### Patriots Down Owls In 38-0

#### Win Last Friday Night

The Valley Patriots drove to Silverton last Friday night for their annual get-together on the gridiron, and the Patriots came out on top 38-0. The score indicates that it was one of the Patriots' run-away affairs, but it was a better football game than the score sounds, for the Owls played plenty tough the first half, especially, and held the mighty Patriots to an 8-0 lead for the first two periods.

The Owls came to play. The Owls surrendered a single touchdown on the first play of the second quarter when James McNary ran four yards, then Fuston passed to Dee Dowd for the two extra points, to give the Patriots an 8-0 lead. The Owls then played it very tough for the remainder of the first half, and the Patriots still led by only eight points at halftime.

Head Coach Ted Giddens gives his offensive line most of the credit for the win Friday night. He says that the "Hogs" just kept winning the line of scrimmage, and opened the way for James McNary.

The Coach says that ordinarily McNary does not carry the ball that often, but due to an ankle injury to big fullback Ray Williams and a bit of a groin injury still plaguing Michael Dowd, McNary had to be the workhorse. McNary scored four touchdowns in the last half, on runs of 33 and 17 yards in the third period, and then ran both extra point tries. In the fourth quarter, McNary scored on runs of 22 and three yards. The first extra point try failed, and Michael Dowd scored the last extra points by running it in.

Coach Giddens stated that Tommy Morris turned in his best game of the season, along with fine play by sophomore Stacy Price, who had his best blocking game. He also cited the play of Kirby Chandler, Shane Smith, Brum Pinkerton, Brent Brown, Jimmy Lacy and Dee Dowd.

Statistically the Patriots compiled 29 first downs to eight for the Owls. The Patriots rolled up 365 yards rushing, and 64 passing for a total of 439 yards. The Owls had a total of 96 yards gained, 69 rushing and 29 passing.

James McNary's efforts, in 40 carries for 221 yards, five touchdowns, for 34 points, gained him the Amarillo Daily News Player of the Week Award. Valley players earning honorable mention were Richie Fuston, who threw eight passes and completed six, and Brum Pinkerton for an outstanding defensive game.

Valley's Junior Varsity team, not to be outdone by the varsity, is also rolling along undefeated for the season. They defeated the Silverton JV last Thursday night 50-0. The coach stated that the JV played very aggressively. The backfield of Tomas Hinojosa, Jerry McNary and Kraig Cox, is doing an excellent job. The line is blocking well. Neal Barrett, Randy Lacy, David Landry, Randy Fuston, Keith Beavers, Daniel Ortiz, Darren Edwards, Rex Mor-

gan, Bobby Ortiz, Guy McKee, Walt Rice and J. Dale Butler, all are contributing to the undefeated season of the Junior Varsity.

The Junior High Team also won over Silverton, 18-0. Friday night of this week, Valley goes to Nazareth for the next to last game of the season. The JV and Junior High games that were scheduled to be played here Thursday, were cancelled Tuesday.

The Big Game of the Season will be played here Friday night of next week when the Motley County Matadors come to Valley. Barring an unexpected upset, a pair of unbeaten teams, No. 2 state ranked Valley and No. 9 ranked Motley County, will lock horns in the last game of the season.

### Turkey Skating Rink To Have Halloween Party Saturday

Debra Smith has announced that the Turkey Skating Rink will have a Halloween Party on Saturday, November 1, from 7:00 until 11:00 p.m. You may wear costumes and a contest will be held to judge the best one, for which a prize will be given. It was also stated that the costumes should be suitable to skate in.

### WINSTON B. LUCAS TO TAKE CHILDREN'S PICTURES FOR CONTEST

The well-known photographer, Winston B. Lucas of Irving, Texas, will be in Turkey November 8 from 9:00 a.m. until 12:00 noon, and in Quitaque November 8 from 1:00 until 4:00 p.m. to take pictures for the annual Children's Photo Contest. Mr. Lucas needs no introduction to the area, having been here annually for the past twenty years. His excellent work speaks for itself.

There is no charge to the parents for having your child's picture made for the contest. There are absolutely no strings attached. Parents do not have to be subscribers, nor even readers of this newspaper to take advantage of this feature. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain a limited number by arrangement with the studio representative when they select the pose they want printed in the paper. It is entirely up to them.

This newspaper wants pictures of all the youngsters and the more the better.

