

MORE HOPEFUL MOOD

Tariff Conference Hope to Reach an Agreement Saturday.

SUGAR THE STUMBLING BLOCK.

Contenting Factions are Near an Adjustment which will Compromise the Differences on the Sugar Schedule—Yesterday's Session was Devoted to the Consideration of Minor Details—Some Contingencies May Intervene to Prevent an Agreement.

Washington, July 15.—The tariff conferees were in a more hopeful mood today than yesterday and one of the leading representatives of the senate expressed the opinion that the conferees would be able to conclude their labors tomorrow and summon the Democratic members by Saturday. This view, he said, was justified by the present appearance of the conferees, but he added that there were still more contingencies that might arise to prevent so early an agreement, and that it was impossible to say precisely when the end would be reached.

"We shall come out all right," he said, "and I think soon. We have a tedious job but it is not a hopeless one, and there is no foundation to the reports that we are in danger of not reaching an agreement."

Minor Details Considered.

The day was spent in considering minor details of the bill which has been passed over with an occasional reference to the differences on the sugar schedule, which is still the stumbling block. There was some discussion of a compromise on this schedule, and the general impression about the senate was that the changed aspect in the committee was due to the fact that there was a more yielding disposition on the part of the representatives of both houses.

Sensors in the conference, but in close touch with its members, express the opinion today that the conferees are very near an adjustment which will compromise the differences on the sugar schedule.

The House Position.

At the house side, on the other hand, among those in close touch with the conferees, it is asserted with the most positive assurance that the house conferees will be able to reach an agreement on the schedule, and opinion is freely expressed that the deadlock would continue indefinitely until the senate yields. The house conferees, they say, have been practically unanimous in support of the house Republicans back of them, and in their contention for the house schedule, and moreover, they claim that many of the silver Republicans agree with them on this point.

A Further Difficulty.

The committee made the discovery that there would be still further difficulty in arranging the wool schedule on account of the objections of the carpet manufacturers. It appears that while the makers of the more expensive grades of carpets gave their assent to the compromise of four and eight cents, the makers of the cheaper carpets are not pleased, and ask that the rate on the lower grades of wool be reduced to three cents.

The wool men are not willing to concede this demand, and the carpet makers are also making trouble over the senate amendment putting a duty on wool of the second class, which has been withdrawn. Heretofore there has been additional duty on the washed article, and it is claimed that the change will work a material hardship.

A Vacant Chair.

The Democratic side of the chamber is somewhat disorganized and uneasy caused by the death of Senator Harris. "I fear," said Senator Jones of Arkansas today in discussing the question, "that the vacancy may, if not filled before that time, occasion a little embarrassment when we reach the vote on the conference report. It will be remembered that some of the articles on which we succeeded in reducing the rate of duty, as on wine and liquors, are on some which we succeeded in putting on the free list, we had a majority of only one vote. Some of these articles, such as burials, cotton ties, Paris green, etc., are of immense importance to the farmers, and would be regrettable indeed, from our standpoint, if the absence of a Democratic senator from Tennessee should cause us to lose them by giving them a deciding vote."

SENATE SESSION.

A Personal Discussion Between Senators White and Stewart—The Harbor at San Pedro.

Washington, July 12.—Mr. Stewart moved in the senate today a reconsideration of the action of the senate in passing the resolution directing the secretary of war to proceed in the construction of a harbor at San Pedro, Calif. It reopened the long standing controversy over the location of a deep water harbor coast, and a long and exciting debate between Mr. Stewart and Mr. White of California, ensued.

Mr. Stewart argued that the original law provided for a deep water harbor to cost about \$3,000,000, while the inquiries of the secretary of war disclosed that the break would cost this sum, while the entire harbor would cost about \$5,300,000. Mr. White answered that government engineers had reported that the break water would give a harbor of commerce and in addition to this there was an inner harbor available. It was rather surprising, Mr. White added, that the senator from Nevada, who presumably represented the people of his state and not of California, should interfere in this question.

A Personal Contest.

This stirred up a hot personal contest. With evident agitation Mr. Stewart declared that he resented the intimations made. He had a right as a senator to adopt such a course as he desired, and he had no personal interests to serve such as those who represented terminal railroads. He did not propose to drag in such questions.

Mr. White responded that as far as terminal railroads were concerned he did not represent any of them. He represented California, and in this question he had the concurrence of his colleagues from California, the California delegation in congress, and the people of the state and they felt that they could attend to the interests of the state without the assistance of the senator from Nevada.

ALL MADE FORTUNES

Alaskan Miners Well Pleas With the Winter's Work.

FOUND A STOREHOUSE OF GOLD.

More than a Million Dollars in Dust and Nuggets—Scene of the New Discovery is on the Yukon River and Just Across the Line in British Territory—A Stampede to the New Klondike District—Said to be the Richest the World has Ever Known.

San Francisco, July 15.—The Associated Press has received a letter from H. A. Stanley, president of the Binghamton, N. Y., Evening Herald company, telling of the wonderful gold discoveries of Alaska. Mr. Stanley wrote from St. Michael's Island, where he stopped on his way to the Yukon mining region.

Mr. Stanley's Letter.

Writing under date of June 30, he says: "The steamer Excelsior, of San Francisco, was the first vessel to push her way through the ice on this station. The Portland, from Seattle, arrived four hours later. From these vessels we learned for the first time of McKinley's election, the results of the Corbett-Fitzsimmons prize fight, and other news of the Yukon about June 15, and the river steamer Portus B. Wear, which wintered at Dawson, 2,350 miles up, reached St. Michael's June 27.

A Wonderful Strike.

"The Weare brought authentic news of some of the most wonderful gold strikes in all the world's history and brought also some 45 miners, every man bringing in from \$5,000 to \$100,000 of dust and nuggets, an aggregate of more than \$1,000,000. Just how much the Weare brought in on his own account, as the exchange of provisions and supplies furnished miners by the North American Trading and Transportation company, could not be ascertained, but it was very large.

The Report Confirmed.

"The steamer Alce arrived at St. Michael on June 27, bringing 35 miners and half a million in gold for them and much on its own account. The passengers of the Alce confirmed the news reported by the passengers of the Weare which is as follows: "The richest gold strike the world has ever known was made in the Klondike region last August and September, but the news did not get even to Circle City until December 15, when there was a great stampede over the 300 miles intervening between there and the newer fields. On August 12, George Carmack made the first great strike in Bonanza creek and on August 19, seven claims were filed in that district. On the 20th of August, the claims in Circle City, but the news was looked upon as a grub stake rumor.

Authentic News.

"On December 15, however, authentic news was carried to Circle City by J. M. Wilson, of the Alaska Commercial company, and by Thomas O'Brien, who carried not only news, but prospects, and the greatest stampede ever known in this part of the world commenced.

"Those who made the 300 miles first strike in the Klondike region, the 200 claims staked out on the Bonanza and Eldorado creeks not one has proven a blank. Equally rich finds were made June 6 and 10 on Dominion creek. Not less than 300 claims have been staked out of Indian creek and at least 20 more who will talk but are as rich as any of the others.

The Largest Nugget.

"The largest nugget yet found was picked up by Bert Hudson on claim No. 6, on the Bonanza, and was worth \$27. Next in size was one found by Clements, an Indian creek, worth \$28. The last four pans Clements took out were worth \$2,000 and one went \$75. Bigger pots have been struck in other regions, but nowhere on earth has so large a general find been made as in this section.

East Bound Rates.

"In all about 75 miners have reached St. Michael. Some brought but a portion of their clean-up, preferring to invest in other mines they know to be rich.

Some Winterers.

"Among the most lucky are J. J. Clements, of Los Angeles, who has cleaned up about \$175,000. He brought out \$50,000 and invested the rest; Professor T. C. Lippy, of Seattle, who brought out about \$50,000, and has \$100,000 in sight and claims his mine is worth \$500,000; Wm. Stanley, of Seattle, who cleaned up \$112,000; Clarence Berry, \$110,000; Henry Anderson, \$50,000; Frank Keller, \$50,000; T. J. Kelly, \$30,000; Wm. Soane, of Nainaimo, B. C., \$85,000; and at least 20 more who will talk but stand guard over the treasure in their store rooms. Then there are at least 20 more men bringing from \$5,000 to \$20,000.

One Winter's Work.

"All this gold and more to come, is the clean-up of last winter's work. It must all go via St. Michael's and the bulk of supplies must go in that way. Two great transportation companies pushing in supplies are the North American Trading and Transportation company and the Alaska Commercial company.

Further particulars will follow in about 40 days on arrival of the next steamer, as Mr. Stanley will remain in Alaska and gather all the information he can.

TANGIBLE EVIDENCE.

Half a Million or More Brought Down to San Francisco.

San Francisco, July 15.—A story rivaling the intensity of interest that told of the fabulous wealth of Monte Cristo, was related by the Excelsior, which has just arrived from St. Michael, Alaska. Millions upon millions of virgin gold, according to the story, await the fortunate miner who has the good fortune to penetrate to the bottom of the unknown depths of the Yukon district.

Tangible Evidence.

There was tangible evidence on the little steamer of the truth of the story told by the travelers, for in the cabin were scores of sacks filled to the very mouth with "dust" taken from the placers of the far frozen north. The amount brought in is variously estimated at from \$500,000 to \$100,000.

There came in on the Excelsior some 40 people, among them some women, from what is now known as the Klondike district, although only one of these had been actually engaged in mining. There were among them men who had been for more than 10 years facing the dangers and hardships of the frozen north in the hope of making a rich find. Why they signified that they were coming back with

TRANSMISSISSIPPI

Increased Attendance and Much Important Business Done.

