SPAIN'S REPLY

Oleyn's Letter Answered in His Own Words.

THEY MAKE SPAIN'S CASE

Offer of Mediation that Defeated its Purpose.

VERY REMARKABLE DOCUMENT

Reason for Non Recognition of the Belligerents Furnished by Mr. Cleveland's Secretary of State—Insurgents Have No Established Government and Possess No Cities or Towns—Incapable of Maintaining a Government in the Island, and their Success Would Mean a Race War and Anarchy in the Island—A Document that Will Prove Most Embarrassing to Mr. Cleveland's Successor—Spain Adds that the Cubans Refuse to Recognize the United States in the Matter and Believe the Purpose of the Government at Washington is Wholly Selfish

Washington, May 21.—The reply of Dupuy de Lome, the Spanish minister, to the offer made by Secretary Olney, of mediation made on behalf of the government contains the following language indicative of the attitude of the last administration:

"The government of his majesty appreciates to its full value the noble frankness with which that of the United States has informed it of the very definite opinion it has formed in regard to the legal impossibility of granting recognition of belligerency to the Cuban insurgents.

Mr. Olney's Admissions. "Indeed, those who are now fighting in Cuba against the integrity of the Spanish flag are not in possession of qualifications to entitle them to the respect or even the consideration of the other countries; they do not, as your excellency expresses it, possess any civil government, organized with a known seat, any administration of defined territory, or they have not succeeded in permanently occupying any town, much less any city, large or small.

"Your excellency declares in the note to which I am now replying, with great legal acumen and spontaneity, that it is impossible for the Cuban insurgents to perform the functions of a regular government, and that their organization is that of a family of anarchy.

"The government of his majesty is not in a position to grant recognition to the means by which would, in itself be sufficient without the pale of recognized rules of international law, to the spontaneous of the government of but sees no advantage in the recognition of a government which would be a source of perpetual trouble to the government, and which would be a source of perpetual trouble to the government, and which would be a source of perpetual trouble to the government.

Accepted It. "The high gratification of the government of his majesty is expressed in the opinion of the government of his majesty, and which would be a source of perpetual trouble to the government, and which would be a source of perpetual trouble to the government, and which would be a source of perpetual trouble to the government.

Violations of the International Law. "The constant violations of international law by the Cuban insurgents, and which would be a source of perpetual trouble to the government, and which would be a source of perpetual trouble to the government, and which would be a source of perpetual trouble to the government.

The Path of Peace. "When the government of the United States, and which would be a source of perpetual trouble to the government, and which would be a source of perpetual trouble to the government, and which would be a source of perpetual trouble to the government.

ASKED FOR PAPERS. "The Cuban Matter Discussed in the Spanish Chambers. Madrid, May 21.—Senator Morely Prendergast, a former minister, asked the government on behalf of the Liberals in the Spanish chambers today to submit to the papers relating to the rebellion in Cuba and to the diplomatic relations of Spain with the powers.

Senator Canovas' Statement. "The premier said: 'Spain's relations with other powers continue cordial, but we advise against the Americans offering to us as Cuba cannot be followed, because Spain will never accept any intervention in a matter which particularly concerns herself. The documents referred to were asked for would only refer to this advice. The government has accepted full responsibility for everything which has been done by Captain General Weyler.'

A Bust to Walter Scott. London, May 21.—The Duke of Buccleuch unveiled at Westminster Abbey this afternoon a memorial bust to Walter Scott, in the presence of a distinguished assembly. The bust is by Mr. Hutchinson, R. S. A., and is a copy of Sir Francis Chantrel's well-known portrait.

Father Sebastian Knapp. London, May 21.—A district to the Chronicle from Paris says that Father Sebastian Knapp, well known throughout the world because of his water cure, is dead.

GENERAL ASSEMBLY

Presbyterian Church Meeting in Active Business.

CHAIRMAN OF THE COMMITTEES

A Long Report on the Presbyterian Building in New York was Received with Interest—A Minority Report Signed by One Elder—The Evening Session.

Eagle Lake, May 21.—This is regarded as one of the most important days of the session of the general assembly. It was opened by the presentation of a gavel to the moderator by General Harrison. The gavel was composed of oak, poplar, black walnut, birch, and maple. The oak, he said, represented the Calvinistic framework of the church; the poplar, the free civil government fostered by the church; the black walnut, not painted or hidden, stood for the churches love of finish or individualism; the birch, with drooping branches, and clinging leaves, typified the sheltering church for the lambs of God and the message of love and sweetness, stood for the returning moderator and his sermon.

Paris, May 21.—The Athens correspondent of the London Standard writes of the recent defeat of the Greeks, telegraphing: "The stupor and panic caused by the latest defeat is intense. The people seem to be in a state of confusion. The Turks at Athens. On all sides families are preparing to go to the islands. Anxious crowds parade the streets, and there is a general feeling of despair. 'I learn that some shots were fired at the crown prince as he endeavored to stay the confusion. Two Greek battalions were sent to the city, and the retreating soldiers on entering Lamia could not be restrained by their officers. They shouted, 'The Turks are coming.'

Armistice Violated. London, May 21.—A dispatch to the Daily Mail from Berlin says: "The Post publishes a telegram from Salonica, dated May 20, stating that the armistice of Greece has been violated, and a vessel flying a Turkish flag. Five of her crew were drowned."

A Turkish Advance. London, May 21.—The Athens correspondent of the Daily Telegraph says: "Small bodies of the Turkish right wing in Thessaly advanced today toward the village of Divri. This is a flagrant breach of the armistice. The Turks have also pillaged the estate of the late Pasha of Fasha, the late Pasha of Fasha, near Sofia, taking away 38 wagon loads of furniture, burning dwellings, violating women and committing many other acts of pillage and outrage."

Attempts Against King George. London, May 21.—The Vienna correspondent of the Chronicle says: "A man named Raill, who has been arrested, is charged with the direct action of the powers. The Russian government warned M. Raill in the plainest terms that the powers were doing more for the sake of the dynasty than for the nation itself."

Greek Cabinet Dissensions. London, May 21.—An agreement by way of Vienna that serious dissensions have broken out in the Greek cabinet and the resignation of M. Raill is probable.

General Miles in Constantinople. Constantinople, May 21.—United States Minister Terrell escorted Major General Nelson A. Miles, of the United States army, to the American legation. He is to be in command of the American forces in the Balkans.

Banks Consolidate. New York, May 21.—Announcement was made today that the National City bank had decided to retire from business and transfer its assets to the National City bank.

Republican Sent to Congress. Washington, May 21.—The Republican senator who has a caucus Monday to consider the tariff bill. The first effort will be to devise plans to expedite the consideration of the bill, and there will also be an attempt to reconcile the differences of opinion as to the merits of some features. The principal object of the caucus, however, is to agree upon a plan for the amendment of the tariff bill, and under the present rules, this can only be done by mutual consent.

A Point of Law. San Francisco, May 21.—Naval Officer John P. Irish has notified Secretary of the Treasury Gage of the action of the San Francisco United States manufacturing bonded warehouse in this city in persisting in the shipment of adulterated brandy without the permit from the naval officer. The warehouse company maintains that, under the permit of the collector is sufficient. A decision from the secretary is shortly expected.

Shot by a Footpad. Omaha, May 21.—At 9:30 o'clock tonight, Dr. W. P. Wilcox was shot while resting at a footpad at the corner of Twenty-first street and St. Mary's avenue. An hour later R. Grier, a butcher, was shot by a robber in his shop at Thirty-third and Park streets, three miles away. The same man did both jobs. Neither of the victims is dangerously hurt. The robber got nothing in either instance.

Hanged for Murder. Folsom, Cal., May 21.—Benito Lopez, 70 years old, partially paralyzed and very feeble, was hanged in the state prison here today for the murder of George Washburn, a wealthy rancher. Lopez and Washburn were neighbors, quarrelled over their water supply and after an altercation Lopez shot Washburn.

