TEEN NOW!

by Eunice McFali

A Look At The Surgeon General's Report

The next time somebody tells you teenage drinking isn't a problem, tell them this.

Underage drinking is a national epidemic, with nearly half the 20.7 million 7th through 12th grade students in America reporting to have consumed alcoholic beverages. Surgeon General Antonia Novella issued a study in June which uncovered some very disturbing information.

The report, "Youth and Alcohol: A National Survey (Drinking Habits, Access, Attitudes, and Knowledge)" showed that at least 5 million American teenagers use alcohol every week, and almost half a million go on a weekly binge (5 or more drinks in a row consumed). Many teenagers reported that they drink to handle stress and boredom, or simply to get drunk. They drink deliberately to change the way they feel. And we know that the use of alcohol to, in effect, self-medicate, is the trap door to full blown alcoholism," stated Surgeon General Novella at a press conference about the survey.

The study also found that two out of three teenagers cannot distinguish alcoholic from nonalcoholic beverages because they appear similar on store shelves, with alcohol content often difficult at best to locate on the labeling. Teenagers "lack essential knowledge about alcohol." In fact, "5.6 million teenagers do not know the minimum legal drinking age for purchasing alcohol or worst still, almost 2 million do not even know such a law exists."

Surprisingly, 80% don't know that a can of beer has the same amount of alcohol as a shot of whiskey, and 55% don't know that a can of beer has the same amount of alcohol as a glass of wine.

What the report shows is that many teenagers are grossly misinformed about alcohol and its effects and yet are widespread, frequent, and heavy abusers of a substance which is illegal for them to purchase, possess and consume.

Some other statistics are just as alarming. For example, did you know that junior and senior high school students drink 35 percent of all wine coolers sold in the U.S. (31 million gallons), and they drink 1.1 billion cans of beer (102 million gallons) each year?

Also, 7 million of the 10.6 million students who drink are able to walk into a store and buy alcohol, either with the use of a fake I.D., or from a store known not to card people.

The report states that student drinking results in drinking and driving, even though an overwhelming majority said a person should never drink and drive. Stated Mr. Novella: "Even though 92 percent of all students in our survey said a person should never drink and drive, almost a third have accepted a ride from a driver who had been drinking. This translates to 6.8 million students who are placing their lives in danger."

In conclusion, the Surgeon General's national survey provided concrete, updated numbers which reveal how critical the problem of underage drinking really is. The Surgeon General recommended that improved education about alcohol and a reduction in the appeal of alcohol beverage control laws are necessary if there is to be a reduction of teenage drinking.

As the report stands now, if things don't change, the millions of teenage drinkers of today will be a generation of millions of new alcoholic adults whose dreams and potentials will never be realized. The stakes are truly high in the battle against teenage drinking. We can't afford to lose.

Early Voting Begins On October 16

Early voting in the November 5 Constitutional Amendment Election will begin Wednesday, Oct. 16, in the Hall County Clerk's Office during regular business hours.

Early voting will continue through Friday, Nov. 1, according to County Clerk Dean Cochran.

The County Clerk pointed out that the new terminology being used for voting early in Texas elections is Early Voting, not "Absentee" voting as has been used in past years.

During the Nov. 5 election, voters will decide the fate of 13 amendments to the much amended Texas Constitution. The amendment capturing most of the attention is No. 11, which would allow the state to own and operate a lottery enterprise or to contract with private sources to conduct lotteries.

Sue Proctor

Sue Proctor This Week's Special Person

by Shannon Wiginton

Every great once in a while, if we're lucky, we cross the path of an exceptional individual who goes out of their way to help or serve whether public or private.

One such person I am referring to is a very special woman from Turkey, Sue Proctor. She is a devoted, wife, mother, grandmother, friend and neighbor. Sue married Lowell Proctor at a young age and has raised two sons, Wade Proctor of Quitauque and Lee Proctor of Amarillo.

Sue is an active member of the Turkey Fire Department, Women's Auxiliary. She was an essential volunteer during the time that money was raised for the fire truck and since then raising money for ambulance supplies. Whenever the Women's Auxiliary has a benefit to sponsor or participate in, Sue is always one of the first to volunteer her services. She was a part of the sesquicentennial celebration and the Bob Wills days.

Additionally she always finds time to help with all the bingo fund raisers and helps distribute commodities.

