

BOTH SIDES SATISFIED

Each Content With Present Status of the Steel Strike.

MILLS RUNNING NON-UNION Companies Have Made Some Gains Which Are Offset by Accessions to the Strikers' Forces.

Pittsburg, Pa., Aug. 14.—There were victories on both sides of the great steel strike today but they furnish no direct line on the ultimate result of the conflict.

On the other hand, the steel corporations reopened the big Painter mill in this city and also resumed operations with non-union men at the Crescent plant of the American Tin Plate company at Cleveland.

There was a great labor demonstration at Wheeling today and President Shaffer made a stirring appeal to his followers to fight on.

There were few other developments of importance during the day. The strikers have gone away either for recreation or to work and there has been scarcely any excitement, much less disorder.

McKeesport and Wheeling are stirred up periodically but there has been no violence at either place. Rumor again today settled the strike and lent a hand to re-start the stillled mills of commerce.

The spread of the strike at McKeesport and Wheeling has brought the number of men who obeyed the final strike order to something over 20,000 and increased the total number of men rendered idle by the three orders to about 65,000.

CHICAGO STEEL WORKERS REFUSE TO QUIT WORK

Chicago, Aug. 14.—There will be no strike of the employes at the steel mills in South Chicago. This point was settled tonight when the men refused to reconsider the action taken Saturday night at which time they decided to stand by their contracts with the mills and refused to join the strikers.

Mr. Tighe made a long address to the men, giving them the story of the strike from the standpoint of the Amalgamated association, asking them to help the men in the east by quitting the mills in South Chicago.

Dominico Monelli, the Italian minister, is dead.

The funeral of Signor Crispi will be held in Rome.

THE FUNERAL OF SIGNOR CRISPI

Naples, Aug. 14.—The funeral of Signor Crispi today was an imposing event. Cordons of troops lined the route, which was through the principal streets and presented arms as the funeral car passed.

A caisson draped with flags was followed by cars piled high with floral tributes. The procession included King Victor Emmanuel's aide-de-camp, representing the king, the German consul, representing Emperor William; senators, deputies, ministers, generals, admirals, patriotic societies, Garibaldian veterans and military and naval detachments.

Immense crowds occupied the streets, balconies and windows. All present uncovered as the coffin passed. At the arsenal the remains were taken on board the cruiser Varese, where there was a night service, minute guns being fired in the meanwhile.

Varese will sail at midnight, escorted by the armored cruiser Marco Polo and El Estero, conveying the family of Signor Crispi and the government representatives.

BEER WAS PUBLICLY DESTROYED IN TOPEKA

Topeka, Kan., Aug. 14.—One hundred and thirty cases of beer were publicly destroyed today through smashing by the board of health.

The liquor had been secured from the joints on official raids and was stored in the city prison. The saloon owners were about to secure possession by court proceedings when the chief of police gave it a menace to the health of the city and ordered it destroyed.

WHAT PROMINENT CITIZENS HAVE TO SAY ON WATER QUESTION

City Attorney Must Have Proof of Title to Rights in Any Case--T. B. Pyles Says Natural Flow Would Never Fill Proposed Reservoir at Seven Lakes--Hasty Action Condemned and Gazette Position Indorsed by All.

There is nothing more apparent in Colorado Springs at the present moment than the crystallization of public sentiment in support of the position taken by the Gazette in regard to the proposed extension of the water city in general and in particular in regard to the proposition involving the Seven Lakes and the water and water rights which this proposition may or may not carry with it.

The sound business men of the city to a man may be included in one or the other of two classes; either they have not had opportunity to examine the merits or demerits of the various propositions and water rights which are being advanced, or they are of the opinion that the city would make a bad mistake if the Seven Lakes proposition were to be taken up, at least in its present form.

It is a situation where the advantage of immediate action is exceedingly doubtful and where the advantage of deferred action is extremely probable.

A canvass of business men of Colorado Springs who are in a position to speak with a considerable degree of knowledge on the matter involved, men who are totally disinterested in any of the propositions pending, results in the unanimous opinion that no proposition should receive serious consideration by the city until it is absolutely and definitely known that the proposition carries with it rights and holdings that the city wants, that the persons making the proposition have the right to dispose of, and that they can be secured by the city without paying a price that is three or four times as great as the city's representatives would think of paying for the same interests if they were considering them as a private business proposition instead of something for which the money of the taxpayers is to be spent.

There are several men who state that the Seven Lakes proposition cannot possibly carry with it any water rights and that other propositions pending do not carry any rights that the city does not already own.

Mr. T. B. Pyles, state water commissioner of this district, who is one of the best-posted men in the county on all subjects relating to the water rights on the streams of all the Pike's Peak slopes, says he sees but little to commend any of the propositions in their present form but that this impression is particularly strong with him in regard to the one involving Seven Lakes.

City Attorney Shearer says that he does not know the status of the water rights at Seven Lakes, if there are rights available there, and that he will never consent to the purchase of anything there or elsewhere by the city until the abstract of title on all water rights concerned is complete and the title proposed to be acquired by the city perfectly clear.

A. G. Sharp, cashier of the Exchange National bank, is another public-spirited citizen who thinks the city ought not be hasty in making a decision regarding the purchase of water rights for the increase of the supply. He is familiar with all the propositions made to the city.

My opinion concerning the water proposed purchase of the Lakes rights, coincides with that expressed in the editorial in this morning's Gazette, said Mr. Sharp.

Mr. J. A. Hopkins, the city water superintendent, was also seen. In reference to the Seven Lakes proposition he said:

I want to look the ground over again before making any definite statement. I would not advise the purchase of the lakes until the value of the ground up there has been demonstrated better than it has been so far.

Mr. Wilson has long kept in close touch with the affairs of the city and realizes that if hasty action is taken now it may be regretted in the future.

The water propositions have been made so recently that I am not yet familiar with the details, said Mr. Wilson. However, it is evident that Colorado Springs is going to become a big city, and the water question means much. It seems to me that a big mistake will be made if any decision is reached before a thorough investigation.

Mr. Van Rouse, an extensive property holder in the city and in the Crisp Creek district, was also seen on the subject. Mr. Rouse was for several terms a member of the city council being elected to the office of Democratic ticket, of which party he is one of the leaders in this city and the state. He is a man who has been honored by the city and in the past is now a member of the St. Louis exposition commission on appointment by Governor Orman. While a member of the city council, Mr. Rouse was on the water committee and is thoroughly posted on the water system of the city. Speaking of the Seven Lakes proposition, he said:

I do not know who are the owners of the water rights by which it is proposed to fill the big reservoir at Seven Lakes. It is my opinion that the ranchmen lower down on the Beaver creek and the city of Colorado Springs own all the rights up there. The city owns its rights by reason of the ranches which it has purchased lower down the valley.

I am opposed to purchasing the Seven Lakes until the ownership of those rights is clearly determined and the advisability of the purchase is thoroughly demonstrated.

Mr. J. W. Shearer, the city attorney, was seen. "As long as I am city attorney," said Mr. Shearer, "I certainly shall never give my consent or approval to the purchase of the Seven Lakes or any other water property until I am satisfied that those who wish to sell have a title to what they offer. At present, I do not know whether they have any title or not and I will first be positive in my mind that the title is good before I will approve of the purchase."

