We have been in the habit of sending the "NEWS" until ordered discontinued, and charging the price of same to the subscriber. This method has proven dissatisfactory, both to ourselves and to our patrons, so hereafter, after sending this notification and failing to hear from the subscriber in a reasonable time, we will take it for granted that he does not longer care to have the paper forwarded.

If you do not find it convenient to pay for the paper at once, you have merely to let us know that you desire the paper and it will be sent to be paid for at your earliest convenience. Under the old method the paper was frequently sent to persons after their removal from a postoffice, and consequently we were at a loss, without benefitting our subscribers in the least. We wish to avoid all such disagreeable mistakes in the future and can only do so by having the paper paid for, or else notified that it is desired forwarded. Yours truly, JONES & HARTMAN.

LEGAL NOTICES.

NOTICE OF FORFEITURE.

YOU are hereby notified that we have expended one hundred dollars (\$100) in labor and improvements upon the Fickie Gold lode, situated in Pioneer Mining District, Dolores county, state of Colorado. Said forfeiture was made for the purpose of holding the claim for the year ending Dec. 31, 1881, in accordance with law. And if within ninety days from the service of this notice by publication, you fail or refuse to contribute your proportion of such expenditures as a co-owner, your interest in said claim will become the property of the subscribers in the provisions of section 2824, Revised Statutes of the United States. CHAS. A. KING, ED. GREGORY.

SUMMONS.

STATE OF COLORADO, ss. DOLORES COUNTY, ss. In the county court of said county. FRANK P. SOMMERS, Plaintiff, vs. WILLIAM SANDIFER, Defendant. The People of the state of Colorado send greeting to William Sandifer, Defendant: YOU are hereby notified that you have been brought against you by the above named plaintiff in the county court in and for the county of Dolores in the state of Colorado and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this summons, if served within this county; or served out of this county, but in this judicial district, within twenty days; otherwise, within forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the sum of fifty dollars, due from defendant to plaintiff for the value of thirty-one pounds of furs or skins from wild animals which said furs were obtained by the defendant from the plaintiff upon false pretenses and false representations and were converted thereafter to the defendant's own use, without the consent of said plaintiff, particularly described in the complaint; also for interest thereon at the rate of ten per cent per annum. And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will take judgment against you for said sum of fifty dollars with interest and costs. Given under my hand and the seal of the county court of said Dolores county, at Rico in said county, on this 31st day of October, A. D. 1881. C. V. ROSSER, Judge and ex-officio Clerk.

SUMMONS.

STATE OF COLORADO, ss. COUNTY OF DOLORES, ss. In the District court of said county, in the 7th Judicial District of Colorado. AUGUST KNILLE, Plaintiff, vs. ERGENE B. CUSHING, Defendant. The People of the state of Colorado send greeting to Eugene B. Cushing, defendant above named. YOU are hereby notified that you have been brought against you by the above named plaintiff in the District court of the 7th Judicial District of the state of Colorado, in and for the county of Dolores and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons if served within this county; or if served out of this county but in this district within twenty days; otherwise within forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the sum of six thousand dollars, due from the defendant to the plaintiff as follows: \$300 borrowed of plaintiff March 1881, and \$50 borrowed of plaintiff June 17th, 1881, and \$328.49 due on note dated June 25th, 1881, payable to Bank of Rico and assigned to plaintiff with interest at ten per cent per annum; also \$1,062.27 expended by plaintiff for defendant at his request Oct. 1, 1881, in defending him against Bull lode, and \$122.47 expended by plaintiff at request of defendant June 25, 1881, in doing an assessment work for the year 1881 for defendant on the following claims: Samside, Dunsborg, Black Point, and Karpelson, particularly described in the complaint; also for interest thereon at the rate of ten per cent per annum. And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will take judgment against you for said sum of six thousand dollars with interest and costs. Given under my hand and the seal of the District court of the 7th Judicial District of the state of Colorado, in and for the county of Dolores at Rico this 31st day of October, A. D. 1881. D. A. MCGRAW, Clerk of the District Court. By A. H. MUNDEN, Deputy Clerk. Julius Thompson, Attorney for Plaintiff. 113

MINERAL APPLICATION NO. 359.