WILL VOTE ON SILVER TODAY.

Wm. J. Bryan Presided Over the Session of the Convention and Attracted a Large Crowd—Resolutions Adopted Favor the Annexation of Hawaii and the Recognition of Cuban Belligerency—Other Business Before the Convention.

Salt Lake, Utah, July 15.—The attendance of delegates and visitors at today's session of the transmississippi congress was much larger than on yesterday and much important business was done. Tomorrow promises to be an interesting day in the congress as the silver resolution comes up for discussion.

A Minority Report will be Presented on this Subject.

T. M. Patterson, of Colorado, and J. M. Quinn, of Montana, will lead in the debate for the majority, while E. V. Smalley, of Minnesota, will be the leader of those favoring the minority report.

Morning Session.

The transmississippi congress was called to order at 9 o'clock this morning, with a large audience in the galleries, and the delegates' seats well filled. The large attendance was due to the fact that Hon. W. J. Bryan, president of the congress, was expected to be present.

The reading of the report of the committee on the resolution of the transmississippi congress, which was introduced by Hon. W. J. Bryan, was then taken up. T. M. Patterson, of Colorado, read a lengthy paper on the "Necessity of Establishing a Department of Mines and Mining." He was followed by Judge Royal, of Colorado, on the same subject.

Mr. Bryan Appears.

At this point William J. Bryan entered the hall and was greeted with the wildest enthusiasm. Hon. W. J. Bryan, moved that three cheers be given for Mr. Bryan, which the latter said was out of order, but the cheers were given nevertheless.

Mr. Bryan in taking the chair said it was a matter of great regret that he was not able to be here earlier, but he knew that the congress had been ably presided over by Messrs. Whitmore and Craig. He said he was fully in accord with the movement of this congress, and presented a great empire in the west. There were numerous matters in which this section was particularly interested, and that was one of the reasons why he had met here.

WORKING FOR PEACE.

Arbitration Commissioners Endeavoring to Secure Signatures to the Uniformity Agreement.

Pittsburg, Pa., July 15.—This has been a day devoted to hard work on the part of the joint arbitration commission in their efforts to secure uniformity in the district as suggested by W. P. De Armit, secretary of the Pennsylvania Mining Association, and the progress made. Two of the largest operators in the state, W. P. De Armit and Francis L. Robinson, have agreed to sign the uniformity agreement, and the arbitration commission feels that the other operators will soon fall in line.

A Possible Misunderstanding.

It is claimed by the miners officials, however, that the understanding was that the agreement meant 95 per cent. of the output of the district, whereas it is now said to mean 85 per cent. of the operators. They say it will be absolutely impossible to get 95 per cent. of the operators to sign a small scale. President Doan said that while he would do all in his power to assist the commissioners to secure the agreement, he thought the proposition was a scheme of President De Armit's to keep his men at work and prolong the strike.

The Resolutions.

The following resolutions were adopted by the transmississippi congress: "Resolved, That we are in favor of such legislation by congress as will insure the prompt construction of the Nicaraguan canal as an American enterprise, to re-open the Panama canal to American control and that we memorialize congress to this effect.

The Following Memorial on this Subject was also Adopted:

The House of Representatives and House of Representatives of the Fifty-fifth Congress, Washington, D. C.: Your memorialists, the transmississippi congress, respectfully urge upon your honorable body the most necessary and important project, with practical unanimity it is demanded as a pressing necessity to our national interests. Repeatedly recommended by the conventions of national political parties, it is so far only a broken promise. The prestige of our country, its influence among the nations of the world, its commerce and its development of the Pacific coast, demand its prompt construction. It will open the trade of the Pacific coast to our gulf states, the great Mississippi valley, and also the Atlantic coast. It will greatly increase our commerce and create activity in our shipyards. It will practically double the effective value of the United States navy, thereby promoting the military safety and national prestige of our country.

Every consideration of patriotic policy urges that in the execution of this beneficial work there shall be no more delay.

Confident that our government will not ignore this national demand, we have the honor to subscribe ourselves, your fellow citizens, The Transmississippi Congress.

The Labor Struggle.

Resolved, that the pending gigantic labor struggle between coal mine operators and working miners, extending as it does throughout the mining regions of many states, threatening a coal famine and paralyzing some of the most important industries of the nation, proves the necessity for the adoption by congress of some adequate and effective system of arbitration in serious controversies between labor and capital—arbitration that will do justice to both sides in all such troubles, and so ordained that it will tend to secure justice without the drastic measures of strikes and lockouts.

Resolved, that this congress most earnestly urges upon the congress of the United States the importance of fostering all measures that will tend to develop the best sugar industry of this country.

Evening Session.

At the evening session of the congress, Mrs. Bryan accompanied Mr. Bryan to the hall and took a seat in the Nebraska delegation.

THE NEW EL DORADO.

The new El Dorado lies just across the Alaskan boundary, in British territory. It is of recent discovery but already there are at least a dozen parties of Indians, and more are flocking in that direction. The discovery of the Klondike region presents a story that is uniquely interesting.

Plenty of Gold.

He came back two weeks later and started the miners with the announcement that 40 miles away there was gold to be found in plenty. The streams abounded with the yellow metal, and all that was needed was to pick it up. Many persons flocked to the place, and in time the word reached Forty Mile camp that untold riches could be found along the bottom of Bonanza creek and its tributaries.

Men who had failed at the former camp immediately packed up their belongings and set out for the new fields. It was a hard and trying journey, but that was nothing, when the promise of millions at the end of the road.

Almost Beyond Belief.

The following is an extract from a letter received on the Excelsior, just arrived here from Alaska. It was sent from the Klondike region by a prominent and wealthy young business man of San Francisco, to his brother in this city: "The excitement on the river is indescribable, and the output of the new Klondike region is beyond all imagination. We had nothing last fall are now worth a fortune. One man has worked 40 square feet of his claim, and is going out with \$40,000 in dust. Quarters of claims are now selling at from \$15,000 to \$20,000 each. The estimate of the length of the district is given as 13 miles, with an average value of \$300,000 to the claim, but some are valued as high as \$1,000,000 each. At Dawson sacks of dust are thrown around the counters in the stores for safe keeping.

Fabulous Wealth.

"Some of the stories are so fabulous that I am afraid to repeat them, for fear of being suspected of exaggeration. Labor is \$15 a day and board, with 100 days' work guaranteed, so you can imagine how difficult it is to hold employees.

If reports are true it is the biggest placer strike ever made in the world, for though other diggings have been found quite as rich in spots, no such extent of discovery has been known which prospected and worked so high right through."

WORKING FOR PEACE.

Arbitration Commissioners Endeavoring to Secure Signatures to the Uniformity Agreement.

Pittsburg, Pa., July 15.—This has been a day devoted to hard work on the part of the joint arbitration commission in their efforts to secure uniformity in the district as suggested by W. P. De Armit, secretary of the Pennsylvania Mining Association, and the progress made. Two of the largest operators in the state, W. P. De Armit and Francis L. Robinson, have agreed to sign the uniformity agreement, and the arbitration commission feels that the other operators will soon fall in line.

It is claimed by the miners officials, however, that the understanding was that the agreement meant 95 per cent. of the output of the district, whereas it is now said to mean 85 per cent. of the operators. They say it will be absolutely impossible to get 95 per cent. of the operators to sign a small scale. President Doan said that while he would do all in his power to assist the commissioners to secure the agreement, he thought the proposition was a scheme of President De Armit's to keep his men at work and prolong the strike.

The Resolutions.

The following resolutions were adopted by the transmississippi congress: "Resolved, That we are in favor of such legislation by congress as will insure the prompt construction of the Nicaraguan canal as an American enterprise, to re-open the Panama canal to American control and that we memorialize congress to this effect.

LEAGUED AGAINST US

Reported Alliance of Spaniards and Japanese.

AGAINST THE UNITED STATES.

In the Event of an Attack on Cuba or the Completion of Hawaiian Annexation Both Countries Would, it is Said, Declare War and Make a Simultaneous Attack on the American Coast—A Sensational Story Comes from Madrid by Way of Paris.

London, July 24.—A despatch from Paris to a news agency here says that inquiry at the American embassy there has elicited the confirmation of the rumor that the governments of Spain and Japan have arranged an offensive alliance against the United States.

The terms of the understanding, which is for the mutual protection of Cuba and Hawaii, provided that, in the event of an active aggressive movement on the part of the United States tending toward interference in Cuban affairs or persistence in the annexation of the Hawaiian islands, both Spain and Japan shall declare war simultaneously against the United States and shall make hostile demonstrations along both the Atlantic and Pacific coast lines of that country.

NOT BELIEVED.

Washington Officials Discredit the Report and Regard it as too Improbable to Discuss.

Washington, July 15.—Little credence is placed in official circles here in the statement that the Spanish and the Japanese governments have entered into an offensive alliance against the United States for the mutual protection of Cuba and Hawaii. Indeed, so far as could be learned tonight, no intimation of such an agreement has ever reached the state department.

The State Department.

Secretary Sherman was indisposed when a reporter called at his house in regard to the matter, but Mr. Day, the first assistant secretary, discredited the report and regarded it as too improbable to discuss.

"The state department has no information concerning the reported alliance," he said, "and I don't believe that there is any foundation for the statement that one of our ministers in Madrid has learned tonight, no intimation of such an agreement has ever reached the state department."

OFFICIAL BULLETIN.