Mr. Shearer was also asked what methods could be pursued by a city in purchasing water rights, and he replied:

"There are two ways of securing water rights: by purchase or by condemnation proceedings. The city may purchase water rights outright if it so desires. The city also has the right of condemnation in the matter of water rights as well as in other matters of public need. If the city decides that there is a water right which it needs and cannot get by water right, it has the right to go into the court and condemn the right and get a reasonable value set upon it by the court."

No Available Rights at Seven Lakes.

Mr. T. B. Pyles, editor of the El Paso County Democrat, also from a water commissioner for this district, who is now entering upon his fourth term of two years in this office, was seen by a Gazette representative in regard to the water situation.

"The Seven Lakes proposition particularly," said Mr. Pyles, "has always seemed to me to have little to commend it. I have been unfavorably impressed by it from the start. I have given this view some publicity in my own paper and I feel strongly about it.

"In the first place, there are no rights whatever that can be given to the city by the people making the proposition that the city is now considering. I cannot recall at this moment the names of the people who hold all the rights there, but I am sure that there are no rights carried by the proposition.

"The only possible advantage that the city could have in owning the Seven Lakes region would be to prevent someone else from doing it and appropriating the water to which we are entitled on the west slope by reasons of rights that we have acquired. The price that is asked for the ground there, according to my opinion, is away too high. I should think that anything paid for the Seven Lakes should be regarded by the people of Colorado Springs purely as a bonus to protect what we now have, and not as a purchase price for anything to be considered an addition to our water supply. Fifteen or twenty thousand dollars, I should say, would be a very great plenty of money to put up for anything like this.

"It is a matter of fact," continued Mr. Pyles, "I do not see any additional rights in any of the propositions now pending, and I think that the considerations named in all of them are too high.

AN ATTORNEY FOR SCHLEY

Isador Raynor of Maryland Will Act as One of His Counsel.

HE COMMENTS ON THE TIME

Thinks Case Will Not Be Prolonged as Every Effort Will Be Made to Get at Salient Points.

Baltimore, Aug. 14.—It is announced here today that Isador Raynor, attorney general for Maryland, has been retained as one of the attorneys for Rear Admiral Schley in his coming hearing before the court of inquiry.

Mr. Raynor received a letter from Admiral Schley on Sunday in which he was asked to act as one of the counsel in the case and at once accepted the commission.

Speaking of the case he said today: "Immediately upon the receipt of Admiral Schley's letter requesting me to become one of his counsel in this case, I began an examination of this case. I had to some extent familiarized myself with the general surroundings of the controversy, but shall now enter upon a study of all its details and gather all the information obtainable. We have four weeks in which to prepare for the hearing of the case and in that time I can readily acquaint myself with all of Admiral Schley's movements and those of his squadron from the time it left Hampton Roads to the battle of Santiago and with the dispatches which passed from the navy department to Admiral Sampson, and from Sampson to Schley.

"When you analyze all the facts in this case, as I am trying now to do, you will find that, with the exception of two charges embraced in the precept, Admiral Schley's alleged failure to destroy the Colon and his alleged withdrawal 25 miles at night after the establishment of the blockade of Santiago, the whole controversy covers a period of only nine days; that is, from the time the flying squadron left Key West for Cienfuegos until it started back from Santiago by the Yucatan passage for the purpose of coaling ships. I do not think, therefore, the case will occupy as much time as is contemplated. It will be the effort of counsel, and no doubt of the court, to get right down to the salient points of the case and hold up before the country every movement made by Admiral Schley from start to finish.

BEER WAS PUBLICLY DESTROYED IN TOPEKA

Topeka, Kan., Aug. 14.—One hundred and thirty cases of beer were publicly destroyed today through smashing by the board of health.

The liquor had been secured from the joints on official raids and was stored in the city prison. The saloon owners were about to secure possession by court proceedings when the chief of police gave it a menace to the health of the city and ordered it destroyed.

WHAT PROMINENT CITIZENS HAVE TO SAY ON WATER QUESTION

City Attorney Must Have Proof of Title to Rights in Any Case--T. B. Pyles Says Natural Flow Would Never Fill Proposed Reservoir at Seven Lakes--Hasty Action Condemned and Gazette Position Indorsed by All.

There is nothing more apparent in Colorado Springs at the present moment than the crystallization of public sentiment in support of the position taken by the Gazette in regard to the proposed extension of the water city in general and in particular in regard to the proposition involving the Seven Lakes and the water and water rights which this proposition may or may not carry with it.

The sound business men of the city to a man may be included in one or the other of two classes; either they have not had opportunity to examine the merits or demerits of the various propositions and water rights which are being advanced, or they are of the opinion that the city would make a bad mistake if the Seven Lakes proposition were to be taken up, at least in its present form.

It is a situation where the advantage of immediate action is exceedingly doubtful and where the advantage of deferred action is extremely probable.

A canvass of business men of Colorado Springs who are in a position to speak with a considerable degree of knowledge on the matter involved, men who are totally disinterested in any of the propositions pending, results in the unanimous opinion that no proposition should receive serious consideration by the city until it is absolutely and definitely known that the proposition carries with it rights and holdings that the city wants, that the persons making the proposition have the right to dispose of, and that they can be secured by the city without paying a price that is three or four times as great as the city's representatives would think of paying for the same interests if they were considering them as a private business proposition instead of something for which the money of the taxpayers is to be spent.

There are several men who state that the Seven Lakes proposition cannot possibly carry with it any water rights and that other propositions pending do not carry any rights that the city does not already own.

Mr. T. B. Pyles, state water commissioner of this district, who is one of the best-posted men in the county on all subjects relating to the water rights on the streams of all the Pike's Peak slopes, says he sees but little to commend any of the propositions in their present form but that this impression is particularly strong with him in regard to the one involving Seven Lakes.

City Attorney Shearer says that he does not know the status of the water rights at Seven Lakes, if there are rights available there, and that he will never consent to the purchase of anything there or elsewhere by the city until the abstract of title on all water rights concerned is complete and the title proposed to be acquired by the city perfectly clear.

The Relation between the Proprietor and the Waiter and Means to Make Them More Cordial," was handled by William D. Young. Edward Kelly read a paper entitled "The Progressive

**WELSH-BAUGHMAN**

Yesterday morning at 10 o'clock there was a quiet wedding in the Congregational church in Manitou. Carey S. Welsh and Miss Goldie Baughman were the contracting parties. The Rev. E. L. Hayes was the officiating clergyman.

The guests were confined to relatives and close friends of the bride and groom, and the ceremony was extremely simple.

Mr. and Mrs. Welsh are well known in this town, for they have been here several months. Miss Baughman has assisted in a curio store during the busy season and has made many friends.

After the ceremony was over the bridal party went at once to the Ruxton house, where a wedding breakfast was served at 11 o'clock. The dining room was prettily decorated with sweet peas and pansies and an especially fine breakfast was served. The party was given by Mrs. Phelps, who is a guest at the Ruxton and a friend of the bride.

Both Mr. and Mrs. Welsh, after a short wedding trip, are to reside in Manitou. They were formerly Illinois people.

**COMPLAINT AGAINST BERGER IS DISMISSED**

The case, Town of Manitou vs. Berger, came up again before Justice Francisco yesterday afternoon at 4 o'clock.

Clarence Torrey, because of whose illness the case had been postponed, was sworn and testified. To a question which would incriminate himself he refused to answer and he was sustained by the court.

Had the question been allowed the outcome might have been different. As Lawyer Kriger had not succeeded in producing sufficient evidence he withdrew his complaint and the case was dismissed.

