Magnetic LUNG Protector

PRICE ONLY \$5.

They are priceless to ladies, gentlemen and children with weak lungs; no case of pneumonia or croup is ever known where these garments are wore. They also prevent and cure heart difficulties, colds, rheumatism, neuralgia, throat troubles, diphthoria, catarrh, and all kindred diseases. Will wear any service for three years. Are worn over the underclothing.

It is needless to describe the symptoms of this nause the life and strength of only too many of the fairest and best of both sexes. Labor, study and research in America, Europe and Eastern lands have resulted in the Magneton Lung Protector, affording cure for extarrh, a remedy which contains no drugging of the system, and with the continuous stream of Magnetism permeating through the afflicted organs, must restore them to a healthy action. We place our price for this Appliance at less than one-twentieth of the price asked by others for remedies upon which you take all the chances, and we especially invite the patronage of the many persons who have tried drugging their stomachs without effect.

Extraordinary Offer to All, Wanting Employment.

We want live, energetic and capable agents in every county in the United States and Canada, to sell a patent article of great merit, on its MERITS. An article having a large sale, paying over 100 per cent. profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With the fact that it is an article that can be sold to every house owner, it might not be necessary to make an extraordinary offer to secure good agents at once, but we have concluded to make it to show, not only our confidence in our invention, but in its salability by any agent that will handle it with energy. Our agents now handle it with energy. Our agents now at work are making from \$150 to \$600 a month clear, and this fact makes it safe for us to make our offer to all who are out of employment. Any agent who will give our business a thirty day's trial and fail to clear \$100 in that time, above all Any agent or general agent who would like ten or more counties and work them through sub-agents for ninety days and fail to clear \$750 above all expenses, can return all unsold and get their money back. No other employers of agents ever dared to make such offers, nor would we if we did not know that we have agents now making more than double the amount we guaranteed, and but two sales a day would give a profit of over \$125 a descriptive circulars explain our offer fully, and these we wish to send to every one out of employment who will send us at once and secure the agency in time for the boom, and go to work on the terms named in our extraordinary offer. We would like to have the address of all the agents, sewing machine solicitors and carpenters in the country, and ask any reader of this paper who reads this offer, to send us at once the name and address of all such they know. WITHOUT MEDICINE. A Bad Woman With an Ax.

A Salt Lake dispatch says: One evening lately a herd of Angora goats, which were

being herded by Miss Teresa Tallert or Little Lost river, Idaho, came home early and rushed for the corral, a heavy log concern eight fect high. They were shut in and a search toward the foot-hills developed no cause for their alarm.

In the night Miss Tallert was aroused by her dog whining at her ear, and getting up saw some wild animals in the corral. She went in and saw four mountain lions, and without a moment's hesitation attacked them with an ax.. Two of the ter, his forty years in the mountains is Or Money Refunded! lions jumped the corral and fied. The other two rushed toward her, after the goats. She dealt one a blow with the ax, laying its rump open to the bone. Then both fled. The next morning fifty of the valuable goats were found dead and thirty wounded, and fourteen of the latter died afterward, and now the ranchers on Lost river are all crazy over Miss Tallert.

The opportunities for ladies to find employment that is both suitable and remunerative are limited; their pay is usu-ally poor as compared with the salaries ally poor as compared with the salaries paid to men in same line of occupation. But there are some very noted exceptions; journalism, the drama, music and platform offer equal advantages to men and women, and one occupation in which vomen are sometimes more successful than men, and that is in the management of agencies. In this line The Queen City Suspender Company, of Cincinnati, O., are offering inducements to ladies that we think ought to attract attention. They are now manufacturing and introducing their new Stocking Supporters for Ladies and Children, and their unequalled Skirt Suspenders for Ladies. None should be without them, our leading physicians recommend them, and are loud in their praise. These goods are manufactured by ladies who have made the wants of ladies and children a study, manufactured by ladies who have made the wants of ladies and children a study, and they ask us to refer them to some re liable and energetic lady to introduce them in this county, and we certainly think that an earnest solicitation in every household would meet with a ready response, and that a determined woman could make a handsome salary, an I have an exclusive agency. Rico, Telluride, Durango and Silverton bands would certainly attend. It would have a tendency to promote interest in band music and would inspire the members to greater efforts to attain proficiency. The tourns ment would be held at some time when outdoor life would be particularly charming and a large number of people of the various towns could spend several days in hunting and fishing and the enjoyment of camp life at this beautiful spot. The various base ball clubs could no doubt as range a series of games and temporarily decide the championship of San Juan. Whether such a programme of fun and frolic can be carried out or not is a question. It surely has very many pleasing