Commissioner for Alaska. Washington, May 21.—The president today decided upon the appointment of C. C. Tuttle of Columbia City, Ind., as United States commissioner for Alaska, with headquarters at Sitka.

WRECKED THE BANK

President Johnson Took Two Hundred Thousand Dollars.

AND NOBODY KNOWS WHAT FOR

A Quiet Unassuming Gentleman Accused of Embezzlement, Misappropriation, Official Deception and Forgery—A Mysterious Affair—Saved One Creditor.

Logansport, Ind., May 21.—There were sensational developments today in the bank ledger. This morning Bank Examiner Caldwell swore out an affidavit charging John E. Johnson, president of the State National bank, with embezzlement, misappropriation of funds, and an intention to receive and defraud the bank and the bank examiner.

Forgery is also charged against President Johnson, and the examiner thinks that the amount swindled is \$200,000. He is alleged to have embezzled \$100,000 of bank funds, \$50,000 of which was concealed in a certificate of deposit and \$50,000 in the individual ledger. The arrest will likely take place in the morning. President Johnson is charged with forgery of the names of prominent business men to a total of 30 names.

Money Was Secretly Borrowed. The money was secretly borrowed from the funds of the bank, not one of the depositors having any idea of such a proceeding on account of the unusual concealment placed in the ledger. The money was used to place to the stockholders by Johnson, who is making every effort to save himself.

President Johnson has protected one of his private creditors, in the person of a one-legged boy named Charles Helman. He was guardian of the boy and had \$7,500 of his money. To keep the boy safe, or nearly so, he has decided to bring property in this city, valued at about \$2,000. The other private creditors will likely lose all of their claims, as Mr. Johnson is now without any money. One hundred thousand dollars worth of property has been deeded to the bank during the last 24 hours.

A Mysterious Affair. President Johnson is a quiet, unassuming man, with no bad habits, and was not expected to be involved in a scandal of this kind. He would make no statement tonight for publication, and is quietly waiting at his home for the officers to arrest him. It is claimed that he is a man of high standing in the community, and Johnson used claims against the estate of his late father, of which he is administrator.

ROBBER SHOT DEAD. Attempted to Hold Up an Electric Car Near Tacoma. Tacoma, Wash., May 21.—A single robber late this afternoon held up an attempted to rob an incoming car on the Seilaocom electric line. About four miles out of the city a tall man roughly dressed, hailed the car and stopped it. He then stepped out and got on the platform he pulled a blue dotted galico mask, having holes cut through for eyes, and held it over his face, and demanded the contents of the car.

Robbing the Passengers. Dame and Wellman had entered a rear compartment used for carrying baggage and the robber evidently thought them safely disposed of, for he paid no more attention to them, but commenced relieving George B. Evans, a contractor, of his valise. The man he commanded William E. Hacker, a broker, to stand up and be searched.

The Robber Shot. In the meantime Superintendent Dame also considered the robbery a matter of life and death, and ordered the men and passengers to hold up their hands, and the ladies to sit still. The robber fired a bullet into the front platform and fell off the steps, head downward. His feet were resting on the track.

Body Not Identified. The robber's body was placed on the car and brought to town where it lies at the morgue waiting identification. He has very dark hair, dark blue eyes, and a dark brown mustache. He was six feet two inches tall and apparently 35 years old, but the only distinguishing mark is a heavy dent or scar, apparently an old bullet wound, which commences in the center of his forehead at the roots of the hair and extends upward an inch and a half.

WILL USE ELECTRICITY. The New York Elevated Railroad Will Adopt the Third Rail. New York, May 21.—After more than two years of search for the most practicable and economical motive power, the Manhattan railway company has finally decided to adopt electricity and truck system. The system is what is known as the "third rail."

Assigee's Report. Cripple Creek, May 21.—Henry M. Clark the assigee of the Cripple Creek mine, today completed his report and will file it with the court tomorrow. Mr. Clark says that he finds the bank has \$12,000 of deposits and \$8,000 in cash on hand. The assets will be more than ample to pay every depositor in full.

Denon Mine Leased. Denver, May 21.—A special to the News from Santa Fe, N. M., says that the Denon mine in South Santa Fe, owned by Wilson Waddingham of Philadelphia and the estate of E. Hain of San Francisco, has been leased to M. Foree, of Denver, under a working bond and lease running two years, consideration \$50,000 and a royalty on all ores extracted. In 1884 a 100-foot shaft on the property yielded \$90,000 in gold.

Suicide at Helena. Denver, May 21.—Special to the News from Helena, Mont., says: P. G. Martin, of Denver committed suicide here by shooting yesterday, but his body was not found until today. From letters found on his person it was learned that he has been section foreman on several Colorado roads and was a member of the Odd Fellows lodge at Trinidad, Colo. He came here from Butte. He had \$88 and a fine gold watch on his person. No cause is known for the deed.

Cuba in the House. Washington, May 21.—No official information could be obtained today as to what action the house may take on the Cuban resolution, but it was understood that Speaker Reed would have a conference with the president on the subject at an early day and no action could be taken until after that conference.

SLAPPED HIS FACE

Spain's Minister of Foreign Affairs Lost His Temper.

BUT A DUEL IS UNNECESSARY

Spanish Honor Vindicated at the Cost of a Conference of Seconds—The Result of a Misunderstanding—The Provocation Decided to Have Been Mutual.

Madrid, May 21.—The Duke of Tetuan, minister of foreign affairs, has resigned as a result of the incident in the senate today, when he boxed the ears of Senator Comas.

Must Have Satisfaction. Senor Canovas, the premier, will take the portfolio ad interim. The Liberals of the senate have decided to attend no more sessions of the senate until full satisfaction has been accorded to Senator Comas and the Liberal party by the Duke of Tetuan.

Preparing for War. Madrid, May 21.—The Duke of Tetuan and Senator Comas have selected seconds as a preliminary to a duel.

On Second Thoughts. Madrid, May 21.—The seconds of the Duke of Tetuan and Senator Comas have decided that a duel is not necessary.

Comas a Fire Eater. Note—Senator Comas is probably Professor Comas who in June last in the Spanish senate, supported the amendment to the address adopted by the statement of the Duke of Tetuan might be cancelled on the ground that they were a source of constant danger to the peace of Spain and the United States. The Duke of Tetuan, who is now minister of foreign affairs, is a man of high standing in the community, and he looked on as inevitable.

ALL ABOUT IT. Details of the Affront as Furnished by Cable to America. (Copyrighted 1897 by The Associated Press.) Madrid, May 21.—The exciting incident which culminated in a free fight was provoked by the statement of the Duke of Tetuan that Senator Sagasta's speech the other day to the Liberals had contributed to bring about the vote in the American senate.

What Pando Said. General Luis Pando said: "The thing now happening is due to the cowardice and feebleness of the government."

What Comas Said. Senator Comas said: "You will discuss that tomorrow."

What the Duke Said. "We will discuss it," replied the Duke of Tetuan, "but I will accept dictation from nobody."

Words of Affront. "Nor I sit," retorted Senator Comas, at the top of his voice.

First Round. At this point the Duke of Tetuan pale and struck him with a blow on the forehead. Several seconds intervened and a general scuffle ensued, with great confusion, and it was some time before order was restored.

Tendered His Resignation. The Duke of Tetuan tendered his resignation immediately after the incident. It is believed that he misunderstood the reply of Senator Comas, as he is regarded as an extremely courteous and honorable man.

Senator Comas is a professor in the university of Madrid, and is held in high esteem in scholastic and professional circles. He is a member of the senate and the president of the senate had a long conference on the subject of the affair this afternoon, but all maintain the greatest reserve.

