

Attend Our GRAND OPENING TUESDAY, MAY 1st

The public of Colorado Springs and vicinity are cordially invited to attend the grand opening of our new store on the above date, at which time Barnes' Orchestra will be in attendance between the hours of 2 to 5 and 7 to 9 p. m., during which hours there will positively not be any goods sold. Every caller will be presented with a souvenir of flowers. It has been our aim to give the public a place to make their purchases in the shoe line, that will compare with any similar establishment in the west. Our stock comprises a line of footwear that will suit those who desire the lowest priced to the highest priced goods. We shall continue to deserve the reputation we have gained for carrying the best makes in everything that should be found in a reliable and up-to-date shoe store.

Wants Preparation for the Farmers

Hon. B. F. Clayton returned yesterday from Salt Lake City, where he met governors from various western states and arranged for additional delegates to the National Farmers' congress, which meets in this city in August. After the recent conference of western governors Mr. Clayton was received by the governors of Wyoming, Montana, Utah and South Dakota, each of whom promised to appoint 50 delegates in addition to the regular list, and to do everything else possible to promote the interests of the congress. Secretary McClurg is arranging a list of boarding houses and hotels where the guests can obtain accommodations and desires that all who can care for one or more of the farmers, write him fully so that the information may be

compiled for distribution before and during the meeting. The data desired is as to rates, number of rooms to let, and the names of the houses, etc. No charge will be made. It is especially desired that the information be sent in by mail so that the communications can be placed on file. Additional information came yesterday concerning the preparation of the Christian union of the United Presbyterian churches of North America to be held in Denver early in the summer. The Pittsburg meeting there were 1,000 delegates in attendance, and arrangements are being made in Denver for nearly 4,000 visitors instead of 2,000 as at first contemplated. Nearly all of them will come to this city and ascend the peak.

Illinois Man Says This is "The" Place.

Not a day passes but what some distinguished business man, who has dropped into Colorado Springs for a few days recreation while en route to the east or west, comments upon the ideal conditions of the city and its brilliant future as compared with Denver and other large cities of the country. They are business men who have made a success in life and whose opinions are worth everything there is on the face of the earth. Most of them are men of national repute in some line or other. Also like these have made the country and only men like these are qualified to judge conditions.

in Manitou is a splendid one. Our people are all in love with Manitou and Colorado Springs and if you had the hotel accommodations thousands would come every year who now stay away because they cannot find comfortable quarters. "It was amazed at the size of the city and its resources in the way of water and power, which are all that could be desired as inducements for manufactures. Many branches of this industry would pay well here and to make a great city they are necessary. I have watched scores of cities grow up but the most prosperous of them never had the outlook of Colorado Springs at present. I would like to have money myself to invest here, and shall call attention to the place among my friends who contemplate seeking a new settled country that offers success to every enterprising citizen.

W. J. Gessert of Hesseville, Ill., one of the most thrifty communities in the country, is one of the distinguished guests at the Alta Vista. He has lived in the suburbs of the famous manufacturing town of Monmouth, Ill., where is located the largest pottery in the world, a number of large implement factories and other industries. After a careful summing up of conditions in Denver, Salt Lake, Colorado Springs, and other cities of the western states, he said last night: "I know of no place in the west with such great opportunities for the investment of capital as in Colorado Springs and Manitou. The one marvelous thing to me which I have noticed in my travels is the information that your millionaires should think of going to Denver to invest their money. It appears to me that Denver is increasing here and I am informed they are less in Denver now than they were ten years ago. You ought to have 75,000 people here in five years, and if your rich men are loyal to the city you will have easily that population besides having one of the richest and most beautiful and prosperous cities on the continent. I never saw such opportunities for making big money on investments as exist here and in Manitou.

It was then decided to take up the declaration of principles, section by section. The first two sections were taken up and discussed until 9 o'clock. President Chamberlain said that, in his opinion, the most important thing to be considered by the local organization was the enforcement of the liquor ordinances. A motion was made and carried for the present to appoint a committee of three, whose duty it should be to look after the local issues. The committee as appointed by the president, consists of M. F. Prohibitionists Meet and Resolve.

