

The O'Donnell Index

VOLUME 3.

O'DONNELL, LYNN COUNTY, TEXAS, JUNE 12, 1926.

NUMBER 39.

Band Parades in New Uniforms

The O'Donnell band made its first appearance Wednesday evening in its new uniforms, and all is now in readiness for the trip to the meeting of the West Texas Chamber of Commerce at Amarillo which convenes next Monday. The uniforms consist of caps of green lined with red and trousers to match with red stripes down the side. The caps are green with red bands. The boys made a metropolitan appearance as they marched down the street in perfect step playing a lively march, and every citizen who witnessed the scene felt that they were repaid for the money expended on the boys during the past year. After the band had paraded Doak Street, a concert was given.

The band will enter the contest with first year bands at Amarillo and it is expected by those competent to judge, it will bring home the bacon in the form of the first prize. The big bass horn recently added to the instrumentation, in the hands of Herbert McBride, is proving a great help in giving volume to the music. Herbert is now tooting it like an old-timer.

It is planned for the band and those escorting it to leave here Sunday afternoon in cars and will spend the night at Tullia. The follow up delegation will leave early Monday morning, arriving in time to join the first demonstration to be given by O'Donnell.

Presbyterian Missionary Society Meets

The Presbyterian Missionary Society met with Mrs. A. H. Koeniger at the home of Mrs. Smith Monday afternoon at 4 o'clock. There were fourteen present including three new members. The meeting was opened with the Devotional Service by Mrs. Ben T. Brown, followed by songs and a prayer. We began the study of our new book, "From Over the Border." After the lesson we discussed plans for a public program on Siam to be given soon which will complete our study of Siam. The next meeting will be at the home of Mrs. J. W. Parker.

Mr. and Mrs. J. D. Lile and children went over to Christoval last week where they went into camp for the summer. Mr. Lile returned Tuesday but intends to return Saturday to spend some days. Look out for a big fish story when he returns.

Joe James Loses Leg in Accident

While driving a Ford touring car two miles north of White Deer Sunday night at about 9 o'clock, Joe James collided with a truck loaded with oil well casing, with the result that his leg was practically severed below the knee and his chest and head badly bruised. As soon as the driver of the truck discovered that Mr. James was injured, he ran to White Deer, secured a car and rushed him to a hospital at Pampa. Examination at the hospital showed that the leg was being held together only by a small shred of flesh and Mr. James was very weak from loss of blood. After the wound had been dressed he was taken to Harvey Everett's rooming house where he is rapidly gaining strength and if no complications set up he will be able to return home in about thirty days.

According to Mr. James the accident occurred on a dump in a lake where the road is very narrow. He had just turned out to let a car pass which had raised quite a dust and did not realize that the approaching truck was so near until the protruding casing from the front struck his car. The force of the impact drove the casing through the radiator, tore the engine loose from the frame, severed his leg and pierced the gas tank, the car being a total loss.

Joe James is the son of Mr. and Mrs. W. W. James who live on one of Hal Singleton's farms near Newmoore, and is a brother to Ed James, who has been conducting a drayage business in O'Donnell for the past year. The family left here Monday morning at 3 o'clock to attend the injured son and brother and arrived at Pampa at 1 o'clock. He has been employed in the oil fields for the past several weeks and at the time of the accident had been out to a farm nine miles from White Deer to take a young lady to her home.

Two men occupied the truck at the time of the accident, but neither were injured.

Drs. Head, Collins and Waller made a business trip to Borger Monday, returning Wednesday. They arrived at the oil town in time to witness the destruction of several brick buildings by fire.

The Young Peoples Missionary Society began work Monday afternoon on a box of supplies for the Virginia K. Johnson home. Much interest and pleasure was manifested by each member present. The young people plan to make this box one of the big things of the year's work.

Adult Troops Meet At Park

The Boy Scouts of the Southplains Area have a gift worth while in the camp park recently donated by the C. W. Post estate. This was unanimously attested by Scout officials, Palmer, Harkey and Klapp of Lubbock, and members of the adult troops of O'Donnell, Tahoka and Lamesa Tuesday afternoon when they gathered at the famous old Curry Comb ranch headquarters which is included in the gift, for the first meeting to be held on the grounds.

The party assembled at the headquarters and after being shown the old buildings, the dam site and spring, the members were taken for a trip of inspection over the grounds the deed for which calls for 420 acres, but according to Camp Commissioner Klapp, there are more than a thousand acres in the tract if the deep gorges and canyons were measured. In going over the ground one is transported from the broad expanse of the Plains to a country of mountains where deep gorges are cut into their very bosoms by the erosion of wind and water over the millions of years. The canyons are covered with many varieties of growth, including stately cottonwood, hackberry, mulberry and cedar. This makes a regular refuge for birds and Mr. Klapp states that he has found more than thirty varieties and believes that he can find at least twenty more. It is planned to fence the park and make it a veritable zoological garden.

Workmen are now busy demolishing the old barn and shed and will use the material in constructing a bunk house for the boys when they come to camp. The main ranch house is a two-story affair and is being left in the original as near as possible. Repairs are being made both in the interior and exterior. It is planned to use the upper story for an emergency hospital, the lower floor for a mess hall and offices. The old bunk house is being repaired and will house the collection of curios to be gathered by the boys and serve as a museum to perpetuate the history of this section.

A dam across the canyon is being constructed and it is hoped to have it filled with water before the Scout Encampment in August. The lake will be nearly twenty feet in depth when it is filled.

After the troops had tired of tramping the park site, they were taken to Two-Draw Lake at Post and a swimming contest held. Each member was as anxious to be the first in as any bunch of boys ever to congregate at the old swimmin' hole. At six o'clock they were back at the park and under Scout Executive Palmer, Harkey and Klapp, they were given their first real tests in scouting. Each town was divided into squads and placed where pits had been dug for the making of fires preparatory to cooking a real camp supper.

Tests were given in the fire making and when the cooking of the fat steaks and mulligan on kibobs had been completed another inspection was given. The afternoon's work had put everyone in fine appetite for the meal that followed. After the meal, contests were held between the troops from the towns represented, and the big brothers went into play with the same enthusiasm as when boys.

