Iowa Park 40 Chillicothe 6

Iowa Park Hawks flew higher than
the Chillicothe Eagles could man-
age here last Friday night, to
win 40-6. The game was at District
11-A contest and kept alive the
Hawks' hope for at least a tie for
the title.

In the first quarter Tony Waters
ran three touchdowns, with yard-
ages of 51, 65 and 70 on the scor-
ing plays. He also ran the two-
point conversion on his first TD.

In the second quarter Tony ran
65 yards for the first score in
that period.

Bob Almond scored one touch-
down and Mack Mills the other.
Larry Noack made the first Chil-
licothe points of the 1959 season
when he carried the ball to pay-
dirt late in the game. At that time
Coach Carter of the Hawks had
put in reserves for the experience
they need for next year's campaign
in District AA competition.

The game was played on a mud-
dy field while fans tried to stay
dry wrapped in blankets, raincoats
and various other coverings.

The Hawk band did not march
between halves.

Bill J. Ferguson Is Wreck Victim

Funeral service was conducted
for Bill J. Ferguson, 32, in Fort
Worth, Tuesday afternoon. Burial
was in Laurel Land cemetery of
Fort Worth.

Mr. Ferguson resided here sev-
eral years and attended IPHS. He
came with his parents Mr. and
Mrs. Bob Ferguson in 1938 and
moved to Wichita Falls with the
family about 5 years later.

He had lived in Fort Worth the
past 10 years and was a refrigera-
tor mechanic with the public
schools.

Mr. Ferguson was killed in a
car accident Sunday night while
returning home from Graham
where he had taken his mother-
in-law.

Survivors include the widow Dor-
othy, two sons Jim and John, a
daughter Mary Ruth, all of Fort
Worth; his parents and brothers
Bobby and Jo. of Wichita Falls;
two sisters Mrs. Russell Fryer of
Waco, and Mrs. E. J. Shook jr.
of Iowa Park.

Mrs. Shook and her family at-
tended the service.

Claude McDonald, citizenship and
patriotism chairman of the Lions
club, spoke at Tuesday's luncheon
meeting. His topic was "One Na-
tion under God."

McDonald had the Lions stand
and say the pledge to the flag.
When they reached "One nation
under God," he had them stop and
be seated. Then he asked, "Are
we really one nation under God?"

After tracing the history of the
Pledge, McDonald pointed out at
least three phases of national life
which do not fit the concept of a
"nation under God."

1. Racial tension and bigotry,
which have reached such propor-
tions that now we are threatened
with a movement toward Black
Supremacy. The recognized leaders
of Negroes are as much against
this new movement as are white
folk, but some think it could de-
velop into a real threat.

2. The growth of the alcoholic
beverage industry beyond all rea-
son. His answer for that was—
"Quit drinking!"

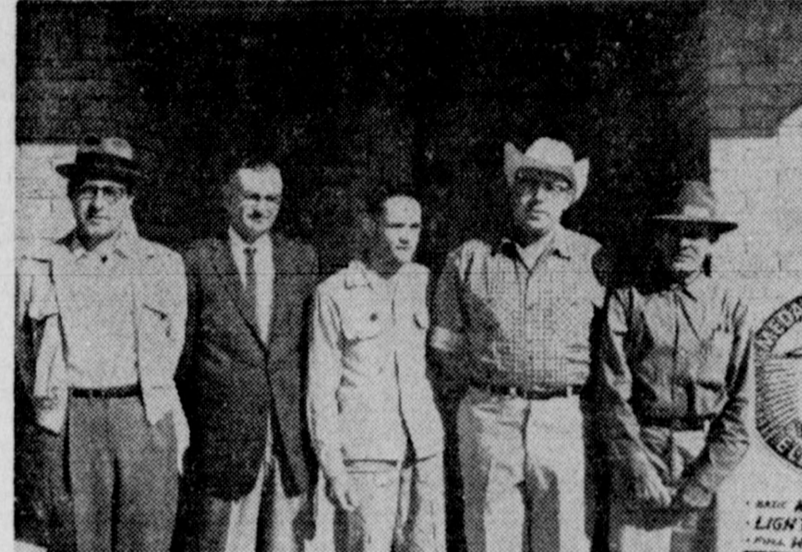

3. A distorted sense of values.
This is exemplified by the recent
disclosures of rigged quiz shows.
When otherwise intelligent and
decent people are led to such dis-
honesty for the sake of money,
it's time for America to look back
of material possessions and reck-
on their costs.

