There is being made, at this time, considerable inquiry, in reference as to the location, amount of work done, size of pay streak, nature of work performed and other important information, connected with mines and prospect locations, with a view of purchasing. To those who own good property—that will bear investigation and desire to sell the same, Mr. Charles A. Mantz, of Rico, well known to all the people in the camp—acquainted with the mountains and deposits, will undertake to negotiate and make sale for those who desire his services.

THE ROCKY MOUNTAIN NEWS. This paper is the Banner newspaper of Colorado. Now over twenty years of age, is the Leading Democratic Paper of the State. TERMS OF SUBSCRIPTION: Daily, per annum \$10.00 Weekly, per annum 2.00 SEND FOR IT.

The Mining Record of New York comes to us increased to thirty-six pages. It is the only journal in the United States entirely devoted to the Mining industries of the country, and is brimful of valuable intelligence concerning the precious metals, particularly, an industry that gives us an annual income of \$100,000,000. In this respect, the Mining Record is unequalled as a work of reference. Hereafter, our enterprising cotemporary will devote attention also, to the Iron interest. Already, with respect to the lead and copper market, its reports are without their like for method and precision. It is published by A. R. Chisolm, No. 61, Broadway. A Banking Department is also attached specially for the purchase and sale of stocks, for subscribers, both in New York and San Francisco, and the payment of dividends same day at San Francisco.

The Puzzle mine continues to show up well. Amos Lane, Supt., is pushing vigorously for development, with rich reward. Just beyond the Puzzle is the Joner and Elgin Boy. The Joner has a ten foot tunnel, showing an 18-inch streak, carrying iron, copper and galena. The Elgin Boy has a 30 foot drift, running along the vein.

The Maybel Grey Lode is located on Expectation Mountain, in the same belt with the Green Mountain and Green Mountain Boy lodes. This mine shows a two foot vein of mineral, carrying copper and galena.

The Newman mine is being continuously worked for development. At the upper level a flat carbonate vein is in sight, and is as valuable as anything yet taken from the mine. SOME transfers are being made on mining property, daily.

MORMONISM! Oaths Which Turn Them Into Slaves. Undenying Enmity to the American People.

The exposure was made by Mrs. G. S. R. From the Salt Lake, (Utah) Tribune, we extract from an article exposing the mysteries of the Endowment House, the following: "The Mormon Endowment House is a plain adobe building, two stories high, built like a small dwelling house, so as not to attract attention. There are blinds to all the windows, which are nearly always kept down. It is situated in the northwest corner of the Temple Block, (which includes the Tabernacle, New Temple, &c.) and the whole block is surrounded by a very high wall.

On a certain day I went to the Endowment House, at 8 in the morning, taking with me my endowment clothes, (consisting of garments, robe, cap, apron and moccasins.) I believe the people used to take their own oil, but that is now discontinued, as fees are charged. I went into a small room, attached to the main building, termed Reception Room, which was crowded with men and women, with their bundles of clothing. The entrance door is on the east, and in the southwest corner; there is another next to which the desk stood, where the clerk recorded the names, etc. Around the north and west sides were benches for the people to sit. On going up to the desk I presented my recommend from the Bishop, in whose ward I was staying, and George Reynolds, who was then acting as clerk, asked me my name, those of my parents, when and where I was born, and when I was baptized into the Mormon church. That over, he told me to leave my hat, cloak and shoes in that room; and taking up my bundle, I went into the room marked 3 on the plan, where I sat waiting till it came my turn to be washed. One of the women, an officiating high priestess, told me to come behind the curtain where I could hear a great deal of splashing and subdued conversation. I went, and after he was undressed, I had to step into a long bath, about half-full of water, when another proceeded to wash me. I objected strongly to this part of the business, but was told to show a more humble spirit. However, when she got down to my feet, she let me go and I was turned over to the woman who had spoken to me first, and whose name was Bathsheba Smith, (one of the widows of Apostle George A. Smith.) She wore a large shiny apron, and her sleeves tucked up above her elbows. She looked thoroughly like business.

Another woman was standing beside her with a large wooden spoon, and some green Olive oil in a cow's horn. This woman poured the oil out of the spoon into Bathsheba's hand, who immediately put it on my head, ears, mouth, and every part of my body, and as she greased me, she muttered a kind of prayer over each member of my body: My head, that I might have a knowledge of the truths of God; my eyes, that I might see the glories of the kingdom; my mouth that I might at all times speak the truth; my arms, that they might be strong in the defense of the gospel; my bosom,—and here I must ask my readers not to think I want to tell this part of the story, but I do want people to know the truth, and how disgusting and indelicate this thing is. Mormon people deny many of these things, and civilized and decent people can scarcely realize that this institution is as infamous as it really is, but I solemnly assert that these things do exist. To continue: My bosom, that I might nourish the children whom I might raise by my husband, (I was not then married, but expected to be), and another part of my body, that I might raise up a goodly seed, that they might be pillars of strength to the upbuilding and strengthening of God's kingdom upon earth. And so she got down to my feet, when she hoped they might be swift in the paths of righteousness and truth.