At the final summing up of points made, it was found that O'Donnell had twenty-eight points to her credit, Lamesa twenty-seven and Tahoka a close third with twenty-five points. The scouts reluctantly left the park at 11 o'clock, each feeling that an afternoon had been well spent and with a vow to continue to pro-

Sky Juice Covers Large Territory

Just at the time when moisture was being needed to keep crops on the jump; good old sky juice began to fall Thursday afternoon. While the precipitation was light in O'Donnell, yet the country to the west, northwest and north received up to as much as five inches. In places the rain was accompanied by some hail and high winds, but the damaged area is small and with the ground soaked there is plenty of time to replant and make a crop. Wells community received two and a half in. Newmoore a big rain, T-Bar its usual flood of five inches and Joe Bailey a good rain.

To the southwest in the Grandview neighborhood the wind was heavy and blew down the frame work of the school building under construction by Lawler & Baile. To the east in the Berry Flat community the rain was good, about half an inch being reported.

The O'Donnell country is in line for the best crop in the history of the country and great prosperity is in sight for everyone.

Quite a number of citizens went over to Midland Thursday to hear James Ferguson speak.

Foundation for School Building Being Laid

The trenches for the foundation for the new High School building are being excavated this week, and three cars of brick have been laid on the ground. The laying of brick will start next week. About fifteen men are employed on the work this week but the number will be increased as soon as the preliminary foundation work is completed.

J. D. McElhanon came in last Friday to renew acquaintance with his wife and little daughter. He has opened an army store in the boom off town and says he is doing a fine business. He returned to Borger Monday.

mote scouting.

The total attendance at this meeting was 56 men of which O'Donnell furnished seventeen, as follows: J. Mack Noble, Jr., T. J. Kellis, George Foster, C. Millsap, Wade Christopher O. D. Howard, J. P. Bowlin, Hugh Thomas, Malvin Brown, Ben S. Coin, J. G. McCarroll, Mr. Shaw, Rev. J. Wood Parker, George Shumake, J. D. Fairley and Jake Ellis.

Index Purchases New Machinery

The continued growth of the Index has made the equipment of the plant too meagre to turn out with dispatch the volume of work being accorded. During the first six months of the paper's existence it was printed on a small hand press. The subscription list grew until a power-driven Campbell cylinder press was installed. At this time it was thought that this addition would suffice for years, but the circulation and advertising patronage has grown to the extent that another large and swifter press is a necessity. This week Editor J. W. Roberts and Foreman Albert Curry made a trip to Cisco where they inspected and purchased a larger and swifter press that will undoubtedly take care of the business for some time to come. In addition to the press, a newspaper folder was purchased, both of which will be installed within the next few weeks.

The equipment of the Index was a little behind the town during its first two years of its existence, but now with a specially designed building to house machinery, it means to keep a few jumps ahead of the town's growth. The Index is your paper, the more you patronize it, the better the paper will be. We want O'Donnell to be the best town on the South Plains and we aim to make the Index second to none.

The job printing department is being added to with new faces of type and machinery and we want you to know that if it can be printed anywhere, the Index can do it.

Niagra Falls Depicted in Chevrolet Sign

The O'Donnell Chevrolet Company believes in advertising and never lets an opportunity pass to push the sale of the Chevrolet products. This week the manager, J. D. Lile, installed a replica in colors and scenic effect, the Niagra Falls, in the show window, at the bottom of which the word "Power" is alternately brought out. One can see the water as it goes over the great drop, even the mist seems to appear at the bottom when the water hits the channel. The effect produced by the light from 600 watt lamps in a painted celluloid cylinder which revolves from the heat passing through it, much as a windmill is propelled. The sign is attracting a great deal of attention.

Effective But Simple Dishes Now In Vogue

Something simple yet effective is the housewife's ideal for week-end dishes.

During the warm summer weather, women should not be compelled to spend hours in the preparation of meals, when minutes would accomplish the same purpose. Planning week-end menus should be a congenial task, not a bore. At this time of the year there are a variety of nutritious vegetables and fruits to choose from in preparing meals and the modern house manager takes advantage of them. The housewife plans her summer menus so that they will suggest coolness, while at the same time taking into consideration their dietary value. A delicious cream soup made from fresh vegetables, or an omelet, a fresh fruit dessert, or a custard, a dish of ice cream, or a pudding, are nourishing items that should find high favor in the week-end menu.

The home manager enjoys her week-ends 100 per cent more when she has a few moments of leisure. And in this connection the following recipes may prove an aid.

Creamy Salad Dressing.

2 cup boiled or mayonnaise dressing
 1/2 cup evaporated milk
 1 tbsp. sugar
 1/2 cup evaporated fruit juice
 Combine evaporated milk and cream, chill and whip. Add sugar and juice, then fold into salad dressing. Especially nice for fruit salads.

Chocolate Velvet Cream.

1/2 tsp. gelatin
 1/2 cup cold water
 2 eggs, beaten
 1/2 cup sugar
 2 squares (oz.) chocolate
 1/2 cup evaporated milk diluted with water
 1/2 cup water
 1 tsp. butter
 1/2 tsp. salt
 1 tsp. flavoring
 1/2 cup evaporated milk combined with
 1/2 cup whipping cream, chilled and whipped
 Soak gelatin in water five minutes. Mix beaten egg yolks and sugar, pour heated, diluted milk over slowly, put in double boiler with gelatin, butter and salt. Cook until the mixture thickens. This takes about 15 minutes. Strain, beat 2 minutes, let cool. Melt the chocolate over hot water, let cool a little, then add the chocolate and vanilla to the mixture after it has cooled. Fold in the stiff egg whites, then the whipped cream. Turn into a mold and chill at least 3 hours. It may be chilled in individual dessert glasses.

Simple Mixture Makes Stomach Feel Fine

Simple buckthorn bark, glycerine, etc., as mixed in Adlerika, often helps stomach trouble in TEN minutes by removing GAS. Brings out a surprising amount of old waste matter you never thought was in your system. Stops that full, bloated feeling and makes you happy and cheerful. Excellent for chronic constipation. Adlerika works QUICK and delightfully easy. Haney Drug Company.

