New Resident Here Is Noted Collector of Coins of the World

Sgt. and Mrs. John P. Butler, and daughters have recently moved here from Brooks AFB, San Antonio. John and his wife Bonnie, Rosemary 11 years old, and Paulette, 4, reside at 309 W. Lafayette.

Butler is originally from Alamo, Tenn., and has been in the armed forces almost 18 years. He has been in 26 foreign countries. Sgt. Butler has one of the largest private coin collections in the world and is one of the world's leading numismatists.

He started collecting in 1942, while stationed in England with the USAF, and now has some 8000 bills from the US alone, including an extensive group of Confederate banknotes. His US legal tender dates back to 1775 including some Continental Currency issued among the colonies at that time.

From foreign countries he has approximately 20,000 bills and 30,000 coins dating from all periods of world history. The oldest in his collection was coined 2000 B.C.

Among his collection valued over \$20,000 is one of the pieces of silver of the type used to pay Judas for the betrayal of Jesus.

Butler is mainly interested in different types instead of series of coins. His collection ranges from fish and knife money, to shell, fish hook gun porcelain, egg, tree and ancient Greek and Roman money.

Butler's oriental coin collection is believed to be the most comprehensive in existence.

The collection has been used as a research base by a University of California professor for a book on the coins of Korea, and by a New York publishing house for a manual on Japanese currency. During his travels, Butler be-

Winners

HOME OVER 3 YEARS OLD
The Emmett Harris place in the 400 block on East Jefferson was selected as winner for June. Huge thick-foliated hackberry trees surround the house with shade. The elevated backyard has a thick carpet of grass, blooming oxalis border the walks, honeysuckle completely cover the old well-house, a well pump supplies good water for the whole yard.

Crape myrtle shrubs, trumpet vines, blooming hibiscus, candle trees, elephant ear, red geraniums, blooming periwinkle, loaded tomato vines, evergreen shrubs, wandering jew hanging from a bucket under the porch, a rare Hawaiian plant and a vegetable garden surround the shaded cement patio in the back.

Then in the second backyard, Sam Harris, who keeps the yard, has a private shaded area and beds of blooming hibiscus, tree morning glories, tall poplars, a small greenhouse, fenced pigeon cages and a pair of Mexican quail. All of the yard is neatly trimmed and well-kept, and the house itself is receiving a new white roof.

HOME UNDER 3 YEARS
Dick Reilly's home at 510 West Texas was chosen for June because of its beautiful smooth lawn, neatly trimmed; well-placed waxleaf ligustrum, nandana, gardenia, pyracantha, blooming petunias in the east and west flower beds, a small border plant for the front walks and beds. The backyard, planned for outdoor cooking, is made beautiful also by a planter with growing Japanese boxwood, portulaca moss and petunias and zinnias, blooming under and around a tree.

BUSINESS DISTRICT
Bill and Bud's Plumbing Shop, 106 West Cash, is recognized for June as having done much in the renovation of the old Hays Rexall Drug location into a beautiful plumbing fixture and service shop.

Gen's Hair Styles has improved the beauty of their shop by moving into a brand new building.

Joe Baxter's Cleaners are painting the equipment in their shop.

Sam Hill, Frankie's Apparel and the Herald have applied paint to the fronts and awnings of their buildings.

CHURCH OF THE MONTH
Is the Christian church. A spacious green lawn enhances the beauty of the almost new edifice.

Mr. and Mrs. James Todd and family have as guests this week their parents Mr. and Mrs. Asa Williams of Lake Creek. Their son Edwin will arrive the latter part of this week after receiving his discharge from the armed forces. He served two years in France. Welcome home, Edwin.

A sing-song led by Mrs. Charlie Coppock and Mrs. Otis Gay closed the evening of entertainment.

Donkey Riders Miss Welcome

Iowa Park Chamber of Commerce was ready to get out the red carpet to welcome the Donkey Derby composed of three donkeys and their riders, Wednesday, but they must have slipped through Our Town after dark, or misread the signs and used the unfinished expressway.

Sorry we missed you, boys—or rather—sorry you missed Iowa Park, the town of friendly living. The city police even assisted in trying to locate this unusual race.

sHUCKS

If Burdick's lead in the North Dakota senatorial election holds up, the Democratic party will have scored a major victory which presages victory in the presidential race in November.

We hope the Democrats will put their most worthy man on the ticket. And we hope they adopt a platform worthy of the millions who will vote Democratic.