It will be remembered that it was alleged that Berger ran roulette wheels in connection with his saloon.

**"396" WON THE LOT IN DENVER**

Ticket number 396 won the drawing for the Denver lot at the Metropolitan sanitarium last evening. There were

**SYRUP OF FIGS**

**NEVER IMITATED IN QUALITY.**

**An Excellent Combination.**

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal, laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid any limitations, please remember the full name of the company printed on the front of every package.

**WEATHER FORECAST.**

Washington, Aug. 14—Forecast for Colorado: Showers and thunderstorms Thursday and probably Friday; north-easterly winds.

**Satisfied people wear Ashby's spectacles.**

Trunks repaired. Wise, 14 Pike's Peak

Plans moving a specialty. The Colorado Springs Transfer Co., 12 Pike's Peak.

Dust-proof rooms, for storage. Furniture packed. Padded moving vans. Wandell & Lowe, 112 Pike's Peak.

**PLENTY OF MONEY** to loan at lowest rates. The Colorado Investment & Realty company, P. O. building.

W. C. T. U.—The Frances Willard W. C. T. U. will meet at the First Baptist church Thursday afternoon at 3 o'clock. Mrs. Isabel Winger Lake will give the address to mothers.

**PROHIBITION**—Regular meeting of the Prohibition league at court house, Friday evening, 8 o'clock. Light refreshments will be served and all our friends are invited to be present. W. F. Hunt, Secretary.

**DESTROYED A SIGN**—An information was filed in the district court yesterday charging Frank Shrull with malicious mischief. It is alleged that Shrull destroyed a sign belonging to the Glen Park Improvement company.

**POLICE COURT**—Two cases comprised the docket in police court yesterday. B. Carter was fined \$20 and costs for sleeping in the park. John Murphy was fined \$20 and costs for being drunk and causing a disturbance.

**M. E. LADIES AID**—Section three of the Ladies' Aid society of the First M. E. church will meet with Mrs. Ellison, at 704 North Tejon street, this afternoon at 2 o'clock. A cordial invitation is extended to all ladies of the church.

**FLOWER EXCURSION**—The Colorado Midland railroad expects to run two trains on the weekly flower excursion today. Nearly 500 persons have already purchased tickets. The trains will leave the Santa Fe depot at 8:15 o'clock.

**WARRANTY DEEDS**—These warranty deeds were recorded yesterday: Louis Maneval to Augustus C. Hahn, \$3,900, part of block 249, addition 1; J. P. Kearns to D. D. Kearns, \$1, part of lots 29, 30, 31 and 32, block 512, North End addition.

**TEACHERS' EXCURSION**—The excursion, arranged by the Normal Institute, to be run to Cripple Creek over the Short Line Saturday promises to be a big event. Special trains will leave the Rio Grande depot at 8 o'clock. The excursion is public.

**NEIGHBORHOOD QUARREL**—Judge Bonbright will have a neighborhood quarrel to settle this morning. John Magee is accused of causing a disturbance on South Tejon street and he was arrested by Officer Gregory at noon yesterday. There are a number of witnesses.

**LADIES AID**—The Ladies' Aid society is asked to meet promptly at 2 o'clock this afternoon in the parlor of the Cumberland Presbyterian church. Entrance on east side of the church. The Missionary society will study conditions in Mexico from 3 to 4 o'clock in same place. Visiting members in city are invited to attend this meeting.

**QUEEN VICTORIA'S HAIR.**

Its Profusion at Her Age Has Always Been a Wonder.

Over 80 years old, Queen Victoria yet had luxuriant hair, which had for years been a marvel. The court physician, following Professor Unna's discovery, treated her majesty's scalp with a germ destroying preparation, which he has always kept secret. It is now known, however, that the remedy for dandruff, the germ destroying element, is embodied in Newbro's Herpicide, the only hair preparation on the market that does destroy the dandruff germ. Without dandruff, hair will grow profusely, and falling hair will be stopped. Destroy the cause, you remove the effect.

### OUR CITY'S GROWTH ASSURED.

THE TIME has come when it is clearly evident that Colorado Springs is to be a city much larger than it now is and much larger than its present equipment, accommodations and facilities in many ways warrant. The causes of the future growth of this city, upon which we may confidently rely, are many, and it is not an easy task to summarize them briefly. Among them may be mentioned:

The further development of our tourist and health seeking business. Colorado Springs is the central point in the Rocky Mountain region in this respect. This business is increasing rapidly from year to year and must continue to increase. With larger and better accommodations at Colorado Springs, Manitou and Broadmoor, there is no reason why we should not build up a largely increased population on this basis, and we undoubtedly will do so.

The development of Colorado will be rapid and great in the near future. The state was never so full of people as it is right now and a large proportion of the newcomers are here to stay. The Arkansas valley especially is progressing at a marvelous rate and there is no city in the state that has the outlook for industrial growth that Pueblo has. These things will help Colorado Springs greatly in every way and cannot fail to have an important effect upon its growth and prosperity. The state now has a population of 540,000; the city is rated at 21,000. When the state has 2,000,000 people, which it will have in a few years, Colorado Springs ought to maintain a proportionate growth, and there is every reason to believe that it will.

Colorado Springs now enjoys most excellent relations with the rest of the state, and its situation for wholesale trade and as an investment center could not be bettered. In mining especially this city outranks any other, and there is no serious contestant for its supremacy. Cripple Creek is still on the upgrade and shows no sign of decadence, and in every new district Colorado Springs capitalists and promoters are among the first on the ground.

The importance to the city of the abundant supply of cheap fuel recently opened has only begun to be realized. It is a resource not easily to be over-estimated and one that is certain to have a most powerful and beneficent influence upon the future of the city.

And chiefest among all the resources that will make towards the upbuilding and prosperity of the city is the character of the people who are now here and the character of the people who will be attracted to it in the future. Colorado Springs has the reputation of a city that can do anything its people set their hands to. It is a city of intelligence, education, wealth, public spirit, liberality, refinement, law and order, morality, cleanliness, healthfulness. These things are ASSETS, and the proof is to be found in the past history of the city.

### SYSTEM VS. MAKESHIFTS.

IN ONE respect the growth and the future progress of this city are limited. We occupy an oasis in a desert, an oasis made possible by the intelligent use of water for irrigation. A rigid line bounds the area from which we must draw the supply of water for our domestic and manufacturing and horticultural use. The total water supply of the Pike's Peak region is not going to be too large for the proper needs of Colorado Springs in the future.

Nothing could more surely check the growth of this city than a scantiness of water supply.

Nothing could more potently aid our progress than the knowledge that this community was able and ready to protect its interests along this line. Water, cheap and abundant, has built up Colorado Springs just as truly as it has caused flowers and lawns and gardens to grow where once were only grama grass and soap-weed. The growth of our city has been accompanied by a constant demand for more water, and it is because this demand has been constantly met that we have kept growing.

The time has come when the people of Colorado Springs for their own sake and for the sake of those who are to come after them should take a broad, comprehensive and far-seeing review of the water situation as it affects this city and should reach a decision in the matter that should be something more than a mere haphazard guess, something more than a makeshift provision for a need of the immediate future, something more than the purchase of a water reservoir site or a water right because it is offered to the city and someone wants us to buy it. We ought to provide deliberately and scientifically for the future needs of this city and to do this in such a way that each step we take will have its proper place in our complete system and bear a proper relation to that which precedes and that which follows it.