McDonald then read the first
three objectives of Lions Interna-
tional, and said they stand for
self discipline and moral integrity.
Invocation for the meal was given
by Homer Thompson, Lion R.
E. Waters of the Evening club was
introduced as a guest.

Little League baseball commis-
sioners and directors recently held
a meeting for election of officers
and directors for the 1960 season.
Re-elected were:

James Stewart, president
Arch Hughes, vice-president
Al Reed, secretary
Wayne House, treasurer
Bert Van Horn, chairman of the
umpire staff
Earle Denny, chairman of play-
ers' agents
Buck Voyles, Alan Berry, Keith
Swim, Dan Barnes, directors
Bill Burnett, honorary director
Managers and umpires will be
assigned later.

Mr. and Mrs. R. A. Williams and
Mrs. Wayne Williams at-
tended the funeral service of Mrs.
S. F. Phillips at Bluegrove Tues-
day afternoon. Mrs. Phillips died
early Monday after a lengthy ill-
ness.

age, 701 North Parkstreet, are:

sq. ft. house was a gift to the
church by Mr. and Mrs. Earle L.
Denny.

First Baptist church is holding
an openhouse Sunday, Nov. 8, from
2:30 to 5:00 p.m. to show the new
parsonage. The public as well as
church members are invited.

Working with Hill on the build-
ing committee are Mrs. Charles
Metz, Malcolm Mills, Walter Scott
and Hubert Tatam.

As soon as curbing and gutters
are installed, the lawn will be put
in and the lot landscaped. Also a
fence will probably be constructed
around the back for privacy.

In case rain comes the openhouse
will be postponed.

"Citizens of Iowa Park can be proud," Mike added. "For every dollar they have contributed, 20 children can be cured of yaws, a crippling tropical disease; or five children can be treated for trachoma, an eye illness causing blindness; or 100 children can be protected from tuberculosis."

Mike also said, "With only \$1, UNICEF can provide 500 large glasses of milk, enough DDT to protect 8 people from malaria for a year, or the sulfane tablets to treat a child with leprosy for 3 years."

EDITOR, THE HERALD:

I have no desire to detract from the lives of respectable people or add to the failures of others.

Being of the age group to recall our scientific progress for half a century, we may feel sure that research has come a long way in ministering to our well-being. Aside of self defense and the inestimable progress in medical research, daily account of researchers researching research, we have no conclusive proof that other achievements have offered appreciable relief from the gigantic claims and counterclaims that instigate confusion.

Fact of the matter is, commercial barkers and brainstorm word wranglers would have us believe we are not supposed to be satisfied with anything. Yet if we have an adverse opinion, we are on odd-ball or square.

Since the dawn of civilization, man has not contributed too generously to the basic rules of fair play and common decency. Remembering Dachau, the Black Hole of Calcutta, Hiroshima and the Spanish Inquisition, we are sometimes led to believe the reverse is true.

When scandal-scared mongers in the entertainment field command a greater audience than what may be derived from the Ten Commandments, as a Christian, civilized nation, we have very little of which we may feel justly proud.

Whether doctor, chemist or else, the persuasive lads in bow tie and white jacket keep stirring a mess of pottage in glass tubes, trying to convince us that if we accept any other product, we go on kicking out bed slats, bashing in alarm clocks—head bouncing like frog eyes in a hailstorm. Your blood may stay on that sitdown strike and force you to trade your ice cream freezer for long-handles if you retain membership in the Hadacol club.

At the age when I was running in "back" with two hound pups and losing a toenail a week along the Brazos and Trinity rivers, with the exception of cars, airplanes, radio and TV, we had most of the thing available today. Barring the Three R's, people were better acquainted with Mother Earth then than now. All cowboys had how-legs, a chipmunk never entered a gopher hole, the owl was not really wise, and in Pa's behalf, a good fish story was good until midnight. Rock 'n' Roll singers could be trained with one lesson. Give him a liniment-sulphur gargle and put a cocklebur in his mouth. He could neither swallow it or spit it out.

We had isolation booths, too. Men and boys belonged to the

Coon Hunters association and when a fellow said he going on 21 or 64, that meant he would soon be old enough to voter or his toenails had become too brittle for another "pointed" trim when it was his night to climb.

If there was ever a tip-off, the contestant was aware of it. No script, nobody got paid, sound-proofing and address system were unheard of. When another contestant tried to enter unannounced, the one in the booth took care of that.

