ment Commander—Today's Pro-

gramme.

Yesterday was a great day for the

old veterans of the G. A. R. It was the

first day of the annual encampment of the

department of Wyoming at Colorado

Spring, and the morning train brought in

the old soldiers, and at 1:30 p. m. the

official encampment train arrived over the

Gulf road. The train was made up of

seven special coaches and brought down

delegations from Denver, Cheyenne,

Boulder and other cities, with Cook's

drum corps from the capital. The dele-

gations from James W. Anderson post

No. 96, of Cripple Creek, consisting of 150

members, headed by the Cripple Creek

fire, drum and bugle corps, of ten mem-

bers, also delegates from the A. J. Smith

post No. 102, of Florence, which is the

youngest post in the entire department.

They arrived on earlier trains. The de-

parties proceeded to the city and were

met by the A. G. S. post, and the

Wagoner's Relief Co. had also established

headquarters in room 20.

Preparations were immediately made

for the grand parade, which was to have

started promptly at 3 o'clock from the

Antlers hotel, but about the time the

parade was forming the rain began to

fall in torrents. The ardor of the old

soldiers was not dampened by the down-

pour, but it was decided to postpone the

parade until the following day. The de-

parties sought shelter at any convenient

place, and the old veterans, followed by

the Colorado City band, took possession of

the front porch of the Antlers. They

then played numerous patriotic airs. The

rain continued falling, and it was thought

that the parade would have to be post-

poned. The bands however, struck up

"Wait till the band toll bell rings" and the

sun came out from behind the clouds.

The Decorations.

During the time that the magnific-

ent decorations of the merchants and

business men suffered greatly. The city

had been beautifully decorated for the

occasion, and on all sides flags and bun-

tings were displayed in profusion. The

May Clothing company, N. O. Johnson

& Sons, the Wadsworth Dry Goods Co., Hol-

brook & Perkins, R. D. Weil, Bennett &

Chaplin, Kaufman, Wahl and many other

The old war songs were sung from three thousand patriotic throats. The old sol-

diers wanted more of the song, and the chorus was repeated several times, but the

veterans could not resume their seats until three more times a tiger were given with great enthusiasm.

Governor Adams' Address.

The address which followed was the piece

de resistance of the evening. Colorado's

chiefs of the movement, G. A. Adams, was

presented to the audience by Chairman

Sherman. Mr. Sherman said that Colorado

Spring people and G. A. R. men needed no

introduction. He said that Adams, as the

all the chairman could say for Governor

Adams stepped to the platform, the applause

was deafening.

The speaker caught his audience at the

beginning and held it for 30 minutes he held

their undivided attention. He began by

saying that the G. A. R. was dear to the

hearts of the people of Colorado as those

of any other state in the Union. He

spoke of the gratitude in his heart for that

organization which gave a reunited country.

He said that although he held the rank of

command-in-chief of the troops at Colorado

do, yet the honor was small in comparison

to that of the humblest soldier in the ranks

of the Union army. Your order appeals to

the desire of the nation to honor the men

and the country dignities to honor the men

who carried a sword or musket in the great

battle for liberty. The speaker paid a mag-

nificent tribute to the men of the nation

and the country dignities to honor the men

A SMALL INDEMNITY

The Powers Will Not Permit Greece to Be Plundered.

NO TERRITORY TO BE TAKEN

Powers Using Their Influence with Turkey to Cause a Cessation of Hostilities—They May Not be Successful—Further Reports of Massacres by Turks in Epirus.

London, May 12.—Up to the present

the fact is not of a revolution in the

definite anti-dynasty movement at

Athens. The people appear to be re-

lieved at the prospect of mediation and

will be the only too glad to see peace

restored.

The powers are using their influence

to persuade Turkey to cease hostilities,

though there are some doubts as to

whether they will succeed.

The reports that fighting has occurred

today at Demokos and Almyros are not

confirmed.

M. Ralli's Confidence.

M. Ralli, in the course of an interview

at Athens this afternoon, intimated that

the acquiescence of Greece in the con-

ditions proposed by the powers was due

to the belief that they would not allow

Turkey to retain an inch of Greek ter-

ritory.

It thus appears to be the general opin-

ion of European diplomats, who also con-

sider that Turkey should be satisfied

with a moderate indemnity.

MASSACRES IN EPIRUS.

The Turks in Remote Regions Make War in Their Usual Fashion.

London, May 12.—The Athens corre-

spondent of the Daily Chronicle says:

M. Ralli, the premier, showed me today

dispatches and reports from Colonel

Manos and various cities in Epirus

stating that the villagers between Toulon

and Kastroskyia have been burned by

the Turks, after all the women and children

had been massacred. A few who hid in

the fastnesses of Mount Zalongo, fam-

ished during the war of independence, and

a few more who concealed themselves in

the marshes along the coast, managed

finally to get aboard the Greek ships, half

dead with hunger and fear.

The men fought like lions in defense

of the women, who sought refuge in the

woods and caves of Mount Zalongo and

staying there until the Turks, jumped from

precipices to avoid capture and dis-

honor.

SUFFERING IN THE ESSALY.

Eighty Thousand Refugees Without Food or Shelter at Lania.

London, May 12.—A dispatch to the

Daily Chronicle from the island of

says that 80,000 Thessalians are herded

there and in the neighboring villages af-

ter the successive flights from Turnovo,

Larissa, and other cities, having been

driven there by the Turkish army, who

are now murdering the women and

children and laying waste the land.

THE BULGARIAN REVOLUTION.

London, May 12.—The revolution in

Bulgaria has not yet reached the point

of no return, and the powers are still

endeavoring to bring about a settlement.

The Greek commissariat has collapsed.

The only rations now received by the

soldiers are bread and cheese. Not even

coffee is procurable.

AN OFFICIAL DENIAL.

Constantinople, May 12.—The Porte

has given a positive official denial to

the statement that the Sheikh of Islam

has issued a circular to the Muslims in

Constantinople and the provinces foreshad-

owing a Holy war, and to the report that

the sacred edict was already being pre-

pared.

A Renewed Agreement

Englishmen that has ever visited Mexico.

Gold exports from this country during the

first half of the current fiscal year are

officially given at \$3,535,623, an increase of

\$1,222,192 over the amount reported in the

corresponding half of the previous fiscal

THE HOUSE DEBATE

Senate Amendments to the Sundry Civil Bill Considered.

CLEVELAND WAS CRITICIZED

Mr. Hartman is Glad that We Now Have an American President—The Appropriation for Improving Pearl Harbor Cause a Long Debate is Defeated.