The meeting of the prohibitionists at the Free Methodist church last night was the best, both in point of attendance and interest, that has been held for many months. The meeting was called to order at 8 o'clock by the president of the local organization, Dr. Chamberlain. The committee, appointed at the last meeting to draft resolutions, made its report. The report was as follows: Declaration of Principles. 1. I favor a system of direct legislation through the initiative and referendum and imperative mandate, under proper constitutional safeguards. 2. We favor the election of president, vice president and United States senators by direct vote of the people. That the president and vice president be elected for one term only, of six years. 3. We demand a national money, safe and sound, issued by the general government only, without intervention of banks of issue, to be a full legal tender for all debts, public and private, a just equitable and efficient means of distribution, direct to the people, through the lawful disbursements of the government, and that it consist of gold, silver and paper. 4. We demand that the government, in payment of its obligations, shall use its option as to the kind of lawful money in which they are to be paid, and we denounce the present and pre-

ceding administrations for surrendering this option to the holders of government obligations. 5. We demand a graduated income tax, to the end that aggregate wealth shall bear its just proportion of taxation. 6. The telegraph and telephone, like the postoffice system, being a necessity for the transmission of news should be at once owned and operated by the government in the interest of the people. 7. "Thank Goodness I can have a room with a bed in it, a separate toilet, soap, etc.; I have had a 'dickens' of a time down in New Mexico." J. M. Hedden, the well known Denver hardware man, entered the Alta Vista hotel yesterday with a pleased expression on his countenance and the above exclamation. "That is terrible," he continued, "what I have been through and I am only one of thirteen train loads that were stuck in the Eaton mud and rock slide. But my worst trouble came at Albuquerque, after the blockade, where we struck some political conventions and scores of people were out all night because they could not find a place to sleep. The burning of the big hotel, the burning of the city, the dilemma it little appreciated until this week, and I am told the Santa Fe railroad was made the pleasing announcement that it will build another large house.

CORONERS' JURY ACQUITS JONES

Man Who Killed Fred Clark Acquitted in Self Defense.

DEAD MAN HAS FRIENDS

But They are in the Southern States and Cannot be Located—Clark is Further Identified. An inquest was held at 2 o'clock yesterday afternoon over the remains of Fred Clark, the colored man who was struck with the head with an iron pipe during a fight which occurred Wednesday night at the cog road machine shops at Manitou. The witnesses examined were Mr. D. M. Jones, the master mechanic in the shops who struck the fatal blow; Mr. C. W. Sells, manager of the cog road; Marshall Cree of Manitou and Joseph Ross, the night watchman at the shops. The evidence given showed to the satisfaction of the jury that Mr. Jones is striking the blow was an act of self defense and the coroner decided to acquit him. During the trial the dead man was identified by the coroner by the name of George Laston who came to this city with him from Pueblo a few weeks ago. He said to each a mother and brother in the southern states. He has been in the county and city jails during the past three weeks. He was released from the city jail during the early part of the week. In regard to releasing the two white men who were with him and brother in the southern states, he has been in the county and city jails during the past three weeks. ADELPHI WINS ON SINGLE TAX

The debating clubs of the High school Adelphi society and the Hesperian society of Cutler academy crossed swords last night in the High school auditorium by Keesh and managers of both clubs. The Adelphi club were victorious. The subject of the debate was the Single Tax. The Adelphi club were represented by Will H. Thomas, Percy E. Chamberlain and Maurice C. Hall for the High school and respectively by J. Keesh, O. P. Lawson and Arthur Sobel for the academy. The judges were Mr. Henry C. Hall and Rev. Benjamin C. Brown. The arguments on both sides were lucid and the delivery good. The debaters seemed to be familiar with their subjects. Although the decision was given to the academy, special mention was made by the judges of the excellent team work which was displayed by the High school. During the intermissions, some excellent music was rendered by the High school mandolin club. The Elks' Glee club, which has been in the city for several days will play at the Manitou croquet pavilion tomorrow afternoon from 3 to 5. The novel work of the aggregation has excited the most admiring and enthusiastic approval of the city. Manager Stevens of the Alta Vista has engaged the boys to play every evening until their summer engagements hereabouts demand their attention.