U. S. LAND OFFICE, LAKE CITY, COLO., August 22, 1881.

NOTICE IS HEREBY GIVEN that Wm. M. May and H. DePonte and Co., by their attorney in fact, whose postoffice address is Dolores, La Plata county, Colo., have this day filed their application for a patent for 1387 linear feet of the Black Demon mine or vein bearing gold and silver, with surface ground, 390 feet in width, situated in Pioneer Mining District, county of Ouray and state of Colorado, and designated by the title of "Black Demon" and situated by the following description and official plat on file in this office as lot no 515, Mineral District No. 7, being described as follows, to-wit: Var. 14° e. Beginning at Dolores Locating Monument, a post 6 feet by 5 1/2 in. in mound of stone marked 13280, also D. L. M. Thence s 54° 45 min e 584.8 feet to cor no 1, a post 5 feet by 4 1/2 inches in mound of stone marked cor 1, also sur 515; whence Elliott Pk is n 44° 30 min w; Telescope Mt. is n 0° 21 min w; a spruce tree 16 inches dia. marked 142 cor 1, also sur 515; thence s 29° 29' 55" e 65° 18 min e 223.7 feet to cor no 2, a post 5 feet by 4 1/2 inches in mound of stone marked cor 2, also sur 515; whence discovery cut is n 13° 41 min e 150.6 feet; tunnel is n 75° 37 min e 156.7; thence s 66° 11 min e 500.3 feet to cor no 3, a post 5 feet by 4 1/2 inches in mound of stone marked cor 3, also sur 515; whence Elliott Pk is n 45° 30 min w; Mt. Wilson is n 32° e; a spruce tree 15 inches in dia. marked BT cor 3, sur 515, is s 22° w 112.2 feet; thence n 47° 30 min e 230 feet to cor no 4, a post 5 feet by 4 1/2 inches in mound of stone marked cor 4, also sur 515; whence a spruce tree 20 inches dia. marked BT cor 4, sur 515, is n 12° e 102 feet; thence n 64° 9 min w 61.4 feet to cor no 5, a post 5 feet by 4 1/2 inches in mound of stone marked cor 5, sur 515; thence n 65° 27 min w 74.3 feet to cor no 6, a post 5 feet by 4 1/2 inches in mound of stone marked cor 6, also sur 515; thence s 45° 30 min w 215 feet to cor no 1. Containing 9.231 acres. The location of this mine is recorded in the recorder's office of Ouray county, at Ouray, in Book A1, page 250 and Book 10, page 172. The adjoining claims are the Little Fund lode on the south, Little Demon on the east and the Caracolas and Ironclad lodes crossing the middle and east end, all owned by G. C. St. John, et al. Any and all persons claiming adversely any portion of said Black Demon mine or surface ground are required to file their adverse claims with the Register of the U. S. Land Office at Lake City in the State of Colorado, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the statute. HENRY C. OLNEY, Register. 105-114

Mormon Oratory.

While in Salt Lake we paid a visit to the former residence of Brigham Young. In the front part of the house is an office where you most always find more or less of the great men of the Mormon church. A dried old saint admitted us to the office, and Joseph F. Smith came forward and asked what he could do to make it pleasant for us. We told him that our name was Harris. We didn't say that our name was Harris so much because that was our true name, but because our own had at that moment escaped our memory. We couldn't think of anything but Tammany and Boss Tweed when we looked over the sleek apostles of the Latter Day Saints and contemplated what a very soft thing they have. Barnum, of Chicago, was with us and he wanted to go through the house, and be sealed to somebody. He suggested going down cellar and getting sealed to a can of preserves, but we told him to control himself if he could. Then we went out to visit Brigham's grave. It isn't such an impressive spot as we had been led to suppose. It is a flat granite slab, surrounded mostly by a new style of Mormon weed that smells like the tabernacle on a warm day when a new train load of emigrant proselytes are attending services. Brigham was a pretty smart man. He was head and shoulders above the leaders of the church at the present day. Some of the so called orators of the Mormon church, in an eastern city wouldn't be allowed to run down the street and yell "fire."

ROBERT DUNLAP,

Attorney at Law.

RICO, DOLORES COUNTY, COLO.

Office on Glasgow Ave.

Litigation in Colorado.

From the Leadville Mining Index. The mining interests of Colorado at the present time are probably laboring under no greater disadvantage than the reputation which this state has acquired for litigation over mining properties. Eastern capital seems to fear that it is next to an impossibility to secure good property, and with it a title that will warrant the enjoyment of the rights and privileges accompanying its possession. Several causes can be pointed out as producing these effects, the most prominent among which is the continual talk about every trivial case, and the impressions created by the state press in discussing and keeping before the public every little squabble, also frequently precipitating unnecessary ill-feeling among the litigants. Every unlooked for disclosure in the development of a mine, every new revelation is commented upon and viewed from a legal standpoint, until one party or the other has some fancied wrong to redress. From the filing of the first papers the case is continually agitated and when the cause is finally disposed of, the eastern readers imagine a most extraordinary suit has just been completed. And then when the case is finally disposed of by the papers with comments, either favorable or adverse to the judgment of the court or jury, the reader is fully impressed with the uncertainties of western justice and the precarious titles to mining properties, when in fact justice and law never fail to be vindicated, and instances of outrages and legal robbing are very scarce.

Assault and Battery.

From the Durango Southwest. Last evening, about 9 o'clock, Mike Lynch, known to the people of Durango as an intelligent and honorable citizen, was sitting in Roher and Mitchell's office, engaged in conversation with some of the gentlemen present, when John Foley entered. Mr. Lynch turned his head to see who had come in, when Foley struck him in the face, inflicting a severe wound. Mr. Mitchell interceded and prevented the matter from becoming serious and separated the parties. Rumors were rife on the streets that Lynch had been pounded to death, and a large number of his friends went to the scene to investigate the matter. Neither Lynch nor Foley were to be found there, but in a short time Mr. Lynch made his appearance before Justice Craig and swore out a warrant against Foley, which was placed in Marshal Dwyer's hands, who soon arrested the belligerent trustee of the town of Durango. Mr. Lynch, in the meantime, had been taken to Dr. Smith's office to have his wound dressed. Justice Craig held Mr. Foley in \$100 bonds to appear before him at 10 o'clock. A large revolver was taken from the prisoner. Mr. Lynch states that Foley had threatened to whip him on sight. The latter is a young able-bodied man, while the former is about fifty years of age. This, we believe is the first row in consequence of campaign differences of opinion, and we hope it will be the last.

