

ARRESTS IN THE TRANSVAAL

Eight British Officers Are in Jail

ALLEGED HIGH TREASON

It Is Said a Plot For Rebellion Has Been Maturing

OTHER ARRESTS ARE EXPECTED

Prisoners Were Taken to Pretoria and Alleged Incriminating Documents Were Found Upon Them

Johannesburg, May 16.—A number of men have been arrested here on the charge of high treason.

London, May 16.—The foregoing dispatch probably contains the telegram received by the Argus of Cape Town today from Pretoria saying that the Transvaal secretary of state confirmed the report that a number of unusual arrests had been made and that it was rumored that the prisoners were British officers.

The advices from Johannesburg are also probably connected with a mysterious dispatch received at Johannesburg from Pretoria on May 12, saying that a special train fully equipped with Boer artillerymen, guns and a searchlight apparatus was being held in readiness at the Transvaal capital.

The afternoon newspapers today print special dispatches from Cape Town saying that seven men have been arrested at Johannesburg and have been taken to Pretoria.

The Standard and Diggers' News, the Boers' organ in London, has a dispatch from Pretoria which says that warrants were issued yesterday evening by the state attorney and were executed at midnight.

Cecil Rhodes, the former president of the Cape Colony and who is interested in the British Chartered South African company, informs the Associated Press that he has heard nothing about the arrests at Johannesburg and knows nothing about the reason for which they were made.

Joseph Chamberlain, secretary of state for the colonies, who was interviewed in the lobby of the House of Commons this evening, said that he had heard nothing official regarding the arrests in the Transvaal and did not think that too serious significance ought to be attached to them.

The news caused considerable excitement among the members, but little disposition was manifested to credit the rumors of a rebellious conspiracy.

TAKEN TO PRETORIA

EIGHT BRITISH OFFICERS WERE LOGGED IN JAIL—IT IS EXPECTED THAT FURTHER ARRESTS WILL BE MADE.

Pretoria, Transvaal Republic, May 16.—The arrest at Johannesburg early this morning of seven alleged former British officers named Nicholls, Patterson, Tremlett, Ellis, Freis, Hooper and Mitchell, on the charge of high treason, has caused intense excitement here.

The arrests were effected by a detective who joined the movement which, it is asserted, was for the purpose of enrolling men in order to cause an outbreak or rebellion.

Incriminating documents were found on the prisoners and it is expected that further arrests will be made.

The officers arrested who are eight in number instead of seven as previously reported are Captain Patterson, formerly of the Lancers; Colonel R. F. Nicholls, Lieutenant Tremlett, Lieutenant C. A. Ellis, lately a private detective at Johannesburg; Lieutenant John Allen Mitchell, formerly of the Horse artillery; former Sergeant J. Fries, R. P. Hooper and Nichols.

None of them has been in the employ of the British South Africa Chartered company.

It is said that the commissioner of police who had the affair in hand had been working up the case for four months. The detective who effected the arrests, received his instructions last week, and secured the necessary warrants yesterday.

The executive council of the Transvaal is sitting in secret session this evening, considering the arrests.

LONDON COMMENTS

THIS MORNING'S PAPERS ALL DEVOTE THEIR PRINCIPAL EDITORIALS TO THE ARRESTS IN THE TRANSVAAL.

London, May 17.—All the morning papers devote their principal editorials to the arrests in the Transvaal, counselling a postponement of conclusions until the facts of the case are ascertained and declining to believe that English officers should have been guilty of what the Standard terms "such treasonably folly."

The Daily Mail says: "The conditions are that of a boiler, with valves at full blast and safety valves screwed down. No conspiracy can flourish while freedom exists and the Krueger policy will inevitably produce resistance."

The Times, which repudiates the idea that the prisoners are of weight among the British Uitlanders or represent important interests of any kind at Johannesburg, suggests that President Krueger has been imposed upon by his own detectives.

The papers publish an interview with Mr. Chamberlain, who apparently depreciates the seriousness of the arrests, but says he does not recognize the names of the prisoners or understand the causes of arrest.

COMING HOME

THIRD BATTALION, SECOND VOLUNTEER ENGINEERS, INCLUDING COMPANY I, MUSTERED OUT IN SAN FRANCISCO.

San Francisco, May 16.—The Second volunteer engineers, Third battalion, 350 men, comprising Company I from Denver, Company K from Salt Lake, Company L from Portland, and Company M from San Francisco, were mustered out today and will leave for their homes at once.

STORMS IN MICHIGAN

Erick School House Burned Down and Children Injured.

Detroit, Mich., May 16.—Severe storms were general throughout the state today. Hudson, Cairo, Coldwater, Marshall and Brant all report considerable property damage, but no lives lost.

A Free Press special from Hudson says: "Near the town of Hudson, on the line in Ohio, the storm destroyed a small brick school building. There were about 15 children in the building beside the teacher, Miss Flossie Fisher. Ten of the children were injured and it is reported that two will surely die. Miss Fisher was painfully cut about the head. The building was turned completely over on its side and then fell pieces.

In Detroit the storm struck the southwestern part of the city and did about \$40,000 worth of damage. Forty houses and many trees, fences and one three-story brick building was completely demolished. There was no loss of life here.

SMALL CYCLONE IN AKRON.

Akron, Ohio, May 16.—A cyclone struck this city at 3 o'clock this afternoon and did much damage. The storm struck the tents of Mann's circus and the collection of the market building was blown down. Carriages were overturned in the street.

SEVERE WIND IN PITTSBURG.

Pittsburg, May 16.—A terrific wind storm, accompanied by rain and hail, passed over this section at about 4 o'clock this afternoon. Great damage was done to telegraph and telephone wires, while many trees, fences and roofs were picked up and carried away bodily.

The Tenth Ward schoolhouse in Allegheny was so badly tilted that the building inspector has condemned it. The school was closed and the hundreds of pupils were saved injury.

GENERAL WOOD'S EXPLORATION.

Prosperous Conditions in Interior of Santiago Province.

Santiago de Cuba, May 16.—Major General Wood's expedition to the interior of the Santiago department, arrived here yesterday after his first trip into the interior of the province. He went to Manzanillo by steamer and returned by the same route, accompanied by Lieut. Matthew Hanna, his aide.

The country traversed he found in a generally prosperous condition. The planters are planning cane and expect a full crop next year. Stories regarding bandits seem for the most part to have been promoted by professional politicians who have an interest in maintaining disturbing conditions.

Everywhere General Wood found the people anxious for greater security and the annexation idea is doubtless growing in spite of all efforts on the part of agitators to the contrary.

Along the whole route he was received with enthusiasm and at several places very elaborate arrangements to welcome him.

Decorations Day services will be held on May 30 throughout the province, particularly at military posts and Siboney as well as in Santiago.

KANSAS COAL STRIKE.

Pittsburg, Kas., May 16.—There is nothing new in the strike situation in this part of the district today. The Western Coal and Mining company's mines at Yale and the Kansas and Texas mines are working as usual. The Fleming mines are shut down because of a lack of cars.

At Weir City, Kas., the Texas shaft No. 18 is working but 40 men, and the Co. A mine also has about that number at work. These mines have been practically shut down since Saturday. The men at the Kansas and Texas mine No. 23 are out, but they are all in favor of working and only remain out through fear of being stigmatized as "blacklegs." Two hundred and fifty men reported for work at the Central Coal Company's mines today and the same company's mines at Scammon are also working.

The impression is gaining ground that the strike will play out in a few days.

STANDARD OIL TRUST

Attorney General Monnett of Ohio Gives Testimony.

TO INDUSTRIAL COMMISSION

He Tells What He Knows of the Operations and Conduct of the Great Monopoly and Expresses His Opinion as to the Best Way to Combat Its Power.

Washington, May 16.—Attorney General Frank S. Monnett of Ohio was before the industrial commission today as a witness in the trust investigation. His testimony related almost exclusively to the Standard Oil trust, against which he has been bringing in his official capacity in Ohio. After detailing the particulars of the suits against the Standard company, brought on behalf of the state, Mr. Monnett testified that the companies comprising the trust were distributed as to control all the operations pertaining to production, transportation and delivery of oil in Ohio, even its own territory.

Mr. Monnett complained of discrimination in telegraph and railroad rates in favor of the Standard company's tank lines, and stated that the rates equal to 400 per cent against the ordinary citizen.