President Ratchford and Secretary Pearce Have Issued an Official Review of the Situation.

Columbus, O., July 15.—President Ratchford and Secretary Pearce have issued an official bulletin, No. 1, to the miners, today, regarding the situation. The bulletin says: "Our fight for living wages now covers eight states of the union. It is a general suspension, and no local settlements will be attempted. Eight thousand men are on strike, and the suspension is a few days longer, our determination is unflinching, and our actions are law abiding in every particular.

States and Miners.

The states and number of miners involved are: Western Pennsylvania—Fully 25,000 miners have joined us which makes suspension almost unanimous in the district. Work still continues in the central field but steps will be taken in a few days looking to a suspension, which, it is believed, will be successful.

Ohio—28,000 miners have laid down their tools. Eight thousand are increasing every hour, our determination is unflinching, and our actions are law abiding in every particular.

Indiana—Advices received today report every mine and every miner in this state suspended. Eight thousand have joined the march for living wages.

Illinois—Reports from this state are to the effect that the suspension is practically general. Eight thousand miners are determined to continue the march until living wages are secured.

West Virginia—About 3,000 miners have joined the movement. Reports from various sections of the state confirm the belief that miners will suspend. Eight organizers have left this city today for West Virginia. Supply of coal from the fields will be in very few days.

Kentucky and Tennessee—About 1,000 miners have suspended, others may be expected to follow.

Kansas—Miners are all at work, but will be expected that they will also suspend.

Alabama—Reports indicate that 300 miners or more have suspended. Convention today. Nothing further learned of their action.

The supply of coal is fast being exhausted at the various distributing points. Railroads are confiscating shipments; cities are almost without supply; in fact, a coal famine is near at hand."

PADDED PAYROLLS.

A Section Boss Brought into Court by the Santa Fe Railroad.

Kansas City, July 15.—The first case of Santa Fe padded payrolls to be brought into court, that today at Armourdale, Kas., of Philip Collins, a section boss arrested at Turner a few days ago. Bus Laugel and F. L. Bryant, section hands, testified that upon numerous occasions Collins had turned in their time for days they had not worked, and that they had taken the money out of their checks and passed it to Collins. They also alleged that board bills which were not due him were turned in by Collins. Collins was bound over to the full term of the district court for trial. It is said to be only one of dozens which Santa Fe detectives expect to bring into court as a result of the recent padded pay roll expose.

Marriage Arranged.

London, July 15.—A marriage has been arranged between Lady Rachel Charlotte Quinn, eldest daughter of Earl Dunraven and Mr. Fitzgerald of Limerick, who bears the historical, though unauthorized title of the Knight of Glin. The marriage will take place in October.

Unfavorable Comment.

City of Mexico, July 15.—El Mundo (newspaper) comments unfavorably on the projected annexation of Hawaii to the United States, and says that Japan is able to make trouble for the United States.

REPORTED ALLIANCE OF SPANIARDS AND JAPANESE.

London, July 24.—A despatch from Paris to a news agency here says that inquiry at the American embassy there has elicited the confirmation of the rumor that the governments of Spain and Japan have arranged an offensive alliance against the United States.

AGAINST THE UNITED STATES.

British Criticisms of the Dispatch to Ambassador Hay.

ETIQUETTE WAS VIOLATED.

Secretary Sherman's Dispatch Seems to have Created a Flurry Among the Afternoon Tory Newspapers—A Serious Document Causes them to Lose Temper Without Attempting Any Reply to its Statements.

London, July 15.—The evening newspapers are in a rage over the sharp reply of Secretary Sherman to Lord Salisbury in the seal controversy. The half penny journals issue sensational placards bearing such lines as "Twisting the lion's tail again," and "America shrieks at England."

Yankee Insolence.

The more serious papers deal with the situation editorially. The Globe, in an article headed "Yankee Insolence," says: "The memories of Cleveland's impertinent message are all revived by the extraordinary and insulting dispatch which Mr. Sherman has permitted to find its way into the papers. Waiving the merits of the question, which, fortunately, is one of the naturalists, the astonishing tone of Mr. Sherman is in defiance not only of the usages of diplomacy, but of the maxims of ordinary civility. Englishmen will be glad to see that Lord Salisbury has, so far as a patrol of the seal fisheries is concerned, treated the message as though it had never been sent. If he were to go a step further and to direct Sir Julian Pauncefote to intimate to Mr. McKinley that her majesty's government declines to receive dispatches couched in such language and could only reply to the next by handing Colonel Hay his passports, the action would be endorsed by the complete approval of the nation."

Pall Mall Gazette.

The Pall Mall Gazette says: "Mr. Sherman's tone is not what it might be, but the nasty feature of the affair is the publication of the dispatch at all."

Westminster Gazette.

The Westminster Gazette refers to Mr. Sherman's "somewhat ugly dispatch," and says: "Seals, like silver, get into American party politics. It is an ugly symptom that seals should be used to provide the new American government with means for demonstration against England. The McKinley government will inevitably disappoint the American jingoes in the matter of silver and thinks it necessary to clear itself of pro-British suspicions by striking a too heroic attitude in the matter of seals."

St. James Gazette.

The St. James Gazette says: "The publication is a further demonstration of certain transatlantic methods of diplomacy which may one day have consequences much more serious. The tall-twisters seem to think that a dispatch couched in terms of studied discourtesy and menace towards this country is a small matter. We are used to that. The real gist of the situation is the fact that the United States considers that kind of language safe. But it is not safe, and after some affront, more or less flagrant, we may some day find that we cannot yield to them; and then might arise a situation of the gravest peril. There are three great nations involved in the present dispute. It affects Canada; and Sir Wil-

fred Laurier will be able to tell Lord Salisbury of the deplorable effect produced on public opinion in Canada by what every one in America believes to be our recent surrender to the United States."

A FRIENDLY VIEW.

British Government May Object to Phraseology But Has Decided to Hold Another Conference.

London, July 15.—While among the general public the tone of Secretary Sherman's letter to Ambassador Hay regarding the Bering sea seal regulations is greatly resented, the correspondent of the Associated Press is in a position to say that whatever criticism the British government may have to make on the phraseology of the communication, the latter has not in any way affected unfavorably the negotiations which Colonel Hay has been conducting.

A conference will be held in Washington during the autumn, at which the United States, Great Britain, Russia and Japan will be represented.

Friendly Negotiations.

Since the presentation of Secretary Sherman's note to Lord Salisbury, Ambassador Hay had repeated conferences with his lordship, all of which have been of the most friendly character. The most conciliatory spirit is displayed in the matter by the British foreign office, as is evident by the decision to hold a conference which, although not yet formally announced, may be regarded as settled.

A Canadian View.

It may also be taken for granted that Canada does not oppose this decision. Mr. Davies, the Canadian minister of marine, in an interview with the correspondent of the Associated Press today, said:

"We regard the latest proposals of the United States as entirely reasonable. It is not the feeling with regard to the negotiations between the two governments, and in view of this, the two peoples should not be resentful. I think this is a reasonable view to take of the matter."

No Reason for Resentment.

"I have talked with Mr. John W. Foster as to the reports that the correspondence might provoke some unpleasantness," continued Mr. Davies, "and he agrees with me that there is no reason for resentment. However, I do not consider it fair that only one side of the correspondence should be published. The Canadians have never believed that the seals were in any real danger of extinction. Distinctly, on the contrary, it is proved by statistics that they are steadily increasing."

National Circuit Races.

Erie, Pa., July 15.—The national circuit races in this city today resulted in several exciting contests. Eddie Baird was the favorite and won the mile open and finished second in the two mile handicap from scratch. Summaries:

One mile professional, open—Bald won; C. R. Newton, Stafford Springs, Conn., second; Arthur Gardner, 2. Time 2:0 2-5. Two mile handicap, professional—Newton won; Bald 2; Callahan 3. Time 4:24-5. Five mile open, professional—Stevens won; Sexton 2; Hoyt 3. Time 11:3.

A Study of America.

Washington, July 15.—Prof. Zolla a well known French scientist, representing the French government, has arrived here to make an investigation and study of the crops and climate of this country. His investigation probably will occupy some weeks and the results will be embodied in a detailed report to his government with a view to taking advantage of the methods in vogue here. He has shown especial interest in the weekly crop bulletins issued here as the French government has no service for gathering agricultural statistics from the farmers.

St. Louis.....	57	18	39	19.4

Boston-Pittsburg.

Pittsburg, July 15.—Boston took a big lead in the first three innings scoring five runs of seven hits and Pittsburg's good uphill work was not quite good enough to save defeat. Tannehill's play in center was the only feature. Attendance, 2100. Score: Boston..... 0 0 0 2 0 1 0 0 2-5
Pittsburg..... 2 0 3 1 0 1 0 0 0-7
Base hits: Pittsburg, 11; Boston, 13. Errors: Pittsburg, 1; Boston, 2. Batteries: Hawley and Sugden; Nichols and Bergen.

Washington-Cincinnati.

Cincinnati, July 15.—The senators knocked Ethret out of the box in the first inning. Brines was substituted in the second, but he fared no better, being pounded all over the lot. The visitors played an errorless game and won easily. Attendance, 3,500. Score: Cincinnati..... 1 0 0 1 0 1 1 0 0-5
Washington..... 0 0 0 6 0 2 0 0 0-16
Base hits: Cincinnati, 11; Washington, 27. Errors: Cincinnati, 1; Washington, 6.

Chicago-Baltimore.