Politics and Mining.

From the Denver Republican. Probably the last connection in which people think of mining is politics. Being a purely industrial pursuit it has no proper or legitimate connection with wire pulling. And yet for the purposes of the coming election the mineral characteristics of a certain section of the State and the opinion alleged to be held in another section regarding it are brought forward by politicians whose resources seem to be scant and desperate, as a means of effecting the result of the coming contest at the polls. The term "petered out" San Juan has, through the industry of these petifogging individuals, become as familiar through the State as a household word, and the groundless and valueless utterance of a thoughtless and ill-informed writer, concerning one of the most extensive and important mining districts of the State, is, by these politicians who have no higher object than the attainment of their own petty ends made a subject of serious consideration. We protest against this, not only because it is improper, but because it is unjust and liable to convey erroneous impressions concerning a portion of Colorado which is destined to occupy a permanent and important position in the mining interests not only of this State but of West.

Politics and Mining.

The term San Juan, by common usage, includes that portion of the State west of Del Norte and south of the Gunnison country. To any one at all familiar with this section, the term "petered out" appears not only false but ridiculous. The matchless and apparently inexhaustible riches of the Little Ida mine at Summitville, the numerous argentiferous veins which lace the steeps of the San Juan mountains, and the free gold fissures and carbonate deposits of the San Miguel and the Dolores, are solid and incontestable proofs of the mineral resources and character of the entire section.

Politics and Mining.

It is true that the San Juan country was explored twenty years ago, and that its development has not equaled that of more accessible mining districts of the State; and it is also true that the majority of its silver mineral is of a low grade and requires for proper working, the most improved and economical methods. But that there is any practical limit to the quantity of its ore has never been seriously entertained by any well informed persons. The completion of the San Juan extension of the Denver & Rio Grande into the centre of the most important districts of this section will afford it all necessary facilities for economic development, and bring within the reach of practical and profitable mining operations a section of country which has only required these to make it one of the most productive in Colorado.

Politics and Mining.

"Pettered-out San Juan," is not only an ill-chosen, but an ill-fitted, term; for though there has been considerable mining carried on there, all that has been done is little more than a beginning in the discovery and development of its resources. It is scarcely appropriate to dub a district "petered out" before the extent and character of its mineral resources are fully known, and no well-posted person can claim that this is true regarding the San Juan country.

Politics and Mining.

Mining is subject to many hindrances and obstacles, in consequence, mainly, of the manner in which it has been conducted, and possibly to some extent, from its inherent nature; but to be brought within what must be to it the irrelevant and baneful sphere of politics is adding an element which is unnecessary and calculated to effect its interests more seriously than perhaps the politicians can anticipate. It is much easier to produce an unfavorable opinion of a mining district than it is to remove one, and though no permanent harm generally results from erroneous opinions and statements, they are apt to retard the progress and development of a mining district. In the case of San Juan there is little danger of such an effect, as its character and mineral wealth are favorably known, but the present instance affords a proper opportunity for protesting against all similar interference which any political petifoggers may feel inclined to initiate.

Politics and Mining.

COMPANIES A and D, the last remaining of the 18th regiment, left on last evening on a special train for New Mexico. These companies are ordered to Fort Stanton, 107 miles from the railroad, down near the Mesalero Indian Agency, in the eastern part of the territory.

Politics and Mining.

The different companies of this regiment have been pretty well scattered, some having been sent to one post and some to another. The officers and their families were not as delighted to leave as they might have been under more agreeable anticipations in regard to their future post.—Durango Record.

Politics and Mining.

Good sailors, given rope enough, can make over so many knots an hour.

\$20,000 DAMAGES CLAIMED

From the "South-West" Publishing Company, of Durango.

From the Southwest. The Mayor of Durango has threatened to bring suit against the Southwest for libel because it had courage enough to denounce his action in regard to some orders promulgated by the Mayor of Durango. He has proclaimed, with much bombast, that he will secure the services of eminent legal counsel to conduct his case, and is trying to deny that he ever gave the orders which were criticised by the Southwest. Perhaps when Messrs. Teller and Belford know the facts in the case, they will, at a cost of useful advice to the complainant, advise him to proceed somewhat differently. The action of the Southwest in denouncing the insult offered to the people of Durango, is endorsed by the community at large. The fact that the orders were given, as stated, can be proven. We are also prepared to prove, and will prove, that whisky was sold by the Mayor of Durango on election day, contrary to the statute, and also by several other members of the conspirator's clique. When the Mayor of Durango so far forgets his personal and political ends as to do justice to the community he so illy represents, we will cease to criticize his actions. Our province is to defend the people against encroachments; against dastardly attempts to run the commercial supremacy of Durango, and against insults from any man, be he Mayor, pimp or cut-throat. We understand that the Mayor of Durango offers his political drug store for sale cheap. We hope he will receive enough for it to enable him to get out of the town he has disgraced, and which will not be sorry to lose his august presence. Let him move on with the Record to some new "hurrab" town, where his cheap whisky can be used to advantage; where his assinine pranks when beastly drunk will be appreciated; where newspapers can be purchased cheaply to do his bidding, and where decency is afraid to hold up its head.

