

CZARS DAY IN FRANCE

Emperor Nicholas Exercised the Prerogatives of an Autocrat.

KEPT HIS HOSTS GUESSING He Ignored Plans for His Entertainment--President Loubet Showed Democratic Spirit.

Compiègne, Sept. 20.—Emperor Nicholas exercised the prerogative of an autocrat today and kept President Loubet and all the French occupants of the Chateau Compiègne guessing the whole morning until he had signified his desires. It was fully expected that he would drive to Pierrefonds and visit the castle and that afterward he would go shooting in the great park attached to the Chateau Compiègne. All the arrangements had been made specially last evening and let loose in the covers. But he did nothing of the kind.

His majesty remained in his apartments after breakfast quietly until 10 o'clock when he took a short promenade in the gardens, attired in a dark lounge suit and top boots, with the carmine and her invariable half-mourning and followed by a bound. The empress carried her camera with which she took a number of views. Their majesties passed a squad of infantry stationed in the park and the officer gave the order to present arms. Thereupon the carmine photographed the group, subsequently conversing with the officer and promising that he should have the photograph.

After returning to the chateau the emperor had a long interview with M. Waldeck-Rousseau, the French premier. It lasted at least two hours. Count Lambsdorf, the Russian foreign minister, also conferred with M. Delcasse, the French minister of foreign affairs. Naturally what took place has not been divulged, but it is whispered that the principal subject of the two interviews was the international relations between France and Russia.

After giving it to be understood that he would arrive at Pierrefonds, the czar left the chateau with the carmine in a victoria at 11 o'clock with no escort except a few foot soldiers on bicycles, who kept discreetly in the background, thus giving him the illusion of a private drive and the life of an ordinary mortal. Measures were taken within the park, however, that absolutely precluded the approach of any stranger. The entire outer circuit of the park was patrolled by cuirassiers, while every few yards along the pallisade enclosing the park were stationed foot soldiers with fixed bayonets. Numerous detectives were hidden in the woods. In order to test the measures taken to safeguard his majesty's person during the drive, five detectives were instructed to attempt to enter the park last evening under cover of darkness. In every case they were captured before getting inside the chateau grounds.

The emperor wore the undress uniform of Preobrajenski regiment. He changed his route quite unexpectedly and instead of proceeding to Pierrefonds took a short drive to the village of Beaumont, returning to the Chateau Compiègne at 5 o'clock.

In the meantime crowds assembled in the streets of Pierrefonds awaiting his expected arrival. The streets were gaily decorated by the local authorities. Expectation, however, was disappointed. The route was kept free from traffic by gendarmes but all to no purpose. The streets of Compiègne presented a most animated aspect all day long. In the afternoon an immense concourse gathered in the hope of witnessing the czar and carmine drive through a part of the town or the outer park. But the only satisfaction enjoyed was a pleasant surprise visit by the town from M. Loubet. His progress between the Chateau Compiègne and the town hall constituted a striking contrast upon the extraordinary precautions surrounding every step the czar has taken since he set foot on French soil. M. Loubet gave no inkling of his intention. The first thing known, not merely to the general public but to the police, was when the president, accompanied by M. Waldeck-Rousseau and General Dubois, chief of the military household, emerged from the gates of the chateau on foot. The road to the town had been cleared as well as possible.

The president, who had been in the hall with a view to the possibility of such a visit, even had to send out and gather in the members of the town council, who were quietly slipping articles of clothing into their pockets.

SCHLEY INQUIRY

The Taking of Testimony Has Begun.

IMPORTANT DECISION GIVEN Expressions of Opinion and Indirect Evidence Will Not Be Received, Thus Shortening the Inquiry.

Washington, Sept. 20.—The Schley court of inquiry convened today and before adjournment examined four witnesses. The most important incident of the day was the decision of the court withdrawing a question put by the court itself asking a witness to give his opinion concerning a point under controversy.
The witness was Rear Admiral Higginson, who participated in the Santiago campaign as captain of the battleship Massachusetts. This vessel at one time was part of the firing squad commanded by Commodore Schley, and the court asked him to state whether all possible measures were taken to capture or destroy the Spanish vessel Cristobal Colon, as it lay in San Carlos harbor from May 27 to June 1, 1898. Counsel for Admiral Schley objected to the question on the ground that a reply would involve an opinion and not a statement of facts. Judge Advocate Lemley admitted that the precedents were against questions of this character and the court withdrew this interrogatory.

