long bow—because only ONE side of the argument is presented. His side. And you'll have to admit that the dailies are printing the Senator's speeches as he says them. Without being paid to do so, you can bet! The Senator's money (or somebody's) is going for radio time. And you can rest assured that he's having to cough up thousands of dollars for his radio time.

One local supporter of O'Daniel, who is known more for his sarcastic remarks more than anything else, sneeringly told us the other day that we'd better stop printing things about O'Daniel or we'd beat him! What he really meant, we think, was that anything the newspapers print (even though the truth) only makes the Senator more votes. The newspaper editors admit that O'Daniel is getting the votes, but it isn't because the newspapers are 99 per cent against his candidacy, nor because it is Alred that is running against him. They intend to vote for him no matter whom he is running against or how he may act. You can't name a man in Texas that is of better timber than some of the men that have run against O'Daniel since HE first became a professional politician, and they all trailed. A LOOK AT THE BOOK

By DR. BOB JONES, JR.

John, the Baptist, that remarkable man, was thrown into prison by Herod because of his faithful preaching and courageous denunciation of sin. To him in the darkness of the dungeon came various reports about Christ, and John who had pointed to Jesus and cried with such certainty, "Behold, the Lamb of God that takes away the sin of the world" confused and perplexed and discouraged now sent to Him from jail, asking, "Art Thou He that should come?" The answer of the Lord Jesus Christ was divinely positive. He did not insist loudly that indeed HE was the Messiah nor send a message of rebuke to John because he had presumed to doubt His deity. He answered the question with no declaration of His own Messiahship at all. He said simply, "Go and show John again those things which ye do hear and see." John's messengers had had an opportunity to observe the miraculous and divine power of Christ. They had been present as He gave sight to the blind, made the lame walk, cleansed lepers, unstopped deaf ears, raised the dead, and preached the Gospel to the poor. What better answer could Christ have given to John's question than the answer of His life and work? Every act of the Lord Jesus proclaimed His deity.

The outward action of a man's life is the best indication of what he really is. The Lord stressed this truth Himself. "Even so every good tree bringeth forth good fruit; but a corrupt tree bringeth forth evil fruit. A good tree cannot bring forth evil fruit, neither can a corrupt tree bring forth good fruit. . . . Wherefore by their fruits ye shall know them" (Matthew 7:17-20). A man is bound to manifest outwardly by his words and his actions what he is in his heart for out of the heart are the issues of life (Proverbs 2:23), and as a man thinketh in his heart, so is he (Proverbs 23:7). Some men say, "It does not matter what my creed is as long as I live right." The truth is that no man who has a bad creed can be a good man. That which a man believes in his heart effects the course of his outward life. James says, "Shew me thy faith without thy works, and I will shew thee my faith by my works" (James 2:18). The only way the heart of a man is apparent to others is by the works of his life. When the saving grace of God transforms the heart of a man it transforms his life. Men may scoff at the grace of God and profess to doubt the miracle of the new birth, but skeptics have no answer to the proof of God's power and the evidence of the new birth when it is manifest in a transformed, godly life.

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis. Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines. The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full

rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced. The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin. The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices. Will you help? First—collect all of your waste material and pile it up. Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee. If you live on a farm, consult your County War Board or your farm implement dealer. Throw YOUR scrap into the fight!

WHATEVER the limitations that priorities may place on new bathroom fixtures there is no limit to the gay color and good cheer that you may have with brightly painted cupboards and towels decorated with pieces from your scrap bag. In this bathroom, a morning glory applique design is used for towels of two sizes and for curtains.

The handy towel and lotion cupboard is painted white outside and morning glory blue inside. The sides, top and bottom are screwed together at the corners. Use half-inch metal angles as shelf supports, or make grooves for a neater job. As shown in the sketch, the cupboard is trimmed and made rigid with plywood scallops secured with half-inch screws.