\$20,000 DAMAGES CLAIMED

Full particulars of the progress of the Mayor's libel suit will be published in these columns, and also those of a suit against the Mayor of Durango for selling while polls were open on election day. When Barney Watson is convicted of murder; when John Taylor, Jr. is again elected Mayor of Durango; when the lings of hell reign again in La Plata county; when it is a disgrace in this community to be an honest man; when shotguns reign in Durango instead of the law; then and not till then may John Taylor, Jr. expect to find a jury that will decide that he ever had a character that could be injured, or one that could be induced to render a verdict of one cent against a respectable newspaper for denouncing his actions as this has done.

The Northern Seas.

San Francisco, November 7.—The steam whaler Belvedere has arrived, also the whalers Northern Light, Dawn and Rainbow. It appears the Dawn did not speak the Arctic relief steamer Rodgers as reported Saturday, but did speak the whaler Pacific, which had communicated with the Rodgers. To-day we have direct news from the Rodgers. The Belvedere spoke her September 27th, near Herald Island, steaming south for winter quarters, which she will make probably at St Lawrence Bay. The Belvedere brought the mails of the Rodgers, from which, and from a conversation between Captain Owen, of the Belvedere, and Lieutenant Berry, of the Rodgers, the following facts are learned: Lieutenant Berry found Wrangle Land to be an island. He sent a party out in small boats to explore the land. They returned to the Rodgers, having gone completely round it. The party also surveyed different parts of Wrangle Island. The Rodgers did not go round, lying up while the party in the boats were out. The Rodgers, after having established Wrangle Land to be an island, steamed one hundred and twenty odd miles north and north west in search of further land, but failed to find any. Lieutenant Berry ascended a mountain on Wrangle Island, and from the top saw the sea all around it. The season had been most favorable for exploration on account of its openness, notwithstanding stormy weather. Captain Owen said that from his observations he would not be at all surprised to hear of the Jeaneatte coming home by way of Greenland. The Rodgers intends to send out a sledge party from winter quarters to explore the coast of Siberia. She expects to leave winter quarters next June, and go as far north as possible. The following is the latest list of catch for the season, which is believed to include the total; Belvedere, 20 whales; Abram Parker, 2; Atlantic, 6; Coral, 15;

The Northern Seas.

San Francisco, November 7.—The steam whaler Belvedere has arrived, also the whalers Northern Light, Dawn and Rainbow. It appears the Dawn did not speak the Arctic relief steamer Rodgers as reported Saturday, but did speak the whaler Pacific, which had communicated with the Rodgers. To-day we have direct news from the Rodgers. The Belvedere spoke her September 27th, near Herald Island, steaming south for winter quarters, which she will make probably at St Lawrence Bay. The Belvedere brought the mails of the Rodgers, from which, and from a conversation between Captain Owen, of the Belvedere, and Lieutenant Berry, of the Rodgers, the following facts are learned: Lieutenant Berry found Wrangle Land to be an island. RICO SILVER BULLION

PRODUCED BY THE GRAND VIEW SMELTER.

FOUR TONS OF BASE BULLION IN 36 HOURS.

A Slow and Careful Run on Fifteen Tons of Ore.

An Average Capacity of Twelve Tons, to be increased.

A Successful and Profitable Run.

Rico's Prosperity Insured in Reality, and

Rico Mine Owners Encouraged to Begin Mining,

Earnestly Once More, Rico an Active Town this Winter.

The Grand View smelting works "blew in" Nov. 8th., at 8:20 p. m., every arrangement having been made for the beginning of a successful and profitable run on our Rico ores.

During the first 36 hours run, four tons of base bullion were produced from fifteen tons of ore and fluxing. The present capacity of the smelter is twelve tons per day, which will be gradually increased as ores come in.

Large piles of ore are lying in the ore houses, which will be treated during the winter. The company have been fortunate in procuring a great abundance of fuel. The success in coking the coal from their coal banks six miles above Rico, insures a successful run, without the roasting process.

Prof. H. J. Hardess, formerly of Freiburg, but latterly of Leadville, who has charge of the smelting, has done away with the necessity of roasting the ores first in the roasting furnaces. The ore is crushed and fed into the blast furnaces, producing matte, which is broken up and roasted in large heaps on the ground, and run through the furnaces the second time, running out and being moulded into 100 pound bars of base bullion.

When the ores have been crushed they are bedded in order to obtain a correct mixture. The fluxing is magnetic iron and lime. The lime is of pure carbonate of calcium.

The Grand View and Wash ore contain enough iron for ordinary fluxing purposes. The Grand View of class ore, runs 40 ozs in silver, and is valuable for fluxing silicious ores. A sufficient quantity of magnetic and bog iron and lime for fluxing is at hand. Indications now, are that there will no longer be a scarcity of lead ores in this camp, as new developments show that there is more lead than has been claimed for our ores.

