PLANS BEING READIED FOR THANKSGIVING DINNER

The members of the O'Donnell Cemetery Association would like to extend a cordial invitation to the public to attend the annual Thanksgiving Turkey dinner which will be held in the school cafeteria on Thursday, Nov. 24. The proceeds from these dinners are used each year to keep the cemetery clean and in good condition.

Our grateful thanks goes to those who provide the food as well as to those who attend our dinners.

F H A WEEK IS ENJOYED

During the week of October 31 thru Nov. 5th the O'Donnell Chapter of the Future Homemakers of America celebrated National F H A week.

Sunday: members attended the church of their choice.

Monday: a short history of the chapter was read over the school radio system.

Tuesday: a short F H A meeting was held in the cottage. The program was on hobbies with Miss Stokes, Daphne Telchik and Fern Bairrington participating.

Wednesday: the group planted four red roses at the cottage.

Thursday: new members were initiated by wearing hats made of kitchen pans decorated with vegetables, bows and ribbons prepared by the old members.

Friday: each member wore a red rose, the club flower.

Saturday: seven members attended the area 2 meeting at Jayton. They were Daphne Telchik, Elaine Hohn, Nadene Roberts, Wynell Summers, Bobbie Pylon, Fern Bairrington, and Peggy Etter. Miss Stokes and Mrs Oscar Telchik accompanied the girls. 675 girls from area 2 attended.

Mrs George Parks of Dallas is here visiting her mother Mrs W J Smith and sister Mrs Albert Koeninger.

Mild Week End Reported By Officers

Deputy Cleve Bairrington and Judge Brown reported 12 drunks as arrests over the week end which was composed of Latins with the exception of a negro; otherwise the community was peaceful but busy.

14,379 BALES TO DATE

The harvest is this week's big news. An accurate check to 9 a m Tuesday morning showed 14,379 bales of cotton ginned here by the 7 local gins. The O'Donnell gins expect to get from 45,000 to 50,000 bales this year. The yield of lint per acre may not average 1937 but farmers agree it will be a very near miss. Many farmers are pulling a half to the acre with another go-round yet to come on the same acreage. This community is experiencing a real cotton boom and burr smoke covers the town as though it was an industrial town.

There remains a severe shortage of labor even though there is an estimated 6,000 hands in this local area. Saturday and Sunday here is a mad house -- a gold rush. Local prices on clothing food and cafe prices are tending to slip up to absorb the inflation of harvest money being released. A great many stores remain open on Sunday and one would be hard put to tell that this was the Lord's Day. The town has a carnival atmosphere with everyone more or less making money.

MISS MC MILLAN WEDS

Miss Doris McMillan, daughter of Mr and Mrs. Pete McMillan and Bud Cross, formerly of Wichita Falls and now employed by the local compress, were united in marriage Sunday at Carlsbad, N M by the County Judge of that city. Our congratulations.

LOCAL DOCTORS ARE BUSY

Friday a. m. Dr. Joe Lehman treated a Latin harvest hand for severely cut ears in a car mishap 3 miles east of town. The car turned over and came to rest 300 yards over the highway in a field. One ear had to be stitched back on as it was almost cut off, Dr. Lehman said.

Dr. Ernest Nelson reported the arrival of two Latin infants at his office last week.

The Country ed. deeply appreciates the thoughtfulness of W L Gardenhire in supplying us with a nice mess of elk which he killed on a recent trip to Colorado. You can't beat this country for good neighbors.

Stanton And Eagles Tie

O'Donnell and Stanton tied 6 to 6 here Friday night before a crowd of about 750 in a non conference game.

Stanton scored first when Fack Earl Koonce took the ball around end from the 8 yard line in the first quarter. The Eagles hit pay dirt in the second frame on a pass from Buck B. Clark to End Raymond Hancock from the 29.

Three penetrations were made by the Stanton squad while O'Donnell had two. The visitors made 12 first down for a total of 189 yards while O'Donnell made 100 yards and 8 first downs.

Clark, Hancock, Gass and Houston turned in a nice game for the Eagles while Koonce sparked for the visitors.

Carnival Is Success

Monday nite Oct. 31st the High School held their Annual Halloween Carnival. It was carried out with gusto and enthusiasm by all who entered into the fun making.

At 5 minutes to 10 Janelle Lindly was announced as the winner in the Queen contest. Miss Lindly represented the Senior Class. The Seniors turned in \$221.49 with the Juniors runner up and represented by Elaine Hohn turning in \$218.92 Next were the Sophomores (Shirley Gleghorn) with \$64.60 and the Freshmen (Fern Bairrington) with \$63.33. The gate admissions amount ed to \$51.74 and the net gross receipts totaled \$593.74 less \$18.75 given as prize money

Most Stores Will Close 11th For Game

Friday, Nov. 11th Armistice Day the majority of the stores will close from 2 to 4 p. m. for the ball game. Representative business men advise the Index that they would remain open considering that this is such a big fall. However, stores in Tahoka and Lamesa voted to close.

Some auto firms and groceries will close at noon.

For the Index's part we can not consider Armistice as just a day considering that eventful day in 1918 at 11 a m when the big guns on the bloody Western Front became silent.

That was the war to end Wars Yet 1941 saw the sons of the 1918 veterans trooping again to the colors for a more fierce struggle. Today the 1941 veterans are wondering about their sons and the sirens call of war. Lest we forget, and O, God, don't let us forget.

Big Day Is Planned For School Reunion;

Come on Ex-Students and help make this the biggest Homecoming that O'Donnell has ever had. If you have ever attended school at O'Donnell you will want to see old friends and classmates and talk over school days at the big evening banquet to be held in the school cafeteria at 7:30 p m Nov. 11th. A delicious meal and an interesting program is in store for all. Tickets (\$1.50 per plate) are on sale at the two drug stores and the two tailor shops or from any senior. You may also leave an order for a Mum corsage (\$1.50) and it will be waiting for you in the entrance hall of the grade school at 1 p. m. Make your banquet reservations by Nov 10th so your name will be in the pot. If you are an ex-student and have not received a card, you are nevertheless invited! Be there.

Tahoka-Eagle Game

Friday at 2 p m O'Donnell and Tahoka square off against each other for the last game of the season for both teams.

O'Donnell and Tahoka have always played their best games again at each other.

Bandmaster Bill King made a creditable showing of his band at the Stanton game and the band will play at Friday's game. He has taken a group of children that had never played and turned out a credit to our community.

(In passing no little credit goes to Supt. Johnson for sparkplugging and including band work in the school course.)

