GRUVER TOPS SUNRAY

The Gruver Greyhounds blanked Sunray 15-0 Friday night. The un-favored Gruver team again upset the predictors as they won their sixth game of the season and hold second place behind Stratford in the District race. Friday night the Greyhounds will close their season as they play the Panhandle Panthers on the Panhandle field.

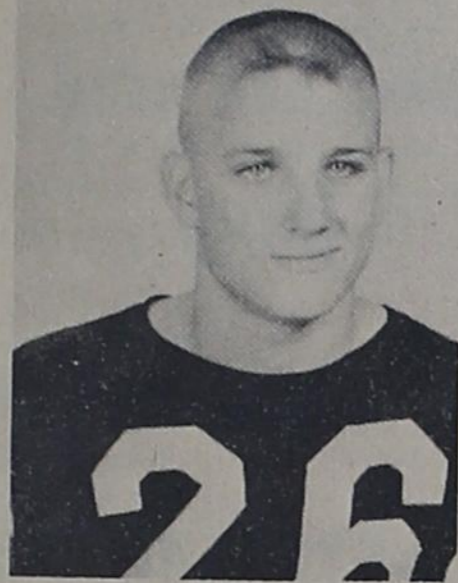

Gruver's defense and offense showed great strength against a team which out weighed the Gruver boys some twenty pounds to the man. The Hounds allotted the Bob cats only 74 yards rushing throughout the entire game and held the Bobcats to only 17 yards gained in the last half. Gruver made 165 yards rushing. Sunray attempted 30 passes of which they completed six for a total of 87 yards while the Greyhounds made 53 yards in 10 pass attempts.

The first quarter remained scoreless and it wasn't until the last minute and fifty seconds of the first half that Sam Arnold bounded over from the one yard line for the first tally. Mack Hoel followed with a run from the 20 yard line for the two extra points to make the halftime results 8-0 in the Greyhound favor.

The third quarter gave the Hounds their second tally of the evening as Sam Tipton scored from the one yard line. Mack Hoel's kick for the extra point was good and Gruver led 15-0. The fourth quarter was a defensive battle and the Greyhounds ended the game with the 3rd quarter score.

Gruver opened the game with a kick to the Bobcat 23 by Mack Hoel, and only two plays later Hoel received a quick kick from Sunray on the Gruver 42. Silva carried for six yards but on the second down try, Ditto of Sunray intercepted a Greyhound pass. The Bobcats carried for ten yards but fumbled the ball to Gruver. Proceeding down field for 13 yards and the first down of the game, Gruver was led by Silva, Arnold and Mathews. Held for only three yards gained Sunray took possession but were in trouble and gave another quick kick to the Hounds. Silva and Arnold carried for 11 and only two yards were needed as the quarter ended for another first down but the Sunray defense held and Sunray took over.

The Bobcats made their first down as the second quarter opened but found going rough and punted to the Gruver 41. From his own 41 yard line Sammy Arnold carried the ball 34 yards in three plays and Silva added three more yards to give the Greyhounds three first downs in a row. Tipton passed to his back, Silva for 14 yards but a 5 yard penalty coupled with two short losses handed the ball to the Bobcats on the Sunray 28. Again the Bobcats found trouble and kicked. The kick was a high one but only carried to the Sunray 48 where Gruver began their first scoring move. Arnold carried for seven yards and then he took

a pass from Tipton for 28 yards down the field. Gruver fumbled the ball on the seven yard line but Jim Nobles recovered a Bobcat fumble on their own three. Silva carried for two of the yards and Arnold followed as he bounded over from the one to make the score 6-0. Mack Hoel was back to to kick but the Greyhounds spent too much time in setting up their play and pushed back for five yards before trying for the extra point conversion. The ball was snapped for the kick and Hoel took the ball and raced for the two points to give the Greyhounds an 8-0 lead. Gruver kicked to the Sunray 23. On Sunray's first play the Bobcats carried for 36 yards and then followed with a 15 yard drive but gained only 8 on a pass play coupled with 13 yards lost as the half ended.