How may this be accomplished?  
First, by a careful examination of the situation by a committee of experts, who have the necessary qualities of impartiality, expert knowledge and absolute devotion to the city's interests. Such an expert board, it has been well suggested, should consist of a water expert familiar with local conditions and needs, a hydraulic expert familiar with the practice of hydraulic engineering according to the most modern methods, and a legal expert who might determine the complicated points that arise under the Colorado law of irrigation and water use. Such a commission should not be expected to report in one week nor in two. It should not be asked to decide merely for or against a particular offer made to the city council. It should examine our sources of water supply, the water rights in this region not owned by the city, the reservoir sites most suitable, the most practicable routes for pipe lines, and the best method of supplying the water to the consumer. This examination should not be restricted to the mountains, but should also include the plains region, where, there is good reason to believe, a large supply of water available for irrigation though not for drinking, might be secured. The necessity for this expert examination is the more evident because of the fact that the average councilman, like the average citizen, has

not the expert training and knowledge of facts which are necessary to a proper understanding of these matters. When hydraulic engineers, irrigation experts and lawyers would be required to spend several months to reach a conclusion, the alderman, the business man and the editor may well be excused from expressing an off-hand opinion.

The second step in the development of a complete water system for Colorado Springs should be the appointment of a non-partisan water commission to assume the control and direction of our water system, to whom should be intrusted the task of carrying out the plans of the experts. The city council is not the body, even in Colorado Springs, to whom the care of these public works should be intrusted. Their terms of office are too short, their other duties too engrossing, their service too much the subject of political vicissitudes to bring the best results. The present committee of ten could, we believe, select from its own membership a board to whom the control of the Colorado Springs water system might be intrusted with absolute confidence in its integrity and devotion to the public interests, and acting under the directions of a well-considered scheme of experts such a board would, we are confident, accomplish far better results than would be possible to any committee of a city council, however honest and intelligent, secured in the usual way and subject to the usual conditions of city politics.

There is certainly no crisis in our affairs at the present time that would justify a leap in the dark. We have water enough now and for some time to come. The demand made by the Gazette for careful and expert examination before action is one that is approved by the great majority of conservative and sensible business men in this city. It was endorsed by every speaker at the recent citizens' meeting. Such an examination can only be made satisfactorily by competent experts, and the plan of a comprehensive system instead of piecemeal and makeshift action is the only one that can commend itself to the business sense of the taxpayers of this city. It will be opposed most violently, if at all, by those who are interested for selfish reasons in some of the offers now made to the city, or who consider it a discredit to themselves that anyone should be considered to have a better knowledge than themselves upon any subject.

The present time is a favorable one for getting this water question into excellent shape, and the plan advocated by Mr. Hall at the citizens' meeting the other evening is the right way to do it.

### A COMPLAINT FROM CRIPPLE CREEK.

THE CRIPPLE Creek Times-Citizen says: "There is a class of people in Colorado Springs who must be charter members of the anvil chorus. The petty tactics they adopt to make a dollar is despicable. Tourists on their way to Cripple Creek are warned not to spend any money in the camp. Their advice to the tourists:

"Don't lay down a dollar anywhere—you won't get it back. Prices are high there—too high—they rob. Don't remain over night. There are no accommodations. Don't buy a meal there—have your lunch put up here."

"And so it is that the tourists bring their lunch, which the inn-keeper of the Springs puts up for a quarter, spend a few hours in the hills, sit on a curbstone and eat and return on the next train, holding their hands on their pocketbooks, because made to believe that they are not safe here with money on their persons.

"All of the tickets sold have a five-day limit. Many of the tourists would remain here that length of time were it not for the busy hotel-keeper of the Springs who conveys the impression that the traveler would be robbed here."

The Gazette is not aware of the existence of that of which the Times-Citizen complains, and we do not believe it does exist except perhaps in exceptional and infrequent cases.

On the contrary the disposition of the people of Colorado Springs is and has been to advise all of our visitors to make the Cripple Creek trip and to stay in the district long enough to gain a fair idea of the wonderful resources and accomplishments of the greatest gold camp in the world. We recognize that Cripple Creek is not only a literal gold mine for every resident of the Pike's Peak region, but it is a most notable and valuable addition to the tourist attractions of this city.

As a matter of fact Cripple Creek is not only now easily accessible by railroads affording a wealth of scenic beauty surpassed nowhere in the Rocky Mountain region, but it and Victor are modern cities well equipped with every accommodation where visitors may find every comfort and convenience at prices that will compare favorably with those of any other place in the state.

Cripple Creek cannot be seen in a day, and only an imperfect and casual idea of it can be gained in that time. There is enough there to repay a stay of several days' duration to anyone.

### THE OTHER SIDE.

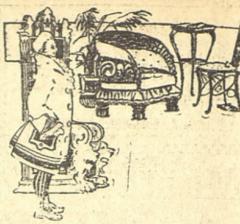

A DAY or so ago the Gazette called attention to the dangerous power possessed by the great trusts who are able to remove their plants entirely from a community that is not agreeable to their wishes, and in this way might effect the permanent ruin of an entire community.

In a recent exchange we find the reasons stated that influenced the action of the steel trust in removing their works from McKeesport:

From the beginning the town has shown bitter hostility toward the mills. The mayor of McKeesport made public proclamation that he would not recognize any rights of the mills under the law; that he would not permit the police or the deputies to protect the property of the mills from lawless violence by strikers, and that he would arrest any free workman who came to McKeesport to seek work in the mills. There was a McKeesport parade in his honor for taking this anarchistic position and when a man did have the temerity to go to McKeesport to apply for work in this very mill he was arrested and given the choice of going to the workhouse or of leaving town.

We cannot see that this statement has any bearing on the question of the danger to the people of the powers held by the trust. Whether the conditions in this particular case justify the removal does not alter the fact that the decision of the sufficiency of the reason is left entirely to the trust. It depends upon this combination to say whether the town shall be ruined, its business paralyzed and the homes of its citizens be made desolate. That power is a dangerous one and a tyrannical one, whether it be exercised beneficently or otherwise.

A letter recently received by the editor of the Gazette from the proprietor of one of the most successful weekly newspapers of the state concludes thus: "I cannot close without thanking you for the kindly interest you are manifesting in the country newspaper. We country fellows have been strangers to notice from the metropolitan press unless they desired to use us in some way and I know the boys all appreciate what you are doing. I like the Gazette better than any paper in the state. It doesn't use a column to give twenty lines of real news. There is something worth reading in its editorials also, no narrowness or personal backbiting."

## Safety Deposit Vaults OF THE COLORADO SPRINGS BANK

Are of the most modern construction, and are designed to fully meet the wants and serve the convenience of patrons. Boxes for securities and important papers may be rented at reasonable rates; storage vaults are also provided for the safe keeping of silverware and other valuables.

Inspection of These Vaults Is Respectfully Invited.

## Honest Methods

pay best in the long run; and that is only another way of saying that "honesty is the best policy." By honest advertising, honest dealing and sticking closely to facts, The Assurance Savings and Loan Association has acquired, and deserves, the confidence of our people. It does not promise the earth to investors, but gives them as large a profit as any other safe enterprise will yield. It may not always make loans at the very lowest interest rates, but under its loaning plans borrowers soon get out of debt. At least twenty-five per cent of its loans are paid before due.

## CHEAP HOME

Elegant modern residence of 7 rooms, bath, furnace, electric lights, gas, open fire-place, cement basement, beautiful lawn and trees, full lot 50x190 ft. fronting east on North Nevada Avenue. Can be purchased for the ridiculously low price of \$4750.00.