The World Still Turns. The senate resumed its session this evening but no reference was made to the incident. It adjourned at 10 o'clock, after which the immediate action was taken by the Duke of Tetuan and Senator Comas for an hour before the seconds decided that under the code duello a duel was unnecessary.

Opinions Exchanged. In the course of his reply to the interpellation, Senor Canovas said that the exchanges of opinion between Spain and the other European powers on the subject of Cuba, and the general opinion in the lobby is that the president and Secretary of State have shown great reserve in defining their views and this attitude had led the government to believe that they were unwilling to offer any effective intervention between Spain and the United States. The exchange of views had been friendly, but Spain had refused the proffered mediation.

Colorado Musical Festival. Denver, May 21.—The closing scene of the Colorado May Musical Festival to night was an brilliant one. The great chorus and orchestra and the soloists rendered Hayden's "Creation." The soloists were Mme. Generra Johnston-Bishop, soprano; Harry J. Fellows, tenor; and Jules Lumbar, basso.

Railway Trainmen. Toronto, May 21.—The Brotherhood of Railway Trainmen convention this morning, two important changes were made in the constitution. The first reduced the age for membership from 21 to 18 years and the second made a trainman eligible for admission after six months service, instead of one year, as heretofore.

Matthew Latlin. Chicago, May 21.—Matthew Latlin, one of the oldest residents of Chicago, and one of the founders of the city, died at an early day and an action could be taken until after that conference.

REVIEWS OF TRADE Dun's and Bradstreet's Weekly Commercial Summaries.

EVIDENCE OF IMPROVEMENT General Increase of Commercial Loans—A Gradual and Continuing Increase in Volume of Business and in Demand for Manufactures The Week's Stock Market.

New York, May 21.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: Unmistakable evidence of improvement comes in the general increase of commercial loans, mostly for eastern merchants or companies, though some well known houses in the middle west appear with considerable re-discounts from the south. Not for a long time have commercial loans been fully half the whole. The distinct change gives proof that new evidence has been larger than many have supposed. Receipts of money from the interior exceed shipments \$1,500,000, mostly from the middle west. Exports of gold have no influence and only slightly the willingness of Russia to pay a price for the gold needed. The excess of merchandise imports to answer demand for half a year to come involves a greater excess of exports, with the anticipatory movement ends and crops begin to move, which fact renders large outgoes of gold less likely and the general market more international markets. Meanwhile there is a continuing increase, distinct though gradual in the volume of business in demand for products of manufacture and in demand for grain and produce.

Wheat Receipts. Western wheat receipts exceed last year's for the week, 2,384,189 bushels against 1,788,000 and exports were 1,800,733 bushels, hour included, against 1,202,491 last year, and for three weeks 4,778,722 against 3,385,910 last year. Western receipts of corn were 1,655,677 bushels against 1,679,000 last year, notwithstanding the enormous increase hitherto. Wheat again cheated hopeful buyers and fell nearly 4 cents, closing 9 1/2 lower for the week.

The Iron Industry. The iron industry has quite an increase in new business though not in all branches. Part was due to the rupture of iron from \$1.50 to \$1.35 nominally quoted and some good structural contracts were at once secured. Part is due to a better demand for plates and pipe, of which one large contract for Indiana fields was placed and the growing need for cars and vessels. There is some increase in rods, though the season for wire and nails is nearing an end because of an unexpected pool of rod mills. Low southern freight rates marketed a little more iron at the north and eastern foundry is slightly lower with grey iron only \$3.25 at Pittsburgh. The Carnegie works are now turning out 3,000 tons of rails daily, nearly all on old orders, and exports of finished products increase. Sales of copper, said to be nearly 80,000 pounds have stiffened the price to 1 1/4 for lake and tin rose to 15 1/2 cents, in spite of large arrivals, though lead was weaker at 3 1/2 cents and tin plates at 8.30. Coke is also shade lower.

Sales of Wool. Sales of wool decreased though still greater than when all the mills were busy, but manufacturers are doing scarcely anything, most of their possible demand for months ahead having been placed. The western holders begin to offer at 1 to 1 1/2c lower than of late.

St. Louis Review of Trade

New York, May 21.—Bradstreet's tomorrow will say: The slight improvement in trade is in the tendency of business to increase at a few cities in the northwest, on the Pacific coast and South Atlantic and Gulf states. There is increased buying at Baltimore, Atlanta, Birmingham and New Orleans, where there has revived on the announcement that northern Louisiana, Mississippi and Arkansas flooded districts are being placed under cultivation, and that the damage is less than expected. There are increased sales at Milwaukee, Omaha, Chicago and St. Louis, and exports of general merchandise and lumber from San Francisco have increased. Advice from California are that lack of seasonable rains and long continued dry winds have injured the wheat and fruit crops. Larger eastern centers report the movement of merchandise slow and trade dull. The season is so far advanced that no general improvement is looked for until after fall buying sets in. Industrial disturbances have marked building and other industries, notably clothing, mining, iron and steel. The tariff on raw wools are well stocked with raw material, but owing to slowness of orders prices are easier. Makers of cotton goods are at a disadvantage owing to the relatively high price of cotton and the increase in production of products. There is no gain in demand for iron and steel, prices for which continue low. The report that steel rail, wire and billet makers are trying to form a pool to advance prices, is not confirmed. There are 25 business failures this week in the United States which is not far from what may be called the normal. This total is compared with 23 last week, and 21 in the third week of May, 1896. There are 21 business failures reported on the same time, week, compared with 21 last week; 28 in the week a year ago, and 25 two years ago.

Bradstreet's Stock Review

New York, May 21.—Bradstreet's review of the stock market tomorrow will say: Irregularity in prices and a completely professional speculation has been witnessed in Wall street this week. The discussion of the Cuban question in congress has kept the public out of the market and caused London to avoid our securities for the time being, though prices for Americans there sympathize in some measure with the better feeling resulting from the armistice between Greece and Turkey and the prospect of peace in the Levant. Favorable crop reports from the west gave a strong undertone to the traders and induced covering of short contracts in that group, although the uncertainty about the Cuban development at Washington evidently prevented a large interest from taking the initiative on the bull side. The tariff has been, for the time being, obscured by the more interesting developments in connection with our foreign relations and American Sugar stock has been less active than usual, with a prevailing pressure based on predictions that the amended sugar schedule will be rejected.

The Market as a Whole

The market as a whole behaved well on Friday in the face of the adoption of the Morgan billency resolution by the senate on Thursday evening. There was no demoralization of prices, the minute time speculators having apparently been prepared for such an outcome of the agitation and short covering caused a pretty general improvement in prices at the close, although the street paid little or no attention to change market. The latter was unsteady the gold shipping outlook and the foreign exchange market. The latter was unsteady at rather lower rates and the only gold exported this week is \$1,200,000 by European neglected at slight recoveries. It is asserted that the Western Union dividend rate will be unchanged and that the internal differences, if any exist, in the management of the Gould companies, have been healed.

Struck by a Cable Car

Washington, May 21.—Representative Thomas H. Tongue of Oregon, was struck by a cable car near the corner of Pennsylvania avenue and Sixth street tonight and painfully injured. He received a number of severe cuts and bruises. Mr. Tongue had just returned from a trip to Charlottesville and Monticello. He was taken to Providence hospital where it was found he had sustained a cut on the left cheek and another over the left eye. No serious consequences are apprehended.

BASE BALL

Table with columns: Standing of the Clubs, Played, Won, Lost, P. C.

