Farley Catches "Big Fish"

Dennis Farley went fishing at Lake Theo in the Caprock Canyons State Park on April 5, 1995. While there it took him twenty minutes at least to land a 17 1/4 pound carp. (The fish was weighed on the scales at Allsup's Convenience Store.) His son Vance tried to reel in the fish but it was too heavy for him. However he did net the fish for his dad when Dennis reeled him in.

This was the largest fish Dennis has ever caught on a rod and reel. Dennis said "The rod and reel was the last one that Mother gave my dad."

Dennis said the bait he used was "dough bait."

Joining Dennis were his mother, Roberta, his wife, Lisa and sons, Vance, Randy and Mitchell.

(Tuesday as the paper was being prepared for printing, Dennis and his family came by the office to tell us that he had caught a larger fish—21 pounds and 4 ounces.)

New Officers Elected By We The Women

Jeanne Hull of Borger presented a very interesting program on "Martha Washington" to members of *We The Women* on April 13th.

Following a delicious salad buffet, prepared by Linda Stark, members were transported via slides to an era that most of them were glad to visit but would not want to live in the times portrayed.

A short business meeting was held and new officers were elected for the coming year. Arlene Hinkle is the new president/reporter; Linda Purcell is vice-president; Pearl Tapp, secretary; Ann Chadwick, treasurer and Johnnie Rogers is decorations chairman.

The next meeting will be held on May 11.

Briscoe County 4-H Roundup

Monday, April 24th will be a busy evening for many Briscoe County 4-H families. They will be involved in the County 4-H Roundup, Fashion Show and Volunteer Dinner.

The evening will begin with the Fashion Show judging at 5 p.m. at the Extension Office. At 6 p.m. 4-Hers will begin presenting method demonstrations at the show barn. A hot dog supper will be served to all at 7:15 p.m., followed by the Fashion Show and Roundup Awards Program, which will begin at 7:45 p.m.

Briscoe County Extension Volunteers will be honored during the awards program in recognition of National Volunteers Week. All interested persons are welcome to attend the event. However, we ask that you RSVP to the Extension Office at 823-2131, ext. 12, by April 21st, if you plan on attending.

Don't miss this opportunity to see what is going on in the Briscoe County Extension Program!

Bob Wills Update

by Ann Coker

There is a lot of activity up at the Bob Wills Center this week. Last Saturday evening one RV had parked at the football field. On Sunday and Monday, three more RVs had come in. At last count there were four there.

Lots of vehicles at the High School as the Bob Wills volunteers have gathered to start cleaning up the building and making the necessary repairs.

Over at the elementary building, it appeared that some new window units were being installed for better air conditioning.

President Pat Carson states that he has had very good response on the queen and princess contest. He has been quite pleased with the interest this has created. The winner in each division will be rewarded with a savings bond.

Entries to the parade are continuing to come in. The parade, we think will be quite good.

The muleskinners have been back to fence off a place for their RVs. They are quite excited about coming and catering the Saturday Barbecue.

President Carson also reported that the sponsorship for the museum is going quite well. He has received commitments for donations from Jack Morris Ford in Plainview and the 50 Yard Line Restaurant in Lubbock.

To enter the Old Fiddler's Contest, contact Rex Fuston. To enter the parade, call Pat Carson. To exhibit your arts or crafts, call Mrs. Brian Wheeler. If you want to volunteer to work, call any of the above!

Fire Takes

Toll of CRP

Monday morning at about 12:24 a.m. a call was received by Deputy Sheriff Jerry Beck that a concerned citizen could see a blazing fire to the south east of Quitaque.

Deputy Beck checked it out and alerted the Quitaque Volunteer Fire Department. They were joined by the Turkey Volunteer Fire Department and the Silverton Volunteer Fire Department to help control the blaze. The three combined departments fought the blaze until 4 a.m. Monday morning.

The fire was located on the Jack Case place. About 60 acres was consumed by the fire.

Once again we must remember to be cautious about where we throw out matches or cigarettes. This one careless act of tossing a match out a car window could cost someone their home or life. Our firefighters lost a night's sleep because of this fire so let's remember to use caution when using fire.

Hall County To Hold Pesticide Training

by Brad Schnitker

A private applicator's training and testing will be held on April 27, 1995 at the Memphis Community Building. The training will start at 1 p.m. and will last approximately three hours. Testing for the license will follow the training.

