TO PRESERVE THE HEALTH USE THE

Magneton Appliance Co.'s

Magnetic Protector!

PRICE ONLY \$5.

They are priceless to ladies, gentlemen and children with weak lungs; no case of pneumonia or cough is ever known where these garments are worn. They also prevent and cure hoarseness, colds, rheumatism, neuritis, throat troubles, diphtheria, catarrh, and all kindred diseases. Will wear any service for three years. Are worn over the underclothing.

Catarrh. It is needless to describe the symptoms of this most common disease. That is saprophytic life and strength of only too many of the finest and best of both sexes. Labor, study and research in America, Europe and Eastern lands have resulted in the Magneton Lung Protector, affording care for catarrh, bronchitis, and with the continuous stream of magnetism permeating through the underclothing, must restore them to a healthy action. We place our price for this Appliance at less than one-twentieth of the price asked by others for remedies upon which you take all the chances, and we especially invite the patronage of many persons who have tried drugging their stomachs without effect.

How to Obtain. Go to your druggist and ask for them. If they have not got them, write to the proprietors, enclosing the price in full at our risks and they will be sent to you at once by mail, post paid. Send stamp for the "New Departure in Medical Treatment without Medicine," with thousands of testimonials. THE MAGNETON APPLIANCE CO., 32 State St., Chicago, Ill. Note.—Send one dollar in postage stamps or currency (in letter at our risk) with size of shoe usually worn, and try a pair of our Magnetic Insoles, and be convinced of the power residing in our Magnetic Appliances. Postively no cold feet when they are worn, or itching or itching.

Memphis Route South.

KANSAS CITY TO MEMPHIS Without Change of Cars!

The attention of the people of the west and north-west is called to the Memphis extension of the Kansas City, Ft. Scott & Gulf Railroad, now completed and in operation between Kansas City, Mo., and Memphis, Tenn. The completion of this short line to the south brings that heretofore to the West practically inaccessible section into close relation with the west and north-west to the very great advantage of all.

Extraordinary Offer to All Wanting Employment.

We want live, energetic and capable agents in every county in the United States and Canada, to sell a patent article of great merit, on its merits. An article having a large sale, paying over 100 per cent profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages to our agents, and the fact that it is an article that can be sold to every house owner, it might not be necessary to make an extraordinary offer to secure good agents at once, but we have concluded to make it to show, not only our confidence in our invention, but in its salubrity by any agent that will handle it with energy.

The Rico Ore Market.

The Telluride Journal pays the Pasadena people this deserved compliment: "The immense success of the Pasadena smelter at Rico, in the treatment of the ores of that neighborhood, coupled with the indefatigable energy of the management of the same, has brought in the field a powerful competitor to Pueblo and Denver ore buyers. Few mill men of the San Juan display such untiring perseverance in their efforts to aid in opening up the country and at the same time establish the success of their works and make them remunerative. Not alone is Rico subject to congratulations upon the ore market that is thus opened up. In their efforts to establish themselves in San Miguel county the Pasadena folks are offering every inducement and announce that they will meet the figures of any and all competitors. A few days ago a private letter to a Telluride firm explains their feelings, and after a perusal of the same we are permitted to make the following extract which will give our readers an idea of the object, in view by the Pasadena in particular and Rico in general.

We are greatly interested in having a good road to our county line, and we will certainly build it. In fact we are working on this end now as much as the weather will let us, and will increase the force as fast as the season opens and permits. If your county and people will do the same thing at that end before three months we will be shipping all our freight and doing all our business in that direction. Our people are ripe for it, and all you have to do is meet us. By joining hands then we will bring a railroad in. We are making on an average of four tons of bullion now daily and from the ores of our camp alone. Let us get the ores North, which go so nicely with ours, and it will be a great benefit to us all. We are now arranging to enlarge our works to fully double present capacity, with a view to handling your ores. If you can, and all your merchants and mine owners join hands and let us "pool our issues" you will see that our country will "blossom as the rose." Excuse the length of this letter, for I am greatly interested and desire to have you all look into the matter at once, and let us get together this season and the winter will be conquered before it comes.

More Dynamite in Colorado.