Chicago, July 15.—Doctor Pond pitched in great form today, allowing only five singles, but his good work was offset by jagged support especially by Jenkins. McGraw got in his regulation argument with the umpire and was sent to the bench in the third. Attendance 4,200. Score: Chicago..... 3 0 0 0 2 0 0 0 0-5
Baltimore..... 0 0 1 0 0 2 0 0 0-3
Base hits: Chicago 5; Baltimore 5. Errors: Chicago 0; Baltimore 5. Batteries: Griffith and Kittridge; Pond and Clark.

New York-Louisville.

Louisville, July 15.—The Colonels could do absolutely nothing with Ruste's delivery this afternoon and were shut out. Miller, late of the Michigan state league, pitched good ball for the home team, but his support was awful. Attendance 800. Score: Louisville..... 0 0 0 0 0 0 0 0 0-0
New York..... 0 5 1 0 0 0 4 0 0-10
Base hits: Louisville 6; New York 13. Errors: Louisville 7; New York 0. Miller and Butler; Ruisie and Wilson.

Cleveland-Brooklyn.

Cleveland, Ohio, July 15.—It was a pitchers' battle between Young and Payne. Honors were about even and Young won for Cleveland. Score: Cleveland..... 0 0 0 0 0 1 1 0 0-2
Brooklyn..... 0 0 0 0 1 0 0 0 0-1
Base hits: Cleveland 4; Brooklyn 6. Errors: Cleveland 1; Brooklyn 2. Batteries: Young and Zimmer; Payne and Grim.

Philadelphia-St. Louis.

St. Louis, July 15.—Today's game between St. Louis and Philadelphia was played in a drizzling rain. Orth was invincible, keeping the Browns guessing throughout. Attendance 700. Score: St. Louis..... 0 0 0 0 0 0 0 0 0-0
Philadelphia..... 1 0 1 0 0 0 0 0 0-2
Base hits: St. Louis 3; Philadelphia 7. Errors: St. Louis 1; Philadelphia 2. Batteries: Donahue and Murphy; Orth and Clements.

Other Games.

At Peoria—Peoria 8; Quincy 4.
At Minneapolis—Minneapolis 13; Detroit 5.
At Rockford—Rockford 3; Burlington 2.
At Cedar Rapids—Cedar Rapids 4; St. Joseph. Eleven innings.
At Kansas City—Kansas City 3; Indianapolis 2.
At Milwaukee—Milwaukee 6; Grand Rapids 11.
At St. Paul—St. Paul 6; Columbus 1.
At Dubuque—Dubuque 3; Des Moines 2.

Brighton Beach Races.

New York, July 15.—Results at Brighton Beach:
First race, seven furlongs—Thomas Cat won; Mahoney 2; Mohawk Prince 3. Time 1:33 1/2.
Second race, five furlongs—Scotch Plaid won; Nuts 2; Oney 3. Time 1:03 1/2.
Third race, mile and a furlong—Miss Prim won; Concord 2; Temple Stows 3. Time 2:00 1/2.
Fourth race, mile and a quarter—Dutch Sherm won; Volley 2; Lincoln II. 3. Time 2:14.
Fifth race, six furlongs, selling—Darleau won; Nosey 2; Demagogue 3. Time 1:18 1/2.

Henley Regatta.

Henley-On-Thames, July 15.—The first trial heat for the visitors' challenge cup was won by Trinity college, Oxford, over New college, Oxford.
The second heat for the Nickalls challenge cup was won by A. S. Bell and W. J. Forrie, Trinity Hall, Cambridge, who beat J. A. Tinnie and F. K. Hussey, Royal Chester R. C.
The third heat for the Nickalls challenge cup was won by E. R. Balfour and Nickalls, Leader club, who beat H. G. Gold and R. C. Carr, Magdalena college, Oxford.

In the sixth heat for the Thames challenge cup, Christ Church, Oxford, won, beating King's college, Cambridge.
The Winnipegs are enthusiastic over the treatment they are receiving since they proved the stuff they are made of.
J. J. Blisse, after the race with Teneyek, was taking in a fainting condition to a boat house, where the physicians found he was suffering from a sunstroke. He is hanging between life and death.

A Negro Burned.

Nashville, Tenn., July 15.—A special to the American from Iron City, near West-point, Lawrence county, states that Williams, the negro rapist and murderer, after being turned over to the citizens of Westpoint, and while on the way to the

Royal makes the food pure, wholesome and delicious.

IT IS EVIDENT

to the residents of Colorado Springs, but still more to visitors from other places that our city has settled down to a steady growth both in wealth and population. This means beyond question, steady and increasing real estate values, and marks our city as a most desirable field for the loaning of money and similar investments. Many among us, both residents and visitors, have money invested in the east which has been drawing less interest every year, and which they have almost concluded to bring west.

Difficulties naturally arise in the matter of making the loans, collecting the interest and attending to the many details essential to safe loaning. Many have not a sufficient amount in hand to make a satisfactory loan. To all seeking a safe and convenient investment of whatever amount, the undersigned Association offers its Paid Up, Prepaid and Deposit Certificates, as combining safety and profit in an unusual degree.

All funds of the Association are invested in first mortgages on improved real estate in Colorado Springs and its environs ONLY, and these do not exceed one-half the value of the security. As the loans are repaid in small monthly sums, they become smaller and safer every month. Every holder of these certificates, in place of holding a separate mortgage (did his funds suffice) with all the details of title, insurance and collection; has an interest in a large number of carefully selected loans. This insures greater safety, and entire freedom from detail, as his interest is promptly remitted by New York Draft every six months. The holder also has the valuable privilege of cashing his certificates at any time after one year from their date on giving sixty days notice. The following certificates are issued by the Association:

- FOR \$100 or any multiple, a PAID UP CERTIFICATE drawing 7 per cent, payable semi-annually.
- FOR \$66 or any multiple a PREPAID CERTIFICATE drawing 6 per cent, and giving by additional earnings to \$100 in about 8 years.
- FOR \$41 or any multiple, a PREPAID CERTIFICATE maturing by its earnings to \$100 in about 8 years, but paying no cash dividends.

4 to 6 PER CENT INTEREST pamphlet. paid on smaller sums or for shorter terms. Call for explanatory

scene of the murder of Miss Williams,

was knocked down in the race with a crowd and afterwards stamped and trampled to death by the throng having him in charge. Afterwards the body was shot to pieces with pistols, shotguns and rifles, and his head blown from his body. Then the body was saturated with oil and burned. There is no question but that he was the guilty party.

BAPTIST YOUNG PEOPLE.

Four Hundred Delegates in Attendance at the Seventh International Convention at Chattanooga.

Chattanooga, Tenn., July 15.—The seventh international convention of the Baptist Young People's union of America began in this city this morning, with about 4,000 delegates and some of the most prominent leaders in the country present. The weather is cool and pleasant, and everything points to one of the most successful meetings ever held by the union.

The handsomely and elaborately decorated city auditorium was completely filled at 10 o'clock, the hour of opening this morning. Each state delegation occupied quarters reserved for it, however, and there was no crowding or confusion. On the rostrum were seated the officers and speakers, and in the choir gallery above them was the excellently trained choir of 500 voices.

"The Christ Conception—Person not Proxy," was the subject of an excellent address delivered by Rev. Dr. Carter Helm Jones, the distinguished Louisville divine.

Rev. Dr. D. B. McLaughlin of Detroit, Mich., closed the morning session with a strong address, using as his subject

"Divine Ownership—Human Stewardship."

Afternoon Session. The afternoon session was presided over by F. L. Powke, of Oshawa, Ont., vice president of the B. Y. P. U. A.

After a fine service the report of the board of managers was presented by Secretary Chivers. A very gratifying exhibit was made in the report of the recent Christian culture course examinations, in which over 14,000 papers were submitted.

The board of managers recommended some changes in the constitution which were accepted and approved by the convention. These changes led to a more complete union of the forces of the B. Y. P. U. A., with the southern union, by which the forces of both are consolidated, and in making their new relations, separate departments were provided for the north, south, east and the west, to be known hereafter as B. Y. P. U. North, B. Y. P. U. South, etc., instead as heretofore, by department colors.

Numerous Addresses.

Addresses were delivered by Rev. Geo. D. Eager, D. D., of Montgomery, Ala.; Rev. Lee Laws, of Baltimore; Rev. W. P. McKee of Minneapolis, Minn., and Rev. J. W. A. Stewart of Rochester, New York.

Rev. Mr. Laws was specially applauded in his reply to newspaper editorials criticizing these large gatherings. He stated they were vacations of the young people and did not in any way represent the broad south, east and the west, to be wise go to missions or other church purposes.

At 4:30 the convention adjourned to give the delegates an opportunity to attend the state rallies, a number of which were very interesting meetings, full of enthusiasm.

Evening Session.

At the evening session, after the usual short praise service, Rev. W. W. Weeks, of Toronto, addressed the convention upon the subject of "Home Impressions."

Following this, President John H. Chapman of Chicago, delivered his annual address, which covered the work of the past year in a very creditable manner.

Dr. Von Preyer.

Berlin, July 15.—The death is announced at Weisbaden of Privy Councillor Dr. Von Preyer.

Broadmoor Programme.

- Afternoon.
1. March—"Watch on the Danube," Zieffler

THE ASSESSMENT FOR 1897.

For the past two days frantic efforts have been made to cast discredit upon the present county officers by most flagrant misrepresentations not only of the facts in regard to the assessment for the present year, but also the law governing the matter.

