Rome, May 24.—There was a magnificent spectacle in St. Peter's today on the occasion of the canonization of Jean Baptiste de La Salle, the founder of the order of the Christian brothers, and Rita di Cascia, a nun of the Augustinian order. The interior of the vast basilica was illuminated and adorned with magnificent hangings and the building TURKISH MINISTER CALLS Washington, May 24.-All Ferrouh Bey silica was illuminated and adorned with magnificent hangings and the building was filled with a great concourse of people, including all the pontifical dignitaries, diplomats, and the Roman nobility. Of the 80,000 spectators 30,000 were foreign pilgrims. Italian troops kept order in the square in front of St. Peter's while the pontifical body guard was stationed within the cathedral.

Pope Leo, attired in his state robes,

teen minutes in conference with Secre-tary Hay. His call was said to be the usual routine of diplomatic day, and it is gathered that the minister was in quest of information as to the tenor of Charge Griscom's note, presented by him yes-

Pope Leo, attired in his state robes, was borne on the sedia gestatoria at the head of an imposing procession composed of the entire papal court, 300 patriarchs, archbishops, bishops and four cardinals. A roar of cheering rose

of ascertaining the resources of eastern shipbuilding concerns, going to Cramp's and then to Newport News.

It is said at the navy department that the projected visit of the United States steamship Albany to the Mediterranean has no diplomatic significance whatever. So far, at least, no orders have been forwarded to Cantain Craig her compared to Cantain Craig her When the cortego reached the choir the pope alighted from the sedia gesta-toria, took his seat on the pontifical So far, at least, no orders have been forwarded to Captain Craig, her comclesiastics massed around him. The solemn ceremony of canonization was solemn ceremony of canonization was then proceeded with.

The pontiff, after the usual prayers, pronounced the canonization and intertoned the Te Deum. At that moment the bells in all the churches in Rome rang out and the pope solemnly blessed the congregation and returned to the Vatican amid prolonged cheers of the very large audience assembled, which left the cathedral and dispersed.

Two unpleasant incidents occurred. An Italian pilgrim suffered from a slight stroke of apoplexy at the entrance of the cathedal and subsequently died in a hospital, and a portion of a glass chandeller, inside the basilica, fell, slightly injuring a French woman. mander, to take the ship into any Turkish port, though it is said that under his general authorization to cruise in the Mediterranean, he is at liberty to touch at Smyrna, Alexandria, or any other Turkish Mediterranean port if he sees

QUEEN'S BIRTHDAY.

London, May 24.—10:15 p. m.—Under the stimulus of the relief of Mafeking and Lord Roberts' rapid and success-ful progress, the queen's birthday has been celebrated throughout the empire ith unique and almost unprecedented

ejoicing. The two-fold nature of the celebration gave the occasion unusual bril-liancy. The recent demonstrations only whetted the public appetite for dis-plays of patriotic feeling and conse-quently today was chosen for all kinds of functions in connection with the war and its funds. and its funds.

In London and in the provincial owns there was a tri-color eruption. Every private house was decorated with miniature union jacks and a pic-uresque carnival procession a mile ong of cars emblematic of the war, paraded the northern suburbs of London. Torchlight processions and re-views in the garrison towns, etc., were witnessed throughout the country.
The school children had a holiday
and at most places there was a partial

NEWS TOPICS FROM VICTOR

Victor's Reception to the Delegates to Recent Convention.

PARTY WELL ENTERTAINED

Visitors were Very Much Surprised and Greatly Pleased with What They Saw of the District.

Victor, May 24 .- The delegates of the Western Federation of Miners and Western Labor Union who arrived here from Denver this morning were given a hearty reception. The reception committee was not alone in meeting the visitors for there were several thousand union men and their friends on hand to assist in doing the honors. The largest mines in the vicinity had given heir employes the privilege of taking their employes the privilege of taking the day off and many took advantage of the offer, which swelled the crowd to much greater dimensions than it otherwise would have been.

The train was two hours late, arriving at 10 instead of 8 o'clock, and the guests were well prepared to appreciate the repast that the reception coimittee had ordered prepared at the reception.

mittee had ordered prepared at the reactaurants. After breakfast no time was lost in carrying out the remainder of the day's programme. A special train of four coaches was waiting on the Golden Circle road, which wound around the famous Bull hill until Altman was reached and here in the high. man was reached, and here in the high-est incorporated town in the world in the spacious hall of Iree Coinage union

est incorporated town in the world in the spacious hall of Iree Coinage union No. 9, a spread was prepared of substantial luncheon and clgars.

W. B. Easterly, president of Free Coinage Miners' union No. 19, in a well delivered speech, welcomed the visitors. Ed Boyce, president of the Western Federation of Miners, of Butte, Mont., responded on behalf of the delegates. Other speeches were made by ex-Mayor James Doyle, Chris Foley of Rossland, B. C.; A. F. McCormick of California, Charles Cress of Joplin, Mo.; John F. McDonald of Butte, Mont.; Vice President of the Western Federation Miners and Dan McDonald, president of the Western Labor Union. The speeches delivered by these gentlemen, who are among the leaders of organized labor in the west, did credit to the cause and in this, one of the most thoroughly organized towns of the nation, were especially bright. ially bright.

Among the delegates are men from mining camps of all the mining states from the west, including one from Lethbridge, N. W. T., and three from Rossland, B. C. PRICE, M'CORMICK & CO.

Large Brokerage House Failed With Liabilities Estimated at \$13,000,000.

with George Crocker of San Francisco, a special partner on an investment of \$500,000. Mr. McCormick is of the well-known Chicago family of agricultural implement fame, and Mr. Stewart-Wortley is a son-in-law of Rear Admiral Schley. The firm was organized January 2, 1897. Of the partners, Mr. Crocker is now in Europe and Mr. Stewart-Wortley is on his way back from Europe.

from Europe.

Early in the day rumors were current that a prominent firm was in trouble and shortly before the official announcement of the suspension it was generally understood that Frice McCormick & Co. was the house referred to. Prior to the formal announcement the cotton market had broken over 20 points under termination. rific selling for both accounts from all directions. The firm has long been re-garded as the leading supporter of the market, and at one time it was said they were going to put August cotton up to 10 cents.

New York, May 24.—Price, McCormick & Co., one of the largest brokerage houses in the city, failed today with liabilities estimated at \$13,000,000. The firm is a member of the stock, cotton and produce exchanges of this city and of the Chicago stock exchange, and has branch offices in about thirty cities throughout the country. The failure is ascribed to the fact that the firm was long on cotton in the face of a fast falling market.

A notice on the doors of the offices of the company referred all inquiries to William J. Curtis and W. M. Cromwell, assignees. Mr. Cromwell said it was impossible to make any statement at While the firm was also a member of

william J. Curtis and the said it was impossible to make any statement at this hour concerning the condition of the firm. The total liabilities he said are about \$13,000,000, nearly all of which are secured.

The firm is composed of Theodore H. Price, William G. McCormick, R. C. M. Stewart-Wortley and Walter W. Price, with George Crocker of San Francisco, a special partner on an investment of \$500,000. Mr. McCormick is of the well-known Chicago family of agricultural 2 to 2½ on balance of the list.

While the firm was also a member of the produce exchange the effect of the failure there was almost wholly sentimental. According to the rule of the railure was followed by the closing out of the suspended firm's outstanding contracts on the floor. Up to the close of the exchange the dealing for the failure was followed by the closing out of the suspended firm's account footed up 33,950 shares.

Assignee William J. Curtis and William Nelson Cromwell make the followed by the closing out of the suspended firm's outstanding contracts on the floor. lowing announcement regarding the failure:

"Price, McCormick & Co. have been compelled to temporarily suspend pay ment. We ask and advise that credit ors holding stocks, bonds and other col lateral to loans and already well mar-gined hold the loans until reasonable opportunity be afforded the assignees

opportunity be afforded the assignees to deal with the same that unnecessary loss thereby may be avoided."

Price, McCormick & Co, had an extensive wire service and at times were credited with doing fully as large a business as any firm on the exchange. The representatives of the firm on the avoluge were Mr. Stewart-Wortley. exchange were Mr. Stewart-Wortley, W. G. McCormick and George Crocker,

the special partner.

Most of the business of the firm was in the cotton exchange at first and its senior member and Mr. Gardner were The decline of the past month, however, was against them, and despite their efforts they could not hold the & Co.

EFFECT OF THE PASSAGE OF GERMAN MEAT BILL

ferman meat bill by the bundesrath, which now seems assured, since it has passed the reichstag, is viewed differently by the Chicago packers. Most of the packers have little hope of any action favoring American meat until Germany has tried the law for some

"Prices will advance as soon as the aw goes into effect," said one packer. 'The stopping of imports can cause nothing but an advance for Germany cannot supply its home markets. The poorer classes, of course, will be unable to pay the increased figure. The rich man will care nothing about the prices. He will be able to pay them. When the German people understand what the bill has done, there will be a new one, but political conditions are such that at present there is no hope of the getting anything.

part I believe that the thing will settle itself, it being so absurd a one that its operation will convince the German people of their mistake in cutting off their meat supply to please a few agri-cultural districts." Norris Eppstein of the German-

Chicago, May 24.—The passage of the | mitted to enter the German market. I know the laboring people of Germany want our products. I hope to see the bill killed by the bundesrath."

Edward Tilden of Libby, McNeill & o., said: "Unless the bundesrath fails approve the bill, the American pack-will have to find another market for 0,000,000 pounds of sausage and canned meats. It will be a severe loss to many packers."

packers."

Robert Mair, of the Thomas J. Lipton company, said: "The bill is a severe blow to the Chicago packers.

"Germany has been a good customer of ours in the way of lard and canned meats but has recently been a small buyer of hams and side meats," said Michael Cudahy, "In fact, England is and has been our best customer, and her trade is worth more to the United States in the meat trade than all the world besides. Our trade with both Germany and France has been light for some time except in lar and canned stuff. It looks much as though the agrarians had determined to prohibit our meats and that they have developed considerable strength."

"No, I don't consider it a serious blow

"No. I don't consider it a serious blow to American packing interests," said C. M. Favorite, of Armour & Co., in discussing the action of the reichstag. "While it is true that quite a little "The passage of this bill is an out-rage against the American packer. American goods are absolutely pure and wholesome, and should be per-kets in this country."

OLD EXCHANGE WON AT FINISH

The Brokers' Ball Game an Unqualified Success-Score 35 to 34 and the Outcome Every Moment Was in Doubt.

got ready to throw the ball yesterday to Stovell in the opening of the second half of the first inning of the only ball game of the year. He threw the ball and it was a ball. Then he threw three more like it. That made Stovey get to first and in the due course of events he crossed second, third

FALSE ISSUE DENOUNCED

Vigorous Speech by Mr. Spooner on the Philippine Question.

FRUIT OF ANTI-IMPERIALISM

Forced and Wicked Issue Has Caused Loss of Valuable Lives and Millions of Money.

Washington, May 24.—The duty of the it is today. The senator's officer friend would receive full protection. General otis signs his statements. I have not United States toward its "island possessions" was the subject of heated discussion in the senate today. Soon after the senate convened Mr. Bacon of Geor- eral to malign him. gia began an extended reply to the speech of Mr. Platt, delivered yesterday. His speech was largety supple-mental to that which he delivered sev-eral days ago, demanding an investiga-tion of Cuban financial affairs. His resolution, to which there is little or no opposition, under the rules went to the committee on contingent expenses.

The resolution as to the Montana sen-atorial case was postponed until Wed-nesday, the 30th inst.

nesday, the 30th inst.

Mr. Spooner then resumed his speech on the Philippines question.

In discussing the responsibility for the continuation of hostilities, Mr. Spooner quoted a dispatch from General Otis gilving an account of an interview he had with Judge Torres, one of the Filipino commissioners, who suggested that a neutral zone be established between the hostile armies.

tween the hostile armies.
"I received in the noon mail," said
Mr. Spooner, "an interesting letter from
a member of the anti-imperialists of
Boston, in which he denounced General Otis as a liar.' At this point Mr. Allen interrupted to say that an army officer—a friend of his—had informed him that the state-

ment of the interview with Judge Tor-res was not true, that General Otis had misrepresented it. "An officer who charges falsehood against his commanding officer," retorted Mr. Spooner, "ought to make it in

the open."

"If he should make the charge in the open," said Mr. Allen," his position would be imperiled."

"Well," replied Mr. Spooner, "if he told the truth a court martial would take care of his case and that of the commanding general too. He would not imperil his office in the army of any decent government in the world."

cent government in the world."
"The way the army is run today," asserted M. Allen, "It is certain that no officer would thus imperil his position.
"There never was a time in all the il

much respect for a man who goes be-hind the back of his commanding gen-

Geral to mains him.

Mr. Allen—"The statement made by General Otis is not the truth."

"We have had here," said Mr. Spooner, "a statement that the president of the United States is a liar; that Admiral Dewey is a llar, and now we are

old that General Otis is a prevarica-"I'll simply say that General Otis is mistaken," said Mr. Allen.

M. Spooner expressed the belief that the people, would believe General Otis' word against the word of any unnamed and unknown person.

A few moments later Mr. Spooner said.

A few moments later Mr. Spooner said that the last words of the chivalrous Lawton were "that the men over here, so-called anti-imperialists, were proonging and inciting the Philippine re-"I wish to God," said General Law-

ton, "the whole truth of this Filipino situation could be known as I know it. If I am shot by a Filipino bullet it might as well be by one of my own men."
Mr. Pettigrew (Pop., S. D.), inter-rupted to declare that there was no foundation for that statement, that it had been denied.