The use of dynamite in Colorado seems to be assuming rather alarming proportions. Last Saturday night, at about a quarter past 8 o'clock, a terrific explosion occurred near the Rio Grande depot at Gunnison. A dispatch from that city gives the particulars: "It appears that the Denver express, which was due at 9 o'clock, was an hour late, and a freight which was due to leave after the arrival of the passenger train, pulled out without waiting as usual. About 300 yards east of the depot the engine ran over the explosive and a crash followed.

No Divorce for the Slugger's Wife.

The suit against John L. Sullivan, brought by his wife for divorce, attracted an immense audience of the pugilist's admirers in Boston last Friday. The testimony given by Mrs. Sullivan and other witnesses for the plaintiff went to show that Sullivan was abusive and addicted to the excessive use of liquor and has beaten his wife on several occasions. Sullivan testified that he had never been drunk, though often "full." He swore that he had never struck his wife, and that the latter was in the habit of drinking whenever he did. She left him on December 6, 1884, and he had never seen her since till he met her in court.

Magnetic Kidney Belt!

WITHOUT MEDICINE. A valuable discovery for supplying Magnetism to the human system. Electrically and Magnetically utilized as never before for healing the sick. THE MAGNETON APPLIANCE CO.'s WARRANTED TO CURE. Or Money Refunded! To the Ladies. If you are afflicted with back pain, weakness of the spine, falling of the womb, irregular menstruation, leucorrhoea, chronic inflammation and ulceration of the womb, barrenness and change of life, this is the best appliance and curative agent known. The Ladies' Medical Adviser.

A Complete Medical Work for Women, handsomely bound in cloth and illustrated. Tells how to cure various diseases of the sex, with treatment at home. Worth its weight in gold. Over 10,000 sold now. Postpaid, only 50 cents. Postal note or 3 cent stamps. Address NUNDA PUBLISHING CO., Nunda, N. Y.

Rich Strikes at Rico.

B. F. K. in Tribune-Republican. The air is filled with rumors of strikes galore. Rich strikes are reported from a half dozen various sections of the camp, but your correspondent has been unable, from press of other business, to examine into them. He will content himself with the mere statement that he has seen some handsome specimens. Though the season may not be said to have opened, more work is being done in the district than ever before. The boys have "got down to business." They are not haunting the hotels to sell their prospects and mines to capitalists any more. They have abandoned their numerous prospects and are concentrating their energies on only one or two favorite locations, which show well, developing these in a thorough manner. Rico expects and wants no boom. Its people have held on, through good and ill report, with an abiding faith founded on the conviction that in the mountains surrounding the camp are mines second to none in the State, and intelligent development has proven this claim in every instance.

The Pasadena Smelting Company has about three hundred burros packing out bullion between here and Rockwood, and has still seven car loads on hand for transportation facilities. To keep well up in its business this company will constantly employ 500 burros, eighteen heavy road wagons, with forty-five yoke of oxen and all the available local teams, to handle a daily tonnage of from fifty to sixty tons. A road is being built up the Dolores Cañon seven miles to the coal banks, or rather to the coke ovens of the Pasadena and the Grand View Smelting Companies. The latter company is making improvements in its plant there and the former is increasing its capacity by adding two new ovens. The coal yard of the Pasadena at that point is nearly completed. It consists of a store room with a capacity of 1,500 tons and a wagon chute of 150 tons more.

This coal station is principally established for the convenience of the camps on the San Miguel, from whence a great quantity of ore is expected for treatment at our various reduction works which will be stored here (for transportation by local teams to its destination), the return load to be coal, furnished at such low rates as to put competition virtually out of the question. Coal yards are being established for this purpose at Telluride, Ophir and Ames.

Friend Frank.

Friend Frank:—I arrived here on the 5th of April and have been thinking every day since of writing you and letting you know what kind of a country this is. For one thing, it is the dirtiest country I ever saw. It is rich in gold if a person can judge by the specimens that every one carries, but I have seen no mines yet, and will leave for them in four or five days. I think you have done well to go back Frank, for from the time I left you, it has cost me \$425 to live, and everything is very high in the country. Bacon costs \$1.50 per lb; ham \$1.80; sugar 75; and everything else sells in proportion. This city is 12,000 above sea level and the air is quite chilly at all times, and there are only three stores in the entire city. It is a big change from Honduras here. The winter commences here on the first day of June. Have not seen Boone May yet as he has been away to the placers for ten days, and when he returns I will go back with him. Kind regards to all the boys in Ouray. Will write soon again. Your friend, E. CHAREST.