The ores now at the smelter are of oxides or sulphates. Prof. Hardess says the ores of Rico are both milling and smelting ores, but that with proper fluxing, all can be smelted. He also says that a number of our ores are of genuine carbonate, as compared to Leadville carbonates.

The Grand View coke ovens, numbering three, will be in operation for months to come, and more ovens will be put up in the spring.

Under the management of Supt. Amos Lane and Prof. Hardess, many improvements have been made. A new coal and coke or fuel building has been erected on a level with the feeding floor, saving much time and labor. A rotary pump with four horse attachments, is placed in the main building, so that there is little danger of destruction by fire.

The bullion stacked up at the smelter now, assays 300 ozs silver per ton, and the bars of base metal shine prettier than new silver dollars.

The smelter could not be run more economically, to do as great an amount of work as is done at present. There is not an idle man about the works, nor one who does not seem to understand his work.

The old water jacket, which caused a comparative failure last year, is just where it stood then, and is working like a charm and up to this hour, not one misstep or accident has occurred to prevent the regular order of prosecuting the work.

Drowned in Grand River. The Durango Record brings the intelligence of the drowning of George Grupe, who was formerly well known in Rico, but who left here last fall. This paper says that his unfortunate companion who shared his sad fate was Wm. Culver, but the Southeast says that George Enslow was the man who was drowned with Grupe.

THE miscarried jackass who attempts to edit the San Juan Herald, published in Strangerville, San Juan county, has written a "piece" concerning what his august imbecility is pleased to term our "hoodoo about lawlessness." We are not surprised that this should appear in a paper which is published in a community composed to such a large degree of cowardly, straggling murderers. We do know "whereof we speak," and will in our next issue impart our knowledge to all interested. We know that many of the prominent citizens of the town in which this representative sheet is published, were directly implicated in the lynching of Bert Wilkinson, which was entirely unnecessary, even were he guilty, of which there was no absolute proof. We know their names and shall spare none. We should have made these infamous facts public before, but were withheld by the vain hope that this business would blow over in silence. It seems that the Herald wishes to keep the disgraceful matter before the public and to laud the perpetrators of the misdeed for their crime. If any honor is due the curs who hung Wilkinson, we intend to let the people know to whom to bow, that their reverence may not be misplaced. This gray-eyed, consumptive, poverty-stricken, fawning, insignificant, puppy from Peekskill, N. Y., may prepare himself for a "hoodoo about lawlessness," that will make him heart-sick. We will promise not to handle the matter gingerly at all, and if you are "abused most heinously" (to use your own language concerning a former occasion) remember that we stand flat footed on our assertions.

Mining Mention. The contract let a short time ago on the Sundown has just been completed and another contract is to be let. The contract for the carpenter work on Waring's sampling works has been let, which work will begin at once. S. S. Sharp and Martin Crane have a contract on the Wall Street, on Horse creek, which work will be performed this winter. The South Park, on Dolores mountain, owned by Joe Castello and others, is now being worked, and contracts are out for the continuance of the work through the winter. Work on Waring's sampling works goes on, and about the opening of spring the miners and prospectors will have an opportunity to learn the exact valuation of their ores by mill run. The Rockford Belle, situated on the south fork of the main fork of Horse creek, discovered by accident, has a 90 ft. incline, with fifteen foot cross-cut, about 100 feet to breast. This property was discovered by following a shovel that had slipped down the mountain, lodging where the discovery shaft is now. Top rock assayed 16 ozs. The quantity and quality of the ore increases as depth is attained. The Covington Girl, an extension of the Rockford Belle, assaying 19 ozs. will be worked this winter. A large tunnel will be run to catch the vein of both mines. D. B. Dyer, one of the owners, thinks the property with good development, will be equally as good as the Johnny Bull neighbors.

Tobe Williams Killed at Placerville.

Milton Evans, one of the county commissioners of Ouray county, arrived in town to-day and gave us some information concerning the killing at Placerville on last Wednesday night. He says that some parties were having a whisky round-up and became involved in a quarrel with Andy Bigger and that Tobe Williams in the progress of the row pulled his pistol and shot at Bigger twice, when the latter shot and killed his assailant. In the preliminary examination it is said that Frank Williams, brother of the deceased, testified that his brother fired two shots at Bigger before the latter pulled his pistol. Some people claim that Bigger was "dead stuck to kill his man," and the fact that he served a term in Cañon for shooting a man in Del Norte some years since, gives some color to the assertion. Both men are well known in Rico. An attempt to gather a crowd to lynch Bigger proved unsuccessful, which is creditable to the good sense of Placerville people. Had the affair occurred in Silverton Bigger would have been strangled at once, without compunction or inquiry. Bigger has been lodged in jail and will be tried. May he get his just deserts legally is the wish of all decent citizens.

Postal Service Curtailed.