In order to secure uniformity and justice in these schedules the board of commissioners has been accustomed to invite committees from various parts of the county to assist it in equalizing the schedules, and it was this committee from Cripple Creek, appointed by the mayor of that city at the suggestion of the commissioners, which has been represented as a committee sent from Cripple Creek to protest against the unjust enormities of the present assessor.

The present assessment has been made with the most scrupulous care for the interests of all concerned. A branch office was established in Cripple Creek, which had never been done before, and the deputy there called to his assistance two committees, consisting of two well-known and responsible contractors, and the other of three reliable and reputable real estate agents, whose advice was asked in regard to the values of lands and buildings respectively.

We do not give the authors of the stories credit for ignorance of these matters. They are too well known for that. Such misstatements imply a wilful and deliberate misrepresentation for political purposes. They imply an effort to discredit the present county officials with no scruples as to the means. We trust that all such misstatements will be as easily shown to be false and malicious as are these regarding the assessment of 1897.

THE TARIFF CONFERENCE.

At the beginning of the meetings of the tariff conference a wise rule was adopted. It was that the sessions, so far as possible, should be held in secret, and that no information should be given to the public until the terms of the compromise bill had been agreed on. It has been found impossible, however, to preserve an absolute secrecy, and enough information has leaked out to prove beyond question the wisdom of the committee's policy.

The circumstances of the case may also incline us to receive with considerable caution any statements that may be made in regard to the decisions of the committee. It is an easy matter for those who are on the ground to make shrewd guesses as to the results reached by the committee, and the correspondents whose duty it is to furnish a certain quota of matter daily can hardly refrain from doing so, but these guesses are by no means to be relied on as absolutely correct and indeed are very likely to be mistaken.

It is unfortunate that any delay should occur in the settlement of the differences between house and senate. We cannot believe that any delay will be of long continuance. The interests at stake are so tremendous that the pressure for a settlement will in the face of delay shortly become unendurable and the two houses will be forced into an agreement.

NEW PASSENGER RULES.

The Western Passenger association, acting in the interests of the tourist business of California, Oregon, British Columbia and other places, having determined that the Colorado lines shall issue no stop-overs on the return Christian Endeavor tickets, and having decided to resort to extreme measures if necessary to enforce its will, it is to be hoped that no weakness will prevent it from carrying out its purposes to the limit. The old

idea that tourists have a right to go where they please and see things that give them the most pleasure, is entirely played out, and the desires of the passengers are, and of a right ought to be, wholly subordinated to the interests of the pools and transcontinental lines.

The mere cessation of stopover privileges is entirely inadequate for the object desired and more stringent rules should be adopted. All cars running through the state of Colorado should be furnished with light proof shutters, and these must be kept closed anywhere in the state. Passengers alighting at stations for meals must be blindfolded. The selling of views of Colorado scenery must be absolutely forbidden. Train boys are required to keep a full assortment of Yosemite, Los Angeles and Yellowstone Park photographs constantly on hand. Passengers on entering trains will be searched for X-rays cameras by which views of the scenery might be taken. High board fences must be erected along all Colorado roads on both sides; in special situations these must be connected by a roof. These regulations will be strictly enforced and violators will be immediately shot.

The Western Passenger association should not delay in securing the adoption of these rules, and their enforcement would undoubtedly aid in securing a larger share of the traffic for the northern lines.

THE CRY-BABY ACT.

The possible chance that Colorado will take the front seat as the largest producer of gold during 1897 has disturbed California to some extent. The Pacific slope state is now abusing the director of the United States mint, claiming that that official gave the gold yield of California in 1896 as \$15,235,900, instead of \$17,181,562, and characterizes this as "the mischievous official blundering of mint authorities."

The Chronicle states that "efforts have been made, without avail, to get a correction from the director himself or to induce some member of the California delegation in congress to start an inquiry. Between the indifference of the man who made the blunder in transcribing the correct report of the mint statistician at San Francisco and the anxiety of every congressman to finish business and go home, the impression has been permitted to stand that, while the gold yield of Colorado is increasing that of California is falling off."

Obviously the Colorado people will make the most of this assertion among investors, and unless our delegates meet them with the true statistics of our auriferous production, much injury may be done to the future development of gold properties.

The reference to the delegates means those men who came to Denver as representatives of California in the International Gold Mining convention, and they were earnest in their statements of correction.

It is not the intention of Colorado to make any capital from the misrepresentation, or errors if such exist, regarding the figures of the gold production of California.

This state is above resorting to any such falsehood, as is intimated. "When the director of a United States mint furnishes figures, they are considered correct, and it seems rather late in the day now to herald broadcast a denial and to talk about "official blundering."

To our knowledge, it has not been intimated by any paper in this state that the production of California was falling off. When comparisons have been made as to the possible standing of the gold-producing states for this year, and Colorado has been talked of as the leader, it has been because of the increased gold product of this state, and such increase warranted the assertion.

The Chronicle had better be muzzled, the piteous cries it is now uttering sound like temper.

The much discussed and cleverly planned trip of President Faure to Russia was thought completed when a complication presented itself. It was as to who was to perform the duties of regent in his absence. It appears the French constitution does not provide for a vice president nor for trifling details like the president visiting other countries. The question however has been settled to the satisfaction of all, and the present prime minister, M. Meunier, will, during President Faure's visit, exercise the full executive power. We wonder if the visit will ever be made.

Comments and Clippings.

The memorial to Mrs. Siddons is the first statue of an actor to be erected in London.

Ada Rehan is in Paris studying the title part in the play "Joan of Arc," by Senarct Fabre, in which she will appear in New York in the fall. Mme. Wey who is acting the part at the Odeon theater, has made it highly successful.

with extraordinary cordiality, and the object of their mission has enlisted the eager sympathy of that nation. It was also pointed out that the French government had agreed to join with the United States in a note to England inviting the latter to join with them in a convention to consider measures for an international system of bimetallic coinage. That information is now definitely confirmed in the announcement that the French embassy in London has been instructed to co-operate with that of the United States in bringing the object of the American commissioners to the official notice of the British government.

The effect of this union of French and American influence is of the highest importance. It gives the bimetallic movement the official sanction of two rich and powerful nations. It lifts the whole question from the dead level of political controversy and presents it as an affirmative proposal in international finance. If England, without whose co-operation the whole project must fail, is at all disposed to consider the problem, the joint venture from France and the United States will do more than all other causes to persuade her to favorable action. The cordial reception of the American commissioners by Lord Salisbury yesterday may be regarded as proof that he is not irrevocably opposed to the undertaking. It is a gain even to have ascertained that much, and it affords a working basis for the concerted effort which the representatives of France and the United States are about to make in order to procure the active co-operation of Great Britain.

Of course, the joint effort of the United States and Great Britain does not mean an agreement including Great Britain mean—the positive adoption of bimetallicism as an international system. It is made perfectly clear, however, that France and this country are earnestly in favor of any fair and safe coinage arrangement which provides for the larger use of silver. Moreover, if England should consent to join in a conference to consider the subject the agreement would mean that the whole question was about to receive the serious attention of the governments whose support is indispensable to any durable system of international monetary standards. Should they decide to adopt it, whether they liked it or not. On the other hand, if they should pronounce it unsafe and impracticable no other great country has a right to run the risk of attempting it, and the question would be regarded as permanently settled.

It is along this line that President McKinley's whole policy has been directed. He and his party are specifically in favor of bimetallicism "based on international agreement with the great commercial nations of the world," and his efforts have been inspired by a desire to ascertain whether any such agreement is possible. The results which have attended his inquiries are extremely gratifying. He has already given the bimetallic project a status in the eyes of foreign governments which it could never have acquired without his wise and conservative co-operation. He has dignified the whole issue and given it more respectability than it has ever enjoyed. And there is a certain irony in the fact that while Mr. Bryan in California only last Monday was denouncing the appointment of the American commissioners to Europe as "farcical" and "hypocritical," those gentlemen were receiving cordial assurances of the co-operation of France in the work of making international bimetallicism a reality.

Cheapening College Degrees.

An important suggestion is embodied in a resolution offered by one of the attendants upon the convention of educators in session at Milwaukee. The resolution declares: "The state should exercise supervision over degree-conferring colleges through some properly constituted tribunal having power to fix a minimum standard of requirements for admission to or graduation from such institutions, and with the right to deprive of the degree-conferring power institutions not conforming to the standard so prescribed."

It has long been apparent that if a college degree is to have any distinction at all something must be done to prevent the distribution of such honors by inefficient and low-grade colleges. There are 400 institutions known as colleges in the United States. The United States commissioner of education thinks that only about 40 of them are worthy of the name. His estimate is probably rather low, but it is obvious on a moment's reflection that a large number of the colleges are at best not qualified to confer a degree which is not conforming to the standard as that given by a first class college. The method proposed for avoiding the trouble seems rather cumbersome and impracticable. It is even doubtful if a law prohibiting an institution from granting a degree would stand. If a dozen men choose to get together and dub a thirteenth man "Master of Arts" there is nothing to hinder them.

At the same time, the practice of indiscriminate degree-giving is an evil which threatens to deprive college degrees of all meaning, and the Milwaukee convention does well to turn its attention to the subject. Incidentally, it would do well to find some means of preventing, also, the miscellaneous bestowing of honorary degrees upon public men. There is not much honor in a title which may be given at any time to any public man who has been boosted into prominence.

On the 25th of August a congress of Jewish delegates from all parts of the world will meet at Munich in order to discuss whether steps ought not to be taken to build anew the "Kingdom of Israel." It is said that most of the delegates deem that the time has come for action in this direction.