Telluride News.

The News is one year old to-day. Harry Sleshy, went over to Rico Monday, and will return to-day with Ed. Davis. Jimmie Griffith is over from Rico. He will be the property man at the Brunswick as usual. Henry Burnett, goes to Rico to-day to furnish his brother with burros for packing ore to the Pasadena. Business is improving every week all over the San Juan country. The Rico country is at present receiving quite a boom and attracting a great many people. An attempt was made to blow up the residence of John Mackey, West Denver, last Friday night. Giant powder, with fuse and candle attachment was the construction of the infernal machine which failed to explode. The News has received, with compliments of Hiram A. Spruance, Superintendent of insurance, a carefully compiled insurance report of Colorado, for 1884.

Some Old Mines.

Everybody, says the Kansas City Star, has heard of the marvelous wealth of the old Spanish mines and of the romantic history that surrounds them. The Spanish governors received millions of tribute from them, and loaded galleons with silver ingots for Spain. The lives of generations after generation of peons were worn away in carrying the rich ore from the deepest levels up the pole ladder, niched on either side for steps, in rude sacks made of skins. Instead of modern steam pumps to keep the shaft free from water, the native workers used the same rude sacks in which they carried up the ore. Even when worked in this primitive way, with no better smelter, too, than a small abode furnace, the mines turned out fabulous amounts of silver. The old Spanish records still preserved in the churches show millions of tribute from them to the Spanish king. From one mine alone, the Preato, an old record shows fully \$19,000,000 to have been taken.

With the end of the days of Spanish governors, the lazy natives began to work the mines more carefully, until finally their shafts filled up with water, and the only ore they could obtain lay above the water level. So they worked on for years, satisfied to get enough to pay for their lazy existence, until the enterprising American citizen put in an appearance and began to "prospect." It was not long before he guessed that untold wealth might lie beneath the water in the all but deserted shaft, but money was needed to get the water out and to put up machinery for working the mines according to modern methods. In many cases the money was forthcoming, and the mines once again to give up their treasure; but in many others the enthusiastic prospector could find no one who shared his enthusiasm and was willing to "put up the dust," so the old mines remained unworked, except as the lazy Mexicans saw fit to burrow round above the water line and smelt in their little furnaces a few cart loads of ore from time to time.

It was eight such mines as these that were bought up about two years ago by an American company and energetic work begun. Specimen ores are now shown which assay as high as \$200 per ton. The locality of the mines is Chihuahua, Mexico. Millions of tons of rich ore lie within easy reach, and they have machinery on the ground to begin work on a grand scale.

LA PAZ, Bolivia.

THE SPECIE RESERVE in the Bank of France on the 7th of May, 1885, amounted to \$429,600,000, of which \$213,160,000 was silver coined at a valuation that would make our dollar of 412 1/2 grains worth 103.06 cents, and which, if valued with respect to gold as silver is valued in our standard dollar, would be worth but about \$208,637,000.—New York Mining Record.

TERMS IN ADVANCE: One copy one year \$3.00, One copy six months \$1.75, One copy three months \$1.00, SAMPLE COPIES TEN CENTS.

MINING MATTERS.

RICH STRIKES ALL AROUND THE C. H. C.

THE PRINCETON, ETHLENA AND PIGEON ALL SHOW FINE MINERAL.

ONE HUNDRED AND SEVENTY DOLLAR ORE IN THE GOLDEN AGE.

THE PUZZLE EXTENSION. The Puzzle Extension resumed work on Tuesday last, under J. O. Campbell, for the owners.

THE CAVE LODGE. Frank Collier is persistent with his tunnel to cut the lode of the Cave location, and hopes and believes he will cut it within the next two weeks.

THE SOUTH PARK. The rumors of a strike of 900-ounce ore in the South Park is said to be false by those who are in best position to know.

THE GRAND VIEW. The winze to connect the Grand View workings is now 70 feet down, and about 105 feet yet remain to be sunk.

NEW METALLURGIST. A new metallurgist for the Grand View Co. arrived on Monday and will superintend the operations of the furnaces of the Grand View smelter this season.