The following letter from the Acting Second Assistant Postmaster General to the Rico postmaster explains that service from Placerville to Rico will soon be reduced to three times a week. As all our eastern mail comes by the southern route there is no necessity for a daily mail from Ouray to convey the small amount of mail from that place and way offices: WASHINGTON, Nov. 5, 1881. Sir:—The contractor on route No. 38209 from Ouray to Rico has been instructed, in pursuance of an order of the Postmaster General, to curtail service to begin at Placerville, omitting Ouray, and to reduce service on the residue of the route (Placerville to Rico) to three times a week. The order is to take effect Dec. 1, 1881, and you will report if it is then complied with. Respectfully, H. D. LYMAN, Acting Second Assistant P. M. Gen.

The Hon. Thomas M. Patterson has just gone through the harangue of another campaign, and will be allowed to perform the duties of his profession without interference until next fall. Mr. Patterson, with the aid of his friend, "Bill" Loveland, has carried a heavy load of salt in Colorado during a rainy season of about ten years.

The Pueblo Chieftain has learned that the San Juan is not totally blind, and that its tally did not have the desired effect. Pueblo will forget the San Juan now forever as the capital question is now settled.

One hundred and seven of the Rico voters would not vote on the capital question. There were evidently, people who have not resided long enough in Colorado to appreciate Denver as it is.

In this broad land of America there are laws, and even higher tribunals than straggling mobs of infuriated beasts in human guise.

A FEW lead ores have been purchased by the Grand View, from Ophir.

Colorado Springs and Canon received a few votes for the capital.

SEND specimens of ore to the preliminary exposition at Denver.

So long as Colorado is a state, Denver will be the capital.

MOORE, of the Mountain Mail voted for Salida—1. Rico is the chief of the Rockies.

MINERAL APPLICATION NO. 381.

U. S. LAND OFFICE, LAKE CITY, COLO., October 5th, 1881. NOTICE IS HEREBY GIVEN that George W. Barber and his co-claimant, William Weston, whose postoffice address is Rico, Dolores county, Colorado, has this day filed his application for a patent for fifteen hundred and linear feet of the RIVERSIDE LODGE, mine or vein bearing silver, with surface ground three hundred and 1/2 with situated in Pioneer Mining District, county of Dolores and state of Colorado, and designated by the field notes and official plat on file in this office as Lot No. 590, said Lot No. 590 being as follows, to-wit: Beginning at cor no 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. C. 1" and on adjacent side sur 590, marked cor 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. C. 1" and on adjacent side sur 590, marked cor 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. C. 1" and on adjacent side sur 590, marked cor 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. C. 1" and on adjacent side sur 590, marked cor 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. C. 1" and on adjacent side sur 590, marked cor 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. C. 1" and on adjacent side sur 590, marked cor 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. C. 1" and on adjacent side sur 590, marked cor 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. C. 1" and on adjacent side sur 590, marked cor 1, a spruce post 5 feet by 4 in. sq., set in ground 2 ft and mound of stones 2 ft in diameter, marked "S. C. 1" and on adjacent side sur 590, whence U. S. L. & M. No 1 in the position of and bearings from this corner being described in field notes of said mine, marked "S. The Dolores News. JONES & HARTMAN, Editors and Publishers.

RICO, COLORADO,

TERMS IN ADVANCE: One Year, \$3.00; Six Months, \$1.75; Three Months, \$1.00; Single Specimen Copy, 10c.

PAY YOUR TAXES. "HEAD us off!—cut around the corner!"

J. G. ALLEN is in town for a few days. READ tax notice which appears elsewhere.

Don't forget that the mail closes at 9 o'clock, p. m.

E. A. WILDER, the photographer man, has gone to Durango for the winter.

Rico cast more votes than any other town in the San Juan, except Durango.

Mr. SUMMERS, of Leadville, a brother of John W. Summers, visited Rico this week.

ALEX V. GORLA, the barber, left this week for St. Louis, where he will remain this winter.

FOR SALE.—A Singer sewing machine, nearly new. Inquire at Colorado Assay Office. 115-2t

MISS ANNE TERRY left on Friday, after a visit of about six weeks. She returns to Edwardsville, Ill.

FRED DOWNS and Finney Jones took the outward bound coach this morning. Fred may go on to Chicago.

A. C. LOOMIS, representing the Western Reserve Mining Co., of Ohio, has gone to Columbus on mining business.

THE tax-books of Dolores county are now open and in the hands of A. H. Munde. Call at his office, which is with Julius Thompson.

J. F. AND T. T. HUME start south tomorrow, through New Mexico, and perhaps into Old Mexico. They will probably return in the spring.

TUESDAY'S coach carried out Messrs. D. A. McGraw and W. W. Parshal, the former bound for Kansas City and the latter for Bradford, Penna.

GEORGE G. McNAMARA left this week bound for Trinidad, where he will stop for the winter. He goes by way of Ojo Caliente, and may remain there a short time.

BERLIN, November 9.—The news has rapidly spread through the city that Bismarck intends to resign, as he sees no way of remaining at the head of a government which he cannot practically control.

CHARLES R. JOHNSTON who has been lying dangerously ill for more than three weeks, is still in a precarious condition. His recovery is extremely doubtful. We must give our sick a little more general attention.