Park Area club will hold an All Craft meeting next Wednesday in the fellowship hall of the Methodist church. All members are urged to attend. There will be a covered dish luncheon at noon.

Girls' Softball

The Bees and the Hornets have colorful, stinging names, but they really are gentle, fun-loving girls who play softball just for fun.

Wednesday night the Bees, with managers Mrs. George Cutler and Mrs. Dagn Spruiell, squared off in a game with the Hornets, managed by Mrs. Dwain Holmes and Mrs. A. L. Golden.

Now the girls in Iowa Park don't go in for shut-outs and 1-0 games, so the final score of Wednesday's game was 2-7. Bees.

The Hornets will get a chance to reverse the score when the teams meet again Saturday, July 9.

So you gentle readers will have some idea of whom we are writing, scan the roster of these two softball squads.

ABUNDANT LIFE

by ORAL ROBERTS
GOD HEALED ME OF TUBERCULOSIS

Twenty-five years ago I was dying with tuberculosis. The disease was in both lungs and the three physicians who had diagnosed my case knew that I couldn't live. Many mornings when I woke up there was blood on my pillow and on the wall.

In addition to having tuberculosis, I stuttered. Since childhood I had hardly been able to make anyone understand me. I hated to go to school. I used to hide from people because I was ashamed. At the age of seventeen I found myself dying.

In desperation, I turned to God for help. I put my faith in God and was saved. I told Him that my whole life was His. A few weeks later an evangelist put up a small tent in Ada, Oklahoma, near where I lived. Soon the whole community began to buzz with amazing stories of healings that took place there.

I began to believe that God could heal me and that He would. One night my family took me to the revival to receive prayer. When the minister prayed for me, I expected to receive something—I believed that I would be healed. God met my faith.

I felt a warm glow spreading inside my chest. Suddenly I realized that I was healed of tuberculosis. When I leaped to my feet to tell the people what had happened, I found that I

could talk; I did not stutter at all. I was instantly healed.

When I went back to the doctor at the Sugg Clinic in Ada, the fluoroscope showed that my lungs were absolutely perfect.

However, it was several weeks before I regained my full strength because my body had been emaciated and weak.

I am now 42 years old and am in the best of health. Each week I preach to millions of people by radio and television. In the big canvas tent cathedral I preach to tens of thousands that God is a good God. I tell them how God healed me.

I am physically well and strong. I have endured many hardships. I travel hundreds of thousands of miles and carry the gospel to the masses.

Why was I healed? Thousands of people have written and asked me, "How did it happen?" I was healed because I believed God was able to heal me. I expected Him to do it. I turned from fear and wrong believing. When I believed that God would heal me, He met my faith.

You, too, can experience the healing power of God. Open your mind and heart to Him, believe that He is good, that He wants you to be healthy.

Pray, or accept the prayer of faith, and believe. God will deliver you in mind, soul and body.

Mrs. F. P. Blair of Abilene visited recently with her daughters and families: Mrs. Virginia Collins and Mr. and Mrs. J. D. Rowntree.

car accident near Vernon last week. Georgiana Bean, daughter of Mrs. Bean, was seriously injured and was taken to a Ft. Worth hospital. Mrs. Blair and Mrs. Bean were sisters-in-law.

MOTOR VEHICLE TRAFFIC DEATH CALENDAR 1959. Grids for JANUARY through DECEMBER showing fatal accidents and fatalities.

THE DEADLY TRUTH—About traffic safety in Texas in 1959 was that only one day in the whole year was free of traffic deaths. In 1958, there were five "Deathless Days" in Texas, four in 1957, five in 1956, three in 1955. If more Texans will drive in such a way that their cars are never involved in a crash which takes a human life, then Texas can record more "Deathless Days." Will YOU drive so that the Fourth of July holiday will add a "Deathless Day" to the Texas traffic calendar? (Official 1959 Texas Traffic Death Calendar Compiled by Statistical Services, Texas Department of Public Safety and Reproduced by the Governor's Highway Safety Commission, Austin, Texas.)

SOIL CONSERVATION DISTRICT NEWS

Soil Conservation Service here has been working with district co-operators to determine benefits from application of cropping system practices, according to Elvy G. Sargent, work unit conservationist.

Fertilizing and wheat following Austrian winter peas have been the practices being checked. Exact yield data have not been completed but wheat production following legumes has been outstanding. Fertilizer benefits are being checked. Fall applications increased the wheat tillering to the extent that in some checks 50 per cent more stalks were found. This gives more grain and more stubble for soil protection.