Mrs. Frank (Cindy) Lane will call for appointments in Turkey (her number is 423-1350) and Mrs. Rex (Elaine) Harmon will call for appointments in Quitaque (her number is 455-1305).

Be sure to bring your children to have their pictures made for the contest. Prizes totaling \$26.85 will be given to the winners. Mr. Lucas will also make family pictures and they will be back for Christmas.

Next Tuesday, November 4, is General Election Day, sure to be one of the most hotly contested Presidential races in recent memory. At this writing, both major parties claim that their candidate is leading, but from all accounts, the race is too close for either candidate to feel comfortable.

In Briscoe County there is no contest for Quitaque voters locally, but in Hall County there is a sheriff's race. Turkey has no precinct race.

### Have A Safe Halloween Friday!

Don't let Halloween haunt your children this year—use some health and safety precautions to prevent their trick or treating from turning into tragedy.

The Health Department of Texas sends these cautions.

Put a lot of youngsters on the streets in dark neighborhood areas and accidents can happen. But planning the Halloween excursions can resolve some of the pitfalls. The best idea is for the parents to accompany the children.

Another precaution is to carry flashlights, and to wear bright strips sewed to clothing so people in automobiles can see the re-

fracted material before hitting the child. The masks children wear hinder the child from seeing properly and causes accidents. The flashlights help in spotting and keeping unfriendly dogs at bay.

The children's costumes and wigs should be fireproof.

The treats given children should be individually wrapped. Those not wrapped should be inspected carefully by parents to prevent contamination and poisoning.

Halloween falls on the eve of All Saints Day, which is celebrated on November 1, and was known as Hallow even.

**SOCIAL SECURITY  
IN  
BRISCOE COUNTY  
BY  
JANICE ULMER**

What do these people have in common?  
George Washington, John Quincy Adams, Woodrow Wilson, Gerald Ford.

Almost everyone can answer that question. All of these gentlemen have served as President of the United States.

There have been some equally famous men and women who never made it to our country's highest office. Among these were: Benjamin Franklin, Daniel Webster, Susan B. Anthony, Douglas MacArthur.

Other Americans have achieved fame outside the areas of politics and national affairs. In the world of entertainment, for example, we could mention these: Bob Hope, Elizabeth Taylor, Marilyn Monroe, Johnny Carson.

And I could go on and on with names you'd recognize because of their fame or notoriety in sports, business, crime, etc.

All of the people listed above, George Washington, Douglas MacArthur, Marilyn Monroe, and the others—have more in common, however, than first suggests itself.

They are Social Security beneficiaries. Not only that, there's more than one of each receiving benefits right here in Texas. Every other state has its share, too, of little-known recipients with well-known names.

What's the point of telling you about them? It's simply to remind you of the importance of your Social Security number.

Whatever your name—famous, infamous, or obscure—someone else (maybe lots of somebody else) shares it with you.

But your Social Security number is something else again. Nobody else has the same number as yours. Even if thousands of others share your name, we'll never get your accounts mixed-up if you use your own Social Security number in all your dealings with us.

Make sure you have a Social Security card. If you lose it, get a replacement card (the number will be the same). Set that your will be the same). See that your rec't number.

If your number is used for any other purpose (on a savings account, for example), check its accuracy.

Doing these things will pay off for you and/or your dependents if you retire because of age or disability, or at the time of your death.

# 1980 ANNUAL REPORT

## Cap Rock Soil & Water Conservation District

**BOARD OF DIRECTORS:**

- Jack Sutton, Chairman
- Don Burson, Vice Chairman
- Murry Wayne Morrison, Secretary
- Jimmy Myers, Member
- Jarus Flowers, Member

**SOIL CONSERVATION SERVICE STAFF:**

- Bob Rauch, District Conservationist
- Eddie Northam, Range Conservationist
- Cletus Grady, Conservation Technician

The Cap Rock S.W.C.D. has responsibilities in a number of programs involving conservation. The directors worked on a plan to renovate the channel improvement in the Kent Creek Watershed Project. The district is one of the four sponsors of this project. They also are one of 14 sponsors of the North Rolling Plains Resource Conservation & Development Project. The City of Quitaque is a sponsor of the project. Congress approved this project this year after an eight-year delay. RC&D could be used in park improvement, city improvements, control of roadside erosion. The directors studied the alternative conservation programs offered in the Resource Conservation Act. They obtained 84 signatures on a petition prepared by the district. They felt that the present conservation programs are adequate if their appropriations were increased.