Washington, May 11.—Consideration of

the Senate amendments to the sundry civil

appropriation bill was finished by the

house when it went to conference.

President Cleveland's forest reservation

order was the subject of much debate,

and the house voted not to concur in the

Senate amendments to amend the order.

The understanding that the conference

should arrange an amendment which would

amend the order was defeated.

The debate on this subject followed close-

ly the lines of that of yesterday. It was

participated in almost exclusively by west-

ern members, who pointed out the injury

done by the order and the result if Pres-

ident Cleveland's order should become

law. Several amendments were offered

but none were adopted.

The President Criticized.

Short speeches criticizing President Cleve-

land's order were made by Messrs. Under-

SITUATION IN CUBA

A Spirited Debate Was Held in the United States Senate.

THE ADMINISTRATION'S POLICY

It is to Ascertain the Facts as They Now Exist—Very Important Information Now in Possession of the State Department—Mr. Morrill Opposes the Adoption of the Resolutions.

Washington, May 11.—The Cuban insurrection occupied the entire attention of the senate today, the debate taking a wide range, and at times becoming spirited, when comparisons were made between the attitude of the former administration and the present one on the subject of Cuba.

Senators Morrill of Vermont and Caffery of Louisiana spoke in opposition to the resolutions, and Senators Lodge of Massachusetts and Foraker of Ohio favored deferring the question until further information could be secured from the state department, and Senators Allen of Nebraska and Mills of Texas favored the immediate passage of the resolution.

The Morgan Cuban resolution was taken up as soon as the routine business was out of the way, and Mr. Morrill (Rep.) Vermont spoke in opposition.

The senator said the purpose of all the Cuban resolutions, including that of Mr. Morgan, was to wrest from the executive the right he alone hitherto had exercised of recognizing the belligerent rights of the independence movement.

Mr. Morrill then turned his attention to the new and botched version of the Monroe doctrine, with all its additions by intrepid jingoists, who sought to make the United States the unshaken guardian and the fighting champion of all the American republics.

It is this new version to be an established policy, then it was time to create an army and navy which shall eclipse that which was now in existence.

Senator Foraker of Ohio, speaking in opposition to the resolutions, said that the administration had no right to ask that the Cuban revolution should be recognized as a belligerent.

Mr. Kyle (Pop.) of South Dakota rose to a question of privilege on the close of Mr. Morrill's speech. He said criticisms had appeared in the west relative to his position on senatorial inquiries.

Mr. Allen (Pop.) of Nebraska asked what more could be learned. Mr. Foraker responded that a question existed as to the facts. Opinion divided itself, he said, under three heads: First, what are the facts; second, what is the law applicable to the facts; third, what is the policy which we are to adopt under this condition of law and facts.

Mr. Foraker said he had read some of the evidence in the possession of the state department, and he felt that it should be examined carefully before action was taken.

This led Mr. Allen to a warm criticism of the "premeditated purpose of the state department to keep the senate in ignorance."

Mr. Foraker disclaimed having said anything to warrant a statement that the executive or state department withheld information from the senate, and desired delay. The administration and the department were pursuing inquiries with a view to acting understandingly on the subject.

Mr. Allen asked if Mr. Foraker dismissed the inquiries of the former administration as incompetent.

The Ohio senator answered that the information now available at the state department dealt with the present status of affairs, and there was every purpose he believed, to place this at the disposition of the senate.

posing the resolution, criticized Mr. Lodge in some of his statements.

The report on the Indian bill was concurred in and the items of disagreement sent back to conference.

At 3:30 p. m. the senate went into executive session, and half an hour later adjourned.

THE POSTAL CONGRESS.

Reception Given to the Delegates by the Postmaster General.

Washington, May 11.—Postmaster General Gary gave a reception tonight to the delegates to the international postal congress in the spacious halls of the old Corcoran Art gallery, where the meetings of the congress are held.

The reception was a most interesting one, and the entire personnel of the congress took advantage of the opportunity to meet socially the officials of the postal office.

The postmaster general was assisted by Mrs. Gary, several of their daughters, and Assistant Postmaster Generals Heath, Shellenbarger and Merritt and wives.

The reception was a most interesting one, and the entire personnel of the congress took advantage of the opportunity to meet socially the officials of the postal office.

FIRE ON THE FLAG

A Nicaraguan Gunboat Attacks an American Steamer.

CENTRAL AMERICAN FLURRY

Town of Puerto Cortez Recaptured by the Government Troops of Honduras—An American Consul Said to Have been the Leader of the Revolt—Report that He was Killed.

Chicago, May 11.—A special to the Chronicle from New Orleans says: The steamer Rover, lying between this port and the ports of Spanish Honduras, was fired on by a Nicaraguan man-of-war on May 6, while four miles from Port Cortez, and narrowly escaped being hit amidships.

The Rover, which came in tonight, also brought the information that it was fired on in Omao and other government points of the American consul at Port Cortez, Mr. Alger, had been shot, but no particulars had been obtained.

The fact that his flag was not flying when the Rover left the port, is taken as an indication that this is really so, and that possibly Port Cortez has passed into the hands of the government, although it is also said that the rebels are still in place.

News was received in this city several days ago that the steamer Rover, converted into a gun boat by the Nicaraguan authorities, had left Bluefields under the command of General Reyes, armed with two mounted machine guns.

Reyes left for Port Cortez with the intention, it is said, of assisting the government of Spanish Honduras in the task of recapturing Port Cortez, operating in conjunction with the port from the direction of Omao.

Upon arriving at Port Cortez on the morning of May 6, Captain Reed observed that the flag of the American consul was not flying and that there seemed to be something amiss in the town.

When the two vessels were about a half mile apart, to the astonishment and dismay of the American captain and his crew a puff of smoke was observed to clear the air.

Reyes against the firing on the Rover when she carried the American flag at her masthead, and was fired upon by the Rover.

The news has created a sensation, as it is believed by the general public that the Rover was the head of the gang of young men all well connected, who have been guilty of numerous highway robberies reported during the last few weeks in Atlanta's suburbs.

THE HOUSE DEBATE

(Continued from Page One)

the straight-forward manner provided by the treaty itself.

The fact that the senate finance committee recommended an ad valorem duty on sugar, apparently a little higher than the specific duty of the house bill, does not insure a larger revenue, as past experience with ad valorem duties has shown.

In our judgment the revenue from sugar under the house sugar schedule (setting the question of abrogating the Hawaiian treaty) would be larger than under the senate amendments.

