## Three Police Cadets Join Levelland Force Following SP College Graduation

Levelland Police Department began a new police cadet program Monday, with the appointment of three police science students from South Plains College.

Police Chief Les Johnson said the cadets will work with his department where ever they are needed. This will include every phase of police work, such as patrolling with the regular officers, getting on-the-job training, helping with paperwork in the office and dispatching.

The cadets will not have the authority to make an arrest or carry a fire arm. The men will work a 20 hour week and receive \$2.00 an hour, according to Johnson.

Mrs. Morris is parliamentarian of the Lubbock Club with 16 years insurance experience.

A total of 8 members from the club are attending this convention and will host the statewide convention in 1974.

The cadets were received through a grant from the Criminal Justice Council in Austin. The program is set up for one year at a time.

The cadets are students from South Plains College that are taking Police Science. They plan on making law enforcement their life work.

Billy Funk, 19, a native of Levelland, now living in Bledsoe is the son of Mr. and Mrs. V.H. Funk. He said he wanted to get into the Federal level of law enforcement when he completes his studies.

Paul McClure, 19, is a Shallowater resident. Paul is the son of Mr. and Mrs. E.W. McClure. He has a brother, Mike, who is an officer with the Texas Department of Public Safety in Plains. Paul also plans on working with the Texas Highway Patrol following graduation.

# The Thick Of Things

"The mills of the gods grind slowly, but they grind exceeding fine."

So goes the saying.

The mills of the more "god-like" decision-makers of earth, courts and congresses, emulate that slowness, but that's as far as it goes. They are human institutions and imperfect, as we are often reminded by events.

Meanwhile there is nothing god-like about a newspaper.

Its presses don't grind at all—they whirr exceedingly fast.

As an imperfect human institution that is also always in a hurry, we are imperfect indeed.

Wisely, the function we serve does not require perfection. It requires only that there be an open marketplace for ideas and claims, so that the truth can "emerge triumphant" eventually.

Ours is a helter-skelter kind of service that is unique. The newspaper is the supermarket of the mass media. You can browse among the departments of your choice, examine the labels we call headlines, and select for yourself the items you care about.

The reporting style we use offers you still another choice. You can have as much of our food-for-thought as you want. You not only can stop with the headlines, you can quit after the lead facts or delve deeper if it suits you.

No other technique for gathering and laying out news and comment gives you this range of freedom of choice and a system of "labels" to make your choice most effective whenever you choose to exercise it.

In spite of the fact that we are always dealing with events that are bird-on-the-wing and can't "stop time" to do our thing as the courts, congress, researchers, and academicians so often do, the record shows that American newspapers are scarcely more error-prone in the long run than those other human institutions.

Yet our greatest virtue is that we do not pretend to be carving tablets of stone as they often do.

The daily newspaper, thus, with all its sins is a unique and invaluable institution and we are proud of the business we are in.

National Newspaper Week is a fitting tribute to the press, but the newspaper comes out every day, and in this on-going service every day is newspaper day in a practical way.

Our free and varied press may not give society "final solutions" to its problems, but it will always keep readers in the thick of things and able to cope.

We shall strive to keep meeting that basic obligation.

Your newspaper tells WHAT is happening in the world. No fleeting glimpse nor half-heard word, your newspaper. When held in your hand it gives you, literally, a grasp on events everywhere . . . another reason why newspapers make a big difference in people's lives.

## A FREE PRESS...THE PEOPLE'S CHOICE!

Saluting American Newspapers and their personnel during National Newspaper Week.

Sure, it's idealistic. It's also practical. For how can a people govern themselves if they don't know what's going on? Freedom of speech is a mockery unless you know what you're talking about! Your own personal freedom depends on freedom of information. That's why a free and fearless press is one of our Constitutional rights.

There's all kind of evidence that readers read advertisements as much as they do other parts of their newspapers.

Why?

The ads tell what's new for the consumer.

