## Miss Kay Scott Weds Henrietta Man; to Reside in Burkburnett

In an impressive ceremony performed Saturday evening in the First Baptist church, Miss Patricia Kay Scott became the bride of Daniel Schaffner. Rev. Homer W. Thompson, pastor, was officiant for the 8:00 o'clock nuptials.

Parents of the couple are Mr. and Mrs. Virgil Scott of Iowa Park and Mr. and Mrs. Gotfred Schaffner of Henrietta.

Vows were exchanged before a white satin covered Swedish steel prie-dieu which centered the white satin covered nuptial space. Behind the prayer bench was a sunburst arrangement of white gladioli flanked by votive lights.

Palms provided greenery for the nuptial space. Church pews were marked with votive lights.

Traditional wedding selections were provided by Mrs. O. E. Lochridge, organist, and Mrs. Joe Singer, vocalist.

The bride, presented in marriage by her father, was attired in a waist length gown of white organdy eyelet over satin designed with molded bodice, rounded neckline and brief sleeves. Fitted mitts extended to points over her hands.

Her waist length veil of bridal illusion was attached to a seed pearl coronet.

The bride carried a cascade arrangement of pink sweetheart roses and carnations and garlands of English ivy.

Miss Mary Lou Schaffner of Henrietta, sister of the groom was maid of honor. She wore a pink eyelet embroidery dress styled with rounded neckline which dipped to a V in the back. She completed her costume with a white lace head bandeau and nylon mitts.

Her flowers were pink gladioli and carnations attached to a white satin and lace fan.

Miss Nancy Smith and Miss Sue Bedford participated as bridesmaids. Their pink organdy dresses were patterned after that of the maid of honor and their head-dresses, mitts and flowers were identical to hers.

Dr. Leroy Schaffner of Henrietta acted as best man for his brother. Groomsmen were Jon Evans and Gary McDonnell of Burkburnett. Ushers were Jeff Cody, Carroll Gilbreath of Port Worth.

The bride's parents were hosts for the reception in the church parlor. The bride's table was covered with white Newport lace over pink. The centerpiece was pink carnations and gypsophila flanked by pink candles in crystal holders.

Other points of interest were the three-tiered cake topped with a bride and groom, and the crystal punch service.

Mrs. J. D. Chandler of Wichita Falls and Mrs. Walter Scott of Iowa Park, aunts of the bride, presided at the refreshment table.

Miss Olga Martinez of Wichita Falls secured signatures of guests for the bridesbook.

Members of the house party were five aunts of the bride: Mesdames Warren McDonald of Dallas, Wesley McDonald of Lawton, Okla., James Scott and Keith Watkins of Wichita Falls, and T. C. Scott of Iowa Park.

Reception assistants included Mmes. Jerry McLemore, Clifford Roberts, Robert R. Brubaker and Homer Blalock.

The former Miss Scott is a graduate of IPHS. She attended Midwestern university and was a nominee for homecoming queen. She is at present a sophomore correspondence student of NTSC.

The groom is a graduate of Henrietta high school and Midwestern university. At MU he was a member of Botany and Geology clubs, secretary-treasurer of Ami de Cour XII, class favorite and president of the senior class.

After a wedding trip in Oklahoma the couple will establish residence in Burkburnett where the groom will teach in high school.

The groom's parents were hosts for the rehearsal dinner Friday evening in Wichita Falls.

Out of town guests were Mr. and Mrs. Warren McDonald, Don, Leslie and Todd of Dallas; Mr. and Mrs. Wesley McDonald of Lawton, Okla.; Mr. and Mrs. Ben Blitz of Altus, Okla.; Mr. and Mrs. Reuben Schaffner and family of Odessa; Mr. and Mrs. Alfred Schaffner of Abilene; Mr. and Mrs. Phillip Dudenhoef of Rule;

John Sibley has been notified he has been awarded the Certificate of Merit of the Thor Research Center for Better Farm Living, for outstanding service to agriculture in the education of farm youth.

In a letter from Neil C. Hurely jr., founder of the research center, commending Sibley, are these words: "The work you do and the results you achieve are close to all of us at the Thor Center. Many teachers and their students from this area have conducted classes in our model farm shop."

"Every time we see the results of your teaching we are thrilled. Of course we refer to your students. Farm youth who are local, state and national officers in many different organizations have attended our seminars, have met with our advisers and engineers. These young men and women and the thousands they represent, always have one thing above all else to say, and that is to acknowledge and praise and give full credit to one all-important person in their lives—their vocational agriculture teacher."

"May we then join your students in saying 'Thank you' for your service to agriculture."

Four members representing the Iowa Park FFA, accompanied by their adviser John E. Sibley, are in Houston for the state convention of that national organization.

In the group are John Williamson, Bobby Short, Mike Patterson and Dennis Mitchell.

John, son of Mr. and Mrs. John W. Williamson of Valley Farms, will be awarded the Lone Star Farmer degree at the convention. This is the highest degree that can be presented a member by the state association.

Mr. and Mrs. H. C. Willis returned home Saturday after attending the President's Club convention of the American National Insurance company in San Francisco, Calif.

Mr. Willis, a representative of the company, was awarded this trip because of the large number of policies he has written in the Iowa Park area.