The proposed temporary duty on tea would increase the revenue, although not so much as the first year as estimated, because of the large stocks on hand and the short stocks that would be maintained with the knowledge that tea would soon go back to the United States.

Some criticism has been made on the estimates of the ways and means committee as to the revenue that would be produced by the tariff bill as it passed the house.

What the committee said. "What the actual revenue would prove to be in the year following the enactment of the proposed measure into law is, of course, dependent upon contingencies.

When the actual revenue would prove to be in the year following the enactment of the proposed measure into law is, of course, dependent upon contingencies.

PRESIDENT BOYCE'S SPEECH.

The outspoken utterances of President Boyce of the Western Federation of Miners, are a relief. His words are sane, revolutionary, treasonable so far as words can be treasonable, but they are at least frank and outspoken and for that they deserve commendation.

has only 25,000 telephones, or less than the New England states alone. Boston, with only 486,920 inhabitants, has more telephones than London with 5,600,000 inhabitants.

All kinds of opinions have been given to the world regarding the man, Cecil Rhodes. It has been left to the gall-dipped pen of Lauchner in Truth, to give him one of the latest rûles.

"My impression of Mr. Rhodes is this: In his opinion almost all men are to be bought, and he has never lost an opportunity to provide himself with the means of buying them.

Farmers on Long Island are complaining bitterly over the destruction of the deer are causing there. The game laws are very strict, and deer can be killed only during a very short season.

The Provident loan association of New York has just had its fourth sale of un-redeemed pledges. The amount realized did not cover that given to the owners of the articles by the association.

"Every student of forestry," says the Toledo Blade, "will commend Secretary Wilson of the agricultural department for the effort he is now making to cultivate trees on the arid western prairie."

The senate bill calls for a tax on tea. This seems most absurd. We do not grow a pound of tea in this country, and there can be no possible excuse of protection in this case.

SPIRIT OF THE TIMES.

Noteworthy Opinions of Journals of the World. Barnard's Airship. Hartford Times. Amid the almost daily announcements of the sight of the alleged nocturnal and highly mysterious airship, that seems to have been floating over most parts of the country's nights for several months, there comes now the authentic news, from the scene of the Nashville Centennial exposition, of a real airship.

A HARD POST TO FILL. Mr. Thomas F. Bayard, American citizen, returns to his country this month. Mr. Bayard has represented this country at the court of St. James, and like Mr. James Russell Lowell he returns with many staunch friends and many bitter enemies.

SOME TELEPHONE FIGURES.

The telephone, like the wheel, has evidently come to stay. The growth of this service in the United States has been something remarkable, as is proven by figures recently compiled.

fight within the old state house at Dover. It is announced that the prize-ring was laid in front of the desk of the speaker of the house of representatives, and that the spectators sat in the gallery of the legislative hall.

It seems hard to believe that the people of Delaware would allow so outrageous a scandal to be dismissed by this way. It remains to be said, however, that scandals almost equally as disgraceful have been developed in Delaware politics in past two years.

About six or seven weeks ago the newspapers of this country had much to say about the disgraced position occupied by the state of Nevada. Apparently Delaware is determined to secure recognition as a commonwealth even more corrupt than Nevada, and to be rebuffed than Nevada.

Bishop Potter indicts both machinery and the capitalist as causing the ill-feeling and uneasiness among the laboring classes. Machinery is turning the workman into an idiot, and after plodding graphically the work he saw a young man performing at a factory, the bishop said: "No wonder at night time he drank, gambled and fought."

"This association (the church association for the advancement of the interest of labor) is looked upon as a dangerous and revolutionary one, because it tends to unite the church with the laboring man in his struggle."

That's good,—that's coming back to the gospel as Jesus preached it. Jesus was with the laborer, every time. Let us hope that the professed churches of God will come up to the standard of Jesus, and speedily, moreover, from the point of view taken by the plutocratic civilization of the day, and expressed by almost every New York Times editorial, how many others, however, Bishop Potter must now be reckoned a dangerous man and a reckless agitator.

The announced raise in ore rates could hardly have come at a more inopportune time. In the face of unusually low markets for silver and lead, the ore producers have been struggling along, trying to make both ends meet, and to force something of an industrial revival this season.

In Mexico street cars run on one side of the street instead of in the middle of the thoroughfare.—(Modern Mexico.)

Electricity has been adopted as the motive power of the machinery connected with the drainage system in New Orleans.

It is stated that the lighting of certain of the London prisons by electricity is under consideration, and it is proposed to erect a special description of treadmill to supply the motive power.

A French doctor declares that he has discovered a means of injecting courage into men by means of a syringe. The material he uses is a mixture of sea-water and phenic acid.

The credit of having the smallest circulation of any newspaper in the world belongs to the Impartial Gazette of Berlin, of which two copies are printed daily.

The Paris prefecture of police has bought a wooden horse, harnessed, and all candidates for the position of cabman must show that they know how to harness and unharness him, and pass an examination in whatever other tests the prefect may propose.

It is said that the present department store system originated about forty years ago with the great dry goods firm of Todd, Burns & Co., of Dublin. When A. T. Stewart visited Ireland about 1850 he examined the innovation closely and began to introduce some of the features in his New York store.

Not long ago I wanted to define a "sybarite" for the information of my young people, and I could not think of an apt illustration, but last week I went late in the evening to call on an old friend. She was dressing for dinner, and her maid had placed all her bracelets and her necklace to warm before the fire upon a small cushion.

There are 25,000 white people and only 18,000 negroes in the city of Augusta, Ga., but while only 32 white died of consumption there last year, 64 negroes succumbed to that disease. Dr. Eugene Foster, president of the board of health, in giving these figures, said that before emancipation the colored race was almost wholly immune of consumption, a negro with consumption prior to the close of the war being a clinical curiosity.

MAYOR'S PROCLAMATION.

The use of water for sprinkling lawns and gardens is prohibited in that part of the city lying north of Pike's Peak Ave., including Ward 5, except between the hours of 5 o'clock a. m., and 12 o'clock noon; and in that part of the city lying south of Pike's Peak Ave., including Colorado City and La Verne, except between the hours of 12 o'clock noon and 7 o'clock p. m.

Dated Colorado Springs, April 21, 1897.

BOLD PICK-POCKETS

They Were Captured in This City Last Night.

BEEN OPERATING IN DENVER

Came to Colorado Springs to Do Some Work Among the G. A. R. Visitors - Denver Detectives Followed - Captured Their Men with the Assistance of Joe Atkinson of the Colorado Springs Force.