"This is an extract from a letter written by Lawton to John Barrett," said Senator Spooner. "It is authentic. I have not the original but I can and will produce if.

Continuing his argument, Mr. Spooner said there had been an atternation to make an issue of "impersatement to make an issue of "impersatement to make an issue of "impersatement to make an issue of "impersatement".

Spooner said there had been an attempt to make an issue of "imperialism" where none actually existed. It was done merely for political effect and to obscure the political issues of 1896. The issue had been employed by Mr. Bryan and was being exploited by every branch of the opposition to the Republican party.

Mr. Teller interposed to say that the issue had not been raised by Mr. Bryan but by men in the senate chamber who opposed the ratification of the treaty of peace. It was unfair, betought, for any man to take the position that Air, Bryan was the author of the doctrine Tanti-imper-

ing the day's festivities with a big ball at the opera house. The cele-bration was the most enjoyable ever

NEWS ITEMS FROM DENVER

The Funeral Services of the Late Senator Hill.

GOVERNOR THOMAS RETICENT

Declines to Discuss Report of Penitentiary Commission - Harrison Given Three Months' Sentence.

Special to the Gazette. Denver, May 24.-The funeral services of the late Senator Hill took place today at 2 o'clock from the residence, Fourteenth and Welton streets. The services were private in accordance with the earnestly expressed wish of Senator Hill, and were conducted according to the rites of the Episcopal church. Services were conducted by the Very Rev. H. Martyn Hart, dean of St. John's cathedral, assisted by Dr. David N. Beach of the First Congregational church. The honorary pall bearers were Messrs. C. B. Kountz, J. A. Thatcher, Richard Pearce, H. Williams of Butte, Mont.: Henry Hannington, William Stapleton, K. G. Cooper and S.

F. Rathvon.

The pall bearers were old friends and employes of Senator Hill, who have been connected with the Argo Smelting works for the past 27 years or more and were as follows: Josiah Burgess, Thomas Thomas, William Beynon, Andrew Soderstrom, Dennis Hartford and William Hutchinson. The Interment was at Fairmount genetery. . Rathvon.

was at Fairmount cemetery.
Governor Thomas is still reticent as
to the report of the penitentiary committee. "I do not care to discuss the report until I have conferred with Warden Hoyt," said he. It is evident that the public will know nothing of the matter until the chief executive is ready to talk. There is no doubt but that the warden was criticised by the commissioners, but whether his removal was recommended is still a se-

Parkinton, J. B. Foley and E. Mr. Drury came to the district and took B. Hickey of Cripple Creek are at the charge of the mine about a week ago. fine him to the hospital for some tinge. This is especially unfortunate, as he re-cently left the hospital, having been there for a long time with a bad case of pneumonia. While driving down Third street his team became frightened and ran away. He jumped from the rig,

his right foot turning on a stone, break-ing two of the bones of the foot. He is of the firm of Smith Bros., located on South Second street.
Officer Carroll Ribbings, in charge of eater importance than the report on The runaway took a course down Third street and through the alley in the rear of Glauber's store, the officer after him out the states.

The report will not be unanimous, however, as a number of the southern members of the commission are more conservative in their views on this question. As a result there will be several minority reports. would have made his escape. As it is report also will contain a digest he was captured and will be confined to the dungeon in the jail for several days.

C. B. Hengen et al. began an adverse suit in the district court against the King G. M. company. The complaint states grantors of that plaintiff located the Little Mack lode mining claim in 1896, that the defendants located th Charles Thomas February 1st of this year and entered upon the Little Mack property. The ground in conflict is asked for; also damages of \$10,000 and \$150 expended in the adverse claim. The Hammond Packing company of

commenced suit in the distric ourt today against John Larson et a Victor to recover the sum of \$844.6 on an open account for goods furnished A divorce was granted today by Judge Stimson to H. C. Bralley from Minnie M. Bralley on the ground of desertion.

In the county court Thomas J. O'Neal began divorce proceedings against Ida O'Neal. They were married in Denver May 10, 1893, and the plaintiff alleged that Mrs. O'Neal is employed in a dance hall in Silverton, Colo., under the name of Gertie Lewis. He asks for the cusody of their only child, Gladys. In the divorce suit of Sarah Patterson against C. C. Patterson the jury re

urned a verdict in favor of the plain-iff, who received her decree. Judgment of \$488.81 was rendered by default in the county court in the case of W. J. Lightfoot against the Independent G. M. & T. Co

Judgment by default was entered in the case of J. R. Witcher vs. W. Barlow, the amount being \$137.73. In the case of Geo. Peat vs. F. J. crane the jury returned a verdict in fa-

yor of the plaintiff, giving judgment of \$163.35. The following couples secured mar-riage licenses in the county clerk's office today:

Golden Medical Discovery."

It may pay a dealer better to sell you a abstitute which is less popular but more rofitable than the "Discovery." It ron't pay you to buy it, if you want a eliable remedy.

CHICAGO GRAIN. Chicago, May 24.—Rather bearish one of the Price Current weekly crop summary being taken in the wheat pit n lieu of other news had a slightly earish effect at the opening. Liver-ool and Paris were both celebrating and the absence of quotations had a juieting effect on the grain trade here. Soon after the opening old items made heir usual appearance and were ab bsorbed to such extent the market callied slightly. It was impressed upon the speculations that the northwest needed rain badly. Illinois, Kansas, Ohio and other states continued to complain of fly and one Kansas man sent in a sample of badly yellowed wheat to show what the rains had done in his state. Under these conditions uly advanced to 67½ 2%. Profit takng and the failure of a prominent Ne York cotton firm sent July back to 67. The close was firm.

Corn was fairly active at the beginning but broke and the close

Oats were dull and easy. Provisions were dull.

Chicago Cattle.

Chicago, May 24.—Cattle—Receipted, 1,000. This Company, Formerly Owning a Lease on the Portland's Wisconsin, Will Pay \$3,875 on May 31.

off sharply on large dealings. This was explained soon after noon by the announcement of the suspension of Price, McCormick & Co. According to the rule of the exchange the suspension was followed by the closing out of courseanding contracts of the suspended The total amount of May dividends to the expiration of the lease on April will be swelled by one just declared by the Lake City Leasing company, which operated for sixteen months on the outstanding contracts of the suspended firm on the floor of the exchange. The rest of the day was practically devoted to this selling and buying under the rule, other operations being almost entirely given over. The close, while almost stagnest showed the release. Wisconsin claim of the Portland Gold ing to 50,000 shares, and comes to \$3,-875. Now that the company has ceased work on the Wisconsin and all its affairs have been wound up, the stockholders will receive what is understood to be most of the assets in the form of the dividend. The corporate existence the dividend. The corporate existence of the company will be maintained for a while, and possibly sold, eventually.

The steel stocks were depressed by the rather discouraging view expressed by the Iron Age of prospects in the trade, that authority advising a sharp curtailment of production. Rumors circulated during the day that the Illinois Steel company's plant at Jollet, Ills., was to be closed down. The prospect thus offered of possible reduction. While, and possibly sold, eventually. When the Portland company originally leased the Wisconsin, it was to the Morse Gold Mining.company, the papers Edwir Signed in Saptember, 1898, and in March, 1899, it was transferred to the Lake City company, who worked it up

21 last. The lease is understood to have been a very profitable one, not only for the lessees, but for the Portland com-pany, as the latter received 15 and 20 per cent graded royalties, and the for-Mining company. The dividend is at the rate of 7% cents a share on the total capitalization of the company, amounting to 50,000 shares, and comes to \$3,- land's most important claims, and it is understood that it will be worked henceforth from the Burns shaft, and that the decision of the company to develop it in this way was the only reason why the Lake City company did not secure a renewal. The shaft at this claim is 150 feet, and a great deal of ore is left standing which will recover but little work on the part of the Partland.

COG TRAINS WILL REACH SUMMIT TODAY

expects to have the tracks cleared of snow to the summit of the Peak to-X rays. If a finger was brought near the glass walls of the cylinder a stream of light apparently emanated from a point trains to the Peak but the road has trains to the Peak but the road has run as far as Minnehaha and it announced soon afterwards that a train would be run to the summit. A day or two before, however, occurred the heavy snow which did so much damage and the road has been covered

The work of clearing the track has been pursued with the greatest dili-gence. The snow is fifteen or twen-ty feet deep along the road near the summit and the work of clearing the track has required great skill and management. A snow plow is used in front of a flat car. The plow cuts into the lower part of the bank and allows the flat car to pass beneath the snow. The snow is loaded in this manner onto the car and carried to a place where it can be dumped. Remarkable progress has been made during the past few days and it is expected that the last piece of track will be cleared today. As soon as this is accomplished one train will be sent to the summit each day until the

Fitz-Mac has written a characteristic sketch of Senator Wolcott, embodying a philosophical Fitz-Macian review of politics and political conditions. It will appear in Sunday's Gazette and will be of interest to people of all parties.

WHAT WOMAN SUFFRAGE CAN ACCOMPLISH

W HILE pessimists in the east and bigots at home are decrying the effects of woman suffrage, it is gratifying to know that the most conservative nation in the world is taking legislative steps to reap the great moral and governmental benefits flowing from an active participation in public affairs by the wives, mothers and daughters of that country.

On Wednesday the house of commons of Great Britain by a vote of 248 to 129 passed on second reading the bill to enable women to be elected aldermen and councilors in the new Borough Councils recently provided for the City of London.

The vote would indicate that the bill is certain to become a law.

This is a long step forward in the government of the city of London and sets an example which American cities might very profitably emulate.

We have no patience with the critics or covert backcappers of woman's suffrage in Colorado, It is here to stay, as our state never goes backward, and the people should set to work to get all possible

good out of it. The weakest part of American government is in the

cities and towns. Wherever they are large enough to carry on great public enterprises they are blighted with the scandal of open and brazen corruption and a government of private greed,

for private gain, by private interests. This is the one field above all others where the influence and votes of women should count for the most good, There is no state in the Union containing a large and

growing city in which the whole system of state government is not hampered and burdened by the curse of the corruption of such city, and in which the political atmosphere is not thoroughly saturated with the fumes of political rottenness arising from this government of greed, bribery and pollution.

Colorado need not go beyond its own borders for a striking example.

For 10 years it has been imposssible to get badly needed state legislation on account of the powerful and destructive influences of the corporation cormorants ruling the city of Denver and holding it by the throat as a helpless victim to their mercenary plans.

Two-thirds of every session of every legislature is consumed with Denver affairs; in attempts to give the people home rule; in trying to curb and control the rapaciousness of the owners of public utilities; in various other methods of relief for the inhabitants of that city from the oppressions of its private rulers.

And these influences and their money go into every state convention of every political party and nearly always dictate the nominees.

They create warring factions in all political parties. A few years ago when the Republicans were dominant they divided them into hostile camps, but the corporations had their way in the end.

Day before yesterday the same influences split the Democratic party in twain. That party is supposed to be the dominant one in the

And every state has just the same kind of troubles. of affairs lies in municipal ownership of all public utili-

But until that is brought about in Colorado the women can be a powerful factor in giving us decent, clean, wholesome and honest municipal governments.

Let them center their efforts to reforming the governments of the cities and towns.

That accomplished, they will of necessity have reformed the governments of counties and state. The English parliament begins at the very founda-

tion of good government when it provides for women in city councils. The women of Colorado can make suffrage potent for good at home and respected and adopted abroad if they will

unitedly take hold of these municipal problems and demand that they be given a large representation in the various city councils of the state. This is a most fruitful field, and one which is ripe to

respond to vigorous effort.

COLORADO NEWSPAPERS.

THERE is nothing more strongly significant of Republican success in the coming state election, than the changed attitude of the newspapers of the state.

Four years ago, it is said, there were only six papers in the state supporting the Republican party, and the Gazette was the only one of these published daily and of general circulation and influence.

Today there are over a hundred daily and weekly newspapers in Colorado which are loyal to the Republican party and will support its principles in the coming campaign. These constitute an actual numerical majority of the papers of the state. It is a significant fact that the country weeklies of good standing show the greatest Republican preponderance.

It is inconceivable that this remarkable change in newspaper sentiment could have been effected without a corresponding change in public feeling.

It is equally impossible that these papers should continue from now until election day, presenting to their readers indisputable facts and unanswerable arguments in behalf of the cause of expansion and prosperity without having a most notable influence upon the result of the

In this connection there is another word to be said, and that is this: No newspapers were ever more free from mercenary influences than are those of Colorado at the present time. Not one cent has been expended by anyone in order to bring about this change in their political position, and the striking showing that has been made is undoubtedly the result of an honest change of sentiment, brought about by a change of conditions that cannot be denied or overlooked.

INTERNATIONAL MINING CONGRESS.

THE third annual session of the International Mining congress will be held at Milwaukee on Tuesday,

The session will be of interest to every mining industry of the state and Colorado should have a large and a strong

An effort will be made to get the next meeting at Colorado Springs and this city should make a special effort to send a large delegation.

Hon. B. F. Montgomery of Cripple Creek is the president of the congress, and he is warmly championing the cause of Colorado Springs as the next meeting place and his efforts will be successful if backed by the influence of a delegation of representative men from this state.

The Mining Congress is each year of untold benefit to Colorado and to have mining men from all over the world meet in Colorado Springs will be of immense value to this city and to the mining industry of the state,

PROSPERITY AND THE RAILROADS.

