the
good
earth

This is the soil, the good earth without which man could not exist. Suppose we woke up tomorrow to find a concrete world. Flowers would wilt, plants would die, and famine would sweep the land.

God, in His infinitely wise planning, gave us the earth to make use of — to care for. Without this care, the soil and fields become barren.

People are not very different. We need three kinds of care if we are to flourish — physical, mental and spiritual. Unfortunately the last, in many ways the most important, is often most neglected.

The spirit is a great part of you! Nurture it by attending the church of your choice.

Brush Control: A Tool Not A Cure-All

by Jackie Johnson
Briscoe County
Agricultural Agent

Many millions of acres in Texas are infested with undesirable woody plants that reduce forage production and make it difficult to handle livestock. Brush control can be a means of improving forage production, improving wildlife

habitat and conserving natural resources if brush control is coupled with good resource management practices.

A first step is to inventory your ranch resources and define the problems that need attention. Then decide what your management goals are over a period of time. Chances are brush control will be considered on most Texas ranches.

Eradication of troublesome woody plants may be desirable in some instances, but is not possible without a tremendous expenditure of time and money.

Long term brush control coupled with increased forage production is a more realistic goal. Fire, chemical sprays, mechanical and biological methods are all used to control brush. No one method is suitable for the control of all species and acceptable in all situations. Select a method that will accomplish the desired level of brush control at a reasonable cost.

Management of rangeland following brush control practices may be more important than initial brush control measures. Too often operators reason that they must increase stocking rates immediately in order to recover the cost of brush control. Where this practice is followed we often find that the land is soon in poorer condition than it was due to controlling the brush.

The moral of the story is to make arrangements for good forage plant management prior to controlling brush. Such an approach allows for increased forage production and an increase in the life of a brush control practice. It allows for forage plants to compete with undesirable woody plants. It all boils down to the fact that when you invest money

IT REALLY MATTERS!

For
Tested and
Proven Leadership.

SIX FLAGS BREATHTAKER—The Big Bend, added to the lineup of rides at SIX FLAGS Over Texas late last season, will be new to most 1972 visitors. The huge ride carries passengers over more than a half mile of curving, spiraling track at speeds up to 60 mph. The ride, introduced to this country by Six Flags, is the fastest entertainment ride in the nation.

OPENS MARCH 25

A TOTAL "NEW LOOK" IN STORE FOR SIX FLAGS VISITORS IN '72

Arlington, Texas—Brilliant new color schemes, subtle design changes and exciting new attractions have given SIX FLAGS Over Texas a new "face" for the 1972 season.

The changes are evident from the moment a guest walks into the Park's entrance mall. There, in the center of a circular pool, sits a new, \$25,000 fountain.

In the popular SIX FLAGS Petting Zoo, major changes have been made. A rock-lined lagoon now borders the area where visitors can pet small animals. In the waters of the lagoon are dozens of Imperial Koi carp which will actually eat from the hands of guests.

And, nearby is a new ride, the Rugged Buggy, designed specially for younger visitors who can hop into their own beach buggy or swamp buggy for a gentle ride.

In the Texas section of the big theme park visitors will find the largest, detailed historical map ever made. The huge map of Texas stands more than

fourteen feet tall. The SIX FLAGS Dolphin Show provides more fun than ever. A comical sea lion and a talented macaw have joined the two dolphins in the 1972 show.

In the Southern Palace Music Hall, a fast-moving production called, "Gotta Sing! Gotta Dance!" features a cast of sixteen entertainers from the nation's college campuses backed by a fourteen-piece pit orchestra.

And, in the Puppet Theatre, Sid and Marty Krofft are presenting "Follies," a colorful show new to the SIX FLAGS audiences.

In every corner of the family entertainment center there is a "new look" created during the winter months by Ted Friesen, an environmental artist.

Friesen, the designer of numerous settings for television productions, calls the SIX FLAGS layout "the biggest mural I've ever done." Familiar buildings and rides have taken on a new appearance. The changes are par-

ticularly noticeable in the USA section where the ruler-straight lines of buildings have been erased by a facade of lattice-work and graceful arches.

The Lost Parents Caboose, where youngsters separated from their parents await a happy reunion, has been transformed from a dull, green railway car to a bright red and gold unit from a circus train.

The antique Carousel, once primarily white, has been embellished with glowing hues of red, orange and yellow.

Lines of green accent the Old-South architecture of the Southern Palace Music Hall. The color extends inside with richly-flocked wall covering and a new, green carpet.

In addition to the changes in color and design, many of the young hosts and hostesses who give SIX FLAGS its personality are sporting strikingly different costumes.

For 1972, the statement, "there's something new at SIX FLAGS," doesn't begin to tell the story.

ELECT Eddie J. "Ed" Leary

STATE REPRESENTATIVE
66TH DISTRICT

Honesty in Government

Subject to Democratic Primary

in brush control you cannot afford the luxury of poor grassland management.

Mr. and Mrs. Jimmy Weatherly of Memphis visited in Turkey Monday with her mother, Mrs. C. S. Lipscomb.

Controlling Common Broomweed

Common broomweed (*Xanthoxylum dracunculoides*) in some years can become a serious prob-

lem on Texas rangelands. Broomweed germinates with winter rains, forms a small rosette of leaves, and grows very slowly for some time. Rapid growth begins around mid-April, and by mid-May the plants are 8-12 inches tall. Growth in height is fairly well complete by about June 15. On the average, broomweed reaches a mature height of about 18 inches, but may double that in exceptionally good years.