James Watson and George Richardson, two ex-convicts from the penitentiary at San Quentin, Cal., were arrested at the camp fire at Temple theater last night by Detectives Sam Emich and John C. McNell of Denver, and Joe Atkinson of the Colorado Springs force.

They have been operating in Denver for some time as pickpockets, working the trains coming into that city from Fortieth street, but the detectives have been unable to get hold of them before. Within the last week they have picked the pockets of three ladies and snatched a valuable diamond stud from the shirt bosom of Mr. T. N. Sprague, an old gentleman from Jamestown, N. Y., who was stopping at the Vallejo hotel, on Logan avenue.

The officers thought it was more than likely that these men would come down to Colorado Springs to do some work among the G. A. R. people during the encampment, and so followed them down, and succeeded in locating them at the camp fire last night. The men will be taken to Denver by Messrs Emich and McNell.

GEORGIA CAYVAN IN SQUIRE KATE.

The Well Known Actress Will Appear at the Opera House Next Saturday Evening.

When the formation of Miss Georgia Cayvan's company was under discussion some time ago it was noted that she and her manager showed a disposition to encourage youthful aspirants to histrionic fame. It must not be understood, however, that it was Miss Cayvan's idea, to further unduly transfer from the amateur to the professional ranks. On the contrary, every member of her company is a full fledged professional, and at least three of the troupe are of the same organization, while the young in experience, perhaps, rejoice in pedigrees that would seem to fully justify their selection. One of these is a young English girl, Miss Mary Jerrold, who is the great granddaughter of that celebrated English wit, Douglas Jerrold. When the company was about to open in New York there was a commendable lack of disposition to make capital of this young lady's pedigree. In fact, nothing was said of her whatever further than that her name was put on the programme with the others. Indeed, only one or two in the house on the opening night had any suspicion of her relationship to the great Englishman. This being true, it is all the more to Miss Jerrold's credit that she made one of the pronounced successes of the evening. Another of the youngsters in Miss Cayvan's company is Miss Winifred McCaull, who is the daughter of the late lamented Col. John A. McCaull, famous a few years ago as a producer of comic operas, and who introduced into that branch of the profession no less a light than Mr. Francis Wilson. In addition to these, a certain success has been scored in Miss Cayvan's production of "Squire Kate" by Leonard Barrymore, son of Maurice and George Drew Barrymore.

"For Fair Virginia." Among the most important and attractive engagements that will be offered to the theater goes this season is that of Mr. and Mrs. Whytal in the play "For Fair Virginia," at the opera house on Tuesday, May 18. This is a domestic story of strong and fascinating interest, projected against the background of the civil war. It is not a melodrama, nor yet a "war play" in the general acceptance of that term, and the comedy is so important and so well timed that the stars has decided to appear in the comic character. Originally brought out at the Fifth Avenue theater, New York, early in 1888, it achieved an enormous success, which has since been uninterruptedly maintained. The New York Morning Advertiser said: "For Fair Virginia" is a play which has given us honest lines. The comedy lines are especially bright, and nothing prettier than the cigarette-rolling scene in the first act has been seen on the stage in too long a time." Mr. and Mrs. Whytal will be supported by an exceptionally capable company, including such well known players as Mabel Bert, Frank Moreno, George F. Farren, John Woodard, and that remarkably clever and attractive child actress, Lottie Briscoe. A complete scenic outfit is carried. The play is one that should appeal to everyone, for it is free from any taint of coarseness or suggestiveness.

FOR RELIEF.

The Various Churches Asked to Co-operate with the Christian Endeavor Society to Aid Sufferers.

At a meeting of the union committee of the Christian Endeavor societies of this city, held last evening, it was decided to join in the work of securing a relief fund for the sufferers by the Indian famine. The following note was prepared and handed to the pastors of the churches of the city:

"Will you kindly announce to the members of your church tonight at the prayer meeting that the Christian Endeavor societies of the city are to begin at once to canvass the city for funds for famine-stricken Indians, and urge the members of your church to cooperate with the canvassers as far as possible?"

Gibson Tableaux Tonight. The event towards which the people of Colorado Springs have been looking forward with so much interest for some time past, takes place at the opera house this evening. A large audience is hoped for, as this is the first time the famous Gibson tableaux have ever been given in Colorado Springs, and this is the only opportunity to see the play, "The Wolloughsby Dinner," presented by the very best amateurs in the city.

There are still some desirable seats left on sale at the ticket office in the opera house block at moderate prices. As this is to be a benefit performance it is greatly to be desired that all the seats be filled. The curtain will rise promptly at 8:15.

HOTEL ARRIVALS.

The Alamo. M. C. Campbell, B. B. Book, New York; Mrs. Geo. N. Coe, Mrs. E. B. Bumpf, Chicago; W. Goldbury, New York; A. C. Isaacs, Chicago; C. A. Biggs, C. H. Besley, Choma, N. M.; W. A. Hassel, Brooklyn; J. Stein, Chicago; G. H. Moulton, Glenwood; Geo. F. Steel, Chicago; Mrs. A. G. Oils, E. C. Earhart, C. E. Cutchell and wife, Atchison; C. S. Hodges, S. H. Fisher, F. W. Angier, Denver; Mrs. J. A. Whitting, Mrs.

BASEBALL.

Table with 5 columns: Club Name, Played, Won, Lost, Pct. Includes teams like Baltimore, Louisville, Pittsburgh, Cincinnati, Philadelphia, Cleveland, New York, Boston, Brooklyn, Washington, St. Louis, Chicago.

Cleveland-Brooklyn. Cleveland, May 11.-Cuppy puzzled the Brooklyn team today when David the Indians yesterday. The visitors did not get a man to second until the ninth, when Jones stole second and stayed there while three batters went out. Attendance 1200. Score: Cleveland 10, Brooklyn 7.

Washington-Baltimore. Washington, May 11.-The playing of the Washington team today was weak, while the Baltimores did not play exceptionally well. In the second inning Brown goods to match the plaid in the exclusion from the game and grounds of the Baltimore first baseman. He was succeeded by Tom O'Brien. Attendance 2500. Score: Washington 2, Baltimore 1.

Pittsburg-Boston. Pittsburg, May 11.-The home team suffered their first shut-out of the season today. The visitors made their two runs on a base on balls, followed by two two-baggers. Lewis kept the hits scattered and his support was worthless. Attendance 300. Score: Pittsburg 0, Boston 0-6.

Chicago-Cincinnati. Chicago, May 11.-Both teams played loosely today, and the game was one-sided and uninteresting until the close. The Reds scored in the last inning, giving the Cubs a splendid opportunity to win out, but after two runs had been scored Dwyer and his backers steaded down and retired the side. Attendance 1200. Score: Chicago 1, Cincinnati 1-6.