Mr. Monnett gave the figures showing that the operation of the 20 companies comprising the trust amounted in the aggregate to \$102,233,000, the valuation \$121,631,000. He said the trust could make its dividends whatever it desired, as it controlled completely the retail price of oil.

Mr. Monnett told of the distribution of the stock of the trust, saying that the trust owned 280,000 shares, and John D. Rockefeller, as chairman of the trustees, held a majority of the stock thus distributed, giving him the balance of power, making practically a monopoly.

Mr. Monnett said the original value of the plant of the trust was \$97,250,000, but this figure should now be multiplied by five, Mr. Monnett insisted, the way to control the trusts was to control the transportation companies which he thought the courts could do, and if the courts could not do this, the charter of the roads should be taken from them.

The attorney general of New Jersey could secure evidence of this discrimination by the courts, he said, and he would take it in hand, the witness said.

Speaking of the earnings of the oil trust, Mr. Monnett estimated that the gross receipts were \$120,000,000 and that all was profit over 4 cents a gallon on refined oil.

He placed the value of the earnings of the coast per year as greater than the value of all the farm products of the state.

At the afternoon session of the commission Mr. Monnett testified in answer to a question from Commissioner Kennedy that he did not wish to enter upon a discussion of the charge that the Standard Oil company had been guilty of attempts to bribe to prevent judicial investigation, as that matter was at present under investigation by the Ohio supreme court.

These proceedings doubtless will result in a report and later he would supply the data to the commission. He could, however, testify to the fact that the company had secured the services of railroad agents all over the country to detect the movements of their rivals, and he knew of one instance in which the clerk of a rival concern had been employed by the Standard company.

Also the company had its "buzzards" everywhere. These were appointed to detect and report on all and secure data upon which the company could operate. When rivals were driven out of a field by reducing rates the prices immediately went up.

Mr. Monnett said he understood that the Standard company controlled from 90 to 98 per cent of the crude oil produced, but as the company controlled the means of transportation it was necessary that it should take the oil out of the rock. The company was thus independent of well owners. He did not agree with the chief of the mission, and he would supply the data to the commission until next Friday.

AN INSURANCE DECISION.

An Opinion of Interest to Fraternal and Beneficiary Orders.

San Francisco, May 16.—United States Judge Gilbert, Ross and Morrow, sitting as a circuit court of appeals, today handed down an opinion which will be of interest to fraternal and beneficiary societies and other organizations of which insurance is a feature. The case was that of Lillian H. Beck vs. the supreme lodge of Knights of Pythias of the World, and was argued by the widow of Frank E. Beck, a member of the endowment rank who blew out his brains with a shot gun. The coroner's jury returned a verdict of suicide, while the by-laws of the order regarding suicide of \$5,000, the sum for which Beck's life was insured. The widow brought suit, not judgment for \$5,000 and the supreme lodge appealed.

The court of appeals in affirming the judgment of the lower court has held that the defendant should have proved that the deceased came to his death with suicidal intent and did not devolve upon the widow to prove by a preponderance of evidence that his death resulted from the accidental discharge of his gun. The widow will receive the \$5,000.

STEEL STORY DENIED.

Pittsburg, Pa., May 16.—H. C. Frick denies the story published this morning to the effect that books had been thrown open for public subscriptions to the stock of the reorganized Carnegie Steel company, adding that the consolidation is yet in a formative state.

BAPTISTS COMING WEST.

Chicago, May 16.—Over 200 Baptists from Chicago and eastern points left from the Northwestern depot tonight for San Francisco to attend the anniversary of the three great Baptist societies, the Missionary union, the Home Missionary society of Wisconsin and the Baptist convention was held for the easterners this afternoon in the rooms of the Baptist Publications on Dearborn street.

BEER CONFISCATED.

Port Townsend, Wash., May 16.—Collectors of the customs seized 400 barrels of beer on the steamer Humboldt last night. The beer was consigned to the colonel of the 24th infantry, Dyea, Alaska.

EAST AND WEST

EDITOR OF THE BROOKLYN EAGLE COMMENTS ON THE SENSELESSNESS OF ANY MISUNDERSTANDING BETWEEN THE SECTIONS.

Chicago, May 16.—The eastern members of the association Press arrived in Chicago from New York today on a special train over the Baltimore and Ohio road. The trip was made considerably earlier than the regular one. They will attend the regular annual meeting of the Associated Press to be held tomorrow in the Auditorium, and in the evening will be present at the annual banquet to be given in the Auditorium banquet hall. These members will return east over the Baltimore and Ohio Thursday.

Clas to the editor of the Brooklyn Eagle, was among the party. In an interview he said: "Every time I come to Chicago, or go farther west, I am impressed with the senselessness of any misunderstanding between the sections. Neither need quarrel with the other. As progress is the rule of a nation's life, the spur has more to do with the tank lines than with the bag and the rule of the world's sweepstakes."

Missouri born New York raised, newspaper train, I frankly admitted to the heart, history and future of this republic depend on questions that are going to be settled by the great West. It is going to teach the rest of the country how to solve the problem of squaring political economy with the rights of humanity. The east sees little but hard and fast doctrines. The west sees the future of the nation in the hands of the people. The result is an effervescence in both parties, but money and manhood will soon find they must agree—and that matter shall rule."

"The destiny of expansion was stamped on this country when eastern adventurers opened up the western reserve and when southern adventurers pushed back the Mississippi to the Gulf. The result is an effervescence in both parties, but money and manhood will soon find they must agree—and that matter shall rule."

"The people of this country," he said, "have fought for a generation to deprive the legislatures of the power sought to be exercised in this case. In the constitutional conventions clamors of the people have been recognized, but no one has yet been able to get the (El Paso) county have demanded the restoration of the self-government they desire, but have been ignored and are driven to the forum. We believe the people of this county have been outraged—they opposed this bill. It is against their rights and against the interests of the whole state. No future should be permitted by judicial sanction to invade county lines to suit the wishes of the politicians and greedy contractors. We say that if this constitutional provision that the separation of a county should be done at the sanction of the voters, were a simple contract between ourselves and the state, I question whether your honors would have the patience to listen to me contend that his rights were not protected by it. We have believed that you would uphold this constitutional right, and for that reason have been clamoring to have it settled at once."

"On the Other Side." Mr. Bryant then took up the other side of the case, saying, in part: "I do not agree with the people as to the importance of the duties of the bench, but think the bulk of his argument has been addressed to the wrong tribunal. The bill, as it stands, is a good one. The argument should have been submitted to the constitutional convention and the legislature."

So far as his legal argument is concerned, the constitution gives the right absolutely to the legislature to divide counties to create a new corporation. Our first objection to the suit is that it asks you to undo what the constitution has done. The second is that a bill in equity is not the proper remedy for contesting the offices of those appointed by the governor."

"The matter simmers down to a question of whether the legislature should have submitted the question to the people. There have been 14 counties created in Colorado since 1876 in the same manner as Teller county was. They attack the bill on its title with the constitutional provision that no bill should be passed which shall change its title. This bill is to create and establish the county of Teller and to provide for the temporary county seat. It is a bill to create and establish a new county, and it is a bill to change the title of the county which three years spent in the bush has been unable to alter."

The ministers decided to grant the requests to officers styled by Major Marchand, and they also drew up a programme of the fetes to be given in France in honor of the African traveler.

Major Marchand will be officially received at Toulon by the naval prefect and delegates from the ministry of marine and the ministry of the colonies. On his arrival in this city he will be met at the railroad station by representatives of the ministry of war, the ministry of marine, the ministry of the colonies, the ministry of the interior and the committee of the military club. The minister of marine will place his carriage at the disposal of Major Marchand to convey him to the ministry of war, where a luncheon will be served. The same evening a reception will be given in the traveler's honor at the military club. The minister of the colonies will also hold a soiree in his honor.

On the following day a commemorative medal inscribed "Marchand Missionnaire" will be presented to the members of the expedition.

LOST ART OF LIVING.

Chicago, May 16.—Speakers who addressed the conference at the Hull house today united in declaring that the aim of social reformers should be to teach the masses how to recover the lost art of living.

It was pointed out that trained teachers were unsuccessful in social settlements because they adhered too closely to the text books. It was suggested that the best results would be attained by those to teach residents of slums in classes, the experts declared had proven a failure. It was unanimously agreed that the best result would be attained by calling the people together and have knowledge imparted in illustrated lectures.