The district is a member of the Panhandle and the Texas Associations of Soil & Water Conservation Districts. Jack Sutton, Don Burson and Bob Rauch attended meetings of the Panhandle Association. The district directors helped develop the county programs of A.C.P. and G.P.C.P.

The Soil Conservation Service is assigned by U.S.D.A. to assist the Cap Rock S.W.C.D. In 1980 the S.C.S. staff performed 741 services on 315 farms or ranches. One hundred ninety-six of these did one or more new conservation practices. Eleven new conservation plans were completed covering 19,450 acres of agricultural land. Cletus Grady retired in August after 35 years of service. Cletus was a superior employee recognized as an authority on conservation.

The Cap Rock Conservation District plans to make high quality trees available to Briscoe County residents. The trees will be potted. They can be used for windbreak or landscaping. Contact the Soil Conservation Service if you would like to order trees.

The year 1980 was a big year for terracing. Almost 200,000 feet or 38 miles of terraces were put up on seven farms. Five of these farms had never been terraced before. Both standard and parallel terraces were used. Terraces can be designed for the use of 6-row equipment. Terraces not only reduce erosion but get water into the soil.

Max Ham planted a rye cover crop in his pecan orchard. These small trees are irrigated by a drip system.

Cover crops are planted on more farms every year. An estimate of 2,100 acres have been overseeded. Some farmers are drilling their turnrows to wheat or rye to protect the edge of the field. Prof Patrick used a mixture of vetch and rye for grazing. Scotty Stark overseeded forage sorghum with rye. This should be excellent pasture.

Sprinkler irrigation systems not used for several years were put back into use because of the devastating heat, drought, and the expectation of high cotton prices.

The S.C.S. checked out 11 sprinkler systems to see if they were working as they were designed. Four center pivot systems and seven side roll systems were evaluated. One center point system needed to have every nozzle replaced. The others did their job. The side roll systems were generally working well. One system was being moved too far. Two systems could be moved farther than they are being moved.

Next year the S.C.S. will have the equipment to evaluate row irrigation systems. Contact S.C.S. if you would like to have your system checked out.

This report is furnished courtesy of First National Bank of Quitaque.

Gladney Stubbs planted a 70-tree windbreak to protect his home on the county line east of Quitaque. He used potted red cedars grown by the Texas Forest Service in their greenhouse in Lubbock. Mr. Stubbs did not lose a tree in spite of the drought and heat.

**"I shall make electric light so cheap that only the rich will be able to burn candles"**

That's what Thomas Edison promised over 100 years ago. **And he did it!**

For the same amount of light produced by ten 100-watt bulbs during their average lifetime, you'd have to buy \$69,937.50 worth of 25 candles. (That's a conservative estimate supplied by a reputable bulb manufacturer.)

Yes, electric lighting has come a long way, since Edison invented the incandescent bulb. And through most of those years the price of electricity has gone down steadily. Even now, when inflation is forcing power companies to increase their rates, electricity is still America's best bargain.

## FmHA Adds Millions To Texas' Rural Financial Resources

Temple, Texas received \$837 million during fiscal year 1980 in loans and grants by the U. S. Department of Agriculture Farm-

ers Home Administration (FmHA) supporting farms, home improvement and community development in rural areas, FmHA State Director W. H. Pieratt reports.

The agency's farm loan services, which supplement private credit available in rural areas, added \$524 million to Texas' resources for operation of farms during a year of emergency and commercial credit shortage for many farmers.

FmHA home loan programs accounted for \$134 million to build or improve 3,847 homes in town and countryside areas.

Loans and supplementary grants to improve rural community water, sewer, health, fire protection and other public facilities totaled \$78 million for 164 projects throughout the state.

FmHA's service in guaranteeing commercial loans for business and industry that employ rural people accounted for \$101 million in the year ended September 30.

Pieratt said FmHA's improvement as a multi-purpose rural financial agency, serving rural localities through county and district offices, has resulted in \$14 billion more farm credit and community development in rural Texas during the past two years.

The state director emphasized that FmHA has been given a lead responsibility in the system introduced this year to coordinate the Federal Government's rural development assistance

with goals adopted in local and regional areas of the states.

"This action to implement the Rural Development Act has provided a clear channel of communication from localities, through their state development organizations, to highest levels of Washington for finding resources to meet the greatest needs of rural areas," Pieratt said. "We expect to further improve this system of cooperation during the coming year."

Remodeling an existing house is becoming more important to families as interest rates rise and money for new construction becomes scarce.