Philadelphia-St. Louis. Philadelphia, May 11.-Philadelphia was postponed on account of rain. Louisville-New York. Louisville, Ky., May 11.-Louisville-New York; no game; wet grounds. Other Games. At Grand Rapids-Grand Rapids 13; Detroit 8.

Chatanooga Bicycle Races. Chattanooga, Tenn., May 11.-The bicycle races at the Coliseum here tonight drew an increasing attendance over any previous races in this city, there being nearly 3,000 people in attendance.

Morris Park Races. New York, May 11.-The best race at Morris Park today was the 500 yard stakes for two year old fillies, in which it went to the post, with Lady Mariana the favorite and Abundant second choice.

Ancient Order of Hibernians. New York, May 11.-The 46th annual convention of the Ancient Order of Hibernians board of Erin began its session at Tammany hall tonight. On Thursday national officers for the ensuing year will be elected. Should the efforts for an amalgamation with the American branch under the auspices of the presidency of Rt. Rev. John S. Foley of Detroit, Mich., have been under way for some time, it is successful, the necessity of electing a new board of national officers will be obviated and the breach of 13 years standing in the Ancient Order will be bridged over.

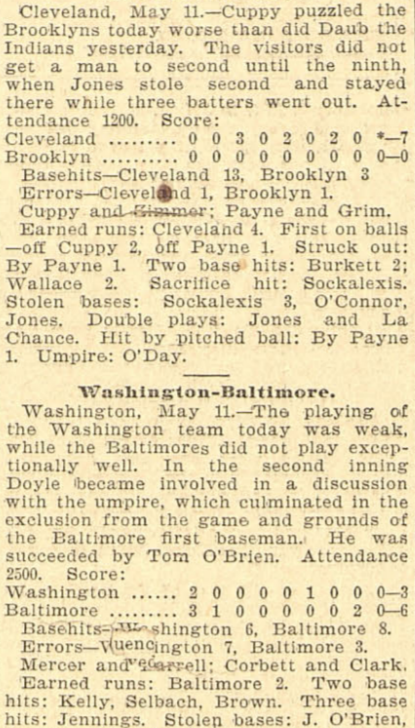

A California Hotel Failure. Stockton, Cal., May 11.-Business circles were surprised last afternoon by the failure of the California hotel, one of the oldest hostels in the city. The hotel was owned by Adolph Hahn, proprietor, shows his debts aggregate \$26,500, and assets \$12,383, with a net worth of \$13,000 worth of real estate and \$12,383 of personal property.

Diamonds at Goodspeeds. Manufacturing and repairing of all kinds of jewelry at Goodspeeds. Use Madam La Sells's Cold Palm and Silver Cream sold by druggists. Diamonds at Ashby's.

DUST-PROOF CYCLE SUIT.

Warranted to Keep Clean Through the Worst Spring Blizzards That Blow.

It has been discovered that face cloth, though a little more expensive to purchase, is the only one that is positively dust proof for bicycle dresses. There is a "face" cloth that looks precisely like satin, and in the plaid is very effective. A very good bicycle color is brown plaid, with a touch of red and a little yellow.

WILL NOT SHOW DUST.

For a suit the average-sized woman will need five yards of this cloth, 40 inches wide. The cost will be about 75 cents a yard. The skirt takes nearly all the goods. The only allowance for the waist is for the broad lapels.

For a good dish of ice cream, a light lunch or a fine box of candy, go to the Chicago bakery, 127 S. Tejon street.

MINES, STOCKS AND INVESTMENTS.

Colorado Springs Mining Stock Association.

Colorado Springs, May 11.—The market was again in good condition today, the trading continues to be light. It is true that a good many more thousand shares of stock were bought and sold than has been the case for the past day or so, but as most of it was in one stock, it does not count for much in judging the market. Outside of this one stock the number of sales was very much the same, although prices showed some improvement. Elkton again made a very fair showing, as pleased its admirers by advancing over 1 1/2 cents during the day. This was a little better than was done upon the previous day and the sales were also heavier. About 4000 shares of the stock were sold, and it started to sell at 9 1/2. At one time it advanced to as high as 9 5/8, but it finally settled down to 9 1/2 and closed at that figure. The sales in Arcadia consolidated closed upon 20,000 shares, and the stock sold at 3 1/2 at the opening up to 3 3/4. The advance took place shortly after the opening, and the stock maintained its strength in good shape. Pharmacist, as compared with the sales in other stocks, did not do very much. It was sold at 2 1/4 at the opening, and sold to as high as 2 1/2 and in that respect made a very fair showing. Union was steady at 13, a figure at which it is supposed to receive inside support and from which it has varied much of late. There were a few transactions in Golden Fleece at 27, and a few more in Anaconda at 29 1/2, and Specimen and Favorite were steady at 3, and the same can be said of the Consolidated at 6 1/2 and Jack Pot at 5 1/2. The sales in Arcadia consolidated amounted to 114,500 shares, and the stock sold at 3 1/2 down to 2 3/4. The selling was of a most determined description and appears to be willing to part at almost any price. Outside of this there is no explanation offered for the decline where an advance was expected.

Colorado Springs Board of Trade and Mining Exchange.

Colorado Springs, May 11.—Business at the Board of Trade and Mining Exchange was very light today and the total sales tumbled down to less than 70,000 shares. The trading was confined to 14 stocks, and the morning's business was about as light as has ever been seen on this board. The feature of the call was the activity of "old" Arcadia which sold to the extent of 25,000 shares, and in which there were an even 25 transactions, each being a deal for a thousand shares of the stock. The price started in at better than \$3 per 1000, but it soon fell off to an even \$3 and eventually to \$2.75, at which it closed and at which most of the stock changed hands. The next heaviest sellers were Buckhorn and Republic, each of which sold to the extent of 10,000 shares. The first named stock started at \$4 1/2, but declined to 4 1/4 before the close. Republic all went at 2 1/2. Most prominent among the other traders were Fanny B., with 4000 sales at 5 1/2 and 3 1/4; Kimberly with another 4000 at 1 1/2 and 1 1/4; and Golden Treasure with 5000 sales at \$2.75 per 1000 shares.

ANCHORIA MEETING ADJOURNED

The Annual Meeting Which Was Started Yesterday to be Continued in Two Weeks' Time.

