MR. AND MRS. PHIL CATES

Phil Cates Will Not Seek Re-Election

State Representative Phil Cates today officially announced his intention not to seek reelection. Cates is completing his fourth term as State Representative from the 66th Legislative District composed of Armstrong, Briscoe, Childress, Collingsworth, Donley, Floyd, Gray, Hall, Motley, and Wheeler Counties. "Landslide Cates", as he is referred to because of having won his first primary election by only two votes, expressed his heartfelt appreciation to those who enthusiastically supported him throughout the eight years that he will have served as state representative.

"The one person who deserves more credit than anyone else for these years of service," Cates explained, "is my gifted wife Nancy, who is the mother of our

three-year-old son Andy and our nine-month-old son John David. Even now," Cates continued, "Nancy encouraged me to run for reelection for the House seat or for another higher office. Many have expressed disappointment that I would choose to leave the position of service that I have held for four legislative terms, and for their trust and this high compliment that they have given me, I am very grateful.

"The decision is mine alone. There are simply more important tasks for me at this time. I must make certain that my family is in the kind of strong and healthy environment that I want for my sons. This we would do if we stayed in politics, but it would simply be much easier in the business field. Someday, I hope to again hold this or other offices of the public trust.

"There are major important goals, issues, and needs for good services which I have left unfinished. In this regard, I would support the very best person seeking the position of state representative. I feel that this is my responsibility as a private citizen. I would never seek to name my successor, but rather to fulfill this responsibility by supporting the best possible person. I must mention my personal pleasure of having been associated with public servants like Max Sherman, Bob Simpson, and Bob Close along with the many responsible leaders within the district.

"Benjamin Franklin expressed my feelings best during the Constitutional debates when he said in essence that leaving public office will be considered by our best leaders as the higher honor than even having been originally elected to that position. In other words, it is exciting to be reelected and to serve, but it is even greater to return to walk equally as a private citizen with one's former constituents."

Reported by David Brunson

The City of Quitaque recently purchased the old Mobil station on the west of town from H. G. Boyles to be converted into a fire station. This will greatly benefit the Fire Department since it will now have a place to park both fire trucks and the ambulance. All work on the building will be done by the Fire Department, and materials will be supplied by the City, depending upon availability of funds. Also, the City has recently purchased twenty-one pairs of boots for the Fire Department.

With the addition of the Fire Station and the boots, the Fire Department is in much better shape than before but there is still some equipment that is badly needed. The Department is still collecting old batteries and is also still selling fire extinguishers. Vows Read

Miss Marilyn Sue Maxwell became the bride of Timothy Wayne Holland on Saturday, August 6, at 10:00 a.m. in the home of her parents, Dr. and Mrs. W. D. Maxwell in Turkey. The bridegroom is the son of Mr. and Mrs. Lloyd M. Holland of Turkey.

Rev. Roy Patterson of Turkey read the single ring ceremony. The home was decorated with white candles in brass and glass candle holders and white daisies.

The bride, given in marriage by her father, wore a dress of pale blue with white dotted swiss trimmed with white lace at the waistline, on the scoop neckline, on the caplet sleeves, and two rows at the hemline of the dress. She added a small hat covered with pale blue, white dotted swiss trimmed with lace and tiny seed pearls. She carried an old-fashioned bouquet of white silk daisies arranged with small white silk flowers and pale blue white dotted swiss ribbons and white silk and lace ribbons. For the something old, white shoes; new, slip; bor-

rowed, antique bracelet of the bride's mother that once belonged to the bride's grandmother; blue, the dress; and a penny in her shoe.

The mother of the bride was dressed in a pale blue shirt waist dress designed with long sleeves, and the mother of the groom wore a turquoise dress with matching jacket.

Immediately following the ceremony, a reception was held in the home of the bride's parents.

The table was laid with a white lace cloth and was accented with white candles in crystal holders and the three-tiered cake trimmed with pale blue and white hearts, cake was topped with a white cupid with the bridal bouquet at the base.

Tim Salem was the photographer.

The couple left for a wedding trip in the Ozarks of Arkansas before continuing on to their home in Columbia, South Carolina.

The bride is a graduate of Turkey High School and has a degree in Business Administration from West Texas State University. She was a member of the Society for Advancement of Management.

The groom is a Turkey High School graduate and attended Texas Tech where he was listed on the Dean's Honor Roll and he was a member of Beta Beta. At present he is a First Lieutenant in the U. S. Army.