AN ODE TO TIGHTVILLE

Tightville was a little old town, Out at the heels and much run down, For Tightville was afraid to spend, Afraid to give, afraid to lend. Playing safe was Tightville's game, And playing safe the town went lame;

Each dollar that it tried to save, Drew it nearer to the grave. Nobody sold for nobody bought, Teachers cost money so nobody taught;

The people died from typhoid chills, For none could stand pure water bills.

The undertaker alone grew fat, And his job came to an end at that; For no new folks came to Tightville town,

Out at the heels and much run down, But the banks played Tightville a little joke,

Since nothing was doing, they all went broke.

And the money the people had saved with care,

Melted away into thinnest air; So Tightville, bereft of all of its pelf, Slowly and solemnly buried itself.

EPITAPH

Here lies a town, if anyone axes, Died from fear of paying taxes. —Exchange

After spending a week with the home folks, Misses Lois Pugh and Odessa Henderson left for Abilene Thursday where they will continue their studies during the summer at Draughon's Business College.

Funds Being Raised to Open Road to Fairview Community

S. T. Jeffries and C. A. Miller have been soliciting funds this week to be used for opening a road from the Fairview community to O'Donnell. They state that Dawson county will contribute half the funds for this purpose if the business men of O'Donnell will pay the other half. The proposed road will add about 3,000 acres of fine trade territory to O'Donnell and this is a prize worth working for. Heretofore the trade from the Fairview community has been going to Lamesa, but the opening of the road will save long haul and will be of great benefit to both the farmers and the business men of O'Donnell.

Both Miller and Jeffries are boosters for O'Donnell and they never let a chance slip for doing something for the good of the town.

Mr. and Mrs. C. H. Doak and Mr. and Mrs. Morris Sanderson are somewhere on the Pecos river where fishing is good. They will be away about a week.

C. C. Jones and family spent part of last week at the Renderbrook ranch in Mitchell county where his brother, O. F. Jones, is manager.

Weldon Smith of Lamesa was here Tuesday on business.

LINCOLN — FORD — FORDSON

**Mosquitoes May Be-
come a Nuisance**

With the lakes full of water many mosquitoes are breeding and are

likely to become a nuisance unless a fight is made on them. A good plan to destroy the breeding place of a mosquito is to take an old sack and fill it with rags or waste cotton soaked in oil and cast in the lake or mud-

hole. The oil will spread to the surface of the water and destroy the mosquito in its embryo stage.

J. W. Brinson left Thursady of last week for Abilene. He expects

to complete his course on cotton classing in a few weeks and will buy cotton during the season in South Texas.

That cotton and feedstuffs are

100 per cent to the good is the statement of all the farmers in the O'Donnell country. Prospects were never brighter for a bumper crop and great prosperity is in sight for this section of the Southplains.

NO-NOX

MOTOR FUEL

STOPS KNOCKS

*Turns Mountains
into Mole hills*

FOR many years mechanical engineers struggled to build automobile engines of higher compression. As compression is increased the power line goes up and the fuel consumption line goes down—ordinary gasolines would not withstand this higher compression without knocks, clicks, or detonations—accumulated carbon deposits increased this compression by decreasing the size of the combustion chamber—and the audible sounds of the engine distress grew louder.

It has been our good fortune to produce a gasoline that positively eliminates clicks, pings, and knocks.

Gulf No-Nox and Carbon are Power Twins

GULF *No-Nox Motor Fuel* withstands compression to a high degree; carbon, increasing the compression of the engine, ceases to be a nightmare as long as it does not interfere with valve action. In other words, it puts carbon to work. More power and greater efficiency is thereby accomplished, resulting in greater mileage.

With GULF *No-Nox Motor Fuel* in your tank—step on it—you will get the story better than we can tell it.

This Guarantee goes with it

GULF *No-Nox Motor Fuel* is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—that it positively will not heat the motor summer or winter.

GULF *No-Nox Motor Fuel* is priced three cents per gallon higher than ordinary gasoline—and is worth it.

Mr. and Mrs. B. Y. Boyd and Mr. and Mrs. D. A. Baggett have been spending the past week in El Paso, taking side trips to points of interest thereabouts. Judging from the cards received from them they have spent much of the time in Juarez studying the habits of the people who live in the land of hot tamales, frijollies and carta blanca.

Mrs. J. B. Miles returned Tuesday from Temple and Fort Worth.

Frost Car Turned Over Saturday

The car in which the family of Clyde Frost were returning from Lubbock Saturday afternoon went into a ditch and turned over. The son, Robert Clyde, received a cut on the leg which required ten stitches to close the wound. Other members received a severe shaking up but no permanent injuries. Passers by righted the car and Mrs. Frost drove to Tahoka where they received treatment. Mrs. Frost was driving the car and while looking back to give some instructions to the children on the rear seat, the car suddenly swerved into the barpit.

Palmer Has 100 Per Cent Cotton Crop

If you want to see a 660-acre field of cotton 100 per cent to the good, go out and take a look at W. L. Palmer's little patch. Mr. Palmer had his land prepared for planting when time come and he got a fine stand and it has such fine start, that only something out of the ordinary can keep the field from producing a good yield of the fleecy staple. The plant is now filling with squares, the ground had plenty of moisture and the crop being free from weeds, the field is good for a heavy production if no more rain falls.

Mr. Palmer is using gas power altogether on his farm. Last winter he sold his 22 head of fine mules and with this machinery he prepared the land, planted it and is cultivating it without a horse or mule. He estimates that he is saving at least \$5 a day by using gas power, besides doing away with the services of two men. He can run the machines night and day if necessary and each can go over fifty acres of ground.

It is well worth anyone's time to go out and see what Mr. Palmer is accomplishing on his farm by using improved methods and doing his joy-riding on these machines instead of in his itney.

Little Lena May Singleton fell on a piece of glass Monday and severely cut her hand. It required four stitches to close the wound.

Miss Fannie Newsome came in from Ore City Tuesday and will spend the summer the guest of her sister, Mrs. William Childers and Miss Drucilla Newsome.

MALE HELP WANTED—Man with car to drive country. No experience necessary. Special training given free. Good pay—\$40.00 to \$90.00 a week—for steady work. Write today. Box 1632, Dept. E., Philadelphia, Pa. 3tc.