Neither O'Donnell nor Tahoka have had an extra successful season but Friday's game will be just as thrilling packed as thou both teams were district leaders. The rivalry is real but nonetheless clean and sportsmanlike.

Homecoming Day is for ALL the ex-students and Supt. Johnson and staff as well as all the students are doing all in their power to make this a day to remember. There will be no school Friday.

At half time at the game Miss Janelle Lindly will be crowned queen. Plan now to attend and enjoy this colorful event.

Band Will Be In New Uniforms Friday

On Nov. 11th at 11 a m the O'Donnell Eagle band will make its first public appearance in uniform when they parade in O'Donnell prior to the Football game between O'Donnell Eagles and Tahoka Bulldogs which begins at 2 p m at Johnson Field. The parade will start at the Legion hall and the line of march will be to Ellis Chevrolet, thence to the Corner Drug where they will form a circle and play a few numbers. They will then reform and march on to the field to play for the game.

The newly organized band is composed of 48 members and are all beginners. The drum major is Alice Stinnett and the twirlers are Dorothy Locke, Franke Joe Young, Ima Baggett and Nana Beth Cox. Band officers are president, Virginia Sanders, vice president, Alice Stinnett, secretary and treasurer, Carol Lambert. The uniforms are in the West Point style and in the

Miss Lindly Is School Queen

The annual coronation of the football queen will take place between halves of the Tahoka-O'Donnell game. Janelle Lindly, Senior representative, is this year's queen and will be crowned by Capt. Carroll Pearson. The queen was selected from four candidates representing each class in high school. The junior candidate, Elaine Hohn, and escorted by Leroy Gass; the sophomore candidate, Shirley Gleghorn, escorted by Raymond Hancock, and the Freshman candidate, Fern Bairrington and escorted by Edward Gray will be the queen's attendants.

Miss Patsy Edwards, last year's queen, will turn over the crown to Janelle in the colorful ceremony.

A feature this year will be a float introducing as many of the former Eagle queens as possible. A complete list of these queens is not available, so if you are one and have not formally been invited, see any member of the pep squad or Miss Sufall

A bit about the queen. She is the daughter of Mr and Mrs H F Lindly, farmers of the T Bar Community. She is a senior and is 15 years of age. She attended the T Bar school and started here in the 4th grade. She was the freshman pep squad leader, a member of the 4 H club, and in her junior year was voted the best all around student, F H A club and Journalism student. In her senior year she is a pep squad leader, annual staff and F H A club.

WEEKLY NEWS ANALYSIS

Nourse Raps Deficit Spending; Decontrol Fails to Boost Rent; Military Budget Tops 15 Billion

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.

U.S. SPENDING: Deficit System Hit

It seemed an obvious conclusion that the President's council of economic advisers was having little effect in influencing government officials to insist upon a real effort by the administration to put its financial house in order.

ANY such conclusion would have been bolstered by the fact that Dr. Edward G. Nourse, chairman of the council, was quitting that body. In an address before the national retail farm equipment association, Dr. Nourse hit hard at federal deficit spending and charged that the government is "slipping back into deficits as a way of life."

Instead of deficit financing, he said, the government should be "putting its fiscal house in order and husbanding reserves to support the economy if less prosperous times overtake us."

According to reports, Dr. Nourse had informed President Truman that he was going to leave the government, although there was no word as to whether the President had accepted or would accept the resignation.

WELL-PLACED official circles were said to believe that Nourse's decision to leave the advisers council was because of his belief that he had failed in what he regarded was a fight to keep the council on a strict professional plane of fact-finding and advice-giving, divorced from political issues.

In his address, Nourse was critical of elements among labor, agriculture and management, chiding farmers for "demanding stimulative prices," labor for demanding shorter hours in the face of the need for increased production.

RENTS: Keep Level

A rather surprising thing had happened. A survey showed that lifting of rent control in more than 500 areas had not resulted in wholesale rent increases. Lifting of controls, put into effect in wartime, began last April 1.

TAKEN as a whole, however, rents in key decontrolled areas did go up a little, but the hike was not as severe as most observers had predicted.

The survey disclosed that landlord reaction to decontrol was spotty. One major factor in the over-all rent picture was said to be the number of vacancies available—a factor which might, after all, have considerable restraining effect on any appreciable over-all rent increase. Some landlords raised rents, but had to cut them again when tenants moved out. Also some landlords were still bound by leases issued in the period before decontrol.

According to the survey, increases were scattered, rather than general, in most places.

THUS THE PICTURE of the rent situation generally is clouded by the factors enumerated, factors which may of themselves have enough restraint value to hold down rent hike, as well as a disinclination of landlords to raise rentals to levels most Americans expected.

Continuing strikes, loss of income, more accessibility of housing sites may all combine to keep any general and extensive rent increases from being made in the near future.

MILITARY: 15.5 Billions

If war comes, America intends to be ready. Demonstrating that fact, congress finally got together on a record peace-time military appropriations bill totaling approximately 15.5 billion dollars, including funds to build the air force up to 58 groups.

BREAKING a month-long deadlock and spurred, no doubt, by reports that Russia has the atomic bomb, house and senate hurried through the details of the final measure which went to President Truman for approval.

In this action, the senate finally bowed to house insistence on giving the air force some 10 groups and 740 million dollars more than President Truman had requested for it.

CONCERN over the possibility of enemy atomic attack was indicated when congress also appropriated 50 million dollars to start construction of a vast radar screen designed to warn the United States of any enemy air attack.

MIDDLE COURSE

India Would Fight if Liberty Threatened

India will steer a middle course, clear of entanglements in the cold war, but when "man's liberty or peace" is endangered, then India will fight.

That was the declaration of India's prime minister Jawaharlal Nehru in a foreign policy speech in New York a few days after his arrival in the United States. He called upon the world to talk

Record's In

President Harry S. Truman, with congress finally in adjournment, would have to go to the people with the record of that congress in the fight for Democratic seats in the 1950 elections. Little of his program was enacted, but there was little doubt he would defend the congress to the end.

BIG DAY: Break for Kids

Underprivileged children in more than 3,000 U. S. and Canadian communities will receive assistance from a far-reaching program of youth welfare announced by Kiwanis International and The National Kids' Day Foundation, Inc.

J. Hugh Jackson, Stanford, Calif., president of Kiwanis International, in announcing the cooperative effort, said "the problems of underprivileged children are the problems of the entire nation but their solution depends upon local action. There are more than 3,000 Kiwanis clubs which are geared for participation in the program."