Lavon Harmon, T.D.A. field inspector will be on hand to do the training and the testing. Please bring your own calculators if you will need one for the exam.

If you fall into one of the following categories it would be a good idea to come to the training and take the test: 1. Those who do not have any type of Private Applicators Certificate or License and will be applying restricted use pesticides sometime in the future. 2. Those producers who will be supervising employees in the application of restricted use pesticides and have not obtained this license after December 31, 1989. 3. Any producer who received a license between January 10—December 31, 1989 must take the private applicators training course, pass the TDA private applicator exam, and apply for a new license as this license will no longer be effective as of December 31, 1994. 4. Old Grandfather certificates that were issued before 1989 will remain in effect as long as you receive 15 CEU's before December 31, 1995 and as long as you do not supervise employees.

THEN and NOW!

by Eunice McFall

What do you value? Are some things of more value to you than others? Why do you value those things? What you value today, will you also value tomorrow? Do you value the same things today as you did yesterday?

Value is defined as "something of worth" or "quality of a thing that makes it more or less desirable." If we identify what we value in our world we will probably know a bit more about ourselves.

Usually when we think of value we think of the cost of something, how much we paid for it, how many hours we put in on making it or we think that because someone else values something that it should be worth a lot to us, even if we would never put the item to use!

Value can mean other things besides monetary value though. We value the life of our children, the love of our friends, the freedom that we enjoy, the choice of making our own decisions, and the right to worship where we please. All of this has no monetary value at all but it is at the heart of the life that we lead in the United States. Unless we continue to value those "things" we will soon find that we have nothing left to value.

This is one of the reasons that we must all get out to vote for the upcoming election. VALUE! We do value the right to choose who will make the decisions for our schools and towns but we are also rather slack when it comes to making the effort to get out and vote if there does not seem to be much to vote on--WRONG. Even if it is only one race for an office we should be at the polls stating our opinion as soon as we can. Only by doing this can we continue to be a FREE nation.

The love of our friends--if we fail to treat our friends with the respect due them, the first thing we know our feet are set on different paths and the joy we felt in our friendship is a thing of the past. Value those lovely days of friendship. Work at it to keep the value up!

If we do not support the churches in our towns, the first thing we know they have to close their doors and the quality of life as around the quality of life goes rapidly downhill.

So it would seem that the things that we value will make our life what we want it to be but it is a never ending process. Each day we must choose once again what we value in our lives. Be careful and choose wisely so that you will have the quality of life that you value most!

Make your plans now to come out and join this progressive organization who has the growth and good health of Quitaque uppermost in all decisions made by the organization.

Valley Peanut Growers Add New Addition

by Ann Coker

There is a new addition to one of the buildings at the Valley Peanut Growers Association. The managers, Homer and Claudia Hawkins, have recently had a new shed added on to the east side of the Seed House.

The huge shed is to be a storage place for the fertilizer sprayers and other equipment. This will enable them to keep their equipment out of the weather.

This was a much needed addition and the Hawkins are glad to finally get it constructed.

Baptist Easter Egg Hunt Deemed a Fun Time

The Easter Egg Hunt, sponsored by the Turkey Baptist Church, went far beyond the expectations of the sponsors. They had many, many little Easter egg hunters on Saturday, April 15.

They were quite pleased with the good representation from Quitaque.

The sponsors were very appreciative of the adults and older children who worked hiding the eggs and staying at the church to prepare the refreshments.

A bigger and better egg hunt is already being planned for next year.

"Mr. Yuk" is a widely used warning symbol that can be used to teach children to stay away from household medicines.

 Everything we do has a result. But that which is right and prudent does not always lead to good, nor the contrary to what is bad; frequently the reverse takes place.

Mother's Day Ideas For High-Tech Moms

(NAPS)—Gift givers searching for that special gift for busy mothers on the go are getting a wake up call from the new alphanumeric pagers now in the stores. Motorola's Memo Express combines compact size, sophisticated technology and ease of use in a value-priced package.

The pager, which can be used by busy mothers to keep in touch with their families, can receive and display full text and number messages of up to 120 characters. This means complete messages can be given to Mom—eliminating the need for her to call back to get the message and giving her the freedom to go virtually anywhere without the fear of being out of touch.

Mom can have the security of knowing that she can receive urgent messages no matter where she is. A working mother can be notified by the school if there is an emergency. Or elderly relatives can stay in touch. Or a babysitter can communicate with parents, even if they're at a movie—the pager's silent vibration alert won't disturb others.