Being involved in her church, she has helped with vacation bible school, church dinners, receptions and is always there for funeral dinner preparation and clean up.

Cleaning the Post Office, Methodist Church, Baptist Church and yard, and the Dreamland Cemetery are just a few jobs Sue does. She also helps individuals in their homes that are in need of an extra pair of hands. A member of her family has even declared her a licensed plumber and electrician.

Trying to list everything that Sue has done, is impossible to accomplish. To quote a good friend "anytime someone needs help with creative or manual labor, Sue is always there. The list just goes on and on."

Sue may be humble about her contributions to the community by never taking any credit for them, but the people see and know that she will make herself available when she's needed, and they appreciate and respect her for it. Sue is most definitely one of a kind.

Valley School Participating In 1991 Texas Red Ribbon Week

The 1991 Texas Red Ribbon campaign sponsored by Texas War on Drugs will be observed October 19-27 statewide. Valley School will be participating in this campaign to help present a unified and visible commitment toward a drug-free Texas. Along with other states, Texas will join the nation in promoting a drug-free America.

This campaign is in memory of the officers who have died in the line of duty. The Red Ribbon Campaign was originated when DEA agent Enrique Camarena was murdered by drug traffickers in 1985. The red ribbon became the symbol behind the nation's war against drugs, just

as the yellow ribbon symbolized the hostages and servicemen and women in Iran.

The 1991 Texas Red Ribbon Campaign will seek to establish and promote coalitions in support of drug-free lifestyles. Valley School will do their part to support this campaign by wearing red ribbons and participating in various activities during the week.

Friday, October 25th at 1:15 p.m., a panel consisting of law enforcement officials, justice of the peace and district attorney will meet with students in the

sixth through twelfth grades to discuss the laws concerning alcohol and drug use. Parents are encouraged to attend this important meeting to become better informed of new laws and legislation.

The culmination of the activities will be the performance of the band "Rapunzel." The four member rock and roll band is dedicated to providing effective anti-drug programs to students of all ages. They will perform Monday, October 28 at 10 a.m. in the gymnasium. The public is invited to attend.

Everyone is encouraged to decorate their homes and businesses for the Christmas season.

The Quitauque Lions Club and We the Women will be hosting a chicken bar-b-q Tuesday, October 22 at the Community Center. They will be serving from 6 to 7:30 p.m. all proceeds will go toward purchasing lights for the Christmas display. Both clubs encourage community residents to pitch in to help dress up the Queen City for Christmas.

Hedley Reed and Fish Wilson

'Fish' Wilson Receives ISRA Belt Buckle

Saturday night, October 5, local resident Maynard "Fish" Wilson, received a belt buckle from the ISRA (Invitational Steer Ropers Association) at their year end awards banquet in Amarillo.

Buckles, and headstalls had been passed out all evening to ISRA members for outstanding performances through out their 1991 roping season. The last award of the evening went to the ropers most dedicated fan, Fish Wilson. The belt buckle was inscribed with "champion fan."

Fish has attended the steer roping for a number of years. He is always a welcome spectator to all the ropers. Not even the ropers can surpass him in his knowledge about each roper, his best time, and the name of his mount. He is even ready with the information about their present and past standings in the world competition.

The award for "champion fan" came as a great and honored surprise to Fish. All local and area residents know that Fish Wilson is a dedicated fan at many activities. This was a well-deserving award to an outstanding citizen, loved by all who know him.

C&L Foods Burglarized Sunday A.M.

On Sunday, October 13, sometime after 2:30 a.m., C&L Foods was burglarized. Entry was gained through the side door by breaking out the glass. The burglar evidently cut himself as he entered the store.

Some of the items stolen were cigarettes, laundry detergent, and some meat items.

C&L Foods has been vandalized several times in the last few months but this is the first time the damage has extended beyond broken windows. Once again Charles and LaVerne Hamner, the owners of the market, have put up a \$100 reward for information leading to the arrest and conviction of the person or persons responsible.

If anyone has seen or heard anything suspicious about these reports please call the Hall County Sheriff's Department at 259-2151.

Social Security News

Calling their work "a vital public service to families," Social Security Commissioner Gwendolyn S. King praised the nation's funeral directors for providing information to families about potential Social Security benefits.

In a letter sent to over 21,000 funeral directors, Commissioner King thanked them for their many years of cooperation in reporting deaths to Social Security and giving survivors benefits information to families.