Mr. ROBERTS, the gentleman who has charge of "The" Restaurant, is catching a large trade, on account of the growing popularity of his place, which is caused by good meals and good lunches, prepared in inviting style.

Now is the time to pay your taxes and ease your mind concerning this important debt. If this matter is allowed to run until January 1st, a heavy rate of interest begins to accrue. Save money by attending to this business at once.

An outfit consisting of Messrs. Worden Grigsby, John Clark, Pat Cain, Jim Hall, Gus Heffernan, S. C. Grant, Lige Ledford and Mike Murphy, will start out in a few days for the Navajo mountains in search of a fortune. May they find it.

On the fourth page will be found full list of registered voters, which is printed as a matter of information to those who will have the registry business to attend to in future, and to let our eastern readers know the whereabouts of their friends here, who only write once every three years.

DURING the absence of Mr. McGraw, Geo. O. Gilbert will put up prescriptions at their drug store. For the information of those who know nothing of this gentleman's ability in this line we would say that he is a drug clerk of experience and has worked at the business as long, if not longer, than has Mr. McGraw.

DIED.—In Rico, on Thursday night, Nov. 10th, after a short illness, John Thomas, aged about 28 years.

The deceased came to Rico about the 1st of June, 1880, and has been in business here ever since until lately, when he closed out with the intention of going to southern California, where he and partner intended to go into business. They had just closed up their business and were making preparations to leave, when the senior partner was seized by this fatal illness. His remains were at once taken to Durango, where they will be embalmed and forwarded to Brainwood, Ill., on the Chicago & Alton R. R. which place was his former home. Mr. Thomas was an honorable and painstaking gentleman, known intimately by but a few, who appreciated his true worth.

Number of Votes, 412. Denver's Majority, 257. Burriss' Majority, 136. Judge Rosser's Majority, 149.

From Wednesday's Extra. Rico, Colo., Nov. 9, 1881. 8 o'clock, A. M.

Yesterday's election passed off quietly enough, although there were the usual number of election rows and knock-downs, caused as a rule by the absorption of large quantities of budge. At a late hour this morning we secured the full returns and present them below for the benefit of the public, who are no doubt anxious to see the full, complete and correct returns. There were many varieties of tickets in circulation, and a person could hardly select a ticket, however mixed, that could not be produced on short notice. This fact caused the judges of election much trouble and delayed the returns. The names marked * are democratic nominees; † are republican; ‡ miners' and citizens', while § signifies independent. L. V. Rosser and J. F. Wannemaker ran on all three of the tickets in the field, and other candidates on two:

Table listing candidates for various offices: For Judge of the 7th Judicial District, For County Judge, For Clerk and Recorder, For Sheriff, For Treasurer, For Coroner, For Superintendent of Schools, For Surveyor, For Assessor, For Commissioner 1st District, For Commissioner 2d District, For Justice of the Peace, For Constable, For Road Commissioner.

Table listing candidates for various offices: For location of the seat of Government, For location of the seat of Government, For location of the seat of Government, For location of the seat of Government.

Weekly drills will be resumed at the armory each Sunday at 7:30 p. m. By order of BENJ. F. KLEE, Capt. Com'd'g. Co.

TOWN TAX FOR 1881. Resolved, by the Board of Trustees of the Town of Rico, that a tax of five (5) mills on the dollar upon the assessed valuation of the property of said town as shown by the assessment roll of 1881, be created, levied and collected for the year 1881. J. W. WINKFIELD, Mayor.

NOTICE TO TAX-PAYERS. The tax books of Dolores County are now open for the collection of taxes. Call at my office in the Thompson building and settle before January 1st, 1882, and save the interest. The books will be kept open and can be seen at all hours of the day. A. H. MUNDEE, Treasurer.

ESTRAY NOTICE—I have a sorrel mule branded "hot hook" on left thigh, between five and eight years of age, which I have held in my possession since the latter part of June. The same was left with me as a stray about that time. If the owner can establish his right and claim to the mule, I will deliver it to the said owner on payment of the charges for keeping. F. W. RYMAN, Dated Rico, Oct. 15, 1881.

Now is the golden opportunity for capitalists to invest in the hundreds of undeveloped prospects at Rico. We will make it as plain to you as you would have us. Note these things:

1. A mine is a mineral producer, giving a profit to the possessor, after mining the dirt, ore or quartz, and reducing the same to gold or silver.

2. Prospects are not mines, but simply prospects which must necessarily promise to be mines, with sufficient development.

3. Among the many thousand prospectors throughout the various mining districts of the world, the majority are not millionaires, but penniless laborers in the advancement of the mining industry, who receive, generally, as their compensation, the prejudice which has grown so largely in capital's opinion of them. We don't deny dishonesty for the prospectors, for there are some dishonest ones, as well as dishonest railroad prospectors, here and everywhere, but when the prospector offers to sell you claim or location, and asks you to look and examine for yourself, he has something to sell, and evidently wants some money; too often he is compelled to sell for a paltry sum, with which to purchase something to eat and wear.

4. There are a great many prospect and mine owners at Rico, who have not sufficient means to develop their property, and are willing to sell interests at low figures, to enable them to develop.