Results of research studies on the control of broomweed provide some very useful information. The application of 1/2 pound of 2, 4-D when broomweed was from 4-6 inches tall (around May 1) resulted in 95-100% control. Even 1/4 pound of 2, 4-D at this time reduced the stand of broomweed by 75%. Spraying with 2, 4, 5-T at 1/2 pound per acre produced 60% control of broomweed when applied on May 1, and 90-95% control when applied on May 15. When spraying is delayed to June 1, 2, 4-D resulted in virtually no control whereas 2, 4, 5-T controlled about 85% of the weeds present at that time.

Dicamba applied alone at 1/2 pound per acre resulted in 85-100% control of broomweed when applied between April 1 and June 1. One quarter pound of 2, 4, 5-T combined with an equal amount of dicamba produced similar results. The combination of dicamba and 2, 4-D and 2, 4, 5-T is not approved by the Environmental Protection Agency.

Combinations of 2, 4-D or 2, 4, 5-T with equal amounts of picloram applied in totals of 1/4, 1/2 and one pound per acre has resulted in virtually 100% control of common broomweed.

Economically speaking, 2, 4-D will control common broomweed for the lowest cost, but application time is rather critical. For best results pastures should be sprayed when the broomweed is about 4-6 inches tall (a period of about 10 days). Where weed control is desired in connection with brush control, other combinations of chemicals should be used, especially in cases where broomweeds have reached mature height. One-half pound of 2, 4, 5-T or 1/4 pound of 2, 4, 5-T plus 1/4 pound dicamba or 1/4 pound 2, 4, 5-T plus 1/4 pound picloram (Tordon 225) all result in satisfactory broomweed control. To date, the most effective combination for both mesquite and weed control in the Rolling Plains has been the application of 1/4 pound 2, 4, 5-T plus 1/4 pound picloram.

EXTENSION SERVICE NEWS

SCABIES QUARANTINE

by Jackie Johnson
Briscoe County
Agricultural Agent

The cattle scabies quarantine on 34 Texas Panhandle counties may possibly be expanded to nine counties with stricter dipping requirements, according to Dr. Bill Clymer, Extension area entomologist at Amarillo.

He has received word from the Texas Animal Health Commission that as of June 1, the quarantine may be extended to cover another tier of counties south and east of the current control areas. Those that may be added to the list include Cochran, Hockley, Lubbock, Crosby, Dickens, King, Knox, Baylor and Wilbarger counties.

Clymer reports that official dipping will be required of all cattle in movement except those animals that:

1. are moving directly to slaughter;
2. are moving to slaughter through a livestock market;
3. are moving to a livestock market for sale and dipping prior to release;
4. are released from a livestock market to a dip point with an official permit;
5. are moving to an official dip point;
6. have been dipped within the past seven days;
7. are from a non-control area moving through the control area with no stop-overs;
8. are being moved by the same owner from one place to another within the quarantined area;
9. have been dipped within seven days from scabies-infested states with permit or with a permit to be dipped upon arrival;
10. are from a non-control area being moved into the control area for grazing.

These new restrictions are be-

FLOMOT NEWS

David and Marilee Martin, son and daughter of Mr. and Mrs. Wilburn Martin, won first place in the District Tennis Meet at Jayton last Friday. They will play in the Regional Meet at Lubbock this weekend.

Mrs. Leland Helskell and Christi of Dalhart and Kathy Gilbert of Lubbock recently spent a week at home with their parents, Mr. and Mrs. D. M. Gilbert. Kathy was out of Texas Tech for the spring semester, and Mrs. Helskell brought Judy and the baby down for a visit.

Mr. and Mrs. Pierce White were in Plainview Monday of last week. She visited her cousin, Mrs. Elmer Smith, who recently lost her husband from a burn injury. The son, Dwayne Smith, who was injured at the same time (Jan. 21), is home and improving well.

Miss Jo Smith, who has worked for Woolworth's in Plainview for 28 years, is being transferred to a Woolworth store in Perryton, in a new shopping center. The Woolworth store in Plainview is closing. Mrs. Alice Marshall, a sister to Jo, is remaining for the present in Plainview. She is a former resident of Silverton, and has been living with her sister for several years.

Mrs. Jim Mayfield and Minnie Mae Roberson attended the annual meeting of the WSCS held at Plainview Wednesday of last week.

Mr. and Mrs. Fred Kellum and Edward visited her parents, Mr. and Mrs. C. E. Uglov, in Richardson over the weekend.

ing implemented in an effort to eradicate the scabies mite and prevent its spread to other areas.

Re-Elect State Representatives PHIL CATES

PHIL CATES . . . Democratic Candidate for re-election to the State Legislature . . . a young man concerned with the future of the Texas Panhandle. A Candidate with Legislative experience!

CONSIDER THESE POINTS WHEN YOU VOTE MAY 6TH.

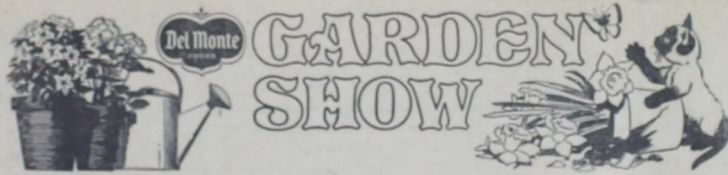

- Phil Cates is a qualified, experienced candidate.
- Phil Cates is a young man who seeks better government.
- Phil Cates will work for "all" of the people in the 66th District.
- Phil Cates realizes the importance of new industry to our area of Texas.
- Phil Cates favors a strong water program for the District so that we will have an adequate water supply in the future.
- Phil Cates is a capable speaker, and is listened to in Austin.
- Phil Cates is working hard and wants to be re-elected YOUR State Representative.