Cincinnati-Baltimore

Cincinnati, May 21.—The Baltimores were again defeated by the Reds in an exciting game, the latter making three runs in the ninth. McGraw's "Swing" was again put out of the game by Umpire Sheridan, Reitz going to second, and Quinn taking McGraw's place at third. Attendance, 8,000. Score: Cincinnati.....0 0 2 1 0 0 0 3 5-6 Baltimore.....2 1 2 0 0 0 0 0 5-5 Base hits: Cincinnati, 9; Baltimore 10. Errors: Cincinnati 2; Baltimore 3. Dammann, Rhines and Schriver; Pond and Robinson. Earned runs: Cincinnati 3; Baltimore 2. Two base hits: Stenzel, Robinson, Miller. Three base hits: Kelly, McPhee. Stolen bases: Keller, Burke, Hoy. Double plays: McPhee to Vaughn. First on base: Off Dammann 2; off Rhines 2; off Pond 3. Hit by pitched ball: Rhines 1. Struck out: By Dammann 1; Rhines 2. Passed ball: Schriver. Wild pitch: Pond. Umpire, Sheridan.

Pittsburg-Philadelphia

Pittsburg, May 21.—In Philadelphia's ninth inning, when the game was well won by Pittsburg, Hawley's men to bases on balls. Orth's single filled the sacks and Delehanty's three bagger scored the three runs and tied the score. Orth and Collins put up his daily home run. The Browns held well with the exception of Houseman, but could not hit. Nichols. Attendance 700. Score: Pittsburg.....1 0 0 1 3 0 0 0 1-6 Philadelphia.....2 1 0 0 0 0 0 3-5 Base hits: Pittsburg 14; Philadelphia 9. Errors: Pittsburg 1; Philadelphia 2. Hawley and Merritt; Wheeler, Orth and Clements. Earned runs: Pittsburg 1; Philadelphia 2. Two base hits: Donnelly. Three base hits: Davis, Delehanty 2. Sacrifice hit: Brodie. Double plays: Wheeler, Gillen and Boyle; Cooley and Nash. First on base: Off Hawley 5; off Wheeler 2; Orth 1. Hit by pitched ball: Lajoie. Struck out: By Hawley 1. Umpire, Hurst.

Boston-St. Louis

St. Louis, May 21.—Donahue was a perfect snap for the Bean Eaters today, and the game went to Boston on the strength of their batting. Duffy made two four-baggers and Collins put up his daily home run. The Browns held well with the exception of Houseman, but could not hit. Nichols. Attendance 700. Score: St. Louis.....1 0 0 0 0 0 0 0-1 Boston.....0 1 0 2 2 5 1 0-11 Base hits: St. Louis 4; Boston 16. Errors: St. Louis 3; Boston 1. Donahue and Murphy; Nichols and Bergen. Earned runs: St. Louis 1; Boston 8. Two base hits: Hartman. Three-base hits: Turner, Stahl, Long. Home runs: Duffy 2, Collins. Stolen bases: Bergen. Sacrifice hit: Long. Double plays: Turner and Douglas. First on base: Off Donahue 3; off Nichols 1. Struck out: By Nichols 1. Umpire, Lynch.

Louisville-Brooklyn

Louisville, May 21.—Both teams made the same number of hits and errors today, but the Brooklyn's runs were a trifle more than the Louisville's. Score: Louisville.....2 0 1 0 0 2 4 0-6 Brooklyn.....2 0 1 0 0 2 4 0-6 Base hits: Brooklyn 13; Louisville 13. Errors: Brooklyn 3; Louisville 3. Payne and Grim; Fraser and Wilson. Earned runs: Brooklyn 5; Louisville 4. First on base: Off Fraser 1; off Payne 4. Struck out: By Fraser 2; by Payne 2. Home runs: Shindle, Stafford. Three-base hits: Griffin. Two base hits: Warden, Wilson, Rogers, Shindle. Sacrifice hit: Sanderson. Stolen bases: Fraser, Shindle, Anderson. Passed balls: Grim 2. Umpire, McDermott.

Cleveland-New York

Cleveland, O., May 21.—No game; wet grounds. Other Games. At Rockford—Rockford 10; Burlington 7. At Dubuque—Dubuque 11; St. Joseph 8. At Cedar Rapids—Cedar Rapids 8; Quincy 2. At Minneapolis—Minneapolis 5; Grand Rapids 4. At St. Paul—St. Paul 13; Indianapolis 13. At Milwaukee—Milwaukee 3; Columbus 8. At Peoria—Peoria 5; Des Moines 12. At Kansas City—Kansas City 2; Detroit 6.

Export of Silver

New York, May 21.—The steamship Campania will take out tomorrow 337,000 ounces of silver.

COLORADO CITY

The "Confidential Clerk" will be produced at the rink in Colorado City next Monday evening, May 21. A special communication of Colorado City lodge, No. 76, A. F. and A. M., will be held this evening at 8 o'clock. Work will be performed in the E. A. and F. C. degrees. Visiting brethren will be welcome.

CHILDREN'S PARTY

Celebration of an Anniversary by Little Maids. Miss Florence Stevens, the youngest daughter of Mr. and Mrs. H. H. Stevens, gave a birthday party yesterday afternoon to a few of her friends. The little guests were most enjoyably entertained and had a very pleasant time. Dainty refreshments were served and each diminutive maid was presented with a very artistic box of choice candy.

FLAG DAY EXERCISES

Beautiful Ceremonies at All of the Schools Yesterday—Work of the Children—Addresses.

The flag day exercises at the different primary schools yesterday were most interesting, and the attendance at all of the schools was very large. Parents and friends of the pupils visited the different schools and were highly pleased with the work of the children and the method of instruction of the teachers. The drawing of the scholars in the primary grades was something remarkable for children so young. Mr. Aiken, of Aiken's music store kindly loaned a number of stuffed birds to the children to be used as models in drawing and the children were very grateful for the loan. Their efforts in this direction were worthy of older pupils. The flag raising ceremonies were short and impressive. At each school building "Old Glory" was run up to the top of the long flag staff, the children stood with bared heads. Even the tiniest child there seemed to appreciate that the pretty flag represented "liberty and justice to all." Patriotic addresses were delivered at the various schools by the following speakers: Liller, Prof. Parsons, Lowell, Rev. Manly D. Ormes, Garfield, Rev. Thompson, Lincoln, Judge, Washington, Rev. W. H. W. Boyle; Bristol, Mrs. DeTolliver; Roswell, Rev. Pink biner.

OWENBY SKIPPED

He Decided That Manitow Was No Longer a Health Resort for Him—Victims Mourn.

Jesse Owenby, a painter and carriage maker, who first located in Manitow last winter, is in trouble or at least he would be if the officers who are looking for him had him under control. Owenby is a record breaker in his home to promoting his own thrift at the expense of somebody else. A few of the various charges against him are for mortgaging property which did not belong to him, in some instances twice, much to the disgust of several parties who had left vehicles in his shop to be repaired. Among the victims who owned the vehicles are Wallace Gould, Chas. Broughton and George Snider, and there are several people who hold first and second mortgage given to them by Owenby, on which some of them are now wondering how they are going to realize. Owenby was arrested Friday on complaint of Mr. Broughton, the mail carrier and expressman of Manitow and when taken to Justice Francisco's court, agreed to fix the matter up if Broughton would give him \$100.00. Owenby's wife, Mrs. Nettie Harrison, who lives with him, or Owenby's, but Owenby gave Broughton the slip, there, and has not been seen since. Broughton then returned to Manitow, and an investigation at the residence developed the fact that Mrs. Owenby had taken her children and trunks, and had been driven up the Life Pass to Cascade, where she took one of the mail carriers' houses, but it is not stated in which direction. The sudden disappearance of the woman leads the officers to believe that both of them were about ready to leave the country when Owenby was arrested. It is believed that he will be apprehended again in a few days, and his victims declare that they will sue him to a finish if they ever get Owenby in their hands again.

SUCCESS REPORTED

Very Satisfactory Response to the Appeal for Famine Sufferers. One of the canvassers for the India famine relief fund has completed the portion of the city assigned him and reports the most gratifying success. In two blocks he collected \$12, the individual subscriptions ranging from 5 cents to two dollars.