EARL OF STRAFFORD KILLED.

London, May 16.—The Earl of Strafford, who married Mrs. Samuel J. Colgate in Grace church, New York city, last December, was instantly killed this evening at Hotters bay by the Cambridge express.

BRITISH PACIFIC CABLE.

London, May 16.—The correspondent here of the Associated Press learns on undeniable authority that the chancellor of the exchequer, Sir Michael Hicks-Beach, is responsible for the big financial support offered by the imperial government to the Pacific cable project, but the high commissioner of Canada, Baron Strathcarron, of Mount Royal, and other interested agents here are apparently satisfied.

TELLER COUNTY BILL

Is Being Considered by Supreme Court of the State

OUTLINE OF THE ARGUMENTS

Constitutional Question Is Whether the Legislature Should Have Submitted the Proposed Change to a Vote of the People—Decision of the Court Is Not Expected for Ten Days.

Denver, May 16.—The right of Teller county to exist was argued before the supreme court this morning. The argument is being continued this afternoon, but the court will not be reached by the court for at least ten days, according to Chief Justice Campbell.

The suit to render void the bill dividing Teller county, carried up from the court of appeals, will be in the hands of the supreme court judges this evening. They will not put aside other work, however, and will not take up the case until the morning of at least ten days, when all printed briefs will be in to support the oral argument submitted today.

Representing the opposition to the new county are Judge J. C. Helm, A. T. Gunnell, M. F. Taylor and R. E. Lewis. On the other side are B. E. Montgomery, Harry Bryant and Branch H. Giles.

The same argument that was made before the lower court is being submitted. Mr. Taylor contends that the voters of the whole state, by the consent of the voters of the affected districts. In his argument he drew dramatic at times and reflected on the veracity of the legislators who passed the bill, but he was ignored and are driven to the forum. We believe the people of this county have been outraged—they opposed this bill. It is against their rights and against the interests of the whole state. No future should be permitted by judicial sanction to invade county lines to suit the wishes of the politicians and greedy contractors. We say that if this constitutional provision that the separation of a county should be done at the sanction of the voters, were a simple contract between ourselves and the state, I question whether your honors would have the patience to listen to me contend that his rights were not protected by it. We have believed that you would uphold this constitutional right, and for that reason have been clamoring to have it settled at once."

"On the Other Side." Mr. Bryant then took up the other side of the case, saying, in part: "I do not agree with the people as to the importance of the duties of the bench, but think the bulk of his argument has been addressed to the wrong tribunal. The bill, as it stands, is a good one. The argument should have been submitted to the constitutional convention and the legislature."

WILL ADVISE CUBAN TROOPS TO ACCEPT MONEY

AND TO RETURN TO WORK

Americans in Havana Are in No Way Alarmed

AGITATION IS SUPERFICIAL

Situation Is Such That Outside Observers Might Think Cuba on the Verge of Insurrection But Those Who Have Been in the Island Longest Regard the Matter as a Very Simple One.

Havana, May 16.—The manifesto which General Maximo Gomez is preparing to issue will not only review his own position as to the payment of the Cuban army, but will probably direct the forces of insurrection. Its appearance is expected tomorrow. Colonel Carlos Cespedes, who is engaged in the supervision of copying the manifesto, declines to give any information as to its contents, other than to say that Gomez recounts his faithful labors for Cuba; asserts that he has no ambition other than to free Cuba from the yoke of insurrection; accept the money given by the United States and to return to work, in order to show by building up the country that they are citizens in the truest sense.

The manifesto will also allude, according to Cespedes, to the difficulty regarding the surrender of the arms, and will say that General Gomez has arranged with Governor General Brooke that the mayors of the various cities shall be repositories for the same. The manifesto will call upon all Cubans to display their arms, and to give down their arms and taking up agricultural implements.

Following its publication, Governor General Brooke is expected to order the elimination of the necessity for the participation of any Cuban commissioner in the distribution of the \$3,000,000.

The governor general regards Gomez as having acted sincerely throughout and believes that his withdrawal from participation in the distribution and his return to the army, which has been forced upon him by the desertion of those generals upon whom he had relied.

Members of the late Cuban military assembly and other discontented persons belonging to the new revolutionary club, styled the Veteran's association, met at Cerro last night and indulged in a prolonged debate on the question of whether they should remain in the army or withdraw. One group was in favor of entrusting the arms to the brigade chiefs, or Cuban municipalities. Another group was opposed to the withdrawal of the arms, saying that it might be necessary to "use them against American pretensions."

The meeting was presided over by General Jose Laceret and was attended by Sanfeliu, Andrade, Vidal and Juan Gomez. Telegrams from all the provinces were read, opposing giving up the arms. The meeting was closed by General Maximo Gomez with a "patriotic courage." No decision was reached. During the meeting Colonel Miyores proposed to send the following telegram to Santiago:

"General discontent. We refuse to surrender arms. Opinion unanimous. General Laceret and I, and all the officers, on the suggestion, saying that it would be inadvisable to make such a display of feeling. Instead of the dispatch proposed by Miyores, the following was sent out on the basis of the decree of former assembly. Announced that Brooke is a traitor to the Cuban cause. Amit sense of satisfaction. Consent with you in final proceedings."

The vote on this dispatch was 53 in favor against 36 opposed.

At Cerro would be regarded in a less inflammatory community as ominous, and outside observers might think that Cuba is on the verge of insurrection. Public feeling in Havana is certainly excited, but those whose judgment is worth most consider the agitation to be superficial and which will never lead to an overt act.

Governor General Brooke will go ahead as inoffensively as possible in the distribution of the military occupation for the Cuban troops. This cannot begin, however, until next week. If the Cubans wish to surrender their arms to the municipalities, all will be well. The American authorities will raise no objection.

Americans residing in Havana, especially those who have been here since the beginning of the military occupation, look upon the present anti-American outburst as similar to the Garcia funeral incident and the excitement which followed the prohibition of demonstrations on January 1. It is really a very simple matter.

Just now General Brooke is considering the publication of an order designed to check untruthful and violent criticisms of the military government. Should the order be issued, it will merely call attention by reproducing them, to the existing laws under the Spanish code, which provide abundant methods of discouraging immoderate utterances. The propriety of censoring meetings and forcibly disarming the Cubans has been considered, but such policy has been laid aside definitely as being unwise and impolitic. There is no promise to use any repressive measures. Everybody will be allowed to express his feelings in writing and talking.

General Brooke is a member of the military assembly said today: "The Cubans have no desire for anything but peaceful adjustment immediately. They are sure that Gomez is uncommunicative and for his unwillingness to abrogate selfish motives sufficiently to allow anyone else to have a share in the honor of arranging Cuba's future."

Major Ducker reports a case of yellow fever, but this is the only existing case and he believes that the patient, who is a native of the Canary islands, will recover. Havana has an altogether exceptional health record for this time of year.

THE MAJOR EXCITED

Van Wyck's Ire Aroused by Moss' Questions

THE MAZET INVESTIGATION

Mayor Van Wyck Denies that He Was Elected by Tammany—He Says There Was Never Better Order in New York Within His Memory Than at the Present Time.

New York, May 16.—The Mazet investigating committee resumed its session today after a prolonged recess. A fair-sized crowd was on hand early, among them being Mayor Van Wyck, who, with the heads of various city departments, had been summoned to appear today. It was announced that the committee will sit daily, Tuesdays, Wednesdays, Thursdays and Fridays, until its work is completed, but this programme will be interfered with by the extra session of the legislature, which begins on Monday next.

Mayor Robert A. Van Wyck was in the witness chair before the assembly committee appointed to investigate the workings of the municipal departments. He was questioned as to whether he consulted with Richard Croker regarding the conduct of the city government and flatly denied that he did so. Neither Mr. Van Wyck said, had he consulted with Mr. Croker regarding the removal of city officers from the New York Insurance building to the new syndicate building on Park row. He was very well satisfied with the efficiency shown in the various city offices. Mr. Van Wyck said that he had not consulted with Mr. Croker at Lakewood in December, 1897, on the subject of the selection of heads of the departments, but he had a "running conversation" on that subject with John F. Carroll, who is close to Mr. Croker in political matters. Reverting to the subject of quarters provided for the department officials, Counsel Moss asked the mayor if he did not know that the building to which the health department had been assigned was not fireproof.