NEWS FROM YOUR Home Demonstration Agent

Ms. Dorothy Powell, Briscoe County Home Demonstration Agent. Have you been looking for a new casserole to try? Then why not fix a Cheese Enchilada Casserole? This was the recipe Miss Susan Rohre from Terry County prepared for competition in the District 4-H Food Show in Lubbock. You might fix a relish tray of your favorite fresh vegetables to go along with it.

CHEESE ENCHILADA CASSEROLE

- 8 oz. Cheddar Cheese
- 1/2 cup chopped onion
- 1 can cream of chicken soup
- 1 4-oz. can chopped green chilies
- 1 cup milk
- 1 5-oz. can boned chicken
- 16-oz. pkg. tortilla chips (crumble chips)
- 1. Grate cheese and set aside
- 2. Chop onion
- 3. Mix onion, soup, green chilies, milk and chicken. Heat and stir until bubbling hot.
- 4. Place layer of tortilla chips in bottom of 1 1/2 quart casserole.
- 5. Add half of soup, half of cheese and another layer of chips, repeat soup and cheese.
- 6. Cover all chips with liquid.
- 7. Bake uncovered at 325° for 30 minutes.
- 8. Garnish with chips.
- 9. Makes 8 servings.

You will hardly be able to wait until it is done to remove it from the oven. This casserole is delicious!

You may want to serve chicken frequently during May. Broiler-fryers are the only meat item listed on the U. S. Department of Agriculture's monthly list. Production of broilers during May is expected to be seven per cent above last year's level.

If you want to be in the 4-H Clothing Project and we do not have your name, please call the County Agents' Office. We are dividing into several groups according to age and sewing ability, so please let us have your name as soon as possible.

Bring the outdoors inside. Cut a spring bouquet. Making cut flowers look good for the longest possible time is a challenge faced by many home gardeners. Here are a few basic tips to give longer life to cut flowers. 1. Wash the container with soap and water before using. 2. Remember to cut stems at a slant, using a sharp knife or shears. 3. Cut flowers in the early morning or late afternoon. Before cutting, select flowers that aren't fully open, and avoid cutting old flowers. 4. Don't forget to remove the foliage from the lower third of the stem and all broken and bruised parts of the stem. Then wash the flowers to remove dirt, sprays and dusts. 5. Store cut flowers in a cool area or refrigerate until you're ready to arrange them.

Lions Club Commends Turkey Young Folks

The Turkey Lions Club sponsored a clean-up campaign Saturday, April 22, and Tuesday, April 25. The campaign has been very successful and each member of the Lions Club is to be commended. The highest commendation that the young people of the community for their contribution to the improvement of our town. Through the years there has been various projects and these young persons have always contributed their effort and support. This activity is over and beyond the normal responsibility of the youth of Turkey.

Last Saturday these young people labored all day under the leadership of Jay Eudy, Vocational Agriculture teacher of Turkey High School.

Robert Gragson, Scott Eudy, Max House, Bruce Ferguson, Brent Guest, Leck Fuston, Curt Scrivner, Smitty Lane, James Adams, Eugene Randall, Jim Weeks, Fran Cruz, Norman Mullin, Russell Yates, Randy Green, Danny Stewart, Steve Eudy, Curtis Polley, Rudolph Munoz, Joe Lyles and Dee Whittington.

Space and lack of information does not permit the listing of all of those who have contributed to these various activities in the past years. Both young men and young ladies have been involved.

The Lions Club of Turkey deeply appreciates these people and wishes for each one success and happiness. Special thanks go to the many adults who are not members of the Lions Club for their efforts in this campaign. These people furnished equipment, pick-ups and labor in the clean-up program.

Turkey Lions Club

The Turkey Lions Club had its regular meeting April 25. Boss Lion Jess Lipscomb opened the meeting and Lion Wayne Lory led the Pledge of Allegiance and Lion Ralph White gave the invocation.

There was a record of 22 members present and 21 guests. The Lions Club had the privilege of having as their guests men of the Turkey community who helped clean up the town all day Tuesday. Among the other guests there was the Boss Lion from Quitaque, Dick Evtat, and the Boss Lion from Matador, Pat Seigler.

Lion U. F. Coker, jr. gave a report from the nominating committee for the officers for next year. The motion was made by U. F. Coker and seconded by Wayne Lory that the names the nominating committee had suggested be elected as officers for the next year. The motion passed. Officers will be: Boss Lion Wayne Lory; Leroy Stone, first vice president; Jim Majors, second vice president; Loran Denton, third vice president; Keith Green, secretary and treasurer; Jay Eudy, tail twister; Jess Lipscomb, Lion tamer; J. T. Mullin and Lee Vardy, new directors. Holdover directors are U. F. Coker and Byron Young. Delegates to the District Convention are Jess Lipscomb, Keith Green and George Setliff. Lions Sweetheart is Juana Cotton and her escort will be Jerry Green.