THE first effect upon railroads of returning prosperity was a very marked increase in the gross earnings and a change in many from a net loss to a net profit. Following this came an enormous increase in equipment, a large increase in force and the bettering of every department by repairs and new material. The third stage and the one that speaks most strongly for the continuance of the present favorable conditions is the construction of new lines of road.

What the gain of gross earnings has been may be inferred from a comparison of the gross earnings for the first three months of 1900 as compared with those of 1899. For 108 of the principal systems there were in 1899 \$118,-

812,259, and for 1900 \$153,843,998, an increase of \$35,031,739. The extensions and additional equipments for 1900 involve an expenditure of not less than \$50,000,000, which will be used in ways that will directly promote production and the creation of wealth in this country. It is interesting also to bear in mind that the modern system of railway management precludes the waste of immense sums proposition." in parallel lines and unnecessarily extravagant management, so that these millions will probably be spent to much better advantage than other sums of like amount have been used in the past.

The greatest demand for new railways and the best opportunities for their construction naturally come from the newer states and the most enterprising ones. It is for this reason that the statistics of railway building often serve not only as a measure of the general prosperity but also afford a means of comparing the progress being made in different sections. No state can make a worse mistake than in adopting a course of indiscriminate hostility to the transportation companies. It not only deprives it of the investment of capital that is vitally essential to its development, but it reacts in a hundred different ways to prevent desirable enterprise and to shut out, much needed immigration. The best railway managers do not object to reasonable regulation by the state, but the policy which is fair and reasonable to both sides, which protects the interests of the public while giving capital a fair show s the one which in every case brings the best results.

There is no state in the Union that can offer better pportunities for railway investment than Colorado can. and if there is any ground for criticism of our laws it is certainly not on the side of too much harshness towards he corporations.

A large part of that \$50,000,000 ought to be spent in

CANADIAN CONTRACT LABORERS.

C OMMISSIONER POWDERLY of the immigration bureau of the treasury department emphatically denies the statement that contract laborers are being brought into this country to take the place of western strikers.

It has been widely published, and the statement is said to be made on the authority of President Edward Boyce of the Western Federation of Miners, that there was collusion between the governments of the United States and of Canada to permit a violation of the immigration laws.

"Any suggestion of such an agreement between the officials of the two countries is impossible," says Mr. Powderly, "because we could not, without laying ourselves open to the charge of malfeasance in office, have any understanding with anyone to violate our laws.

"I have heard it suggested, as Mr. Boyce is quoted as stating, that there is an arrangement between us and Canada under which alien contract laborers are permitted to pass the border to relieve the depression caused by strikes, especially those inaugurated by the miners. Such a thing especially those inaugurated by the miners. Such a thing is preposterous. The truth is that our inspectors along the Canadian line are spurred to renewed diligence by instruc-Canadian line are spurred to renewed diligence by instruc-tions issued from this office, and the laws are more strictly enforced today and have been during the recent labor troubles than ever before. I challenge anyone to show that the strict letter of the law has been violated. We are keeping a close watch to prevent contract laborers coming over from Canada, but on the other hand we are power-less to prevent laborers going from this side into Canada. If the officials of the Ottawa government are not enforcing their laws we are not responsible.

"I may add in this connection that Secretary Gage some

"I may add in this connection that Secretary Gage some time ago received a proposition from the Canadian government concerning certain modifications in the immigration laws which would tend to create the condition which it is laws which would tend to create the condition which it is asserted now exists, but the secretary replied that he could not act without authority from congress, and that no change in our policy could be made unless the laws were amended. It is no secret that the Canadian members of the joint high commission suggested changes in the immigration laws, their object being to create a condition that would be more advantageous to the working people of Canada, but the advances were not seriously considered. The laws on the subject are plain and can only be suspended or modified by act of congress."

THE PASSION PLAY AT OBERAMMERGAU.

T has become the custom to mark the closing year of each decade with two events of international importance. One is the great international exposition at Paris, the other the Passion Play at Oberammergau.

Much has been said and written about the reproduction in dramatic form of the principal events in the life of Jesus Christ at this little village in the German mountains, but the general opinion of the observers has been that the performance was singularly free from objectionable features, and that nowhere else in the world could the same thing be done with similar results

Reports from the Passion Play this year are favorable and it is believed that the tourists who visit Oberammer gau this year will see the famous show under exceptionally favorable circumstances.

THE ETHICS OF SUICIDE.

C OUNT TOLSTOI has furnished an enterprising New York newspaper with his views of "the ethics of sui-

He believes that it is neither sensible nor moral. But the view of the Russian will have no great influence upon the unhappy ones who have determined upon putting an end to their existence.

It has been the common opinion of mankind for long, long time that suicide is neither sensible nor moral, but the man about to kill himself cares very little for ethical principles.

If the count desires to express himself on the question, "Is Suicide Always an Evidence of Insanity?" then there will be a chance for an argument.

There are only 107 national banks in the United States whose deposits exceed \$5,000,000. These are located in 24 different cities and 34 of them are in New York city. The First National of Colorado Springs lacks only a few hundred thousand of the amount necessary to place it on the list, and will undoubtedly be there in the near future.

Pennsylvania by private subscription have proven to be so successful that the state has established a free library commission to take charge of them. Colorado's state finances will have to be established on an entirely different basis before we have anything of the kind here. A Berlin paper declares that the American tariff policy

The traveling libraries which have been maintained in

in Puerto Rico is "brutally unfair" towards Europe. The same thing has been said about much American tariff legislation, the Wilson bill always excepted. But the decisive question here is, is it fair to the United States? The best selling book of the past year was not "David

Harum," nor "To Have and to Hold." It was the Bible and the number of copies put out by the American Bible society alone was 1,406,801.

A few days ago the Denver News was printing column editorials on "Why Republicans Should be Democrats?" Now it has changed its text to, "Why Democrats Should be Democrats."

The Turkish government has forbidden the importation of all electrical apparatus. Now if it will prohibit lightning, the faithful will be able to take things easy for a while longer.

The magnificent increase in our national exports is a conclusive refutation of Democratic free trade theories and an unmistakable evidence of the advantages of expansion.

A belief that there are lucky days is strengthened by remembering that it has not rained in Chicago on the 25th of April for 25 years.

SHOOTING STARS.

(Washington Star.) Another Name.

"You still call your town the Quaker ity, said the visitor. "Yes," answered the Philadelphian.
"But if these political shocks keep on jarring the town I shouldn't be surprised if we were to christen it 'the earthquaker city.'"

Inequality. The orator oft charms the crowd; His talking—men adore it. The auctioneer talks just as loud And gets no notice for it.

Sometimes Desirable.

"I have made up my mind never to end money," said the young man who s learning politics. " said Senator Sorghum, want to think it over again. Sometimes it comes in very handy when you want a man's influence to offer a loan instead of insulting him with a cash

A Geometric Mystery. "Charley, dear," said young Mrs. Tor-kins, "do you remember when I did my best to explain to you what was meant by the phrase 'cut bias'?"

Well, I wish you would reciprocate. I read all about the prize fight, so that I could converse intelligently with you. And I would like to know how they explain the fact that there were 23 ounds, all perfectly square.'

A Reminiscence. The sun hotly blazed on the long, dusty

There came through the foliage dense perfume-it banished the frowning so Of lilacs over the fence.

The wayfarer paused, and there came to his mind The old-fashioned place of his birth; llumed by a face that was gentle and The gentlest and kindest on earth;

The big, rambling garden, the nook where a boy Dreamed on of a future immense; Where the sunbeams would linger in laziest joy, And the lilacs hung over the fence.

Again to the journey. Again to the strife. And yet, mid the toil of the day, A faint, subtle odor, with memories rife. Full oft through the air seemed to

The smile had a meaning which no on could learn,
That lightened his features so tense,
As the perfume in fancy would sweetly

Of lilacs from over the fence.

The Future of the Boer States. (Washington Star.) The questions as to the Boer campaign are gradually changing in na-cure. Whereas a few months ago the fears of the British had even grown to the point of doubting the ultimate victory, once so readily forecasted, now th point most in dispute seems to be as to how many more weeks the burgher force will hold the field against Lord Reberts' victorious army. There is no longer the least hesitation abroad in proclaiming the British as conquerors The German press has joined the cho rus of prophecy and the note from the continent is almost unanimous in de-claring that the federal armies can last but a short time longer. The ulti-mate issue of the hour, of course, is as to the future of the two states. And y this does not seem to be in grave doubt Chamberlain's recent speeches hav amply foreshadowed the obliteration of the national lines and the establishment of the British sovereignty over both th Transvaal and the Free State without reservation. Just in what form the sovereignty will assert itself is open to some consideration. The British colonial system embraces a wide range. There are three distinct classes of colon governments. These are (1) crown c onies, in which the crown has entire control of legislation, and the administration is conducted under the control of the home government, such as Gib raltar, Ceylon and Jamaica: (2) cclo nies with representative institutions but not responsible government, the crown

retaining a veto on legislation and con-trol over public officers, such as Natal, West Australia and Barbadoes; (3) colonies with representative institutions and responsible government, the crown etaining a veto over legislation but no control over public officers, such as Can-ada, Newfoundland, Cape Colony and tates will fall under the British system open to question. It is widely felt, owever, that there will be both local egislative and administrative respon ibility, and that the British suzerainty vill be made effective chiefly through the crown's veto. This would give to the burghers the widest possible inde endence under British sovereignty and would undoubtedly allay much of the apprehension in Europe as to the imperial programme of the London government. It is now accepted as certain that the same treatment will be accord that the same treatment will be accordto both the states, in view of the
persistent alliance between them and
President Steyn's determined efforts to
rally his burghers for resisting Lord
Roberts' progress. The British commander has today control of virtually
all of the Free State territory. His
advance is within 50 miles of the Transtype Free States have vaal frontier. The Free Staters have concentrated the small remnant of their forces in the northeastern portion of the state, with only an outlet into the Transvaal left open to them. There may be a little fighting in this region, but the numbers are now so overwhelming that the result cannot possibly be in doubt. There is likely to be a delay in the main British advance, as Lord Roberts gathers together the lines on his command and perhaps gives the roops time to recuperate after the swift advance from Bloemfontein, a dis-tance of over 125 miles, and covering a

terms.

English that is Clear.

front of nearly as great a distance.

(The American.)
Is not the best English in composition plain and clear English? Two writers of it in this country may be cited as proof of the fact—Benjamin Franklin and Abraham Lincoln. It is doubtful if they have ever been surpassed in our land in this quality. General Grant im-pressed everybody by the attractiveness of his memoirs, and this arose directly from the clearness of his thought and the simplicity of its expression. Neither Franklin nor Lincoln had the advantage of a college education and the training on classical models that accompanies it, and Grant presumably accompanies it, and Grant presumably paid little attention to literary style at West Point. Franklin imbued his mind with the Spectator papers, but it is probable that his straightforward method of saying directly what he had to convey was only supplemented by their perusal. It was said of Lincoln that in youthful life he never came so near losing his temper as he did when people

He was sometimes homely, but always lirect, in speech, and there was the element of spontaneity in his eloquence. element of spontaneity in his eloquence.
No man has ever written who presented less evidence of labor in his composition than did he. That modern school of fine writing, which is involved in its sentences and obscure in its method of conveying meaning, is essentially victious in comparison with these earlier examples.

FIRST NATIONAL BANK BLOCK

Badger State Banker Talks of His State

the Gazette yesterday, but owing to an accident in the composing room the sense of it was not clear and it was considered of enough importance to be run Mr. E. L. Cass, assistant cashier

of the Bank of Commerce of West Superior, Wisconsin, is a guest of the Elk hotel. He has been spending a few days in Colorado taking in the sights and is particularly pleased with what he has seen in Colorado Springs and vicinity.
"You certainly have one of the most

"You certainly have one of the most beautiful and thrifty appearing' cities that I have ever seen," said Mr. Cass. "The state has an enviable reputation, particularly so has Colorado Springs and what I have seen since coming here has fully confirmed me in the belief that all the good things I hear about Colorado are true.

"In Wisconsin we have a good deal."

"In Wisconsin we have a good deal of enterprise and a good deal of which we are proud. We have no mountain ranges and no snow capped peaks but we have lots of beautiful woods and rivers and some lake scenery that is worth seeing.

woods and rivers and some lake scenery that is worth seeing.

A Big Lumber Center.

"The particular section of the state from which I come, of which the City of Superior is the metropolis, has long been well known as one of the best lumber countries in the United States and its reputation is being constantly maintained. The lumber interests at Superior were never in better condition than they are at the present time and the big mills that have been located there at the head of Lake Superior, with a harbor affording us 12 miles of shelter water front for dockage purposes, we come in for all the shipping business connected with the big iron mines of the Mesaba range and elsewhere along the north or Minnesota shore of the lake. This has grown with marvelous rapidity as the Rockefeller interest and others more local have developed the rich mines of these hills and with continued development there which is bound to occur Superior is coming in for more and more of the business of handling this ore. We already have several ore docks which are equal in capacity to any in the world and others will be built as development in the built it and have made it one of the leading mills in the country. The McCord who was actively connected with the management of the mill is a brother of Governor McCord of Arizona. Both these men have very heavy holdings in Northern Wisconsin lumber lands and their sale of the mill at Superior was because they were offered a good price for it and not because they did not con-

About the Whaleback. "The American Steel Barge works, located at West Superior," continued Mr. Cass, "has recently been absorbed by the American Ship-Buildsorbed by the American Ship-Building company, which now controls practically the whole ship-building industry on the great lakes and to a considerable extent elsewhere, and whose general offices are in Cleveland, Ohio. The West Superior yard has become well known all over the maritime world by reason of the whaleback type of vessel which has been built there for about ten years and which has become such a prominent of the whole some that one feels like shouting for the proposed sight, and the beautiful city at its base is a fit foreground for the picture."