NOTE: Here is news for the man with hammer and saw. Whether you have a coping saw from the dime store or an expensive hand saw, you may now make cut-out scallops for any purpose desired. Pattern No. 207 includes scallops from one and a half inches to nineteen inches, together with numerous illustrations of their use in home decoration. The lady with needle and thread will want pattern No. 202 with ten hot iron transfers of the Morning Glory designs. Patterns are 12 cents each. Order by number and address.

ISAAC PRACTICES PEACE

LESSON TEXT—Genesis 26:18-31.
GOLDEN TEXT—Blessed are the peacemakers for they shall be called the children of God.—Matthew 5:9.

To talk peace in a warring world seems almost futile, and so it is, unless it be the peace of God. In a world largely dominated by the philosophy that might makes right, and in which men demand what they call their rights, taking them even by lawless and violent methods, it is increasingly difficult to proclaim the truth that patience and meekness are not weakness, but are Christian virtues worth emulating. The story of Isaac is interesting from beginning to end. He was an ordinary man, one of the common people. He had come through varied experiences of victory and defeat before the time of our lesson. Fearing a famine, and apparently not trusting God at the moment, he had gone down from the promised land to the country of the Philistines, there redigging the wells which his father Abraham had dug. The result was that he prospered. Ere long, however, envy on the part of his enemies taught Isaac that—

I. Peace in This World Is Temporary (vv. 18-21).

Isaac had prospered, but he was still out of the promised land, and while he was in the land of Philistines he could expect no permanent peace. We are in the world. We long for peace, and would throw all our influence and service into the cause of bringing a righteous peace to the troubled peoples of the world. But let us not be misled by that desire into the support of unscriptural and impossible peace programs. This world is a sinful world, and as long as that is true, there will be strife and war, that men (as James puts it) may have the gains thereof for their own pleasure.

Our business in such a world is to preach the gospel of grace, winning men to Christ, that they may become men of good-will. Isaac was such a man, willing to yield even what seemed to be his right, rather than cause contention.

Undoubtedly there are times when one must defend his name and his possessions, but all too often those who do "stand for their rights" have wrecked homes, churches, and nations, and have gained nothing but an empty victory.

The peace of this world is temporary. Is there then no real abiding peace and joy?

II. Abiding Joy Is Found in Fellowship With God (vv. 22-25).

When Isaac came up into Canaan, the land which God had promised to him, he found real peace and an abiding joy in renewed fellowship with God. Even so, the Christian man and woman who will step out of a spiritually destructive fellowship with the ungodly world and come over wholeheartedly into the spiritual Canaan of full consecration and separated living, will find true peace and satisfying communion with God.

Our thought, however, has wider application—one much needed today. There is to come a time when this world will have true and abiding peace which shall cover the earth like the waters cover the sea. When the One who has the right to reign, the Lord Jesus Christ, returns to take His throne, then, and not before, will there be true peace.

We await that day with longing which grows more intense as men grow more violent in their hatred. But is there nothing more we can do? Yes, we learn from Isaac's experience that—

III. A Godly Life Is a Testimony to Warring Men (vv. 26-31).

These men were wicked men, even speaking falsehood in their claim of friendship toward Isaac (v. 26). Now that they perceived that God was continually blessing Isaac in spite of their repeated injustice toward him, they decided that it would be well to make a covenant of friendship with him. Even those who follow the way of war and aggression cannot deny the effectiveness of true Christian testimony.

Observe also that by his patience and kindness Isaac ultimately made friends out of his enemies. "It is better to turn enemies into friends than to beat them, and have them enemies still." And so this man with the patient, self-sacrificing spirit brought peace not only to himself, but to those about him, because he believed and trusted God. "When a man's ways please the Lord, he maketh even his enemies to be at peace with him" (Prov. 16:7).

What can we do to bring peace today? We can pray that God will help America and her allied nations to turn to Him in repentance of sin, and in a desire to so honor His name that He may be able to give His blessing. When Hezekiah spread before the Lord the threat of his enemy, God undertook for him in a mighty way, because his heart was right toward God (Isa. 37:14-20). Will he do less for us?