FOCAL POINT of the campaign will be the observance of an annual "National Kids' Day," the first to be held on Saturday, November 19, when each community will be asked to enlist the support of its citizens in meeting the problems of local youth.

The Kiwanis president emphasized that National Kids' Day will not be celebrated as a holiday or used as a gift-giving occasion. "It is our intention to use the observance of this day as a means of rallying the forces of each community toward solving local juvenile problems," he continued. "By this means, we hope to raise additional funds to carry on a year-round program of youth activity in cities and towns in the U. S. and Canada. Money raised in each community will be spent in the same community for the benefit of children."

CHARLES PETTITJOHN, executive secretary of The National Kids' Day Foundation, Hollywood, Calif., said his organization was formed last year to call national attention to the right of underprivileged youth to enjoy some of the benefits normally accruing to boys and girls in more fortunate circumstances. The Foundation also seeks to attract attention to the accomplishments of youth and to stimulate additional interest in the problems of youth.

DEFENSE: A Speedup

The United States was moving swiftly to meet the threat of Soviet possession of the atomic bomb. President Truman and the atomic energy commission had ordered a 30 million dollar expansion of atom bomb facilities at Oak Ridge, Tenn., and Hanford, Wash.

THUS THE RACE to see whether the U. S. or Soviet Russia could produce the most bombs seemed to be on, and with it went any immediate hope, at least, for any international control of atomic energy. The extent of the U. S. effort in the race was seen when authoritative quarters announced that the new atomic-plant-construction program ultimately would cost 300 million dollars.

Chairman McMahon (D., Conn.) of the congressional atomic energy committee, called the project a "major expansion effort." McMahon would not say that the action stemmed from Russian progress with atomic fission, but there was a certain evidence of haste inasmuch as White House clearance for the project came just six days after President Truman announced the atomic explosion in Russia.

Liberty Threatened

less of war and to think more of peace and how to attain it, and admonished both east and west that: "The very process of marshaling of the world into two hostile camps precipitates the conflict which it is sought to avoid."

The Indian statesman's views were given in an address marking ceremonies in which Columbia university made him an L.L.D.

God Our Comfort

Lesson for November 6, 1949

AS THE ENGLISH language keeps on changing, words do not always keep on meaning what they once did. "Comfort" is one of these. When our Bible was translated into English in 1611, the translation most English-speaking people use, the word "comfort" had a big er meaning than most people put into it nowadays. We think of it as meaning soothing; but it is a bigger idea than that. God is not merely a soothing God. We think of "comfort" as meaning to make comfortable; but it is a stouter word than that. God does not always make his people comfortable. The word means to strengthen, to steel against fear and despair, to put backbone into people.

Dr. Foreman

"Fear Not, O Worm!"

AT THE TIME of the prophecies had been kicked around a good deal. They had felt the conqueror's boots, they were discouraged, as all good people are when somehow God seems to be letting evil forces triumph. Their little world had split wide apart, their little nation had been blown to the winds.

To those people, torn by terrors and bowed down by wretchedness, people who were in serious danger of developing a once-for-all "inferiority complex," people who were about to lose all their backbone, the great prophet brings his messages: "Comfort ye my people, saith your God."

The whole idea is in this one sentence (Is. 41:14): "Fear not, O worm Jacob! . . . I am your helper, saith the Lord."

God does not indulge his people in foolish pride. Beside the Almighty they are worms, insects. Nevertheless, worm though he may be, the man who trusts in God will not be afraid. He will not trust in his own powers, he will not trust in luck, he will trust in God.

A worm by itself is nothing; but with God on his side, the weakest of men can say with Paul, "If God be for us, who can be against us?" God's men do not get their courage up by flexing their muscles or admiring themselves. They grow in courage as they grow in the knowledge of God.

Goodness And Power

ANY ONE who saw "Edward, My Son" will remember the tragedy of that family. A boy's character went slowly to pieces, because his father was determined that nothing should be too good for him. To gain his purpose the father ran rough-shod over everyone who stood in his way, and eventually ruined the lives of all around him, including his son's and his own. The mother, on the other hand, could see, as the father could not, what his indulgence was doing to the boy, making him a weakling and a rat. But she was too weak to stand up against her husband, and her life too was ruined. That story is a kind of parable.

The prophet reveals a God who is both powerful and good; but suppose God were only good but not powerful, or only powerful but not good? Then the world would be in a mess, as that boy Edward was in a mess.

But these three are all in the same God. A God who is power only, might do as Edward's father did, destroy his children without even intending to do so. A God who is goodness only, might want to do right by his world yet not be able to do so, like Edward's mother. A God who knew what was right but neither wanted nor was able to do much about it, would not be a God at all.

God Is Not Weak

SUPPOSE GOD were indeed powerful, good and wise, and yet grew tired from time to time? Suppose all God's good qualities came and went, unpredictably, like the wind on a spring day?

No; God is the Maker and Keeper of Promises, the Covenant God. He does not grow faint or weary; that is our anchor of comfort.

The earth changes, and men with it; but the Word of the Lord abides forever. His "covenant of peace" does not waver. We do not need to lean gingerly on the Almighty. He will bear all our weight.

(Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations. Released by WNU Features.)

Double or Nothing

"Now is as good a time as any," said Teeter, senior, as he stood at a bar with his son, "to teach you a few facts of life. Remember, a man who drinks beyond his capacity is no gentleman. To enjoy life you must observe the happy medium. Have a drink occasionally, but never get drunk."

"Yes, sir," replied his dutiful son, "but how am I to know when I am drunk?"

"Well, you see those two men sitting in the corner," said his father, "if you were to see four, you'd know you were drunk."

"I can see only one there now, father," grinned the young man.

Distaff Side

First mate—"What are epistles, Joe?"

Second mate—"I'm not sure, but I think they are apostles' wives."

Meticulous

Nobody ever imagined that the serious-minded and somber-faced editor of dictionaries would flirt, least of all his wife. But one day she found him kissing the maid—and exclaimed:

"Why, John, I'm surprised!"

He retorted:

"Not you, my dear—I am surprised; you are astonished."

Ibsen, Shmibsen, She Said; Confide With Me Everything

By BILLY ROSE

I recently read a magazine piece entitled, "What's Wrong with Modern Marriage," in which the author opined that the divorce rate would drop like an over-ripe apple if the average wife showed more interest in her husband's business and hobbies.

Well, maybe so, but you can't prove it by my Uncle Charlie and my Aunt Frieda. . . . Charlie and Frieda are a couple of oldsters who have been living in a two-room flat on the East Side almost as long as magazines have been printing articles entitled, "What's Wrong with Modern Marriage."