His general admission that the decision will have the effect of materially shortening the term of the court as will be the court's manifest intention to cut out irrelevant questions and all hearsay testimony. In several cases the witnesses were admonished to relate only events coming within their own observation.
Admiral Dewey showed himself a prompt and methodical presiding officer. He passed a stringent high rule, and the designated hour and adjourned it just as promptly at 4 o'clock.

DEMOCRATS OF TELLER COUNTY

Cripple Creek Bureau Colorado Springs Gazette.

Sheriff J. T. Stewart, being turned down and Henry Robertson given the nomination for his office. Victor carried off the honors of the day by capturing the most important nomination.
The convention was called to order at the Grand Opera house at 1:30 o'clock this morning by Chairman James Doyle of Victor. The opera house was crowded with delegates and spectators. Nearly the full delegation was present. As is unusual in Democratic conventions the portrait of the patron saint of the party were missing. The portrait of William Jennings Bryan was noticeably absent. Upon motion, Mayor Nelson Franklin of Victor was made temporary chairman. There was no fight over this nomination as the two factions agreed to unite on Franklin. Chairman Franklin presided. Frank J. Hanks was made recording clerk and James Doyle and J. P. Foley assistants.

One of the features of the morning session was the appearance of John M. Glover as a delegate in the convention. Glover is an ex-congressman from Missouri and a "dead-in-the-wall Democrat." He was there to fight James T. Stewart who recently had him arrested for libel. The chair then appointed the following committees: Credentials, J. W. Grant, F. J. Hanks, John Curry, James Doyle and Frank Foster. Order of business, T. E. Doherty, W. W. Land, Mrs. Hedges, Mrs. Lee and Ed Gibbons. Resolutions, Henry H. Clark, H. Carpenter, Mrs. J. W. Upon motion the convention adjourned until 1 o'clock, at which time the credential committee reported the fight between the Stewart faction, and the anti-Stewart faction. The majority of four of this committee reported in favor of adopting the list of delegates as read. Frank J. Hanks, representing the minority, upon the adjournment of 10 in precinct 12, opposed to Stewart, be seated. By adopting the minority report, the anti-Stewart victory. LEADVILLE ANARCHIST GIVEN SEVERE LESSON

Special to the Gazette.
Leadville, Sept. 20.—Since the shooting of President McKinley Italian anarchists in the mines about Leadville have been making remarks derogatory to the martyred president and expressing their joy at the fact that he had been shot. One Italian with an unpronounceable name who worked at the Elk mine, about three miles out of town, has been particularly outspoken. He was asked on an armed mob of 200 men as he came out of the mine at 10 o'clock tonight. After considerable rough handling a rope was placed around his neck and pitconed begging for his life, he was dragged some distance toward town and given to the nearest tree. Some members of the mob favored administering a coat of tar and feathers but after some time it was decided to let the wretch go with the understanding that he would never show his face in this place again. When turned loose he was told to go as fast as his legs could carry him and his speed at departing was considerable accelerated by the members of the mob who opened fire on him with their revolvers. It is thought that he escaped in the darkness without serious injury. This treatment is expected to have a wholesome effect upon expressions of the same class who have been expressing like sentiments.

THE CABINET IN SESSION

President Roosevelt Has Taken Up His Regular Duties.

REPORTS FROM DEPARTMENT Secretary Long May Ask to Be Relieved of Public Burdens in Course of a Few Months.

Washington, Sept. 20.—After a suspension of three days as a mark of respect to the dead president the business of the government at Washington was resumed at 8 a. m. today. The train bearing President Roosevelt and the members of the cabinet arrived at the Pennsylvania station at 9:20 o'clock and 15 minutes later the president entered the White house, and going at once to the elevator, proceeded to the cabinet room, where President McKinley was wont to do the greater part of his work. When the new chief executive reached the White house he walked briskly to the big front door which swung wide open to receive him. He spoke pleasantly as he passed to the watchman and other employes of the mansion and reaching his office was joined almost immediately by Secretary Long, who did not go to Canton to take part in the funeral ceremonies. Soon afterward Senator Culom called to pay his respects, and following him came Senator Proctor, one of the president's close personal friends. Secretary Long informed the president as to the condition of affairs in his office and was asked as to the work of the Schley court of inquiry. With Senator Culom, President Roosevelt exchanged views on the situation. The assurance of the hearty support of the Illinois senator. With Senator Proctor there was a similar exchange of expressions of good will.