EARLY START ON SCIENCE BUILDING

President Slocum Returns From the East Enthusiastic Over the Outlook for Colorado College.

President Slocum of Colorado college, returned last evening from the east where he has been with Mrs. Slocum for a vacation, and also for the purpose of meeting a number of engagements...

"At every college I visited," said President Slocum, "large and costly buildings were being erected by private munificence. All this makes me the more proud of what has been done by the friends of Colorado college and of the loyalty which has been shown to it by our citizens, as well as jealous that our college too should be kept side by side with the eastern schools."

ANOTHER TOUR OF INSPECTION

Council Water Committee and Citizens' Sub-committee Will Visit Seven Lakes and Beaver Creek.

The members of the sub-committee of 10 appointed by the citizens' committee of 50 to confer with the water committee of the city council on the water question were present at last night's council meeting.

Mr. Irving Howbert, chairman of the citizens' committee, and Alderman St. John, chairman of the water committee, suggested that the first thing to be done was to inspect the various water systems now offered the council. It was decided to spend a day in investigating the present water system of the city along with the Seven Lakes and Saturday was chosen as the day to make the trip up the Peak for this purpose.

DARING ROBBERY EARLY THIS MORNING

A daring robbery occurred in a rooming house at 123 South Cascade at 2 o'clock this morning. Two men arrived there at midnight and walked upstairs to the front room and said they wanted a bed until 2:30, when they were to be called to catch a train.

gave the men a bed and took their money. At 2 o'clock one of the men left the building and when his partner was awakened at 2:30 he found that he had been robbed of about \$30 which had been in his pocket. He said his partner was a chance acquaintance he had picked up and who told him he was going to Cripple Creek at 2:30. As the man who was robbed was going on the same train he joined himself to the stranger, with the disastrous results stated above.

TO COMMENCE THE LOUISIANA PURCHASE

Chairman Stockton of the Press and Publicity Committee of the St. Louis Exposition Thinks the Show Will Eclipse Chicago, Buffalo and All Others.

R. L. Stockton, chairman of the Press and Publicity committee of the Louisiana Purchase exposition, was in the city yesterday on a pleasure trip with his wife and niece, Miss Bettie Mae Salveter. Mr. Stockton returned last night to St. Louis, but Mrs. Stockton and Miss Salveter will remain here until September. They are at the Antlers.

"The exposition will be advertised in a more extensive way than has hitherto been done, and especially abroad. President Francis, of the exposition, and Senator Carter, one of the government commissioners, are now on their way to Washington to confer with the other commissioners in regard to means and methods of transmitting invitations to foreign countries to participate in the exposition. We will have a more complete list of foreign countries than has ever been attempted."

which will distinguish it from all others is that we will have this to be an exhibition of processes rather than of products. In short, it will be a gigantic living picture of all America. It will be a miniature reproduction of all the activities of the factories and workshops of this country.

MANY LIVES LOST IN DISASTER AT CLEVELAND

Cleveland, O., August 14.—Five men were burned to death, four were drowned, three and possibly four, were suffocated and several were injured as the result of a fire which destroyed a temporary water works crib, two miles off the Cleveland harbor early today.

While this was going on strenuous efforts were put forth to save the men imprisoned in the tunnel, whose air supply had apparently been shut off entirely by the burning of the compressed air pipe which conveyed the air to the shaft. It was like a furnace and the iron work was red hot from the flames. The water that was thrown on it turned into steam at once.

KNIGHTS OF PYTHIAS PARADE A SUCCESS

Victor, Aug. 14.—The finest of weather prevailed today and the parade of the uniform rank K. of P. was a grand success. The grand parade was an imposing sight and moved promptly at 10 o'clock. The glittering uniforms of the knights, the stirring music of the band and the gaily decorated streets through which the parade passed, made an inspiring effect upon the thousands of spectators who lined the streets and heartily applauded the parade.

The order of march was as follows: Platoon of police. Brigadier General Gibbons, U. R. K. of P. and adjutant. Second regiment U. R. K. of P. K. of P. band. Grand representatives. First regiment U. R. K. of P. Members of the local order and visiting delegates.

WHAT PROMINENT CITIZENS HAVE TO SAY ON WATER QUESTION

(Continued from Page 1.) Evaporation Would Exceed the Normal Flow. "There is one feature of the Seven Lakes subject, however," said Mr. Pyles, "that seems to me to be decisive in regard to it if people would think of it in a practical sense. Suppose the city should acquire the district included in the option and build the tremendous reservoir that would not be built before the purchase could possibly be worth anything. It would not then be of any value for the simple reason that the reservoir would never fill. The evaporation

that would take place from the surface of a body of water of the size of the proposed reservoir would be about three-quarters of an inch per day of 24 hours at that altitude. At the altitude of Colorado Springs it would be an inch and a quarter. This flow in normal times, according to the estimate of Mr. Reid, would be insufficient to fill the reservoir. At times it would be of greater volume, but that would offset the evaporation and at other times it would be a great deal less. The average would not be the evaporation, and therefore, except by floods and cloudbursts, which cannot be depended upon or calculated upon, the reservoir would never fill with water."

BALL ENDS MEETING OF COLORED MASONS

The sessions of the grand lodge of colored Masons of Colorado and jurisdiction, which has been meeting in this city during the past three days came to an end last night at the Temple theater, where the newly elected officers were formally installed. The installation ceremonies were followed by a banquet and ball, attended by over 600 persons. It was the largest social gathering of colored people ever held in this city.

Free Premium List. We would urge upon our readers to lose no time in sending for a State fair premium list if they possess anything of unusual merit that might interest the public. Thirteen thousand dollars is to be distributed in cash premiums and diplomas that will be awarded that will ever be held in high esteem. Again we would urge those of our readers who are interested to the TO-DAY for a premium list to Paul Wilson, secretary, Pueblo, Colo.

MEXICAN PETE AND JACK JOHNSON IN TAME DRAW

Special to the Gazette. Victor, August 14.—Mexican Pete Everett and Jack Johnson, the colored heavyweight of the south, sparred 29 rounds to a draw at the Gold Coin club tonight. It was plainly evident that the match was fixed and it was very much to the regret of the spectators that the match was not continued. Johnson proved himself to be a good man and could at any stage of the game have put the Mexican out. The sports were disgusted and were not slow to let the fighters know that they were so. In the preliminaries the Montana Kid and Kid Bennett of Cripple Creek fought six fast rounds to a draw. Ben Roberts of Cripple Creek refereed the preliminaries and Jerry Mahoney the big bout.

IF YOU WANT TO GET TO CRIPPLE CREEK Take the Colorado Midland railway. The line for safety, scenery and service. We run four trains each way every day. Ticket office, 13 North Tejon street.

VIRGINIA DEMOCRATS NOMINATED MONTAGUE

Norfolk, Va., Aug. 14.—The Democratic state convention today nominated A. J. Montague, present attorney general of Virginia, for governor. Mr. Montague was nominated by acclamation, the only other candidate, Congressman Claude A. Swanson, having withdrawn from the race today. State Senator Barksdale was temporary chairman of the convention. The delegates of Lynchburg, permanent chairman.