Ever since their nuptials, they've had at least one argument a day, and when they stop scrapping that's when I'll start worrying about them. I remember an evening back in the days when I was knee-high to the

Billy Rose

When Street curbstone when Aunt Frieda came home from the movies with an air of unwavering nobility. "Charlie," she said tensely, "how is business at the shop, good, bad or fair to the middle?"

"Eh - peh," answered my uncle. ("Eh - peh," I hasten to translate, means that things being what they are, if a man breaks even he can consider himself a runaway success.)

"Eh-peh" is no answer," said Frieda. "I am sick of living in a hell's house."

"I see," said Charlie. "Tonight in the nickelodeon was showing Maximova in 'A Doll's House' by Ibsen."

"Ibsen, Shmibsen," said Frieda. "You can't push me out of your life. Confide in me everything, come thick or thin."

"This'll confide," said Charlie. "When I come home from the shop I'm tired out like a dog. But enough I live through the day without it should repeat on me like radishes."

However, with my Aunt Frieda, like Columbus, there was no turning back. She kept picking away until Charlie itemized the day's happenings—everything from punch-in to punch-out.

BUT THAT WAS only the beginning. The payoff came a few weeks later when Charlie was fixing to attend his weekly pinochle session.

"I want you should teach me how to play," said Frieda. "Pinochle!" said Charlie. "Al-

ways you are saying pinochle is for loafers and no-goods."

"I ain't saying different," said Frieda, but pinochle is your passion and I don't want it should take my place in your life."

Now, my uncle was a broad-minded man. When women began to bob their hair, his comment was, "They want to ventilate their necks, so let them." But pinochle—well, that was another matter. Nevertheless, he knew better than to balk his wife outright and, as he explained the game to Frieda, all the while thinking bitterly of the coffeehouse session he was missing, a plot began to hatch in his head.

Next evening he was home early with a bag of wool and knitting needles. "Frieda," he said, "how you make a cable stitch?"

Half an hour later he was in the kitchen tasting the soup. "It needs a pinch paprika," he said. "You're giving me point-outs how to make soup?"

"Who's teaching? A woman cooks and shops, a husband should similar cook and shop. How much you pay for cabbage?"

"Five cents a head." "At Fuzari's on Avenue A, is four cents."

FRIEDA DROPPED a handful of cutlery in the sink. "Fuzari's is six blocks away."

"So what? The exercise will do you good."

That Saturday night, Charlie persuaded a couple of his cronies to come over for a pinochle session and put up with his wife's playing. At 12 o'clock Frieda said, "I can't keep my eyes apart."

The Answering Voice. WE KNEEL to pray, we voice our desperate need For quick release and comfort then arise, Not tarrying a moment there to heed The answer to our eager clamoring cries: The answer that will come, though soon or late, If we would only listen, only wait. God is not deaf to any earnest prayer. He hears, he heeds, he answers every one Who gives a burden over to his care, And humbly yielded, prays, "Thy will be done." God grant us patient grace to wait thy word, After our earnest, sincere prayer is heard. GRACE NOLL CROWELL

Maybe you could play three-banded. "What kind pinochle player stops so early?" said Charlie. "Deal!" And at 3 a.m., Frieda was dealing them as if they were bricks. Sunday, Charlie put on his best tie. "Today I go with you to see Theda Bara," he said. "Is not necessary to go with," said Frieda. "I got a date with the ladies."

"Where you go, I go," said Charlie. Frieda, afraid Charlie would laugh at Theda's amatory exercises and humiliate her in front of her friends, pulled down the flag. "Marriage is not simple a ball and chain," she said. "You go your way and I'll go to Loew's."

Charlie moved in for the kill. "No more schmoose about the shop?"

I learned all my stuff in a circus. I got to be pretty good, because I liked the work. In fact, I liked it so well I decided to become a real cowboy. The truth is, I don't know a darned thing about cowpunching and I'd appreciate it if a heap if you boys would let me stay and teach me a few things."

Star Dust. SINGER has to be something more than just wonderful to make her professional debut on "The Telephone Hour." 20-year-old Barbara Gibson did it September 12, and will be heard again on the program in February. Gladys Swarthout promptly phoned her praise; Lily Pons, who had missed

the broadcast, asked for recordings. Like Lily, Barbara is a coloratura soprano. Unlike her, she's a young American girl—likes to swim and ski, makes her own clothes. Walter Magill, producer of "The Telephone Hour," was at CBS the day she auditioned, heard executives raving about her voice; after hearing her sing he gave her her big chance.

RANGE RIDER

By Richard H. Wilkinson

CHUCK HANSON and Baldy Davis, range riders for the Circle H Cattle outfit, were pretty disgusted the day young Johnny Howard rode into their camp and handed them a note signed by Old Man Hadley, the Circle H's owner. The note read in part:

"This will introduce Johnny Howard from New York, the son of an old friend of mine. He wants to be a real cowboy and I'm sending him out to you boys. Show him the ropes, Jim."

Summoning Baldy, Chuck led the way out of earshot. "Ain't the boss cute?" he said sarcastically. "Handin' us this horse maid's job. By Gad, one day Old Hadley will go too far."

"The way I figure it," said Baldy, "the boss is passin' the buck. Since this fashion-plate is the son of a friend he can't just give him the works and send him home, so he puts it up to us."

Chuck spat and scratched his head. "By gum, maybe you're right. Chucks, that's it exactly! Come on, we gotta do like he asks. We'll make a cow hand out of this kid or die tryin'."

They returned to the camp where waited Johnny. "O. K., feller," Baldy said. "The boss allows we gotta make a cow hand out of yuh. Your first lesson is to get down off that flea-bitten nag you're a-straddle and learn to stick on a real hoss."

"Well," said Johnny, "I was wondering if I was going to have to ride this old crow bait."

Chuck and Baldy exchanged meaning looks. Baldy went out to the corral and returned leading a sleek-looking black that kept his ears laid back permanently just to show folks how he felt about any one who thought he could ride him.

Confidently Johnny swung aboard while the two range riders climbed to the top rail of the corral fence. Baldy was a little nervous.

The black, with Johnny astride him, suddenly galvanized into action. It shot straight into the air and came down with all four legs as solid as gate posts. It unfished and buckled and bucked. It got down and rolled over, brushed against the fence, reared on all fours, plunged and bucked some more. And presently, sweating and growling, it stood docile and Johnny Howard was still on its back. Johnny grinned at the open-mouthed spectators.

THE RANGE RIDERS rubbed their eyes. The thing that had happened was like an hallucination.