A. C. Wilson Dies At Family Home Thursday

A. C. Wilson, aged 61 years, died at the family home east of town Thursday of last week and was buried at the O'Donnell Cemetery the following day. Mr. Wilson leaves a wife and two sons, Ralph and Shirley to mourn his passing.

Mr. Wilson had been confined to his bed for several years suffering with partial paralysis. He was one of the pioneer settlers of this section and during his active life took an active interest in building up the country. His family has the sympathy of the entire community in their hour of sorrow.

Mr. and Mrs. T. A. Carlisle came over from Blackwell Wednesday and are the guests of Mr. and Mrs. W. E. Dickinson. Mr. Carlisle can see great prosperity ahead for the O'Donnell country and expressed himself as being glad that he has an established business here. In company with Mr. Dickinson he went over to Brownfield and Morton Thursday.

CHURCH OF CHRIST REVIVAL BEGIN FRIDAY NIGHT, JULY 2

Rev. W. A. Kercheville, local pastor of the Church of Christ, announces he will begin a revival meeting for his church on Friday night before the first Sunday in July.

The local pastor expects to do the preaching, but states that some good choirster from out of town will have charge of the singing.

A tabernacle will be built on the lots back of Foster's Filling Station. They are hoping for a great spiritual uplift.

The general public is invited to attend. See their ad on last page of this paper.

Mrs. B. F. Wilhite chaperoned a party of young folks on a picnicing and swimming party Tuesday night.

Miss Leta Rodgers left Tuesday morning for Los Angeles, Calif., where she will spend the summer with her brother, L. P. Rodgers and family.

After spending a week the guest of her parents, Mr. and Mrs. W. R. Sanderson, and sister, Mrs. Carl Cox has returned to her home at Portales N. M.

Missionary Society Arrange Program

Members of the Woman's Missionary Society are exceedingly happy over the return of their bible teacher Mrs. Randall. She is indeed a faithful and loyal worker, and she declares that her best work will be on the new subject, "Life as a Stewardship." This study will begin next Monday at 4 o'clock at the Methodist church with Mrs. Randall in charge.

This book does not deal in a vague way with an abstract subject, it is a thoughtful presentation of the everyday christian duty of each of us. An interesting program has been arranged, as follows:

Hymn, "I'll Do What You Want Me to Do."

Roll Call—Answer with Scripture.

Prayer—Mrs. W. B. Hicks.

Reading—Mrs. Carl Carlton.

Solo—"His Eyes on the Sparrow" by Mrs. J. W. Campbell.

Bible Lesson—Mrs. Randall.

Business session.

In view of the excellent program, we expect at least forty ladies present. Will you be one of them.

Reporter.

Women And Girls Contest

On June 23, the Women's Biscuit Contest will be held in the Domestic Science laboratory at the high school building in Tahoka.

At 2:00 o'clock in the afternoon the Women's and Girl's Clothing Review will be held at the Baptist church.

Women and girls must be there to wear house dresses, school dresses, party dresses, bungalow aprons, uniform caps and aprons, and club cook aprons. Other sewing completed by girls will be on exhibit.

Midway, Draw-Redwine, Gordon, New Home, Wilson and Wells will send biscuits (each woman sends 6 baking powder biscuits and 6 sour milk biscuits) to my office on Saturday, June 19, for the Elimination Contest. Then on June 23, the one woman in each Club who made the best score in the Elimination Contest will compete for the Kiwanis short course scholarship.

Things to Remember:

Biscuit Contest.

1. Every Club member in the county is eligible to enter these contests.

2. In the Biscuit Contest, an Elimination Contest must be held before June 23.

3. If for any reason the women winning first in the Elimination Contest cannot be in the final or county contest, the Club is urged to send its second place winner.

4. Only 13 women from 13 Clubs can make biscuits at the high school building on June 23.

5. Each woman will bring all the materials required to make the two kinds of biscuits. Be sure to bring enough of each thing.

6. Biscuit Contestants should bring lunch.

7. Each contestant must have her recipes memorized, as none can be referred to in the contest.

8. Full instructions may be had from your Club President; get them now.

House Dress Contest

9. In the House Dress Contest no elimination contest will be held.

10. All dresses intended to compete for the Kiwanis scholarship should be in the Home Demonstration Agent's office before Monday, June 21. That means get them here this week.

11. Every woman who made a Club cook apron, or can make one by June 23, is requested to be here

with it June 23.

12. Girls school outfits, party outfits and bungalow aprons should be in Home Demonstration Agent's office before Monday, June 21, which means send them this week, please.

13. All other sewing completed by girls is to be brought in by the morning of the 23, and will be on exhibit at the Baptist Church.

14. We expect Mrs. Dora R. Barnes, our State Clothing Specialist to be here. She will have something important to say to all of us, so come and bring your neighbor.

Yours sincerely,

Millie M. Halsey, C. H. D. Agent.

1ST AMERICAN YOUTH ENTRY

Edith May Adams, eighteen-year-old Barrington, N. J., girl, presenting her entry blank to Mayor Kendrick in his office at City Hall, Philadelphia. The American Youth and Teacher Award was established as a tribute to American youth and teachers by the Board of Directors of the Sesqui-Centennial International Exposition, through which the people of the United States and the world at large will celebrate the 150th anniversary of the Declaration of American Independence. The exposition will run from June 1 to December 1. Miss Adams' entry blank cited her for heroism displayed recently when she remained inside a burning building helping doctors render first aid to injured firemen. She is a candidate for the Golden Eaglette, the highest gift within the hands of the Girl Scouts. Each state will elect a girl and boy and one teacher to represent them and the successful candidates will be the guest of the Sesqui officials from June 23 to July 5 at the exposition. This will also include a trip to Washington where they will be received by President Coolidge and presented with medals.