Frau Cosima Wagner, who had received an offer of one million marks (\$2,000,000) for the right of performing "Parsifal" in the large American cities from Walter Damrosch, has declined to accept this sum, prompted solely by piety, as the will of the great German master provided that this opera should never be fully performed outside of Bayreuth. Moreover, the widow of the composer did not wish to create a precedent, in spite of the enormous inducements held out by the enterprising young American manager—(Philadelphia Record).

The inhabitants of Cleveland, O., have received a rather unpleasant shock at the announcement that their fair city has been invaded by terms flavies, commonly known as white ants. These little pests are extremely destructive; they attack wooden walks, fence posts and verandas. In the house they make their presence felt in the shape of shabby floors and partitions.

M. B. IRVINE, Dated Colorado Springs, April 21, 1897.

STEELE'S RASH ACT

Ex-Mayor of Cripple Creek Attempts Self Destruction.

SUFFERING FROM ILL HEALTH.

Hugh R. Steele's Mental and Physical Condition, Aggravated by Worrying Over Business Matters, Prompted Him to End His Life by Taking an Overdose of Morphine, which Proved His Salvation.

Hugh R. Steele, the well-known mining man, and ex-mayor of Cripple Creek, attempted to end his life yesterday morning by taking a large dose of morphine, while laboring under mental depression caused by worrying over adverse business affairs, and aggravated by ill health from which he has been suffering for some time.

The first intimation which anyone had of his intention was conveyed by a letter which was delivered by the postman at 11 o'clock yesterday morning to Mrs. Pitcher, a friend of the family, who lives next door to Mr. Steele's residence, and at the home of Mr. Freyshlag. The letter was written on paper from the Alamo hotel, and was as follows:

"Colorado Springs, Colo., July 14, 1897. "Mrs. Pitcher—I cannot bear to send a message to Mrs. Steele. Have this broken gently to her and to my folks. God bless and take care of them. I have failed in all my efforts. My body will be found near or in Cheyenne canon. Very respectfully, "Hugh R. Steele."

Mrs. Pitcher at once carried the note to Judge Semmes, and Mr. Freyshlag notified Judge Semmes, W. H. Hoagland and others of Mr. Steele's friends. They immediately organized a searching party and started for Cheyenne canon, accompanied by Coroner Marlow. The information conveyed in the letter was borne out more strongly by the fact that Mr. Steele had been absent from home throughout the night, and also the fact that he had been very despondent and down-hearted for some time.

The party arrived at the street car station at the mouth of Cheyenne canon about 12:30 o'clock and they found Mr. Steele sitting by the side of the street car track, in a stupor condition, but still very much alive. When approached by his friends, whose joy at thus finding him knew no bounds, Mr. Steele hardly recognized them, and refused to talk but little. A man who had been around the station for some time said that Mr. Steele had come there about 20 minutes before, and had told him that he had just walked down from Cripple Creek, and was not feeling very well.

Steele finally acknowledged to Judge Semmes and the others that he had taken morphine, but did not think he had taken enough. It is the opinion of his physician, however, that he had taken too much, and as it made him sick, he threw it off from his stomach, which undoubtedly saved his life.

He finally accompanied his friends to his home on Williamette street, in this city, where he talked a little more freely concerning his trouble. He said that he had taken the canon Wednesday evening, and had six grains of morphine with him all of which he took. It made him sick, and he remembers falling asleep soon after. He was awakened about midnight by the heavy rain which was pouring down upon him. He then took the last car, and came back to town. He purchased a dozen more morphine tablets at a drug store on Tejon street, and then wandered around town for an hour or two, and finally went down to the Denver and Gulf depot, about 2:30 a. m.

A man who was well acquainted with him talked with him at the depot for about 10 minutes, but Mr. Steele seemed perfectly composed and rational, although his voice was somewhat hoarse and husky, as though he was suffering from a bad cold. He told his friend that he was reading the 3 o'clock train to go to Denver, but instead of taking that train after parting from his acquaintance, he started back for Cheyenne canon. He says that the night, from the evening that he first went to Cheyenne canon by Mr. Hoagland and others about noon, is a total blank, so far as any memory of events which transpired during the intervening time is concerned.

Mr. Steele has been one of the most respected and universally liked men in this state for years, and his life has been one of activity, which has borne fairly good results in a financial way. His father was the first territorial governor of Colorado, and was a member of the first party that ever discovered silver in this state, the local locations being made in the Argentine mining district, above Georgetown, in 1863.

Hugh Steele became actively identified with Cripple Creek during its infancy as a mining camp, and was closely identified with the interests of Mr. W. S. Stratton soon after the independence began to make its great reputation as a mine. He was twice elected mayor of Cripple Creek, and his friends are legion who can only attribute his rash attempt to end his life to his physical and mental condition, which has been impaired for some time by ill health. He is now entirely out of danger, and only needs rest to again recuperate and become his old self.

DEATH OF MRS. GEO. F. GREEN.

She Breathed Her Last at the Family Residence Last Evening—Funeral This Afternoon.

Mrs. Nina Green, wife of ex-Alderman George F. Green, died last evening shortly after 5 o'clock at the family residence, No. 20 West Moreno avenue, after a very short illness.

Mrs. Green was only taken ill on Sunday last and her condition was not considered critical until yesterday. Dr. Paul A. H. Garret of this city did all in their power for the sick woman, but she slowly sank until death relieved her of her sufferings last evening. The direct cause of Mrs. Green's death was inflammation of the bowels.

Just three days ago the little daughter of Mr. and Mrs. Green died of a double fever on Wednesday, and the double affliction has proven too much for the devoted husband and father and he is completely prostrated.

The funeral of Mrs. Green will occur from the family residence this afternoon at 2 o'clock.

CAPTURED IN MANITOU.

The Negro who skipped out of a Pawn Shop was Arrested by a Chief Alien Yesterday.

Casey Adams, a negro with an unsavory reputation, who has served one term in the penitentiary, turns out to be the man who attempted to pawn a stolen watch with J. Tour's in the Huerfano street jewelry, and who escaped Wednesday afternoon before the police could be notified by Mr. Tour.

Casey is a smooth criminal, but he now rests behind the bars in the county jail, as a result of some shrewd work on the part of Chief Allen of the Colorado City police department. Chief Allen bagged his game in Manitou yesterday afternoon, 2 o'clock after an exciting chase of two or three hundred yards. He was brought to Colorado City shortly afterward and placed in the city prison at that place, where he came near escaping again. So to make sure of his man, Chief Allen brought him to this city and lodged him in the county jail.

Some Quick Work. When a negro ran out of J. Tour's place on Wednesday after attempting to pawn a watch which was stolen in Colorado City several days ago, the police were notified of the affair and a description of the man given by Mr. Tour. Chief Allen of Colorado City was also furnished with the description and as the watch had been left in Tour's place by the frightened negro, it was discovered that a small chain was attached to it which did not belong with the watch. Chief Allen had seen this small chain dangling from the vest pocket of a negro who had been in the Colorado City jail before, and immediately started out to find Casey Adams, whom he knew to be the possessor of the chain.

Casey was located in Manitou yesterday afternoon, standing in front of a livery stable on Manitou avenue. He was placed under arrest, but immediately broke away from the marshal, and ran up the hill in the direction of the Midland tracks. Chief Allen gave chase and sent two bullets after the fleeing negro. Adams was captured after a run of about 300 yards.

Adams is the man who stole a watch locked gold cross, pencil and other articles from Miss Lulu Wickley in Colorado City several days ago.

AN ATTEMPTED BURGLARY.

A Strange Man Seen in Miss McCaulley's Residence on North Cascade—Escaped Through a Window.

Last evening shortly after 10 o'clock the telephone bell in the police station rang and Captain Henry answering it, an excited female at the other end of the line asked that an officer be sent to 210 North Cascade avenue, as quickly as possible. Officer Sam Agard was dispatched immediately to the scene and upon arriving at the number found the inmates of the house in a state of alarm as it were. A lady boarder at the house had seen a strange man in a room on the ground floor, which was unoccupied, and it was thought that he was a burglar. The house is occupied by Miss McCaulley, a boarding house, and as no man was available at the time, the call for a policeman was sent in.

The Cliff house was the scene of another delightful hop last night, which was fully up to the high standard for beauty and enjoyment which has always characterized these functions at the Cliff. It was one of the largest parties which has been held here this season, and the usual wholesome hospitality of the Cliff was not lacking in the least tonight. It was strictly a full dress affair, and many beautiful costumes were worn by the ladies.

That the Hawthatha family concert gardens have met with the fullest public approval is evidenced by the liberal patronage which it is enjoying from the best class of summer visitors. First-class in its appointments and surroundings, Colonel Smith, the proprietor, has constantly followed out the strict regulations which he originally announced as to the conduct of patrons and the expulsion of objectionable characters. The concert by the famous Schreiber orchestra, are a growing attraction, in addition to the popular baritone, Mr. J. G. Jones.

J. E. Hobbs of 412 South Nevada avenue, reports the loss of a Hawthorn wheel which was stolen from his residence last evening.

Buster Marshall, an old time offender, was given \$50 and costs in the Stornery yesterday. He was allowed to leave the city.

The Columbus and Hartford at the cut prices of \$75, \$50 and \$40 still in command large sales. Call on Mr. Downs and see them at 105 E. B. J. Co.

F. M. KEETH, Agent, Room 3 Gazette Building. J. NEIDERHOUSER, 7 S. Cascade avenue.

Mr. Will Nichols arrived from the east Wednesday afternoon, and will spend the summer at the Cliff with his parents and family. His wife and baby preceded him some time ago.