Cheese Trays Help You Through Sugar Rationing Period! (See Recipes Below.)

Take It Easy on Sugar

No sweets with sugar rationed? Why, of course. With honey, corn and maple syrup, molasses, and prepared pudding mixtures, you can learn how to prepare delightful sugar-saving desserts, cakes and cookies that will not only take you gracefully through the sugar-rationing period but will also remain favorites with you long after these times are past.

Honey blends with raisins and spices in this delicious melt-in-your-mouth pie.

Honey Raisin Crumb Pie.
1 egg yolk
1/4 teaspoon ginger
1/2 cup bread crumbs
1/4 cup flour
1 teaspoon cinnamon
1/4 cup hot water
2 tablespoons butter
1/2 cup raisins
1/4 cup honey
1/4 teaspoon nutmeg
1/2 cup nut meats

Blend hot water with honey and add egg yolk. Mix flour, crumbs and spices. Rub in butter. Place a layer of raisins on unbaked pie shell, cover raisins with layer of nut meats, and pour over honey-water-egg mixture. Top with layer of crumb mixture. Bake at 450 degrees until crust browns at edges, reduce to 325 degrees for 20 minutes or until firm.

Magic Chocolate Pie.
2 squares unsweetened chocolate
1 1/2 cups sweetened condensed milk
1/2 cup water
1/4 teaspoon salt
1/4 teaspoon vanilla
Baked pie shell (8-inch) or cookie pie crust

Melt chocolate in top of double boiler. Add sweetened condensed milk and stir over rapidly boiling water 5 minutes until mixture thickens. Remove from heat. Add water and salt. Stir until thoroughly blended. When cool, add vanilla. Pour into baked pie shell, or cookie crumb crust. Chill.

Get your full quota of milk into the diet by serving it in this dessert combination with rennet powder. No sugar required!

Marshmallow Maple Rennet-Custard.
1 package maple rennet powder
1 pint milk, not canned
5 marshmallows, diced

Dissolve marshmallows in 1 cup hot milk. Then add 1 cup cold milk and warm slowly, stirring constantly. Test a drop on the inside of wrist frequently. When COMFORTABLY WARM (110 degrees), not hot, proceed according to directions on package. Chill, then serve.

Butterscotch Ice-Box Cake.
(Serves 6 to 8)
1 recipe butterscotch cornstarch pudding
1/2 cup cream, whipped
Lady fingers or cake strips

Lynn Says:

Household Tips: Are you wondering how those pots and pans are going to last for the duration? Since the production for these has been sharply curtailed, you will want hints on keeping them in "cooking" condition:

Aluminum: Leaving food in aluminum longer than necessary, soaking the utensil before washing and alkalies such as soda spell short wear for this metal. If you want to clean aluminum without endangering its wearing period, use very fine scouring powder or steel wool for discolorations. Or, cooking acid foods like tomatoes, rhubarb and apples will do the trick.

Iron: Wash in hot, sudsy water. If this doesn't clean it, use hot soda and water. If rusted, use scouring powder or steel wool. Always dry completely and wrap in paper for storage.

Tin: This metal does not keep shiny indefinitely. Remove burnt foods by boiling in soda and water for five minutes, never longer. Rinse and dry thoroughly.

THIS WEEK'S MENU

- *Lemon Smothered Chops
- *Broiled Tomato Slices
- Buttered Noodles
- Vegetable Salad Bowl
- Date-Nut Bread Butter
- Diced Fresh Fruit
- *Apple Sauce Cake Beverage
- *Recipes Given

Prepare butterscotch pudding as directed on package. Cool. Fold in whipped cream. Line bottom and sides of mold or loaf pan with waxed paper. Arrange layer of lady fingers on bottom and sides of mold. Turn 1/2 of pudding into mold; cover with layer of lady fingers. Turn remaining pudding into mold and place another layer of lady fingers on top. Chill 12 to 24 hours in refrigerator. Unmold.