"There is something pecular about the proposed sight, and the service of the scenery. The air here is so clear and fresh and whole-some that one feels like shouting for the picture."

"There is something pecular about the proposed sight, and the beautiful city at its base is a fit foreground for the picture." built there for about ten years and which has become such a prominent factor in the carrying trade on the great lakes. It was in this yard, as nearly everybody knows, that the famous Christopher Columets was built, on which so many thousands of World's Fair visitors rode during '93 season in Chicago and which has plied between Chicago and Milwaukee on excursion business each season since excursion business each season since

The Ore Shipping Trade.
"We are interested in mining," continued Mr. Cass "as well as you. Our interest is of a different kind, how-ever. Being located as we are, di-rectly at the head of Lake Superior,

Prof. Fellows Will Talk On the Dreyfus Affair At the High school auditorium this evening will be given a free lecture that will be interesting to every one and especible interesting to every one an

ially to those who are interested in current history. Professor George E. Fellows, professor of history in Chicago university, will deliver his famous lecture on "The Dreyfus Affair." The lecture is given under the auspices of the young ladies of the High school who took part in the recent declamation contest.

The Dreyfus affair has been of the most absorbing interest to the whole civifized world, and it has been so because in many respects it has been the most remarkable ase in the whole history of civilized gov-Starting with the condemnation of a single soldier for treason, it grew till it involved not only the existence of school and has consented to several "governments" in France, but and give his lecture tonight.

it of universal interest. Time will no Armit, Wm. Frenaye, Arthur Baker, more diminish interest in this case than Duncan Chisholm. in any of the crucial epochs of history.
Professor Fellows was in Paris during the agitation for revision in 1898 and dur-ing the re-trial in 1899. He was also present at the insurrection of August 20th. His lecture deals with the whole affair from beginning to end and has won the most favorable comment wherever

ters size), hair mattresses, dressers and commodes, rugs, chairs, window shades, curtains, pictures, books, waste er baskets, writing tables, pillows w slips, sheets, blankets, pads for nattresses, chamber sets, sick room thina and trays.

As yet there are no towels, napkins,

table cloths or dishes in the house. There is also a need for counterpanes, not water bottles, drugs and all appliances needed in a sick room. Kitchen furnishings of all kinds are needed. Groceries, wood and coal, gar-den tools, hose for lawn, grass seed,

Things may be sent to the Sanator-um, corner Institute and Huerfano

The Sanatorium, designed for the are of the sick and suffering of ail lasses and conditions, while in no be conducted as to its internal affairs by a Protestant sisterhood of deaconesses. These women are trained workers, giving their time and talents without money remuneration, none of the workers receiving any salary, but a simple support. They now number more than one thousand women and have hospitals, sanatoriums, orphanages, old people's homes, young ladies' seminaries, boys' farm and manual training school, girl's farm, deaconess homes in all the large cities with kindergartens, kitchen gardens and in fact work along all philanthropic and charitable lines in which anyone at all charitable lines in which anyone at all

s at work.

The nurses will arrive in the city this week. The superintending nurse, Miss Edith McConnahay, has had the best of training and is regarded as one of the finest operative nurses. Miss McConnahay comes from Chicago, where she has been taking post-graduate work. She will be assisted by a corps of corporates trained nurses. of competent trained nurses.

All persons interested in the local institution are asked to visit it and learn more there about the plan on which this to be operated. it is to be operated.

Winning National Convention Tick-

ets.

If delegates and others who will attend the National Republican convention at Philadelphia want, a winning ticket, they can get the same by asking for it via the Pennsylvania Short lines from Chicago. Tickets of that kind mean victory for travelers wanting up-to-date train comforts. To be a winner it will be necessary to ask agents for tickets over the Pennsylvania route, which will be sold at reduced rates for the convention. H. R. Dering, A. G. P. Agt., 248 South Clark street, will help you to get them if you write him.

Buttonhole Interviews

e------"I don't know what the council will o about the request of the street car ompany," said Alderman Capell. "It evenue around the college park if it did

not want to. "I am one of those people who believe that a corporation has a soul the same as anybody else, and if a corporution makes a proposition that is rea-conable and good business I don't be-ieve in turning it down or grinding the asonableness out of it just because

reasonableness out of it just because it is a corporation.

"This company wants to double its track around the college park so that it can better accommodate the demands that the people make upon it. I am in favor, of allowing them to double the track. As to the method of doing it, I think the best one that has been suggested is to let the one track remain where it is and run the other as close to the trees as possible up the west road-

"How gloriously beautiful!" was the exclamation that partially rejieved the eelings of Prof. G. E. Fellows at

eelings of Prof. G. E. Fellows at Vashburn field yesterday as he gazed cross to the mountains.
"I have been pretty much over the ivilized world," he continued. "But lever in my life have I seen anything o pobly grand as that range over there. nobly grand as that range over there. The Swiss Alps are grand, of course, out it is a different kind of grandeur.

"There is something pecular about some people, and especially those who are in the habit of indulging in too familiar acquaintance with John Barley-corn," said Capt. Sherm. McNew yesterday. "Why, I know fellows who come in here about three times a week when they have any money. When arrested they are generally so drunk that they can't stand alone, but when they are arraigned in the morning they invariably plead not guilty and assert variably plead not guilty and assert that they are being very badly used. If fined, they generally file notice of appeal, but the appeals are seldom perfected, as it takes all their money to get properly drunk again. Then they come back and the same old thing is gone over again. Oh, there are any number of funny people in this big world." And the big captain heaved a sigh as he returned to his cigar.

PERSONAL MENTION.

Mr. L. L. Aitken has returned from business trip of about six weeks in the east.

Mrs. Coray, wife of the building in-spector, arrived in the city yesterday after a three months' visit in the

Mrs. Susan Beswick Sues the Colorado Midland.

DEFECTIVE ENGINE CHARGED

Complaint Alleges that Defects in Locomotove Caused Engine to Run Away and Husband of Plaintiff was Killed in Collision that Resulted.

A suit was begun in the district cour yesterday entitled Susan M. Bostwick against the Colorado Midland Railroad company. The husband of the plaintiff was killed in a collision on the Midland June 9th of last year. The first cause of the accident as alleged in the complaint was a repaired boiler on an old engine. A plug had blown out of the boiler and let out the steam. The engine was standing on a grade at the time and was blocked in order that it would not get away. Another engine ran into it and it started down the grade at terrific speed.

The runaway engine finally ran into a passenger train and in the collision

a passenger train and in the collision that followed, the husband of the plain that followed the husband of the plain-tiff in the case was killed. The amount of damages asked for is \$10,000. The case is being tried before Judge Harris in Division 1.

yesterday a verdict was returned in the case of H. H. Bean against the Newton Lumber company. In this case the plaintiff brought suit to recover a year's salary as salesman for the company. It was alleged in the complaint that the defendant had employed the plaintiff derendant had employed the plaintiff for the term of one year, but that after a short time the plaintiff was discharg-ed from the employ of the defendant. The damages claimed, together with the costs in the case amount to about \$2,060.

The attorneys for the plaintiff took exception to the verdict and were given five days in which to file a motion for a

BRIEF CITY ITEMS.

There will be no dance at Prof. Mc-Mahon's academy tonight on account of the Ariel club dance at Broadmoor.

The fire department had a run abou 6 o'clock last evening to No. 707 South Sahwatch street, the home of Mr. John H. Long. The fire was caused by the lightning striking a transformer into which the electric light wires were run. The damage was slight, the burning out of some fuses and insulating being the extent of the fire.

At the Valley View ranch last night between the hours of 3 and 12 Mr. and Mrs. Andrew Mallory celebrated the fiftieth anniversary of their wedding. A large number of friends and acquaintances were present to wish the old couple many happy returns of the anniversary of their wedding day.

The tenth annual session of the Lutheran church concluded its business at Canon City yesterday by the election of officers for the coming year. Rev. E. W. Limon of Lencer was elected presi-dent, Rev. P. E. Bierbauer of Bulder secretary and Mr. E. D. Sommers of this city treasurer.

Mr. C. K. Hall, the eminent pro-hibition lecturer of Buffalo, New York, will lecture on the different phases of the temperance question at the Free Methodist church, corner Wahsatch and Cheyenne avenue, this evening at 8 o'clock. Mr. Hall is an eloquent speaker and handles his worthy sub-ject with much force. The public are most cordially invited to attend this

The Ariel club dance at the Broad moor Casino tonight promises to be one of the most largely attended of the season. It will be a neglige affair and every man is expected to wear a neglige suit. A great deal of interest is being manifested among the members of the club and those who members of the club and those who have received invitations to the dance Special cars will be provided as here

TWO GREAT STRIKES

One On Christmas Workings, the Other on Wallace Claim of the Vindicator Company.

Special to the Gazette. Cripple Creek, May 24.-Two great trikes of about equal importance have

een made this week on the properties of the Christmas and Vindicator companies on Bull hill. The first on the Christmas workings, the latter on the Vallace claim. The Christmes strike was made by

the Christmas Strike was made by hose successful lessees, Potvin and Vaine. It is by long odds the most important discovery of mineral made on his claim. In a crosscut from the 525-toot level at a point 65 feet from the shaft, a vein six feet in width has been encountered. Careful sampling inbeen encountered. Careful sampling indicates an average value of five ounces to the ton across the entire width. Through the vein are found numerous rich seams of sylvanite which of course add to the value of the vein and general average of the quartz. Picked samples seen by your correspondent today were as rich as any mined in the district. The vein is a new one to the property, never having been disclosed in the upper workings of the mine. It dips rapidly and should be encountered in the shaft with another 100 foot lift. The mine has been producing steadily The mine has been producing steadily or some months and the new find will enable the lessees greatly to increase their output as soon as the drifts can be extended and the ore blocked out.

Vindicator.

The strike on the Wallace of the Vindicator company was made in the 400-floot level. The vein cut is five feet in width and carries a good sized streak of rich mineral running from 9 ounces to 30 ounces to the ton. The bulk of the ore is in itself good pay. From this shaft about two cars of smelting grade ore has been produced daily. Work has been resumed by Lessees Dalzell and Wilson on shaft No. 7 of this company's property. Some good ore was shipped from the upper level and the lessees will crosscut from the 350 foot point in expectation of cutting the continuation of the same ore body.

Returns on a 40-ton shipment from the Minnie Bell lode of the Wilson Creek Consolidated Co. were received by Lessee Cal Magner yesterday. The

y Lessee Cal Magner yesterday. The ore brought \$45 a ton.

A two-car load shipment sent out last week by Emberson & Co. from the Superior of the Anaconda Co. netted the lessees \$3,264. The ore is being

shipping very shortly.

Too much water has again caused a emporary cessation of operation at the main Gold Knob shaft. Berkins and associates, leasing on the Pauper, will send out a 25-ton shipnent of two ounce ore tomorrow. Woods' lease on the Deadwood has

A more powerful pumping plant has been installed at the Whiting and Vaugnan shaft on the Hull City placer, and the work of grading the mine has been started. The management expects to have the water out by the first of

next week. An east and west vein eight feet in width cut in the 700-foot level of the Dillon on Battle mountain is giving good average results. It is believed that its further exploitation will re-sult in the finding of a rich ore shoot. Mining Transfers.

Mining Transfers.

The following transfers of mining property in this district were recorded with the county clerk today. From Max Strauss of Denver to C. W. Kurie, trustee, a one-eighth interest in the Tarrascon lode. Consideration \$2,000.

From E. F. Wade, J. A. Stafford, J. Stanley Jones and T. M. S. Rhett to John Hackenson, the Yankee Girl lode and certain vein rights in the New Boston and Shoefly claims. Consideration \$4,000.

The purchaser in turn transferred the

tion \$4,000.

The purchaser in turn transferred the same interest to C. W. Kurie, trustee. From John J. Burke to the Live Wire G. M. Co., the Live Wire lode, situated on-Galena hill. Consideration \$15,000.

From F. W. Miller to J. P. Harrington, a one-fourth interest in the Grace Warren Lode.

ton, a one-fourth interest in the Grace Warren lode.

Excellent reports were had today from the Jones and associate lease on the Jeff Davis of the Lexington Co. and the Wrockloff lease on the Burns of the Acacia Co. Both these lessees are sacking and shipping high grade mineral and at the same time developing big mines for the respective companies controlling them panies controlling them

A New Lease. Charles Lambert has taken a two years' lease on the Klondyke claim, owned by the company of that name. The property is situated south of Vic-tor on Squaw mountain, adjoining the Santa Rita mine, now producing phe-nomenally rich ore. The shaft on the Klondyke was sunk 80 feet on company account and is equipped with a suitable steam plant. The lessee will resume sinking without delay.

An Enviable Record.

On June 1 Superintendent Emerson, who has been connected with the great Independence mine for six years, wil sever his connection with that property. He will move to this end of the camp mined from surface workings not over 80 feet in depth. The lessees are installing a steam hoist on the claim. Bedfish and others have taken a lease on another block of this claim. They report ore in sight and expect to be shipping very shortly. pendence since it was merely a prospect 100 feet deep. The lower workings of the mine are now 900 feet from surface. There were no drifts at that time, now there are over eight miles of lateral

> During his connection with the property the mine has produced ore to the gross value of \$8,000,000, and recently sold for \$10,000,000. Mr. Emerson's record is one to be proud of.