The second half was also opened with Gruver's kick to the Bobcats on the 21. The Sunray team returned the ball for 21 yards but met the Gruver defense as they lost five yards in the next four tries. Gruver traveled 24 yards with Riley and Silva carrying. Three pass attempts failed and Sunray took possession. They progressed 10 yards before fumbling to Gruver. Tipton passed twice for 12 yards to the hands of Silva and Hoel. The Greyhounds were again threatening on the Sunray 16 yard line. Silva and Arnold carried for nine yards but a penalty put the ball back five yards. Silva carried for two and Tipton went around left end for the first down and was stopped on the one yard line. On a quarter back keeper play Sam Tipton was over for the second touchdown. Mack Hoel followed with the one point conversion and the score was 15-0 in the Greyhound favor.

Sunray made a twenty-two yard pass play but Mack Hoel intercepted a Bobcat pass to give Gruver the ball as the fourth quarter began. Held to only six yards gained. Gruver turned the ball over to Sunray but Sunray was thrown for a loss of two when O.E. Gammill caught the quarter back as he was attempting a pass. Sunray was then forced to kick. A fifteen yard penalty hindered the Greyhounds and Sunray took possession but again the Bobcats tried passing only to gain 6 yards and followed with a fumble

which Rex Shapley recovered. Silva carried for four yards but the Hounds were faced by a 15 yard penalty. Gruver kicked to the Sunray 20 and on the first play Walker charged down field after taking a pass for 80 yards to the goal but the Sunray touchdown was called back due to pass interference. But the Bobcats fought back furiously as

BACK FORTY PHILOSOPHY

by Jack Shaw

This week while crossing one of my Johnson grass fields I found a rain-soaked newspaper that was filled with post-election news.

It seems that both men were looking over their shoulders at the results of November 3. One man was elected by a large majority of the votes and he was saying how that calls for the nation to rally behind his cause. Of course there is a loser for every winner and the one who lost was saying something about "extremists" in his party

FIVE INJURED IN CRASH NEAR MORSE WEDNESDAY

Five persons were injured, one critically another seriously late Wednesday near Morse. Listed in critical condition in the intensive care unit of Northwest Texas Hospital, Amarillo was Mrs. Burt Harrison, 57. Her husband Burt, 58 was listed as serious.

Mrs. Harrison lives about 10 miles northwest of Morse with her husband and a son Leroy Hill, 22 who was a passenger in the Harrison car, but his injuries are not thought to be serious.

Others injured in the two car accident were Myrick, 35 and Ramirez 23 of Amarillo and they were thought to not be seriously injured.

they raced from their own 40 again to the goal to be called back again for a holding penalty. Sunray tried a pass again but Allen Etter was through the line for the Hounds and pushed the Bobcats back for an 11 yard loss. The Sunray team passed but to no avail as the final horn blew to end the game 15-0 in the Gruver favor.

that caused his defeat. I am almost as confused after the election as I was before. I still do not know which one to believe.

One thing this election did prove for sure—we have us a leader for the next four years. That is more than we could say if we lived in Latin America!

MRS. STEDJE IS DELEGATE

Mrs. James Stedje will be the official delegate for the Hansford County Unit of the American Cancer Society at the Annual Meeting of the Texas Division, ACS, to be held in San Antonio, November 18 and 19, at the Granda Hotel.

Mrs. Stedje is a Crusade Charman of the local unit. Other American Cancer Society volunteers from Hansford County who will attend the meeting are Mrs. Ted McClellan.

Morse Slates Homecoming

The Homecoming for Morse High graduates will be held this coming Friday November 13 at the school. Festivities will begin with a reception in the school cafeteria at 6:00 p.m. The football game will be at 7:30 and there will be a dance at the community building afterwards for ex-students. All ex-students whether they are graduates or not are invited to attend.

WORLD WAR I VETERANS HONORED TUESDAY

The Gruver American Legion and American Legion Auxiliary Post 154 of the Sullivan R. Spivey Unit hosted the Zone Meeting of the Area Tuesday night November 11th in the Gruver Memorial Building.

The meeting began with a dinner served by the American Legion Auxiliary of Gruver in the basement of the building. The World War I Veterans were recognized and honored throughout the evening as a tribute of Veterans Day November 11th.