A very good program was presented by Johnny Powell, who showed film and talked about

STATE ARCHEOLOGIST SPEAKS TO STUDY CLUB

The Nuevo Study Club held its annual Friendship Day Meeting on April 20, and the members and their guests received a delightful treat. Curtis Dale Tunnell, State Archeologist, was the speaker.

Mr. Tunnell is the son of Mr. and Mrs. Curtis Tunnell of Turkey. He finished school in Turkey and received his first degree from West Texas State University while working with the Museum there in assimilating displays for the Archeological Department. He received his Masters degree from Illinois State and did work on his PhD there. Today he has a building across the street from where his wife, Nancy, works for the State Parks and Wildlife Department.

During his talk, Mr. Tunnell showed slides which he and his men in his department had made of excavations at Amstad Reservoir, the Steadman Site, on the Rio Grande and on Devil's River. While showing the slides, Mr. Tunnell explained the meaning and results of these excavations. By means of carbon, the date of the products and soil from the diggings can be determined. Findings from one excavation can be compared with windings from others. The caves that are being brought to light in Texas by the State Archeological Department have paintings on the walls that date back to the pyramids in Egypt. These paintings are equal to anything that has been found in Europe or Asia, and when Texas has had time to convert these areas into public parks, Texans need not cross the ocean to view the remains of civilizations that date back to before the time of Christ.

Mr. Tunnell's work covers much of Texas. He had a speaking date at Amarillo College Thursday night, at West Texas State University Friday, and Texas Tech Friday night. He returned to Austin Saturday.

GREENBELT COTTON BOARD HAS MEETING

A meeting of the Board of Directors of the Greenbelt Cotton Producers, Inc. was held on April 15 in Memphis, Texas. The main objective of this meeting was to finalize plans for the 1972-73 collection program. This will be necessary for the maintenance of the Memphis Cotton Classing Office. Each operating gin in the 18 counties served by the Memphis Cotton Classing Office will be contacted during the month of July 1972.

Two guests were present in addition to the directors. Mr. C. E. Cox, officer in charge of the Altus Cotton Classing Office and Mr. Wiley Cain, officer in charge of the Memphis Cotton Classing Office attended the meeting. They discussed with the Directors the operation and needs of the Classing Office. The directors were unanimous in the praise of Mr. Cox and Mr. Cain in the management of the office. The officers and other employees of the U. S. Department of Agriculture have cooperated fully with the Directors and with the cotton producers of this area.

The Greenbelt Cotton Producers, Inc. was formed in 1959 for the purpose of establishing a cotton classing office in Memphis. Since 1959, the Memphis office has classed 2,000,198,000 samples of cotton. The office serves cotton farmers in Armstrong, Briscoe, Carson, Childress, Collingsworth,

some of the wildlife along the caprock and surrounding area.

Mr. and Mrs. J. T. Mullin were in Amarillo Monday on business.

Mrs. John Lane spent the weekend visiting in Lindsay, Oklahoma with her sister, Mrs. Vay Kurkendall. Mrs. Kurkendall returned home with her for a visit.

Mr. and Mrs. Doc Connor spent the weekend with Mr. and Mrs. Elgin Connor of Lazear, Colorado.

John Lane visited over the weekend in Amarillo with Mr. and Mrs. Jack Rhodes.

Mr. and Mrs. Steve Farley and family of Houston visited here over the weekend with their parents, Mr. and Mrs. Bun Farley and Mr. and Mrs. Tommy Beck.

Mr. and Mrs. Alton Lane and family of Ruidoso, New Mexico visited friends and relatives here last weekend.

J. G. Creed of Sherman Oaks, California spent the weekend here visiting Mr. and Mrs. Emmitt Baisden.

Mr. and Mrs. Keith Green and family visited over the weekend in Plains with her parents, Mr. and Mrs. Robert Chambliss.

Pfe. Willie Jouett of Camp Polk, Louisiana is visiting here this week with his parents, Mr. and Mrs. Preston Jouett.

Mrs. Marie Hedge of Amarillo is staying with Mrs. Sid Bogan, Mr. Bogan and Mrs. E. E. Berry of Tulsa drove to Amarillo Friday and interviewed her and brought her home with them. She is giving Mrs. Bogan therapy.

USDA UNITS APPROVE NEW HERBICIDE FOR BRUSH CONTROL THEY HELP FUND

TEMPLE, Tex., April 19—U. S. Department of Agriculture agencies that make federal cost-sharing funds available to help ranchers control brush have added a new herbicide to the list of brush-fighting methods they approve.

The herbicide is Tordon 225 Mixture, said to be twice as effective against mesquite and many other brush species as 2, 4, 5-T, until now the most commonly used brush control chemical.

Both the U. S. Soil Conservation Service and the U. S. Agricultural Stabilization and Conservation Service have advised field personnel that brush spraying in Texas with Tordon 225 is eligible for cost-sharing funds.

Cottle, Donley, Gray, Hall, Hansford, Hemphill, Hutchinson, King, Lipscomb, Motley, Ochiltree, Roberts and Wheeler counties. The Memphis office is considered one of the most modern and up-to-date in the cotton-producing industry.

Directors currently serving are President Jerrel Rapp of Estelline; Vice-President Ernest Rea of Tell; Secretary A. J. Garland of Goodnight; D. D. Pennington of McLean; J. R. Hefley of Twitty; H. S. Mahaffey of Clarendon; D. E. Brunson of Quitaque; Dudley Chewing of Cee Vee; L. B. Colis of White Deer; Joe Degan of Flomot, and W. R. Breeding of Sannorwood.