Another woman then whispered my new and celestial name in my ear. To be called in the morning of the resurrection by it. "Sarah." That the new name must never be spoken, but often thought of, to keep away evil spirits. I should be required to speak it once that day. She then told me to put on my garments. These are made in one piece. On the right breast is a square, on the left is a compass, in the center a small hole, and on the knee a large hole, which is called the "Stone." We were told that as long as we kept them on no harm could befall us, and that when we changed them we were not to take them all off at once, but slip out a limb at a time and immediately dive into the clean ones. The neck was never to be cut low, or the sleeves

short, as that would be patterning after the Gentiles. After this I put on my clothes, and in my stocking feet waited until she had finished washing the remaining two or three. This done, the little calico curtains were drawn aside, and the men and women stood revealed to each other. The men looked ashamed as well they might be. The weak-kneed can back out. Joseph F. Smith then came to where we were all waiting, and told us that if "we wanted to back out, now was our time," because we should not be able afterward, and that we were bound to go right through. All those who wanted to go through were to hold up their hands, which, of course, everyone did, believing that all good and holy things that were to be seen and heard in the "House of the Lord" were yet to be seen and heard in the House, our memories would be blighted, and we should be everlastingly damned, for they were things too holy to be spoken of between each other, after we had once left the Endowment House, we were then told to be very quiet and listen. Joseph F. Smith then went away. In a few moments we heard voices talking loudly so that the people could hear them in the adjoining room. I afterwards found out in passing through that it was the prayer circle room. It was supposed to be a conversation between Elohim (Head God) and Jehova. The conversation was as follows: Elohim—"Well, Jehova, I think we will create an earth; let Michael go down and collect all the elements together, and found one." Answer—"Very well, O, Lord God, it shall be done." Then calling to another man, we could hear said: "Michael, go down and collect all the elements together and form an earth, and then report to us what you have done." Ans.—"Very well, O, Lord God."

They came out of the Garden of Eden then, (which was supposed to have been newly finished) and shutting the door after them came to where we were standing. We were then told to open our eyes, and Jehova said to Michael, "Give me a handful of dust and I will create man." We were then told to open our eyes, and we saw a man that he had taken from the crowd standing beside Jehova, and to whom Jehova said: "I will call thee Adam, for thou shalt be the father of all mankind." Jehova then said it was not good for man to be alone, so he would create a woman, and a helpmate for him. We were again told to close our eyes, and Adam was requested to go to sleep, which he obligingly did. Jehova was then supposed to take a rib from Adam's side, and form Eve. We were then told to open our eyes, and look upon the handiwork of the Lord. When we did we saw a woman taken from among the crowd, that was standing by Adam's side. Jehova said he would call the woman Eve, because she would be the mother of all mankind.

The door of the Garden of Eden was then opened, and we all marched in with our little bundles, (the men going first, as they always take precedence,) and we arranged ourselves round the room on benches. The four sides of this room are painted in imitation of trees, flowers, birds, wild beasts, etc. (The artist who painted the room was evidently better acquainted with whitewashing than painting.) The ceiling was painted blue, dotted over with golden stars; in the center of it was the sun, a little farther along was the moon, and all around were the stars. In each corner was a Masonic emblem. In one corner is a compass, in another the square, the remaining two were the level and the plumb. On the east side of the room, next to the door, was a painted apple tree, and the northeast part of the room was a small wooden altar.

After we had seated ourselves, Jehova told Adam and Eve that they could eat of every tree in the Garden, except of this particular apple tree, for on that day that Next comes the most interesting portion. (Continued in our next.)

DOLOROS NEWS.

RICO, OURAY COUNTY, COLORADO.

SATURDAY, JANUARY 8, 1880.

LOCAL BREVITIES.

BUSINESS still, and dull. OPEN the Pinkerton trail. RICH strikes reported every day. OLD papers for sale at this office. SNOW is disappearing very rapidly. Legal Blanks for sale at this office.

WHISTLE "Beautiful Bells," take a few steps, squash the cat, kick the stove over, and let Mary-Anne have the floor long enough to deliver her oration. Rico is waltz struck.

A SHAFT is being sunk on River Street, by parties unknown to us, but we are informed that some valuable carbonate ore has been taken out, and as we go to press it is stated that the vein is reached.

SNOW shoeing affords great amusement for Ricoites. Be careful about falling when resting on your girl's arm. Don't go down hill very rapidly, and never tie your feet to the shoes.

THE NEWS books, this week as subscribers, the firm-name of four different prominent firms, operating in San Juan Mining Properties,—respectively, in Chicago, Philadelphia, New York City, and Pittsburgh.

As the snow is rapidly disappearing, those of the miners, who have been idle for a short time, are now preparing for prospecting tours, and for the working of assessments. Right now is the time to secure mining properties in Pioneer Mining District.