Glen Truax, Post Commander opened the meeting and the color guard presented the flags. Reverend J. H. Nichols of Spearman, Zone Chaplain, gave the invocation. The Star Spangled Banner and Legion Pledge were also led by the Post Commander.

The entertainment for the evening was provided by the Swinging Spinsters which included Jane Hoy, Darlene Odom and Arlene Barkley, accompanied by Kathy Fletcher. The girls sang "Sentimental Journey", "Wish Upon a Star", "I'm Gonna Wash That Man Right out of My Hair". Elmo McClellan, Finance Chairman, reported that the note for improvements on the Memorial Building had been paid off as of 2:30 p.m. Tuesday November 10th. Special recognition was given to the Gruver Community 4-H Club for their active support and role

Veterans of World War I that attended the Banquet held on Tuesday night November 10th in the Legion Hall in Gruver. They were Mack Dortch of Morse, Texas; H. H. Crooks, J. H. Nichols, both of Spearman; O.R. Truax, Robert Barlow, A. W. Henry, Virgil Olmstead, A.R. Hagland, and Lake Patton all of Perryton, Texas; Ed K. Doores of Farnsworth, Texas, John H. played in the actual remodeling of the building. Other recognitions were as made for the members and active citizens of the town who participated in contributing to the fund. Special thanks go to the Auxiliary ladies who have worked so hard to raise funds for the project by having the good Sunday dinners that they have had during the last year. Grant Hannah, District Commander of the 18th District Legion gave a brief opening address and noted several items of business which was at state

level. Mrs. Grant Hannah, President of the District Legion Auxiliary spoke also and presented the need of more members in the Legion and Auxiliary. Commander Hannah presented Commander Speice of the Booker Post with the Jack Flint Award. Gruver and Booker received honorable words of mention for their goals reached in membership by Mrs. Hannah. Mr. and Mrs. Hannah are from Hereford. Posts represented for the evening were Darrouzette, Perryton and Gruver.

HIGHLIGHTS FROM THE PAST TO THE PRESENT

South we turn this week as Highlights from the Past to the Present takes up again to visit in the homes of our pioneer residents. How interesting and educational it is to visit with the early settlers and to hear them tell of their experiences in pioneering this area when the country was only one vast prairie, not divided by a thing.

The top of our story is the T.I. Harbour family. Mr. T.I. Harbour was born in Lavaca County, Texas and was the son of Isaiah and Martha Ann Harbour. Ten children made up the family of Mr. and Mrs. Isaiah Harbour, two of their children died at infancy. When T.I. Harbour was only a small child his family moved to Hayes County south of the town of Austin. His parents were farmers and were in search for new and better land. It was in Hayes County that Mr. T.I. Harbour began his schooling. From Hayes County the family began to seek still further for better land and moved to the counties of Johnson, Calhoun and Stevens where the children continued their schooling.

In 1901 T.I. Harbour joined his brother, W.A. Harbour in the Panhandle of Texas and the two brothers drilled water wells over the area of Ochiltree and Hansford along with Hutchinson Counties. Coming in 1900, W.A. Harbour filed upon land just over the Hansford County line to the south. He and his brother drilled wells for sometime along side their farming interests. Their drilling unit was horse powered.

Edgar Womble and I.T. Harbour broke some of the first land in the area with their rod bottom ploughs. T.I. Harbour met and married several years after his move to this area, the woman he chose to be his wife was Ollie Harmon. Born in Hill County Texas, Miss Ollie Harmon was the daughter of Mr. and Mrs. R.L. Harmon. There were three children in the Harmon family. Spending most of her youthful days in Hill County, Miss Harmon accompanied her family to Wichita County Texas and later in 1911 to Ochiltree County. Her parents were farmers and moved to this area to find better farming conditions as well as something to call their own. The Harmon family moved in covered wagons along with the Compton family.

Miss Harmon worked at the Wawaka Post Office and it was here that Mr. T.I. Harbour and she met. They also were together at church and social parties. The couple were married November 1, 1914 in the home of the bride's parents on a farm east of Wawaka in Ochiltree County. They were married by Reverend Brittan, a Baptist minister from Ochiltree County.