They weren't convinced. Chuck slid down off the corral. "We'll now go into lesson number two," he remarked, "which includes bulldogging. Ever bulldog a steer, mister?"

Without waiting for the dude's reply, Chuck, who had won laurels as a bulldogger, galloped after a steer, threw and roped him in record time. Pleased and swaggering he returned. "See how it's done?" he asked.

"Yes," said Johnny. "I see. Mind if I try it on that big steer?" He tried it. He threw and roped the big steer in three seconds less time than Chuck.

After a roping exhibition Johnny, without being challenged, produced a six-gun and demonstrated some fast and accurate shooting. In fact, it was so fast and so accurate that Baldy and Chuck didn't

offer to exploit their own prowess. When the shooting was over the range riders went into a huddle. Presently they returned to Johnny. Chuck stuck out his hand. "Mister, we hereby apologize. We know when we're licked."

Johnny grinned. "Well," he said. "I reckon that was Uncle Jim's idea. At first. Then when he found out I was a circus performer he saw a chance to play a joke on you boys. I learned all my stuff in a circus. I got to be pretty good, because I liked the work. In fact, I liked it so well I decided to become a real cowboy. The truth is, I don't know a darned thing about cowpunching and I'd appreciate it if a heap if you boys would let me stay and teach me a few things."

"Teach you!" declared Chuck. "Ha! Mister, consider yourself t'home."

Danger of Fires Worse on Farms

Suggestions Advanced For Preventing Blaze

Of an estimated fire loss of 11,000 lives and nearly 700 million dollars in property and resources indicated for the year 1949, a great percentage of these losses will be made up of fires on the farm. Because of lack of fire protection or adequate fire-fighting facilities, farm fires in almost every case are the most disastrous, because of the almost inevitable complete loss which results.

Already the national board of fire underwriters has reported property destruction from fire in the amount of 398 million dollars, 8.9 per cent below the same period for 1948. But even if a downward trend should continue for the remainder

of 1949, this year's losses would approach the 1948 all-time high of more than 711 million dollars.

These figures mark 1948-49 as the most disastrous period in a decade that has recorded five billion dollars in fire destruction. Between 1940 and 1948, fire loss soared 132 per cent.

As the "prime cause" of most of the 800,000 fires annually, the Board lists "plain carelessness and misuse of heating and lighting equipment." The leading single cause of fire is careless smoking and use of matches, accounting for 16.68 per cent of the total destruction. However, over the past ten years, the combination of defective chimneys and flues, stoves, furnaces, boilers and their pipes, and sparks on roofs has been responsible for 20.47 per cent of all fires reported.

Proper safeguards in installation and maintenance of heating equipment, chimneys and flues, safety officials say, will prevent fires of this type. Many communities already protect their citizens with ordinances requiring the installation of flue linings in all new chimneys. One effective means of fireproofing chimneys involves the use of clay flue lining which forms a single, continuous nonflammable unit inside chimneys of all types. The indestructible clay lining prevents weather, heat and corrosive smoke and gases from eating away the mortar between the bricks of the chimney. This eliminates the danger of flames reaching combustible materials through cracks between the bricks.

Authorities urge homeowners to make a careful inspection of chimneys and heating equipment.

HOUSEHOLD MEMOS... by Lynn Chambers

Make Pinwheel Chicken Casserole from Leftovers
(See Recipe Below)

Plan Leftovers

PLANNED LEFTOVERS? "Never heard of such a thing," says one homemaker, while another comes back with the comment, "Certainly, plan to have leftovers, if you want to save meal preparation time and food money."

If you think the family won't eat leftovers, you've probably never presented them properly because, really, leftovers can be glamorous! Just see how pretty chicken casserole looks in the picture. Then glance at some of the other recipes we're giving!

Have you ever thought why it's economical to buy a roast? For the simple reason that you can have it for another meal or two. This holds true for many cuts of meat which the family cannot consume at one sitting.

YOU WILL LIKE THIS excellent good example since it's extended with eggs and flavorful mushrooms. The pinwheel parsley biscuits floating on top the creamy and savory mixture make the dish hard to resist. Makes you want to go out and roast a chicken to have some leftovers, doesn't it?

Pinwheel Chicken Casserole (Serves 4-6)

- 1 1/2 cups cooked chicken meat
- 1 hard-cooked egg, coarsely chopped
- 4 tablespoons fat
- 4 tablespoons flour
- 2 cups milk
- 1/2 teaspoon pepper
- 1/2 teaspoon ginger
- 1/2 teaspoon salt
- 1 tablespoon scraped onion
- 1 can mushrooms, if desired
- Parsley Biscuits

Make a sauce by melting fat, blending in flour and milk. Season well with salt, pepper, ginger and onion. Arrange layers of chicken, eggs and mushrooms into a greased 8x8-inch capacity casserole that is from 2 1/4 to 3 inches deep. Pour hot sauce over all. Bake covered, in a hot oven (400°) until sauce is bubbly, 30 to 40 minutes. Top with parsley biscuits. Note: If you have leftover gravy, substitute it for the sauce made of fat, flour and milk.

Parsley Biscuits: Prepare biscuit dough, using 2 cups flour or 2 cups biscuit mix. Roll dough 1/4 inch thick. Grease slightly and sprinkle with 1/2 cup finely chopped parsley over surface. Roll like jelly roll, then slice 1/2 inch thick to bake. Biscuits may be baked in oven at same time as casserole.

SHREDS LEFT from the beef or pork roast can go into this pie to be extended with vegetables left over from the roast:

- 1/2 cup minced onion
- 1/2 cup minced celery
- 2 tablespoons fat
- 2 cups leftover beef or pork, cut in pieces
- 1 cup cooked, diced potatoes
- 1 cup cooked, sliced carrots
- 2 tablespoons chopped parsley
- 1 tablespoon Worcestershire

LYNN SAYS:

Here are Little Ideas With Lots of Flavor For fish or salads serve a sauce of sour cream, the thick, smooth kind. Season it with salt and pepper. Some chopped chives or grated onion and a bit of diced cucumber. Garnish those steamed puddings with grapes dipped in beaten egg white and fine granulated sugar for a frosted touch. Mix some marjoram with salt and pepper and use the mixture on broiled steak for real flavor.