"I met with the most courteous treatment," said the canvasser, "and found very few people indeed who declined to give anything. Those who said they were unable to give large sums, gave me the small amounts counted up, and it is an actual fact that the nickels and dimes I received amounted to sufficient to keep 50 men from death by starvation for a month." "The two blocks that I canvassed were not well built up and the residents were by no means all wealthy, or those best able to give, but in the rear of the averages as well we will be able to send a generous sum from Colorado Springs."

CHILDREN'S PARTY

Celebration of an Anniversary by Little Maids. Miss Florence Stevens, the youngest daughter of Mr. and Mrs. H. H. Stevens, gave a birthday party yesterday afternoon to a few of her friends. The little guests were most enjoyably entertained and had a very pleasant time. Dainty refreshments were served and each diminutive maid was presented with a very artistic box of choice candy.

Only One Beauty Doctor IN AMERICA. Has been permanently successful, and that one is Mrs. Nettie Harrison. For nine years she has been located in San Francisco, where she has been questioned by the largest dermatological institute in the United States. That Mrs. Harrison has been enabled to conduct an ever increasing business during this long period proves her absolutely reliable. Mrs. Harrison has now opened branch parlors in this city for the greater convenience of the many ladies here who are unable to travel to San Francisco. Parlor treatment, harmless and sure, will be given for Wrinkles, Freckles, Pimples, Warts, Moles, and all facial blemishes and their removal positively guaranteed. No artificial complexion or "enamelled" face, but the natural color restored since the discovery of that wonderful scientific skin food, Lolo Montez Creme. The skin absorbs it—feeds on it—and is purified of Blemishes. Wrinkles are filled out and healthy color restored. Naturally beautiful complexion is made proof against the ravages of time, work and worry. MRS. HARRISON uses it. She is 40 and looks 25. Jar, lasting three months, 75 cents.

Spring Clothes. New Styles, new colorings, new ideas expressed in the suits, top coats and trousers that make up our new Spring stock. Sale of Colateral.
Notice is hereby given that whereas,
on to-wit, October 2, 1896, D. T. Reynolds
executed and delivered his certain
promissory note for the principal sum of
fifty (\$50.00) dollars due six months after
date thereof, with interest thereon at the
rate of two per cent per month, said
principal and interest being payable at
the office of F. B. Wortman, Colorado
Springs, Colorado, at which time said
Reynolds duly transferred and delivered to
the undersigned, twenty-five thousand
(\$25,000) shares of the capital stock of the
Johns Gold Mining company, a corporation,
as collateral security for the pay-
ment of said note, according to its tenor
and effect; and
Whereas, said D. T. Reynolds has wholly
failed to pay the debt evidenced by said
note and interest thereon, according to
its tenor and effect, and the expenses of
said note;
Now, therefore, I, Henry L. Gregg, the
undersigned, and the present holder of
said note, will on the 24th day of May,
A. D. 1897, at the hour of 10 o'clock a. m.,
or said day at the office of F. B. Wortman,
Colorado Springs, Colorado, at which time
said shares of the capital stock of the
Johns Gold Mining company, or such
much thereof as may be necessary, for
sale to the highest bidder therefor, cash
in hand, for the purpose of paying said
note and interest thereon, according to
its tenor and effect, and the expenses of
said note.
Dated at Colorado Springs, Colorado,
this 12th day of May, 1897.
Henry L. Gregg,
By F. B. Wortman, Agent.

Kansas City Live Stock.
Notice is hereby given that the annual
meeting of the stockholders of the
True Plaster Gold M. & M. Co. com-
pany will be held on Wednesday, the 25th
day of May, A. D. 1897, at the office of the
company, No. 13 Hagerman building, Col-
orado Springs, Colorado, at 3 o'clock p. m.,
for the election of a board of direc-
tors of said company, and to consider and
act upon proposed amendments of the ar-
ticles of incorporation of said company,
increasing the amount of the capital
stock to not exceeding \$1,500,000, and for
such other business as may properly come
before such meeting.
The transfer books will be closed on the
19th of May, 1897, and remain closed un-
til two days after the final adjournment
of said meeting.
Dated Colorado Springs, Colo., May 10,
1897.
William H. Corlin, Jr.

TOMORROW'S PAPER.

The one illustrated story alone, descriptive of the great generals of Europe which will appear in the Sunday Gazette is well worth the price paid for the paper.

"They Turn May Flowers Into Money" tells of the enormous fortunes made by the petesses of Spring. It appears there is more money in writing about spring blossoms than in raising them.

"Amazons in the Queen's Drawing Room" is a woman's article about the fashionable figure and how to obtain it. It seems the queen has smiled upon the new athletic fad and all her ladies are enthusiastic regarding it.

"At Tattersall's" one may read of the famous market place outside of Lexington, Kentucky.

"The Christening of a Wheel" is another society amusement which is being taken up by wheelers all over the country. It is a fad of the fads and to have a wheel christened by a scotcher is just the order of the day.

Miss Goodwin writes of ball gowns for the Queen's Jubilee and she describes three dresses that are being made for prominent Americans.

All the news of the world by wire will be in tomorrow's paper. Order it now.

VERTICAL WRITING IN SCHOOLS

Of the exhibits at school work which were shown to the public on Friday none attracted so much comment as the writing according to the vertical system.

Another point that is worth attention is that a larger number of pupils may become good writers by the vertical system than by the more artificial methods.

The vertical system not only approaches much closer to the forms of the printed letters, but is much simpler and involves a less expert manipulation of pencil or pen.

It is not to be supposed that the papers put on exhibition yesterday were selected as the poorest of their class, but even admitting that they were the best, it is highly improbable that an equal number of really first-class specimens of penmanship could have been selected from the grades in the days of the Spencerian or other old-style system.

The vertical system will find much less difficulty in retaining the benefits than did the scholars of former days. The reason for this is evident. The new style aims at simplicity. There is no easier way to make a letter than that which is taught in the vertical system, and rapidity of writing tends to drive one towards the model rather than away from it.

POSSIBLY ANOTHER WAR.

Little Japan has rather an exalted idea of its own importance at this time, and the alarm in Europe regarding a possible war between Russia and Japan may have foundation.

It is thought that the extraordinary extension of the armaments of Japan point to the fact that the Mikado is determined to provoke a war with Russia before the

later has time to complete her Trans-Siberian railroad. The New York Tribune, which has been following up the rumors very closely, says that Japan's annual estimates prior to her conflict with China amounted to \$100,000,000. The budget for the present year, however, exceeds \$300,000,000, of which \$100,000,000 is to be devoted to increasing the size of the army and navy.

"Japan and Russia are equally determined rivals for supremacy in the North Pacific, and if the respective size of the two countries causes at first sight the notion of Japan as a serious antagonist to Russia to appear ridiculous, it must be remembered that, until the Trans-Siberian railroad is completed, the czar is not in a position to bring his army to bear upon Japan.

It is not in a position to bring his army to bear upon Japan. Russia would, therefore, be compelled to rely solely upon her naval squadrons, and, inasmuch as she could not possibly concentrate her entire fleet in northern Pacific waters, and is, moreover, without any naval yard or dock of any size in the far east, Japan would have distinctly the advantage.

More-over, Japan has recently emerged victorious from a struggle with a nation of 300,000,000, and therefore is not likely to be impressed by the size and bulk of her antagonist." In two years hence Japan will have trebled all her existing armaments and inasmuch as it is impossible that she should bear beyond that time the terrible financial strain imposed upon her by her present naval and military expenditure, a conflict some time between now and then with Russia may be expected, the Japanese press expressing the opinion that it is only a war of this kind that can save their country from ultimately becoming a Russian province.