FOUR FEET OF ORE IN THE PIGEON. The Pigeon tunnel now shows four feet of ore in the breast, which the owners claim will mill over 40 ounces.

THE PASADENA. The Pasadena has turned out bullion all the week with its accustomed regularity and will ship some of the product tomorrow.

THE ETHLENA STRIKES ORE. On Wednesday the miners in the Ethlena tunnel struck gray and yellow sulphide of lead in 67 feet. Tests on the ore in this tunnel returned 123 ounces and a shipment will be made early in the coming week.

THE PRINCETON STRIKE. The strike in the Princeton tunnel made last Wednesday is one of the most important it has been our pleasure to chronicle for some time.

THE APACHE OUTBREAK. Daily papers have for two weeks contained accounts of the horrible brutality of the Apaches, who under Geronimo, are raiding through portions of New Mexico and Arizona.

A DENVER man created a great sensation on Sunday last. He was a passenger on the Wabash train into Chicago and between Kansas City and Chicago became insane to all appearances.

THE APACHE OUTBREAK. Daily papers have for two weeks contained accounts of the horrible brutality of the Apaches, who under Geronimo, are raiding through portions of New Mexico and Arizona.

THE FAMED BASIC MINE. The famous Basic mine, which has paid hundreds of thousands of dollars in dividends in the last year, this week had liens filed against it for \$30,000; \$6,000 is for wages due the miners, and the remainder for machinery.

SOME OF THE DAILY PAPERS say that ex-president Rutherford B. Hayes sold his saloon in Omaha last Monday for \$14,000, in deference to the wishes of Mrs. Hayes.

THE DEL NORTE PROSPECTOR makes this note of Rico's prosperity: "The Pasadena smelter, at Rico, advertises for the ore of this vicinity. This is what Colorado camps have been sighing for for years—a home market for ores—and Rico should be happy."

THE APPOINTMENT of a governor of New Mexico to succeed Lionel A. Sheldon has been made, and the lucky individual is Ex-Senator E. G. Ross, a democratic editor of Lawrence, Kansas, who used to operate in mines over at Silverton.

MARK ATKINS, of the late Montrose Enquirer, will remain with the Ouray Muldoon this summer while Dave Day rustles with the output of the Dexter No. 2.

SAM PEDERIFT, the disgraced sheriff of La Plata county, passed through Alamosa last week en route to California. Gone to join Smalley.

DAVE FRANKS has received the appointment as postmaster of Ouray, taking the place of Albert Moore, resigned.

Men Think

LUNCH at the New Short-order Restaurant. Open day and night. THE rink has been secured for a Fourth of July dance, after the races. NEW Style Dress Buttons just this afternoon received at Holmes'. JACK LYON came down from the Leila Davis this week and is quite sick. E. S. WILLIAMS represented the agricultural region in Rico this week. ED. CLARY the burnt-cork comedy artist of Durango was in town this week. FRANK H. BISHOP will take his departure in a couple of weeks for Denver. BETWEEN sales, leases and strikes, the local mining world presents a busy field. TRY Colesworthy's Short-order Restaurant for well gotten up meals at any hour. CHARLIE CLIFTON, "Lame Charlie," will be here in a day or so to assist at the O. K. Restaurant. SUBSCRIBERS to the Fourth of July fund will meet at Swickhimer's at 4 tomorrow afternoon. Mrs. LAPE PENCE and Lape Jr., have both been quite sick and are now in Columbus, Indiana, on a visit. COLESWORTHY has just put in place a reflecting street lamp at the corner of Glasgow and Mantz avenues. Miss SMITH, now at the C. H. C. boarding house, will soon take charge of the Little Maggie boarding house. FRESH vegetables, onions, radishes, lettuce and the best of the market at the New Short-order Restaurant. Mrs. BEIDLER took charge of the Grand View boarding house on Thursday and will remain during the summer. GUS HEFFERNAN has made arrangements to open a tent saloon at the coke ovens and will move up a stock of liquors in a few days. Miss LIZZIE SIMONS came in from Durango yesterday and will remain. She was here with the Geo. Spencer family three years ago. JOHN BISSELL left for Pittsburg on Tuesday, and will remain there indefinitely, settling up the estate of his father, lately deceased. Mrs. JOHNSON has announced her intention of deserting this neck of woods and will try the region generally known as "The Reservation." MONDAY's coach brought in G. W. Bryan, metallurgist, and Roger W. Schofield, assayer, for the Grand View company. They came from Detroit. A YOUNG hopeful says he don't like Mrs. Darling as a school teacher near as well as Mr. Loring. He says Mrs. Darling "can't play base ball." A PACK-TRAIN is expected to arrive to-day with 3,972 pounds of groceries for this party who is running a store down on the corner. "Everybody knows him." RAPP & Co. have a display announcement to make this week and ask that purchasers give them a call when in want of the various articles specified in their ad. B. KADISH, late assayer of the Grand View, went out on Tuesday. He has not entirely severed his connection with the company and expects to return in a few days. GEORGE JONES, the freighter, came in this morning. He left his teams some distance up Scotch creek, but hopes to arrive in town with some of them to-morrow. DICK TURPIN, of the Leila Davis mine, cut his foot quite badly this week. He was footing timbers and his footing gave way, throwing him off his balance as the ax descended. Mrs. ALEX BARLOW went out on Tuesday's stage and will reside on a farm near Alton, Illinois, in the future. In the sweet subsequently she will be joined by her husband. Ed. L. DAVIS started out for Telluride at 1 a. m., Monday. There was no particular reason for his leaving between two days, except his anxiety to cross the meadows before the thaw. Miss EMILY POWELL returned last evening from her trip of health and pleasure to the Springs, not quite improved. She was in Durango quite a while visiting Mrs. J. H. Alderson.