THE CZAR WANTS AN AMERICAN TRAINER Salt Lake, Aug. 14.—A special to the Tribune from Helena, Mont., says that John Campbell, the veteran racing man whose stables won the Brooklyn handicap in 1892 and 1893, and who now has a string of runners in Butte, stated that he received an offer to take charge of the training of the czar's horses at St. Petersburg. The czar, he said, through an agent, has offered him \$10,000 a year and 10 per cent of the winnings of royal races. Mr. Campbell says he is undecided whether to accept the offer or not.

SIS, SALT LAKE AND RETURN, SIS. July 30, 31, Aug. 11, 12, 17 and 24.

LIGHT CONTRACT TURNED DOWN

Effort to Authorize a Contract Desired by the Colorado Springs Electric Co. Failed--Labor Day Matters Discussed.

The city council held a meeting last night and transacted several items of business of varying importance. Aldermen Stark and Madden were absent. President McIntyre was in the chair. A resolution authorizing the mayor, city attorney and finance and street committees to draw up and sign a contract with the Colorado Springs Electric company for lighting the city was offered and turned down. Alderman Patton explained his vote in the negative on the grounds that he was not certain but that the city would have to advertise for bids on light for the city as on every other supply needed. Aldermen Ashworth and Hawkes voted in the negative without explaining their positions. The resolution provided for a contract to furnish at \$30 per annum the new light which has been on trial in the city. The old contract expires March 31, 1904, and the proposed new contract is to take the place of the old one. The resolution further provided for another contract to cover five years and to begin at the expiration of the old one, the lights to be furnished under this second contract at \$75 per annum. The resolution further provided that in the contract it should be specified that the city has the option of terminating the contract at any time when it desires to install its own lighting plant. Another provision specified was that if, at any time, it shall become established that electric lighting can be furnished at a lower figure than that specified in the contract, the rate shall be readjusted to accord with the cost of production. The resolution will probably come up again at a later date. The ordinance on the Santa Fe sub-

way was ordered referred to the finance and street committees. R. C. Wright, representing the committee in charge of Labor day celebration, asked permission of the council to keep the seats erected for the horse show standing until after Labor day, which is September 2. Permission was granted. The council was invited to attend the celebration in a body but no action was taken on the matter. The police committee was authorized to hire two wagons to handle the garbage. Alderman Capell promised that the garbage matter will be attended to today. Permission was granted Mr. Crane to erect a three-foot platform in front of his place of business at No. 3 E. Chihuahua street. F. B. Ross asked permission to erect a similar platform in front of the Premium grocery store on Pike's Peak avenue near the postoffice. No action. Elizabeth Headley offered a \$2,000 bond for her employment agency and it was accepted subject to the approval of the attorney as to form. A communication was read from the League of American Municipalities inviting the city to send a delegate to the fifth annual convention to be held in Jamestown, N. Y. The invitation was accepted and the mayor was named as the delegate. The street committee was instructed to clear South Cascade avenue of the floats that have been left standing there since the Quarto-centennial parade. The Elks sent a letter of thanks to the council for the assistance rendered by the city during the street fair. The letter was read and placed on file.

that would take place from the surface of a body of water of the size of the proposed reservoir would be about three-quarters of an inch per day of 24 hours at that altitude. At the altitude of Colorado Springs it would be an inch and a quarter. This flow in normal times, according to the estimate of Mr. Reid, would be insufficient to fill the reservoir. **TWO IMPORTANT ACTIONS**  
 Taken by Listing Committee--Unclassified List Must Go by Oct. 15, and Alert Stock Must Go Now, Due to Official Dispute.

Yesterday at noon the listing committee of the Colorado Springs Mining Stock association held a meeting and took action on two questions of considerable moment.  
 The first was in relation to the unclassified department, that branch of the exchange which has been reserved for the companies which have not been approved by the listing committee, but which are granted the privileges of the exchange until they can so arrange their affairs as to obtain approval. The list, however, has been called for a long time now, and there are some companies which do not seem to be expediting the proper effort to get their affairs straightened out; and it is therefore determined that October 15 shall be set arbitrarily for the abolition of the unclassified department. The companies which are making an earnest effort to reorganize will have ample opportunity in that connection; so; and the companies which are not are not wanted on the exchange. The majority of the stocks there listed are being renovated.  
 The second action was in reference to the stock of the Alert Gold Mining company. The books of this company are claimed by two sets of officers, and unless the latter effort can be determined by court a custodian has been appointed to keep the books, so that they are practically closed. In view of this condition the committee decided to remove Alert from the list until the company is in shape to protect its stockholders. This action is in consonance with the policy of the exchange in protecting those who trade in listed stocks. Not only must a company be passed upon before it can be listed, but it must toe the mark forever afterwards, if it is to keep its place on the lists.  
 The committee has had several applications presented during the past few weeks, but a great deal of discrimination is being exercised in passing on the applications, and only the most desirable applicants will be successful.

**ACACIA WORKINGS ARE SAFE**

The General Manager States That There Is No Danger That They Have Trespasped on Pharmacist Ground.  
 Manager McKinzie of the Acacia Gold Mining company was questioned yesterday relative to the statement which has been circulated to the effect that a possible trespass on the part of the Acacia company on Pharmacist ground. "None of our workings are near the line," he replied, "but if there is any one who has any doubt of it we will willingly grant a permit to the Pharmacist company to make an underground survey. We keep very close watch of our workings, following them up by surveys the latter part of the year. There have been some unpleasant rumors on 'change which have not been without effect on both Acacia and Pharmacist stocks, but the officers of both companies give reassurance, and no trouble is likely."  
 It is estimated that the production from the old workings on the Burns claim will amount to 300 tons of ore this month. The lessees are being very careful in their operations. A shipment of 25 tons was made yesterday from the Clark lease, and 11 tons was sent to the Burns mine.  
 A little drifting is being accomplished in the 500-foot level in the Burns vein, but without result. There is evidently a barren zone between the depths of 500 and 700 feet, but the management is confident that the ore will be reopened below the latter point.  
 One of the Hines leases has started a new shaft on the south end of the claim, which is to be sunk to catch the extension of the Shurtloff vein. It will not go within several hundred feet of the Wrookloff vein, although it has been reported that it would.

**MODOC QUARTERLY DIVIDEND**

The Directors Decided to Pass This Month's Dividend and Pay Three Cents in October--Production for Last Month.  
 The directors of the Modoc Mining and Milling company held a meeting yesterday in Pueblo and decided that henceforth the company will pay a quarterly dividend of three cents per share, instead of one cent monthly. This action was taken in order to obviate the unnecessary work which attends the monthly payment of a dividend. The dividend which was due on the 15th inst. was passed, and a dividend of three cents per share on the 500,000 shares for which the company is authorized will be declared in October next to be paid on the 15th of that month.  
 The company is doing a great deal of development work on its Battle Mountain property, and accordingly the output last month was lower than usual. An officer of the company stated yesterday that the exact figures were not yet made up, but the production would amount to between \$12,000 and \$15,000. The new tunnel is being advanced a depth of about 140 feet and is being pushed down very rapidly. It is to be continued to the 500-foot level without a stop, and the ultimate destination is about 1,000 feet. When it is deep enough so that the company can utilize it for production it is expected that a very fine output will be obtained.