LYNN CHAMBERS' MENU

- Clear Tomato Soup
- Roast Beef Pie Toasted Rolls
- Celery Hearts Olives Pickles
- Fresh Pear and Grape Salad
- Orange Tapioca Pudding
- Chocolate Cookies
- Beverage
- Recipe Given

- sauce
- 1 2-ounce can browned mushrooms with broth
- 1 teaspoon salt
- 1 cup leftover gravy

Cook onion and celery in fat until golden colored. Stir in flour, then add remaining ingredients. Simmer for 10 minutes. Pour mixture into individual baking dishes and top with pastry. Brush crust with slightly beaten egg white, then bake in a hot (425°) oven for 25 minutes.

Pastry for Roast Beef Pie: Sift together 1 cup flour with 1/2 teaspoon salt and work in 1/2 cup shortening until mixture is crumbly. Add 2-3 tablespoons cold water and toss mixture with fork until blended. Flute edges as for pie crust after topping meat pie.

Beef-Noodle Casserole (Serves 6)

- 2 1/2 cups roast beef, cut in shreds
- 2 tablespoons shredded green pepper
- 1 onion diced
- 2 tablespoons fat
- 1 cup celery, diced
- 1 can tomato soup
- 2 cups cooked noodles
- Salt and pepper to taste
- 1/2 cup buttered bread crumbs
- Brown onion and celery in fat; add green pepper and meat, then tomato soup. Place meat mixture and noodles alternately in a two-quart greased casserole after seasoning to taste with salt and pepper. Top with butter crumbs and bake in a hot oven (400°) for 30 minutes.

YOU WILL LIKE THIS excellent recipe for using the last of the ham.

Ham Slices in Corn (Serves 6)

- 1 cup chopped celery
- 1 chopped onion
- 1 shredded green pepper
- 2 tablespoons butter
- 1 egg, well beaten
- 1 cup canned corn kernels
- 1 cup bread crumbs
- Salt, pepper, sugar
- 2 tablespoons flour
- 1 cup milk

Fry celery, onion and green pepper in butter until tender. Add egg, corn and bread crumbs. Season with salt, pepper and sugar. Place ham slices in a square baking dish or casserole and spread corn mixture on top of them. Make a sauce by using butter in which vegetables were cooked by blending in flour, then adding milk, stirring constantly, and cook until thickened. Pour sauce over ham and corn and bake in a slow (325°) oven for 35 to 40 minutes.

Don't forget to serve cranberry sauce with pork as well as with chicken and turkey. A few seedless raisins added to the sauce make it an excellent side dish with the meat. Salted walnut halves put together with cream cheese to which a bit of anchovy paste is added, are a neat trick to serve with tomato juice as a first course. Paper thin slices of ham make an excellent snack if you spread them with cream cheese seasoned with onion juice. Serve with thin, buttered slices of rye bread.

Seven-Day Religion

Lesson for October 9, 1949

EMPLOYERS don't care much for letters of recommendation signed by preachers. Not that they think preachers are dishonest. The employer is glad to know where the chap is on Sunday mornings. But he would rather have a letter from somebody who sees him every Saturday night and Monday morning.

Religion Won't Keep Sweet by Itself
IT IS a temptation as old as religion, to put it on one side of a wall and life on the other. But the prophets showed, once and for all, that God has literally no use for religion which has been dissected off from life. Religion which is kept apart from life turns sour and bad. In Isaiah's time, everybody knew there was something wrong with the country.

Isaiah's diagnosis was shocking: Religion is our principal trouble. God is tired of it. What? The pious people would exclaim. Look at the crowds in the Temple every holy day! Listen to all the prayers, count the number of tithers. If anything is wrong with our country, it can't be religion! But religion it was.

Why God Was Tired

A CATHOLIC priest would shock everybody should he call Vatican City "Hell's Half Acre." Isaiah shocked his fellow citizens by calling Jerusalem "Sodom and Gomorrah." Those cities were the worst places the Hebrews had ever heard of.

They were so bad the Lord had to destroy them by fire—not 10 good people could be found there. The prophet follows up that first shock by another. Every single expression of organized religion comes under the prophet's lash.

Sacrifices and offerings (v. 11), attendance at the sanctuary, observance of the Sabbath and other holy days (v. 13), church gatherings, corresponding to our rallies and conventions (v. 13), even prayers (v. 15).

Put that into modern terms: attendance at church, Bible reading, tithing, praying—if that is all, then all is no good. It may be religion, and of course it is one kind of religion; but not the kind God wants.

Indeed, Isaiah says God hates it; he is "fed up" with it (vs. 11). What was wrong? Isaiah tells them that, too, in short simple words. "Your hands are full of blood."

Oh, the people would protest, we are not killers, we don't lay a hand on anybody. Isaiah goes on to explain; seek judgment (i.e. justice), relieve the oppressed, judge the fatherless, plead for the widow.

You don't kill outright, you churchgoers, he would say, but you are so indifferent to justice in your city, you take so little interest in the people at the bottom of the heap, that people die here, widows and orphans die, simply because no one cares.

What Makes a Town Worth Saving?

ALAS, nobody did care. One hundred and more years went by, and Jerusalem came close to its end. But nobody thought that disaster could strike. The belief had grown in every one's mind that the Temple of the Lord would forever insure the safety of the city in which it stood.

But a young prophet, Jeremiah, preached a sermon on the same theme as Isaiah's (Jer. 7): It is not the temple that will save you, it is not church attendance that will bring you the favor of God.

As the men of Jerusalem looked back to the great days of Moses, they thought of the sacrifices and offerings, the tabernacle and the rituals and all the pageantry and paraphernalia of a picturesque religion, as the great thing that God had given them.

But God remembered it otherwise. Jeremiah even says (with understandable exaggeration) that God had not said a word about sacrifices and offerings; the Ten Commandments, with all they implied, were the main thing.

What God looks for, back of all our church attendance and Bible reading, is "justice between a man and his neighbor." A place where that can be found is a good place.

Up In The Air

An author got into an elevator and continued his conversation with a friend about a story he had just written. "So I got my knife and killed her," he said. "Of course I was careful to wipe off all fingerprints with a handkerchief." Just then the elevator stopped and the two men got off and left the wide-eyed passengers wondering what to do about the situation.

U.S. Agricultural Unit Helped Penicillin Use
Although the U.S. department of agriculture did not make the discovery of penicillin, its work made it practical to produce the antibiotic commercially. They discovered a new and more productive strain of the penicillin mould. Also as a part of their war research work they developed methods of feeding the mold and separating and purifying the product. A major contribution in itself.

Had RHEUMATISM So BAD That He Had To Quit Working

Mr. Jerry Watkins, chief of detectives of the city of Hot Springs, Arkansas, suffered with rheumatism so much and the aches and pains were so terrible that he had to quit working in an effort to regain his health after he had tried everything which his friends recommended.