QUITAQUE BROWNIE NEWS

The Quitaque Brownie Troop 107 extends an enthusiastic welcome to its newest member, Dawnya Sue Gilbreath of Turkey. Dawnya is the daughter of Mr. and Mrs. Gayle Gilbreath, and she comes over each week to meet with the local Brownies. When a little girl wants something as badly as Dawnya wants Brownies, distance is a secondary factor. Dawnya, we sing our Brownie song to you:

"Make new friends,
but keep the old;
One is silver and
the other gold."

The Brownie troop enjoyed a hike along the creek to Dripping Springs. Brownies, along with their leaders, discovered many things of the out of doors: deep sand is difficult to walk in, sometimes there are stickers hiding in the sand, a Brownie will often find a sticker if she is barefooted, an armful of rocks becomes terribly heavy in a very short time. All of the Brownies agreed that the best discovery was that of enjoyment in doing something together with

friends. Adventure was not limited only to the Brownies. Pre-school brothers and sisters proved that they too could keep up with their peers; in some instances their presence created events with surprising results. Mrs. Jean Rice gallantly carried Walter for approximately a quarter of a mile, cheerfully encouraging him and other youngsters. Other leaders, operating under their own steam, dared not express weariness; they continued to smile as they pulled themselves slowly up from a resting spot. Walter bore up bravely; however, he finally requested: "Mother, please put me down, I need to rest."

Mrs. Sue Gilbreath discovered that unexpected events enliven Brownie activities. Sue, our hats are off to you: you have a typical wonderful Brownie sense of humor. Who would have ever dreamed that three big fat burrs were planted right on the nice, grassy spot on which you chose to rest? Mrs. Helen Swift, you should have known better than to dress Chucky in white shorts. Any fellow worth his salt would never pass up an opportunity to slide down a steep hill on his bottom.

Mike and Timothy, please accept the Brownies' apology for not allowing you to blaze the trail. One of these days, these same Brownies will delight in having an older boy blaze a trail on a hike; right now, they are somewhat headstrong. We enjoyed having you along anyhow.

The Brownies thank Mr. Barrett for the use of his snake-bite kit. We had no use for it, but it was a

comfort having it along.
JUNIOR GIRL SCOUTS
The Quitaque Junior Scout Troop 107 extends a welcome to a new leader, Mrs. Judy Kellum. Mrs. Kellum's enthusiasm for scouting goes back to her own days as a Scout.

Assisted by their leaders, the girls watched a demonstration in baking and frosting a cake from mixes. In the following week, each girl baked and frosted her own cake. Each cake was inspected before the family sampled them. This activity was another step toward earning a cooking badge. The girls also had a lesson in measuring liquid, dry, and solid material. They will each demonstrate their ability to measure accurately; hopefully they will pass this step. They have had instruction in controlling the burners of electric and gas stoves. Within a week or two, they will demonstrate their ability to carry out instructions in regards to this step. Some of the girls have begun registering for a week of camping at Camp Rita Blanco, the Girl Scout Camp near Crosbyton. Camping activities and instruction will soon begin; the girls will discover that Scout camping and family camping differ somewhat. We are still trying to instill in the girls the idea of working together as a patrol, not as individuals. Perhaps if we can overcome this obstacle, we can begin showing progress rapidly.

Mrs. Mildred Vazeos of Washington, D. C. arrived Sunday to visit her brother, Mr. and Mrs. Morris Wilson, other relatives and friends.

A REACTIONARY AND PROUD OF IT!

Canadians labor under the same philosophical strains and stresses that beset us Americans.

Consider the case of Mrs. Patricia Young, a Vancouver housewife and a some-time newspaper columnist. She went to a meeting in her hometown recently and heard a left-wing speaker sound off about "reactionaries."

Mrs. Young went home seething. She sat down at her typewriter and produced a rebuttal that is, in its way, a classic. It is being reprinted widely, and was used as an editorial on WRAL-TV, Raleigh-Durham, North Carolina.

This young Canadian woman speaks for a lot of us when she writes:

Just for the record—and without apology—I AM A REACTIONARY! I react to sin and sadism, riots and revolution, gutlessness and Godlessness; to philosophies and sophistries which seek to destroy those values which make a country great, and which fashioned the very fabric of civilized mankind.

I react to dancing the permissive polka with those who would whirl me all the way to Hell while whispering that "God is Dead" and that the Devil is nothing but a myth. Yes, I am a reactionary: I react to those ministers who would convert my church into a hootenanny hall of political forum.

Yes, I'm a reactionary. I react to the emasculating of my Faith in the name of humanistic togetherness; I react to those who would seek to destroy my love for the Holy Bible, and my loyalty to the flag, and my esteem for the police.

I react to charges that I am personally guilty for other people's failures—as if I personally poured liquor down the alcoholic's throat, or peddled the heroin, or mugged a little old lady, or created the slums or invented The Bomb!

I react to the glorification of the welfare state as a substitute for working for a living. I react to stupid kids who turn to pot and away from pink lemonade. Yes, indeed, I am a reactionary: I react to those who advocate The Pill instead of purity, and demonstrations instead of dedication, and desire over discipline, selfishness instead of sacrifice. I react to those who constantly prate about "rights" but don't give a darn what's RIGHT.