Following their marriage the couple moved to the Harbour home place which Mr. Harbour had settled upon earlier in the Lackey Community southeast of what is now Morse. They began housekeeping in a two room half dug-out and lived there until Mr. Harbour could complete the house in the next fall.

The supplies were first purchased at Channing butcher Stratford and Texhoma. Mr. Harbour recalls the snow of 1912

ter Stratford and Texhoma became trade centers for the family. The grain was freighted to Texhoma. Mr. Harbour recalls the snow of 1912 for he was caught in the storm between Texhoma and his home. Going to Texhoma for a load of lumber, he was returning on Saturday. Only traveling eighteen mile toward home with the load Mr. Harbour reached the Johnny Layton ranch. He found a man who was moving steers and had sheds and corrals for all his stock. Think the storm too hazardous, he decided to stop for the night and stayed in the shed or cake room. He put his bedding in the room and was down for the evening. By 9:00 p.m. that night the snow was falling quite

Mr. and Mrs. T. I. Harbour

heavy and continued throughout Sunday. It was cold and the wind was blowing strong, building up drifts 5 to 6 ft. deep. The cattle drifted south and many were caught in the deep drifts and died. After the first night Mr. Harbour moved into the Layton home to stay. On Monday morning the snow had stopped and the skies had cleared. Though still quite cold, Mr. Harbour harnessed his horses to the wagon and started out across the deep snow covered ground toward his home. He made it to Lucern for the second night, but found going rough the next day as the deep drifts along the Palo Duro Creek were treacherous and required a great amount of shoveling in order for the wagon and horses to travel. But once through the breaks of the Palo Duro he found going better and made it home.

The family were members of the Baptist Church and attended the Lieb Community Church where Mrs. Harbour was one of the Sunday School teachers. Entertainment was centered around baseball games of chosen sides. A family gather in the home on Sunday was a common occurrence. The children delighted in riding the milk pen calves when their father was away, and always remembered by the children was their goat and her three kids. "Nadine" was also a part of the family for she was their shetland pony. All the children rode her during their youthful days and Nadine lived to be thirty-three. Her offspring are the pets of the grandchildren to this day.

At first the family received their mail at the Zulu Post Office but later they got their mail at Hansford. Mr. George Tompkins of Lieb had the Lieb Post Office in his home this was closer for the family.

As mentioned before Mr. Harbour broke nearly all the

land with a rod bottom plough. Horses and mules were used in farming. It wasn't until 1926 that the family used anything but the mules and horses. The crops raised by the family were wheat, oats, barley, maize and sorghum. Mr. Harbour and Mr. Roy Womble purchased one of the first combines in 1926 and it was pulled with horses.

Ten children were born to Mr. and Mrs. T.I. Harbour and were Ira, Lewis, Leota, a baby, Leno Jo who died at infancy, Bob, Mary Nell, May Lee, Avis, Monty and Jerry.

The children attended school at the Lackey School where their early teachers were Mr. Warren, Opal Jameson, Alice Sheets, Alice Pearson and Wilma Pearson. Seven grades were taught by one teacher. The children would walk or ride horseback, for the only mode of travel that the time was horse. As the towns of Spearman and Morse became established the children attended the schools of these towns. Mr. Harbour recalls that when the Lackey School was built his brother, Walter, went to Amarillo for the lumber and the school was built in 1906.

The family always had a garden and also plenty of fresh fruit. The children remember plum thickets, blackberries, cherry trees and strawberries along with many more fruits raised near their house.

Mrs. Harbour cooked on a wood and coal stove and cow chips were also used when the fuel supply ran low. The stove had a boiler on the side which supplied all the hot water for the home. The neighbors would gather at butchering time as usually 12 or more hogs would be butchered at one time. Sausage would be made on the day following butchering and lard would also be rendered. Then from the rendered lard would come soap which was made by the family. Mrs. Harbour also canned and made the jellies and jams for the family use. The family recalls the fun that they would have when they went to the river to pick wild plums for they would take a picnic lunch and a large group would always be along.

Mr. Harbour was an active church and civic worker. He was a member of the school board and helped with many elections. He was also a member of the Equity Board. Mr. and Mrs. Harbour make their home on their home place which is one and one half mile south of the Hansford county line in Hutchinson County. They have just recently celebrated their Golden Wedding Anniversary.