"There is not a fireproof building in the city," replied the mayor.

Mr. Van Wyck denied that he had been elected mayor by Tammany; he said he had been chosen by the people of Greater New York.

"Who is there in the organization who is sponsor for your organization that has more power than Mr. Croker?" asked Mr. Moss.

"Nobody has more power than I have," replied the mayor.

"Have you ever done a thing contrary to the wishes of Mr. Croker?" demanded the lawyer.

"I don't know," said the mayor.

"You have never been called to account?"

"Nobody dare call me to account," replied the mayor, warmly; "I must be called to account except the court shall organize some judicial tribunal. No individual can call me to account."

In answer to the question if it was contrary to his notion of political ethics that there should be a leader of the party whose voice should have great influence and weight with the chief executive, the mayor said, tartly:

"You'd better call Senator Platt and ask him that question. He knows more about leadership than I do."

The mayor declined to answer further in this respect.

McCullough's Dismissal.

The mayor said that he had dismissed Chief McCullough because he thought he was not a fit man for the head of the police force. Police Commissioners Phillips and Hamilton were also removed because he believed that they were unfit. Phillips had been indicted and the mayor tried to him that he must seek a speedy trial or be removed. The latter happened. Hamilton had told the mayor that he would consent to transfer of any member of the police force without previously consulting with Senator Platt. "I told him," testified the mayor, "that the police department could not be run from Washington."

The mayor also said that Hamilton "blackmailed the Casino. The mayor's firm, according to the mayor's testimony, had a claim against that theater, and Hamilton, as a police commissioner, had refused to grant the Casino a license until he had paid the claim."

The mayor said, however, that he had only hearsay evidence against Hamilton.

The mayor said that from rumors he believed that just before Hamilton was removed a "combination" was being formed between Hamilton, Quigg, Gibbs and McCullough to sell positions on the police force. "That was just previous to Hamilton's removal. In an interview with McCullough he had told the chief of police that he was a liar, when the latter had stated that he knew nothing about the politics of any police inspector or captain. The chief of police, said the mayor, must know the politics of his officers. The mayor said that if Devery was as bad as McCullough he ought to be "kicked out, too."

Believes Laws are Enforced.

Whether Devery was better than McCullough the mayor did not know. He had tried to find out, but about all he knew was that the city was in a more orderly condition than it ever had been in his memory and that the laws were better enforced. The mayor was questioned about his personal experiences regarding the immorality in this city, and retorted that Mr. Moss was morbid about vice.

"Have you any idea how many pool rooms there are in the city of New York?" asked Mr. Moss.

"I don't know that there is a single one," was the reply.

The mayor said that he knew James A. Mahoney and had his business done in Texas. He had seen him several times lately.

"Have you ever heard that your friend Mahoney is the chief of the greatest pool room syndicate in this city?" asked Mr. Moss.

"I knew he made books on the race tracks," replied the mayor.

"Did you know he was running rooms and receiving bets in those rooms in New York city?"

"No."

The mayor had never heard that Mr. Mahoney, Mr. Carroll and Mr. Sexton were jointly interested in pool rooms.

The Mayor Excited.

"Have you never heard," sneered Mr. Moss, "that a gentleman named Van Wyck was interested in them?"

"For the first time the mayor was aroused."

"That is absolutely false," he shouted. He wanted to know who told Mr. Moss anything of the kind.

"These things are not easily proved," retorted the counsel.

"I never had any connection with any illegal calling anywhere in the world," shouted the mayor. "You knew that I was not interested in pools when you asked the question. You knew that you wanted to bring it out for the purpose of creating the impression that I was. I demand that you bring out the evidence here and show that I am connected with pool rooms anywhere in the world, or with anything else of an illegal character, and I think that the chairman of this committee ought to enforce that."

Mr. Moss told the mayor to wait a day or two with the committee and he would learn something that he evidently

ly knew nothing about now. The mayor insisted that Mr. Moss be made to call a witness to prove the insinuation.

Defended by Hoffman.

Mr. Hoffman backed up the request. "If we are here to sully honest men's reputations," said the Democratic member of the committee, "I want to go on record as saying that it is absolutely unfair."

There was applause at this and Mr. Mazet ordered the sergeant at arms to clear the room if there was another demonstration.

Mr. Mazet said that the mayor himself had accused Hamilton upon what he admitted was only rumor. Mr. Mazet maintained that the mayor's strenuous denial was all that was required. Mr. Hoffman again insisted that the matter be at once investigated. Mazet ended the matter by saying that Mr. Moss had distinctly disavowed any insinuation, and Mr. Moss interjected the remark that he thought he was doing the mayor a service. The mayor said if he knew of the existence of gambling houses he would order them closed and if they were not closed he would "come pretty near removing somebody."

Referring again to ex-Chief of Police McCullough, the mayor said he believed him to be a "fakir," which term he translated as "a man with a false face and a fair front."

A Manufactured Story.

Referring to an article in the newspapers regarding Devery's appointment, Mayor Van Wyck said the story was manufactured and that he had helped to make it up.

"That is the way they make their living," said the mayor, referring to newspaper men, "they have got to do it or they cannot live on the newspaper business." The mayor said he would make his living the same way if he could not do it any other way.

"By telling fibs?" asked Mr. Moss.

"I think so," said the mayor. However, he said that he was telling the truth while on the stand and reiterated that he believed a young man in a newspaper office could not be truthful and make a living. The mayor said that he thought Mr. Carroll was a man of high character and that he knew him more intimately than he did his own brother.

Mr. Platt's Influence.

The appointment of Mr. Hess as police commissioner was gone into into minor detail by Mr. Platt. He asked the mayor if Mr. Abel was appointed a commissioner, so the mayor testified, because Mr. Lauterbach had said that Mr. Platt had recommended the appointment filled in that way.

"And you looked upon Mr. Platt as a man authorized to speak for the Republican party in bi-partisan matters?" asked Mr. Moss.

"Not in a bi-partisan matter," said the mayor. "I thought he was the boss of the Republican party. Whatever he said they all agreed to. When he took snuff they all sneezed."

Mr. Van Wyck added that he had a very high regard for Mr. Platt. The Chicagoer said he spent less than \$300 or \$400 in his election campaign.

He stated that after his nomination he had given about \$3,500 to the Democratic organization. The money was not given to Mr. Croker, the mayor he was then excused. Mr. Moss saying that he would not need him again this week.

Commissioner Sexton.

Police Commissioner Sexton was called. He said he might have heard of a dozen alleged gambling places in the city. He said he did not know their exact location. He told the mayor that they ought to be closed up. Mr. Moss quoted a statement from a daily Democratic paper which said that there were 100 gambling places in the city. Mr. Sexton said he did not know if it was true. He had spoken to Chief Devery about it.

Mr. Moss and Mr. Sexton had an angry quarrel, the latter refusing to answer questions which he said were insulting. Mr. Moss subjected witness to a long series of questions regarding the dismissal of Chief McCullough.

For some time Mr. Sexton declined to state reasons for his voting against McCullough, but finally said: "I voted against McCullough because Devery was my friend and I wanted to make him chief of police and I retired McCullough."

Commissioner York was examined on the same line as Sexton.

Ex-Chief of Police John McCullough, now state superintendent of elections for the metropolitan district, said that the mayor had told him that he was standing with anyone. McCullough confirmed the testimony of the mayor and said that after he had told the mayor that he would not state the politics of the department to the police department, he told the mayor that neither Platt or Quigg or Commissioner Hamilton had anything to do with the transfer of police captain.

MASSACRE IN FORMOSA.

Vancouver, B. C., May 16.—Formosan advances give details of a terrible massacre in the vicinity of Taiko, a town in the central district. Thirty Chinese villagers were ambushed by about 60 savages, who killed 23 of them. Only one escaped.

IRON, STEEL AND TIN WORKERS.

Detroit, May 16.—The first session of the annual convention of the Amalgamated Association of Iron, Steel and Tin Workers was held today. Only the usual preliminary business was transacted. Less than 150 delegates were present, but by tomorrow the attendance will reach probably 300. The sessions are strictly executive. The age questions are considered to be of special importance this year in connection with the influences of trusts upon labor conditions. As usual, the delegates will endeavor to fix advances in the wage scale.

SUCCEEDS HIS FATHER.

New York, May 16.—A. R. Flower was today elected a director of the People's Gas company of Chicago in place of Roswell P. Flower, deceased.