SPAULDING'S bats at P. O. Drugstore. GLOVES (catcher's) at P. O. Drugstore. CANDY and worm lozenges at P. O. Drugstore. BASE-BALLS (Spaulding's League) at P. O. Drugstore. ALL—young or old (who have never had worm fits) go to the P. O. Drugstore and buy your candy. Warranted, sure pop. EVERY working mine in the vicinity of the C. H. C. uncovered good bodies of ore this week—the Princeton, the Pigeon and the Ethlena. They prove a wonder fully rich and extensive mineral section. P. P. STEINWANDER has been in Rico all the week arranging to open a fruit and confectionery establishment in the old Sehwenk building. He is of the lately dissolved Durango firm of Steinwandler & Scholer. FRANK C. LORING has removed bag, baggage and baby to the Hewitt house on Commercial street, once occupied by the McGraw family. His office will in future be over the hardware establishment of Wakeman & Pellet. L. O. TOWNE returned on Tuesday from his trip to his landed possessions 18 miles down the river. He wishes it distinctly understood that the horse that "never bucked" scored a fall for Percy Abbott as well as himself. HARRY CAHN will not be outdone by his younger brother, Nate, and is the father of another boy, born at West Las Animas a week ago last Sunday. The market is receiving frequent invoices of Canned goods of this brand. E. A. WILDER, the Durango photographer, arrived last evening and will remain two or three weeks and will picture the visages of Rico people upon innocent bits of photographic material. Mr. Wilder was located in Rico in 1880 and 1881. H. J. HARDESS, once a popular metallurgist with the Grand View and Rico smelter, is still up in the Wood River (Idaho) country. He has been with the Philadelphia Mining & Smelting Co. at Ketchum, for two years and sends his regards to all the boys. "LAW sakes," said old Mrs. Rellet, "all Malinda thinks of now is the skat' rink. And she's got so high-toned a rollin' round on them wheels that she can't even go her old mother's home-made bread now, an' she talks all the time about the Dutch rolls they have down there." GEO. A. SANBORN returned yesterday from Calico district, California, where he has been for some months with Billy Shaw and Charlie Bullock. He returns to stay here and will work the Belzora at the forks of Horse gulch, one of the properties in which he is interested. We have heard of mean men who would steal clothes from a line, but we would be pleased to form the acquaintance of the low sneak who has twice within a week cut down and stolen the line in our back yard. He left the post which he can have by calling after business hours. THE Hill Schweitzer case was on trial before the county court on Tuesday on appeal from the decision by a jury in the court of Justice Loring, when a verdict for Schweitzer was given. Hill again lost his case on Tuesday. Attorneys in the case: Thompson for Hill and Packer for Schweitzer. Motion for a new trial was made. D. MCINTYRE started out for Denver this morning where he goes to purchase machinery for pressing brick. He will establish a brick yard here and will burn brick for the Pasadena smelter and the new store of D. A. Holmes. He starts up with a contract of 100,000 brick, and expects to double or triple that quantity. It is reported that Mrs. Tom White, a sister of Jim Nemeyer, recently caught a trout up at Trout Lake, which is the largest ever known in this section. The fish was caught with a snare and weighed 3 1/2 pounds. If this is correct it is far the largest trout ever taken in mountain waters, and we do not credit the report in its entirety. LAST Wednesday evening the following officers were elected by Silver Crescent Lodge No. 40, and will be installed at the first regular session in July: D. R. Clay, N. G.; J. T. Beale, V. G.; D. Hayden, R. S.; C. K. Holmberg, P. S.; J. F. Wannemaker, T. BANKERS who are disposed to operate a bank on a business basis and for legitimate profit, are hereby invited to make an investigation of the inducements offered here. There is a big volume of business to be done, and any bank which enters the field, must recognize the fact that a sound backing and ample accommodations are needed to handle it. SAY—there are at Holmes' a few old and out of style, men's hats, some old sizes of men's, ladies and children's shoes, and a few men's cloth coats and vests, all of which are held at very high figures and it is earnestly hoped that no one who reads this (or any one else) will call and examine them before purchasing elsewhere, for you might be unduly persuaded to buy some of them. You might however drop in, be sociable, smoke a GOOD cigar (at our expense, you know) or if you don't smoke you can "chaw gum" or if you can't "go" the gum, possibly, we might "set up" the candy. There's nothing so small about us but that we hope to "get there" with it, sometime.