The family never had a telephone until 1923 and hardly knew of a doctor in the area for a long time after their marriage. The State Highway passed near the Harbour home and many times strangers would be stranded would stay at the Harbour home. Often Mr. Harbour would keep a team of mules near their corner to pull a stranded passer-by out of the mud.

The children have married and have families. Ira married Loree Jackson and they make their home one and a half mile east of the home place where he farms. They have four children, Ann, Jean, Curtis and Ted. Lewis married Rita and he is engaged in farm work at

Spearman.

The daughter Leota married Robin Giblin and they live in Morse where her husband farms. The couple has three children, Robbie, Jack and Peggy. Robert (Bob) married, Lona Lynch and they have four children, Stephanie, Tommy, Phillip and Debbie. Robert is employed at the Amarillo, Post Office.

Mary Nell is married to Gayle Webster who is Manager of General American Credits in Dayton Ohio. The couple have four children, Mike, Patricia, Geoffrey and Beverly. May Lee married Leroy Smith and the couple live in Peryton where he is engaged in farming. They have three children, Gary, Connie and Larry Don.

Avis married Glen Smith and they live in Dimmitt and he is band director there. They have two sons, Steve and Rickey. Monte Harbour married Marie Winger of Gruver. They have two sons David and Ray Dean and make their home on the Harbour home place where Monte farms.

The youngest daughter Jerry married C.W. Johnson. The couple make their home in Madison Heights Virginia where he is manager of Colonial Stores. They have five sons, Clifford, Tony, Calvin, Chris, and Clinton.

Again Highlights from the Past to the Present has found history in the lives of a pioneer family. Each pioneer family plays an important roll in the progress or settlement of our area and without these families our own county would be far below its high standards of today.

How fortunate we are to have families such as the Harbours in our area.

FTA ATTENDS MEET

F.T.A. Delegates to District: Standing, Sandra Riley, Jane Hoy, Jody Wallin, Jackie Hudson, Elaine Kelly, Raelene Lawrence, Alford Blount, Mrs. Chisum and Jimmy Hardesty; seated Mary Etling, Judy Bayless, Marian Jeffries, Judy Gillispie and Arlene Barkley.

November 3, 1964 was an eventful day for the F.T.A. members of District IX. West Texas State University was the scene of the annual F.T.A. district con-

vention where the district officers are elected and the Mr. and Miss F.T.A. district contests are held. Thirteen members of the Gruver F.T.A. along with their sponsor, Mrs. Chisum, atten-

ded this convention. The keynote address of the day was given by Dr. A. D. Martin, president of the Amarillo Jr. College, who spoke on the F.T.A. theme for the year, "Explorers in

Progress". He brought out the idea that teachers give their talents, but it must be a natural instinct and that "the teacher is the trustee of our way of life."

After the morning speeches were given, there were six different workshops available for furthering F.T.A. A. training. These were very informative and a great help to all F.T.A. members.

After lunch the group gathered once again in the auditorium where the district officers were elected. After the election, the finalists in Mr. and Miss F.T.A. contests spoke before the group and were judged.

Members attending this convention were: Alford Blount, Marian Jeffries, Jane Hoy, Elaine Kelly, Sandra Riley, Jim Hardesty, Arlene Barkley, Jackie Hudson, Judy Bayless, Jody Wallin, Judy Gillispie, Raelene Lawrence, and Mary Etling.

DESPERATE AMBROSE

by Arlene Barkley
The whole community should be making plans to attend the junior play, November 19. The play, "Desperate Ambrose" is directed by Mr. John Huth, and it promises to be one of the funniest satires of the old West ever to be put on stage.

The play takes place in Dead Man's Gulch which is supposedly the roughest, toughest spot in the whole West. It all started when Ambrose Groves and Bert Miller, played by Tommy Gumfory and Sam Tipton, were stranded in the desert on the way to California. Ambrose is a meek, mild-mannered young man from the East and Bert is his partner in a vaudevilian comedy act.