THE THURSDAY CLUB

Since our last report to the paper the T. A. M.'s have spent several delightful afternoons with different hostesses. On May 13, we enjoyed a social with Mrs. J. Burdett, when 18 were present. On May 27, we were received by Mrs. W. E. Dickinson as hostess. Twenty-two enjoyed the game of forty-two and the cooling refreshments of sandwiches and ice tea. On June 9, Mrs. French entertained us with forty-two. A delicious plate of refreshments carrying out the yellow and white color scheme was served to the following: Mesdames J. W. Campbell, Phillips, L. Koeniger, J. Musick, W. McCarroll, B. Bailey, W. McLaurin, E. Stark, J. W. Roberts, J. P. Bowlin, G. Bradley, L. Busby, V. E. Bonham, J. Burdett, W. E. Dickinson, M. Garner, H. E. Gillespie, C. C. Jones, M. Rodgers, E. Scrimshire, J. Sanders.

All kinds of plants for sale at T. C. Leedy's at Tahoka. Sweet potatoes 50c per hundred, cabbages and tomatoes 35c per hundred, by the thousand 25c, peppers 25c per dozen. T. C. Leedy.

LIST YOUR LANDS

If you want to sell your farm or residence, list with the Frost Land Company. We are in touch with buyers all over the country.

We do the best Kodak finishing on South Plains. Mail your Kodak films to the studio which is in your own county. Special attention is given to the work sent from O'Donnell. Twelve hour service. One enlargement is given FREE with all Kodak orders amounting to a dollar or over if sent direct to us at one time. KREGG'S ART STUDIO, Tahoka, Texas. "A studio in Lynn County for Lynn County Citizens."

STAR PARASITE REMOVER
A GREAT POULTRY REMEDY
Given fowls in drinking water or mixed in feed thoroughly rids them of all blood-sucking lice, all mites, fleas and blue bugs, destroys in them all intestinal worms and parasites. Its formula is sulphur and other ingredients known remedies for improving the appetite, purifying the blood, toning the system and preventing disease. Better prevent than try to cure. Contains no alcohol or poison. Can be given to all ages of chicks, old fowls and turkeys, any kind of weather with good results. Its cost is very small—a one dollar bottle will last 100 fowls more than 120 days. The manufacturers are anxious for all poultry raisers to try it 60 days at their risk on the following conditions: After using 60 days if your flock has not improved in health, produced more eggs—eggs that hatch stronger and thriffter young chicks—come back to your dealer—he is authorized to refund your money.

SANDERSON'S SERVICE STATION

**First 24 Hours of Life
Baby's Hardest Time**

By MARIE K. JOHNSON

Undernourishment is one of the most common of the causes of infant mortality, according to a survey recently undertaken in Chicago. Statistics show that of 4,522 babies under one year of age that died in 12 months, 988 died in the first 24 hours.

Eight hundred and seventy-six died in the first six days, exclusive of the first 24 hours, and 1,708 died from the seventh day to the sixth month. Eight hundred and sixty died in the last six months of the year. The survey indicated that a surprisingly large number of infants are artificially fed which condition, doctors agree, had a marked bearing on their undernourished conditions. Naturally, no one food may prove satisfactory in every case, although the survey showed that evaporated milk in many cases had proved an excellent substitute for mother's milk. This may be explained by reason of the fact that evaporated milk is simply pure, concentrated cow's milk from which 60 per cent of the water has been removed. It contains practically every element necessary for good health and is consequently an excellent builder of bone and tissue.

Although authorities on health recommend evaporated milk as a baby food, like other substitutes for the natural supply, it should not be considered as a food complete in itself. Addition of orange or tomato juice, barley water or lime water is important in providing adequate diet for the infant.

For babies, milk of dependable purity is essential. Market milk will not keep for any length of time and is also liable to contamination, especially in hot weather, while evaporated milk, hermetically sealed in sterilized containers, remains as fresh and pure as on the day it was canned.

Sterility in evaporated milk, authorities agree, is one of the most important points in its favor. In processing, evaporated milk is subjected to 240 degrees heat for a half hour, thereby removing all possibility of bacterial life being present in the milk. Heat is the only preservative for this type of milk and the heat has the further beneficial effect of making the curds of milk more flocculent and easier to digest.

We represent the best loan companies to be found. If you need a loan on your farm, come in and let's talk it over. O'Donnell Land Co.

Marie K. Johnson

**Club Holds Special
Meeting Friday**

A special meeting of the members of the Lucky Thirteen Club was held at the home of Mrs. Culver Hart Friday afternoon. A surprise party was given those in attendance when the president, Mrs. Harvey Everett, announced that she was going to Amarillo to reside and tendered her resignation. Each member expressed their sincere appreciation of Mrs. Everett's work in helping to make the club serve the purpose for which it was intended and extended their retiring president a linen lunch set in appreciation of her services.

Mrs. Everett has served as president of the club since its organization more than two years ago.

O'DONNELL COMMUNITY CLUB

Under the direction of Miss M. Halsey, the C. H. D. A., the O'Donnell Community Club met at the home of Mrs. J. W. Gates on Tuesday, June 15.

Twenty-four members and guests enjoyed the talk on "Salads and their Place in our Diet," and the actual demonstration of making and then eating the numerous kinds that were made.

We invite all ladies to join us in these interesting meetings. Surely you can obtain some good out of some of the demonstrations.

We pay ten cents a month to cover cost of materials used—otherwise all it will cost you is your presence each meeting. Next month, the third Tuesday, we will have a demonstration on "Frozen Desserts," so come and bring your dime.

Messrs J. H. Ellis and Bob Thurman spent Wednesday in Lubbock on business.

**REV. KERCHEVILLE CLOSES
REVIVAL AT BLEDSOE**

Rev. W. A. Kercheville, local pastor of the Church of Christ, returned Monday evening from Bledsoe where he has been holding a revival meeting. Rev. Kercheville reports a very successful meeting, there being 13 additions to the church.

CARD OF THANKS

We take this means of expressing our appreciation to the good people of O'Donnell for the many kind deeds shown us during the illness and death of our dear husband and father. Our neighbors were so kind and thoughtful, we cannot find words to express our sincere appreciation. May God's richest blessings rest upon each of you is our prayer.

O'Donnell Chevrolet Co.
For Economical Transportation

The O'Donnell Camp Modern Woodmen wielded a fast axe in a ball game with the Brownfield tribe Tuesday afternoon and lopped the heads off the visitors so fast that they finally ran themselves down and quit when the score stood around 37 to 18. Those who witnessed the game say it was full of action, most of which centered around the water barrel.