The Boers on this subject in his own piece-conversation with the president of the Orange Free State. Paul recently remarked "that trouble with the English and trouble with the Germans are very different things. If people fall out with the Kaiser he may send an army to crush them, and there's the end; but if you fall out with England you need only wait a bit, and the more one party is against you the more the other party will come to your side."

If you write a letter to a person in the United States you can enclose a stamp for a reply, but suppose you write to someone abroad and wish to prepay the answer, how are you to do it? If you have a son, and he has a collection of foreign postage stamps, you may be able to rob his collection and accomplish it, but ordinarily you cannot do it.

The International Postal union is in session in Washington this month, and it is desired that it shall authorize the issue of an international postage stamp, which shall serve this purpose of prepaying the reply to a letter to a foreign correspondent. Such a stamp should avail to carry a letter from any one of the countries in the Postal union to any other, it should be for sale in all countries, but need not supersede the ordinary stamps, as its chief use would be this one of prepaying replies.

The corner stone of the new building will be laid during commencement week; work will be pushed, and the building ready for occupation in September. It is to be of stone, will be supplied with all modern conveniences, heated by steam and lighted by electricity. It will serve as a home for the club for young women which, during the past year, has been most successfully conducted in a private house in the city.

An attempt will be made by an English syndicate to reclaim thousands of acres in the Flint Hill region of Kansas. It is to be hoped the scheme may prove successful. If we remember correctly, several years ago the state apportioned about \$200,000 to solve the drainage problem of the machinery is now covered with rust and scattered over the plains of western Kansas.

Comments and Clippings. Chinese cannot be telegraphed, and to meet this difficulty a cipher system has been invented by which messages in that language can be transmitted over the wires.

The article in the Railroad Gazette asserts that the forcing of civilization upon China is dangerous business. There is present force, of course, in conquering the apathy of the conservative people and in besting the opposition of the Mandarins class, the benefit of accidental inventions and methods, but, as the writer says, "no one ever considered what will be the result when a rejuvenated race, conscious of its own numerical strength, armed with our knowledge, should resent the masterful spirit displayed by us."

The more one hears of the motives which led Lulu Hurst, or Mrs. Paul Atkinson, to give her more dignified name which the "Georgia Wonder" now bears, the more one is struck by the mysterious power which has made her fame, the stronger is the inclination to regard her as a really remarkable woman.

The ravages of disease and famine in the island are attested by the consuls. Under the barbarous decrees of privations and want of food attend the people who are driven into the towns, and great mortality among them is spoken of. The doctor has desisted from his homes of some of them, as well as the crops and the machinery on the estates which gave them work.

It has been asserted that Chancellor Von Hohenlohe during his recent visit to Paris had a discussion with M. Hanotaux concerning African affairs, and that the outcome of the interview was an understanding that France would cooperate with Germany in offering moral support to the Transvaal. Germany in return having promised France her cooperation in the Egyptian question.

A school teacher at Port Alleghe, N. Y., the other day received the following note: "My boy tells me that when I think he der overcoat from my stomach gets too thick. Please be so kind and don't interfere in my family affairs."

MAYOR'S PROCLAMATION.

The use of water for sprinkling lawns and gardens is prohibited in that part of the city lying north of Pike's Peak Ave., including Ward 5, except between the hours of 5 o'clock a. m., and 12 o'clock noon.

and in that part of the city lying south of Pike's Peak Ave., including Colorado City and La Vergne, except between the hours of 12 o'clock noon and 7 o'clock p. m.

Dated Colorado Springs, April 21, 1897.

AT LAST IT PASSED

The Building Ordinance Finally Endorsed Last Night.

SPECIAL SESSION OF COUNCIL

An Agreement Made with the D. and R. G. Road will be Signed—Building Ordinance Again Read and Voted Upon—Rouse Opposes in a Long Speech—Council will Attend a Lecture.

One solitary spectator was kept in order last night by the city police on the occasion of a special meeting called by the mayor for the transaction of certain hold-over business. They cleaned up all outstanding propositions and the city clerk's file is for once not a mass of documentary complaints and applications.

Promptly at 7:30 order was called and immediately Clerk Smith read an agreement between the Denver and Rio Grande and this city. It was in the nature of a permit to lay a water pipe under the tracks of the railroad on the Mesa road crossing.

Section by section was rapidly gone over without comment. At the conclusion it was moved and seconded that the ordinance be placed upon its passage. This was unanimously carried. Before the motion to finally pass, Alderman Rouse arose and carefully stated the reasons for his opposition.

Section by section was rapidly gone over without comment. At the conclusion it was moved and seconded that the ordinance be placed upon its passage. This was unanimously carried.

Section by section was rapidly gone over without comment. At the conclusion it was moved and seconded that the ordinance be placed upon its passage.

MINES, STOCKS AND INVESTMENTS.

Colorado Springs Mining Stock Association.

Colorado Springs, May 21.—As far as quantity was concerned, business was considerable improvement at the mining stock association as compared with the transactions consummated on the previous day. This is about the best that has been said of the market, which is not very high praise when it is remembered that the previous day's record is the worst of the year. It is decidedly the present day's business in the past 18 months. In general, most prices remained about the same although the majority of the stocks had a slight downward tendency and a very few climbed upwards. While no great advance was made, the decline was also slight, which left the market practically in the same condition as it has been for a week past.

Elkhorn Consolidated was decidedly the most active and sold to the extent of 5,700 shares. It started to go at 8 1/2 and had a couple of sales, including the last thousand shares which changed hands at 9 1/2, which appeared to be a very fair estimate of the price of the stock for the day.

Isabella made a very slight advance during the call, opening at 2 1/2 and closing at 2 3/4. At various times during the call it sold as low as 2 1/4 and as high as 2 3/4, and had slightly over 15,000 shares. The best stamp stock made was 31 and a couple of thousand shares changed hands at that figure.

Mollie Gibson made a slight advance and with 2,700 shares went as high as 1 1/2. Portland continues low at 4 1/2, and at present figures represents a 25 cent investment if the dividends are kept up.

Among the unlisted stocks Mountain Beauty, Arcadia Consolidated and many others were the most prominent and all went at about the previous day's prices.

The total sales amounted to 65,000 shares as against 28,000 shares on the previous day.

ELKTON PRODUCTION.

What Was Done by the Big Raven Hill Company Last Month—A Year's Production and Net Profit.

The Crosby-Ehrlich syndicate has just issued its monthly report of the affairs of the Elkhorn Consolidated company. A year's production, net profits, etc., are shown as well as the last month's business.

For the past twelve months the production has been as follows:

Month	Gross Returns	Net Profits
May	\$37,200	\$19,800
June	\$25,100	\$13,500
July	\$28,225	\$15,125
August	\$27,800	\$14,775
September	\$32,200	\$17,100
October	\$47,725	\$25,425
November	\$2,822	\$1,411
December	\$7,621	\$3,810
January	\$9,947	\$5,188
February	\$3,017	\$1,508
March	\$9,642	\$4,821
April	\$1,528	\$764

The figures for the year are as follows: Gross production, \$302,125; net profits, \$151,100. Returns on ore, \$20,800; net profits, \$10,400. Net profits, \$348,875.

The mine and office expenses are ascertained by subtracting the net profits from the returns on ore, which shows that \$174,022 has been spent in this manner, or about 28 per cent of the gross production. This is a showing, and one made by very few mines, reflecting considerable credit on the management.

The total dividends paid by the company amount to \$295,507, the last seven being \$200,000 per share. The cash reserve amounts to \$208,315.50 in the bank and in United States bonds. The May dividend had been paid when these figures had been computed.

Attention is drawn to the fact that the figures for April are in part estimated and cannot be accepted as exact—full returns on ore and full expenses for April not yet being known.

The diminution in production and profits for March and April is due to the fact that the company has temporarily been unable to confine their extraction to ore of low grade, whereas the expense of development has continued unabated. This policy leaves the high grade ore reserves just so much more extensive.