Thirty of the guests at the Barker comprised a burly party to Crystal Park yesterday, where they had a most delightful outing. They took their lunch, and enjoyed the day immensely.

A picnic to Cascade canon today has been arranged by the guests of the Mansions. About 20 people will make the drive in carriages, taking their lunch with them, and spend the day at that pretty little mountain retreat.

Saturday a big excursion will arrive in Manitou from La Junta. It is the time for the regular excursion of Santa Fe company from that place, and they yearly come to Manitou. It is expected that 50 or 60 of them will come on the picnic.

Mrs. C. C. Hennings, of Gainesville, Tex., wife of the president of the Texas Bankers' association, is located at the Barker for the summer, with her children, the

FINED \$100 AND COSTS.

M. Silverman is Given the Limit for His Cruel Attack Upon His Wife Wednesday Night.

M. Silverman, one of the proprietors of the Bee Hive department store on South Tejon street, was fined \$100 and costs in police court yesterday for beating his wife. It seems that Silverman and his wife have not been on the best of terms for several weeks, and when his wife entered his room Wednesday night to call him to supper, Silverman became very angry and struck Mrs. Silverman an awful blow in the face with his hand, and she fell upon the unfortunate woman until other members of the household made him desist. Mrs. Silverman was horribly disfigured by the blow which her husband rained upon her, and she was unable to leave her bed yesterday.

The neighbors informed Marshal Galt yesterday morning of the inhuman manner in which Silverman had treated his wife and Officer Rodney was dispatched to his place of business to place him under arrest.

Silverman made no effort to justify his conduct, other than that his wife made him angry by calling him to supper. He was given an immediate trial before Judge Owen, and entered a plea of guilty.

Judge Owen took occasion to say that he was sorry that he could not go beyond the limit of the law in imposing a fine upon Silverman, as such a flagrant and dastardly attack had never before been brought to his notice.

"I will fine you \$100 and costs," said the judge, "and I am only sorry that I cannot make it more."

Silverman paid his fine, giving a firm check for the amount with the costs added.

MANITOU NOTES. Items of Interest Regarding Summer Visitors, and Other Resort Happenings.

Barker house hop tonight. The Misses Walsh of Denver are guests at the Barker.

Mrs. A. R. Wildt of Minneapolis, is stopping at the Manitou house.

Mr. J. B. Kerfoot of New York, registered at the Mansions yesterday.

Mr. J. F. Metchem and wife of Denver are guests at the Iron Springs hotel.

Mr. and Mrs. R. H. Sneed of Denver are located at the Cliff for a short stay.

Mr. H. J. Hamlin and daughter of Chicago, are recent arrivals at the Mansions.

Mrs. J. J. Burns and daughter, Miss Lyle Burns, of Pueblo, are guests at the Manitou.

Mr. E. C. Johnson and wife and daughter of Evansville, Ind., are late arrivals at the Cliff.

Prof. Des Fosses' orchestra gave another of their splendid concerts at the Ruxton last night.

R. H. Ruddick of La Verne, N. H., and E. L. Wynne, of Philadelphia, are registered at the Ruxton.

Lieutenant Bell, of the U. S. army, at Fort Apache, Ariz., is spending a few days at the Cliff.

Mr. C. L. Marshall and wife of Kansas City, arrived at the Manitou house yesterday to remain a few weeks.

The Ruxton is entertaining Mrs. W. H. Hand of Whitehall, Ill., who will remain in Manitou for several weeks.

E. L. Paulson and Mrs. William E. Paulson of Chicago, have taken rooms at the Cliff for an indefinite sojourn.

Mr. George T. Coffin and wife, of Easton, Pa., are located at the Mansions, for an extended visit in this delightful resort.

Mr. E. E. Gratts, a prominent lumberman of Grants' Pass, Ore., was at the Barker yesterday, accompanied by his wife and mother.

Mrs. A. E. Crebs, Mrs. C. P. Berry, Mrs. E. S. Crebs, Miss A. Crebs and Stewart L. Crebs, of Carmi, Ill., will spend several weeks at the Barker.

Mr. W. W. McLean and Miss McLean of St. Paul, are among yesterday's arrivals at the beautifully located Iron Springs hotel.

Mr. Lee Holland and Mrs. Katherine Keet, and three children have arrived from Springfield, Mo., and are located at the Barker, where they will spend several weeks.

Augusta Duzan, Samuel P. Perkins, J. E. Perkins and Minnie S. Perkins, of Parsons, Kans., registered at the Iron Springs hotel yesterday, for an extended visit.

Mr. Will Nichols arrived from the east Wednesday afternoon, and will spend the summer at the Cliff with his parents and family. His wife and baby preceded him some time ago.

Thirty of the guests at the Barker comprised a burly party to Crystal Park yesterday, where they had a most delightful outing. They took their lunch, and enjoyed the day immensely.

MINES, STOCKS AND INVESTMENTS.

Colorado Springs Mining Stock Association.

Colorado Springs, July 15.—A very fair morning's business was transacted at the Mining Stock association today and prices appeared to be somewhat stronger, this being especially noticeable in the gold stocks. The silver, however, were prominent in their activity, although Mollie Gibson was not so busy as upon the previous day.

The sales in Mollie Gibson amounted to over 6,000 shares and the price ranged from 52 1/2 to 53 1/2. The higher figure was the opening price and it immediately began to drop until it got to 52 1/2, at which the last sale was made.

The sales in the other silver stock, Argonum-Juniata, amounted to an even 2,000 shares and the price ranged from 33 1/2 to 35, the stock closing stronger than it opened, the difference being a fourth of a cent and the opening figure 33 1/2.

Among the gold stocks Elkton again developed considerable strength. The first sales opened at \$1.02 1/2 and all the transactions were made at from that figure to \$1.08; the closing quotation being \$1.02 1/2. Isabella was steady at 29 1/2 and 29 3/4. The stamped stock continuing to go about a cent less. Union was of color with very light trading and Anaconda with about 700 sales averaged around 42 and 43. Cripple Creek Consolidated was steady at 9 1/2 with 4,000 transactions at that figure, and the same can be said of Jack Pot at 5 1/2.

Among the unlisted stocks there was more comparative activity. Sacramento jumped to the front with 5,000 sales at 3 and Virginia M. was steady also with 6,000 sales, all of which went at 3 1/2 on five days' time. Blue Bell was steady with 5,000 sales at 2 1/2 and Kimberly held its strength with 4,500 sales at 3 1/2 and 3 3/4. Rattler was credited with 700 sales at 1 1/2, and Garfield-Grouse with a couple of thousand at 1 1/2.

ELKTON DIVIDEND. Another \$20,000 Will be Distributed Among the Stockholders.

Although no newspaper mention has yet been made of the fact the usual monthly dividend of \$20,000 has been declared. The meeting was held on the 12th of the month, and it was decided to close the company's books on the 15th, pay the dividend on the 20th and reopen the books on the 21st at noon. When this sum has been paid it will show that the Elkton mine has returned the stockholders over \$300,000 in dividends or, to be accurate, \$306,969.57, and the property has made this sum net profit; besides nearly \$125,000 invested in United States bonds and \$100,000 now in the treasury. This is over half a million all told.

A REVELATION. Colorado's Mineral Resources should be Better Advertised.

J. J. A. Holmes, state geologist of North Carolina, has returned from a visit to Idaho Springs for the purpose of investigating the milling operations of that camp.

"The camp is a revelation to me," said he, "and impresses me more than anything I have yet seen with the great importance of the mineral resources of Colorado. The people in the east have not the slightest idea of the magnitude of the mining industry of your state, and it is a matter of surprise to me that Colorado does not do more to advertise her great mineral wealth. I am told that your state geologist is serving without pay and is now absent examining mines in Australia. With your enormous deposits of ores of all kinds, your state could well afford to make liberal appropriations for the proper advertising of the fact.

In North Carolina we have an appropriation of \$10,000 for geological purposes. Our mining interests are comparatively small, but the farmers give us the appropriation without grumbling. The work done by the government cannot be expected to cover all the details, but can be supplemented by the states in a very effective manner. The government geological surveys cover the general formations and conditions, and do not 'take up particular districts or individual mines except as illustrations. The work is left for the state, and in my opinion with so large an area of mineralized territory as you have in Colorado nothing that you could do would be of such great benefit as a thorough examination of the mineral resources of the state with detailed statements of the extent and value of the several deposits, and the publication of the same for distribution where they will do the most good. Money cannot be spent to better advantage and \$50,000 would not be too much for such a state as Colorado.

Claim jumpers, like so many ghouls, have surrounded the Catholic cemetery in Leadville, Colo. The priest and 25 members of his congregation are holding it with shot-guns against them. The priest has filed a requisition in the land office for a patent to the cemetery ground at a place. Until it is granted, however, the claim jumpers have nothing to overcome but the shot-guns of the parishioners in order to stake out the cemetery.—New York Press.

TO LEASE. Our new cottages in the North End, on Tejon street, are now about complete and are ready to rent. We have two of five rooms, one of six, and one of seven rooms, all having all modern improvements, including heat, light and sanitary plumbing. The rent ranges from \$20 to \$40 per month, to small families only.

The Reed Building Co.
2 Bank Block. Telephone 121.
Colorado Springs, Colo.

Colorado Springs Board of Trade and Mining Exchange.