TO ANACONDA STOCKHOLDERS

The directors of the Anaconda Gold Mining company have called upon

the stockholders for a voluntary contribution of 15 cents per share. On the 1,000,000 shares of the company this is equal to \$150,000. The alleged reasons for this action are contained in the two opening

paragraphs of the circular issued. They read as follows: Notice has been served on this company that a suit has been commenced by the holders of the promissory notes of the company now past due amounting to \$112,500, with interest.

"As the time for the payment of these notes has been extended from "As the time for the payment of these notes has been extended from time to time a further extension can not be obtained. The company being without funds, and unable to borrow them to meet this obligation, it may be assumed a judgment will be rendered against it for the amount of the claim, the property of the company sold to satisfy the judgment, and finally if, after the expiration of six months, the time for redemption, funds are not provided to redeem, a loss to the company of its entire property will follow."

enough, but for the sake of the stockholders at large it is just as well that it should happen.

The loss of the entire property to the Anaconda company need not necessarily mean a loss to Anaconda stockholders.

It can be arranged otherwise and undoubtedly will be.

It looks like a very good business move to so arrange it; to let the Anaconda Gold Mining company lose its entire property, and with it be rid of the old management that has dallied too long.

The company's properties are worth many times the amount of the debt, although Moffat, Ross Lewin & Co., directors of the Anaconda company, find it impossible to obtain a further extension on the company's notes from Moffat, Ross Lewin & Co., directors of the First National Bank of Denver.

The company's properties cover about 150 acres of patented ground

company's properties cover about 150 acres of patented ground on Gold hill in the very heart of the Cripple Creek district. Surrounding properties are selling for from \$15,000 to \$25,000 per acre. In many of the recent Cripple Creek deals made from \$5,000 to \$10,000 per acre has been paid for much less desirable property. But on the minimum figure for this very valuable group, it is worth \$750,000.

The debt of the company to the holders of the promissory notes is at the rate of \$750 per acre.

One plan for the company to lose its entire property and the stock-One plan for the company to lose its entire property and the stock-holders to lose nothing would be for everybody to refuse to pay the assessment, to let the matter go to judgment and the property be sold.

There will be no difficulty in forming a syndicate in Colorado Springs to subscribe twice the sum required to look after the company's debts. It will undoubtedly be done, and it can be so arranged that all present holders of Anaconda shares will come in on the new company.

Colorado Springs will do this because it is necessary for the good

reputation of the mining and mining stock business of Colorado that it Denver will also do its share. Three men approached on the proposi-

tion have already agreed to put in from \$15,000 to \$25,000 towards the purchase of the judgment against the company when the proper time arrives. "Get it out of the hands of the Denver management," they say,

rives. "Get it out of the hands of the Denver management," they say, "take it to Colorado Springs. Such things as these will hurt if they are allowed to go on, for it will frighten eastern investors. Let us who understand the local conditions protect the Anaconda stockholders from loss. It's a good business proposition in many ways to do so."

The directors' circular has a proviso that if 95 per cent. of the shareholders do not re spond to the voluntary assessment contributors can have the option of withdrawing.

It is practically out of the question that 95 per cent. will respond. It is a cause that can be made to work many ways.

But the brokers and promoters, the bankers and the mining men of Colorado Springs, working in conjunction with some of Denver's business men who see the thing in its right light, will watch all the workings. They will either secure the property and arrange for all Anaconda shareholders to be in it, or they will see that the property, if sold, is sold

shareholders to be in it, or they will see that the property, if sold, is sold for its true valuation.

The Gazette will have more to say on this subject if necessary. It probably will be necessary.

In the meanwhile Anaconda shareholders should be of good cheer.

Their dark days are nearly over.

MINING NOTES AROUND TOWN

The chief topic in mining circles yesterday was the ball game between the Colorado Springs mining stock association and the Board of Brokers. The jump in Portland, the fall in Anaconda and the various deals which are supposed to be "on" all gave way before the tidal wave of excitement started by the great game. Cripple Creek was but a memory for about three hours while Greek met Greek on the diamond. But this morning the on the diamond. But this morning the brokers will be found at their old stand, all the better for their experience in speculating in diamond shares, and the momentous topics of the mining world will again be in the ascendant

\$5.00 BID YESTERDAY FOR GOLD COIN SHARES.

No matter what may be the spec of Gold Coin yesterday morning on the Colorado Springs mining stock ex-change. While the Portland is adchange. While the Portland is admitted to be a greater mine than the Gold Coin, the fact that the stock of the latter company is so very closely held, is largely responsible for it having reached the present price, although no one seems to question but that the wine is worth the \$7000000. that the mine is worth the \$5,000,000 conda company, adjoining the Jeff Da-

KURIE BUYS MORE GOLD HILL PROPERTIES.

A mining transaction has just beer concluded in this city in which C. W. Kurie and Gold hill property again figure. This time the agent for the unknown party who has been buying so much property in this district has bought a one-eighth interest in the Tarrascon fraction consisting of about four acres located between the Temomj ulation about that much heard of \$5.00 which has been bid by some one unknown for Portland shares, there was that amount bid for the stock of Gold Coin vertical or the stock of Gold Coin vert sideration is not made public

Greene and associates, leasing on the Lone Star, have had good assays from the surface down, and now, at the depth of 38 feet, the ore body has widened to four feet and assays return values of around 30 ounces to the ton. The lessees feel very certain that they will have a considerable extent of the shoot, and are sinking now to open the ore further in order to determine that it is not merely a pocket.

GOOD RETURNS FROM GOLD KING CLAIM. Returns have just been received on a couple of good shipments from the Progress company's portion of the Gold King claim on Gold hill. The ore was sent out from block 2, being operated under lease by Eckland and associates. One lot of ore weighed 5,600 pounds and averaged 4,62 ounces in gold or \$92.40 per ton. Another lot weighed 1,556 pounds and averaged 7.28 ounces or \$125.60 per ton.

ounces or \$135.60 per ton. WM. P. BONBRIGHT &

CO.'S MARKET LETTER

The large purchases of property which are being made in Poverty gulch and on Globe and Womack hills vill doubtless result in a development will doubtless result in a development along the northern line of the porphyry-granite contact commensurate with that which has yielded such marvelous results on the south. Poverty gulch, the scene of the first gold discovery in the Cripple Creek district, has been but superficially exploited; but one property, the El Paso Gold King, has extended its workings to even a moderate depth. But now that Mr. Stratton has become the owner of a large portion of this section of the district—for all disguise is at last thrown off—we are prepared to believe the statement that two or three great shafts will be sunk to a great depth for the thorough exploitation of this territory. When it is remembered that on the southern line of the porphyrygranite contact are found such great mines as the Strong, Stratton's Independence, Portland, Gold Coin and Ajax, an idea may be gained of the possibilities of Mr. Stratton's new acquisitions.

The news of the week has been paralong the northern line of the por-

uisitions. The news of the week has been par-The news of the week has been particularly interesting and important. The opening of a new ore body in Portland ground is a matter of such frequent occurrence as to excite a passing interest only; but recently one was cut in a lower level of the mine which has the enormous width of 57 feet, screenings from the entire mass having a good shipping value. Seams of immensely rich ore, some of which runs mensely rich ore, some of which runs from \$300 to \$400 to the ton, have also been cut in several portions of the been cut in several portions of the property. An important strike has also been made in the Jeff Davis, of the Lexington company, where ore worth a dollar a pound is being sacked and deposited in bank vaults for safe keeping. In Elkton's 600-foot level an ore chufe of extraordinary length and remarkable values has been opened. The markable values has been opened. The production of the mine for April reached \$85,000, and the company has about \$130,000 in the treasury. The main shaft has reached a depth of 800 feet, at which point a station is being cut. The shipments from Stratton's Independence for the month of April amounted to 2,600 tons of a value of about \$130,000. In another column will

about \$190,000. In another column will be found extracts from the report of

vis on the south. For some time Greene and associates, leasing on the Lone Star, have had good assays from There seems to be ground for the belief that an offer has been made for the Pharmacist property, and that this offer is being considered. Rumor has it that the price is in the neighborhood of \$200,000, and that the board is at present divided on the question.

Strikes have been reported during the week in the Colorado Boss No. 3, of the Cripple Creek Consolidated company, and in the Uncle Sam, owned by the Blanche company. Operations on the Boss by the Consolidated company have opened at a depth of 140 feet There seems to be ground for the b

on the Boss by the Consolidated company have opened at a depth of 140 feet a promising vein yielding assays of from \$5 to \$500. Very little work has as yet been done and hence little idea can be gained of the importance of the strike. In the Uncle Sam, lessees are reported to have found an ore body 15 feet in width that will run from \$400. feet in width that will run from \$40 to \$50 to the ton. The Uncle Sam lies between the property of the Pinnacle company and the Morning Star of the Acacia company, on the north slope of Bull hill.

Aside from the advances in Portland Elkton, El Paso, Raven and Lexington the market has been without featur with business in even lighter volum than during the preceding week. Port-land's advance was constant and rapid the net gain amounting to 23c, the closthe net gain amounting to 23c, the closing sale being at \$2.99, the highest point of the week and in the history of the company. Elkton eached \$1.39, but closed at \$1.37½, a net gain of 2¼c. El Paso gained 2¾c; Raven 2c, and Lexington 1¼c. A considerable number of stocks showed fractional net losses and many were neglected throughout the week.

DENVER WON IN THE NINTH

The Two Colorado Teams Met for the First Time.

PUEBLO LED FROM FOURTH

But Blackburn Went to Pieces at the Last and was Knocked All Over the Field-Denver Had Best of Hits and Errors.

GAMES TODAY. Pueblo at Denver. Omaha at Sioux City. St. Joseph at Des Moines.

WESTERN LEAGUE. Won. Lost. Po

Des Moines 5

Denver, May 24.—Denver's ball team won today's game in the ninth inning. At the close of the eighth the score stood 3 to 2 in favor of Pueblo and the crowd had fairly given up hope for the home team. In the ninth Blackburn who had been pitching a superb game went all to pleces and the Denver men pounded him all over the park. Six hits, aided by a wild throw by Graĥam, netted the locals five runs. Denver was first at the bat, Miller scored a hit and Preston followed with a neat sacrifice, putting Miller on second. Vizard flew out to Johnson and Holland came up with another hit to center scoring Miller. Hickey go his base on balls and Holland was retired at second by a neat throw by Graham. McHale and Hulen were thrown out at first. Anderson got his base on balls but was retired on Parrott's hit to short. Barnes flew out to McHale. Tinker hit to Kelly who threw wild. McCausland got his base on balls. Riter hit to short and McCausland was retired at second, Tinker scoring on the play. Miller made a neat single but Preston flew out to Johnson, thus won today's game in the ninth in ning. At the close of the eighth the play. Miller made a neat single but Preston flew out to Johnson, thus retiring the side.

ago, It is said to be much stronger it was before.

The college lineup will be about the same as usual. Cooley will probably play at short and Davis will be played at first. Otherwise there will be no change in the team. This will probably be one of the best games played on Washburn field this season as the visitors are determined to win if possible.

WILL RETURN TO TWO UMPIRE SYSTEM

President Hart of the Chicago Ball club has mailed a circular letter to the presidents of the national league clubs, requesting that President Young be asked to select enough additional um-pires to permit a return to the double umpire system in vogue last season. Inasmuch as Hart last season. Inasmuch as Hart has been the only one opposing the double umpire system, it is more than likely that within a month two men will be operating, as of old, on the big league diamonds. "The public demand it," said President Hart, in a recent interview. "One umpire could control the game if he ran around, as they used to do, and kept in as active training. But they have been spoiled by the double umpire system and we must return to it to insure accu-

SPRINGS MAN WRITES ANTI-TRUST LETTER

The following, from a letter published last week, will be of interest to dealers and wheelmen in Colorado Springs "Editor Cycling Age:—In casting your opinions and taking chances against monopoly you will come out a winner. You cannot get all the business at any rate and should above all things stand in the trend of public opinion—which is against the formation of trusts-otherwise called and considered monopolies.

"The states which have already taken ction and passed anti-trust laws will Hickey hit to Kelly and was caught to first. Barnes hit to Anderson and ies meet by two-thirds of the western in, put forth before the A. B. C. was McHale flew to Vizard. Hulen was organized, will be many times multipresented with a base on balls. An-derson's fly was caught by Miller, whose accurate throw from left field

cago, in second place.

The most remarkable commentary on the result of the meet, aside from the fact that the pennant was won by a school which has but 70 students and had but three men entered, is on the evenness of the work of the schools throughout the state. The good work is by no means restricted to the high schools of Chicago, as it was a few schools of Chicago as it was a few years ago. It was then a foregone con-clusion that the first five or six places would go to schools that are members of the Cook County league and as a matter of fact there were comparatively lew schools outside of Chicago that had confidence enough to enter a team. This year, however, about 25 schools represented and of these there were 18 sented and of these there were to schools that won points. Biggsville won first, Englewood second, and the next Chicago school heard from was West Division, which secured tenth place and was followed in eleventh by Hyde

Park.
The remarkable performances of the day were by Dougherty of Biggsville, who jumped 10 feet 3 inches in standing broad and 5 feet 11 inches in running high, much better than the colleges of the middle west are doing; by Kohler of Pontiac, who threw the 12 pound hammer 134 feet 5 inches and by Webster of Englewood, who put the 12-pound shot 43 feet 9½ inches.