Reports from the northwest are that a rush to the Yukon region Alaskan has set in early, and that a considerable number of men have already started for the north. Some arrangements have been made to place steamboats on the navigable sections of the Yukon, and in other ways to reduce the difficulties attending transportation to the region. It is evident that the steamship and transportation companies are working up a boom in their own interest, and current newspaper references to the great riches of Alaska may be received with caution. Whatever the possibilities of the northern placers may be, it is absurd to talk of the "richest gold regions in the world," as we have seen paragraphs current in the exchanges headed. In any event the difficulties of the region are very great. The working season is short, the cost of living very high, and the risks to be undertaken seem large in proportion to the chances of gain. We have again to repeat the caution that only those who are well prepared for the undertaking are able to take care of themselves in case of failure at first should try the Yukon country.—(The Engineering and Mining Journal.)

Colorado Springs Board of Trade and Mining Exchange.

Colorado Springs, May 21.—The improvement in business on the board of trade today was particularly noticeable by reason of the fact that 20,000 shares of stock were sold than was the case on Thursday. Business was done in 16 stocks and the most active traders were Republic, Old Arcadia, C. K. and N., and St. Louis and Cripple Creek Tunnel.

Republic showed a falling off in price as against the opening quotation and also as compared with the figures of Thursday. Most of the transactions were made at 1 1/4 and at this figure it closed.

Pharmacist hovered about 8 1/2 and 9, although the biggest business there was done at the higher figure. Fannie B. sold uniformly at 2 1/2 to the extent of 5,000 shares while Buckhorn and Golden Age each had a couple of thousand sales, the first named going at 1 1/2 and the latter at 1 1/4.

Among the cheapest stocks Arcadia (old) was credited with 25,000 shares at \$3.00 per 1,000, and recorded a light improvement. C. K. and N. sold an even 10,000 shares at an even \$5.00 per 1,000, while Golden Dale sold to the extent of 24,000 shares at \$2.50 per 1,000. The St. Louis and Cripple Creek sales amounted to 20,000 shares and all but 5,000 went at \$3.50 per 1,000.

The total sales for the day amounted to 149,000 shares.

ELKTON PRODUCTION.

What Was Done by the Big Raven Hill Company Last Month—A Year's Production and Net Profit.

The Crosby-Ehrlich syndicate has just issued its monthly report of the affairs of the Elkhorn Consolidated company. A year's production, net profits, etc., are shown as well as the last month's business.

For the past twelve months the production has been as follows:

Month	Gross Returns	Net Profits
May	\$37,200	\$19,800
June	\$25,100	\$13,500
July	\$28,225	\$15,125
August	\$27,800	\$14,775
September	\$32,200	\$17,100
October	\$47,725	\$25,425
November	\$2,822	\$1,411
December	\$7,621	\$3,810
January	\$9,947	\$5,188
February	\$3,017	\$1,508
March	\$9,642	\$4,821
April	\$1,528	\$764

The figures for the year are as follows: Gross production, \$302,125; net profits, \$151,100. Returns on ore, \$20,800; net profits, \$10,400. Net profits, \$348,875.

The mine and office expenses are ascertained by subtracting the net profits from the returns on ore, which shows that \$174,022 has been spent in this manner, or about 28 per cent of the gross production. This is a showing, and one made by very few mines, reflecting considerable credit on the management.

The total dividends paid by the company amount to \$295,507, the last seven being \$200,000 per share. The cash reserve amounts to \$208,315.50 in the bank and in United States bonds. The May dividend had been paid when these figures had been computed.

Attention is drawn to the fact that the figures for April are in part estimated and cannot be accepted as exact—full returns on ore and full expenses for April not yet being known.

The diminution in production and profits for March and April is due to the fact that the company has temporarily been unable to confine their extraction to ore of low grade, whereas the expense of development has continued unabated. This policy leaves the high grade ore reserves just so much more extensive.

Reports from the northwest are that a rush to the Yukon region Alaskan has set in early, and that a considerable number of men have already started for the north. Some arrangements have been made to place steamboats on the navigable sections of the Yukon, and in other ways to reduce the difficulties attending transportation to the region. It is evident that the steamship and transportation companies are working up a boom in their own interest, and current newspaper references to the great riches of Alaska may be received with caution. Whatever the possibilities of the northern placers may be, it is absurd to talk of the "richest gold regions in the world," as we have seen paragraphs current in the exchanges headed. In any event the difficulties of the region are very great. The working season is short, the cost of living very high, and the risks to be undertaken seem large in proportion to the chances of gain. We have again to repeat the caution that only those who are well prepared for the undertaking are able to take care of themselves in case of failure at first should try the Yukon country.—(The Engineering and Mining Journal.)

AN ELKTON RETROSPECT.

The Crosby-Ehrlich Syndicate Devote Their Market Letter to It.

In their weekly market letter the Crosby-Ehrlich Syndicate say:

Feeling that in view of our long continued advice to purchase Elkton and the fact that the stock has declined on the hands of many of our clients it was our duty to afford such stockholders the most positive assurance as to the ample grounds for our advice and that their investment is a perfectly safe one, we have through the extreme courtesy of the Elkton officials, been permitted to have a careful and exhaustive examination made of the mine by our own mining engineer, in whose ability and integrity the most complete reliance can be placed. As our space does not admit of reprinting the full report and accompanying drawings, level of the Elkton part of the mine, we are sending you this letter to a summary of the most important statements and conclusions to be derived from the report in question, endeavoring to give you the gist of what is being done. Our engineer spent a number of days in carefully examining every part of the mine and was also accorded the privilege of making a level through the mine, and books and all records of shipments, assays, smelter and mill returns, etc. The only regret we have is that his report strikes at level below the Katherine vein, which is the vein that we have been through the Walter claim of the Elkton company, through which it continues, from end to end a distance of about 800 feet of ore, the largest vein of the Katherine ground is known as the Elkton vein, and the 800 feet north of the Katherine ground, though the same vein, is known as the "stoped out" vein, and the 800 feet above the first level, and about two-thirds stoped above the second level, as well as the level of the vein above the third level. The mine is developed in four levels 100 feet apart and, though there still remains a considerable amount of high and low grade ore above the fourth level, the Elkton part of the vein, our engineer has not reckoned in his estimates and values for this ore. The developments thus far have shown that the largest vein of the Katherine vein, in the Walter ground, as the hill rises rapidly north of the shaft, the first level extended northward through the center of the vein, and the depth of nearly 400 feet of ground, about two-thirds of which has been stoped already. Below the first level and down to the level of the vein, the mine is driven through this immense ore chute, there has been done practically no stoping, while the ore chute has been proven to be of the largest size and of great continuity as well as grade of value. Though the probabilities attachable to most of this part of the vein amount almost to assurance, our engineer has omitted the entire area from his estimates simply because it is not fully proven, no matter how strong the probabilities seem to be as regards large parts of it. Notwithstanding this unreasonable "chopping off" policy and the omission of values justly attributable to the Elkton part of the vein, he figures an assured gross value of the Elkton part of the mine at \$1,180,000. From this he deducts the cost of the mine, including the shaft and the cost of the development, and the cost of the extraction and sale of the ore, after deducting the expenses of the mine, he arrives at a net value of \$1,180,000. After going over his data and his report, we do not hesitate in stating that, in our judgment, it would still be conservative to increase his results at least 25 per cent, as to assured value on the basis of the above-mentioned assumptions. He states in closing his report that, in his opinion, the completion of the fourth level through the Walter ore chute will add an assured value of \$200,000 to the above-mentioned amount, while the prospective values, depending upon further development, are great and stronger than in the average mine of similar development.