An ideal gift, Memo Express will ease Mom's hectic schedule and give her peace of mind.

The History Of Stockings

Then: As early as the 400s B.C. people in ancient Greece wore sock-like foot coverings for warmth. Most were made of woven cloth until the 1500s when the wealthy wore hose produced by professional hand knitters. In 1589, the stocking knitting machine was invented.

Now: Today, women of all ages who spend too much time on their feet have the opportunity to wear support hose that not only feel good, but look good. The philosophy behind Becton Dickinson Consumer Products' introduction of Bauer & Black Precision Support Hosiery products is to meet the demand by consumers seeking self-care and therapeutic products to improve their health and well-being.

German Tourists leaving tour bus at Hotel Turkey

German Tourists Visit in Turkey

Forty-five visitors from Germany arrived at Hotel Turkey last Friday afternoon, on a tour bus.

These German citizens had been reading about cowboys, Indians and Texas most of their lives, and the literary group was quite thrilled with the reception in Turkey.

They were welcomed by a sign at the front door, in German - WILKOMMEN (welcome). KARL MAY GESELLSCHAFT WINNE TOUR.

While at the hotel they especially enjoyed seeing the two tipis erected west of the hotel. The newly opened gift shop, with its display of Don Turner's art work and Indian jewelry, baskets and gifts representing Texas, was a favorite spot for the guests.

Robyn and Terry Boedecker presented a video of the roundup on their ranch last spring, and guests enjoyed a luncheon served on the back patio of the hotel.

Assisting the Johnsons in welcoming the group and serving the lunch were the Boedeckers and sons Luke and Will, all dressed in cowboy working clothes, boots, spurs, and chaps. Others assisting were Marjorie Bell, Mary Jo Barnhill, Don Turner, and Jason Johnson.

Their first stop had been at Crosbyton's reenactment of the Battle of Blanco Canyon - the cavalry attack led by Colonel Mackenzie against Quanaah Parker's Quahadi Indians.

The group was met by the 4th Cavalry who warned the visitors it was dangerous to enter Blanco Canyon.

Amarillo VA Director Sends Open Letter To Area Vets

courtesy Memphis Democrat
The Veterans Affairs Director of Amarillo, Y. C. Parris, sent an open letter to area veterans this week and requested his letter receive prominent display in news media because of its importance.

VA Director Parris said, "We would like to take this opportunity to thank all of the Memphis area veterans for your support of the Veterans Community Primary Care Clinic located at the Hall County Rural Health Clinic. The overwhelming success of this pilot program is the direct result of your encouragement, patience and support."

"As most of you are aware, our agreement with the Hall County Hospital District allowing veterans to receive primary care services in their local community was the first such agreement in the United States. The Amarillo VA Medical Center is proud of the fact that this agreement not only benefits the veterans, but also, provides the financial assistance necessary to support the Hospital District in a time when many rural health clinics are struggling to survive.

yon because of the Indian Problem. They were then escorted into the canyon by the cavalry with flags flying. At the site of the battle, the reenactment was performed.

After leaving Turkey, they were to go to Palo Duro Canyon for a cowboy supper.

The tour was organized by Dr. Meredith McCaslin, a professor of German at Texas Tech.

- TURKEY NEWS

by Ann Coker
Daniel and Jackie Jenkins and daughters enjoyed spending the Easter holidays in Higgins. They visited in the home of Daniel's parents.

Sherrod and Nelda Arnold, their daughter, Kelly and husband and their daughter, Brook were all guests of Sherrod's mother, Dot Arnold, over the week-end.

Making a quick trip to Turkey from Greeley, Colorado were Keith and Jan Lane. They arrived on Saturday morning and returned home on Sunday morning. They visited in the home of their parents, Tink and Estelle Lane and Betty and Squint House. Also visiting with the Lanes and Houses were Jeffrey Lane and wife of Desota. Jeffrey is the son of Keith and Jan.

We drove to Memphis to eat Easter dinner at the Line Shack last Sunday and also enjoyed visiting with Barry, Raynell Lane and their three children. The Lanes were visiting with Raynell's parents and they all showed up at the Line Shack for dinner, too. The Lanes live in Booker.

Driving down from Lubbock recently was Jay Stone to visit in the home of his parents, the Leroy Stones. Jay told them he and his wife were going to enjoy a seven day cruise this summer with their Sunday School class.