Mrs. Willis has returned to Lovings where she has been the past few months. Her father A. R. Nash suffered a stroke and she has been with him. He has improved and she hopes to be able to come home soon.

## 4-H-ers Visit Fish Hatchery

Iowa Park Community 4-H club sponsored a field trip to the fish hatchery at Lake Diversion recently. Mr. Newman, manager of the hatchery, supervised the tour of the ponds where fish are raised and explained the habits and characteristics of catfish and bass.

Members learned that bass are cannibals and will spawn in open water. Catfish seek a spot to hide in, such as a hole or under some object, to deposit their eggs. The male catfish is guardian of the household and protects the eggs against all comers. Variance in color of catfish is determined by the amount of light in the water; the more light they receive the darker their color becomes.

Newman explained the green plant life in the water, which we thought was moss, is really algae, and the more intense the heat the more is produced. This is a protection for fish against heat and predatory birds and animals.

A picnic lunch and trip to the dam was enjoyed by members and adult leaders.

Mr. Albert Brockriede, Sarah, Billy, Carl and Jimmy Brockriede of the Electra 4-H club.

## ABUNDANT LIFE

by ORAL ROBERTS

### THERE IS A SCIENCE IN FAITH

There is a science in faith. There is a definite way to approach it. Faith is not something you ask for, not something you try to get; it is something you already have.

In Romans 12:3 the Bible says, "... God hath dealt to every man the measure of faith." God deals to every individual a measure—a measure of faith. Everyone comes into this world with it. You have it; I have it. Some may not use their measure of faith; some may lose it; some may misuse it; some may learn how to use it well, but each of us starts life with a measure of faith.

However, the faith that is given us is deposited in seed form. It is planted within us. We have the innate capacity for faith—the potential power to believe. But, there is a difference in faith as such and faith as an act of positive believing.

When someone approaches me and says, "Brother Roberts, I have all the faith in the world," immediately a question comes into my mind: *If you have, why has it taken so long for you to put it into practice?* You can have all the faith in the world but until it becomes action, until it becomes a strong, positive, motivating attitude, your faith is powerless.

Jesus said to Thomas, who had doubted his Saviour's resurrection from the dead: "Thomas, see the evidence."

Look upon me and see my nail-pierced hands." And when Thomas saw that it was the real Christ, Jesus said, "Be not faithless, but believing."

Jesus made a difference between the word *faith* and the act of believing. He meant this: "You may have the capacity for faith, the power to believe, but I want you to start believing."

You may be seeking divine healing from God; you already have the faith (God gave each of us a measure of faith), but are you using the faith you have? Has your faith become a living, dynamic thing? Do you feel your faith? Are you aroused to action by it? Does it push outward, striking a blow for deliverance? Does your faith bring you to a point of decision? Do you act upon your faith?

When faith is alive in you, you feel it. It is something which causes you to believe in a stronger, more positive manner.

There is a science in faith. You must learn how to use it to get what you want from God.

Faith is the very heart of the Bible's teaching. Your faith can become a living force. When it does it becomes a weapon, an instrument of deliverance, a mighty power that brings you to God and what He has promised you.

New Princess Phone  
comes to town

I'd like to tell you about a brand-new telephone. It's called the Princess phone, and it is being introduced to the public for the very first time this month in towns we serve throughout the state.

How do you like the new look? Notice the oval base and smart styling. You might say the Princess looks regal.

I feel sure a number of you will want one or more of these lovely little phones. I'd like to tell you about the Princess' main features, because it's not very often I get a chance to write about something as exciting as this new phone.

First, it's little. Only 8½ inches long and 3½ inches high and wide, the Princess phone takes so little space on a living room table, a kitchen counter or bedside table.

Next, the Princess is lovely, in styling and in colors. It comes in the most lighthearted pastels I've seen in a long time—blue, beige, pink and turquoise—plus white.

Finally, the Princess phone lights up. The dial glows softly at night, lights up brightly when you lift the receiver.

Why not be among the first here to order a new Princess phone? Just call us at the telephone business office or see your telephone serviceman.

Call by number . . . it's twice as fast

Mrs. J. H. Hatten and her daughter and family Mr. and Mrs. Dean Jackson, Deanna and Jimmy of Pasadena, returned here last Saturday after visiting relatives in Buena Park and Sunnyvale, Calif.

The Dean Jackson family are visiting with Mrs. Hatten and with his mother Mrs. Lois Jackson in Iowa Park this week before returning to Pasadena.

**FAMILY PUTS 2,000 MILES A MONTH ON CORVAIR THINKS IT'S MARVELOUS GAS MILEAGE "OUT OF THIS WORLD"**

Mr. and Mrs. Richard Kahelin of Plant City, Florida, couldn't be happier with the way their new Corvaair has worked out as a combination family and business car. On their newspaper distribution route alone they travel more than 400 miles a week over all kinds of roads. Little wonder they're so pleased with the gas mileage they've been getting — "at least twenty-three miles to the gallon with an automatic transmission . . . and we've had no trouble with our Corvaair." The Kahelins have equally good things to say about Corvaair's easy-going comfort and unique convenience features. They especially like the way the fold-down seat doubles as a built-in baby sitter.