The president's former secretary, Mr. Loeb, Jr., will remain with him, probably as assistant secretary. Mr. Cortelyou, at the president's earnest request, will retain his position as his secretary.
At 11 o'clock all of the members of the cabinet had arrived at the White house and soon were seated around the familiar table. President Roosevelt occupied a seat at its head and in the chair occupied by his predecessor. The all seemed strange to these devoted advisers of the dead president to sit at the table without him at its head, and his gloom and solemnity which characterized the meeting was not unappreciated.

Members subsequently expressed themselves as having full confidence in Mr. Roosevelt's ability to give to a country a strong, able and conservative administration, and he will have their loyal support to the same degree as they gave it to the late president. About 1:30 o'clock, shortly after the president's cabinet meeting, President Roosevelt left the White house to go to the residence of his sister, the wife of Commander Cowles of the navy, for luncheon. Dismissing a carriage, he walked swiftly along. No one had known when he would leave his office and as he passed briskly out of the grounds of the executive mansion he attracted little attention, scarcely anybody recognizing him. His carriage crossed Pennsylvania avenue into Lafayette square and thence to Sixteenth street to his destination. In the course of an hour and a half he returned to the White house, still alone and still walking.

COLOMBIAN OFFICIALS CONFIDENT OF SETTLEMENT

Washington, Sept. 20.—Dr. Martinez Silva, the Colombian minister, called on the state department yesterday. He had a short talk with Secretary Hay in regard to affairs in South America.
It is understood to be the earnest hope of Colombia as well as the United States government to have the troubles between Colombia and her neighbors settled without the intervention of the United States to carry out her treaty guarantees regarding the isthmus. From the latest advices received at the Colombian legation the officials are confident that the disturbance in their country is fast dwindling away and will come to an end soon. No further alarm need be felt, they say, in regard to the condition of the isthmus. As to the war, it is asserted that the attempt to establish a Venezuelan republic in Rio Hacha having failed, there is no other point where a Venezuelan attack could prosper.
Colombian officials say that the failure of Rio Hacha expedition is the final blow to the hopes of the Venezuelan president, who, it is stated, hoped to gain a foothold on Colombian territory in Gioalira and give what was really a Venezuelan force the appearance of a Colombian army. The Venezuelan officials assert the Alexander Bixio arrived under a French flag. The Venezuelan officials showed no intention to molest her, but they were apparently anxious to attack the Colombians on the shore who were landed there from the Alexander Bixio. The Venezuelans say the Suquet placed herself between their gunboats and the Colombians during the landing.
It was generally supposed to be friendly to Colombia because of canal concessions and not especially friendly to Venezuela because of differences over certain French claims which resulted in the withdrawal of the French minister from Caracas in 1896.

FRANCE IS CHARGED WITH GIVING AID TO COLOMBIA

Caracas, Sept. 20, via Haytian cable.—It is alleged here on good authority that Venezuelan official circles are much perturbed at the news of the reported action of the French cruiser Suquet when the steamer Alexander Bixio landed Colombian troops at La Guayana. Information has been forwarded to Caracas from Venezuelan officials at Guadajira to the effect that the Suquet lying off La Guayana has been ordered to furnish the Venezuelans without flags, supposedly Venezuelans. In order to ascertain definitely she expelled the gunboats to show their flags which proved to be Venezuelan.
Later during the same day the Colombian General Pinzon arrived on the scene whereupon the Suquet according to the story of the Venezuelans, placed herself between the General Pinzon and the Venezuelan gunboats, thus preventing an exchange of shots. Shortly after this the General Pinzon steamed away.

All the members of the college will be there and the evening is over the new and the old students and the members of the faculty and some of the former students will all know each other pretty well. Refreshments will be served. It will be a strictly informal affair. Former students of the college who are in the city will be very welcome.

Colorado City Wants to Be Represented

A petition has been circulated by the faction of the Republican party opposed to the Epperson delegation, which will be presented to the temporary chairman of the El Paso Republican county convention this afternoon.

After giving a minute report of the primary of Tuesday evening, during which it alleges that the entire meeting was illegal, it gives a report of the meeting which was later in the evening held by Martin Drake's friends.

It further prays that the latter delegation be given proper credentials and admission to the floor with all the rights of delegates. It claims that such admission would be for the interests of the Republican party in the city and asks for no favors from the party except in so far as the delegation is an integral part of the convention.

It is said that over 300 names have been written on the petition and that some of the signers are members of the Epperson delegation.

SET HIS FOOT DOWN AND SPOILED WALK

Young Rowen, who made a bad mess of Dr. Winteritz' new cement walk on Colorado avenue, was not prosecuted because of his youth. He was badly scared, however, and will probably never repeat the experience.