BASE BALL

Table showing baseball scores for various teams including St. Louis, Chicago, Brooklyn, Philadelphia, Cincinnati, Boston, Baltimore, New York, Louisville, Pittsburgh, Washington, and Cleveland.

Washington-Boston. Washington, May 16.—Dineen began his game well but in the fifth and sixth innings went to pieces, poor fielding helping visiting visitors along. Boston played an errorless game. Attendance 1,000. Score:

Score for Washington-Boston game: Washington 4, Boston 0.

Batteries: Dineen, Herring and McGuire; Hickman and Bergen.

Pittsburg-Chicago. Pittsburg, May 16.—Game was called three times before the fifth inning on account of rain. Chicago was five runs to the good when the fifth inning was started before the rain had ceased. Griffith could not control the wet ball and Pittsburg scored three times and tied in the seventh. Everett scored the winning run in the eighth when he stole and McCormick's hit. Hoffer and Sparks were easy marks but Leever pitched the last four innings, allowing but one scratch hit. Attendance 1,500. Score:

Score for Pittsburg-Chicago game: Pittsburg 10, Chicago 9.

Batteries: McGinnitt and Robinson; Carriek and Warner.

Baltimore-New York. Baltimore, May 16.—Baltimore's batters gave an endless chain performance around the bases today at the expense of the Giants. Carriek was the easiest of the Orioles to get on base. Beside hitting the ball freely the home team took every chance on the bases, thus rolling up a good total of runs. The New Yorks played in a very sloppy manner until the close. Attendance 1,500. Score:

Score for Baltimore-New York game: Baltimore 15, New York 10.

Batteries: McGinnitt and Robinson; Carriek and Warner.

Philadelphia-Brooklyn. Philadelphia, May 16.—Brooklyn won its sixth straight victory today by defeating Philadelphia in another hot argument. It was anybody's game until the last man was out. Kennedy was wild and ineffectual at the start, but settled down after the Quakers had made three runs. Thereafter he pitched good ball, but made Devery chief, Devery was my friend and I wanted to make him chief of police and I retired McCullough.

Philadelphia, May 16.—The Perfectos took kindly to McGee's curves in the second and third innings and hammered out seven clean hits, scoring four runs. McGee was relieved by Woods in the fourth but the latter pitched even better and St. Louis was never in danger. Young pitched in masterly form and kept the Colonels' ten hits well scattered. Attendance 1,500. Score:

Score for Philadelphia-Brooklyn game: Philadelphia 10, Brooklyn 9.

Batteries: Douglass; Kennedy and Farrell.

St. Louis-Louisville. St. Louis, May 16.—The Perfectos took kindly to McGee's curves in the second and third innings and hammered out seven clean hits, scoring four runs. McGee was relieved by Woods in the fourth but the latter pitched even better and St. Louis was never in danger. Young pitched in masterly form and kept the Colonels' ten hits well scattered. Attendance 1,500. Score:

Score for St. Louis-Louisville game: St. Louis 10, Louisville 9.

Batteries: McGinnitt and Robinson; Carriek and Warner.

Cleveland-Cincinnati. Cleveland, May 16.—No game; rain.

Gazette Gaperettes

A TIMELY TUNE. The merry robin singeth in the blooming apple orchard, and the blue jay buzz cheerily; The fragrant lilac buddeth, and the sugar maple weepeth, and the woodbine's waxing green;

We hear the salutation: "Say, how doth your garden grow?" And a fellow proudly grineth when the peas and lettuce show;

The noisy, clashing mower rolleth gayly o'er the lawn; The neighbor's rooster croweth 'neath the window just at dawn;

The moth-balls' relegated to its furry summer nest; The tonic advertisement to our reading lengtheneth zest;

Everywhere we're greeted by the same old sign, "To rent." And we're reasonably certain that the chilly days have went.

No Other Alternative. "Oh, dear, such trouble as I have!" "Why, what's the matter now? Last time I saw you you were fairly ecstatic over the prospect of moving into a new flat."

Didn't Want That Kind. It was their first bitter quarrel. "You told me," he cried, "that you cared so little for vain show that it was enough for you to be assured of my love, without giving any outward sign of it to the world."

spired by either ignorance or malice; that, in a word, the meat furnished by the contractors was the meat of commerce—the same that is furnished to every city in the United States, to foreign governments, and to our own navy.

The Winter Wheat Crop. According to the crop reports just made public by the government statistician about four million acres of winter wheat were killed by the winter of last January and February.

SEVENTEEN TONS OF DIRT AND GRAVEL

More or Less Has Been Flying Around Town For the Past Week and

THE PEOPLE ARE GETTING TIRED

Tremendous Kick Is Being Registered Against the City Council for Not Providing Sufficient Funds to Keep the Dust Down—Street Committee Feels that the Rapid Transit Company Is Trying to Hold Up the City—Rapid Transit Company States Its Position in the Matter.

Given a street sprinkling company that will not sprinkle the streets of Colorado Springs for less than \$250 per month and a city council that will not pay \$250 per month to have the streets of Colorado Springs sprinkled; to find a way of keeping down the dust.

The above is the arrangement that faces the city at the present time. Just how soon a solution will be found cannot be told, but if as much progress is made during the next few days as has been made during the past week it is entirely probable that by death or despair the city will soon be depopulated.

Difficulty in Getting About.

Colorado Springs has people from every quarter of the country and the globe. The Gazette reporter who was trying to catch remarks on the streets and in hotel corridors yesterday can not understand all languages but in all tongues in which he is conversant there were kicks against the dust. In 15 minutes he concluded that there was no other place in the country so bad as Colorado Springs, but he did not believe it for he had been in Pueblo.

Is a Serious Matter.

It is a fact, however, that the question of street sprinkling is cutting a material figure in the welfare of the city at the present time. During the past three days both hotels, the Alamo and the Alta Vista, have had guests leave for other places because they could not enjoy being out of doors here and did not want to remain in the house. They can neither see nor breathe and seek other places where they are bothered by some things but not by things which could be as easily settled as the dust of Colorado Springs. Property holders of the city, also, are making a loud protest, stating that they are paying enough to keep the streets well sprinkled; or, if not, it is because the councilmen have not asked for sufficient amount of money, which they should have done.

About the Electric Sprinkler.

The electric car sprinkler, which is the source of considerable interest as well as satisfaction to people who visit the city, has not been at work for several days past and the result is that none of the streets where traffic is heavy and dust thick have been sprinkled except along the sides near the gutters. The position of the street committee of the council is this: The electric sprinkler belongs to the American Electric Car Sprinkling company and runs upon the tracks of the Colorado Springs Rapid Transit company. Two years ago the Rapid Transit company allowed the sprinkler to run upon its tracks for a certain amount of money per month. Last year the street committee raised the rental of its tracks to the sprinkler company and the latter company in turn raised on the city. The sprinkler company charges the Rapid Transit company per month for operating its sprinkler. This year the company demands a further raise of \$50 per month, or \$250 per month for running the car, which is somebody to hold up the city and is standing out for a contract on the same terms as were in the agreement under which the sprinkler was operated last year.

Say There Are Others.

Members of the city council express the opinion that the Rapid Transit company is responsible for all the trouble and should not be allowed to rob the city, which is what they consider is being done or attempted at the present time. They claim that the company should in fact make no charge for the use of its tracks for the ground that the sprinkling benefits the road bed and keeps it in repair and that without it the cars would be constantly enveloped in a cloud of dust which the patrons of the road would not long tolerate. It was argued that if the city did not pay for the running of the sprinkler the Rapid Transit company would soon have to run it for their own protection. It was also said that if the American Electric Car Sprinkling company did not want to operate for the money they are offered there are plenty of other sprinkling companies that will take the work at that price.

Position of the Transit Company.

The sprinkler has been off the streets, however, for several days and as far as been observed the Rapid Transit company has not felt disposed to put on a sprinkler of its own, either as a measure of self-protection for the comfort of the travelling public. Mr. Blackmer, who is the local representative of the sprinkler company, is out of the city at present as also is Mr. A. L. Lawton, general manager of the Rapid Transit company. Mr. F. C. Lawton, assistant superintendent of the Rapid Transit company, was seen yesterday and asked for a statement as to the position of his company regarding the operation of the sprinkler. He said: "We have simply furnished the track and the power for the car, under a contract with the sprinkler company, and owing to matters between the city and the sprinkler people, which we are not concerned, there is no contract

at present and the sprinkler is not running. I am informed that Mr. Blackmer has sent instructions here to have the sprinkler packed for shipment to some other place.