You should not censure Lon Prescott, for he says "when he was fondling the baby at the New Year ball, he really did not know the baby's heels were up, until he started to kiss it farewell, and hand it over to its mama. Of course, the heartless wretches would joke him about it—even though he were innocent.

THE Witchita Lode is situated on Expectation Mountain, just west of Rico, and has a cut of fifty-five feet, and a ten foot tunnel at end of cut. This has proven to be a valuable property, presenting a heavy vein of carbonate ore. The work is progressing rapidly on the mine, and by spring the Witchita will furnish paying ore to the smelters.

The postmaster at Animas City, would oblige the NEWS outfit, by sending a few of the papers due the office. Individuals here have received papers, numbers of which we should receive the same, but we have not. It is reported here that a large amount of mail matter lies at Animas City, and if true, some of it belongs to the DOLOROS NEWS.

WHETHER the Utes are killing cattle on the La Plata, they are liable to, and the white renegade among them, may influence them to do anything of a like nature. Hang him and the Utes.

THE NEWS did not have a sufficiency of extra copies last issue, but, will have of this issue. There were calls for over a hundred more papers than the three hundred extra printed last week.

WILL the postmaster at Farmington, N. M., write the NEWS the cause of mail not coming through from his office?

JOHN R. CURRY, ESQ.,

The owner of the La Plata Miner at Silverton, and the Dolores News, at Rico, in the San Juan country, Colorado, has gone east for the winter. Mr. Curry will be in Chicago, St. Louis, New York, Pittsburgh, Philadelphia, Boston, and other cities in the interest of his publications. We respectfully suggest to capitalists and others, who propose to invest in mining property, about Silverton, Howard's Fork, Rio San Miguel, Rico and the Carbonate Camp, on the Dolores, all in the San Juan; that Mr. Curry, from his long residence in the country, has acquired a knowledge of Southwestern Colorado, its mines, their worth and value, their location and situation and the parties who own some of the best property—that is invaluable. He is a most pleasant affable and courteous gentleman, and will take pleasure in affording all inquirers the fullest information in regard to the vast mineral resources of the country, as well as some of the best gold and silver lodes that may be secured at the most moderate figures. Parties desiring to consult Mr. Curry will address him 87, Dearborn Street, Chicago, Ill.

Your Home Newspaper.

It is difficult to print a newspaper of any class or kind in Rico, to-day, as there is little being done at present,—except the working of the mines,—and the progress of development cannot well be reported while so much snow lies on the ground, as 'twould occupy the time of five or six reporters, to visit weekly, the various mines being worked in Pioneer Mining District. The miners, themselves, do not visit the town of Rico, oftener than is necessary. However, if the weather continues as it is at present, Rico will soon boom again. Heavy snows on the Parrott ranges have impeded travel, so as to irregulate the incoming of the tri-weekly mails over route 38172, to Rico. Thus, the NEWS has not received a one-hundredth part of the mail due the office, during the past two weeks.

It is with continual, and persistent effort, that we gain information concerning the progress of mining in the Dolores region.

While the NEWS, as a newspaper, does not belong to any individual or individuals, other than John R. Curry, its publisher, it is a representative of the District, the people, and their interests, and anything of interest,—where facts are embodied,—regarding the District, should be made known to the outside world. That those at home, have all faith in a prosperous future for the camp is true, yet, how, in the name of God, we would ask, will the people of the outside world, learn of the mineral wealth of a camp or district, if the only exponent of that locality, does not inform them? To be sure, we all have friends and acquaintances, here and there, and some of us would squander three cents to inform them. Though a newspaper has a more general circulation, and the NEWS is as fully responsible for what appears in its columns as is the President of the United States, for that which appears in his messages. We solicit facts and true information regarding every mine, or prospect-hole,—worthy of note—in the Dolores region.

NEW YEAR'S EVE BALL.

On the evening of Dec. 31, '79, a ball was given at Pioneer Hall, which was in every appointment, a success. Even the floor managers, McGraw, Robinson and Spencer, gave general satisfaction. About the same number of ladies were present, as there were at the ball on the evening of Christmas. Everything passed off pleasantly, and all seemed to realize the affair as one of the most enjoyable.

Between the hours of eleven and twelve the guests marched to the dining room, where an excellent supper awaited the ceremonies of toasts delivered by John W. Park, and F. W. Raymond, our mayor.

Mr. Park observed the kindness of host and hostess, Mr. and Mrs. Snyder, in their exquisite preparation for the occasion.

Frank W. Raymond dwelt for a short time, on the rapid growth and advancement, and the prospective of Rico's future,—and assured the folks that his heart was with them,—Frank did,—and the folks all hollered. F. W. acquitted himself "al a maude."

Another Frank was nominated: "A third time a charm." Not in every case. But give him five minutes, if not otherwise aware. Don't torture a feller thusly when he wishes to give his whole attention to his girl.

As he arose:— Loud, boisterous and continuous shrieks, of "Give us a rest,"—"Shoot the collar,"—"Stag the whiskers,"—"How come you so?"—etc., emanated from the strongest of lungs.

The organization of Sunday School has been perfected.