Bermuda Appetizers.
Chop Bermuda onion finely, marinate and drain. Spread on crisp crackers and cover with slice of Liederkranz cheese. Thin slices of rye, pumpernickel or whole wheat bread which have been buttered may be used instead.

You can do all sorts of things with cheese as a last course and serve it in place of fruit.

Camembert has an affinity for fruit. Try it with crackers served with a bowl full of summer's luscious fruits or, try American-made equivalents of Roquefort and Blue cheese spread on hot buttered Boston brown bread tossed with after dinner coffee in place of dessert. Serve a cheese tray for refreshments and spare the sugar ration.

This spicy apple sauce cake requires only 1/2 cup of sugar.

***Apple Sauce Cake.**
1/4 cup shortening
1/2 cup sugar
2 eggs
1/2 cup molasses
2 cups cake flour
3 teaspoons baking powder
1 teaspoon cinnamon
1/2 teaspoon nutmeg
1/4 teaspoon cloves
1/4 teaspoon soda
1 cup apple sauce
1/2 cup raisins

Cream shortening; add sugar slowly, beating in well. Add well-beaten eggs and beat until well blended; add molasses. Sift together dry ingredients and add alternately with apple sauce to first mixture. Add raisins. Bake in greased square baking pan in moderate oven at 350 degrees about 1 hour. Frost with:

Raisin Nut Frosting.
1 egg white
1/2 cup light corn syrup
1/2 teaspoon vanilla extract
1/2 cup chopped seeded raisins
1/2 cup chopped pecan meats

Beat egg white until stiff. Add syrup slowly, beating constantly. Add vanilla and half of raisins and on top of cake. Sprinkle with remaining raisins and nuts.

***Lemon Smothered Chops.**
(Serves 6 to 8)

2 pounds pork or lamb chops, cut thick
Put in a large covered skillet or chicken fryer. Cover top of meat closely with:
2 unpeeled lemons, sliced
1 large sweet onion, cut in rings
1 green pepper, cut in rings
1 teaspoon salt
Pour over all:
2 cups tomato juice

Dot with flakes of fat cut from meat or butter. Cover and cook on top of stove 1 1/2 hours or until done. Lift onto a hot platter, being careful to keep lemon, onion and pepper slices in place. The meat cooked this way acquires a chicken texture and color, while the lemon, onion, pepper and tomato make a delicious sauce accompaniment.

PATTERNS SEWING CIRCLE

SO, YOU are going to have a baby! Well, the clothes problem can be settled very easily—with a frock and jacket—just the type we offer in this pattern. Frock has cap sleeves, pleats down the front provide all the extra fullness needed and is very easy to make. The jacket tops off a very successful outfit which can be produced at small expense at home.

Pattern No. 8199 is made in sizes 12, 14, 16, 18, 20 and 40. Size 14 dress and jacket requires 6 1/4 yards 39-inch material.

Ribbon Banded.
THE short cut to glamour these days is to add a dirndl frock to your wardrobe. Today's pattern brings you the very style everyone seems to be wearing. For individual style excitement the long torso

top of this model is banded with ribbon—here you can effect a plain color contrast with a printed material—or a plaid, striped or printed contrast with a plain fabric.

Pattern No. 8185 is in sizes 11 to 19. Size 13, with short sleeves, requires 4 1/2 yards 39-inch material. Send your order to:

Household Hints

Rancidity in lard can be prevented by keeping it away from air, light and warmth. Store in tin or crockery containers in a cool place.

Sheets and other linens should be ironed in different folds each week so the creases will not break through.

That fish may be sealed much easier by first dipping them into boiling water for a minute.

Food bought in season will help to keep that part of the budget within reason.

Onion juice should be added after a mixture is cooked rather than cooked with the mixture if the best flavor is desired.

To protect garden shoes keep them well greased or oiled with neat's-foot oil or cod or castor oil, tallow or wool grease. Let dry in a warm place.

Salt fish are quickest and best freshened by soaking in sour milk.