The annual meeting of the Anchora-Leland company started yesterday was eventually adjourned for two weeks and so will be concluded until May 25. The delay was necessary owing to the fact that the president of the company, Mr. Irving Howarth, has quite recently returned to America from Europe and has had time to get up his annual report. At the meeting about 400,000 shares of stock were represented either in person or by proxy and a chairman and secretary were chosen. Melstrey on Anaconda. In their weekly letter the State Investment company says: "Anaconda for the month of April makes a very poor showing. The expenses approximate \$7,500, and the output some \$5,000, leaving a shortage for the month of \$2,500. One item in the expense of \$5,500, for dumping cars to carry off the waste rock, makes the big increase in expenses. As the most of the tunnel they have no dumping facilities and the rock has to be hauled away on the railroad, hence the purchase of dumping cars for this purpose. It may be that Anaconda will yet strike a good body of ore, but until she does, selling price is altogether too high. We therefore believe we will see lower prices in this stock, if conditions at the mine do not change."

ONE HUNDRED MILES OF PLACER.

The government of Canada is offering to lease 100 miles of the Stewart river to the British country for placer mining. This policy is strongly opposed by British Columbia boards of trade and the representative bodies, who urge that no such monopoly should be conceded. With the terms of the advertisement for tenders there is no time for the hardy men of the Yukon to apply to Ottawa. Many think there is a "bigger in the fence" somewhere and the prospect will do the Laurier government no good. There is, moreover, strong evidence expressed by the workers of British Columbia that the Laurier government's refusal, contrary to the Canadian premier's election pledge, to raise the Chinese poll tax, while it is also feared that the Canadian government will ratify the treaty with Japan without taking power, if necessary, to restrict Japanese coolie immigration. This breach of pledge and inaction is not unlikely to cause trouble, as already the Chinese of Sanjon and other points in the Siocan are refusing to let Chinamen enter, being determined to keep their district free from Mongolians, and at the same time the Chinese of British Columbia in thousands unless there are restrictive laws. The only consolation that remains for British Columbia lies in the fact that not a few Chinese will come across the border into this country sooner or later. (Western Mining World.)

A Hard Case.

At a recent meeting of the Academie des Sciences in Paris, M. Lacroix stated that recently, in demolishing the ancient Egyptian pyramid of Cheops, two old lead coffins were found bearing the date 1630. On opening one of these it was found that the skeleton within was partially wasted away, and was covered with crystals of hydrated bicarbonate of iron, similar to the mineral metabasite, which is found in the West Indian guano islands. The crystals were especially abundant in the cranial cavity, and had evidently been produced by the action of the products of decomposition of the body on the carbonate of lime in the skull. The brain seemed to be entirely gone. As the lead coffin had been very carefully sealed up there could have been no action from the outside.

Concerning Victor.

The Victor Gold M. Co.: Mr. Cone, its manager, who is also manager of the Golden Cycle, Granitic and other large properties, has been desirous of devoting more time to sinking the main shaft and attaining greater depth, but the hoisting of 100 tons of ore daily and waste rock and the large amount of water which he has been able to reach a depth of 600 feet, which is the last or ninth level. Most managers would have given up at this point, but he has taken out leaving enough to guarantee dividends for several years to come, would be satisfactory; but he is desirous of attaining the depth of the property, is desirous of putting the shaft to several hundred feet greater depth with a little delay as necessary; from this he will run levels at regular intervals, confident that he will continue to show the mine of increasing magnitude, as in the past, and then be able to work to better advantage and with greater satisfaction both to the stockholders and himself. He is erecting a heavy air compressor and other machinery for prosecuting the development more rapidly, and we are confident was a prominent factor in inducing the management to temporarily pass dividends that he may more readily place the property in the condition he desires. (Kendrick Promotion Co.'s market letter.)

X Rays and Metals.

The application of the X ray to studies of the composition of a metallic alloy was recently shown in a remarkable way by Messrs. C. T. Heycock and W. Neville, in London. The alloy experimented with was one of solid sodium produced by electrolysis of gold in metallic sodium and then allowing the compound to solidify very slowly. It appeared then hard and quite uniform in composition. This was a section cut through the solid lump, however, placed on a photographic plate and exposed to the X-rays a picture was obtained showing the actual structure of the alloy. The rays which are transparent to the rays while the gold was opaque, the photograph showed that crystalline plates of sodium traversed the mass in different directions, and that the sodium plates while solidification was going on. This seems to show that the formation of the alloy had been together analogous to the process which goes on when an aqueous solution is solidified or frozen. The application of the X-ray photography in this case is novel, and may be susceptible of considerable extension. (Engineering and Mining Journal.)

JACK POT ANNUAL

The Stockholders Meet and Elect a Board of Directors.

PRESIDENT READS HIS REPORT

Which is the Most Favorable Ever Presented to the Stockholders—All the Ground Now Patented—What has been Done in the Jack Pot Lode by the Vandenberg Account of Operations by Other Lessees.

The annual meeting of the stockholders of the Jack Pot Mining company was held in the Bank building at 9 o'clock yesterday morning. Thirty-seven, 70,000 and 80,000 shares were represented either in person or by proxy out of a total of 1,250,000 shares. The following gentlemen were elected to serve as directors for the ensuing year: W. F. Anderson, S. L. Caldwell, Theophilus Harrison, Chas. Farnsworth and S. W. Morrison. The directors will meet today for the purpose of electing officers.

The president and general manager presented his annual report, which read as follows: In my previous reports I have found it necessary to dwell chiefly on the precarious condition of the title of the company to any property; the immediate danger to the Jack Pot mine title to property as we possessed in 1893 and 1894, evidenced by the sale of stock on the market in those years at one-fourth a cent a share, and to urge immediately securing funds to liquidate the debts, and to secure our title from the United States for our claims. In a phrase that will apply now, "Save the Jack Pot, Providence, Ironmaster, Mary Wynne and Silver Belle; a total acreage of about fifty acres on Raven and Gold hills.

As to its present financial condition, I refer to the report of Dr. S. L. Caldwell, treasurer, which gives \$2350.12 as the total receipts for the past year, and \$1787.72 total disbursements. The company has a total indebtedness of only \$7000. From expected royalties I believe this will be paid off in the next sixty days. Present Work—As to the past, from necessity we have had to cut off our work having the development of its property done by the leasing system. Value of work done by lessees to date, fully \$100,000. Total value of ore shipped by lessees, about 15,000 tons.

Balance in favor of leasing system \$5,000.