They stumble into Dead Man's Gulch and are mistaken for Homer the Kid and his pal Gunsnoke Carter who are the "hardest-shootin', hardest-ridin' cow pokes ever to straddle a saddle." Ambrose manages to get everything in a terrible state and the things that happen to them should keep the audience in stitches.

The characters include Booker T. George Washington Carver Jefferson Memorial Dan'l Jones played by Larry Don Mitchell. Dan'l is

the sleepy-headed, colored watchman of the Dead Man's Gulch Hotel who works mostly at keeping himself awake. Sheriff Crandel is the town sheriff, but he's really crooked and underhanded and is responsible for most of the horseplay that's going on. The sheriff is played by O.E. Gammill. Hoot Owl Pete is a dangerous desperado played by Morris Williams, and he works hand-in-hand with the notorious Stinkweed Mead, played by Junior Casdorff.

The heroine of the play is Miss Nancy Martin who is both young and pretty. The part is played by Sue Fulfer. Anne Martin, played by Mary Etling, is Nancy's younger sister. Posie is their colored maid, who is played by Donna Lemons and turns out to be Dan'l's dream girl. Beth, played by Evelyn Kelly, is a matronly Western type and takes the girls under her wing. Mrs. Spool is a gossipy old gad-about who has a young daughter named Lena. Judy Bayless plays Mrs. Spool, and Lena is played by Merry Jackson. The town's new probate judge is played by Jim Hardesty, and there are two statecoach drivers who are played by Bill Lieb and Del Baskin.

The play will be pre-

ented in the Gruver High School Auditorium at 7:30 p.m. November 19. Be sure to come for a very enjoyable evening!

DON'T MISS THE JUNIOR PLAY TUESDAY AT 7:30 PM.

Scene from "Desperate Ambrose" includes O.E. Gammill, Morris Allen Ayres and Junior Casdorff.

The four main characters in the Junior Play are Sue Fulfer, Mary Etling, Tommy Gumfory and Sam Tipton.

My Most Unforgettable Character

by Judy Hill
Everything always seemed to go wrong for me. I just couldn't understand why. It seemed that I had fewer friends than others, but at the time I didn't notice. The fact is, I never noticed much of anything, unless I could find fault in it or complain about it. I always seemed to see the black side of everything and only caused trouble and headache for myself and others, until one day when I met my most unforgettable character. Let me tell you about Him, and maybe He can help you as He did me.

He was born of a very humble family in a small town across the ocean. He was a foreigner, you see. His life was a hard one and filled with many trials, although He lived only a short while. He was always very poor, because his family was poor, yet they always shared what they had. His father was a lowly carpenter, known to everyone as "Joe". My friend loved helping His father and was good at this line of work Himself.

He was always a very bright person, and had a personality that mixed well with people. One of his main goals in life was helping others. If I ever wanted to visit with him, I knew easily enough that He would

be helping some sick, or unhappy person. Even though He would be rushed, He always had time to listen to my little gripes and complain and then give me some advice about what I should do. And, you know, it always seemed to work. He did so much for so many people while He was here. One Sunday, while helping a sick man, He was arrested and sent to court. His enemies had it all planned for

Him, and He was sentenced to die, all because He had helped others. All His life was devoted to this, and if it was important enough to Him to give His life for it, I felt it must have held some meaning for me, too.

Even though I gained this friend through a book, I learned much from him. I became less selfish, less temperamental, and more considerate of others. I now have a goal in my life, too,

to be more like my friend and to live with Him in Heaven someday. Oh, yes, I didn't tell you His name, did I? He's Jesus Christ, my Savior.

A Second Home

by Marian Jeffries
Many people are wondering if the new homemaking department in the new high isn't a second home for the girls. Except for not having a place to sleep, it could very possibly be a second home.

The homemaking department consists of three main rooms; the dining room, the kitchen, and the sewing room or workshop. The department also has a utility room with a washer and dryer, an office for Mrs. O'Keefe, and a powder room, including a shower.

Each of the rooms have been furnished in a way to make the department as much like a home as possible. The rooms are not just classrooms, but much like a real home to look after.

The dining area is furnished with early American furniture. A color scheme of browns and reds is carried throughout the room. This room is actually a combination of a living and dining area.