They are also the best source of information about local en-

tertainment.

Classified ads answer the needs of almost everybody.

## Can You Save By Shopping At Home?

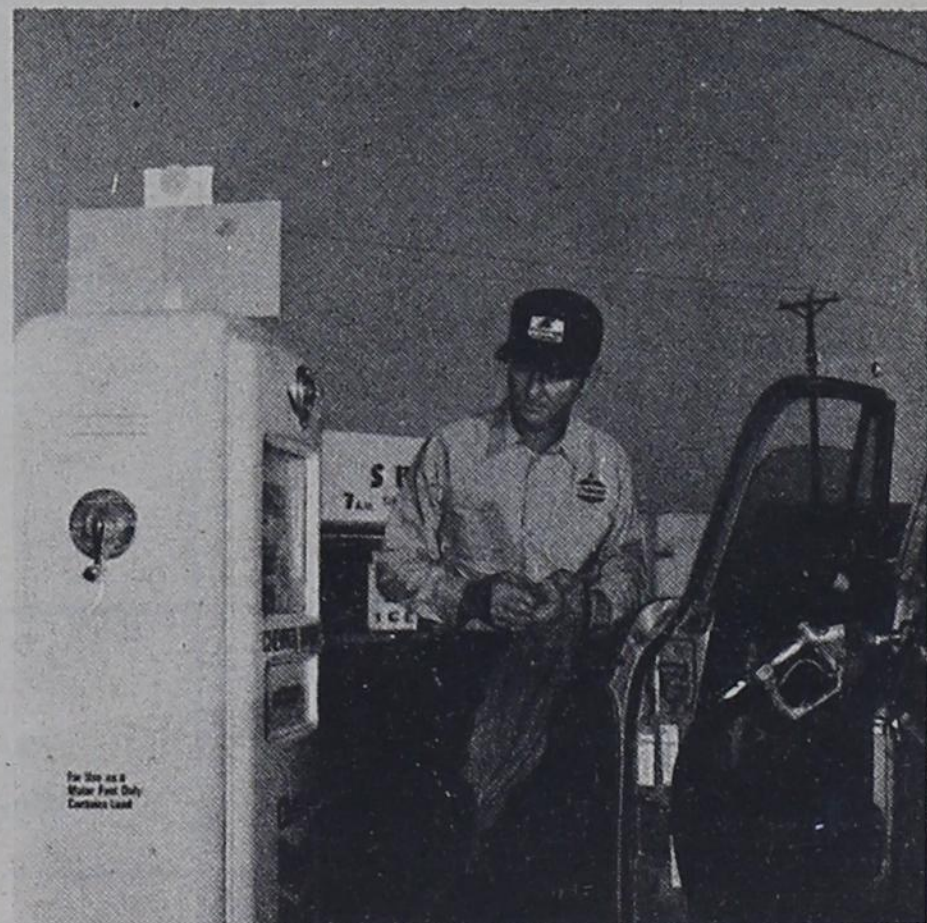

The next time you are leaving Shallowater on an out-of-town shopping trip take a minute to estimate the cost of gasoline, oil, and tire depreciation. It will cost you an average of 12c a mile in a large car or 10c in a compact car.

You need to consider out-of-town service, misfit exchange, no-fit returns, and warranty repairs.

And especially, don't forget that money spent out of town keeps traveling while money spent at home returns in community improvements and loans.

**Life Is Beautiful**

by H.S. and J.S.  
I love you,  
The words mean so much toward ones life.  
But life must be share with another  
Together life and love become one  
Because it is she and he who are one in love.  
I love you.  
The words are spoken from the heart not the tongue.  
It means so much to be in love,  
Because being in love is living life.  
And living life is happy by loving.  
Yes, I love you.  
If the words were said more often  
There would be no war.  
It's care, understanding, trust, and devotion,  
That's what love, my friend is, and that is why life is beautiful.