MR. KINGSBURY ON GOOD ROADS PLANKS

American Wheelmen take immediate steps toward the insertion of good roads planks in the Democratic and Republican national platforms has met with such instant approval and so much ensuch instant approval and so find en-couragement that it seems safe to pre-dict for it a complete success. Under the splendid aid which the league has given to it, the movement for better roads has grown to great proportions and now, under the united efforts of the wheelmen, farmers and automobilists, wheelmen, farmers and automobilists, is so rapidly becoming recognized as a plain business proposition, the beneficial results of which are out of all propor-tion to its cost, that far-seeing statesmen will no longer have any desire to ignore the question of highway improveent under national legislation and ap-

propriation. "It seems perfectly proper that the "It seems perfectly proper that the demand for a declaration of belief on this subject from the leading political parties should come from the organization which was the pioneer in the movement; it has been a long twenty-year's campaign of education, commencing with local work and the distribution of and working gradually, by the expenditure of thousands and thousands of dollars and the distribution of millions of pamphlets, up to successful legislation in many states and the adoption of the state aid system, which has proven an unqualified success wherever tried. The ime has now arrived for a still broader novement, and from the American Wheelmen should come the primary efforts which shall result in a tl:oroughly practical system of national, state and city road building, which would apportion the expense and soon basis equal to that perfection which national and state financial aid have made it possible for our through rail and waterways to attain.

Third. Time :4914.

Sixth race, 1 1-16 miles, selling—Peter Duryea won; Belle of Orleans second; Dr. Amburg third. out the highways of this country on a

"The effect of the insertion of a strong plank declaring in favor of national highways, which, with the united effort f farmers, automobilists and whee should not be difficult to obtain, could only have beneficial results, ever f placed there only with the idea of rote getting by the party management; the good roads movement strong enough to follow up such a party promise with demands for its fulfill-ment; it would prove the entering wedge which could be driven deep enough into the heart of congress to produce immediate results, and I am onfident it will be accomplished and that we shall mark the beginning of the ew century by starting national high-

As the guest of the Oakley Country Inderhill, champion woman golfer of Underhill, champion woman golfer of the United States, played an 18-hole match a few days ago with Miss Paul-ine Mackay, in which she was defeated by a score of 4 up and 2 to play. Miss Mackay's medal score was 108, made under disadvantages of high wind and oppressive heat. Miss Underhill's presce at Watertown was entirely unexpected for the most part, and created quite a surprise when she won the tour-nament at the Country club. When her presence became known she was be-deged by invitations to visit links and o play in tournaments or matches, but nost of them were declined.

ILDRIM WINS IN BELMONT STAKES

Sensational Finish in Morris Park Race Yesterday-Petruchio Took Second Money-Track Record in the Race.

New York, May 24 .- A finish that brought the crowd to its feet shouting itself hoarse was seen in the Belmont takes at Morris Park today, when in stakes at Morris Park today, when in a fierce-drive after a race of a mile and three furlongs Eugene Leigh's Hdrim carried off the \$15,000 first money with J. G. and F. P. Keene's Petruchio in second place and A. Featherstone's Missionary third, all heads apart. It was get-away day at the track and the card was of high order.

For the Belmont, the Featherstone and Massparist and Missionary were at

pair, Mesmerist and Missionary were at one and two in the betting with Ildrim a good second choice and the others on ly nibbled at. Petruchio was first off, but Maher took Mesmerist to the front ly nibbled at. Petruchio was first off, but Maher took Mesmerist to the front at once. They were strung out on the back stretch, running the quarter in 25 2-5 seconds, the three furlongs in 38 seconds and the half in 51 2-5, not very fast time. Mesmerist was leading as they went past, two lengths in front of Gulden, who was half a length in front of Standing. The next two furlongs were run in 14 seconds. Then the pace began to quicken and Mesmerist was about ready to give up. As they were straightened out for home everybody was driving down the big dip to the finish. O'Connor got to work with a will on Missionary and the game Hanover colt responded at once and as they swung into the last furiong he poked his nose in front of Ildrim. The trio of leaders were right together, a sixteenth from home and O'Connor faltered in his driving for an instant. That instant was fatal, for in the twinkling of an eye Ildrim and Petruchio passed him with the wire but a few jumps away. A fierce tug at the reins, a sharp dig with the spur and Missionary seemed to take new life. The crowd yelled itself hoarse and the trio swept past the judges heads apart, with the jet black Ildrim last week to the remarkable work done by the high school athletes of Illinois under the direction of and with the aid of the big colleges of the state. The State Interscholastic track meet was held last Saturday at Champaign and was won by the school of Biggsville, a little town on the Mississippi, with the team of Englewood High school, Chicago, in second place.

Favonious second, Half Time third. Time. 1:54%.

AT ST. LOUIS.

Kindergarten Stake Proved the Feature of the Day.

ture of the Day.

St. Louis, May 24.—The feature at the Fair grounds was the Kindergarten stake, which attracted a field of seven shifty youngsters. Schorrs entry, Joe Frey and Alard Scheck, was made the medium of quite a plunge at evens, Bennett's entry, Dick Burgess and Monos, also receiving substantial support at 5 to 1. At the flag fall Burns sent Joe Frey out in front and he led his field into the stretch by the lengths. At the last furlong pole, Vittatoe brought Alard Schneck out of the bunch and laid him alongside his stablemate, it evidently being intention of jockeys to finish one, two. Matthews at Speaking of one of the most important matters now occupying the attention of wheelmen, Vice President Kingsbury of the L. A. W., says:

"The suggestion that the highway improvement committee of the League of the suggestion that the highway improvement committee of the League of the league of the league of the suggestion that the highway improvement committee of the League of the suggestion. Results:

Second race, selling, 6½ furlongs-Verify won; Guide Rock second; The-ory unird. Time 1:21%.

Third race, 7 furlongs-Algon won Third race, 7 luftongs—Algon won; Ida Ledford second; Terra Incognito third. Time 1:28¼.

Fourth race, Kindergarten stakes, value \$1,500, for two-year-olds, five furlongs—Dick Burgess won; Joe Frey ground. Algod. School: second Alard Scheck third, Time

race, for two-year-old fillies, 4½ furlongs—Queen Dixon won; The Mecca second; Golden Harvest third. race, selling, 1 1-16 miles-Rushfields won; Zaza second; Pace-maker third. Time 1:491/2.

DURYEA AT NEWPORT.

Cincinnati, May 24.—Peter Du was played for a good thing in last race at Newport today and got last race at Newport today and got the money. The colt was backed from 30 to 7 to 1 at post time. He was off in front and the others never got within four lengths of him. Jockey Boland again rode three out of the six winners. Weather fair, track fost Possultar. winners. Results:

fast. Results:

First race, 4 furlongs, selling—Clara
David won; Margaret F. second; Emma C. L., third. Time :49½.

INTERNATIONAL CRICKET TALKED

It is possible that two English cricket teams may be seen in this country this season. The West Indians, who will play in England this summer, are anxious to make terms to play four matches in the United States on their way home, June and will probably be accommodated by to bring over a team, and in a com-munication to the committee of the As-sociated Cricket Clubs of Philadelphia August 4. says that the following players would be glad to come over with him: S. H. Day, Kent and Cambridge university; R. E. Foster of Worcestershire and Ox ford university; C. J. Burnup, of Kent and Cambridge university; C. Wreford Gloucestershire

Auction Sale

Rare Oriental

In Denver, Continuing Daily at 10:30 a. m. and 3 p. m.

THURSDAY, FRIDAY AND SATURDAY UNTIL NOON.

This superb collection of Persian and other Oriental Rugs will be on exhibition and intending purchasers may carefully examine the rugs and select by number those which they desire to have put up for sale. Arapahoe county's former assessor has seen fit to assess my collection for 1898 in the sum of \$45,000, which means a stock of \$90,000. at cost price, and on which assessment I am expected to pay \$1,717.65 taxes for one year. This assessment is preposterous and virtually amounts to 20 per cent taxation, which no business can stand, and if the board of county commissioners, which is now considering my petition, does not reduce it to an equitable figure, similar to what my competitors have to pay, I shall be forced TO CLOSE OUT MY BUSINESS IN DENVER, and

Your Last Opportunity

To Purchase Fine Rugs at Your Own Price.

This collection is the largest that I have ever had. Every conceivable shape and design and the most exquisite colorings ever seen in Oriental Rugs. I shall endeavor to sell every rug and carpet without reservation. If you have seen gems in this collection that you wished to buy, it will pay you to attend these sales, and you may get them at

YOUR OWN PRICE.

Colorado's Plans

ton hotel.

This announcement was given out yesterday. It means much to the delegates who will go from Colorado to the Republican national gathering and much more to the people of the state which they will represent. It means that whatever opinion some people of the east may have of Colorado by reason of having visited the state under fusion government and having witnessed some of the disastrous results of a lack of party responsibility, no impression of Colorado but one that will reflect unquestionable credit upon the state will exist in Philadelphia or among the best people of the land after the national convention which is to be held in the Quaker city in a little more than three weeks.

The Colorado delegation has secured a spacious parlor at the Stenton and a suite of six large rooms adjoining and will throw open her doors to all Colorado people and all others who

Colorado's convention headquarters desire to visit her at what will be one at Philadelphia will be at the Sten- of the greatest if not, indeed, the most atherings held in the United States.

Springs Wants Mining Congress

The third annual session of the International Mining Congress will open in Milwaukee on the 19th of June and will continue during the 20th, 21st, 22nd and 23rd.

A great deal of interest is being manifested in this session of the International congress. Hon. B. F. Montgomery of Cripple Creek is the president of the organization and it is due largely to his untiring interest that the congress has assumed the importance that has come to it during the past year.

The congress does not confine itself to the consideration of gold and silver alone but to iron, coal, marble, stone, the various fire clays, asphaltum and the kindred interests of the mineral and metallic classes. Other objects

TO PREPARE FOR PARIS.

What to Read Before You Go, and history there? What to Do When You Get There. the April St. Nicholas; and assuming that you are and that you are a girl, she gives you some useful hints. "All over the land," she says, "young

girls are beginning to plan a trip to the Paris exposition. By means of tour-ists' clubs, with their low rates and monthly payments, many girls of small means, girls who earn their own living, will be able to go. To these, and especially to such of them as have trave'ed a little, a few suggestions may prove helpful. "Do your looking up and reading

can, in fancy, people it, as you walk, with the gay throng who once made

"Unless you know the story of the people who made the history of these places, you are seeing only wood and stone; you are missing the best—the vital, breathing part, the life. Every girl who has clearly settled in her mind any facts of French history, who knows anything about the life-stories of France's famous people, or about the places where the history was made or the lives lived, will find that her knowledge has added wonderfully to her enjoyment of the trip.

edge has added wonderfully to her enjoyment of the trip.

"And now for another suggestion. Cultivate the habit of observation. If you are weak in this, begin today to develop your powers. Many persons came back from the World's Fair at Chicago with their minds all a confused jumble. Ask them what they saw, and they would invariably reply "Oh I

EFFECT OF TARIFF

Significant Figures Showing Where the "Puerto Rican Burden" Falls -Imports and Exports Statistics.

(Special Corresponder

a resolution of inquiry, the secretary of the treasury sent to the house of representatives a report giving the names of persons, firms and corporations who have paid customs duties on goods and articles of every description which have entered the United States from Puerto Rico since the treaty with Spain, with articles and amounts paid by each. The following statement shows the amounts of customs duties paid on sugar and molasses from Puerto Rico and entered at the port of New York by the respective consignees thereof:

Name of Firm. of Duties American Sugar Refining Co... \$637,55 A. A. Vatable & Son..... Fussig & Co...... Bowerman & Co..... Melchior, Armstrong & Dessau.

Total\$1,487,866 While the Puerto Rico tariff bill was pending in congress efforts were made by its opponents in the senate and house of representatives and throughout the country to smirch its advocates by assertions and accusations to the effect that the measure had been dictated by sugar trust-the American Sugar Refining company.

Senator Jones, chairman of the Democratic national committee, professes to be an implacable enemy of the sugar trust. He is also a tariff expert; for was he not chairman of the finance committee when the revenue act of 1894 was enacted, and did he not as a mem-ber of the same committee speak and vote against the "Dingley enormity" which raised the duty on the sugar trust's raw materials? Yet Senator Jones wanted to smite that gigantic monopoly with another stunning blow this year, and he therefore opposed the bill imposing a duty of 15 per cent on the Dingley rates of duty on sugar im-ported from Puerto Rico and admitting the same free of duty. In his zeal he even went further and proposed to make the sugar trust a present of \$637,551 out of the national treasury, instead of using it for the benefit of Puerto Rico and its destitute and suffering inhabi-

ate and expend for the benefit of Puerto Rico all duties collected on imports from that island since April 11, 1899, amounting to more than \$2,000,000, was offered an amendment to return the duties "to the persons from whom they were collected." If Mr. Jones' proposihad been adopted and his desire realized, the sugar trust would have re a handsome present, amounting to \$637,551, from the treasury of the United States, as shown by the above statement by Secretary Gage of the amount of duty which they have paid.
Whether the chairman of the Democratic national committee meant this as a recompense for past or as a bid for future campaign favors, or simply as a deserved testimonial, would matter less were it not for the accusations of corrupt motives so freely brought by him and his party associates, both in the senate and house, against the framers and advocates of the Puerto Rican

Last year there was a considerable increase in the imports of American and Japanese cotton goods into China, as well as in their quality, such as white shirtings. It is worth noticing, as evidence of a disposition to increase

may be described as cotton goods de Washington, May 19.—In response to a resolution of inquiry, the secretary of the treasury sent to the house of reponse to the treasury sent to the house of reponse titles a report giving the names. crease, from 153,885 to 397,469 pieces, and Japanese cotton flannel from 56,835 to 176,676 pieces. English cotton yarn suffreed a failing off, while Indian and Japanese increased. Woolen goods, though not showing such a promising progress as the cotton goods, made a distinct advance, camlets, lastings, long ells, and blankets all having increased in quantity imported. The policy of expansion will secure more of this trade

> A tariff for revenue only may generally be classified as a tariff that doesn't produce enough revenue-either for the national treasurer or the wage-earner Note the following statement of customs receipts:

| 25,004 | Onder | Average | 15,667 | President Harrison | \$207,499,603 | 14,775 | President Cleveland | 155,188,257 | 11,601 | President McKinley | 177,992,454 | 10,694 | The Wilson bill of perfidy and dishonor extended into the McKinley period, but customs revenues are now rapidly increasing and the customs receipts of the fiscal year which ends next month will be above \$225,000,000.