**MINING NOTES AROUND TOWN**

The directors of the Forepaugh Gold Mining company have just extended the lease of J. R. Dolbony on their Noble claim, near the Santa Rita mine on Squaw mountain. The lease had still a year and a half to go, but they gave the lessee a year more in consideration of his agreement to perform a large amount of development work during the life of the lease. The shaft in which he is now working is about 100 feet deep, and he proposes to extend it to a depth of 500 feet and thoroughly prospect the ground from there. The shaft is only about 600 feet from the Santa Rita mine, and arrangements are to be made for obtaining air for machine drills from the Santa Rita compressor, thus assuring most vigorous work from now on. Several promising veins have been opened from time to time on the property, but it is evident that greater depth is needed before pay ore will be opened.  
**FANNY RAWLINGS GETTING GOOD SHARE OF BONANZA.**  
 The Fanny Rawlings company of Leadville, is coming in for a good share of the profits of the bonanza which the South Winnie Leasing company is exploiting at the mine. The latest shipment to be heard from at the local offices of the company consisted of 41 tons, returning values of 233 ounces in gold, nine ounces in silver to the ton and 11.6 per cent lead. The total net value of the consignment was \$1,312.13, and the royalty which the company received amounted to \$634.12. This brings the receipts of the company from the latest four shipments up to \$2,000 and over, representing less than a week's output. The company is very rapidly forging ahead, so far as its financial condition is concerned.  
**ANOTHER SHIPMENT FROM THE ECLIPSE.**  
 Another shipment was sent out from the property of the Eclipse Consolidated company yesterday, and there is still a lot out which has not yet been settled for. The ore is coming mostly from the 400-foot level, and is averaging about two ounces in gold to the ton. In the bottom level, as well as in the uravise the rich seam of stuff which has assayed as high as \$17 in gold to the pound, is being carefully struck and sacked. The uravise is still under construction, and it cannot be determined just when it will be completed. All the way up in the uravise, which was started from the bottom level, the ore has held out well, along the foot wall of the vein; and the high grade streak has also persisted, the quartz seam varying in width between one and 10 inches. It will not be until the uravise is completed that any large production will be attempted by the management.  
**NEW SMELTER A BOON TO CLEAR CREEK MINES.**  
 The Carpenter smelter which has just been blown in at Golden promises to be a boon to the mines located up in the Clear Creek mining country, the freight being less to Golden than to Denver; and already a great many contracts have been made with the management. The ore bins are full at the plant, and the prospect now is that the smelter will be offered more ore than it can handle. The Grand Central mine in Central City, and many around Idaho Springs, Georgetown and Silver Plume will contribute. The plant has a capacity of 250 tons a day, one furnace taking care of it all. The furnace is now being tested to determine whether or not it will withstand the intense heat which will be necessary for this method of treating ore. If the test proves successful treatment will begin at once.  
**RETURNS FROM EIGHTY TONS OF GOULD ORE.**  
 Returns have recently been received from the last shipment of 80 tons marketed from the Jennie Sample claim of the Gould company, and the values were found to have averaged about \$45 in gold to the ton. The ore is coming from the stopes above the 500-foot level where the showing is still favorably, although the ore has not been opened in large quantities yet from the 500-foot level. Drifting is being accomplished in the 500-foot level, and a great deal of good work is being accomplished in the mine. The company is now in a good financial condition, entirely able to prosecute the development now in progress for a long time.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Aug. 14.—The market today was slightly better so far as the entire list are those located on Beacon hill. El Paso sold again at 51, closing two points lower, however, and Columbia sold at the highest market yet, 25 1/2. Gold Dollar was also in very good demand, selling as high as 18 1/2, buyer 30. Elkhorn sold at 1 1/2. Beacon Hill-Ajax was in demand at 57 and Morning Star was also a good trader at 3. The consolidation rumors still being rife; although nothing is yet definite. Acacia was stronger in the afternoon, selling at 1 1/2. Golden Age closed at 2 1/2 and King Gold at 1 1/2. There was lively trading in Little Man at \$3.50 per 1,000 shares, a higher price than the shares have been selling at.

LADYSMITH WORKINGS

Excellent Assays Reported From the Globe Hill Property---Doctor-Jack Pot Output---Gold Dollar Shipments.

Special to the Gazette. Ladysmith, Aug. 14.—It is reported that excellent assays of pay ore are being obtained from the Ladysmith workings of W. S. Stratton's Globe Hill property. The shaft which is eventually to be the largest in the district is down to the 165-foot depth at which point crosscuts are being run to the east and west. The crosscut to the west is to extend to the Pride of the Rockies claim and it is in this lateral that pay values are said to have been obtained. So far no preparations have been made for shipping, however, and the Stratton-Cripple Creek company intends to fully develop the levels and prospect the greater part of the territory before starting production. It is not at all unlikely that several excellent veins will be cut before these crosscuts are completed. Shipments have come from many of the claims through which the crosscut is running and there have been fine pay returns opening up different times during the history of the camp all over this locality. Shipments of from three to four carloads have been being made from the old Summit tunnel on the Globe claim of the Gold Cret group. The ore is being mined from a very large pocket of ore that is being contained in the ore body it is not known what the extent of this shoot is. The tunnel is in about 450 feet and the ore is obtained at a depth of from 75 to 100 feet from the surface. The values are running in the neighborhood of \$30 per ton average, as the ore is being pocketed in exhausted sinking will be commenced to follow down the ore body. The ore needs very little sorting and is being taken out at a comparatively small expense. The output of the Doctor-Jack Pot Consolidated for the first ten days of the current month amounted to 163 tons of ore, the bulk of which is low grade. The shipments consisted mostly of low grade ore, but with a quantity of high grade mineral being shipped from the Mattie D. drift. The old Doctor Jack has put down an additional depth of 45 feet where a station has been cut and the values in the bottom of the shaft in the main Doctor vein shows a marked improvement. A drift to the north has been started at this point. In the 15th level of the Doctor workings which is at the same depth as the first level of the Morning Glory, a new ore shoot has been found 18 feet from and parallel to the main Doctor vein. It was at this point that the ore in the crosscut 60 feet north of the shaft and in the crosscut 400 feet from the shaft. Another crosscut between these two points is to be run in order to develop this vein. Shipments from the Gold Dollar on Beacon Hill are coming from the first, second and fifth level and although the Little Man is not yet open the usual amount the grade shows some improvement. The development work in the fifth level consists in crosscutting to the west into the hill open up any veins in this portion of the property. A new ore shoot has been found in the first level south of what development work that has been done on it shows it to be a good permanent body. J. D. Murphy, leasing the dump of the Triumph company on Battle Mountain has a shipment of from six to eight tons of ore about ready to go out. Assays indicate the grade to be in the neighborhood of four ounces. The lease is using a washing machine to save the best values. James Doyle of Victor, has organized the Schuykill Gold Mining company to operate the Home Run claim adjoining the Santa Rita to the south on Squaw Mountain. Mr. Doyle has owned the property since 1895 and has done considerable work with more or less success. No work has been done for some time and it is thought that the prospect will be shut down to the 500-foot depth. It is at this depth that the new company is working on the Santa Rita ore shoot on its dip to the south.