H. F. BUSHEY was made happy by the arrival of his wife on Wednesday, who came from Salina, Kansas. A number of friends gave them a musical serenade that evening—not a charivari. FRANK COBB, a laborer on the road, was picking down some rocks at the top of a cliff up the river and was suddenly seized with an attack of vertigo or dizziness and fell some 15 feet upon sharp rocks, cutting his face and head very badly. He was placed in a wagon and started for town before he recovered consciousness. His outs were sewed up and he will be ready for work again in a few days. A. B. BRYDON, of the St. James, has made arrangements under which he will in future be enabled to make an elegant spread every Sunday at dinner and these dinners will be made a specialty. Every luxury obtainable will grace the tables, and nearly every family in Rico will avail themselves of the opportunity. The dining room force has been doubled, and is now adequate to wait upon all comers without vexatious delays which have been unavoidable at times. DAVE SWICKHIMER has an attraction in the shape of a cub bear—one of the pair caught by Bob Snyder and I. A. McCurry near Bear creek two weeks ago. The other cub escaped, after being a captive for a few days. The cunning little brutes dug out from under the logs of a cabin in which they were confined, but the one "Swick" bought was recaptured. Dave is bringing it up "by hand," on bread and milk, but says he will soon commence a diet of an able-bodied man every morning for breakfast. COCOA BARS at Holmes'. This announcement has been made "previously before," but people seem to manifest a general apathy on the subject. By way of explanation we will say these cocoa bars are a kind of "soft snap" (also referred to "previously before") but they take to themselves a certain degree of hardness by standing around so long. Will the readers of this please "take a tumble" to themselves upon this subject. A limited number of samples furnished on application. NATE CAHN returned to Rico on Wednesday afternoon after an absence of nearly a year. He is known to everybody in Rico as a member of the old firm of Cahn Bros. and later of Cahn & Bishop, whose sign still swings on Glasgow avenue. Nath comes back with the intention of resuming business here, in the general merchandizing line, and will probably make definite arrangements on going to Durango next Monday. Mrs. Cahn and the baby will soon return and occupy the old residence across Silver creek. A LITTLE son of L. D. Eskridge, living on the La Jara, was riding a broncho last Monday, when the animal became frightened, and he was thrown, catching his foot in the stirrup and was so badly kicked that he died in a few hours. Dow Eskridge was long a citizen of Rico, as a member of the blacksmithing firm of Coleman, Eskridge & Rowley, and whatever bad may be truthfully said of his despicable brothers, he was and is a gentleman, and is one of the best citizens of Conejos county. His friends here will regret his misfortune. JOS. MEREDITH tells us that Rico will be visited about the 1st of July by Gustavus St Gem and Henry L. Rozler, officers in the Grand Duke Mining Co. Their visit will undoubtedly result in the perfection of arrangements for further development of the property of the Company. They own some very good property here, some of which can produce pay ore, but nothing is now being done. Mr. Meredith is employed as superintendent at a good salary with nothing to do. His office is about the completest sinner in this section. Rico will surely celebrate the Fourth of July in appropriate style. A subscription list has been circulated and about \$200 has already been subscribed to defray the expenses of the blow-out and more will be added. A meeting of those who have subscribed is called for to-morrow afternoon at Dave Swickhimer's to direct the method of expenditure or select a committee to attend to the matter. The arrangement of races and purses offered, and other attractions will be made known as soon as possible. At present we can only say that Rico will celebrate, and Rico does nothing by halves. THE river has been very high this week, but has fallen a foot in the past two days. The valley above Rico has been overflowed in many places and all timber used in construction of culverts, etc. is now on its way to the Grand Cañon of the Colorado. The valley road up the river will need a good deal of repairing before in even fair condition for teams. Since Tuesday night all supplies for the upper country and coke for the Pasadena smelter has been packed on burros on side hill trails. The river was very nearly as high as at any time last year when the volume of snow was much greater in the higher altitudes. AT the rink Thursday night a half-mile foot race was run between Harry Newcomb and Clint Dutcher, the former winning. There are four attractions in the way of races to night and should call out a big crowd. The first event will be a half mile race between Joe Baker and H. Duntun, the former skating and the latter running on foot. It is of course hard to tell who has the best of the match, but Duntun should make a good race. This will be followed by a mile race on skates between Newcomb and Williams. A mile race between Gus Beidler and John Phelps will be the next feature. Music by Rico Cornet Band.