Not a Profitable Job.

"I know," continued Mr. Lawton, "that the sprinkler has never earned anything under its arrangement with the city and that its saving to us, in the way that have been mentioned by the aldermen, is far below its expense. The car loaded with water weighs 17 tons and is a terrible wear upon the weight of the wheels whenever it is in use. It makes 100 miles per day when in use and 100 miles per day with its weight is a bad thing for the road-bed. Then, another thing that figures considerably is that the company has on the sprinkler a boy to look after the trolley. They employ a boy because they do not really need a man for it and can hire a boy for less money. The boys get tired of the job and do not as a rule remain long at it. Whenever they put a new boy on the car it takes him several days to learn his work and generally before he has the trolley under control it has torn up our wires to such an extent that we must spend considerable money in repairs. More than once I have had to pay out as much as \$50 for this trouble.

Cost to the Company.

"The wear and tear on the sprinkler is much greater, because of its greater weight, than that of ordinary trolley cars. The cost for repairs each year can be figured easily at as high as 12 per cent of the total cost of the car, which with our motors 8 per cent is a sufficient estimate to make. Breakage of parts is much more frequent with the sprinkler than with ordinary cars and the wheels must be replaced much more frequently. Taking all these matters into consideration I know that the sprinkler people have never made any profit in the arrangement with the city and that it has been a matter of great expense to us."

It is hardly probable that anything can be done toward a contract with the sprinkler people before the end of the week. The city council on Monday night authorized the street committee to make a contract for the electric car, but the cost not to exceed the appropriation, which would be \$250 a month, leaving nothing for sprinkling the residence sections of the city lying between the city and the depot, the absence of Messrs. Lawton and Blackmer from the city, it is not likely that the sprinkler will be on the tracks this week and the wheels must be replaced much more frequently and stagger through the dust.

ATHLETIC TEAMS BANQUETED

Mr. Mallon Entertained the College Athletes at the Country Club Last Night.

The baseball and football teams of Colorado college were most royally entertained last night at the Country Club. The host was Mr. Mallon, who has in many ways shown his interest in the college athletics during the recent months.

The club house was profusely and gorgeously decorated in the rich colors which while flowers abounded everywhere. The spacious dining and club rooms were a perfect blaze of splendor.

It was at 6:30 last night that the banqueters took their seats at tables and while the excellent corps of waiters served up the elaborate feast in faultless manner, good humor and joyousness prevailed for nearly two hours. At the conclusion of the feast, Mr. Mallon spoke very briefly and in exceeding happy vein of his interest in the athletics of the college and urged them to greater success in the future. Following Mr. Mallon, short speeches were made by President Slocum, Professor Ahlers, Professor Gordon and Dr. O. W. Berger, of the faculty, and by Captain McHendrie and Coach Clarke for the Tigers in baseball and Captain Griffith for the Tigers in football. All the speeches were bright and sparkling. The Tigers were exhorted to their best efforts toward winning the game with Golden next Saturday and confidence was expressed in their ability to win.

The club house was then thrown open to the team and the men spent the evening in the most enjoyable manner. The party boarded the car for the city, after having spent one of the most enjoyable evenings of the year.

THOUSAND DOLLARS FOR Y. M. C. A. PARLOR

Another Big Gift Received Yesterday by Secretary Day.

NAME OF DONOR IS WITHHELD

Is a Prominent Lady of Colorado Springs Who Will Give a Thousand Dollars to Build the Parlor Portion of the Building and Will Maintain that Feature During the Remainder of Her Life—More Contributions for Specific Purposes are Looked for—Need for Junior Rooms.

Yesterday witnessed another good addition to the building fund of the Y. M. C. A. A well known lady of Colorado Springs, who has requested that for the present at least, her name be not used publicly has given Secretary Day a thousand dollars for the use of the association in building the portion of the new structure in which the parlor will be located. It is her intention also to completely furnish and maintain the parlor during the remainder of her life.

Follows Mrs. Goddard's Gift.

Yesterday morning the Gazette announced the generous gift of Mrs. Goddard, and outlined the plan of Secretary Day in regard to the more wealthy people, in getting them to give for specific parts of the new Y. M. C. A. building. Mr. Day regrets that he is unable to announce the name of this lady who is one of the best known ladies in the city. She walked into Mr. Day's office yesterday afternoon, and at the close of an hour's interview, decided to erect the parlor portion of the building, giving a thousand dollars cash subscription, and endowing the parlor during her natural life.

Will Provide Flowers.

This will mean very much to the association's new building. It is the general secretary's plan to make the donor the chairman of the ladies' committee on the parlor. It is her purpose to have fresh and beautiful flowers throughout the year and to see that proper bric-a-brac and furnishings are there, which means so much to home.

Desire to Begin July 1st.

The plan of the directors is to begin operations July 1st, but they, together with the secretary are determined not to dig a spade into the soil until every dollar of the \$50,000 has been subscribed. They feel that the time is short and that every person who is interested in the work should improve this opportunity of subscribing at once.

Rooms for the Boys.

Another interesting and attractive portion of the building might be mentioned as deserving the gift of some generous friend of the association, is the suite of boys' rooms. It will consist of parlor and reading room, the plan of the secretaries being to keep the Juniors separate and by themselves.

While their hours will be different from the senior boys' the boys will be supposed to keep in their suite of rooms.

The sentiment so often practised, if not expressed, that any old out of the way place will do for the boys is not the plan of the secretaries of this association. They will provide for the boys two of the most attractive rooms on the main floor of the general reception room, directly opposite the secretaries' offices.

Secretary Day hopes there is some generously disposed citizen who will follow the noble lady's example, and show the boys that he is with them, not only in sentiment but with his purse.

IT CAN'T BE DONE

No One Can Remain Well, No Chronic Disease Can Be Cured Unless the Stomach is First Made Strong and Vigorous.

This is plain, because every organ in the body depends on the stomach for its nourishment. Nerve, bone, sinew, blood, are made from the food which the stomach conveys to our use. How useless to treat disease with this, that and the other remedy and neglect the most important of all, the stomach. The earliest symptom of indigestion are sour risings, bad taste in the mouth, gas in stomach and bowels, palpitation, all-gone feeling, faintness, headaches, dizziness, later comes loss of flesh, consumption, liver and heart troubles, kidney diseases, nervous prostration, all of which are the indirect result of poor nutrition.

Any person suffering from indigestion should make it a practice to take after each meal one of Stuart's Dyspepsia Tablets, allowing it to dissolve in the mouth and thus mingle with the saliva and enter the stomach in the most natural way. These tablets are highly recommended by Dr. Jennison because they are composed of the natural digestive acids and fruit essences which assist the stomach in digesting all wholesome food before it has time to ferment and sour.

Stuart's Dyspepsia Tablets are sold by druggists, full-sized packages at 50 cents. They are also excellent for invalids and children. A book on stomach diseases and thousands of testimonials of genuine cures sent free by addressing F. A. Stuart Co., Marshall, Mich.

The Missouri Pacific railway announce one fare plus \$2.00 for the round trip from Denver, Pueblo and Colorado Springs to Columbus, O., and return, account of meeting of the American Medical association in June.

Tickets on sale May 21st, June 1st and 8rd, with final limit to June 13th.

SURPRISE PARTY.

One of the notable events in society took place last evening at the residence of Mr. and Mrs. Davison, 726 North Weber street, in the nature of a surprise birthday party given in honor of Mrs. May, the mother of Mrs. Davison. About 40 intimate friends of the family gathered at 8 o'clock and Mrs. May was called to the house upon some trivial pretext. No sooner had she entered than all the lights were turned on, and imagine the genuine surprise of Mrs. May to find herself surrounded, as by magic, by those many happy people. A general good time was enjoyed, with card-playing interspersed by beautiful music. Elegant refreshments were served and the party did not disperse until long after midnight. Among the many present were noted Mr. and Mrs. J. Ellison, Mr. and Mrs. Geo. Peyer, Mr. and Mrs. Stark, Mr. and Mrs. Louis Peita, Mr. and Mrs. Chas. Peita, Mr. and Mrs. William Oppenheim, Mr. and Mrs. A. May, Mrs. Bacharach, Mrs. Revor, Mrs. Rosenberg, Mrs. Rice, Miss Stiefel, Miss Roman, Miss Carolyn May, Miss Schmidt, the Misses Rice, Mr. H. May, Mr. Gump, Mr. and Mrs. Leiphelmer, Mr. Will Revor, Sidney Rice, Benny Rosenberg, Mr. Stiefel of Indianapolis, P. Ottenheimer, Mrs. Dan Ottenheimer and Mrs. C. May.