The audience was usually a long legged spider on Jacob's ladder, and a hatful of yellowjackets sulking in a corner. If the contestant became confused and sweat started running down his face like a wet sock in a wringer, one or more of the copper-colored dive bombers with the built-in tail gunner might bank, buzz the joint a few times and stop the show.

Sometimes a contestant was accused of a "fix," but no one dared to prove it, and no one had the authority to cancel the shows.

Watch Car Instruments To Avoid Being Stranded

By Martha Johnson
Dodge Safety Consultant

So your neighbor ran out of gas the other day while purring along the highway en route to visit her Mother.

That'll never happen to you!

You're right. It won't. IF you play it smart.

It wouldn't have happened to your neighbor, either, if she was a smart driver. If she was in the habit of periodically taking a quick check of all those gadgets and gauges on the instrument panel to make certain the car was in top-notch operating condition.

Whenever you are driving the car, whether it be to the corner grocery or to a neighboring town, check the gasoline gauge frequently—to save a long walk to a filling station.

Keep an eye on the temperature and oil pressure gauges.

Watch the ammeter. If the pointer shows "discharge" when the engine is running rapidly, something is in need of attention.

By being alert to the position of all gauge indicators, you can save yourself a lot of time and inconvenience.

CLEAN ELECTRIC COOKING

Utensils keep their bright new look . . . walls, curtains and woodwork stay decorator-bright . . . all with minimum washing and care . . . when you cook electrically. Electric heat is as clean as electric light, and is transferred to utensils by direct contact for maximum cleanliness and efficiency. The radiant-

heat electric oven requires no draft of air into and out of it, so heat remains inside and there is no excess of cooking vapors to smudge kitchen walls. Visit your electric range dealer soon. Find out for yourself how clean electric cooking can be. And discover its other advantages of coolness, speed, accuracy.

(Although this is addressed to Chevrolet owners, we'd be glad to have you read it, no matter what make you now own or plan to buy. It might well be as interesting and significant to you as to the Chevrolet owner.)

TO THE MORE THAN 16 MILLION PEOPLE WHO OWN CHEVROLETS

The first and the latest—the 1912 and the 1960 Chevrolet. The progress represented here is the result of continuing efforts to make your new Chevrolet always more beautiful, more useful and more valuable in every respect.

You belong to the largest family of owners in the automotive world.

We hope you're proud of that. It must give you great satisfaction to know that your judgment in choosing Chevrolet has been confirmed by so many other people.

We know that we can hold your preference and your loyalty only by meeting our responsibilities to you fully and completely from the day you buy your Chevrolet to the day you trade it in. And so we'd like to talk with you about our responsibilities as we see them, and what we are doing to meet them.

Our first responsibility, we think, is clear: To design and build products that satisfy your needs and your wants to the highest possible degree. To that end, we have done these things for 1960:

Made the 1960 Chevrolet more economical, roomier, more quiet and comfortable, easier to handle and maneuver.

Introduced the compact and revolutionary Corvair. Produced a new line of Chevrolet trucks with unprecedented advances in efficiency, cargo handling, driver comfort and ability to get a job done.

But it isn't enough to design and build the kinds of products you want. They must be built right. Solidly. Carefully.

Let us assure you of this: Chevrolet's fine reputation as a solid, well-built, dependable product is being safeguarded by more checks and inspections and tests, than ever before.

Along with your Chevrolet dealer, we want you to have available the finest and most complete service facilities. That is why we: Conduct training schools for Chevrolet dealer mechanics. Study and recommend im-

proved service equipment and techniques. Maintain the industry's most complete parts warehouse system.

Finally, neither Chevrolet nor your Chevrolet dealer has any intention of forgetting you after you buy. To help keep you happy with your Chevrolet, we have established a department new to us, and so far as we know, new to the automobile industry. This is the Chevrolet Department of Owner Relations, whose only job is the coordination of Chevrolet and Chevrolet dealer activities so that you enjoy utmost satisfaction during your entire period of ownership. Through this department, and through all the other extraordinary steps we are taking, Chevrolet and your Chevrolet dealer hope to keep you a happy member of the Chevrolet owner family.

25 Years with TESCO

Mrs. Amy Walker and J. W. Wagner, both of Wichita Falls, were honored last Friday night at the annual Quarter Century club dinner of Texas Electric Service company.