The kitchen is really a combination of seven complete kitchenettes with three breakfast areas. The color scheme of this room is turquoise and white. This part of the department does not have as many cooking utensils as it needs, but the FHA hopes to use some of its money for new pots and pans to fully equip all the kitchenettes.

The sewing room is furnished with fifteen sewing machines, nine of which are the new Touch 'n Sew Singer sewing machines. Built-in cabinets are used for storage and sewing equipment. This part of the department is complimented by pale yellow and tan.

Working in a department such as this does give the girls a feeling that they are working at their home. It is a privilege and honor to be able to work in the new homemaking department, and the FHA girls are very proud to have such a nice place to learn in so they will know how to care for their homes when they have one.

It is better to forget the things that hurt us, and to live each day and take whatever comes, with the hope that by tomorrow there will come a balm for sorrow. And help to master life's important sums! There's a strength comes to us every time we suffer. And our will grows stronger every time we fight. Let us then be doubly grateful. For the things that disappoint us; They only come to lead us to the light!

Meet The Faculty

by Marian Jeffries Mrs. Glenda Renner, who is teaching in junior high is one of Gruver's new teachers. She is teaching sixth grade social studies and English, and sixth and seventh grade Language

arts. Mrs. Renner has had quite a lot of experience in teaching. She had taught the third grade in Amarillo, the fourth grade in Tucson, Arizona, the fifth grade in Albuquerque, New Mexico,

the sixth grade in Roswell, New Mexico, and the second, third, and fourth grade combination in an Air Force school in Spain. Abilene Christian College and Mexico City College are Mrs. Renner's

Alma Maters. She received her Bachelor of Science Degree in Elementary Education after attending these two schools. As a minor, she studied English. Mrs. Renner was reared here in Gruver where she

and her husband, B. J., make their present home. Mrs. Renner offered these statements about teaching: "Teaching school presents the opportunity to associate with youth and its vitality. It also affords

the opportunity for me to share a small part in guiding our future leaders to be confident, honest, and loyal. I feel as the philosopher felt that wrote, 'Nothing is small that aids a human life'."

by Marian Jeffries Mr. James Dorman, a junior high teacher, was reared in Hartford, Arkansas. He and his wife, Ann have two daughters and a son, DeAnna, six years old, Beverly, four years old and Chris, who is three years old. Mr. Dorman has taught school for eight years. He taught one year in Rogers, Arkansas, and is teaching for his seventh year in Gruver. This year Mr. Dorman is teaching junior high science and social studies as well as coaching the girls in basketball and helping with the junior high football team. Mr. Dorman attended the College of the Ozarks, in Clarksville, Arkansas, and the University of Arkansas, in Fayetteville, Arkansas. He received his Bachelor of Science Degree in physical education and biology. He also has his Master of Education Degree. Mr. Dorman takes a great deal of pride in the fact that he is a part of the progressive educational organization here in Gruver. He thinks the facilities would do credit to any community of comparable size. Mr. Dorman had one thing to say concerning teachers and their goals toward life. "I feel that a teacher that becomes the educator they aspire to be, has perhaps set their goal too low."

Last Thursday night on Claude's muddy field, the Gruver "B" team tied Claude in a close game with the final score of 6-6. The only Gruver touchdown was made by Don Kelly. This came late in the second quarter, with only a minute and 30 seconds left before the half. To start the game,

Claude kicked off to Gruver. Gruver was unable to move and was forced to punt. Later in the first quarter, Gruver fumbled on their own 15 yard line and Claude covered the ball and went across for the touchdown but the try for extra points failed. The game was then held scoreless for the rest of the first quarter and

for most of the second quarter. In the last part of the second quarter, Gruver started a drive that went 50 yards for paydirt. This score, by Don Kelly, tied the game 6 all as the first half ended. The rest of the game was entirely defensive, as neither team was able to move very much on the rain-soaked field.

The "B" team plays their last game of the year Thursday night at 7:00 p.m. when they face Sanford Fritch at Fritch. The 7th and 8th grades also close their season here facing Sanford Fritch. The seventh grade game starts at 5:00 p.m. Everyone come out and support your team in their last game of the year.