SID TAKES A SHORT VACATION

On Sunday, July 17 Barney and Emile arrived at my home. Then on Monday they drove on to Tulia to visit some friends there. On Wednesday they were back to my house. They planned to go home Thursday, so we made swift preparation for me to go with them. They wanted me down in those parts to celebrate my birthday on July 25. So I went with them as far as S. T., Jr.'s. I unloaded there. Barney and Emile spent that night in Dallas with their son Roger, and from there on home to Nacogdoches, Texas.

Arrangements had already made for Betty, my daughter, to have us all at her home Sunday, July 24 to celebrate my birthday and that we did. A goodly number of the kin met there, before lunch. I do not think there were quite as many as have been here before because it was such a "jumped-up affair." In fact, I was hardly ready to go when we left here. But we had a good time together. And, believe you me, Betty had the most beautiful turkey with all the trimmings dinner and delicious it was.

Now the cake. It was such a pretty coconut cake until I hated to devour it, yet I do not think the word delicious is sufficient; and Mrs. Clarence Taylor baked the cake. They are kinsmen of mine. It had three candles, to my surprise; I thought sure it would have as many as "thirty-some-odd". Anyway, before I tried to blow them out, and did, they explained to me the significance of the THREE, Past, Present and Future. This put me to some serious thinking, after a few seconds of such thinking this favorite Scripture came to my mind. Reads like this: "Brethren, I count not myself to have apprehended; but this one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before. (V14) I press toward the mark for the prize of the high calling of God in Christ Jesus." Read this Scripture in your Bible. I believe it will help you. It did me.

After the good meal and joyful visiting all returned to their homes, except me, I remained with Betty and Jerrel until Tuesday when she took me back to S. T.'s. On our way over there we stopped

TIME TO PLAN TERRACES

It is not too early to start making plans for terraces to be installed this winter and spring, according to Royce Frisbie, technician with the Soil Conservation Service of Memphis.

Most of the soil in Hall County is mixed land soil and is subject to wind and water erosion. One of the most effective ways to prevent water erosion is to install and maintain a system of terraces to hold the water where it falls. Hall County has over 10,000 miles of terraces on the ground and there are still quite a few farms not terraced. Several of these terraced farms have numerous gullies and hundreds of tons of topsoil are washed away each year. This soil loss can be greatly reduced with a system of terraces, Frisbie stated.

During the winter and spring months we lose large amounts of topsoil due to wind erosion. One good way to prevent this loss is to have a growing crop such as winter peas or rye. These crops can be inter-seeded at the last cultivation.

For additional information to prevent wind and water erosion contact your local Soil Conservation Service office so plans can be made to prevent loss of our precious topsoil.

at North Park Shopping Center in Dallas, and while we were milling around there I heard someone say "Mr. Bogan." I turned around and said to her "What did you say?" and she said, "I said Mr. Bogan-aren't you Sidney Bogan?" and I said "yes, who are you?" She said "I am Maud Dunham." I said "How long have you been away from Quitaque?" She said, "40 years." She looked natural after I found out who she was. I enjoyed meeting her and her husband.

I did not go over into Louisiana this time. I'm saving that for some future time. I did have a nice trip. I enjoyed seeing all the people. Even so, I was happy to get back to Quitaque. Some, or all of the kids said tell the people at home hello for us. Betty brought me home Monday afternoon, August 1. She returned home early Tuesday morning and I had a letter from her, and she said she drove in rain between Turkey and Estelline. She is a good driver.

THE DELOY MYERS RETURN FROM VACATION TRIP

Mr. and Mrs. Deloy Myers and children left Quitaque July 15 and the first stop they made was in Greenwood, Mississippi, where they toured an old plantation. They toured the southern states, reporting the countryside beautiful but

very dry. They ended up in Florida. They toured Disney World, and played on the beach while in Florida.

Returning home, they stopped for supper with Lucas and Peggy Lucero. They report a very nice visit. Lucas plans to retire from the Marines in a year or two, having completed his twenty years service.

The Myers returned home Wednesday, July 27, reporting a very delightful trip.

Reddy's helpful tips for your HOME LAUNDRY

Wash and dry a full load, but never overload... it is essential for each item to move freely for proper cleaning and drying.

Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.

Too much detergent can clog machine and drains... always measure, don't guess!

Follow the manufacturer's recommendations for your type equipment.

Mixing brands of detergents can cause graying of clothes.

Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can help preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!