They were presented gold watches for 25 years of continuous service by J. B. Thomas, president of the company, at the dinner in the student center at Midwestern university.

Their addition brings the number of Quarter Century club members in the area to 41.

After a short review of the company's history by Thomas, Dr. Bill Alexander, pastor of First Christian church of Oklahoma City, addressed the group of TESCO employees and guests. Topic of his talk was "You Are the Answer."

Bill told the group they are either part of the answer or part of the problem. He stated that those who are part of the answer

have a wholesome positive attitude toward life; a self fit to live with; a philosophy fit to live by.

Iowa Park employees and their wives attended the dinner. Special guest was George R. Huckaby.

Iowa Park community 4-H club met Tuesday night in the Loyd L. Ward home in Valley Farms. The meeting was called to order by Jimmy Jennings, president. Donna Childers led the group in the pledge and prayer. Each member answered roll call by naming the demonstration he will use this year.

Reports were given by those who had entries in the Dallas Fair last month. Dickie and Charles

Findley and Garland Lehman had chickens; Sandra and Jimmy Jennings and Garland Lehman had sheep; Donna, Cecelia and Roy Childers jr. had dry-lot steers.

Blue ribbons were won by Dickie Findley, Cecelia and Roy Childers. Other entries either won red ribbons or placed in their class.

An especially helpful program was brought by Harry Cox, assistant county agent. He discussed projects and demonstrations that can be handled by 4-H members, reminding that the work should not include livestock alone, but be rounded out with such projects as Records, Safety, Conservation, Foods and the like.

Visitors introduced were Kenneth and Roger Johnson; Mmes. S. L. Johnson, Mildred Craig, C. L. Tucker.

Members and adult leaders attending were Christy Bonner, Cecelia and Donna Childers, Janice Craig, Jo Cowden, Charles and Dickie Findley, Sandra and Jimmy Jennings, Garland Lehman, Benny Ward; and Mmes. Rex Lehman, E. P. Evans, Roy Jennings, Roy Childers sr., L. L. Ward.

Uses of Atom to Be Studied

Science faculty members and graduate science students from 42 Texas colleges and universities will hear progress reports on efforts to harness the hydrogen bomb for peaceful purposes at a symposium on nuclear fusion in Austin, Nov. 21-22. They will be guests of electric companies in Texas, including Texas Electric Service company.

The meeting is being sponsored by the Texas Atomic Energy Research Foundation and the University of Texas. The research foundation is a non-profit organization whose members are 11 electric utility companies operating in Texas.

The symposium is part of the program to advance knowledge of nuclear energy through research, experimentation and education. The foundation is sponsoring a research program in controlled fusion being carried out in La Jolla, Calif., through which it is hoped to devise methods looking toward the economical generation of electric power from controlled atomic fusion energy for the benefit of the people of Texas.

The symposium will feature papers by some of the world's leading scientists in the field of fusion research.

Christian Women's Fellowship of the Christian church met in the home of Mrs. Rollin Roberts on Monday, Nov. 2. The program on "Stewardship in the Town and Country Church" was led by Mrs. Forest Bates. Mrs. Rollins Woodall brought the devotional.

Refreshments were served to 14 women by Mrs. Roberts and her co-hostess Mrs. J. D. Rowntree.

Executive committee of Iowa Park PTA will meet in the home of Mrs. Rollin Roberts at 7:30 Nov. 9 with Mrs. Orange Lester and Mrs. J. B. Upham co-hostesses. Halloween carnival was a success in spite of the bad weather. Proceeds were \$415.

PTA will meet Nov. 11 at 3:00 in the school auditorium. Mrs. Bertha McDonald will be leader for the day. Since it will be American Education Week, the program will be a guided tour of the school. Principals James Elms and Miss Ethyle Kidwell urge all parents to attend and see the schools in action and meet the teachers.

Mrs. Ray Watson urged all interested persons to attend PTA and join the organization. You may become a member by contacting Mrs. A. L. Sims at 592-4616.

No Hangover Heat True! Only when you cook with modern flame-fast gas is there no "after-cooking" time. Turn your burner off, it's really off. . . no hangover heat to cause messy boilovers, burned foods. Cooking is cooler, cleaner and naturally, more economical with flexible gas.

Make no mistake about it: the modern way to cook is with GAS. Gas gives you: burner-with-a-brain, speed, economy, 1001 burner settings, smokeless closed-door broiling, perfect baking and roasting results, and automatic controls.