I react to the portrayal of my friends in America as "fascist beasts," and to those who regard communist dictators as Santa Claus. I react to those who consider love as nothing more than sex,

and who contend that "art" is a film showing an unmarried couple in bed together. Yes, sir, I react to student radicals who preach "peace" in order to promote surrender, and who are so in love with themselves that they would destroy all values except their "right" to be against everything.

I'm a reactionary, yes I am: I react to the stupid sentimentality of amateur-do-gooders who, like carved wooden monkeys, see no evil, speak no evil, and hear no evil—even when it runs riot with a shotgun, molotov cocktail or plastic bomb. Oh, do I EVER react! I react to the phonies who would re-write Little Red Riding Hood to have her "rehabilitate" the wolf while screaming "hate-monger" at the woodsman coming to her rescue.

You'd better believe I'm a reactionary. In my book, it's time all responsible adults began reacting instead of suffering the insults, inconveniences and intimidations of a noisy minority who would sacrifice their own freedom—and ours—on the altar of atheistic materialism.

If the MAJORITY will just begin reacting, the kooks and the creeps would soon crawl back under their rocks, and this tired old world would have time to bind its wounds and regain its sense of humor.

You could pass the tree a hundred times without seeing the bright little bird peeping out.

Nature neglected to give man such camouflage. In the scheme of things he is actually quite obvious. But God created man in His image—a much greater asset. He was given a strong body and a mind with which to think. And He has given us a very special gift; the miracle of Faith.

Yes, Faith is a gift. It comes only through our seeking, and the quest is not an easy one. Strangely enough, you might not find Faith in church. But *there* you will discover where to begin to look for it.

Turkey F.F.A. News

Turkey FFA boys entered the district contests in Memphis Wednesday, April 12.

Scott Eudy was Turkey's entry in public speaking and won first place. His speech was on "Producing Higher Retail Value Lambs." Scott will represent the Greenbelt District at the Area I contest in Lubbock on May 13.

The local chapter had the Star Greenhand and Star Chapter Farmer of the District for the second year in a row. Scott Eudy won the Star Greenhand Award, while Steve Eudy was selected as Star Chapter Farmer of the District. Both boys will compete for Area

awards on May 13.

Representing the Turkey chapter at the District meeting were Kim Coker, Robert Gragson, Norman Mullin, Steve Eudy, District President Jerry Green and Advisor Jay Eudy.

Plans have been completed for a Farm Electrification Short Course at the Turkey High School vocational agriculture department. The course will be held May 8-11 at night with Cleve Walkup from Texas A&M instructing. Make your plans now to attend. The course is open to everyone in the Turkey-Quitaque-Flomot area. Plans are being made for a welding short course in June.

News From The Extension Service

by Jackie Johnson
Briscoe County
Agricultural Agent

BRUSH CONTROL

The severe spring drought of 1971 resulted in slow erratic growth of mesquite and little or no growth of forage plants. As a result very little chemical control of mesquite was done during the 1971 season.

Conditions are different this season. Heavy late summer and late fall rains have recharged deep soil moisture to the point that mesquite growth should be good this spring. With normal spring rains growing conditions and con-

ditions for chemical control of mesquite should be more than adequate.

Are you planning to treat brush infested areas this year? If so, now is the time to make preparations to get the job done. Most custom applicators work over rather large geographic areas of the state and must schedule their work well in advance if they are to make efficient use of their time. Schedule your work well in advance.

Select an operator to do your work that you are confident will do you a good job and will follow accepted practices. Severely competitive bidding situations may get you a good price, but result in a poor job and ill feelings all around. A competent and experienced operator is probably well worth the modest premium in the price he is able to command.

Contact your local county agricultural agent for assistance in planning and executing your brush control program.

CHEMICALS AVAILABLE FOR AERIAL APPLICATION

Herbicidal chemicals generally suggested for brush and weed control by aerial application include picloram + 2, 4, 5-T (currently sold as Tordon 225), dicamba, 2, 4-D and MCPA.

Tordon 225 Mixture is the newest addition to the list of herbicides approved for brush control. This herbicide is a mixture of equal parts of 2, 4, 5-T and picloram and is formulated and marketed as a mixture. Tordon 225 Mixture, used at the rate of 1/2-pound per acre in West Texas has resulted in good control of mesquite (40-50% root kill) plus satisfactory control of prickly pear (around 50% plant kill). Good herbaceous weed control has been a welcome additional benefit. Results with Tordon 225 Mixture have been even better in South Texas. In addition to control of mesquite and prickly pear species such as blackbrush, granjeno, huisache, and twisted acacia have been satisfactorily controlled when 1-pound per acre was applied aerially. Tordon 225 Mixture is somewhat more expensive

than 2, 4, 5-T and costs run about \$5.25 per acre for 1/2-pound application and about \$8.50 for the application of 1-pound per acre.

The 2, 4, 5-T has been the primary herbicide used for control of mesquite over the past several years and has done a creditable job. On the average, 1/2-pound of 2, 4, 5-T per acre in an oil-water emulsion has produced about 25% root kill on mesquite. Some weed control has been obtained when spraying mesquite, but other brush species in the stand have shown little effect. Treatment of rangelands with 1/2-pound per acre of 2, 4, 5-T costs from \$2.75 - \$3.25 per acre. The 2, 4, 5-T has also been used for control of sand shinnery, oak, post oak, bottomland hardwoods and yucca.

Dicamba has been tested experimentally throughout Texas. Results to date will not justify the use of dicamba in a general brush control program. However, it does provide good control of common persimmon where it is a problem and is useful in some pasture weed control programs.