Detective Watkins is well known and his countless number of friends throughout the country will rejoice to know that he is now healthy, free of rheumatic aches and pains and now working hard.

Mr. Jerry Watkins

"For several years," Mr. Watkins says, "I suffered from a rheumatic condition in the hip and leg. I was very nervous and finally developed migraine headaches. I tried all kinds of medicines but nothing seemed to do me any good. I seemed to be growing worse and worse and was finally advised to take a leave of absence from my work on the police force in an effort to recover my health."

"The pains in my head sometimes were unbearable. I suffered tortures and I was miserable. At night particularly I lay awake and could not sleep."
Mr. Watkins said that someone finally persuaded him to try HADACOL, and after taking the first bottle he said he could see an improvement in his general condition.

"On January 14th of this year," he said, "I felt so much better I decided to go back on the job. The examining doctor told me I was in perfect health. Now I am

working from 8 to 12 hours daily and I am able to sleep as any normal person. I have taken six large size bottles of HADACOL, and all my friends know I owe my good health to HADACOL."

It is a well-known scientific fact that the lack of only a small amount of the B vitamins and certain minerals in your system will cause certain bodily disorders such as nutritional neuritis, which causes the aches and pains commonly known as rheumatism, and there is no known cure for the ailment except the administration of the needed vitamins and minerals. This is why people who suffer for years and years never were able to obtain any relief until they took the vitamins and minerals the lack of which was causing the disorders.

HADACOL does not contain only one but has five of the B vitamins and four necessary minerals. It comes to you in liquid form so that it will be easily absorbed by the blood and, therefore, carried to the parts of the body which need them most.

So, it matters not where you live—no matter who you are—if you have tried all the medicines under the sun, you should be fair to yourself and give this wonderful preparation, HADACOL, a trial. And if your disease is caused by a lack of the B vitamins and minerals which HADACOL contains, then don't go on suffering—don't continue to make your life so miserable. Temporary relief for you is not enough. Take HADACOL. Sold at all leading drugstores.

Trial size only \$1.25, but save money: buy the large family economy size, only \$3.50. If your druggist does not handle HADACOL, order direct from The La Blane Corporation, Lafayette, La., and when the postman brings your package, just pay the amount plus the c.o.d. and postage. If you remit with the order we will pay the postage.

Then, if you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer.—Adv.

FIRST AID to the AILING HOUSE
 by Roger C. Whitman

QUESTION: I was recently given two antique glass cream pitchers, but they have been washed in soap and water so much that the designs in the glass are filled with a soap crust. I have failed to remove this after repeated trials. Can you give me any help?

ANSWER: I believe the deposit is more from hard water than soap, although this has probably stuck to the glass also. If the pitchers are of cut glass of some kind without any painted designs, the crust should soften by soaking with a non-flammable cleaning fluid, giving it plenty of time to act. Kerosene may also help. A stiff brush would be convenient to work with.

Accidents Chief Killer Of Children in America

CHICAGO.—Here's a word of warning to all Moms and Dads: Accidents are the greatest kid killers in America!

Accidents far out-rank any of the more generally feared childhood diseases as a cause of death among children 1-to-14 years old. There were 10,731 accidental deaths in that age group in 1947—three times more than were claimed by pneumonia, the next most important cause of death. And accidents caused 42 times as many deaths as polio.

Why VICKS VAPORUB Is Best Known HOME REMEDY TO RELIEVE Colds' COUGHING DISTRESS

Only Vicks VapoRub gives you this special Penetrating-Stimulating action when you rub it on throat, chest and back at bedtime:—

It penetrates to upper bronchial tubes with special medicinal vapors. It stimulates chest and back surfaces like a warming poultice. And it keeps working for hours—even while you sleep!

TAKE A LOOK AT YOUR INSIDES

Study the above drawing for a few minutes. Notice particularly how the bile flows from the liver into and out of the gall-bladder and thence into the small intestine where it mixes with the partly digested food just below the stomach. Bile is a necessary adjunct to proper digestion. Its absence from the intestines inevitably causes putrefaction and fermentation.

NATURE'S DANGER SIGNALS

When your stomach, liver, and gall bladder have been upset by improper eating or drinking, or when they are not working well because retained and putrefying food matter in your intestines is poisoning your entire body, your bile stops flowing freely and you, sooner or later, begin to feel some of the following symptoms:

Your breath may become unpleasant (halitosis), your tongue coated, a bad taste in your mouth, your coffee (and tobacco) lose their natural flavor, your food does not agree with you; you may have headache, heartburn, gas and dizzy spells, you may be troubled with belching; at night the gas in your bowels may press upon your bladder making you get up frequently, thus breaking into your sleep.

In the morning you are tired instead of refreshed. Gradually your health is impaired: you have constipation, gas, putrefaction and self-poisoning ("intestinal toxemia" or "acute gastritis" as many doctors call it).

HOW TO GET RELIEF

You can relieve this condition, usually overnight, by taking Calotabs at bedtime and drinking water freely next day.

Calotabs are a thoroughly dependable laxative designed to effectively relieve symptoms of biliousness and acute gastritis due to constipation or faulty digestion, and to promote the flow of bile through the intestines.

Calotabs are pleasant to take (sugar coated), prompt and effective. Try them and see. Follow label directions. At your druggists'. Demand the original Calotabs in the distinctive checker-board box. Accept no substitute.

Housewives Can Inspire Meals With Novel Salads Made of Fresh Foodstuff

"I NEVER have trouble thinking of salads to serve during hot weather when there's so much available of salad ingredients," says a homemaker. "But salad inspiration during winter is a big problem!"

It needn't be so, especially if you check over these inspiration-packed tips I'm giving in today's column. All foods used are available during cool weather, and you'll be surprised at what salads can be whipped together without mental fatigue.

Badly needed vitamins and minerals are found in fresh fruits and vegetables to a much greater extent than in cooked foods where water, steam and air have rendered many of them useless. The best way to get their full benefit, therefore, is to serve raw foods. What better way to do this than in salads?

FRUIT SALADS, when made

large and beautiful enough, will double as salad and dessert or salad and appetizer. They may be garnished with a scoop of sherbet or dressed with a piquant dressing.

*Fruit Salad Combinations

1. Alternate wedges of grapefruit, oranges, apples, pears and calavo. Serve with honey or lime-flavored French dressing.
2. Fill canned peach halves with cream cheese and chopped nut mixture and garnish with unpeeled raw apples.
3. Put three cups fresh cranberries through food chopper with two apples and one large orange. Add two cups sugar. Serve, mounded, on a pineapple slice on a bed of lettuce.
4. Serve pear halves filled with a cream cheese and crumbled ginger-snap center on lettuce leaf.
5. Sliced bananas marinated in lemon juice, then mixed with orange sections and thin, unpeeled apple slices look pretty, taste well.