The Lessees and their Work. Gettysburg—800 feet of the south end, 40 feet of the north end; sinking one 40 feet tunnel every month; royalty 20 per cent. for one year from shipment of 100 tons that will net the company 25 per cent. after the end of one year, and 35 per cent. thereafter until the end of the second year. The company has an agreement to sell for \$30,000 each 100 tons of ore in six months from the date of shipment of 50 tons, and within 18 months the further sum of \$100,000. In the last report it was shown that the company had been confined mostly in running a tunnel on the vein, now in nearly 500 feet. A station has been cut on the side of the tunnel and a winch set about 70 feet from the mouth of the tunnel. This has enabled the company to sink the south end 800 feet to the north end, and within 18 months the further sum of \$100,000. In the last report it was shown that the company had been confined mostly in running a tunnel on the vein, now in nearly 500 feet. A station has been cut on the side of the tunnel and a winch set about 70 feet from the mouth of the tunnel. This has enabled the company to sink the south end 800 feet to the north end, and within 18 months the further sum of \$100,000.

Gettysburg—North end to Mr. A. Helmer, dated March 8th, 1897, to September 24th, 1897.

Gettysburg—North end to Mr. A. Helmer, dated March 8th, 1897, to September 24th, 1897. The company has been found on the Gettysburg. Jack Pot—South end to C. A. Dingman and others—From October 22, 1896, to April 25, 1897. 40 shifts required every month; royalties 20 per cent. The lessees can purchase this 400 feet of the Jack Pot for \$30,000—\$25,000 on or before April 12, 1898. Their work has consisted, previous to April, in cross-cutting from the shaft 200 feet deep in a southerly direction. During April they have cross-cut from the same level northerly then drifting easterly on what they believe to be the hanging wall of the Doctor vein. Jack Pot—222 feet adjoining above to J. P. Olsen and John Romberg from September 12, 1896, to March 12, 1897. 40 shifts required every month; royalties 20 per cent. Jack Pot—100 feet adjoining above to H. J. Gately from April 22, 1897, to September 12, 1897, 25 per cent. Jack Pot—400 feet adjoining above to Vandenberg Bros. and Betz, from August 1, 1896, to February 1, 1898. Fifty shifts required every month. Royalties 17 per cent. on regular intervals, and 25 per cent. on August 1, 1897, to February 1, 1898. Their work consisted in a tunnel into the north portion of their ground until about the 15th of December, 1896, when they discovered ore of great value, south of the tunnel and on the surface. They at once began sinking ore of from \$100 to \$500 per ton value. They now have a shaft 45 feet deep with drift 75 feet on the vein, thus giving 75 feet in length of stopping ground and 45 feet in depth. A vertical shaft is being sunk 75 feet east of the old shaft where a steam hoist will be installed as early as possible. Twenty men are now employed here. They made a sub-lease on a portion of their ground February 1, 1897, to E. B. Bell, who has since continued work in the Vandenberg tunnel, with the cutting of the vein in view at a depth of about 142 feet. Bell has been employing five men daily. Jack Pot—600 feet adjoining above lease to D. H. McFann and L. H. Weston, from

January 2, 1897, to July 1, 1898. Forty shifts required every month. Twenty per cent. until January 1, 1898; 25 per cent. after that date. Their work has been done in tunneling, but they made a sub-lease February 3, 1897, to George A. Kals and W. S. Stewart of the north end of the vein. The sub-lessees now have a shaft down about 50 feet. They expect very soon to open the Lucky Corner and Mountain Monarch vein on their ground, but as yet have opened no shipping ore.
Ironmaster—To J. H. Gately from October 27, 1896, to May 1, 1898. One hundred shifts required every month. Royalty 20 per cent. until February 1, 1898; 25 per cent. thereafter. Mr. Gately holds an agreement of sale for \$55,000; \$5,000 due July 1, 1897; \$5,000 due January 1, 1898; \$25,000 due May 1, 1898. Much work has been done under this lease, mostly in the sinking of a shaft on the north end, and another near the center of the claim. Ore of some value is being obtained in the latter shaft, but I believe not yet of sufficient value to pay for shipping.
Providence—600 feet of the north end of John Rogneg and J. P. Olsen, from August 8, 1896, to February 1, 1898. Forty shifts required every month. Royalty 17 per cent. to August 18, 1897; 25 per cent. thereafter. Through their work and the work of their sub-lessees, several new veins have been opened, but none yet of shipping value.
Mary Wynne—About 1,000 feet west to J. M. Riggs, Lewis Johnson, A. V. Doze, John Arthur and J. W. Farnsworth, from October 21, 1896, to December 1, 1897. Royalty 17 per cent. to the end of the lease. Forty shifts required every month. They have a shaft 80 feet deep, with a drift on the vein 90 feet in length, and ore assayed as high as 600 ounces silver; \$40 gold and 47 per cent. lead, have been obtained, but ore in quantity sufficient for shipments has not yet been obtained. At least three well-defined veins have been opened up on the west 300 feet of this lease. I believe arrangements can be made soon to limit this lease to that 300 feet, and one or two new leases can then be given on the vacated 700 feet. At the same time provisions will be made for more active work on these very promising veins on the east 300 feet.
Mary Wynne—The east 200 feet of J. C. Gordon and E. G. Freeman, from April 26, 1897, to November, 1898. Forty shifts required every month. Royalty 20 per cent. to May 1, 1898, and 25 per cent. thereafter. They have already opened two veins on the surface, and are now cross-cutting from the breast of tunnel 150 feet for these veins. Evidence is showing that they are very near the veins.
Silver Belle—South 400 feet to W. J. Hill, H. A. Bumpus, J. L. Baker, and J. J. Peterson, from April 12, 1897, to October 12, 1898. Forty shifts required every month. Royalty 20 per cent. to April 12, 1898; 25 per cent. thereafter. They have opened a vein four feet wide, very promising in appearance, coming in through the south end line, and are pushing the tunnel on the vein vigorously.
Silver Belle—About 450 feet north end, to John Wheeler, W. F. Baldwin, Grant Thompson, from April 6, 1897, to October 1, 1898. Royalty 20 per cent. to April 1, 1898, and 25 per cent. thereafter. Forty shifts required every month. They have opened a vein entering this claim, through its north end, and are pushing the shaft down on the vein—now about 70 feet deep. Have had assays of from \$11 to \$26 per ton. This vein is improving. I believe they will have ore for shipping very soon.
The future policy—As intimated before, development by lessees has been our only possibility. Development attempted by the company would have led to the sale of the company's properties to a new company, by which a few of us might have profited; or re-capitalization, with profit to a few. Neither our own experience, nor observation of very many companies that have been compelled to resort to the above expedients, and many others that have adopted the leasing system after large expenditures, incline the present management to a different policy. With this policy in view for the future there will be no need of accumulating a large reserve fund in the treasury. Very large reserve funds, \$250,000 and more have been hoarded up by companies in profitless mining and in salaries. If I should be again honored with another year's management of the affairs of the Jack Pot company, I promise to use my efforts to keep a steady stream of royalties pouring into the treasurer's pockets, and through into the legitimate possessor's—the stockholders' pocket; no government bonds.