Silvex is very similar to 2, 4, 5-T in its action, and is specifically suggested for control of yucca by broadcast application.

The 2, 4-D, the old standard weed killer, is not particularly effective in brush control programs unless sand sagebrush is the primary species.

The variation in soils, species in the stand and geographic location all have a bearing on the selection of chemicals to be used in a brush control program. Costs in terms of desired results must also be considered. Consult your local county agent for assistance in planning your brush and weed control program and selecting chemicals suitable for the job.

Coy Shannon of Levelland visited friends and relatives in Turkey Thursday.

Mr. and Mrs. Carol Byrd of Childress spent the weekend in Turkey with her mother, Mrs. I. D. Mullin, sr.

Home Notes

MRS. DOROTHY POWELL
Home Demonstration Agent

I hope you will make a note to yourself to attend the "Sew With Tricot" demonstration to be given by Mrs. Judy Carlisle. The demonstration will be given at the City Hall Friday, April 28. I will give you more details next week.

What's the easiest way to fry chicken? Put it in the oven and forget it for 30 minutes. Place the poultry pieces in a shallow pan containing one-eighth inch of melted fat. Turn the pieces to coat both sides. Cook at 400° for 30 minutes. Turn chicken and cook 20 to 30 minutes longer until crisp and tender.

To test broiled meat for doneness, cut a small slit in the lean and note the color and texture. Or press the meat lightly with a fork. Very rare meat is soft and pulpy. Medium rare is slightly resistant. Well-done meat is quite firm.

Looking for a cool, crisp, yet low calorie food for these warm spring days? Tomatoes offer a good source of vitamins A and C, and a cupful has only 30 calories. They're versatile and they add flavor, color and nutrients to an endless number of dishes.

Let your eyes be your guide. Choose a tomato that is mature, firm but not over-ripe, fairly well formed, of good color, plump and smooth and free from blemishes.

Are you having trouble altering your patterns? If so, call me and I'll be happy to come to your home or you can come to my office and I'll help you.

Do you have problems with cheese used in casserole sometimes being tough and stringy? High temperatures and long cooking cause fats to separate, and the result is tough cheese. Add the cheese during the last half hour of cooking for best results.

Peaches may be native to China, but they rate "All-American" in popularity! Canned peaches are right at home in the American kitchen. They're easily stored and may be used hot or cold in any part of the meal. Peaches contribute significant amounts of Vitamin A.

If you're wondering about how to heat and use peaches, there are several methods. Broiled peach halves add to any meal. Just sprinkle the peaches with brown sugar or bread crumbs for quick browning. Place on an empty broiler pan or with other foods for the last five minutes of broiler time.

Here is a dessert idea using canned peaches you might like to try.

OATMEAL PEACH CRUMBLE

- 1 No. 3 can sliced peaches
- 2 tablespoons lemon juice
- 1 teaspoon cinnamon
- 1/4 cup brown sugar
- 1 tablespoon butter
- 1/4 cup melted shortening
- 1/2 cup brown sugar
- 2/3 cup sifted flour
- 1/2 teaspoon salt
- 1/4 teaspoon soda
- 2/3 cup quick oatmeal
- 1/2 teaspoon vanilla

Pour syrup from peaches. Arrange peaches in a shallow, greased baking dish; sprinkle with lemon juice, cinnamon, 1/4 cup brown sugar and dots of butter. Combine melted shortening and 1/2 cup brown sugar. Sift flour, salt and soda together and mix with oatmeal. Blend with the sugar mixture, crumbling well. Add vanilla. Spread oatmeal mixture over peaches and bake for 30 minutes at 375°. Serve with whipped cream or ice cream. Serves six.

Guests in the home of Mr. and Mrs. Wayne Whittington Sunday were Mr. and Mrs. Robert Phelps, Shon and Kember of Mobeetie, who spent the weekend with the Whittingtons and the Delbert Phelps; Mrs. Willie Gragson, Evelyn and Laura, Wellington, Debra and Robert Gragson, Lee, Brett and Melanie Cruse of Turkey. Mrs. Willie Gragson and daughters also visited the A. E. Gragsons.

Mrs. Murry Morrison underwent surgery in Central Plains Hospital in Plainview Friday morning. She is home and recuperating.

Jim Mayfield and Hayden Boggs of Tullia drove to Canyon Saturday afternoon to watch the WTSU Buffs work out for football.

FLOMOT VOLLEYBALL TOURNAMENT WAS A SUCCESS

The Flomot Volleyball Tournament, sponsored by the Flomot Ex-students and Teachers Association, held last Thursday, Friday and Saturday in the High School Gym was a success. Winners in the girls bracket went to Matador Go-Go Girls, taking first place honors. The Quitaque Queens were second place winners and the City Auto Swingers of Floydada took third place honors. Winners in the mens bracket were Turkey, third place; second place went to the Short Shots from Floydada, and Matador won first place honors.

All proceeds will go to help defray the expenses of the 1972 Schol Homecoming to be held in July. We would like to thank everyone who helped to make it a complete success.

Mr. and Mrs. Arthur Gregg of Amarillo spent Saturday night and Sunday with Mr. and Mrs. Buddy Morris, Mrs. J. W. Ewing and Miss Lizzie Gregg joined them for lunch Sunday.

NUEVO STUDY CLUB

"Yesteryears" was the topic for Nuevo Study Club which met April 13, in the home of Mrs. Willis Walker with Mrs. Frankie Dameron as co-hostess.