Carefully cooked or drained canned vegetables may be used in vegetable salads with raw ingredients for contrast and texture interest. Here are some suggestions:

Vegetable Salads

1. Arrange 4-6 asparagus tips (cooked or canned) on lettuce, encircling them with a green pepper ring. Serve with French dressing to which chopped chives or stuffed olives have been added.
2. Mix shredded red cabbage with fried and crumbled bacon. Toss together with tart mayonnaise.
3. Serve cooked chilled broccoli with a French dressing into which is placed crumbled, hard-cooked egg and crumbled blue cheese.
4. Cooked lima beans mixed with diced pickled beets, chopped parsley and onion are excellent on a bed of lettuce.

A combination of citrus fruits makes an excellent salad for cool weather eating. Dress it down by having simply the fruit on a crisp bed of greens. Dress it up by topping with a scoop of colorful sherbet.

LYNN SAYS: Try New Food Combinations For Flavor Possibilities

Baked, smoked ham butts take on delicious flavor as well as glaze if you brush them with orange marmalade just before serving.

Don't bother icing cupcakes after they've cooled. Simply swirl them in corn syrup and top with chopped nuts or coconut.

When you're having hot soup for lunch, team it with a hearty salad and make the meal out of it. Macaroni with celery, cheese, hard-cooked eggs, green pepper, bacon curls, olives and banana strips rolled in chopped nuts makes a generous plate that takes care of main dish and dessert.

Golden Gate Salad Bowl

- (Serves 8)
- 1 clove garlic
 - 1 cup spinach leaves
 - 1 small head chicory
 - 1 small head lettuce
 - 1 cucumber, sliced
 - 1 head cauliflower, uncooked, broken into flowerets
 - 1 head watercress, separated
 - 10 radishes, sliced
 - 1 bunch parsley, chopped
 - 4 tomatoes, sliced
 - 1 green pepper, cut in rings
 - 2 carrots, shredded
 - 1 cup chopped celery
 - ¼ cup slivered onions

French dressing
Cut garlic clove and rub salad bowl with it. Wash all vegetables and dry thoroughly between towels. Tear spinach, chicory and lettuce leaves. Add remaining ingredients and toss together. Add enough dressing to coat vegetables but not to soak them. Serve from salad bowl.

New England Coleslaw

- (Serves 4-6)
- 3 cups finely shredded cabbage
 - ½ cup soured cream
 - 2 tablespoons vinegar
 - 2 tablespoons sugar

Mix vinegar and sugar with soured cream and add slowly, stirring constantly to shredded cabbage. Dust with paprika and serve from large bowl.

Southern Chicken Salad

- (Serves 8)
- 1 orange
 - 15 large grapes
 - 15 salted almonds
 - 1 banana
 - 1 apple, diced
 - 3 cups diced, cooked white meat of chicken
 - 1 cup mayonnaise
- Remove seeds and membrane from orange sections and cut in half. Cut grapes in half, removing seeds. Split almonds; slice banana. Mix all ingredients lightly but thoroughly. Serve chilled on lettuce.

Macaroni Salad

- (Serves 8)
- 2 cups cooked macaroni
 - 1 cup diced celery or cucumber
 - 1 cup diced American cheese, if desired
 - ¼ cup chopped pimiento
 - 2 diced, hard-cooked eggs
 - Salt and pepper to taste
 - Mayonnaise
 - Bacon curls
 - Banana strips with chopped nuts
 - Olives, carrot strips, radishes
- Mix together macaroni, celery, cheese and chopped pimiento. Add salt and pepper, then just enough mayonnaise to taste. Arrange on platter, and garnish with eggs, bacon curls, banana strips sprinkled with the chopped nuts, olives, carrot strips and radishes.

To extend quick-frozen strawberries for desserts, mix them with drained, crushed pineapple. The combination is exciting for quickly made jam, ice cream or pudding toppings and shortcake mixtures.

Meat loaf will be more interesting and colorful if you serve it with tart, bright red cranberry sauce, fresh or canned.

Sliced oranges with halved and seeded Tokay grapes are an excellent idea for a colorful, flavorful salad to serve with a heavy dinner.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its busy and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strains on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

There just can't be too much good eating in this world—which reminds us—it's Fresh Cranberry Time! Time for markets to pile the shiny red berries high in the windows, time for good cooks to keep brimful bowls of taste-tempting fresh cranberry sauce on the table—from now till January—time for us all to enjoy Cranberry Sauce with meat, fish, hash, salads, poultry—and perhaps especially—sandwiches!

10-MINUTE CRANBERRY SAUCE is so easy to make! All you do is boil 2 cups of sugar and 2 cups of water together for 5 minutes. Add 4 cups of Eatmor Cranberries. Boil without stirring until all the skins pop open—about 5 minutes or more. And don't forget—1 pound of cranberries makes 2½ pounds of cranberry sauce!

There's just no end to the ways to enjoy fresh Cranberry Sauce! Quick tarts: fill tart shells or hollowed-out cupcakes with prepared vanilla pudding. Chill. Before serving, top with drained fresh cranberry sauce. There's a dessert with a future! Surprise salad: Mold drained 10-Minute Sauce berries in orange-flavored gelatin dessert. Use leftover juice as cocktail appetizer—or thicken it (and thicken you!) use as a rich glaze for those tarts! Does a delicious new

sauce for ice cream get any takers? Don't all talk at once—just add ½ cup raisins to cranberry sauce, cook until thick. Then listen for the "oh's" and "ah's" when you pour it over your favorite flavor ice cream or pudding! If duck or pork is the order of the day, substitute part honey for part sugar in basic recipe—a meat garnish as sweet as a lullaby! But old friends are good friends, after all! Just remember to keep a big bowl of cranberry sauce right out in plain sight during the cranberry season—that's an old friend your family won't see enough of!

of course, it's electric!

Electric Cooking is **CLEAN**

Electric cooking is as clean as electric light. Kitchen walls and curtains stay clean and bright. Cooking utensils, too, stay bright and shining, since contact heat from electric range surface units never blackens the bottoms or sides of pots and pans. You'll like the spick, span and spotless kitchen you'll have when you cook electrically.

Your favorite electric appliance dealer or home furnishing store can show you the new model electric ranges with all the new features which make cooking easier and more economical.