We finally did get a little rain last Monday. About three tenths was reported in town but Curtis Scrivner said they received about one inch in the Weatherly Community.

Visitors with Lee, Sue and Emily Hall during the Easter holidays were Les' parents, the Edward Halls of Fort Stockton. Cheryl Worley, Sue's sister, was also a visitor in the Hall home.

Patsy Tinney flew to Oregon earlier this week to be at the bedside of her mother, Edna Webb. Mrs. Webb is quite ill in a hospital there.

The Gene Fuston house was a busy place over the holidays. Their son Kyle and his family were there, daughter Kacey from Tech and Mrs. Jeff Fuston and children were all present. All their children and grandchildren were present except Jeff. They thoroughly enjoyed their visitors.

Kim had entered the contest at the Line Shack Restaurant in Memphis. The drawing was held one day last week. Upon hearing she was the winner of the Las Vegas trip, she passed a hat in the restaurant for donations for her to gamble with! She received no gambling money! Her brother, Danny Stewart was heard stating that he thought it should be a sister, brother trip instead of a wife and husband trip. No such luck Danny! Kim is the daughter of Janice Russell of Turkey.

Mobil Museum from Panhandle Heritage Museum at Turkey

A Texas Experience

by Ann Coker

The Texas History on wheels arrived at Hotel Turkey on Tuesday, April 18. The Mobile Museum is from the Panhandle Plains Museum at Canyon.

There were so many interesting things to see and touch. This is one museum that is for "Hands On", especially for young people.

Across one wall was a Time Line or a Wall of History starting with the Indians and the six flags that flew over Texas with a brief history for each flag. The flags represent: Spain, France, Mexico, The Republic of Texas, United States and the Confederate.

Other displays for "Hands On" exhibit was the chuck wagon next to the campfire. The cook's utensils were all hand made from metal. The chuck wagon was supplied with canned peaches and salt pork. A saddle and bedroll were under the chuck wagon. There was a grocery list made in 1878 for the cook to buy for the chuck wagon. Some of the things listed were a "Bari" of whiskey, a "barl" of flour, coffee, potatoes and other things that we really didn't know what they were.

Other exhibits were a map of cattle trails through Texas, the Goodnight-Loving, Western, Chisholm and the Sedalia Trails.

A display of the crops grown in Texas and also the industries of Texas were exhibited on one wall.

The tour ended with a beautiful Texas video showing all sections of Texas.

It was a shame that none of the Valley students were able to see it. They would have learned more on this tour than several days or weeks in a classroom. The Mobile Museum only visits a few towns in the Texas Panhandle and Turkey was one of the few.

When I toured the museum, Delbert Trew was my guide. Mr. Trew is the curator of the McLean Bar Wire and Route 66 Museum.

This museum was planned for students 4th through 7th grade and was correlated with their Texas history text books.

TAFCE Club Co-Hosts Meeting

The Turkey TAFCE Club co-hosted with Hardeman and Childress counties the district meeting in Childress on Wednesday. The group enjoyed three workshops. One which was given by Kristi Morgan on "Wellness For Women." Jane Johnson was the key-note speaker for the afternoon session general assembly.

Approximately 179 people attended. Those from Turkey besides the two mentioned above were: Marjorie Bell, Vernell Cotten, Mary Beth Adamson, Edna Earl Blakney, Lillian Mullin, Oleta Randell, Mary Tripp, Ying Lyles, Betty Driskill, Maurice Fuston, Leota Johnson and Iona Lane.

The meeting was enjoyed by all. The Turkey Club will be having a bake sale Saturday, April 22, 1995 on Main Street in front of the old Gem Theatre. This would be a good time for everyone to come by and buy some goodies for Bob Wills Day.

When Life Gets Frazzled, Here's The Place To Go

(NAPS)—Hospitals used to have signs near them that said "Quiet Zone"—perhaps some still do. They were to remind motorists not to blow horns or race engines because people inside were trying to heal.

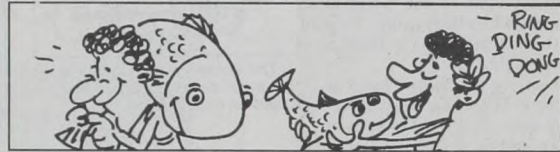

In today's noisy world, with everything and everyone seeming to clamor for attention, you can create your own "Quiet Zone." In this special place, you can go away from the blaring of the television or radio, from the ringing of telephones and the chirruping of computers.