SUSPENSION FENCING "Save with Suspension Fencing" is the title of a new leaflet now at the county agent's office. The leaflet tells how suspension fencing can cut fence costs in half and describes construction of this type of fencing.

Suspension fences are similar to other type of fences except distance between posts is about 100 feet. Such fences work well for boundary, interior and cross fences, the county agent adds.

Another advantage of suspension fencing is its swaying action. This keeps cattle from becoming mixed between pastures and discourages fighting bulls.

The fences are easy to repair should a section be torn down. With suspension fences, only one or two posts need to be replaced, where with conventional fences, five or six may need to be replaced.

A suspension fence is an excellent way to keep livestock in temporary or improved pasture, while native grasses are being deferred. Copies of L-637 are at my office.

VITAMIN A INJECTIONS IN RANGE COWS

Since 1964 has been a very poor year for cattle on range in Texas. It may be necessary in some instances to supply breeding cows with additional vitamin A. Recently work conducted in Arizona by Lane indicates that percent of calf crop and weaning weights of calves can be increased by supplying additional vitamin A. A total of 8 herds involving 2,200 cows were included in this experiment. One million of I.U. vitamin

HOMEMAKING NOTES

by Linda Webb, H.D. Agent

Without stopping for even 5 seconds to think, can you answer the following questions?

1. Where are your copies of your insurance policies?
2. Do you have a will, and could other members of your family find it easily?
3. Are birth certificates, car titles, property deeds and other valuable documents together in one easily found place if they are needed in a hurry?

If you can't answer these questions positively, you need a quick revision of your home filing system. All too often in an emergency, homes are turned upside down when a search is on for valuable papers that aren't where they should be when they're needed.

Emergencies, accidents or deaths don't always happen to the other fellow! The situation could be yours at any time.

The best place for your valuable papers and documents is a safety deposit box. Safety deposit boxes

are worth many times their cost in case of emergency; they save time and worry in locating important papers.

Letting others in your family know where valuable records are kept can be a great help, too.

Extension Service leaflet L-630 "Your Valuable Family Papers" will assist you in collecting and organizing the information needed for emergencies and easy reference. Ask for this leaflet at the County Extension Office, and for your own family's benefit, fill it out and begin an organized system now for finding your valuable papers.

4-H came to the front again this past week end, as the County 4-H Awards program was held Saturday night, November 7 in Morse.

38 4-H Club Achievement Awards were presented to 35 4-H members in Hansford County.

Patricia Henderson and Alan Dixon were named

County Gold Star Girl and Boy. These two will attend the district Gold Star Banquet in Amarillo, November 14.

Other details on county winners can be found in the County Agents column elsewhere in this paper.

A special thanks goes out to Mr. Pete Fisher of Cut-Rate grocery, and Mr. Doug Connelly of North Plains Truck and Implement who represented donors of 4-H Awards, (Standard Brands and International Harvester) and presented these particular awards to the winning 4-H members. We appreciate their interest and support of the 4-H Club program in Hansford County.

The Gruver Junior 4-H Club is planning a rummage sale in Gruver November 21. More details will come later, but if you have any rummage to donate for the sale, you may contact any Gruver 4-H'er. They will appreciate your help.

tetary, a cattle ailment that sometimes pops up in fall and winter.

Dr. Dixon Hubbard, Extension Livestock Specialist, says such small grain grasses as oats, wheat, barley and rye are capable of producing the sickness, particularly after rain. Common and Coastal Bermuda and mesquite grass, also can cause the trouble.

The disease is believed to be the result of an imbalance in body magnesium. Changing cattle from dry grass to lush winter pastures, or sudden temperature changes can encourage tetany.

"It's most likely to occur in the older, more mature cow that has just calved or is near calving,"

the specialist says. "It also is known to occur in yearling calves that have just been put on lush pastures."

The condition is characterized by lack of coordination, muscular tremors, excessive drooling and teeth grinding. Symptoms end with convulsions and coma six to twelve hours after first signs.

Treatment is largely ineffective once the animal reaches coma, Dr. Hubbard explained. But intravenous injections of various magnesium and calcium salts with dextrose is beneficial before coma.

Removal of cattle from lush pasture is the obvious prevention if grass tetany is suspected.