ALL-BRAN FUDGE SQUARES—BEST YOU EVER TASTED!

Every mother in the land will want to bake these scrumptious cookies. Children will demolish a plate of them in a wink. Grown-ups rave about their "different" taste and new crunchiness texture. They're made, of course, with the famous cereal, Kellogg's All-Bran.

KELLOGG'S ALL-BRAN FUDGE SQUARES
3 squares un-sweetened chocolate 1/2 cup butter 2 eggs 1 teaspoon vanilla extract
1 cup sugar 1/2 cup flour 1/2 cup All-Bran 1/2 cup nutmeats
Melt chocolate over hot water and add butter. Beat eggs well, add sugar and beat until light and fluffy. Add melted chocolate and butter. Stir in flour, All-Bran, chopped nutmeats and flavoring. Pour into greased pan, making a layer about one-third inch thick. Bake in moderate oven (375° F.) about 20 minutes. Yield: Sixteen 2-inch squares (8 x 8 inch pan).

Sketches—

(Continued from Page 1)

Someday we want to see a live Communist in the flesh. In 1922, Mussolini went into power fighting the Communists. In 1933 Hitler went into power by belaboring the Communists. Both men then in later years signed a pact with Russia. Then, be dad if they didn't go to war agin 'em! Now O'Daniel is howl-

ing about the Communists in Texas and claimed in the first primary that that was the only issue.

Labor and Communism may have been the only issues to start with, and all O'Daniel wanted to talk about, but brother the campaign has caused him to see the error of his ways and he has talked vehemently about Roosevelt (we all love him now), the War, the fact that his son is in the Army and Allred's isn't (p-sst — Allred's son, as the Senator knows, is only about 11 years old), Pearl Harbor, and farm issues.

No, we're not expecting to change one single vote. Not even our own.

The population of the U. S. A. is 130,000,000 people and the Senator says they are behind our great commander-in-chief. If he thinks that, he is certainly all wet. This nation is far from unity and our war efforts are being hamstrung day by day.

We all know the Senator never slings mud. Just his opponents and those that vote against him. The newspapers are all wrong, the radio is wrong, but all of O'Daniel's opponents together have never flung as many epithets as the Senator has and if you read, you know it.

Here are a few of the phrases he has used, and he still has several days to go:

"With a firm reliance in God during this hour of world crisis and with the firm conviction that I am fighting the battle for the principles of right, I humbly ask for His continued guidance and solicit the continued prayers and support of our people." — traveling brigade of propaganda peddlers — my silly yes-man opponent — a bunch of buzzards — like dirty chicken thieves — filthy money — thugs — criminals — you can't get the truth over the radio — mud — persecution — Sweet hour of prayer! Sweet hour of prayer that calls us from a world of care! — let her go boys.

Yep. The newspapers are all untruthful, so the Senator says, but that isn't the truth. The truth is—most newspapers just don't hanker to print one-sided publicity and propaganda.

JUDGE E. C. NELSON

Candidate for Chief Justice Court of Civil Appeals

Saturday, Aug. 22nd

DOES TRAINING COUNT?

If not, why have schools and colleges? Judge Nelson has had the best literary and legal training our country affords.

DOES EXPERIENCE COUNT?

Should a Chief Justice have had some actual experience as a practicing lawyer? Should he have had some experience before the Court he seeks to preside over? Judge Nelson has had years of experience, both as a practicing lawyer and as a trial judge.

SHOULD REPRESENTATION BE EQUAL?

The Lubbock area already has one of the judges of this Court; and the Vernon area has one. Isn't it fair for the northern part of the district to continue to have a representative on the Court?

WHO SHOULD CHOOSE THE CHIEF JUSTICE?

The people? Or a group of Lubbock lawyers? Judge Nelson did not ask any group whether he might run for the office; and he has not sought any endorsements. If elected, he will be under no obligations to any such group. He will be able to chart the course of the law fairly for all. Is that what you want? If so—VOTE FOR JUDGE E. C. NELSON.