California Rates.

The reduced rate to California points so much advertised the last few days is an agreed second class colonist excursion rate, and is in effect on the Santa Fe Route to California. Tickets on sale from May 15 to 31, inclusive. These tickets good on the train making the run in 48 hours via the Santa Fe.

Denver and Return \$2.00. Via the "Colorado Road," leaving Colorado Springs 8:35 a. m. Saturday, May 20. City Ticket Office, Phone 21. No. 15 North Tejon St.

\$55.00 San Francisco and Return. Tickets on sale May 16 to 20, inclusive. Final limit, July 15, 1899. Stop-over privileges in each direction. You may go one way and return another. C. C. Hoyt, City Passenger agent, Santa Fe route, will cheerfully respond to all inquiries for information.

Small sizes at very small prices in ladies' shoes and Oxfords at Vorhes. Have you a want? We'll fit it, if it's footwear. The Conway shoe store.

Reduced rates to Pacific coast points via Rio Grande. Call at 15 North Tejon street.

The Missouri Pacific will make rates of one fare for the round trip to all eastern points to Denver and return for annual meeting, General Assembly, Cumberland Presbyterian church. Tickets on sale May 15th, 16th and 17th; return limit June 15th.

Also commencing June 1st, special round trip Summer Tourist rates from all eastern points to Colorado Springs, and good returning until October 31st. Write your friends to visit Colorado. Ask us for any further information desired. C. A. TRIPP, G. W. P. A., 17th and Stout Sts., Denver, Colo.

The Healey-Arcularius Drug Co. For kodaks and photographic supplies. Largest stock in the west. Free delivery. 21 S. Tejon.

WHAT WILL THE GOLD OUTPUT BE?

Financial News Interested and Refer to the Question

COLORADO'S MAY BE \$30,000,000

A Very Large Part of Which is Credited to Cripple Creek—A Gain of About 20 Per Cent Over 1898 is Predicted—Many New Things Said About the Camp Now Situated in Teller County.

What will be the gold production of Colorado for 1899? asks the London Financial Times. It then proceeds to say that it is a question which is being eagerly discussed at the present time, not only by those who are on the spot, and are thus enabled to use their own eyes, but by others over this side who are gradually awakening to the fact that America possesses in her Cripple Creek and neighboring camps a remarkably productive gold field, which has been far too long ignored.

No one doubts that for 1899 the return will be a further 19 per cent and more over the production of the previous year. Even the cautious state commissioner admits this. The total production for last year may be briefly summarized as follows, the figures being for the whole of Colorado, and, of course, inclusive of Cripple Creek: Gold, 1,138,584 ounces, reckoning the metal at \$17.67 per ounce, yielded \$20,534,531; silver, 22,922,000 ounces, which, reckoned at \$0.8225 per ounce, returned \$18,639,265; lead, 113,417,168 pounds, which at \$0.0363 per pound, gave \$4,117,043; and copper, 10,870,869 pounds, at \$0.12 per pound, yielded \$1,304,554, while a grand total of \$42,550,000 was secured from the whole of the fields for the 12 months of 1898.

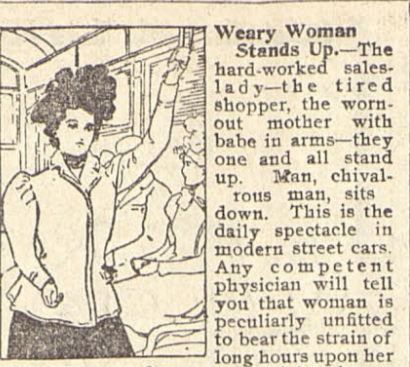

For the month of March the output from Cripple Creek has been of a distinctly progressive and therefore satisfactory character. The increase amounts to 11 per cent over the preceding month and no less than 18 1/2 per cent over March, 1898. It must be remembered that this return has been made at a period when the condition of the roads in Colorado—never particularly good at the best of times—has especially bad, rendering shipping extremely difficult. The produce from several of the usually large shipments has also been curtailed, notably in the cases of the Mary McKinley, the Clear Creek, and the Hull City places, which, for reasons of management and alterations in plant, etc., have been temporarily out of the list of producers.

Excavations have been commenced on block 2 of the Mountain Beauty for a new plant of machinery which has been ordered by Lessee Hall, representing a Chicago syndicate backing the operations. The shaft on the property has been enlarged to a depth of 400 feet. Before the lease expires it will be sunk 800 feet. This being one of the stipulations under which the three years' lease was granted.

Sublessee Babbitt has made a big find on the south end of the E. Porter Gold King in surface workings and returns from shipments came away near the assay tests he has uncovered a bonanza. Assays taken on the quartz today gave values as high as 58 ounces to the ton. Adams and Adams, the original lessees, estimate that they can cut this lead with only fifty feet of cross cutting from one of their shafts ready run in the mine, and will start work immediately with this end in view. The present output from the property is ten tons a day.

CRIPPLE CREEK QUOTATIONS. Special to the Gazette. Cripple Creek, May 16.—The total number of sales on today's market reached 38,000. The following are the sales and closing quotations: Damon, 21 1/2, 21 1/4, 4000; Lexington, 12 1/2, 14, 1000; Nugget, 10 1/2, 11, 1000; Aola, 10 1/2, 11, 2000; Astec, 10 1/2, 11, 2000; Arcadia, 4 1/2, 4 1/4, 3000; Atlanta C. and C., 0 1/2, 1, 1000; C. BROWN'S For the BRONCHIAL TROCHES Throat. The Public Speaker's Friend. John L. Brown & Son, Boston.

WEARY WOMAN Stands Up—The hard-worked lady—the tired mother with babe in arms—they one and all stand up. Men, chivalrous men, sit down. This is the daily spectacle in modern street cars. Any competent physician will tell you that woman is unhealthily unfitness to bear the strain of long hours upon her build herself up in a womanly way, this unusual demand upon her strength will result in a serious weakness and disease of the delicate organs which distinguish her from man.

There is a remedy that will so strengthen and build up woman's special organism, that she may withstand the strain of long hours upon her feet, and escape the maladies that would destroy her general health and her capability as a wife and mother. It is Dr. Pierce's Favorite Prescription. It builds up the muscles that support and strengthen the organs peculiar to the sex. It enables her to stand without feeling pulled down and without pain or extreme weariness. It cures all womanly weakness and disease. It fits her not only for work, but for healthy, happy wifehood and motherhood.

GOOD SHIPMENT FROM CLARA D. One Hundred Tons of Ore Sent Out by Lessees

E. PORTER GOLD KING STRIKE. Sub-lessee Babbitt Has Made a Big Find in Surface Workings Which May Prove a Bonanza—Assays Give Values as High as 58 Ounces to the Ton—Improvements on the Hoosier.

Special to the Gazette. Cripple Creek, May 16.—Hornor and Black, lessees on the Clara D. of the Lexington company, started today the biggest individual shipment ever sent out from the mine. The lot consisted of 100 tons of ore, which was sorted into three grades: first grade estimated at \$20 to the ton; second grade \$10 to the ton and third grade \$2.40. This ore is coming from the slopes between the 205 and 180-foot levels.

Excavations have been commenced on block 2 of the Mountain Beauty for a new plant of machinery which has been ordered by Lessee Hall, representing a Chicago syndicate backing the operations. The shaft on the property has been enlarged to a depth of 400 feet. Before the lease expires it will be sunk 800 feet. This being one of the stipulations under which the three years' lease was granted.

Sublessee Babbitt has made a big find on the south end of the E. Porter Gold King in surface workings and returns from shipments came away near the assay tests he has uncovered a bonanza. Assays taken on the quartz today gave values as high as 58 ounces to the ton. Adams and Adams, the original lessees, estimate that they can cut this lead with only fifty feet of cross cutting from one of their shafts ready run in the mine, and will start work immediately with this end in view. The present output from the property is ten tons a day.