THE Dolores Roller Skating Rink was opened to the public last evening and a large crowd of people was assembled there. The Rico Cornet Band discoursed sweet music throughout the evening and imparted much life to the occasion. The spacious floor was crowded with merry skaters, and in every respect the opening evening was auspicious. The rink is one of the finest in the west, and the skating public appreciate the fact, and will see that the enterprise of Mr. James in giving Rico such a rink will meet with substan tended to develop. He has been in Law- tial recognition in the way of liberal support. The rink is under the management of Chas. A. The arrangement of the hall is perfect appears an advertisement giving hours, rates, etc. The rules and regulations also find place in local columns.

Odd Fellows' Ball.

The ball of the members of Silver Crescent Lodge No. 40, last Monday evening was the most largely attended one which Rico has seen for many days. The Odd Fellows were bent on making the affair a pleasing success, and should be highly gratified with the result. The new rink was secured, giving them a spacious and convenient hall, which was beautified by innumerable handsome decorations in the way of evergreens, artistically wrought into mottoes and symbols of the order. An imposing parade was made in the afternoon by the members of the order, in regalia, headed by the Rico Cornet Band. The band also the west and guarantees that his work for the Odd Fellows and Grand Marches and for a waltz. The elegant supper served by Andy Brydon, proprietor of the St. James, in the dining room of that hostelry, is the subject of much comment. Ar the rink last evening a number of young men made one of those mistaken identity blunders which annoy the blunderer into early graves or premature bald ness. A young lady sat alone in a some what secluded portion of the rink, and as the merry mashers whisked gracefully by, entered, and judgment for pliff. for they greeted a familiar lady acquaintance (as they supposed) with smiles, nods and waves of the dainty silk handkerchiefs BARRY & KNUDSTON will open up the which they carried to wipe off their heated brows. For her dear sake, they flitted, they smiled their sweetest, they made long, sweeping, graceful strokes. There was great rivalry among the young men to see who should first win to her dimpled cheeks, rosy lips and sparkling eyes. one of those angelic smiles, so rarely Beautiful. But the smiles were obdurate and came not to gladden the hearts of the perspiring aspirants. In fact, she seemed annoyed, and when she rose to escape the evident attentions they were paying her, to their infinite horror they beheld-not the supposed acquaintance but an utter stranger. The young men wilted and refuse to be comforted. They are holding a caucus as we go to press for the purpose of swearing alibis for one

Tally One for the Smiths. The correspondent of the Telluride Journal, "Captain" sends in the following from Ames:

"My old friend, John Eder, came from the San Bernard mine and gave me a call. He reports the Barnard as looking well. They are working on the lower drift and have got a good body of ore in place. There will be a good many tons of ore to ship to the Pasadena smelter at Rico. Eder has just returned from meeting the Dolores commissioners. He says the Ricoites are putting the road up the Dolores in first rate order as fast as the snow goes, and will not s op till they reach the divide on the county line above Trout Lake. They mean business on this road question. It will be some time before we, on this side of the range, can do anything on the proposed road as snow is still deep on the Lake Fork.

We, on the South Fork of the San Miguel river, don't intend that the Joneses of Rico, shall have it all their own way in supplying the Nation with presidential timber. Born to Mr. and Mrs. Belt, a boy; 13 inches by ten pounds is the size and Grover Cleveland Belt, Jr. is his name."

We don't care much about taking the belt, but the following returns break our heart. These Smiths are so very presumptuous:
