Silverton Man Dies In Accident While Loading Seed Truck

Roger Wayne Younger, a 38 year old man from Silverton was found dead at 10:35 a.m. Tuesday morning at the Johnson Gin in Silverton. It appears that he died as a result of being buried under a 6,000 pound load of cottonseed.

Roger was pronounced dead at the scene by Justice of Peace Dale Ramsey. The death is being considered an accident at this time pending an autopsy.

Younger, a truck driver was loading seed into a tractor trailer truck at Johnson Gin.

Apparently, some of the cotton seed became lodged in the bin.

Quitaque Gearing Up For Annual Caprock Christmas

The Valley Extension Homemakers along with We The Women will be sharing the West Texas Utilities office on Saturday, December 14, 1991 for the Caprock Country Christmas

The Homemakers have planned to have a frozen food booth once again this year for their money making project. They will have prepared casseroles and homemade breads available for the public to pur-

We The Women will be having a bake sale at the same location on December 14.

The VEH are also making plans to once again have Cow Patty Bingo on Caprock Country Christmas Day, December

know what you are doing but no one else does!!

Younger attempted to work it loose moments before it fell on him in the truck bed, said Briscoe County Sheriff Dick Roer.

The victim's supervisor notified Roehr about 10 a.m to report that Younger, who was expected somewhere at that time, was missing. Roehr said the body was discovered about 30 minutes later

Younger is the son of Roy and Lou Younger of Silverton.

Plans For Christmas Underway

Everyone in Quitaque is gearing up for the big day on December 14 when the local merchants and service organizations will once again host the "Caprock Country Christmas.

"We The Women" will be having a booth of homemade cakes, cookies, pies, candies and breads.

Many women in the community have said, "Even though I can't come to the meetings I want to help when I can.'

This will be an opportunity for all of the local women to donate some kind of kitchen culinary delight for the "We The Women" booth which will be located at the West Texas Utility building along with The Valley Extension Homemakers who

will be selling frozen casseroles. "We The Women" will also have a drawing for a Victorian Rabbit.

Now is the time to get into the spirit of the season and to help make 1991 the best Caprock

Amember has to think of creative and new things to get the team pumped up. Also a member has to help keep the team's chins up and to encourage them in every way possible. The most important thing a member must do is always believe in the team,

never let them down. **Hunting Safety Urged**

Casualties High

FOUR DEAD, SIX WOUNDED AFTER OPEN-ING WEEKEND

Texas hunters had one of the worst opening weekends on record for hunting accidents as three hunters were killed and six were injured. Another man died in a

boating accident during a hunt. Opening morning in Llano County a 48 year old man was shot in the chest with a :270caliber rifle after his hunting partner mistook him for a tur key. The same day a 15 year old vas mistaken for a deer and shot in Palo Pinto County. Also on opening day, one man died in Jasper County when he and two companions were walking back to their vehicle and one of the companion's gun discharged as

he attempted to unload it.

The other death will be ounted as a boating accicdent although it occurred during a hunting trip opening day in Red River County. Three hunters, a man, his son and his grandson, were trying to cross a slough in a boat with a deer stand. They overloaded the boat; it turned over; and the son drowned Reports said the slough was only about 50 feet across and the hunters were about half way across when the accident hap pened. The man who drowned was wearing insulated coveralls, rubber boots and had a gun slung over his shoulder, all of which

contributed to his drowning. Two of the accidents occurred in Bowie County. In one accident, on Nov. 3, a hunter shot at movement from 150 yards and hit his partner in the left fore-In another accident the same day, a hunter was pulling the gun case out of his vehicle and dropped it. The gun fired this and that's why the four hardest working members are given recognition and one is named Pep Squad Queen.

Toward the end of the season each year a Pep Squad Queen is named. Last Friday at the Pep Rally was such a day. This year the candidates for Pep Squad

Harmon escorted by Clay Edwards; Kacey Fuston escorted by Bradley Price; Lori Conner

and a bullet or a fragment of the

bullet or case struck the man

over an eyebrow. Hall blames part of the problem on hunter excitability and not using common sense. "By the time the season opens, psychologically you're ready to hunt. People are excited to be out there, they've waited all year for opening weekend. That's when hunters don't show enought re-

straint. The two most common categories of hunting accidents are mistaken for game and swing ing on game, he said, and both of those involve hunter judgment. What it comes down to is common sense and thinking safety

Part of that common sense involves following three cardiknow where the muzzle is pointing at all times and treat guns as if they're loaded.

"Everything you see and hear in the woods should be considered a human until there's absolutely no doubt,

Hall said. "That's before you ever raise a gun. If there's any doubt, raise the binoculars. For bird hunters, make sure you stick to your 'safe zone-of-fire' and know where your companion is

Another way to prevent many of these accidents is to wear blaze, or hunter orange. recommend wearing it all the time, but if you're absolutely against wearing it while hunting, at least wear it to and from the stand," he said. "Hunter orange will allow your companion to see you if you get out of position or stray from your hunting plan.

It's not always easy to do all of escorted by Donnie Calvert and Amy Payne escorted by Joe David Valdez. Kacey was named 1991-92 Pep Squad Queen. Kacey worked hard and deserves this recognition. Congratulations Kacey.

Work Day Set For Quitaque

We The Women and the Lions Club of Quitaque will meet this Saturday, November 16, 1991 to put up the Christmas lights and to decorate the city of Quitaque. Everyone is asked to meet

at Butlers at 9 a.m.

If the weather is bad the work day will be rescheduled. Anyone who can help that day, just show up. You do not have to be a member of either club to help with this project.

If you have any questions call Delene Tyler or Danny Mayfield.

Valley UM Youth To Host Party

The Valley United Methodist Youth will be holding a "Fifth Quarter" party for all Junior High Students after the football game with McLean. The "Fifth Quarter" will be held in the Turkey Methodist Fellowship Hall. All sixth, seventh, and eighth grade students are invited to participate. The party will begin immediately after the

game and conclude about 12:30. The youth sponsors, Cindy Lane and Julie Ulrey, are providing the refreshments. Music and games are planned. The youth should meet at the First United Methodist Church in Turkey as soon as possible after the game. Some transportation will be available. Parents should check with Cindy or Julie to make certain each youngster has a way to and from the event.

With Thanksgiving and Christ-

mas just around the corner, now is a good time to begin an exercise pro-

gram to avoid putting on extra

pounds. Exercise is important be-

cause the pounds come off faster and stay off longer with increased

Fortunately, it is not necessary to spendlong hours exercising. Even

30 minutes of aerobic exercise every

other day can be effective. Aerobic

exercise means the body uses oxy-

gen and fat to produce energy

Examples include walking, jogging,

According to Susan Hartsfield,

exercise specialist at the Centre for

Cardiac Rehabilitation and Fitness

at Methodist Hospital, an hour of

brisk walking burns up an average

of 348 calories. This translates into 36 pounds of weight (fat) lost in one

year. Besides helping you maintain a desirable weight, a regular exer-

cholesterol in your blood, lower and

elevated blood pressure, strengthen

your bones and muscles, improve your productivity and level of en-

ergy, improve your sleep, reduce

stress, and improve your overall

Some guidelines to follow for an

effective exercise program include

exercising at least every other day,

every day if you need to lose weight.

Exercise at a pace that causes you to

perspire but doesn't make you puff.

Your breathing should allow you to

talk while exercising. Also, exercise at least 30 minutes non-stop-per

workout, 60 minutes if you need to lose excess weight. Studies have

shown that moderate exercise makes

people less hungry and helps curb

the appetite. Therefore, a good time to exercise is right before dinner so

you will be less tempted to overeat.

gradual weight loss and changes in

eating habits that will help you

maintain a normal weight. Dieting

should be done under the guidance

of a physician or other qualified

health professional. Be sure to consult a physician before starting

any exercise program.
For more information, contact the

Centre at (806) 793-4386.

Mrs. Annie Bee Cloyd attended

County Library in Matado

Thursday afterno

cial mowing restrictions. Bobby Young, head of the Fire Control Department of the Texas Forest Service (TFS) said that he learned of West Texas firefighters' fears of a severe fall/winter fire season during a recent national fire services meeting at Midland.

"Rainfall in Texas varies widely, from 50 plus inches a year on the Louisiana border, to only 8 inches annually in the Big Bend. This has been an unusually wet year all across our state, with most areas receiving at least half again their normal

"What this means," Young said, is that grass and other vegetation has grown higher and thicker than normal. After the killing and drying effect of the first frost, this dead vegetation translates into potentially dangerous fuel for forest and

range fires.
"This danger is most critical when it happens in rural areas that are adjacent to urban areas, like the recent catastrophe in Oakland.'
Young said. "Whenever it happens, it hurts people, livestock and wildlife and destroys property.'

"Another current worry of some West Texas ranchers and firefighters," Young said, "is that they may be breaking their contract if they mow fire lanes on land that is now in the CRP.

Landowners involved in this program understand that the purse of CRP is to conserve certain

ally productive land by planting it to grass or trees. Landowners receive payments in return for keeping this land out of production.

The provision forbidding grazing or cutting of hay from the CRP tracts apparently has caused some confusion about mowing fire breaks.

Assistant State Conservationist Pat Henson of Temple was asked if it was permissible for ranchers to mow or disc fire breaks.

He replied: "Owners of land in CRP have authorized plans which they must follow to qualify for CRP payments. If a CRP plan calls for a

fire guard (what Texas Forest Service terms a "fire break"), ranchers are allowed to shred or disc up to a 200-foot wide buffer around homes, barns and other improvements.
"If a plan does not call for fire

guards," Henson continued, "and the landowner is worried about fire danger, then he should contact the Soil Conservation Service (SCS) district office. The landowner can ask that the plan be modified to include provisions for a fire guard.

Darrel Davis, Chief of the Conrvation Division at the Agricultural and Stabilization Service (ASCS) headquarters in College Station confirmed Henson's expla-

'It is perfectly all right to shred or plow fire breaks or lanes as long as the producer has this reference in his plan, or has had his plan modified to include it." Davis said.

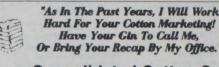

He also pointed out that land-wners should "understand these

firebreaks are not eligible for cost

Henson noted that while some firebreaks are permissible, there could be some highly erodible sites where firebreaks would not be wed. He added that SCS profes-

sionals from all the districts through out the Panhandle and South Plains ounties will also assist ranchers in planning a prescribed fire for their property. This burning will help remove potential range fire fuel.

Ranchers considering a pre-scribed or controlled fire should plan well, get expert advice and remem ber to notify their local police or sheriff's office, fire department and Air Control Board laws.

Have Your Gin To Call Me, Or Bring Your Recap By My Office."

Remove neck and giblets from turkey. For broth, cover neck and giblets with water and simmer with one stalk of chopped celery, one-half of chopped onion, and salt and pepper to taste, for two hours or until tender. Chop cooked giblets and reserve liquid. If using chicken broth, omit this step and continue. In a large skillet, melt butter and saute onion, leek, green onion, and garlic until golden, then add celery. Cook until tender. In a large bowl, combine stuffing mix, sauteed vegetables, giblets (if desired), parsley and pecans. Stir in enough giblet or chicken broth to moisten. Mix lightly. Cool thoroughly. Rinse turkey and pat dry with paper towels. Sprinkle inside with salt and pepper. Fill cavities lightly with dressing and sew or skewer shut. Wrap extra dressing in foil or place in a baking dish to roast the last 30 minutes with the turkey. Brush butter over skin. Place turkey on rack in a shallow roasting pan. Cover with a cheesecloth dipped in butter. Roast at 325 degrees, basting occasionally with pan drippings. Allow 3 to 3½ hours cooking time or until meat thermometer inserted in thickest part of breast registers 170 degrees and juices run clear when thigh is pierced. Take turkey from oven, remove cloth and let it set 15 minutes before carving and spooning out the stuffing.

- - Sinusitis - -

sinusitis to the list of afflictions that may strike them this flu and cold

The misery of clogged sinuses can even be life-threatening to some people if not treated, says an ear, e and throat specialist at Baylor College of Medicine in Houston.

"It's very rare, but certain individuals can die from complications. uch as abcesses of the brain," said Dr. Marcelle Sulek, an assistant professor of otorhinolaryngology at Baylor. "So, while for the majority, it is a bothersome and sometimes painful ordeal, sinusitis should be taken seriously.

Sinusitis is an inflammation of the membrane lining the facial sinuses, the air-filled cavities in the bones surrounding the nose. Commonly, the sinuses between the eyes (ethmoidal) and in the cheekbones (maxillary) are affected.

Most sinusitis is caused by infection spreading to the sinuses from the nose along the narrow passages that drain mucus from the sinuses into the nose. It usually results from bacterial infection secondary to a viral infection such as the flu or common cold.

"It is extremely common," Sulek said. "And for most people, medications are available for treatment.

Early symptoms of sinusitis include a feeling of tension or fullness in the affected area, and sometimes

a throbbing ache. It may also result in a stuffy nose and a loss of the sense of smell.

Antibiotics should be prescribed immediately to combat the infec-tion. Sinusitis sufferers should see a physician no later than one week after onset of the symptoms, since early treatment can prevent complications.

Over the counter decongestants can often relieve the stuffiness by reducing the inflammation of the sinus membranes and restoring drainage. Steam inhalations, too, are effective and moisten the nasal secretions, helping them to drain.

Not all sinusitis results from the flu or cold. It can also be caused by abscesses in an upper tooth, infected water being forced into the sinuses when a person jumps feet first into water, or can result from severe facial injury.
Allergies, too can cause sinusitis.

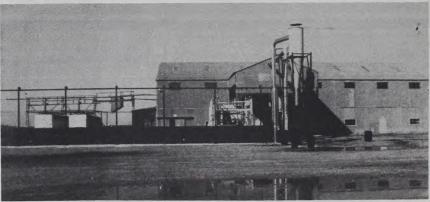

"For people with allergies, it can be a year-round problem, but is usually worse during spring or fall, depending on their allergies," Sulek said. "People who are susceptible to upper respiratory tract infections are also candidates for sinusitis." Sulek recommends that people

tis see a physician who specializes in the disorder. Sinusitis is common in both children and adults, but is not linked to any one age group, gender or race.

Winter Driving Safety Urged

The Texas Department of Public Safety wants to remind motorists that the winter seson is fast approaching and it is once again time to repair our vehicle and especially the driver for one of the most dan-

rous times ahead, winter driving. Major V. J. Cawthon, Regional Commander for the Texas Department of Public Safety in Lubbock, said, "Winter driving can be very dangerous. Drivers are faced with many more dangers than they usually have during the rest of the year, such as driving onicy or snow packed highways, freezing temperatures, freezing rain, sleet, all creating dangerous conditions for the

The most important safety tip for driving in the winter time when the streets are slick is to remember to slow down. Remember, it can easily take from two to three times longer to stop compared to when the roads

are dry.

When temperatures drop below the freezing point, drivers must remember to scrape the frost and ice from all windows before driving, to keep your headlights clean of mud and snow, and above all keep plenty of windshield washer anti-freeze mixture in the window washers for those unexpected "splashes" from other cars

Major Cawthon also state that when driving during adverse weather conditions to allow plenty of time and to start your trip a little early because there is no way to make up time on the streets and highways. If you are driving a fourwheel drive vehicle, remember you may be able to start off better and the steering may seem a little better, but it takes just as long to stop

PUBLIC NOTICE

On April 16, 1991, GTE Corporation ("GTE") and Contel Corporation ("Contel") filed a joint petition for declaratory relief with respect to the obligations or requirements of GTE or Contel and/or any of its subsidiaries relating to the merger of GTE and Contel. GTE and Contel have requested a nuling from the Public Utility Commission of Texas that neither GTE nor Contel is required to report the merger of GTE and Contel pursuant to Section 63 of the Public Utility Regulatory Act ("PURA"), TEX. REV. CTV. STAT. ANN. ant. 1446c (Verons Supp. 1991), that no investigation of the merger by the Commission is required. In the alternative, GTE and Contel seek a determination that the merger is consistent with the public interest. The Commission is investigating the merger between GTE and Contel Corporations to determine whether the merger is consistent with the public interest. In reaching its determination, the Commission shall take into consideration the reasonable value of the property, facilities or securities to be acquired, disposed of, merged or consolidated. If the Commission finds that the merger is not in the public interest, the Commission shall take the effect of the transaction into consideration in GTE Southwest Incorporated's and Contel of Texas, Inc.'s next ratemaking proceeding and disallow the effect of such transaction if it will unreasonably affect rates or services.

The Glieve has been experimed Dockas Vis. 10013 Descent Actions of Texas and Contel of Texas.

Iffect rates or services.

This filing has been assigned Docket No. 10212. Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission. A request to intervene, participate, or for further information, should be mailed by 3 p.m., December 31, 1991, to the public Utility Commission of Texas, 7800 Shoal Creek Blvd, Suite 400N, Austin, TX, 78757. Public Utility Commission of Texas, 7800 Shoat Creek Biva., Suite 4001, Austri, 127, 167777. Further information may also be obtained by calling the Public Information Division of the Public Utility Commission at (512) 458-0256, or (512) 458-0221 teletypewriter for the deaf.

Valley Patriot SPORTS NEWS

Valley Patriots To Play McLean In Bi-District Competition

by Coach Gilmore

The Valley Patriots needed Lady Luck Friday but not against the Patton Springs Rangers which they beat 63-6 but after the game when the district ended in a three way tie with Valley, Chillicothe, and Guthrie. A coin toss was held at Childress and Valley ended up one of the two that will go into the playoffs. Guthrie will go in as the #1 seed of the district and Valley will have the number two spot, and will meet the #3 ranked McLean Tigers at Patriot Field Friday, November

15, 1991 at 7:30 p.m. The Patriots used a strong offence and a stingy defense to earn part of the district title. Bradley Price started the scoring off by going 39 yards on the second play of the

game to give Valley the lead they

KKAP RADIO AM - 900 - FM 95.3 Country Music

GO VALLEY PATRIOTS!

would never give up. Others scoring for Valley were Jason Smith 1 TD catch, Clay Edwards 2 TD runs, 1 TD off kickoff and 1 TD catch, Tommy Pinkerton had 1 TD catch, Chad Calvert had a 5 yd TD run, Chad Powell had a 52 yd TD run. On extra points Price kicked in 4 for 8 points and Cory Pointer had one reception for a 1 point converson. Lawrence Hendrix was 4-5 passing and 3 TDs. Valley ended the game with 403 total yards offense.

On defense Valley was lead by Pointer with 7 tackles, Price with 9, Powell had 3, Pinkerton 4, Edwards 2, Calvert 7, Hendrix 1, Scoggins 1, nd Smith with 9 tackles and one

"Our line has done a great job all year but has really come lately to open up some great holes. House,

Last Victory Of Season

Valley JV Nips Samnorwood 16 to 2

by Coach Browning

Our last game of the season was played on a very cold night. We scored 16 points on two big plays Dewayne Davis turned a broken play into a 46 yard touchdown run and we had a 67 yard punt return by Joe David Valdez for our other TD. Alfie Clardy kicked both extra points. We just never could get anything going on offense. At times we moved the ball but we would either fumble or have a dropped pass at critical times.

Defensively we played an outstanding game. Several times we gave them the ball deep into our territory and we kept them out of the endzone. The entire defense: Bubba Powell, Donnie Calvert, Rollie Castillo, Clay Merrell, Dewayne Davis, Joe Valdez, and Ricky Hughes played hard keeping constant pressure on them, forcing several mistakes. We came up with big plays after big plays to shut them down and keep them from scoring. We couldn't get our offense going so the kids just said we would win it with our defense, and we did.

We finished the season 8-1-1 which was an outstanding season in which we had several injuries and lost some to the varsity. Each player gave his best effort every game. players didn't care who gained the yardage, or who caught the passes, or even who scored. They just wanted to get the job done no matter who did it.

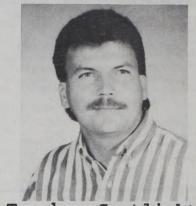

Other members of the JV not listed above are: Danny Ulrey, Will Spery, and those who played early in the season, Josh Scoggins, Ruben Hinojosa, Jermery Castillo, and

This was an enjoyable season for me to have a bunch of kids who worked hard and would try to do everything I asked them to do. We are looking forward to working with these young men in the future. They

have a good attitude and a great desire to win.

The JV does not play this week

but will suit up with the varsity in our Bi-District game Friday night against McLean at Valley starting at 7:30 p.m.

Teacher Spotlight

Cliff Gilmore teaches sixth and nineth grade health, world geogra-phy and P.E. for elementary, junior student experience a very exciting high and high school at Valley and rewarding year both in athlet-School. and academics.

Having graduated from Harrold High School, Cliff went on to attend Midwestern State University