5. Now is the time, and those who first sow will first reap.

WINE OF TAR. Cures thousands yearly. A POSITIVE CURE FOR COUGHS, COLDS, AND BRONCHITIS. Is the Best of Tonic. THE CINCINNATI WEEKLY TIMES. has for more than forty years maintained its position as the leading paper of the West. It ranks above all others in circulation, influence, and in the esteem of its readers, because it is just the kind of paper the people want. The Weekly Times covers the whole ground of a first class family journal. It is larger and better than any high-priced weekly offered the public; its reading matter covers a greater scope, is more entertaining and instructive, and yet it costs

BUT ONE DOLLAR A YEAR. Our agents everywhere say it is the easiest paper in the field to canvass for, and readers of one year are so pleased that they are sure to renew their subscriptions. Each paper is Fifty-six columns for one dollar a year, and the most liberal terms to club agents. Specimen copies free. Send for one before making up for any paper. Address Weekly Times, 226 Walnut Street, Cincinnati, O.

THE DAILY TIMES-STAR. Eight pages, forty-eight columns. Only six dollars a year, 25 for six months, \$1.50 for three months. Has the largest circulation of any paper in Cincinnati. A Cough, Cold or Sore Throat should be stopped. Neglect frequently results in an incurable lung disease or Consumption. Brown's Bronchial Troches are certain to give relief in Asthma, Bronchitis, Coughs, Catarrh, Consumption and Throat Diseases. For thirty years the Troches have been recommended by physicians, and always given perfect satisfaction. They are not new and untried, but having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Public speakers and singers use them to clear and strengthen the voice. Sold at twenty-five cents a box everywhere.

Rico is situated in the heart of the Dolores mining camp, in the new county of Dolores. This mining town and camp is a part of what is known as the Great San Juan Mining Region. Rico is distant from various points, viz: From Durango, 45 miles. Ouray, 75 " Lake City, 75 " Ophir, 92 " San Miguel, 30 "

Important Facts On Placer Claims.

If a hearing has been had involving the mineral or non-mineral character of land, and a decision rendered on such hearing by the Secretary of the Interior, the same question upon the same land, or any part thereof, cannot again properly become a subject of a controversy. It is a judgment in rem, conclusive alike as to the parties to the controversy then pending as well as to subsequent claimants.

When the Secretary of the Interior decides a question of fact affecting the classification or character of a tract of public land, it ends all controversy as to the fact everywhere.

Construing section 2929 U. S. revised statutes with sections 2389 and 2392, it might be contended that the reservations in favor of townships should only be of such rights of surface occupancy as accrued before the location of the mining claim. As the law stands, no one, whether for the purpose of establishing a town or for a residence or place of business or for any other purpose, has the right to intrude or trespass upon the possession of a valid mining claim.

Claims which include all forms of deposits except lodes or veins of quartz or other rock in place, are treated as placers. Where a claimant has located a placer claim, and also within its limits a vein or lode claim, he may embrace both claims in one application for patent, and in such case a patent shall issue for the placer claim, including such vein or lode, upon the payment of five dollars per acre for such vein or lode and twenty-five feet of surface on each side thereof; but when, at the date of application for patent, the existence of a vein or lode in a placer claim is not known, a patent for the placer claim shall convey all valuable mineral and other deposits within the boundaries thereof.

Where a claimant has located a placer claim that has within its limits a bona fide vein or lode, known to exist and not claimed by the placer claimant, a subsequent locator of said lode or vein is entitled to the same, with twenty-five feet of surface ground on either side thereof and no entry of such a lode should be allowed, nor will patent issue for a width exceeding twenty-five feet on either side of the vein.

Where a placer claimant has located a claim and included within its limits a lode claim, the existence of which is known to the claimant, an attempt by the placer claimant to patent the placer, including said lode, without mention of its existence, is an attempted fraud upon the government.

Where a claimant has located a placer claim, the entry upon said placer claim by another party for the discovery of a lode or vein, is an illegal act, and a lode based upon such a discovery is illegal, and all subsequent proceedings to patent a lode so discovered and located are invalid.

Such discovery of a lode claim gives no right to the discoverer, but affects the rights and duties of the placer claimant by making known the existence of the lode or vein within the placer.

Where a claimant has located a placer claim and it becomes a matter of dispute as to whether or not a lode or vein exists and is included within said placer location, the fact must be determined by a hearing before the Land Department of the United States.

JOB PRINTING

Printing of Every Description

In the Highest Style of the Art,

LETTER HEADS, BILL HEADS, NOTE HEADS, STATEMENTS, CIRCULARS,

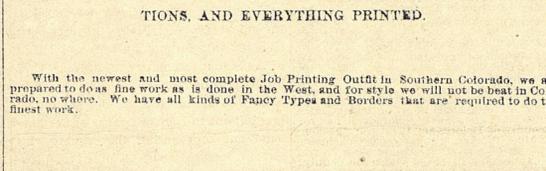

ENVELOPES, BILLS OF LADING, RECEIPTS, TICKETS, BUSINESS CARDS, BALL PROGRAMMES AND INVITATIONS, AND EVERYTHING PRINTED.