EASTERN MARKETS

New York, Aug. 14.—Trading at times today was spirited because commission houses reported an increase in outside orders. Developments over night did not shed much light on either the crop or strike situation, and as these influences are rapidly losing their earlier importance, bull traders resumed active operations. With the course of the day there was a revival of interest in some usually dormant stocks which gave rise to reports of pool manipulations, especially in the United States Leather issues. Current rumors regarding the dividend status of St. Paul made the stock the feature of the day and its fluctuations governed the movement of other stocks closely. Generally speaking, the properties which were notably strong yesterday resumed their advance today but the average rise was not so pronounced. The great bulk of today's dealings were transacted during the forenoon when the high prices of the day were made. London was again a buyer of the general international list and shorts covered contracts in the stragglers and Pacifics. A wide opening was looked for in St. Paul, owing to the active inquiry for the stock in a market where it was two points higher. The first sales were 7,000 shares at 162 1/2. The opening advanced to 164 1/2 and the stock was mostly fractional but a strong undertone prevailed and there was heavy buying in the active list. Traders met the rise with stock making chases at lowest prices early in the week and the bears were disposed to sell the market on account of it. A steady improvement since Monday's opening. The offerings reduced and in some instances, wiped out the initial advances. Sugar, which had started off 1 1/2 higher, was depressed sharply and the steel stocks were rather heavy. Prices soon worked upward again, however, the trunk lines, grainers, Pacifics and coalers being taken freely and establishing advances of from one to two points. St. Paul advanced 2 1/2 to 164 1/2, and the preferred gained 3/4. After midday the market worked slowly downward, but there were occasional rallies which were in a measure due to the timidity of the short interest on indications of inside support to special stocks. The demand for steel stocks died out pretty well in the late afternoon and the bears made a successful raid against the market, despite the fact that two points had been gained and putting the active list generally down a point or over. The United States steel stocks which had made gains at the outset of 3/4 each fell in neglect during the course of the day and were heavy. The common sold 4 1/2 under yesterday's close and the preferred 5 1/2, but were consistently supported in the late drive and did not exceed their early low level. In the metal dealings buying to cover caused a general rise. St. Paul gained to 164 1/2, the highest figure of the day, and the entire market closed steady. The closing rally brought United States Steel common up to 44, its best price and the preferred rose to 32. The bond market today was generally firm but business continued in a low volume. Total sales, par value, \$2,615,000. United States bonds were all unchanged on the last call.

It relieves permanently because it allows the tired stomach perfect rest. Dieting won't rest the stomach. Nature receives supplies from the food we eat. The sensible way to help the stomach is to use Kodol Dyspepsia Cure, which digests what you eat and can't help you with good. Hedy-Arcularius Drug Co., and C. E. Smith, 117 S. Tejon street.

**CRIPPLE CREEK EXCURSION VIA COLORADO MIDLAND RY., AUGUST 17.**  
 \$2.50—ROUND TRIP—\$2.50.  
 Good only on Colorado Midland, train leaving Santa Fe station 7:50 a. m., good returning on all trains of that date. Colorado Midland railway, city ticket office, No. 13 North Tejon street.

**ROYAL GORGE.**  
 A special D. & R. G. train will leave Manitou at a. m. and Colorado Springs at 8:30 a. m. for the Royal Gorge of the Arkansas, Monday, August 19. A trip will be made through the state penitentiary at Canon City. Round trip, \$3.25.

**KNIGHTS TEMPLAR AT LOUISVILLE, KY.**

The most notable gathering in the history of Free Masonry will be the 26th, 27th and 28th of this month. The sons and daughters of the Blue state are famed for their hospitality, and the elaborate preparations being made by the citizens of Louisville, and the state generally, for the entirement of the Templars, indicate that all previous records will be eclipsed. Already \$100,000 has been raised for the purpose.

A rate of one fare plus \$2 for the round trip has been made from all points. The dates of sale from Colorado are August 23, 24 and 25, return limit by extension, September 16. The official route is via the Burlington from Denver to St. Louis, thence Baltimore & Ohio southwestern railway to Louisville, and tickets should so read.

The best is none too good for the Knights, and the Burlington has arranged a special Pullman train, vestibuled throughout, to leave Denver about 2:30 p. m. August 23, and run through to Louisville without change, arriving there on Monday, the 26th, at 7:30 a. m. Applications for berth reservations on this train should be addressed to Sir Knight George W. Valery, Denver.

Every Knight Templar in Colorado should attend this convocation. The expert drill corps of Colorado commandery, No. 1, under the leadership of Capt. R. A. Kincaid, expects to win the big first prize in the competitive drill on Wednesday, August 23, and the event will be properly celebrated at the entertainment headquarters, engaged for the Colorado commanderies at the Gault house. Be on hand and cheer them on to victory. Noblesse oblige.

**CRIPPLE CREEK EXCURSION VIA COLORADO MIDLAND RY., AUGUST 17.**  
 \$2.50—ROUND TRIP—\$2.50.  
 Good only on Colorado Midland, train leaving Santa Fe station 7:50 a. m., good returning on all trains of that date. Colorado Midland railway, city ticket office, No. 13 North Tejon street.

**ROYAL GORGE EXCURSION, Monday, August 19.** Train stops in Gorge. A visit will be made to the Canon City penitentiary. Train leaves Manitou 8 a. m., Colorado Springs at 8:50 a. m. Round trip, \$3.25.

**Correct Eye-Fitting**

during the past few years has developed into an exact science. The requisites for this exact work comprise a suitable optical dark room, expensive and accurate instruments for testing the sight, and a skilled specialist who devotes his time to this work. We are prepared to furnish all these requisites and test your eyes free. "Good enough" is not good enough with us unless it is exact.

**House Cleaning Time At Giddings.**

August is the month we clean-up in. Each department is taken in its turn and scoured for broken lines, back numbers, etc., which are marked down in price and disposed of. Hence we call it "HOUSE CLEANING TIME." Every approaching season must find the different departments absolutely free from unseasonable goods. Watch our adds closely—many economizing chances are offered.

**Startling Concessions On Tailored Garments.**

Another bunch of money-saving bargains are offered from this department. Hand-some goods that you admired at the first of the season now come within your reach at prices you never dreamed of before.

**Sale of Battenburg Pieces**  
 Broken line of ladies' dressers, a fascinating lot that sold for \$1.50 and \$2.00. On sale this week for 75c. A lot of serge and cover cloth skirts, made long and lined with best quality of percaline; were \$5.00 and \$6.00, now . . . \$3.50.

**Men's Shirts**  
 A new line of Monarch Shirts received. Stiff bosom and pleated negligee effects shown in the latest patterns and colorings. Prices \$1.00 and \$1.50.

**Underwear Snaps**  
 One lot ladies' union suits that have all the ease and comfort of a perfect fitting garment can afford, are reduced from 75c to . . . . . 55c.

**Interesting Silk and Dress Goods Items**  
 The silk and dress goods stocks come forth with four startling concessions. Four items that bid fair to keep the salesmen busy while they last.

Entire line of Foulard silks reduced. Summer tints and patterns. Regular price, \$1.00 yard. This week . . . . . 50c. Fancy grenadine patterns in blue, black and grey effects. The ones that sold for \$2.50 and \$3.50, go this week for . . . \$1.75.

**SILVER PLUMB AND RETURN \$2.00.**  
 Every Sunday over the Colorado and Southern railroad.

**Navajo Blankets**

In our carpet department may be found the largest assortment of these crude but popular floor coverings in the state. Mr. E. W. Giddings, Jr., being an enthusiastic Navajo collector, makes numerous trips through the reservation and buys them up. This gives us an advantage of variety and cheapness other concerns do not enjoy.

**Tourists**

What would be a more attractive souvenir to remember your Colorado visit than a nice Navajo?

**Fancy Parasols**

Despite the heavy selling this stock has experienced this summer a number of swell ones are left. You will need a new parasol next summer. Why not buy now while they are cheap? Lay it away, it will keep, and you can put that extra money on your fall costume. Original prices reduced **One-Third.**