At the same time, Social Security introduced a new form that funeral directors should use to report deaths

Nuevo Study Club Has Meeting

Nuevo Study Club met in the home of Marjorie Bain October 10th. The president, Nadine Baisden, opened the meeting with a poem. Business and roll calls were omitted.

Mrs. Bain introduced the speaker, Mr. Morris Degan. His address was "Drug Addicts Are People Too." As Specialist II at Vernon Drug Adolescence Center, he has worked there since 1986. The center opened in 1973. Since education is part of the program, the addicts go to school. There are opportunities for job training and recreation as well as AA counseling. Morris brought with him two of the Center's occupants who spoke, Byron Williams, 16 years old who plans to go to college and be an AA Counselor and Jo Ann Trevuro, 16, who has two children. She wants to be a good mother and work at Vernon State Hospital as a physiatrist. She said, "This Center means a new

life for me." This applies to others there, too.

Also, with Morris, was Sharron Wolsch, who is an AA counselor. She spoke about the work being done to help the addicts. There are sixty-seven adolescents there from ages 13 to 18 years, and three hundred employees.

The hostess, Mrs. Bain, served refreshments to Mmes: Baisden, Colvin, Degan, Green, Meacham and Robertson and guests: Morris Degan, Byron Williams, Jo Ann Trevuro, Sharron Wolsch, Mr. and Mrs. Joe Degan and Mary Jo Calvert.

Next meeting will be October 24th in the home of Nadine Baisden with Ella Colvin as program leader.

Quitaque 1941 Senior Class Holds Reunion

The Quitaque High School class of 1941 met Saturday October 5th for their 50th class reunion. Registration began at 4 p.m. with eleven classmates and five spouses and visitors signing in. Out of a class of 24 graduates seven have since passed away. Several were unable to attend due to illness. They were sorely missed.

The afternoon was spent reminiscing, viewing pictures and a scrapbook. Some toured the Caprock Canyon State Park and the Sidewalk Museum.

At 7 p.m. Roye Pigg served a delicious meal. The tables were decorated in black and gold balloons and black panthers, the old Alma Mater's colors and mascots. Recorded music from the early forties played during the meal. Afterwards John Howard Payne showed a movie of the 40th class reunion. And, oh, what a difference ten years does make.

Everyone began leaving about 10 p.m. With all expressing what a good time they had and looking forward to seeing all again at the Quitaque Homecoming in 1993.

Those attending were John Howard Payne and wife Marie of Irving, Texas; W. L. Graham of Denver, Colorado; Lola Mae (Hamilton) and Bob Eudy of Joshua, Texas; Ayleen (Woodruff) and Clint Hicks of Lubbock; Loretha (Harrison) Rhoderick of Silverton; Ava (Hasty) Young of Lubbock; Maxine (Gilmore) Jones and L. D. Mullins of Turkey; Jake and Jo Mae Merrell, A. B. Ramsey, Earl Patrick, Johnnie (Eddleman) and Murry Morrison of Quitaque.

A Dental Checklist:

Here's a checklist of typical infection control procedures that you should look for in the dental office:

- *dentist and staff wear gloves and a mask for all patient treatment;
 - *dentist and staff wash their hands before and after each treatment and change gloves after each patient;
 - *dental instruments are sterilized or disinfected after each use;
 - *surfaces and equipment in the treatment room are cleaned and disinfected after each patient;
 - *needles and other sharp items are disposed in special containers;
 - *waste items and contaminated material are properly disposed.
- Many of these infection control procedures are readily seen when you visit your dentist. Certainly, the general cleanliness and tidiness of the office will be apparent to you.

VALLEY JV AVENGES THEIR ONLY LOSS OF THE SEASON

by Coach Browning

We came out with a lot of emotion and determination to knock Lazbuddie from the unbeaten ranks. Two weeks ago Lazbuddie handed us our only loss of the season. This time it was our turn, as we came out with a 30 to 18 win. We have been looking forward to the return match ever since they beat us. We didn't feel like we played very well the first time. We came out playing good defense and moved the ball well on offense and got good play from our speciality teams.

On offense our linemen did a good job blocking and our backs hit the holes running hard. We executed our plays well, keeping them off balance most of the night. We didn't score a lot of points but we did move the ball for several first downs but something would always happen to keep us from being able to punch the ball into the end zone.