Mrs. Blume, leader, opened with a devotional, and roll call was answered with something popular in "yesteryears."

The program was "History in a Catalog," Mrs. Blume; "Lament for the Old Front Porch," Mrs. George Setliff; "Those Old Letters," Mrs. Bain.

Eighteen members and one guest, Mrs. W. S. Caghen of Matador, were present. The next meeting will be held at the Baptist Church, April 27. Mr. Curtis Dale Tunnell, State Archeologist, will be the guest speaker.

Mrs. N. B. Herrington returned home from Swisher Memorial Hospital in Tullia Saturday after having spent ten days there. She had flu and an infection in her arm.

Mr. and Mrs. Tom Barbee spent the weekend before last with their daughter and family, Mr. and Mrs. Dean Mullin and children in Houston.

Mrs. Anna Belle Patterson of Stockton, California and Mrs. George Seaney visited the A. C. Barretts and in the Gaston Owens home recently. Mrs. Patterson is a cousin of Mrs. Owens.

NEW ARRIVAL

Mr. and Mrs. Earnest Reagan are the proud parents of a new baby daughter, Vicki Kay, born Saturday morning, April 22, at 11:32 a.m. in the Lockney General Hospital. She weighed 8 lbs. 7 ozs., and measured 20 inches. She is the first grandchild for the Bill Clarys and the fifth grandchild for the Odis Reagans.

Mrs. Reagan and the baby came home Tuesday and both are reported to be doing fine.

The surprises start with the money you save.

On Bob Wills Day

Ralph W. Yarborough has lived a life of action and service. Perhaps these two words are more adequately descriptive of his life than any others. Witness these accomplishments in the field of public service:

- As a young Assistant Attorney General, he won in a celebrated case the state's title to oil interests in nearly four million acres of Texas lands, putting millions of dollars into the funds for educating this state's young people.
- As a political candidate in the '50's he built the inspiration for change and progress in Texas politics which continues in this day to encourage scores of young men and women to seek public office.
- As a United States Senator from Texas for 13 years and 8 months, he authored vital legislation to aid not only every Texan, but every United States citizen. Included among the major legislative accomplishments were:
 - Cold War GI Bill, which has enabled 3,500,000 veterans to obtain training.
 - Padre Island National Seashore.
 - Guadalupe National Park in West Texas.
 - National Defense Education Act for loans and grants to college students.
 - Major Health, Hospitalization, and Mental Health legislation.
 - Chamizal Treaty Bill.
 - First Bi-lingual Education Bill ever introduced into the U.S. Congress.
 - Major farming, ranching, and soil and water conservation legislation.

Yarborough's standing with his fellow senators is high... his name is probably attached to more legislation than that of any other senator in Texas history.

CARD OF THANKS!
We wish to thank the wonderful people of Quitaque and surrounding communities for the love and concern shown us after Webb's heart attack in Houston and since we have returned home. Each act of kindness is deeply appreciated and will be remembered always. May God bless and keep you.
Webb and Edna Taylor

Quitaque Resident Enjoys West Coast

On March 24, Stan Simmons, pastor of the United Methodist Church in Quitaque, took Mrs. Delila McFall to Amarillo where she emplaned on a 737 TWA to San Francisco, California. Her daughter, Miss Alpha McFall, and her friend, Miss Pat Montgomery, met her there. On Sunday following, Bud McFall and his family drove down from their home in Seattle, Washington. They spent the week in San Francisco, met the little red-haired grandson, Jimmy, 18 months old, for the

first time. They went to the San Francisco Zoo, to Monterey Peninsula, took a 17-mile drive by Seal Rock. They started back to Seattle on Friday, April 1, spending the night in Roseburg, Oregon, then on to Seattle the next day. They drove up on Mount Rainier in the snow, which Mrs. McFall reports is a very pretty drive. They went to Farmers Market, the Piers, spent the week in Seattle with it raining every day.

Mrs. McFall flew back to San Jose and spent another week with her daughter, Alpha. She flew from there to Albuquerque, New Mexico, where she visited her brother, Doyle Courington and wife, and her niece, Mrs. John Morgan and family. They rode the tram up on the Sandia Mountain, spent the day in old Santa Fe. On the following Tuesday, April 18, she flew back to Amarillo where she was met by Mrs. Sid McFall, jr. and Mrs. Jack McFall and Jena. They went to the hospital to see the H. G. Boyles family before returning to the "most beautiful place of all," according to Mrs. McFall, and that is Quitaque.

CARD OF THANKS!
May I take this means to thank everyone for the phone calls, visits, cards, flowers and food that has been given us during my stay in the hospital and since my return home. Especially do I appreciate every prayer said for me.
Edna Earl Blakney

Governor Preston Smith serves.

For you,

- Preston Smith stopped the Sales Tax on food, medicine, and farm equipment.
- Preston Smith stopped an increase in the gasoline tax.
- Preston Smith rejected an unnecessary personal income tax.

For Texas,

- Preston Smith helped provide more funds for industrial development than any two governors before him.
- Preston Smith helped establish more new state colleges and universities than all previous governors combined.
- Preston Smith initiated the first comprehensive program to fight drug abuse in Texas.
- Preston Smith helped develop the most progressive salary schedule for teachers in the nation.

Re-elect
Governor Preston Smith
and help him keep your taxes down.
(Pol. Adv. By Micky Smith, Chairman)