Different family need or increased family size makes remodeling a worthwhile consideration. Remodeling generally costs less than building a house of the same size. Fewer materials are needed since the remodeling may occur within the existing structure or may use existing walls, roof, etc. as part of the new addition. Remodeling generally does not involve the purchase of additional land.

Also, it may be more practical to improve the house whose mortgage is substantially paid off and whose market value has increased than to take on the increased cost of a new home.

After the decision to remodel has been made, the family should spend plenty of time in planning what will be done.

Consider how your family uses your home and make the improvements fit your life style. Plan for future changes by considering how the family needs may change later.

I have a home remodeling series of publications you can pick up free in my office to help you plan for remodeling. They are: "Remodel Rationally," "Evaluating the Structure of an Older Home," "Planning Remodeling Projects," and "A New Bathroom for Your Home."

I am available to help you plan housing changes. We also have information on selecting carpet, window treatments and other home furnishings. I will lend you books I have on remodeling various areas of the house.

Call the Extension Office, 823-2343, if I can assist you in any way.

Happy Birthdays was sung to Mrs. Vivian Merrell and Mrs. Leon McCracken.

The small group was due to much illness in the community, and also the strong, cold winds.

Mrs. R. J. Harmon showed the film of the Holy Land which she had acquired when she and her husband visited and made a tour of Israel.

The next meeting will be November 20, the third Thursday in November, to avoid a conflict with Thanksgiving which falls on November 27 this year. The group will go to the Baptist Encampment in Blanco Canyon near Floydada for the noon meal.

### Mother - Daughter Luau Held Recently

The Baptist Young Women enjoyed a Hawaiian Luau on Tuesday evening, October 21, with a good number in attendance.

The young women, under the direction of Mrs. Weldon Purcell, did an exquisite job of decorating.

Mrs. A. E. Gragson brought the call to prayer, with Mrs. R. J. Harmon leading the prayer for missionaries having birthdays that day.

Mrs. Purcell was master of ceremonies for the program, giving prizes for the most original leis. Several of the young ladies wore Hawaiian costumes.

Nine ladies from the Macedonia Church brought the special music, led by Mrs. Alta Green. Mrs. Mike Grebenik brought the message, "How the Women Can Survive in the '80's," reading scripture from Proverbs 31.

After the program, a delicious meal consisting of Hawaiian dishes was served.

Mr. and Mrs. Clifton Sharp of Dierks, Arkansas visited his aunts and uncle, Mrs. Naomi Gilbert, Mrs. Susie Hester and James Eudy over the weekend.

Mr. and Mrs. Buddy Morris drove to Matador Wednesday of last week where they helped Mrs. Morris' brother, Jewell Wiltcher, celebrate his 75th birthday anniversary in the home of Mr. and Mrs. Lloyd Fulkerson. ## TO THE VOTERS OF HALL COUNTY:

During my race for Sheriff this past Spring, I made a commitment to you to accept and comply with your requirements for being Hall County Sheriff. After you elected me in the Primary, Elmer Neel gave me the opportunity to serve as his deputy, and in this capacity, I have gained valuable experience, which should enable me to better serve you as sheriff. I have supported my employer, Hall County, by paying my taxes when they were due, and have made an attempt to get to know more of you during the past five months.

I want to again pledge my total energy and efforts toward law enforcement in the county. I want you to feel free to call me should the need arise and I assure you that I welcome any suggestions you might have which will make the Hall County Sheriff's Department a better one.

Your vote for me in the Primary was appreciated, and I ask that you again exercise your privilege of voting, and in doing so, hope that you will again vote for me on November 4.

Your support of me during this Write-In campaign by my two additional opponents will certainly be appreciated.

75% of the nation's wheat is grown on farms served by electric cooperatives. But rural electrification performs a myriad other services.

Rural electricity provides irrigation water to produce more nutritious foods. You'll find rural electric systems providing power for processing plants, poultry pickers, freezer plants, cotton gins, packing houses, compresses, grain elevators and feed lots, to name a few. The rural electric cooperative in helping to produce our daily bread provides enormous benefits to its members and to all America.

**THOUGHTS ON HALLOWEEN**

(Following are a few articles written by the Third Grade Class of Mrs. Roye (Mary) Pigg for Halloween. She wants to share them with you, the reading public.)

**AN OLD WITCH**  
 by Susie

Once upon a time there lived an old witch. She lived in a spooky house. She had a flying broom, and flew out of the window. The witch scared me and she laughed at me. And I ran home as fast as I could.