The walk had to be torn up, as Young Rowen had walked in the soft cement, and had also written names in it.

NEW ATTORNEY IS HERE TO LOCATE

W. A. Edmondson, an attorney of Mexico, Mo., has decided to make his home in this city. He will be here on Tuesday and will at once begin the practice of his profession with Judge Dustin. The new firm will be known as Dustin & Edmondson.

Mr. Edmondson was in the city about a year ago and was so pleased with the place that he then decided to go home to dispose of his business interests and return here as soon as possible. Mr. Edmondson is to bring his family. He has purchased a house on Lincoln avenue which he will make his home.

JUSTICE DISTRICT CONVENTION

The meeting was called to nominate one justice of the peace and two constables. J. D. Faulkner was unanimously chosen for justice of the peace; Charles Bates was nominated for constable for a term of two years, and H. Storse as constable for one year.

New Hotel Project Will Wait Awhile

Capitalists who have been in correspondence with Alderman Daggett in regard to building a hotel here, capable of accommodating 800 guests, have decided to do nothing about the matter until the town makes some much needed improvements. There are vague rumors afloat that another company has been considering the same proposition but nothing definite is known about the matter.

Three of the men who were interested in the scheme were from Rochester, N. Y., and the other two were from Cincinnati. These gentlemen considered buying the square where the Barker house is situated, the Wheeler place, and a large tract of land which lies on the Cte Pass road. The latter one was considered for the reason that the company could then own its own soda springs.

Part of the hotel was to have been built so that it could have been kept open during the winter. It was expected by the promoters that the entire hotel could be easily filled during the tourist season.

After a careful investigation these gentlemen decided they would do nothing about the matter until the town makes a new sewer system. It was claimed that the present system of sewers is inadequate for the present needs of the town much less after such a hotel should be built.

Besides, the promoters would require a certain amount of local capital to be interested in the undertaking before a start would be made.

Manitou Minister to Take Long Journey

Yesterday morning Rev. W. E. Bonell, of St. Andrew's Episcopal church, started on a long journey during which he is to be held in Trinity church, which is to be held in Hawaii. He will sail for the Hawaiian islands where he will investigate the Chinese missions now under the control of his church.

On the return trip he will spend a few days in Los Angeles. Mrs. Bonell accompanies him on the trip.

MRS. NICHOLS HAD A BIRTHDAY DINNER

A birthday dinner party in honor of Mrs. E. E. Nichols, Jr., was given last evening in the dining room of the Cliff house by Mrs. Caldwell and Miss Nichols.

Covers were laid for 15. The table was very prettily decorated in autumn tints. Red was the most conspicuous color. Mountain laurel, with its bright red berries, red ribbons and red candles set in red candlesticks made the scene a most charming one. Those who were present were: Mr. and Mrs. E. E. Nichols, Jr., Mr. and Mrs. J. F. Burns, Mr. and Mrs. J. J. Tootle, Mr. and Mrs. J. Allen, Mr. and Mrs. R. D. Block, Mr. and Mrs. W. Wright, Mr. Austin, Mrs. Caldwell and Miss Nichols.

BURRO MET AN UNTIMELY END

An aged burro met his death yesterday morning by coming into too close contact with an electric car under the Midland trestle in Manitou.

The animal was grazing by the side of the track and started to cross just as car No. 9 of the High Line was coming down the hill. Motorman Tucker could not stop the car as he was then upon the animal.

The car was thrown off the track by the collision but fortunately it did not go over the embankment which is very high at this point. Had it done so, a much more serious accident would have resulted.

The owner of the burro was Jones, who runs the Manitou burro brigade.