After the game a banquet was given the visitors at the Woodmen hall on Baldrige street.

Mr. and Mrs. Alfred Windham of Amarillo, are spending a few weeks here visiting friends and relatives. They are the guests this week of Mr. and Mrs. John Coff at Tredway.

E. M. Wilder arrived Saturday from Jefferson with Mrs. Wilder and daughter, Miss Mary, and son, Eugene. They have secured quarters in the Hal Singleton, Jr. home and will make their headquarters here during the summer while seeing the Plains country.

Mr. and Mrs. Ross Stark are spending a two weeks vacation in Colorado. A message received from them this week stated they were having a splendid time.

Mrs. Quincy Haney and little daughter June, who have been visiting Mrs. Haney's parents at Lubbock returned home Monday.

Mrs. Oscar Roberts of Tahoka, and Mrs. Winfield Gallager of Broger, spent Tuesday the guests of Mrs. E. T. Wells.

Mr. and Mrs. Bell Burleson returned Thursday from a week's visit at Tatum, New Mexico.

Mr. and Mrs. H. C. Hunt are spending a few weeks in Hill county visiting relatives and friends.

Rev. and Mrs. Fred S. Rodgers of Lamesa were the guests of Rev. and Mrs. J. Wood Parker Wednesday.

Since Mrs. Harvey Everett is leaving for Panhandle, Mrs. J. R. Bowlin will take charge of the Junior Missionary Society.

Mrs. Everett has been an energetic and faithful superintendent and we regret her loss, even though we expect fully as much of Mrs. Bowlin.

Miss Emma Waller, accompanied by her cousin, Miss Billie Waller, returned from Fort Worth and Dallas last Friday. The young ladies will spend the summer here.

FOR RENT—Four-room cottage, close in, wired and screened. See L. L. Busby, O'Donnell, or Emmett Busby, Lamesa. 2t.

Scrimshire Believes In Modern Methods

E. S. Scrimshire is a believer in things progressive. When West Texas Electric Company sent its juice over the wires to O'Donnell, he purchased a fine electric range for his wife. When radios were a proven success, he installed one in his home. The other morning his better half asked him what he would like to have for his noon lunch. "That is what we have the radio for," said Mr. Scrimshire. "We will make a copy of the menu being sent out by the broadcasting station and your troubles will be ended." Tuning in, it seems that he got two stations, one giving out a menu and the other a setting up exercise for the day; and this is what he handed his wife to prepare for the noon meal:

"Hands on hips. Place one cup of flour on shoulders. Raise knee, depress toes and wash thoroughly in one cup of milk. In four counts raise and lower left foot and mash two hard boiled eggs through sieve; repeat six to ten times. Inhale one half teaspoonful of salt, breathing naturally, exhale and sift. Jump to a squatting position, bend white of egg backward and forward in evidence of quick time. Twist sideways, right or left as far as possible; bring fists together forcibly and beat eggs slowly and briskly. Arms forward overhead. Raise cooked eggs from the flour and in four counts make a stiff drop dough which is stretched at the waist, thigh flexed. Lay flat on the floor and roll marbles the size of a walnut. Hop to straddle in boiling salt water but do not boil at a gallop. After ten minutes remove and wipe with rough towel. Breathe naturally, dress in warm flannels and serve with fish soup."

J. H. Hardberger returned Sunday from a trip to Paducah and Panhandle, where he has been on business. Mr. Hardberger says conditions are looking pretty good in that section of the country, but not as good as the O'Donnell territory.

Firemen Return From Convention

Grady Gantt, Cecil Hubbard and Lee Christopher returned Tuesday from Harlingen where they had been to attend the annual convention of firemen. The boys report that they made a bad start, having been delayed in Sweetwater thirty-six hours on account of slow trains, but when they finally got through, they made up for the lost time by doubly celebrating—and their facial appearance show that they did, each being blistered from bathing in the surf.

Harlingen treated the visiting firemen in grand style. They were not only given the freedom of the city, but were taken on side trips through the Rio Grande Valley, to Brownville, Point Isabel and across into Mexico. The boys made a pull to have the next firemen's convention pulled off in O'Donnell, but San Antonio put up too strong a fight and won it.

Baptist Revival Will Begin First Sunday In July

Pastor W. K. Horn gives out the information that a revival will be held at the First Baptist church in July, beginning the first Sunday in the month. The services of Evangelist John Winsett have been secured to do the preaching. The Baptist plan to have a large tent to accommodate the crowds that are expected to attend. A cordial invitation is extended everyone to cooperate and help make the meeting a success.

J. P. Minton and family were called to Peacock last week on account of the illness of Mr. Minton's father. They returned Tuesday and stated that the elder Minton was improving.

Little Jim Ellen Wells is home after a visit of three weeks with her grandparents, Mr. and Mrs. J. S. Wells at Tahoka.

Wedding

Just time is the time for wedding bells and the first sound of nuptials came from the Baptist parsonage last Saturday night when pastor Horn united Miss Myrtle Phipps and Felix Jones in the holy bonds of matrimony. Both the contracting parties live in the Wells community where they are well known. They have the best wishes of everyone for a long and happy life.

Earl Hunt arrived last week from Aquila to spend the summer here the guest of his brothers, George and H. C. Hunt. Mr. Hunt is a teacher and may teacher in Lynn county this fall.

J. Lee Garner returned Saturday night from Quanah where he has been on business. Mr. Garner says crops are better in the O'Donnell territory than any he saw on his entire trip.

Announcement

We wish to announce to the public that we have purchased the stock of Sikes Grocery and will continue to serve the public at the old stand,— striving at all times to render the best service possible, assuring you the best in Merchandise which will always be kept fresh and sanitary.

We are strangers to the people of O'Donnell and surrounding territory, but ask the public to pay us a visit that we may become acquainted which will enable us to serve you better.

Our display of good things to eat will suggest so many timely and appetizing items for your table that you will be more than glad you came.

The Nyal Store

America Leads Nations In Use Of Ice Cream

If any one food may be considered as America's national dish, it is ice cream.