One Minute is all the time necessary to decide from personal experience that One Minute Cough Cure does what its name implies.

DAILY WEATHER RECORD.

The following meteorological report is furnished by the Colorado College Weather Bureau. Observations recorded in local time.

From May 10 6 p. m., to May 11 6 p. m. Temperature at 6 a. m. 29. At 12 m. 52. At 6 p. m. 62.

Maximum temperature 58. Minimum temperature 38. Mean temperature 48.

Max. barom. pressure in inches 24.07 Minimum barom. pressure in inches 24.00

Mean velocity wind, miles per hour, 20. Relative humidity at 6 a. m. 100. At 12 m. 61.

Relative humidity at 6 p. m. 63. Mean relative humidity 75. Mean dew point 48.

Precipitation in inches 0.13

Weather Indications. Washington, May 11--Colorado: Partly cloudy weather, with occasional showers; north winds.

Money to loan at Wm. G. Shapcott agency. Downs of "Cycle Row" has the best bicycles--the great Columbia line.

New wheels rented, 103 E. Bijou St. Mr. Frank Peck left last night for New York.

Today is "club day" at the Kinkinkink Tennis club. The \$50 Waverly has no equal for the money. Cycle row.

Mrs. McKeown and two daughters left last night for Philadelphia. Why walk when you can buy a Waverly for \$5 down and \$2 a week?

Mr. G. Lippman of Philadelphia registered at the Antlers yesterday. Mr. and Mrs. F. C. Williams of Philadelphia were signed at the Antlers yesterday.

Mrs. J. A. Whiting and Mrs. L. E. King of Cripple Creek were in the Springs yesterday. Myrtle lodge No. 34, K. of P., meets this evening in regular session; work in the Esquire rank.

Mr. F. J. Haebler, after an extended sojourn along the Pacific coast, is at home visiting his parents. Governor Adams was registered at the Antlers hotel yesterday. He will leave for Denver this morning.

The Gulf road brought in about 500 people from Denver and points north yesterday to the G. A. R. celebration. Mrs. Palmer may possibly be induced to add spice to this evening's society play by introducing a song somewhere in the scenes.

There will be another "cricket meeting" tomorrow evening in Room 16, Gazette building. All interested in the game will be welcome. Miss Delafeld, Mrs. F. V. S. Crosby's sister, will leave tomorrow evening for New York. Miss Delafeld is expected to return later in the season.

Mr. Arthur Connell will remind many who see the amateur show tonight of Robinson in the character of "Berio, the Lamb," in the Henrietta. Mr. Connell is excellent in his lines. President Slocum leaves Wednesday evening over the Union Pacific for New York. He is one of the college preachers for this year at Vassar college, and of the Western Union.

The final rehearsals for the tableaux and play were held last evening in the opera house and gave promise of a pleasing performance tonight. Seats have already been sold enough to almost fill the house. Mr. Bert Hagerman's definition of an ardent suitor tonight in an antic comedy will in no way be overshadowed by the professional delineation given two evenings previous by Nat. Goodwin. There is little amateurism about him and he has love making down to a science.

The greatest ball games of the season come next Friday and Saturday, between Boulder and Colorado College. Boulder is coming down Thursday night, so as to be in good trim for the game Friday. Advance tickets on sale at Strang's, 99 cents for two games. These tickets admit to grand stand.

The most fastidious cannot but be pleased with the \$100 Waverly. The annual meeting and election of officers of the Zebulon Pike chapter, O. A. R., will be held Thursday morning, May 13th, at 10:30 o'clock in the chapel at Coburn library. Any members of the O. A. R. who may be sojourning in the city, or any person interested in his work, are cordially invited to be present.

Among other good things that will be given on the program of the "Members and Contributors Reunion" at the Y. M. C. A. next Friday evening will be some duets on the zither by Messrs. Schneider and Peyado. Anything by Mr. Harry Cornish and an address by Rev. Philip Washburn. All members and contributors of the Y. M. C. A. are asked to bear this date in mind and be on hand from 8 to 10. Refreshments will be served.

WEBBER-HART. A neat little wedding last night in the Second Congregational Church. At half past seven last evening, Mr. Fred S. Webber and Miss Emma Hart were united in marriage. The ceremony was performed by Rev. Mr. Ormes in the parlor of the Second Congregational church. It was a quiet affair, there being only about 25 intimate friends present.

Mr. H. E. Anderson was best man, and Miss Ruth Crosby maid of honor. Supper was served by Mrs. Crosby at 8:30. South Cascade avenue, after the wedding. The newly married couple will be at home in a few days at 223 South Nevada avenue.

Laughlin-Chandler. Cards have been received in this city by friends announcing the marriage of Miss Clara Chandler to Major John B. Laughlin, of Dayton, Ohio, on Monday, April 28th.

The wedding took place in the parlors of the Plaza hotel, New York city, the Rev. John Hall of the Fifth Avenue Presbyterian church performing the ceremony. Mrs. Laughlin is the daughter of Jacob G. Chandler and was for years a teacher in the Garfield school. Major Laughlin is proprietor of the Phillips House, Dayton, Ohio, and a well known hotel man.

Mr. and Mrs. Laughlin remained in New York to witness the Grant monument ceremonies and will take a trip south before returning to Dayton, where they will be at home at the Phillips after June 1st.

Ladies' Golf Tournament Handicaps Wrong. Owing to a mistake in the handicaps, due to the change in the course at the Country club, it will be necessary to play again for the cup this week.

The friends of the Colorado Springs Musical club are doing so much to make the play and Gibson tableaux, which are to be given in behalf of the club, a success, that it is hoped that the members of the club will do their utmost to second these efforts by taking tickets for Wednesday evening.

KID GLOVES!

If you want ladies' gloves for bicycling, street dress or long lengths for evening use, in fact almost any kind of glove you will find a large assortment of the durable and stylish kinds and they are underpriced.

At 89c. The dollar soft pliable Kid Gloves, with 5-hook Foster fastenings. At 50c. Ladies Double Finger Tipped Kayser Silk Gloves.

LADIES' SHIRT WAISTS--Special. A broken line of different qualities and sizes of Ladies' High Grade Shirt Waists, worth up to \$1.50, at 89c