With all your faults I love you still.

muttered C. C. Jacobs at the Alamo last night. "Although I lost two fortunes in Colorado mining propositions when the woods were full of sharks and salted mines were permitted, I am still a lover of the state. Have you not my home in Wilmington, Del., for 17 years. I went there after losing all my money on the western slope. This is the first time I have been here since, and I am so well pleased that I may pick up and come to stay some day." Mr. Jacobs is in the shoe business at present.

LADY GOLFERS PLAY FOR SILVER TROPHY

At the Cheyenne Mountain Club yesterday afternoon occurred the tournament of the lady golf players of the club for the silver cup which was offered by the club management. The trophy was one of the most attractive that has been offered to the lady golfers during the winter and the play was spirited and drew a good number of players to the tournament. The result of the play was a tie between Mrs. Farnsworth and Mrs. Curtis and it will be necessary for these ladies to play off for the trophy which they will do within a few days. The score in full was as follows: Mrs. Farnsworth..... Gross. Hdq. Net. Mrs. Curtis..... 10 22 25 Mrs. Davis..... 7 20 27 Mrs. O'Brien..... 8 20 28 Mrs. E. O. Wood..... 4 21 29 Miss DeCoursey..... 8 24 30 Mrs. D. G. C. MacNeill..... 20 25 Mrs. Brown..... 25 30 55

FOUR SOLID INVESTMENTS.
THE investors who have made money in Cripple Creek stocks are those who have selected stocks backed by good management, well-located properties, economical administration and active development work.

PROGRESS.
THIS company owns over 50 acres of valuable ground in the Cripple Creek district; is capable and conservatively managed and active development work is being prosecuted.

IN addition to the work that is now being done on the Gold King claim by surface lessees, a lease has just been granted to the Good Will Tunnel company.

CONSTANTINE CONSOLIDATED.
ANOTHER stock that can be purchased now between 7 and 8 cents and which offers excellent profit making opportunities, is Constantine Consolidated.

GOLDFIELD M. AND L.
ONE of the best speculative stocks upon the market is Goldfield M. and L.

properties. Little stock (the English stock) is now selling around \$5 per share and the company is paying about \$12,000 a month in dividends.

FULTON-MARGUERITE.
AMONG the other low-priced shares that offer exceptionally good investments we recommend Fulton-Marguerite.

Raven hill is coming into ever-increasing prominence, both by reason of the wonderfully rich ore that is being taken from this hill and because of the recent consolidation of the Elton, Raven and Tornado companies into one great mine.

Investors should not buy the above-named stocks on speculation, but rather for solid investments. They can all be strongly recommended as offering safety together with the promise of large profits to those who will hold them patiently, awaiting the results of the development work now in progress.

COLORED MINSTRELS. Gideon's Big Minstrels Will be the Attraction at the Opera House This Evening. There is no more enjoyable or wholesome form of amusement than negro minstrelsy. It marked the happiest hours of our younger days and let sunshine into our juvenile lives.

The announcement of a minstrel show will always awaken interest and particularly if the company stands foremost in the field of this line of amusement, which is the case with "Wright's Original Nashville Students" and "Gideon's Big Minstrel Carnival" which appears at the opera house this evening.

This big show has been 25 years before the public. It shows its progressiveness by evolving from a southern college glee club into a mammoth organization that requires its own train of special cars to travel in. It carries two big peerless bands, one grand symphony orchestra. Forty-five are included in its roster: comedians, soloists, and acts of every description known to both minstrelsy and vaudeville: acrobats, quartettes, sextettes of male and female voices; jugglers; slack-wire walkers; tumblers; huck and wing dancers, and a host of features of novel and original never before seen in a minstrel show.

The best of the "old style" of minstrelsy is retained, and the bright and the present day ideas added. Every detail in the management of this mammoth organization bears evidence of strength and thorough business methods.