I told my mother and she said, "Nonsense!"

**HALLOWEEN NIGHT**  
 by Celeste

One year I went out by myself on Halloween. A bat and a goblin went by me and took me to the witches home. She had an ugly nose and an ugly child. She put me in brew and that was the end of me.

**WITCH LOST HER MAGIC**  
 by Isaac

Once upon a time there was a spooky witch that lived with a ghost and four goblins and their spooky neighbors were Frankenstein and Count Dracula. They lived by the graveyard.

A boy and a girl went to the door and said "Boo!" This made the witch fall in the pot and she got wet and her magic went away.

**WITCHES ARE CREEPING**  
 by Mike

Halloween: The witches are creeping while someone is sleeping. The bats are flying while someone is crying. The skeletons are hanging while someone is banging. The owls are staring when something is blaring. And that's how Halloween is.

**GHOSTS AND WITCHES FLY**  
 by Kyle

Ghosts and witches fly out from the moon, and it is Halloween ready to strike down on you. Goblins come down from the sky to scare you as Dracula sucks your blood at midnight. Skeletons hang from the door as Halloween strikes on you.

**HALLOWEEN**  
 by Gina

There once was a little witch. She lived down by the old park. It was so spooky the kids never could play there, so the little witch made it into a fun park. This time there was a house there. The trick or treating kids went there, but they never came back!

Halloween is coming!  
 BOO!

**What's The Difference?**

Ron Slover  
 Part of the Solution.  
 Not Part of the Problem.

"There is a difference between me and my Democratic opponent, Jack Hightower. Some of his voting record is listed below. I think it is important that you are able to see for yourself how he voted, and how I think differently."

- RON SLOVER

**INFLATION**

**HIGHTOWER:**

Voted for an accelerated food stamp program even to include those who have regular jobs. 8.75 Billion (HJR 826)

Voted to increase the public works job program from 2 Billion to 6 Billion. (HR 11)

Voted to extend H.E.W. to 84 Billion. (HR 7631)

Voted to expand H.U.D. to 34 Billion. (HR 7631)

Voted against a balanced budget. (HR 50)

**SLOVER:**

"I support a balanced budget to reduce government spending programs, not to increase them."

**FOREIGN POLICY**

**HIGHTOWER:**

Voted to allow U.S. funds to be loaned to Cuba and Viet Nam. (HR 5262)

**SLOVER:**

"I would not support sending funds to Cuba or to Viet Nam."

**EMPLOYMENT**

**HIGHTOWER:**

Voted for the Humphrey-Hawkins Bill. It means that the U.S. Government will guarantee employment to anyone who says he cannot get a job.

**SLOVER:**

"I will vigorously work to see that the Humphrey-Hawkins bill will never become a reality."

"Yes, there is a difference. My common sense, conservative approach is the one which more nearly reflects the feelings of the people of this district.

"Of course, we need to elect Ronald Reagan for President. Of equal importance is to elect a Congress to give Mr. Reagan support. Hightower will not support Reagan. I will. There is the difference.

"Vote Republican for a change."

**THE CHURCH FOR ALL . . .  
. . . ALL FOR THE CHURCH**  
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read you Bible daily.

Have you ever taken her measure?  
— from base to torch: 151' 1"  
— from heel to top of head: 111' 1"  
length of hand: 16' 5"  
index finger: 8' 0"  
finger nail: 13" x 10"

But these are the dimensions of a statue only. The dimensions of liberty are greater.

And one of these is faith in God!

The desire to worship faithfully and freely according to the dictates of one's own conscience inspired the birth of our Nation.

And to this day, every hymn, every prayer, every act of reverence and service and sacrifice which flows from our hearts toward God . . .

*Deep inside each person, where no one can see, stands a dream castle. The nature of it varies according to one's character and personality. An artist may dream of creating a masterpiece—yet yet painted—which will inspire many people. Another person may see a vision of how he can make life happier for others.*

*Everyone must believe in his dream in order to go forward with patience.*

*Jesus hoped that the world would hear His message through the uneducated fishermen He chose as His close companions. He did not give up His dream that the disciples would carry on His work... even when they argued over places of honor in heaven... or when Peter denied any connection with Him.*

*His dream came true. Showing courage and faith, this small group of twelve grew through centuries into today's worldwide congregation of millions.*

*You will find inspiration and help for your dreams of spiritual accomplishment when you attend the church of your choice.*
