Geo. Mahon Seeks Re-election As Congressman

Announcement of his candidacy for re-election to the House of Representatives from the 19th District of Texas is being made formally through the press of the District by Congressman George Mahon.

Mahon has met filing requirements in all counties of the District. "It now appears," said Mahon, "that Congress will be in session up to and beyond July 22, the date of the Primary, and I will have very little opportunity to visit and campaign over the District. I thus am taking this method of again presenting my candidacy to the voters of the 19th District."

By virtue of his congressional tenure of the will of the voters, only 47 of the 435 members of the House are now senior to Mahon. By reason of congressional seniority procedure, this gives the 19th District a position of prestige possessed by relatively few areas in the country. Mahon ranks no. 3 on the powerful House Appropriations committee and is Chairman of the subcommittee handling appropriations for the Armed Services.

Said Mahon in his announcement: "As your representative in Washington, I have been confronted with many difficult problems, as has been the case with you folks at home. You have cooperated with me and placed your trust in me in matters of greatest importance."

We are now in a very dangerous and difficult time in the history of the nation and as the representative from the 19th District, I am seeking as best I can to measure up to the terrific responsibilities confronting our government."

Mahon said that he wanted to thank the people for the wonderful support they had given him through the years and that he would continue to do everything in his power to do a good job in Washington for the people of the 19th District.

At this time, in addition to his regular assignments, Mahon is aggressively seeking to prevent passage of a pending proposal which would shift a large portion of the West Texas cotton acreage allotment to Central and South Texas in 1951.

Earlier in the session Mahon secured approval by the House of the bill he handles which provides funds for the operation of the Army Navy, and Air Force. The Senate has not yet passed the measure and final agreement between the House and Senate cannot be secured until this is done.

Rites For Mrs Sudie Hester Read Here

Mrs Sudie Hester, 78 year old resident of here, died at her home at 7 a m Wednesday morning. Funeral services were held at 2 p. m. Friday at the Calvary Baptist Church here. Burial was in the Lamesa Cemetery. Rev. C C Turpin officiated. Mrs. Hester, native of Henderson was born February 12, 1872. She had lived here since 1912.

Surviving relatives include a daughter, Mrs. J W White of Torrance, Calif., five step children, Mrs. G D Owens and Mrs. W W Williams, of O'Donnell, W. L. Hester of El Paso, Mrs J E Stockton of San Diego, Calif., Ernest Hester of Lubbock, and Mrs Ola Swanson of Seagraves and three grandchildren; also 2 nieces, Mrs Z T Christian of Abilene and Miss Minnie Laurie of Dallas.

Palbearers were E H Smith, W. A Skinner, G L Isaacs, Ed Williams, Douglas Owens, and G D Owens. Honorary palbearers were Wylie Phillips, Clarence Brook, Harvey Line, Clarence Isaacs, Charley Cathey and Charley Wells.

Mrs. Hester had been a member of the Calvary Baptist church for 28 years; she was loved and admired by everyone in this area being one of our first pioneer settlers.

Our sympathy to the loved ones.

Mr and Mrs Junior Barnes and family and Mrs Clarence Daniel spent Sunday with relatives at Midland Sunday.

Mr and Mrs Wm Jackson are still in Dallas where their little son Rusty is waging a courageous fight to whip a blood affliction. Friends here are giving blood to the Lubbock blood bank for Rusty. Any blood type is o. k. for the bank. See J W Gardenhire for further details; O'Donnell is praying for Rusty that he might come home well.

Remote-Control Switch Convenient for Farmers

Farmers now can turn their farm yard light off and on from a half-dozen places with a new, remote-control multiple switch.

A farm electrification specialist explains that the heart of this new control is a magnetic relay which turns the light on or off from as many points as desired by means of push-button switches. It is the unit is very economical and easy to install.

Good Care Can Give Farm Tires More Wear Eight Ways Farmers Can Use to Keep Down Cost

Tire service experts say there are eight things the average farmer can do to get the best possible return on his \$200 or more investment in the tires on his vehicles. And coming just at the start of the planting season they serve as timely suggestions.

According to the B. F. Goodrich farm service department, farmers observing these tips will not only protect their tires and make them last longer, but will obtain maximum efficiency from their equipment:

1. Check air pressure twice a month, taking reading first thing in the morning when tires are cool. Never release air from tires

Regular examination of farm tires and prompt repairs to cuts, bruises or other damage may prevent most costly repairs. Gaywood Wagner, Freehold, N. J., is shown inspecting a sidewall cut in one of the multi-ring front tires on his tractor.

2. Do not permit grease or oil to remain on tires. This shortens the life of rubber. Wash off chemicals which accumulate after spraying with tractor.

3. When using liquid weight in rear tractor tires, do not fill tire more than three-quarters full of liquid. Maintain correct air pressure, because a slight leak under this condition will cause a much greater decrease in pressure than if the tire were 100 per cent air-filled.

4. When tractor is not in use for long periods, jack it up and cover it. Inflate tires to recommended pressure before putting tractor back in service.

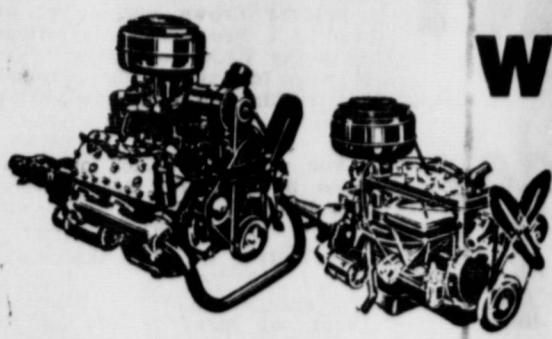

5. Always use valve caps to keep out dirt and moisture and to prevent possible trouble from leaky valves.

6. Examine tires regularly for signs of damage and remove stones and other foreign objects from treads. Have cuts, bruises or other tire damage repaired as soon as they are discovered.

7. Choose correct size when purchasing tires, keeping in mind the load they must carry and the particular job for which the tractor is used.

8. Drive carefully at all times—especially on the highway—to obtain longer life from tires and to extend your own.