Colorado Springs, July 15.—Kimberly and C. K. and N. monopolized the best part of the trading and were responsible for \$6,000 sales out of 118,000 which actually changed hands. Prices remained about the same as upon the previous day with a possible leaning towards strength, and the number of sales was fully up to yesterday's standard.

The transactions in Kimberly amounted to 20,000 shares, which went at from five days' time to 3 1/4 for cash and five days. The stock was undoubtedly strong, and much appeared to be expected from the property in the near future, this doubtless accounting for the way in which the price held to yesterday's advance.

C. K. and N. was traded in in big blocks and five transactions in it amounted to 57,000 shares. The price ranged from \$8.50 to \$9 per 1,000; most of it going at the lower figure.

Buckhorn was quite active as compared with what it has been going lately and sold to the extent of 15,000 shares. The opening figure was 2 cents, and then it gradually advanced to 2 1/2, which was the price paid for the last 5,000 shares which changed hands.

Among the other traders called Gould was a prominent one. It sold to the extent of 7,000 shares at 5 cents, which is higher than this security has been for some time past.

Until it is granted, however, the claim jumpers have nothing to overcome but the shot-guns of the parishioners in order to stake out the cemetery.—New York Press.

ORPHA MAY SHAFT

It Has Now Reached a Depth of 565 Feet.
VERY SATISFACTORY SHOWING

Another Bull Hill Property Comes to the Front with a Strike of More than Usual Importance—A Four Foot Body of Ore on the Little May—Another New Strike in the Vindicator—An Immense Body of Ore Opened on the Ajax.

Special to the Gazette.

Cripple Creek, July 15.—The Orpha May shaft of the Union company has reached a depth of 565 feet, and a new shaft is being cut at that point for the 10th level. The ore body was found continuous at this depth, and the work of stopping out the ore will be started as soon as the new level is well under way. The ore shipments for the present week will be three broad guano cars of high grade and three of low grade. The directors of the company who have been visiting the mine during the last week are highly pleased by the showing.

Little May Strike.

The Little May, which adjoins the Victor mine on the south, is the latest of the Bull Hill properties to come forward with a strike of more than ordinary importance. This property has been worked by the Foley Mining and Leasing company for some months past, but recently they sold their interest to Thomas and Butler for the small consideration of \$200. The shaft was then 150 feet deep, and the new lessees, since starting their work, have sunk an additional 40 feet, where they have opened a body of ore four feet in width. A sample assay from the entire width of the vein returns \$32 per ton. A trial shipment was sent to the smelter today.

Another Ore for the Vindicator.

A new strike was made this week in the fourth level of the Vindicator mine on what is known as the West Vindicator vein. The ore is of an entirely different character from anything yet found in the mine, and shows a large amount of tellurium, a form of ore which is very rare in this district. The ore body is from 18 to 36 inches in width, and is honeycombed with seams of remarkably high grade ore. A large amount of ore from the new strike is now being sacked for shipment. The output of the Vindicator for the present month will average 50 tons per day. Nearly 400 tons of ore were shipped during the past week.

New Steam Hoist.

The new steam hoist is now nearly in place on the White lease on the Hull City shaft, and will be in operation during the next week. A shipment of 50 tons of ore will probably be sent out tomorrow, 20 tons of which is high grade sylvanite. Quantities of high grade ore are exposed in all parts of the workings. This property is now making one of the most remarkable showings of any property in the district.

Latest Lucky Leaser.

Walter Benz is the latest lucky leaser to make a strike on the Hull City placer. He is working on block 24 and has sunk a shaft to a depth of 115 feet, exposing a five-foot vein of fluorine quartz and phonolite. It gives assays varying from \$17 to \$70 per ton. A considerable amount of ore has already been saved, and a carload shipment will be sent out in the near future.

Manager Bergeron of the Christmas mine has received returns from two cars of ore sent out last week. The ore ran at the rate of \$14 per ton for a lot of screenings and \$18.50 for a lot of low grade. Another carload shipment will be made to the Cripple Creek smelter next week.

Trucky Guss Sylvanite.

Another strike was recorded Wednesday in the shaft of the Lucky Guss, at a depth of 630 feet. The ore is a large body of fluorine quartz, carrying streaks of very rich sylvanite. The extent of the ore body cannot be determined until further development work has been performed.

Immense Body of Ore.

Kirk & Co., in their lease on the Ajax, which was mentioned two days ago, have opened up an immense body of ore, that is steadily increasing in value. Two days ago it assayed \$11.80. Today its average was \$17. New ore bins will be put up at once, and a trial shipment saved.

An immense new hoisting plant arrived today for the Moon-Anchor mine, and will be put in place at once to succeed the old one which was found inadequate to the heavy demands made upon it.

The north drift from the Barbee shaft has encountered a strong flow of water and tomorrow a No. 4 Knowles pump will be lowered in the shaft to handle this new factor.

GOLD STANDARD MATTERS.

Willis B. Herr, Secretary of the Company Explains Some of the Company's Affairs.

In a recent communication to the Denver Republican, Mr. Willis B. Herr, Secretary of the Gold Standard company, says: "The company was organized in April, 1895, with a capital stock of 1,000,000 shares of the par value of \$1 per share, and soon thereafter acquired title to the North Star, the Mountain Monarch and the Freshwater mining claims, and the Gold Standard tunnel and gravel site; all located on Raven Hill, Cripple Creek, Colorado.

Clyde C. Dawson, of Canon City, grand chancellor of the K. P. lodge of Colorado, was a visitor yesterday. Mr. Dawson will visit Myrtle lodge No. 34, K. P., next Wednesday, 21st inst.

Sheriff Boynton was able to visit his office yesterday for the first time in a number of weeks. While he has not yet fully recovered he is doing very nicely considering the severity of the attack.

A soldier base ball team now stationed at Camp Broadmoor would like to play a game of ball with a team in Colorado Springs or vicinity. Address, James McCarty, Co. D, Seventh Infantry, Camp Broadmoor.

Yesterday's business at the postoffice was the largest since Postmaster Dana took charge. The stamp window took in \$28 from the sale of stamps and the money order, register and mailing departments did a proportionately large business.

Mr. John L. Spogle, Jr., who has been conducting the spring department of the Cripple Creek Guide for the past few months, has severed his connection with that weekly, and will hereafter devote his attention to mining and eastern newspaper correspondence.

On Saturday, the 17th inst., a game of cricket will be played at Athletic park by local cricketers respectively representing England and America. An interesting game is expected, and all cricket enthusiasts are cordially invited to be present. Game to commence at 3 p. m.

The fire department had a run yesterday morning at 3:15 o'clock to a small building on N. Wahsatch avenue. The blaze originated through some lime becoming soaked by the rain. The North End boys soon had the fire extinguished. The loss is trifling.

Mrs. George Green, wife of the ex-alderman, died yesterday evening about 7:30 from the effects of a serious inflammation trouble. The Rathbone Sisters will meet this morning at 10 o'clock at Knights of Pythias hall to arrange for the funeral. All members are urgently requested to be present.

The Casino was the scene of a gay dinner party last night consisting of 23 young society people of Colorado Springs. A special car was engaged for their accommodation to and from Broadmoor and a decidedly merry evening was enjoyed. There was a large audience in attendance at the concert, although it was subscribers' night.

Mr. Percy T. Homs, the popular baritone of Colorado Springs, who has been absent in the east giving a series of Song Lecture Recitals for the past year, will be welcomed by many of his friends when he sings at the Broadmoor Fourth Symphony concert next Sunday evening. He met with great success with the Alpine Concert company, and also when he appeared before the Chattanooga assemblies in Iowa and Minnesota. His voice has lost none of its old charm, but has an added power and quality which will be sure to please. Herr Stark, as usual, has prepared a most excellent programme.

Festival Chorus. The Festival chorus meets this evening at the Temple theater at 8 o'clock. All singers are invited, both residents and visitors. There is no charge for joining the chorus. The only expense is 30 cents for the music. Mr. Cravens is recognized as one of the best directors in the country, and all singers should take advantage of this opportunity to be under his instruction.

Think Quick!

If you want this bargain in hosiery, because this is not a common every day bargain, and unusual hosiery bargains don't happen often and when they do they don't last long.

We bought an importer's sample line of ladies' high grade imported hosiery, in black and colors—some of them are in lisle thread, a few even in spun silk, all kinds and qualities. They are on our counter at 21c a pair.

Special—See the embroideries in our north window at one-third to one-half the usual prices, 5c and 10c yard.

Cash and One Price. C. A. HIBBARD & CO. 19 South Tejon Street.

K'NAWAW ARABIC

from which coffee derives its name. Coffee, when first brought from Abyssinia into Arabia, about the beginning of the 15th century, was considered an intoxicant beverage; it was prohibited by the Koran, and dreadful penalties were held over the heads of all who became addicted to its use. To drink some of the coffee that infest the market today is no lesser sin against the stomach than it was against the morals of the 15th century.

Read This Contract

PONDER AND DIGEST SAME. For and in consideration of one dollar and other good and valuable consideration, I hereby unreservedly agree to refrain from in any manner entering into the bakery, confectionery or ice cream business in or adjacent to Colorado Springs, Colo., either directly or indirectly. This agreement to hold good for one year from date unless sooner dissolved by the Chicago Bakery or its assigns, to whom I have this day transferred my retail business at 109 South Tejon Street. Witness my hand and seal, this 13th day of February, 1897.

THOS. GOUGH, JR.

In view of above we would caution the public against certain irresponsible persons who are representing themselves as agents of the party who signed above agreement. CHICAGO BAKERY.