NEW STORE, NEW GOODS, AND NEW PRICES! FOR CLOTHING, UNDERWEAR, HATS, BLANKETS, NECKWEAR, CAPS, GLOVES, BOOTS, SHOES, HANDKERCHIEFS, &c., &c. We are Agents for one of the Leading MERCHANT TAILORING ESTABLISHMENTS of Chicago, and guarantee a fit or no sale. Call and examine prices, samples, Etc. At Friend's old stand. RAPP & CO., RICO. Removal. To save cost of moving my large stock of groceries on July 1st I shall offer most remarkable bargains from now until stock is very much reduced. I will not say whether these prices are above or below cost, but they will be so low as to surprise you. So dig up all the spare change you have stowed away and come to the front with it and get more than your money's worth, but don't make any bad breaks at me about credit for this moving business has got me in a bad humor and the credit business has already broke me up in business. Spot cash is all that goes. D. A. HOLMES. A Pleasant Entertainment. The Daughters of Rebecca, assisted by the members of Silver Crescent Lodge, last evening entertained as many invited friends as the spacious hall could comfortably hold. The hall has lately been very much improved and is now an elegant assembly room. The ceiling has been beautifully frescoed and from it hangs suspended a brilliant chandelier. The new carpet was laid this week and the walls are covered with tasty paper. The other appointments were recently noted. Last evening was the first time that the doors of the hall were opened for social purposes and it was surely a pleasant dedication. The entertainment opened with an instrumental duet, "The Hunter's March" by Mrs. J. P. Landon (organ) and Adin McGraw (cornet). J. F. Wannemaker, Past Grand, read an instructive article on "The History of Odd-Fellowship." Mrs. D. R. Clay sang "Day and Night I Think of Thee," the solo being an effort well received by an appreciative audience. W. B. Shevley recited a poem, "The Three Links," very appropriate to the occasion. Little Lillie Clay sang that touching solo: "The Unfinished Prayer." She is possessed of a very sweet voice and is a favorite with all who have heard her. N. J. Bradley's recitation entitled "The Late Jas. L. Ridgely," was a well-delivered eulogy of a noted Odd Fellow. "When Night Comes O'er the Plain," was a vocal duet sung by Mr. and Mrs. D. R. Clay with effect. The entertainment closed with another instrumental duet by Mrs. Landon and Mr. McGraw: "Grant's Presentation March." After this light refreshments were served and the evening was spent in social conversation. Numerous persons were called upon to contribute in some manner to the entertainment of the evening, and most of them responded, notably Rev. Howard, who paid a glowing tribute to the organization which claimed him as its guest and to the benevolent purposes which Odd-Fellowship contemplates. What had been convinced him that the precepts of the order if obeyed would better fit a man, through the influence of kindly brotherhood, for his duties on earth and a heaven beyond. C. J. Pence made a few remarks and Bean (well everybody knows Bean). Mr. and Mrs. D. R. Clay favored the guests with a duet with guitar accompaniment: "Leave me not in Anger, Darling," and Lillie Clay sang "Peek-a-Boo." About midnight the assembled guests departed feeling that the evening had been one of pleasure and profit. Milk 8 cents per Quart. I will sell milk at eight cents a quart either delivered or at residence, and will not be undersold. H. S. TREMBLE. To Rent. A 5 room house on Mantz avenue, with wood and coal sheds, water at door and all conveniences. JOS. MEREDITH. Fire! Fire! Fire!!! The members of the Rico, Fire Company are urgently requested to meet at the Armory to-morrow afternoon at 2 o'clock, sharp. A. B. BRYDON, Foreman. Dress-Making. Miss Della Wannemaker announces to the ladies of Rico that she is prepared to do every variety of plain and fancy sewing. Dress making a specialty. May be found at any time at the residence of J. F. Wannemaker and all work entrusted to her will be satisfactorily attended to. The Grand View Mining and Smelting Company Is now in the market, ready to receive, buy and pay for all good ore offered, which will be treated on as good terms as any reduction company in Rico and pay (for all ore bought as soon as sampled for smelting. JOHN C. GREIBSON, Manager. Advertisd Letters. Advertisd list of letters remaining un-called for in the Post Office at Rico, Colo. May 28d, 1885. Bright, James McGuire, John Cotto, John L. A BUTCHERING BAND.