Fertilizing at recommended rates gave increased yields, but a combination of legumes and fertilizer does the best job, Sargent concluded.

Albert Brockriede won first in the 1960 Bridwell Soils Awards program county winter legume division.

Elgin Denny placed second and Herbert Detmer, third.

Brockriede won by planting Austrian winter peas following wheat. He farms in the Punkin Center community.

Denny also had a field of Austrian winter peas. He resides three miles southwest of Iowa Park on FM 367.

Detmer also planted Austrian winter peas on his land in Punkin Center community.

Winners will be honored at the annual banquet in November. Cash awards will be \$100, \$60 and \$30.

CARD OF THANKS

During my recent illness and stay in the hospital, many friends expressed their concern with nice gifts, cards, visits and prayers. We never realize the true value of friends until such a time. We will ever be grateful for everything done for me and my family during this time.

May God richly bless each and every one of you.

JESUS, THE MASTER

Jesus was a master. He proved Himself a master. During the 33½ years that Jesus spent upon this earth, He showed His mastery over all things, animate and inanimate. He always used this mastery for the good of mankind.
In the beginning of His ministry, Jesus changed the water into wine. During His ministry He subdued the elements, hushed the sea to sleep, healed the sick and conquered death and the grave.
This woman in the Bible had a "point of contact" through which she released her faith. She touched Christ's garment. She believed and was made whole.
Jesus mastered death itself when He arose from the grave! He stepped out of the tomb and looked over the silent cities of the dead. Then He proclaimed, "Because I live, ye shall live also." Jesus, the master of demons and the demon-possessed, changed the Legion by casting out the evil spirits. Christ set Legion free, made him whole.
And today, Jesus is still master. It matters not what your problem may be nor how great your need appears. Jesus is still the master. If you will believe in Him, release your faith to Him, Jesus Christ, the master, will help you conquer.

At Church Camp

Four youngsters and Mr. Rollin Roberts, counselor, of the Christian church are attending church camp at Lake Murray near Ardmore, Okla. They will return home Saturday.

Mrs. Mae Roby has received notice her son Harold was recently promoted to major in the air force. He and his wife the former Miss Frances Jean Ferguson of Iowa Park and daughters Glenda, Sharon and Shirley Ann will fly home from Germany, July 16 and he will be stationed at San Antonio.
Mrs. Roby also received word another son Capt. Charles Roby and family will be back soon in the States after serving in France with the air force. He will be stationed in New York.

WANTED BY THE FBI

JOSEPH CORBETT, JR.
Corbett, one of the FBI's "Ten Most Wanted Fugitives," is wanted for escape from the California Institution for Men, Chino, Calif., where he was serving a 5 years to life sentence for murdering an Air Force sergeant. A Federal warrant was issued at Los Angeles, Calif., on March 21, 1960, charging him with unlawful interstate flight to avoid confinement for murder.
A white American, born on October 25, 1928, at Seattle, Wash., Corbett is 6 feet 1 inch to 6 feet 2 inches tall and weighs 160 to 170 pounds. He has light brown hair, hazel eyes, a fair complexion, a medium build, and has worked as a clerk-typist, laborer, warehouseman, laboratory technician, and alkyl-resin cooker for a paint manufacturer. His two upper front teeth slant inward and he wears glasses, reportedly being extremely nearsighted and capable of seeing only close objects without them. He has a mole under his chin and a C-shaped scar on his right thumb.
Corbett, once a premedical student, is interested in scientific matters, avidly reads technical and travel books, and is intensely interested in firearms and target practice. He reportedly has a superior general intelligence and generally lives quietly and neatly but becomes erratic when drinking alcoholic beverages.
Convicted of second-degree murder, he is considered armed and dangerous.
Anyone having information concerning him should immediately notify the nearest office of the FBI, the telephone number of which can be found on the first page of local telephone directories. GPO 851300-4

IT ONLY FEELS LIKE POWER STEERING
(Corvair doesn't need it)

Corvair's ingenious design simply places the engine in the rear. That means less weight on the front wheels and a lighter, happier feel in the curve of your hands. No power assist is needed in a car that's naturally nimble. See what a fresh engineering approach can do? From handling and parking ease right on, there just isn't anything ordinary or

conventional about Corvair. Look at its practically flat floor, four-wheel independent suspension, fold-down rear seat. Its air-cooled rear engine that never needs water or antifreeze or radiator repairs... and leaves engine heat and noise back where you've been. All these special advantages are standard in every Corvair. Just wait till you see how much

they add to your driving pleasure. But why wait!