Considering that our expert's calculations are based upon values derived from stopes, levels and winzes, the results may be accepted with even greater assurance than were he dependent entirely upon the usual methods of sampling and assaying. From his report it is easy to see that the stock of the company is selling far below its intrinsic and proven value, and that the market is not doing at \$70,000, and adding to that figure the cash reserve in bank and government bonds, which is about \$200,000, we have a total value of \$900,000 in the mine, and the 1,000,000 shares of outstanding stock, represents a value of 93 cents per share. Considering that the estimate is unquestionably low, and that the value of the stock is a liberal allowance ought to be made for the exceptional prospective value of this property (which latter is being rapidly transformed into assured value) and also considering the fact that the property is honestly and economically administered and worked, in no case has the prospecting been done for a perfect title to all that it claims, and in need of no costly equipment, we consider that the stock is intrinsically worth at least \$1.50 per share, and that it is conservatively. We believe that there is every reasonable assurance in support of this figure, while there is no prospect of a decline in value with any activity in mining stocks, it will easily command a price of \$2 per share without involving any undue risk or exaggeration of value, and that the stock is a safe investment. We are convinced that it is only the extreme depression of the times, the timidity of capital and the consequent inactivity in such securities that caused the Elkton stock to be quoted at the absurdly low figures obtaining today; and we are more sure than ever that it should be the part of the shareholder to purchase the stock at present quotations to the extent of his ability, feeling secure that he will receive a high rate of income while doing so, and be able to realize an enormous advance on his investment whenever we shall experience the expected improvement in times and conditions which are entirely independent of the irrelevant to the mine which forms the basis of intrinsic value for the shares of the Elkton Consolidated Mining & Milling company.

Protection to Investors.

In their weekly market letter Messrs. Rope, Key & Company say:

The business which is now being transacted on our exchange is of an unusual character.

Relative humidity at 12 m. 64. Relative humidity at 6 p. m. 64. Mean relative humidity 67. Mean dew point 39. Precipitation in inches .01.

Weather Indications.

Washington, May 21.—For Colorado—Partly cloudy weather, with showers and thunder storms; cooler; brisk northerly winds.

Money to loan at Wm. G. Shapcott agency.

Downs of "Cyclé Row" has the best bicycles—the great Columbia line.

Dr. Hayden, dentist, The Alta Vista.

Low rates up the peak today.

Penion and Crawford wheels, 13 Pike's Peak.

Mr. W. E. Snowden returned last night to Denver.

Mr. W. J. Spray was down from Denver yesterday.

Mr. J. W. Prouditt left yesterday for Glenwood Springs.

Mr. and Mrs. L. D. Sweet of Denver are visiting in the city.

Mr. Jackson Cochran of Denver is a guest at the Alta Vista.

Mr. A. Cuthell left yesterday on a pleasure trip to Los Angeles.

Mr. E. I. Starke of New York city is in the city on a business trip.

Mrs. S. B. Hille, son and daughter, will leave Monday for Mexico City.

Mrs. Otto Lieber and sister of Colorado City left last night from Chicago.

Mr. John A. Maynes of San Francisco is spending a few days at the Antlers.

Mr. F. Schapper and Mr. P. C. Schapper of Blue Island, Ill., are stopping at the Alamo.

Mr. J. W. Hawkins of Cripple Creek is in the city. Mr. Hawkins is a private detective.

An excursion from Pueblo on the Denver and Rio Grande road will arrive in the city this morning.

Mr. Rutter and family leave this morning for Pasadena, Cal., where they will reside permanently.

In order to introduce our work we will do your plumbing at 50c per hour. Doyle Bros., 17 E. Kiowa.

Mr. and Mrs. A. J. Noonon of New York were arrivals here yesterday. They expect to spend several weeks here.

The Colorado Midland band will have the honor of opening the concert season in Denver on Decoration day.

Mr. D. H. Greene the secretary of the Gold Mining Stock exchange of Cripple Creek, spent yesterday in the city.

Mr. C. G. Galloway of Sherman, Texas, who is stopping at the Alamo.

Mr. H. M. Marsh, M. D., of Kentucky, is a guest at the Alta Vista. Dr. Marsh is thinking somewhat of locating in the Springs.

Mr. and Mrs. S. H. Evans of Tidouete, Pa., are registered at the Alta Vista. Mr. Evans is one of the owners of the Golconda mine.

Crawford bicycles, \$5 down and \$2 per week. The best wheel on earth for the money. W. H. Wahl, 13 Pike's Peak avenue.

Mr. and Mrs. George H. Webster of Chicago are guests at the Antlers. Mr. and Mrs. Webster formerly were residents of Colorado Springs.

Crickets practice will be held at Athletic park today from 3 until 6 p. m. New matting has been procured and everything will be in readiness at the appointed time.

Mrs. D. C. Proctor and Miss A. H. Proctor, who have been visiting in the city for a few days, returned last evening to Salem, Mass. They are enroute to San Francisco.

Mr. W. C. Bradbury of Denver is spending a few days at the Alta Vista. Mr. Bradbury is a railroad contractor of considerable prominence and is part owner of the Midland block of this city.

Young People's Christian union invite everybody today from 3 until 6 p. m. New matting has been procured and everything will be in readiness at the appointed time.

Miss Alice Ripley in company with two friends who have been spending some weeks at the Antlers, returned last evening to Chicago. Miss Ripley is a daughter of President Ripley of the Santa Fe.

Mr. W. G. Rice, the general agent of the United States and Pacific Express company, has expressed his willingness to send over his lines any packages intended for the burned out family at Falcon.

Major Bell, a division officer of the Salvation Army will arrive in the city in a few days, coming here from Denver. He will deliver a lecture next Tuesday evening at the First Congregational church entitled "Slum and Social."

One hundred and seventy-five children of the Deaf and Dumb Institute went on a picnic Thursday afternoon to Cheyenne mountain. The children were allowed the use of the burros through the kindness of Manager Coombs. They enjoyed the sport royally.

Owing to an oversight the name of Mrs. Chas. A. Eldridge was omitted in the list of Colorado Springs colonial dames published yesterday morning. Mrs. Eldridge acted as secretary of the society of colonial dames during the annual meeting and in one day and for the past week the daily baseball practice has attracted considerable audiences.

At the last meeting of the board of governors of the Cheyenne Mountain Country club it was decided to take over the golf links from the committee and instead of a special assessment hereafter on the players, the charge for the round will be 15 cents for the men players, and the women players will not have to pay anything. Tickets will be on sale by the steward of the club in books of 20 tickets or singly, if so desired. The new course is in splendid condition. The tennis courts are in use daily and for the past week the daily baseball practice has attracted considerable audiences.

The Millinery Rage

at the present time is for exclusive designs. The charm of our trimmed hats is that they are all trimmed in New York and many of them are copied from the imported models, and they are priced, \$3.00, \$4.00, \$5.00 and \$5.75.

SAILORES. We have a new line of sailors and walking hats.

NOTIONS. This department is allotted large space in our store and you will find the little useful things in large supply.

LITTLE PRICES: Cash and One Price. 19 South Tejon Street.

We are showing something new in

Fiber Pails & Tubs

Just the thing for this climate. No hoops to fall off. Won't rust. Easy to keep clean. Very strong and durable.

W. N. BURGESS, 112 North Tejon Street.

Those Remarks

and those expressive gestures of approval which we notice at our soda fountain convince us that our

Soda Water Is Just Right

It can hardly be otherwise when our efforts to dispense the finest beverages in town are considered. It's a simple matter too—just plenty of ice for coolness and the finest fruit juice for taste.

Try our Violet Ice Cream Soda.

F. L. Gutmann, Successor to GREBE & GUTMANN, 130 North Tejon Street.

The Finishing Touch

to a persons dress and appearance are the shoes. A pair of unkempt shoes will spoil the looks of a dress from Worth, or a suit from the latest tailor.

BAKER & CO. DRUGGISTS,

No. 8 South Tejon Street.

THE PALACE