> Every newspaper editor in the United States who desires to study facts in re-lation to the prosperity and panic periods of the country should secure copie of the speeches delivered in the house of representatives May 3, 1900, by Hon. John F. Lacey, of Iowa, and on May 10 by Senator Gallinger, of New Hampshire. They contain many interesting statements and will be useful for ref-erence during the next few months.

There were nearly 7,000,000 more tele graph messages sent over United States wires in 1899 than in 1895. That indicates better business conditions las year because people had business to do and could better afford to pay telegraph tolls than two-cent postage.

In two years of the Cleveland administration, 1894-95, we exported \$151,199,-092 more gold than we imported. In two years of the McKinley administration we imported \$141,703,309 more gold than we exported. The difference to the country, in the two periods, was \$292,-902,401 in favor of McKinley. This doesn't include his billion-dollar favorable trade balance.

Outside of the city of New York, the bank clearings of the United States during the first four months of this year ings.

In 1895, one of the years of Democratdisaster, the exports of American cotn goods were worth only \$13,789,810. 1899 they amounted to \$23,566,914. Inder the policy of protection there was an increase of nearly \$10,000,000 in the foreign demand for American goods, and fully \$8,000,000 of this amount was paid by foreigners to American wage-

BROWNING IN ASOLO

An American Tells of Browning's Love for the City of His Dreams

cities," wrote Browning; and an Amerhome at which the poet was a frequent visitor. The paper is illustrated by Clara Montalba.

Browning turned with ever greater pleasure to the places which had delighted him in youth. Venice, and, for a change to upland air, Asolo in the Veneto, drew him from his London home and the galety of the great city; but especially Asolo, where the scene of "Pippa Passes" was laid, seemed on each visit more delightful, so that when his only son married and settled in Venice, Browning went about with fine scheme to raise a tower like Pippa's near a certain property in Asolo, where he and Miss Browning might least some months of every He did not live to see the towe

Neither he nor those who loved him imagined for a moment that a visit he made to Asolo mainly for the purpose of concluding the purchase of this property would be his last. In answer house, so called from the fact that it is built on the line of the wall of Asolo) at Asolo, inquiring what his early impressions of Asolo were, he replied in a letter from London, dated "De Vere Gardens, June 10, 1889."

"I will answer your questions in de-tail. When I first found Asolo I lodged at the main hotel in the square, an old, large inn of the most primitive kind. The ceiling of my bedroom was travthe sky was as blue as could be and we are all praying in the fields, expecting the town to tumble in. On the morning of my arrival I walked up to the Rocca; and on returning to breakfast. I mentioned it to the landlady, and wake to know that I have whereon, a respectable, middle-aged man sitting by said, 'You have done we cannot stop;' (Pray let us go there, we c

"Asolo, my very own of all Italian cities," wrote Browning; and an American woman—Mrs. Katherine Bronson—tells in the April Century of his visits to the old town where she has a winter home at which the poet was a frequent visitor. The paper is illustrated by Clara Montalba.

Toward the end of his life Robert Browning turned with ever greater B oughly but pleasantly entertained for reased and things seemed more ordiary-life-like. I am happy that you like it so much. When I got my imession Italy was new to me, The oft-recurring dream here referred used to dream about so often in the

Coloradoan Writes of His Impresages of the Capital.

AFTER EIGHT YEARS' ABSENCE

Congressional Library the One New Building that is Worth Seeing-Valuable Example in Trolley System.

during the dist four months of this year were \$205,000,000 greater than in the corresponding months of 1899. There were good gains in all parts of the country except at New York, where the dull stock market lessened the bank clear-Washington monument, Pennsylvania avenue and the Treasury building, and have been here a long time, like the old Metropolitan, St. James and Willard's and the Ebbitt House and the Riggs. Some new buildings there are too; but th

The one new building that is worth seeing, the one which is the main show oulding in the city now, is the Congres-tional Library, and I have spent all my sight-seeing time there. It has been de-cribed so often that I shall not attempt describe it now. I was neither disappointed nor enraptured. The big Minery emed more admirable than my expects tion, and there are some very beautifu figures among the decorations, but at th first impression some of them are no ng, the way they come prancing at you ut of a Pompeijan red background. I uppose you wouldn't mind a young yoman looking and acting that way after

used to it in three days.

But these are minor details—very minor The building as a whole is great, in every respect, and makes one feel proud to be ne of the owners of it One of the superficial aspects of Washington that has changed very much is the street car system. Eight years ago.

if my memory serves, horses were still the motive power. Then some of the roads put in cable. Now they all run with an underground trolley; and the system works so well that one is converted on the spot. The advantages over the overhead trolley are so great and so obvious that they need not be named. When Colorado Springs grows as large as Washington now, doubtless we shall have then

ace: I suppose that which you see portion of colored people, Washington is ow. We went to a much inferior alergo, the best then existing, and were a suggestion of the letter "r" in their utterance; and in the streets generally and in the shops you will hear the south-

ern accent.
I would say something about the wea is spoken of in a letter written therefore retrain from any reany lettors the spoken of in a letter written tory statements, and simply say in pass me years before: "the beautiful place ing that it has been so hot that the as of any one dreaming even twice on the same subject, yet my Asolo vision mame to me many and many a time, lust ask my sister how often I said to her at breakfast, 'I had my old dream it is the easiest thing in the world to catch cold, and your appetite falls off, Answering my our offers to the same subject. Answering my our offers to the same subject. and—well, perhaps that is enough just to indicate faintly what it is like. However admirable the buildings or

execrable the climate, when congress in session the most interesting thing ir Washington is the congress. There have been many changes in eight years, espe-Both senators from Georgia are ager.

The other ladies in the show have a "The other ladies in the show have a "The other ladies in the show have a specific them."

The "morning hour" today in the senate asted 30 minutes; and in that time a tre-mendous amount of business was done. The way Mr. Frye puts things through without objection, and the way he takes he ayes and nays, would give a fatal shock to any lady who teaches parliamentary law. The senate can hurry when the twants to. Sometimes it doesn't want to. I was in there yesterday, and Mr. Augustus Octavianus Bacon of Georgia was talking on his resolution to investigate the Cuban postal system. After listening n hour I left; and was surprised when I aw in the morning papers that he had inished before dark.

Today, after the "morning hour," Sen-tor Wolcott got up the postoffice appro-riation bill; and for more than three thours, notwithstanding the time spent by the clerk in reading, the proceedings were far from uninteresting. Mr. Wolcott got in a red-hot little speech on the pneumatic tube system, and "Billy" Mason made himself amusing for half an hour or so. (Special Correspondence.)

Washington, May 17.—It is eight years since I was in Washington before, for any length of time—long enough to lend a fresh interest to everything. Some things, of course, are just the same; the splendid capitol, of which one never tires; the Washington monument, Pennsylvania avenue and the Treasury building, and

bor bill up this morning, contrary to the supposed schedule; and, of course, things were lively enough for awhile. The chairman of the river and harbor committee

ave secured rooms and are going to open office. A congressional committee ress, but not appointed by congress, is oing over tonight to New York to meet hem and fetch them. Mr. Teller is on I have heard a good deal of talk about

he Clark case—none of it official. The general opinion seems to be that while it vas a smart trick, still it does improv enate recognized that Mr. Clark had oll. If he was a senator the governor r, in his absence, the lieutenant governor-had a right to fill the vacancy caused h is resignation.

The date now talked of for adjournment is June 11. I am glad I don't hav to stay so long as that.

Comptroller Roberts on Excessive Taxation.

Whenever an observer of the signs of the times in the United States ventures to say that they offer little food for hope, he is branded as pessimistic or inpatriotic. He is told that if he had he confidence in Democratic institu-ions of a man with a good digestion and a fair intelligence, he would know that they possess a vitality, a power of rejuvenation, that does not belong to an autocracy nor an aristocracy. If he is particularly despondent, and seeks to justify himself with fact and argunt, he is denounced as a dangerou Mr. Roberts has not been consigned t any such depths of contempt. He is known as a "hard-headed business man," a title of honor that always free Yet, as the supervisor nances of a state, he was brought in creed upon him the conviction anything but a belief that a democ-racy that plunders and enslaves a peo-ple is any better than any other desootism guilty of the same offense, or hat the practice in the one case will be State Official on Excessive Taxation, by Franklin Smith, in Appletons' Popu-lar Science Monthly, for April.

MONEY AND BUSINESS.

in, petroleum, wool, silk and india rubber was the most important change last week. Though slight, these changes all helped to place the industries on a more wholesome footing, though more are needed, and in the same direction greater changes in leather and hides and a few other materials. Cotton need not be included, as the spinners of this country have had opportunity to take all the supplies they need until next September. Its price again rose a six-centh on speculative transactions, and with some improvement in quality the quotations for hides at Chicago rose slightly, while split leather is half a cent dearer. The concessions in wool since April 1 have averaged about a third of a cent, since holders find that millers are not compelled to buy for the current season, as was expected. Com-petition of outside producers causes re-duction of anthracite stove size to \$3.90 net in the harbor, and, after 17 weeks without change, refined petrileum has dropped from 9.9 cents to 9.5 cents. Italian silk is about 15 cents lower, and No. 1 Lehigh iron is quoted at \$23, against \$25 about January 1. After every abnormal rise, however legitimate its cause a readjustment of prices for its cause, a readjustment of prices for materials is necessary before full orders for finished products can be expected The weekly output of pig iron, only 280,482 tons, against 292,64? on March 1 resulted from the stoppage of a fev

furnaces in the central region, whill as many others started, of which two is f the proverbial-not the real-Job, the Tennessee added 2,500 tons weekly act of a Hobart, the politeness of a cast of a Hobart, the politeness of a cast of a Hobart, the politeness of a was also a general decrease in output of the furnaces running, owing to irregular supplies of coke and ore. The known supplies of coke and ore. The known supplies of coke and ore. during March, but as nearly the whole production is now distributed on orders covering a long time to the various consumers, their stocks which are not re ported must have increased largely, it or products. The Pittsburg report to for products. The Pittsburg report to that paper terms the demand "fright-fully small," and attributes the fact to general belief that current prices can-not be maintained. But the combinaions hold sheets, wire and wire nails in plates and structural forms without change, though the Eastern Bar Asso ciation is called practically dead, as Billets are also quote \$1 lower. \$32 a

n boots and shees, it is stated, at price elow the advances now asked, with the understanding as to the difference hat the makers shall "take it out one shoe." This means that dealers d ot find it practicable to establish the igher retail prices which the makers laim they are compelled to charge by he advance in materials. But new or ers are remarkably light for the sea on, and shipments from Boston in tw rease in recent buying appears to have been much greater. Whether the leather producers are wise remains to be seen their prices are now only 3½ per cent below the top, though the average for hides has declined in the same time 11½

er cent at Chicago. The strong assertions by some wooller and cotton manufacturers as to the state of their business does not alter the fact that many of the mills have been and are running short time or not at all and seeking orders without success. Thus, "The Financial Chronicle ays of the drygoods market: "The re novement to "consumers has failed to come up to expectations so far this sea con;" "there are some lines of fancies oth woollen and worsted, which hav not done well and for which further orders are being sought at irregular prices," and the "home demand for rown sheetings is dull and on forward contracts sellers are easier to deal with." Not a sale of regular print cloths has been reported at Fall Rive for several weeks. However men in speculation try to deceive themselves it is natural that with cetton and woo at present prices buyers of goods would nappiness than in the other .- (From A | not, Sales of wool are small, with fre quent concessions known, and other sales at prices not known.

The cotton situation is one of anxiety of 500 pounds March 1, when commer cial stocks of American abroad and affoat were 1,721,000 bales, but in March 628,202 bales were exported from this country to Europe, and in two weeks of April 274,753 have been exported, early all to Europe, which would make supply of nearly 3,459,000 bales for consumption after March 1. If Ellison's

The yielding in prices of coal, iron, 1,630,000 bales is held abroad in com-

been 6,733,616 bushels, flour included, against 5,368,419 last year, partly making up the decline in March, when only 13,089,464 bales went out, against 15,654,221 last year. This makes the total 13,089,464 bales went out, against 15,654,221 last year. This makes the total imports thus far 144,503,359 bushels this year, against 188,532,090 last year, indicating that the year's exports may be about 180,000,000 bushles. The price yielded last week a small fraction. Corn exports this month have been 7,161,034 bushels against 6,390,779 last year, which, with 14,756,355 in March against 16,131,196 last year, makes 170,478,492 bushels for the year thus far, against 137,445,312 last year. This promises a year's total very close to that of 1898, which was 212,000,000 bushels. The price declined during the week half a cent. declined during the week half a cent.