You can create this place any time, anywhere. In this place you can find inspiration, creativity, peace, refreshment. All you need do is shut the doors to your senses and still your thoughts for a moment.

The most efficient machines run quietly. Electricity, that force which powers our great cities and industrial plants, works in complete silence. Imagine, then, the effect on your life when you experience this silence regularly.

For guidance on creating the silence, call Unity School of Christianity at 1-800-669-0282. Ask for a free booklet called "Silence, Your Key to the Secret Place."

In ancient Greece, the ringing of bells announced that freshly caught fish had arrived at the market.

Cousins of Vinita and Guss Hrcncir visiting them this past week from Wednesday 'till Friday were Norma and Gary Brown of Ardmore, Oklahoma and Charlotte Crum of Gainsville, Texas.

Easter weekend guests in the home of Vinita and Gus Hrcncir were Paula, Jana and Cecil Pond of Jacksonville, Texas; Melma, Chandler, Joy and Bill Lacy; Karin and Brent Lacy and Nita, Charly, Justin and Clay Gibson all of Amarillo.

They attended church at the Quitaque Church of Christ, hunted Easter eggs and had dinner at the Quitaque Quail Lodge.

LaVern Benton attended the Watson family reunion at Villa Inn in Lubbock over the weekend. The ten Watson children were from Killeen, Texas; Ft. Worth; Pampa; Plainview; Las Vegas, Nevada; Abilene; Amarillo and Odessa, Texas. Byrel Lacklen from Claude attended.

Seventy-seven attended the reunion and 50th birthday party for LaVern's namesake, Donna LaVerne. Each of the ten children related a story about their childhood. A very interesting time was had by one and all.

Ethylene McCay of Amarillo visited in the home of J. J. McCay for the Easter Holiday. She arrived on Friday and remained until Tuesday.

Visiting in the home of Estelle Davidson Easter Sunday were Stewart and Lavada McCracken, Tullia; Fred Davidson and Murell Shackelford, Amarillo and local residents, Floye McCracken and Jimmy and Clara Ruth Davidson.

Eunice McFall accompanied her father, Roy Shepperd of Matador to Lamesa Saturday. Roy attended the school reunion for the OK School in Dawson County. He started to school there 81 years ago in September.

Roy received a plaque for being the oldest former student who attended Saturday. Eunice enjoyed visiting with her aunt and family, Mollie and Calvin Phillips and Murel Nickel during the day. On the way home they visited in the home of Roy's sister, Lylia Knight of Tahoka.

Odus and Jessie Reagan had most of their family present for the Easter Holiday. Some arrived on Saturday and the rest came on Sunday. The grandchildren brought some friends with them so a good time

visiting, eating, hiding (and finding) Easter eggs and taking pictures was had by all.

Those visiting were Rick and Elaine Boggs, Plainview; Stan & Elois Price, Crystal, Chris, Chastity, Trey, Micheal Lane, David Valdez and a friend of his from Amarillo, John David Harmon, Betty Marrow and sons, Brandon and Dustin, Eddie and Dawn Galvan, Courtney, all of Quitaque and Danny and Eva Jouett, Tiffany, Danny and Destinie, Childress. The head count for lunch was 25.

Tiffany, Danny and Destinie remained for a longer visit with their grandparents, the Odus Reagans. They met their mother Tuesday to be able to return to school at Childress Wednesday morning.

Recently, Odus and Jessie and her sister and brother-in-law, Mary and Leon Turner of Childress took a trip to Comanche, Texas for a week of camping. Jessie reported that it was beautiful country, blue bonnets and other wild flowers covered the land and everything was very, very green. They were complaining of too much rain in that area. So much that they could not get their gardens planted. While they were at Comanche, it rained from 5 to 8 inches. Jessie said they really enjoyed the trip and that it was nice to know that it can still RAIN a lot.

Hidden Taxes

(NAPS)—Where can you find hidden taxes in America? Under bridges. Lying on the road. Lurking in airports and seeping out of sewers. These hidden taxes take the form of higher personal costs, lost productivity, high costs to communities and a lower quality of life, all created by bad infrastructure.

The American Society of Civil Engineers calls this "taxes that keep on taxing." Bad roads, the engineers say, cost each driver over \$100 a year in wasted fuel, added tire wear and extra repairs. Gridlock costs taxpayers nearly \$40 billion annually. Every third bridge needs major repairs.