Geronimo's Murderous Work in the Southern Territories.

Indian outbreaks in the west have occurred of late years with but little frequency, and the territories of New Mexico and Arizona are about the only localities infested by bands that at times become unruly, and take the warpath, marking their course with blood and butchery.

Thursday morning five bodies of a Mexican family were found within five miles of Silver City, and others were killed in the same vicinity. On the Gila river, ten were killed and several hundred horses driven away.

The Indians are thought to number from 250 to 300, and are depredating in four different directions. There are four chiefs with them—Geronimo, Nana, Natcha and Chihnahua.

Up to last Friday last 57 persons had been killed by Geronimo's band of Apache Chiricahua Indians in the preceding ten days. On Friday the family of Col. Phillips, seven persons, were killed within 7 miles of Silver City.

Forty Indians came in sight of Lake Valley, but the citizens armed themselves and went out to give them a whirl. The Indians made off in the direction of Cook's Canon.

The Mexican troops are gathering on the border waiting for the hostiles to cross over.

On Sunday five persons were killed at Point of Rocks, half way between Socorro and Fairview on the Starr road.

The cattle men and miners have formed scouting parties and many are now on the trail. Rush Rowe, of the Continental Cattle Company, is at the head of 60 men.

The present is the most bloody and bold raid made for many years, the Indians going through well-settled sections, where a perfect immunity from attack was felt.

The National Commercial Convention, at Atlanta, Georgia, voted against the continued coinage of silver. Georgia and the South are exceedingly anxious that northern capital should be invested in their knife-blade gold veins.

The Muldoon neglects to state that the convention was largely attended by business men from all parts of the east and north, and that while almost the solid vote of the south and west was for silver, it could not overcome the majority from other localities.

A NATURAL ice cave is reported to exist thirty miles east of Fall river valley, Cal., in the Mount Shasta region. There are huge columns of ice, chambers of ice and ice hanging from the ceiling like blades of polished steel.

By an avalanche in Iceland last month fifteen dwellings with their inhabitants were swept into the sea, and twenty-four persons drowned.

Cows and copper, beef and bullion; gold and geldings, and shorthorns and silver are the alliterative resources of Colorado.

HAROLD CARLISLE, of Carlisle Bros., Durango, sailed from England last week and is expected home to this city very soon.

The British troops have evacuated the Sudan and are floating down the Nile in boats.