Stocks closed with exactly the same

vere \$58,144,376, and on United States coads \$52,944,699, a gain of 13.3 per cent n out by profit taking last week. In-10 of \$65.64 a share, against \$66:72 the week before, but only 83 cents a share higher than February 10, before the rise egan, while railroad stocks average \$4.34 a share higher. The stubborn holding of high prices does not promise pears to cause alarm, except for the

QUEER SPRIGS OF GENTILITY

Queen Victoria broke the news of her determination to visit the Emerald isie in startling fashion to the members of the royal family and suite. One night, when Lord Lansdowne was included in the royal dinner party, the conversation having turned upon the weather, he remarked, "I trust, madam, that you will marked, "I trust, madam, that you will find it warm in Italy." The queen looked up rather quickly, and, in unusually distinct accents, audible all along the table, replied: "I have quite made up my mind not to go to Italy, but to Ireland; my Irish subjects and myself ought to see one another." This was the first intimation of her Irish trip, and it is not too much to say that those who heard her majesty's remark felt and heard her majesty's remark felt and looked dumfounded.

More than once of late those around More than once of late those around the queen have heard her regret that age should prevent her doing much that she would like. Last month she observed to one of her guests, conversing in the corridor at Windsor castle after dinner, that if she were twenty years younger she would visit Australia. This is a semantically statement considering is a remarkable statement, considering her advanced age, and will certainly give great pleasure in the antipodes. It breathes the spirit that impelled her majesty to study Hindustani since taking the Indian servants into her employ.

The vexed question of the White lodge finally been decided. The queen suddenly announced that she had presented that mansion to her daughter, the dowager empress of Germany. White lodge is to be entirely refurnished and the treasures which the art-loving empress has been accumulating during many years will be collected and armany years will be collected and arranged there. The tenancy is for life, subject to the royal tenant's right to quit what is a private mansion in the gift of the queen. It will be a great joy to her majesty and the cause of much gratification to her eldest daughter that the latter will have "a home of her approximations of the second statement of the second state own" in England.

DUSINES.

1,630,000 bales is held abroad in commercial hands or afloat, and if millers can buy more cheaply here they will. Only 138,191 bales have come into sight since this month began, against 227,236 last year, but the price apparently rose because some people had sold more than they owned.

The exports of wheat this month have been 6,733,616 bushels, flour included, against 5,368,419 last year, partly making up the decline in March, when only enced jockeys riding against him.

average as on Saturday, the 7th, for 60 railway stocks only 55 cents below the average of September 5, which was the highest for 17 years. The earnings in March, reported by "Dun's Review," much as is generally supposed. On one occasion she consented to be present at ar. East End concert, and went by train, over last year, 23.4 over 1898 and 31 per as being quicker and warmer. The cent over 1892. Such business justifies geniteman who had got up the concert accompanied the princess, and, getting into the compartment at the last moment, was jerked violently onto the seat in front of her. His dismay was great when the princess, with a twinkle in her eye, said, "Oh, Mr. B---, do you know you are sitting on my very best connet!' She had taken it with her to put on during the performance. she described her sensations during a certain very terrible amateur perform-ance on a cornet as resembling "what one feels when all the hairpins are running into one's head!'

> The determination of the Duke Norfolk to depart for the front with the rest of the Sussex volunteers took the public by surprise. Of course he had to send in his resignation as postmaster general. This was accepted with great reluctance. The duke's only brother, and virtual heir-presumptive, Lord Edmund Howard, is a cavalry officer of many years' experience, aid de camp to General French, and has had several close brushes with the enemy. On one occasion his horse was shot under him.
> As a matter of fact, neither the relatives nor friends of the duke quite see the force of his grace's determination to imperil his life as he is doing; but, being one of the most obstinate, as well as one of the very best of men, he, having got the fancy in his ducal head to see life at the front, is quite determined to have his own way. His sister, Lady Margaret Howard, who died last year, was the only member of the family who ould exercise any influence over him. One would think that to so conscien-tious a man the duties he is called uopn o perform at home, not only as head of a great department of state but in his private capacity as a great noble and landowner, would have counterbal-anced the possible services he may be able to render as a volunteer officer in

to wear the shabblest hat in London. He is a middle-sized, muscular man, with merry, kindly dark eyes and a leasant manner. His black hair and peard are turning iron gray, his face s deeply furrowed with sorrow and deep anxiety. He is a true friend, a genial companion, one of the best, noblest and most unpretending of men. His own house in St. James' square has remained as it was when his duchess died, and is a dull and old-fash-ioned abode. She was Lady Flora Has-tings, a sister of Lord Loudoun. For tings, a sister of Lord Loudoun. For some years after the marriage it was feared that no heir would be born, and when a son did appear his fragile and invalid state was a very great sorrow. The duchess died after ten years of maried life. She was a fascinating, though ried life. She was a fascinating, though not a handsome woman, and the duke idolized her. He erected a chapel of black and white marble, with a most touching inscription, to her memory in the Brompton cemetery. The duke is the head of the Catholic world in England. He is wealthy, but not so much so as the Marquis of Bute, his near connection. He is an enthusiastic playnection. He is an enthusiastic play-goer, his taste lying in the direction of the old-fashioned, good plays. He in-variably attends one pantomime at least every year, and loves the jokes, which applauds heartily.-(Duchesse de

THE COLORADO SPRINGS

Look Out for a Big Market.

Notwithstanding Stocks have advanced strongly during the past two weeks, a greater advance will surely come. Prices are still low in the case of many of the really meritorious Stocks. Those who were waiting for "the bottom of the market" a few weeks ago, now see the short-sightedness of such a course. It is infinitely better to buy within half a cent or a cent of the bottom than it is to wait and then buy several cents higher. Those few cents would now represent a good profit had you not waited "for the bottom." There are many good purchases on the list now. Write us, and we will give you our carefully-considered recommendations.

A GOLD HILL SNAP.

A certain Gold Hill Stock represents one of the best "buys" on the list, in our opinion. The company is soundly managed, and owns a fine claim on the very richest part of Gold Hill. The two sets of lessees now working this claim have ore. The Stock is cheap, and is a snap at present prices.

Particulars upon request.

WINTING OTOCK EXCHANGE
Colorado Springs, May 24.—There was only one call held today, as the brok-
rs of the two boards met to decide some differences in the afternoon. The mar-
et, nowever, on the Colorado Springs mining stock exchange was in a very
cod condition, notwithstanding the fact that the trading was considerably
ghter than it should have been when one call had to stand for two. But prices
re very strong, several good advances being noted, and the instances of weak-
ess are very few. 'The shipping mines are still the most popular traders, and
he mines list this morning received the best part of the trading, although there
ere several stocks in the unlisted department which were very active.
In the mines list, Argentum-Juniata was the first trader and sold lightly at 0. Anaconda, coming next, weakened still further, selling down to 24. This
o. Anaconda, coming next, weakened still further, selling down to 24. This

20. Anaconda, coming next, weakened still further, selling down to 24. This stock is not exactly popular at the present time. Cripple Creek Consolidated gained fractionally to 14%, but Dante was rather off color and sold at 13%. Elkton did not lose a point of the big advance which it has made in the past few days and advanced still further this morning, closing with 500 shares selling at \$1.47%. An interesting item in regard to Elkton will be found among the mining notes on page 6 of this issue. El Paso was weaker at the opening, but gained fractionally during the call, and Findley sold at 15. Ingham was a heavy trader, but sold at prices which are somewhat lower than yesterday's figures, and Isabella sold down to \$1.27. Lexington gained fractionally, and Butterfly-Terrible remains stationary at 20. Portland is weaker still, but there is very little of it for sale, the only sale recorded this morning being 100 shares which changed hands at \$3.40. In sympathy with Elkton, Raven advanced still further to 75½, and Specimen was very strong during the call. Work sold at 32% and Zenobia at 15.

at 15.

\$

\$2,250,000

Was the output in gold of the Cripple Creek mines for the month of March. This is at the rate of \$27,000,000 for the year 1900. Unless the threatened shut-down of many mines occurs, on account of excessive transportation and reduction charges, the output will exceed \$27,000,000, and may reach \$30,000,000. This is a wonderful record for a district only nine years old, but it is only the beginning. The number of producing and dividend paying mines is steadily increasing and it will be years before the maximum output of

WHY ARE PRICES FALLING

I am receiving numerous inquiries from all over the United States why many stocks are falling in price in spite of the splendid condition of the mines. INFLATION IS THE CAUSE. Owing to this splendid condition of the mines, owing to the immense output of gold from the good mines, it has been possible for some companies to float their stocks at far above the intrinsic value of their properties. Other stocks have advanced through sympathy with good stocks or through shrewd manipulation, far beyond any price warranted by the development, present condition or future prospects of their mining claims. These fictitious valuations could not be maintained and a reaction was inevitable. Nicely worded prospectuses filled with "glittering generalities" and extravagant promises may sell stock, reports of big strikes and exhibits of high assays may satisfy the purchaser for a time, but, soon or late, the truth becomes known. If a claim is shipping a few tons of ore per month, the agony is often prolonged and the public led to believe that another dividend payer is budding out,

It is the flotation of so many of these inflated stocks that is causing a steady drop in prices, and the threatened shut-down of the mines is not the prime cause, but only gives another shove.

The market moves up or down usually as a whole. Many good stocks have been caught in the general downward movement and are selling far below their actual value These stocks will react and are now splendid investments.

WEED OUT YOUR INFLATED

The longer you hang on to them, hoping for a turn, the more money you will lose. Among the worst inflated stocks on the list, in my opinion, are ALERT, ALAMO, COLORA-DO CITY AND MANITOU, GOLD SOVEREIGN, LEXINGTON, NATIONAL, PAPPOOSE, POINTER and VOLCANO. All of these are a sale down to one-third or one-quarter of their

Articles of incorporation for the Volunteer Mining Co. were filed with the county clerk yesterday. The incorporators are H. G. Lunt, F. E. Brooks and O. B. Willcox. The capitalization is \$1,000,000.

Monte Rosa lodge Daughters of Re Monte Rosa lodge Daugnters of Re-bekah, wil meet in social session at the residence of Capt. and Mrs. Seth Baker, 2015 North Tejon street, this evening. All are cordially invited and all visiting brethren and sisters will be

The many friends of Mrs. Annie E Culp, formerly of this city but now of Phoenix, Ariz., will be surprised to learn of her marriage there on April 26th to Mr. Malcolm Schooley. Mrs. Schooley was for many years clerk in the offices of Drs. Purman and Martin, of Phoenix of Phoenix.

Quite a number of flags were seen in the streets yesterday and to see a small Union Jack in the buttonhole side by side with the Stars and Stripes was no uncommon sight at the ball game. The reason for this was that it was Queen Victoria's birthday. The day was celebrated in a quiet way in many homes in the city but there was no demonstration of any kind.

There was a small blaze at Woodburn on the Cheyenne road Wednesday night. The fire was caused by the burning of the tent occupied by Mr. Fred R. Smith of the First National bank. Mr. Smith is building a house on his property and in the meantime is living in the tent. The canvas was ignited by an overheated stove pipe. The entire loss amounted to about \$75.

The auction sale of the household goods and furniture belonging to Maria C. Bradford, deceased, which was held at the Temple Theater yesterday, will be continued today between the hours of 10 a. m. and 5 p. m. These goods comprise the furniture of No. 750 North as the Gwynne residence. Among the costly articles to be sold are pictures rare glass and china, rugs, a magnificent elk head and an antique cabine which it is said more than the costly are the costly are sold as a supplied to the cost of the cos which, it is said, was once the property

Wm. and Hugh Casey were taken in by the pofice yesterday. Hugh was taken up on the execution of a sentence that was suspended by the police judge a few days ago and William was there for disturbance. The brothers were released from custody a few days ago and promised the department at that time that they would lose no time in leaving the city. The promise was better than their resolution and they were returned in conpromise was better than their resolution and they were returned in consequence. It is said that after the brothers were given a leave of absence from the city they fell to quarreling and that they had not finished when arrested.

A large number of the members and friends of the Swedish Lutheran church gathered Wednesday evening at the home of Rev. and Mrs. Geo. E. Youngdahl, 502 West Platte avenue. It was a surprise on Mrs. Youngdahl, who for the past year and a half has filled the position of organist of the church without compensation. After a short pronostion of organist of the church with-out compensation. After a short pro-gram of singing and music Mr. A. P Sterner on behalf of those present made a short speech and presented Mrs Youngdahl with a purse of \$40. The Rev. Mr. Youngdahl responded in be-half of Mrs. Youngdahl, thanking for the kindness and good will which again. the kindness and good will which again as often before had been manifested. Refreshments were served and a good time was enjoyed generally.

When Watt Elstun was arrested on Wednesday night he was found to be in possession of two quart bottles of whiskey and the officer said that he possession of two quart bottles of whiskey and the officer said that he considered the prisoner under the influence of liquor. When arraigned in police court yesterday morning, however, the prisoner surprised the judge comewhat by the assertion that he ad not been drunk and that he was under the pledge. He says that he has not been drinking for several months past. He also said that he was not taken to police headquarters by an officer but that he had gone there of his own free will to see a friend. Under the circumstances, the court thought best to continue the case for a day in order that the matter might be investigated. Officer Sixt, who arrested Elstun, says that he tried to get the latter to go home but he refused. The arrest followed as a matter of necessity.