Ice cream is a food particularly adapted to the needs of individuals of all ages, giving as it does the best type of nutrients for the repair of bone, teeth, blood and muscles and for energy.

Today thousands of housewives make their own ice cream. As a consequence, the making of this highly nutritious food at a reduced cost, yet without in any way impairing the product, is of importance.

Home economists have found a means to this end in the use of evaporated milk. There are three important reasons why evaporated milk

makes the best ice cream, they point out. Because 60 per cent of the natural water in evaporated milk has been removed by evaporation, there is over twice the percentage of solids present in this type of milk than there is in ordinary market milk—and, since it is the solids that give ice cream its pleasing flavor, this fact is of moment.

Then, the composition of evaporated milk is constant, for the reason that it has been put through an homogenizing process, which breaks up the fat globules into tiny particles and distributes them evenly throughout the milk. This attribute makes for an ice-cream mixture of uniform quality and fine texture.

Finally, experts agree that the use of evaporated milk in ice cream contributes to its hygienic qualities, for the reason that evaporated milk is entirely sterile. Health authorities declare that milk and cream should be treated to a heat of 150 degrees F. for half an hour in order that a product may be produced free from infective organisms. Evaporated milk is processed at 240 degrees for 30 minutes, and, therefore, its introduction into an ice-cream mixture increases its purity in proportion to the amount of evaporated milk used.

News Summary of West Texas

Balenger—The sum of 200,000 pounds of wool are in storage at the Texas Compress Company's sheds here. This wool will be placed on sale June 15 with ten or fifteen buyers here from Boston, Chicago and Philadelphia.

Cisco—The local Chamber of Commerce has agreed to pay the railroad fare of all boys and girls who qualify to attend the farmer's short course to be held at A. & M. College in August. The county agent will pass on the qualification of the club members.

Childress—Childress will soon let contract for more than 30 additional blocks of paving. During 1925, the city contracted and laid 60 blocks of paving.

Snyder—The membership Committee has been busy the past three weeks soliciting members for the new Seury County Chamber of Commerce. A nice monthly budget has already been subscribed.

Littlefield—During the past week a modern and up-to-date tourist park has been completed here costing the sum of \$10,000. This park is equipped with every modern convenience that would speak for comfort and

pleasure. The management owns its own water system, camp cottages, electric lights, stoves, cots, tables, and chairs. Many shade trees are scattered over the grounds also the park is equipped with showers.

Big Spring—The Big Spring Chamber of Commerce has secured teams, graders, and other road machinery for work on the road from Big Spring to the oil fields Southeast of town about sixteen miles. A pipe line is being laid from the new field to Coahoma which is located on the T. & P. nine miles east of Big Spring.

Lubbock—George Briggs, Secretary at Eastland, and J. E. T. Peters Secretary at Cisco, will be two of the principal speakers at the convention of Texas commercial secretaries to be held here July 22 to 24 inclusive. This conference is the twentieth in the history of the organization, and is considered a

school for commercial secretaries.

Vernon—More than seventy-five delegates are expected to attend the West Texas Chamber of Commerce Convention at Amarillo. Three cars of the special train has been reserved for Vernon which will arrive in Amarillo the morning of the 21st returning to Vernon at 5:45 the morning of the 24th.

Colorado—The Colorado Band, the official band of the West Texas Chamber of Commerce, will make its journey by auto-caravan to the West Texas Chamber of Commerce convention in Amarillo, with a number of concerts rendered in the larger cities enroute.

Cisco—R. Q. Lee, president, West Texas Chamber of Commerce, has just completed his Heart of Texas diversification tour, which included Coleman, Brownwood, Brady, San Saba, Mason, Fredericksburg, Llano, Burnett, Marble Falls, Goldthwaite,

tour as president of the organization Hamilton and Hico. This is his last

Wichita Falls—Bob Penick has been elected chairman of the On-to-Amarillo committee of the local Chamber of Commerce. Wichita Falls will operate a special train and will contest with San Antonio and

Lubbock for the 1927 Convention.

Decatur—Almost a car load of sheep has been made up for distribution in Wise County. This idea was suggested and is being sponsored by the local Chamber of Commerce.

TO WHOM IT MAY CONCERN

There has been of late quite a stir about the enforcement of an Ordinance passed by the City Council which prohibits begging or soliciting funds on the streets of O'Donnell without a permit, hence I take this method to explain to the public how this came about.

On Monday morning March the first, the pastors Council met in regular session and the matter of charity came up. It was the opinion of those present that the City should have a united charity fund that would take care of all charity cases, hence we agreed to ask the City Council to cooperate with us in this matter. The pastors were to meet with the council their first meeting in March. At the meeting only pastor Horn and Parker were present. We put our plans before the council and stated to them that we should have a united charity fund to give aid and assistance to those who were in need. The council passed the ordinance we asked them to pass. We now have all the material ready to put on our canvas for the Charity drive and will do so before July the first.

In our recommendations to the council we recommended that whosoever wanted funds for any needed object and wished to take up a collection on the streets or business houses, that they secure from a committee a permit to do it.

Our reason for asking for this ordinance was to give protection to the people of our little city from the undeserving and professional beggar. We believe that thru a united fund, all these matters could be easily handled. We do not think anyone should be exempt from obeying our city laws.

On my Ford is a state license which guarantees unmolested freedom in my travels on the public high ways in Texas, and with these in full view when in Houston recently I asserted my state privileges and failed to recognize the Red Light when it flashed and a policeman failed to recognize my state number and said for me to stop when the red light was on, and I obeyed the city ordinance of the little City of Houston from that time on thru the Baptist convention.

Brethren do not criticise a jury for obeying the law and carrying

out its mandates.

I presume no man in town has taken more collections in O'Donnell than I have and yet to save my townsmen from unjust solicitations I am glad to go to any committee and secure a permit if I want to help anybody.

No man should be so impertinent as to presume upon the good nature of our city officials.

W. K. Horn, Secretary Pastors Association.

TREDWAY NEWS

The past week has been a busy week with most people in Tredway community. It was a week without any effort to rain until Saturday evening. The clouds seemed to have gone around the edge of the Cap Rock, and the rain only came as far as Mr. Odom's place, who received about two inches.