On defense we made some changes for this game. We played more zone coverage in the secondary which helped to shut them down for most of the night. We did give up a couple of big plays for scores but for the most part we controlled the game. We had a couple of fumble recoveries and interceptions and we always had several players around the ball or in on the tackle.

Our specialities teams had their best game of the season scoring 16 points. Joe David Valdez returned a punt 40 yards for one touchdown and Alfie Clardy was 3 for 3 on extra points plus a 25 yard field goal. We were proud of the way our kids came back and played so hard against a very good Lazbuddie team. We play Samnorwood's Varsity Thursday night at Samnorwood October 17, 1991 at 6:30.

FIRST GRADE NEWS

by Miss Johnson

October 23 First grade and Kindergarten will be going on our first field trip to Floydada. Our first stop will be the pumpkin patch where the children can find pumpkins to be made into Jack-O-Lanterns. We will be making a stop at the Chamber of Commerce where we will be guided through the downtown area to see all the decorated store fronts. Each child should bring a sack lunch, if weather permits we will eat at the park. We may visit with some of the classes in Floydada to see their Halloween decorations.

At 1 p.m. we will be visiting the museum and will leave for home around 1:30. We are very excited about our trip. We will have more information next week.

Our visitors last week were wonderful. We learned several Chinese sayings. Mrs. Lyles showed us the numbers from one to ten, and she shared many interesting things about the Chinese culture.

Fuston Re-elected To Hall-Childress SWCD Board

James Fuston of Turkey was recently re-elected to Hall-Childress SWCD board of directors. Fuston represents Zone 3 of the district.

The purpose of the Hall-Childress SWCD, with headquarters in Memphis is to promote sound soil and water conservation programs on farm and ranch lands within the District and to serve as voice for farmers and ranchers on conservation matters.

The board of directors coordinates the conservation efforts of various local, state, and federal agencies and other organizations and has authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes.

As one of five individuals serving on the district board of directors, Fuston will be responsible for district policies and procedures for carrying out the district program within the framework of the Texas soil conservation district law.

In Texas there are 210 soil and water conservation districts. Each is a legal subdivision of state government organized by local agricultural landowners with the assistance of the Texas State Soil and Water Conservation Board. Unlike most other legal subdivisions of state government, SWCD's do not have the powers to taxation or eminent domain. All conservation programs managed by the district are of a voluntary nature to the landowner or operator.

Organized in 1941, the Hall-Childress SWCD was originally the Hall County Soil Conservation District. As such, it was the first soil conservation district in the Texas Panhandle organized under the standard district law of the state of Texas. The Hall County district was voted into

existence in the fall of 1940. In the spring of 1941 farmers and ranchers of Childress and the portion of Cottle county north of the North Pease River secured permission from the Hall County folks to join the Hall District and voted to do so. In 1944 landowners of about 6,000 acres of land in the north-central portion of Motley petitioned the Hall County District to be permitted to join and this request was granted. All of the land owners involved lived in Hall County.

Caprock SWCD Ordering Windbreak Trees Now

Caprock Soil and Water Conservation District is again taking orders for windbreak trees. In addition to our regular selection of trees we are also offering several varieties of fruit trees.

All varieties of evergreens are \$1.50, hardwoods, \$.75 and fruit trees range from \$5.00 to \$8.00.

A limited number of wildlife seedling packets for quail, pheasant, deer, turkey and squirrel are also available for farmstead plantings.

Minimum orders are required on windbreak seedlings, but we will work to get what you need. Order early, because many of the more popular varieties sell out fast.

Windbreaks properly located and containing the right tree species will provide wind and snow protection for farm homesteads as well as livestock. Living windbreaks also provide nesting places for small insect eating birds as well as food and cover for numerous High Plains game birds. Windbreaks for shelter

or wildlife habitat are permitted under CRP contracts.

Advanced planning is very important for the successful establishment or renovation of windbreaks. The installation of a drip irrigation system for windbreak establishment is highly recommended.

Technical assistance is available from the Soil Conservation Service in planning and designing your windbreak, drip irrigation system and windbreak management. Drip irrigation systems and information on installation is available through the Caprock Soil and Water Conservation District.

Come by the Soil conservation office in Silverton for a complete list of tree varieties. For any additional information call 823-2320.

Programs and services of the Soil and Water Conservation District and the Soil Conservation Service are offered on a nondiscriminatory basis without regard for race, color, national origin, age, sex, religion, marital status, or handicap.