AMUSEMENTS

OPERA HOUSE ATTRACTION TO-NIGHT

"The Night of the Fourth," the latest musical comedy, which will be seen at the Opera house this evening, is full of clean, bright and snappy humor of the latest vintage from the rise of the first to the fall of the last curtain, and it will serve to introduce again those funny fellows, Mathews and Bulger. Both have parts especially written for them and admirably suited to their peculiar talents. The play was originally produced in San Francisco last August and scored an instantaneous hit. J. Sherrie Mathews as "Keenan Swift," a red leeman, is especially happy. The part is admirably suited to the droll style that has made him so popular and affords him opportunities for effective work unobscured by any of his former roles. Harry Bulger could not be dull if he tried and the new piece is a real gem. He orders a wagon load of fireworks sent up by train. Arthur Strong, a tramp looking for work is employed to bring the fireworks from the hotel where they are stored. On the way he meets "Eli Frost," the retired leeman, who bribes him to board a big celebration on the night of the Fourth. Strong hides the fireworks in the cellar where the other fireworks are stored. Of course a tremendous explosion ensues and the hotel is set in flames. Numerous lawsuits result, all of which are put into the hands of "Keenan Swift." "Swift" tells his client "Frost" who is suing the proprietor for loss of nerves, to go to the explosion in the summer hotel that he must feign to be crazy in order to gain his suit. "Frost" is ordered to an asylum but on the way changes clothes with the sheriff who is easily persuaded to exchange his shabby suit for the expensive one of the sheriff who is confined in the asylum in his place. All sorts of funny complications ensue. The finale is the night of the Fourth when everything is straightened out. The four women who have sued "Frost" for breach of promise are compromised with and all ends happily.

LADY HUNTWORTH'S EXPERIMENT.

"Lady Huntworth's Experiment," which will be presented at the Opera house Monday evening, is credited with being the brightest comedy seen on the stage in this city. The results are clean play without any of the dullness so often attaching to wholesomeness and it is also original in treatment and excellent in its character drawing. It will be given by Daniel Frohman's stock company from New York. The organization formerly known as the Lyceum Theater company. This company was created and developed by Daniel Frohman and its tours have always been brilliantly successful. Miss Hilda Spong has risen to the rank of star by her superb acting of the title role. Gold in the Black Hills.

The Burlington route has recently issued a 16-page booklet bearing the title "Mines and Mining in the Black Hills." The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the north-west brings the Black Hills close to Denver and you can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

MR. ROOSEVELT'S CAREER.

AT THE beginning of Mr. Roosevelt's service as president of the United States, there are several circumstances which make him an extremely interesting figure for his fellow countrymen, and it is impossible to resist the temptation to speculate somewhat upon what the future may have in store for him. Mr. Roosevelt assumes the presidency at a younger age than anyone who has previously held that office. He will be 43 years old on the 27th day of October, and when his first term expires, in 1905, he will still be as young as the youngest of previous presidents.

Along the foothills. Not many Pueblo people are aware that there is something of an exciting excitement directly between here and Pike's Peak. A few years ago some active prospecting was done at the head of Turkey creek, and there exist even on the upper branch of Little Fountain, eight miles northwest of Fountain city, masses of the peculiar white matter which accompanies some of the best tripple Creek ores.

CANADA AND THE UNITED STATES.

THE GAZETTE has already alluded to the sympathetic action of the Canadian government and people on the question of the death and obsequies of President McKinley, and to the surprise and pleasure with which this demonstration of sympathy was received in the United States.

There is no doubt that there are very strong influences at work to bring about a better understanding and a greater identity of thought and feeling between the two peoples. One of the most important of these is the various societies and organizations which are international in their scope, and make no difference in their membership between Americans and Canadians.

Another very potent factor in making Americans and Canadians alike are the trades unions. The printers of Canada and those of the United States belong to the same guild. They are under the same officers, and are working for the same objects under conditions that are very similar.

Possibly the most important influence in bringing the people of these two countries together is the newspapers. Canada and the United States speak the same language, and to a very large extent read the same articles.

It is reported that Secretary John D. Long may resign in the near future. President Roosevelt will have a difficult task to find another man as good for the place of secretary of the navy.

No citizen of Colorado Springs begrudges money for more water, but it is an entirely reasonable demand to make sure that it is water we are getting before the money is spent.

DULLNESS IN LEASING High Royalties Are Believed to Be Responsible—Large Shipment From a Findley Lease—Numerous Other Shipments.

Special to the Gazette. Cripple Creek, Sept. 20.—Camp managers throughout the district complain of the dullness which is prevalent in leasing. The proposition is in a poorer condition than it has been for some time as regards outside territory, and the reason for this is generally accredited to the heavy royalties that are exacted by companies wishing to have their non-productive properties developed.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Sept. 20.—The mining stock market after one day's adjustment with stocks in excellent demand, and the final reckoning of the day's business showed a very active market. Prices in the most active instances were higher than they were yesterday. The trading in gold was sustained during the day, the close being very firm in the majority of instances. The trading in silver was confined to the stocks listed in the mines department, for while the prospects are traded in to a slight degree, there is by no means the amount of interest taken in individual prospect stocks that there is in the mines. The feature of the day was the great strength exhibited by El Paso, which under good buying, advanced to 58 1/2, at which price it closed strong. The gain is thought