Mrs. H. T. Berry came from Pampa to visit her daughter Mrs. W. R. Stuart.

Coy Stuart and Mr. Ledbetter left Sunday morning for Olney to start a thrasher. They expect to be gone a month or more.

There was Sunday school at Mesquite church Sunday afternoon. The attendance was very good. Some

visitors came from Berry Flat.

Miss Teresa Bearden and Arthur Fisher took supper Sunday night with Miss Leola and Hugh Sparkman.

Miss Guyula Foster took dinner Sunday with Mae Ola Stuart.

Misses Hazel and Freda Fisher took supper Sunday night with Miss Oline Stephens.

A fine singing was held Sunday night at the home of Mr. and Mrs. S. A. Sparkman. A large crowd attended. Everyone enjoyed the singing and were glad they come.

Walter B. Couch is visiting Mr. Stephens and family.

Baptist Church Gaining In Membership

The Baptist Church is rapidly gaining new members, four being admitted to the church at the night services Sunday. Mrs. Joe Melson, Miss Tommie Sorrels of the First Baptist church of Waco, and Miss Ethel Caviness of the First Baptist church of Abilene, were among those admitted.

E. M. Wilder and family returned Saturday afternoon from Jefferson where they spent the past three weeks visiting.

J. B. Miles returned Monday from Eagle Lake where he had been called on account of the illness of a brother. When Mr. Miles arrived at Eagle Lake he found that the brother had passed away and had been buried.

Mr. and Mrs. Lon E. Jones who live in the Newmoore community, are rejoicing over the arrival of a fine young daughter. She tipped the scales at 7 1/2 pounds on last Friday morning the day of her birth.

R. E. Painter, Owner

A Servant of the People

YOUR ELECTRIC light and power system is the most faithful servant in the community. Its hours are long--24 a day--it knows no strikes, and it works for less than any other servant save one--the two cent postage stamp.

In the home it quietly and quickly cooks the meals, sweeps, sews, washes, irons, lights the lamps, and assists the housewife in countless other ways. It never "answers back."

It is the silent partner of industry. In store and factory it makes the machinery go, brings in trade, furnishes economical and efficient light, heat and power, and saves endless hours of labor.

It works with church and school to further the intellectual and spiritual advancement of our children and ourselves. It helps police our streets and safeguard our property. And it is democratic. Rich and poor are served alike. The light responds whether the button is pressed by magnate or mechanic.

Our whole scheme of living in this country to-day is built upon the existence of public utilities and their efficient operation. If Electricity, alone, were cut off for any length of time the whole nation would be thrown out of gear to the point of actual disaster.

The West Texas Electric Company serves the public. You are the public. No one is in better position to render fair judgment than are you. The West Texas Electric Company is your servant. Encourage this faithful servant as you would any other employe. Do it through the magic of Mutual Helpfulness and Good Will.

"Your Electric Servant"

Phoenix Hosiery

\$1.50
A PAIR

This new, full-fashioned pure silk hose for women is one of the good reasons why Phoenix is maintaining its outstanding leadership. Smarter hosiery with the ability to resist wear over longer miles of hard service. In late, good looking shades.

THE POPULAR
The Store for You

Wright Back on
Job At Ranch

Stuart Wright arrived from Dallas Monday, purchased a pair of overalls, kicked off his taloon-toed town shoes, put on his cowboy boots and is again polishing the seat of his saddle riding after the big fat cows on the Wright ranch. Stuart is as much at home in the saddle as he is wearing a spike-heel at a Dallas society function.

Mrs. W. B. Miles is in Temple with a sister who is a patient in a hospital.

Emmett Busby, trouble shooter for the State Highway Department with headquarters in Big Spring, was visiting home folks Saturday. Emmett is making good in his chosen line of work and some day we predict that Emmett will be one of the leading men in highway construction and maintenance work.

Misses Tommie and Winema Sorrels are home from Baylor University at Waco. They will spend the summer with their parents, Mr. and Mrs. E. L. Sorrels.

Ed James returned from Pampa Wednesday night where he had been to attend his brother, Joe, who was injured in an automobile collision.

Knox City Newly-weds Visit Here

Many former Knox County people will be interested to know that Mr. and Mrs. R. Sidney Turner were visitors of Mr. and Mrs. J. W. Campbell last week. The marriage of these two young people which occurred Thursday, June 10, at the bride's home in Knox City, united two of the oldest of the pioneer families. Mrs. Turner will be remembered as Miss Beulah Bollin, one of the deservedly most popular and beloved members of her community. She is a graduate of Carr-Burdett College at Sherman, and since her graduation has been active in the church, social, and business affairs of her town.

Mr. Turner was a progressive and popular young business man at Knox City, until a year ago when he moved his business to Fort Worth.

The young couple, who officiated as best man and maid of honor at the wedding of Mr. and Mrs. Campbell not so many years ago, were joyfully received by many old friends here. They left Saturday for Fort Worth where they will be at home at 3007 Forest Park Blvd.

Judge Crunk and D. A. Brown did not receive their fine coats of tan at the seashore or rustivating in the mountains. They have found recreation nearer home. They have been making trips to Lamesa and making rounds of golf each afternoon this week. They say that Lamesa has a fine course and they think O'Donnell should organize a golf club and lay out a course.

WANTED—Chickens, the frying kind, at the McClung Hotel. Market price paid.

Hal Singleton, Sr. motored out to his ranch west of town Sunday. Mr. Singleton says he never saw prospects better in that section of the country. All indications are that O'Donnell will gather the largest cotton crop in the history of the town.

Sanders and Haney Installing Theatre

J. R. Sanders and Quincy Haney returned Tuesday from White Deer where they are putting in a picture show house ready for business by the first of July. A new brick building is being constructed under special plans to house the show. White Deer is reported to be growing rapidly and with the big wheat crop and the oil development under way, it promises to become one of

the oil boom towns of the North Plains. They will return Sunday to superintend the installation of the equipment of the theatre which is now on the ground.

J. S. Fritz and son, Calvin, went over to Sweetwater Tuesday, returned the next day they brought Mrs. Ruby Sanders and three children over to spend a few weeks. They will accompany the Fritz family to the West Texas Chamber of Commerce meeting in Amarillo next week.