HAVE READY YOUR ORES

Actual Collection of Exhibit For London Starts Today

QUEEN VICTORIA WILL EXHIBIT

And the Affairs Will Be Opened by the Duke of Cambridge—Stamp Mills at Work—Ores and Minerals from all Parts of the World—Colorado and Cripple Creek Will Be Well Represented.

Those desiring to be represented at the exposition in London, in which there is to be a large representation of ores from various districts from all parts of the world, must be prepared to have their specimens this morning, Mr. Claude Sachs, who has the matter in hand, has now completed all arrangements and will commence to collect the specimens this morning and hopes to wind up the whole business within the next two days.

A recent report from London concerning the exposition states that there will be a colonial mining section, an international mining court and colonial and Rhodesian ore crushing mills. The exhibition will be opened by the Duke of Cambridge and the queen has just promised the loan of a magnificent casket of Jarrah wood.

San Francisco Excursion. May 15, 16, 17, 18, at one fare for the round trip. Good returning until July 15. Stop-overs allowed. Good going via San Francisco.

Colorado Springs Mining Exchange. Colorado Springs, May 16.—The mining market was quiet and featureless today, trading being fairly active and prices showing little change.

M. Kinney Recommends Selling Some and Buying Other Stocks. MAY 13th, 1899.

Stocks, with but few exceptions, will decline somewhat during the summer, then I recommend purchasing, as I expect the wildest boom in mining shares next fall and winter that we have ever had. There are several stocks which have advanced considerably during the past six months, on which I am ready to advise the holders to take their profits and invest in the following named cheap stocks, which in my opinion are certainly purchases at present.

M. KINNEY, Broker, Mines and Mining Stocks. P. O. Box 824. Rooms G & H Exchange Bank Building, Colorado Springs, Colo.

WILLIAM A. OTIS & CO., BANKER AND BROKERS. Colorado Springs, Colorado. Members of the Colorado Springs Mining Exchange. Office of the Little Gold Mining Co.; Currency Mining Co.; Altamont Mining Co.

Mean relative humidity 59. Mean dew point 43. Precipitation in inches 0.

WEATHER INDICATIONS. Washington, May 15.—Forecast for Colorado: Fair Wednesday and Thursday; cooler in southern portion Wednesday; northerly winds.

Time to get a straw hat; go to Weir's. Regular session of Myrtle lodge No. 24, K. of P. this evening at 8 o'clock. Visiting brothers cordially invited to attend.

A concatenation of the Concatenated Order of Hoo-Hoo is to be held in Cripple Creek May 27 for the purpose of initiating a number of new members.

Stated communication of Tejon lodge No. 104, A. F. and A. M., tonight at 8 o'clock. Work in E. A. degree. Visiting brothers cordially invited.

Don't fail to see the diamond pins and rings at Ashby's for four days. One original lace pin is extra fine—three hundred dollars. To lovers of opals this will be a treat to see. Ashby.

A building permit has been granted Mrs. S. M. Smith for the erection of a six-room house on Cache la Poudre street between Wahsatch and Weber and to cost \$2,000.

Mr. J. A. Keys has sold a half interest in his feed store at No. 124 East Chucharas street to Mr. Frank Miller of Bealville, Pa. Mr. Miller has been here but a month.

Miss Katherine Freyschlag last evening entertained a few friends at her home, 225 East Wilmette. Those present were Misses Deer and Yehantreba; Messrs. Yacm and Elznekem.

Crash hats 50c at Weir's; see window.

A carload of horses belonging to J. K. Hughes arrived in this city from San Antonio, Tex., yesterday. They have been brought here for the big race meet to be held at Roswell park.

Mr. J. Scott, son of Mr. J. W. Scott, the dairyman, has arrived home after a long absence at the Kinome, where he was attracted by the gold fever. He says that there are good claims there, but they are staked off and have been for some two years.

A patent for the Little Nell lode, owned by the Pike's Peak Gold Mining company, has been obtained by L. E. Sherman. This claim is east of Cow mountain and contains about ten acres. A tunnel run into the mountain shows a well-defined vein.

A missionary tea under the auspices of the Woman's Auxiliary of Grace church will be held today at 3 p. m. at the residence of Mrs. Wagner, 323 North Nevada avenue. Interesting papers and discussions are expected. All interested are cordially invited.

Soft crush hats, \$1, in white, gray and blacks, at Weir's. See window.

Deeds were recorded yesterday as follows: P. Arvonia Gandy to Luisa M. Layton, lot 17, block A, D. Russ Wood addition to Colorado Springs, consideration \$4,000; Francis D. Pastorius to E. H. Joyce, west 90 feet of north 1/2 of lot 4, block 203, addition No. 1 to Colorado Springs, consideration \$2,100.

A bicycle rider met grief yesterday morning at the corner of Tejon and Wilmette ave. A dog collided with the wheelman and the result was a bad fall for the rider and several broken ribs for the dog. The incident created considerable excitement at the time.

Mr. Edward Cockrill suffered a broken collar bone as the result of a fall from his horse yesterday morning. He was hunting up some stock in a pasture south of the city when his horse stumbled and threw him. Dr. White set the broken member and Mr. Cockrill is doing nicely.

The Colorado College-Golden baseball game on Saturday is to be played at Golden. It was hoped that the game would be played here, as being the best for financial reasons, but the Golden team does not want to give up the advantage of playing on their own grounds. A big crowd of college students will probably go up to Golden with the team. The Tigers are hard at work in preparation for the game and are in very good form.

Weir sells the new shapes and straws in men's straw hats cheaper and closer than any house in town. See window.

It is expected that there will be big crowds to attend the high school excursion to Denver on Saturday for the interscholastic meet which occurs in that city at D. W. C. park. The members of the athletic association of the high school are working hard and are meeting with excellent success in their effort to have a good support for their team. The excursion will run via the Rio Grande road. The trains leave Colorado Springs at 8 a. m. and Denver at 3:15 p. m., arriving in this city on the return in time to connect with street cars for all parts of the city.

ORE THAT IS ORE

Sixty-seven Pounds of Orizaba Rock Worth Nearly \$10 per Pound.

Yesterday Mr. S. S. Bernard of the El Paso Gold Mining company received returns from a small lot of ore recently sent out from the Reardon lease on the Orizaba of the El Paso company. The shipment only consisted of 67 pounds, but the ore was found to be marvellously rich. The values showed \$88.20 ounces in gold, with a gross return of \$962.09 for the 67 pounds. The company's royalty on this small shipment amounted to \$148.35.

Beacon hill has contributed some remarkably rich ore recently, but this shipment breaks the record. The lodes have shipped about 47 tons of \$50 ore recently.

STORE ITEMS

Our entire line of high-grade, foreign, new, Spring wool dress goods, that sold at \$1.25 and \$1.50, is reduced for this week to 80 cents. Pretty patterned fancy taffeta silks are now marked 80c, that ought to sell for \$1.25. The wide, new style, fancy silk ribbons are now 25c, instead of 35c and 40c a yard. Something entirely new, is the washable white leather belts. We have a pretty assortment of new style, black and colored leather belts, for you to choose from.

SEMI-ANNUAL

85c SILK SALE

In which we give some phenomenal values in seasonable and desirable Silks, not old goods, not job lots, not merchandise that is low priced because it ought to be, but some of the season's best selling, most desirable staples and novelties at a price that will set the scissors in our silk section cutting waist patterns and dress and skirt lengths and will keep them cutting all next week.

85c yard

A lot of Fancy Silks for waists, skirts and dresses in plaids and stripes, from 20 to 24 inches wide. Former selling prices \$1.25, 1.50, 1.75, 2.00, 2.50 yard, now 85c.

85c yard

One line of Black Brocaded Silk, excellent quality, from 22 to 24 inches wide. Was \$1.25 yard, now 85c.

85c yard

A beautiful line of Taffeta Silk, all colors, 20 inches wide. Would be cheap at \$1.00 yard, this week 80c.

Remnants at 1-2 Price

in black and colored wool dress goods, skirt and dress lengths at one-half their regular selling price.

Shirt Waists

Are clamoring for mention. There is so much that is new and interesting to tell of them that we hardly know where to commence. Let these few prices suffice to give you an inkling of the comprehensiveness of the stock. We specially mention our 50c 60c, 75c and \$1.00 waists, the rest run on up to \$3.00.
