Texas Press Association
AUSTIN, Tex. — Gov. Preston Smith's decision to run for a third term drew sharp new attention to an increasingly-crowded and complex 1972 political scene.

Smith said he would seek vindication in stock-loan scandals. He plans to tell "over and over" that he killed (by veto) the bank deposit legislation urged by Houston banker Frank Sharp which the Legislature passed in 1969.

Meanwhile, former U. S. Senator Ralph Yarborough said odds are now 10-to-one he will be a candidate—either for governor or the senate—next year. But he declined to indicate which race is most likely to attract him.

State Sen. Wayne Connally, youngest brother of U. S. Secretary of Treasury (and former Governor) John B. Connally, jumped into the lieutenant governor's race. Connally is a conservative Democrat.

Harold (Barefoot) Sanders of Dallas reportedly is getting set to run for the U. S. Senate as a Democrat.

Sen. Joe Christie of El Paso indicated he will reveal at a dinner in his home town December 7 whether he will enter the lieutenant governor's race or stand for reelection.

Republicans, calling for a "top to bottom cleanup" in state government, began recruiting preliminaries, concentrating on the governor's race. (They already have a U. S. Senate candidate, incumbent John Tower).

The Republicans, in an informal statewide poll of gubernatorial preferences, came up with S. Ross Perot, wealthy Dallas businessman, who is a political independent, as their favorite.

Lt. Gov. Ben Barnes and Dolph Briscoe, Uvalde rancher - banker, continued full-fledged campaigns for governor. Sen. Ralph Hall of Rockwall and Houston newspaper executive William P. Hobby, jr. have been in the lieutenant governor's race for months.

COURTS SPEAK

Texas Court of Criminal Appeals upheld a new law which allows those accused of crimes to waive rights to a grand jury indictment before trial in cases where the death penalty is not applicable.

In other recent cases the Court of Criminal Appeals held:

*That photographs of a bloody death scene are not automatically prohibited from consideration in murder trials.

*That a court is not to look beyond a bill as passed by the legislature to consider if the act creating a new trial court was duly submitted to a special legislative session by the governor.

COURT COST "SURTAX" PROFITABLE

Some 716 cities and the 254 counties collected \$335,348.70 during September from a new "surtax" on court costs earmarked for improving criminal justice.

Comptroller Robert S. Calvert reported on first collections under the law. Money will meet state and local matching fund needs for federal grants under the Omnibus Crime Control Act.

The new law provides an additional court cost assessment of \$2.50 for a misdemeanor case conviction in a court where jurisdiction is limited to a \$200 maximum fine and specifically includes traffic violations. It also directs a \$5 additional charge on other misdemeanor convictions and \$10 for felony convictions, to be collected as other fines or costs in cases.

AUTO LICENSE OBJECTION WITHDRAWN

A new Texas Motor Vehicle Commission member withdrew his protest to licensing of a competitive auto dealer in Corpus Christi.

Jack McKenzie pulled down his objection to TMVC's granting a regular license to Barton-Grubbs Volkswagen, which began operations in Corpus Christi three months ago. McKenzie, who operates a VW dealership, said he remains convinced he proved that a competitor in the city was not needed for several years. But he conceded, "reasonable men may differ on the facts presented . . ."

December 1 was the deadline set by the new Motor Vehicle Commission act for new car dealers, distributors, manufacturers and factory representatives to get required state licenses. McKenzie said the hearing before the Commission November 4 was "vital" and served a purpose in "forcing the factory to justify its actions."

HOSPITAL PLAN AVAILABLE

A draft of the 1972 Texas state plan for construction and modernization of hospitals and related medical facilities is available for public review at the State Health Department here.

The plan is the basic document on which the State Board of Health will make recommendations for federal Hill - Burton grants and subsidized loans.

Fifty applicants are requesting \$44.5 million in Hill-Burton grant

funds and \$58.5 million in mortgage insurance. The requests are aimed at providing financing for construction in excess of \$215 million. Hill-Burton provides both grant and loan programs to build and modernize general hospitals and long-term-care facilities, outpatient centers, tuberculosis hospitals and public health centers.

The Texas plan also contains a complete inventory of most health facilities in the state, a delineation of 134 service areas, determination of area needs and priorities and methods of administration.

BOLLWORM WARNING ISSUED

Unless the pink bollworm is controlled within the next few weeks, heavy losses, if not complete ruin, can be expected for the cotton crop in North and North Central Texas, the state agriculture department warns.

Commissioner John C. White said farmers must take immediate steps to destroy cotton stalks and plow under debris as quickly as rains will permit. End of November was the plowup date for more than 40 counties in the North-North Central area.

VETS PROTEST NEW SCHOOL

Creation of a new veterinary medical school at Texas Tech in Lubbock will contribute to an oversupply of veterinarians in the state, Texas Veterinary Medical Association stattd.

TVMA said the money could be spent better in aiding medical professions which have a shortage of doctors. Vets educated in Texas are already having to go out of state to get jobs, the association argued.

SHORT SNORTS

A Democratic fund-raising reception here December 6 will cost \$1,000 per—to hob-nob with Sen. Hubert Humphrey and Congressman Wilbur Mills. A \$25-a-plate dinner follows.

State Republican leaders demanded removal of Secretary of State Bob Bullock. Bullock said he intends to stay.

Texas Board of Mental Health and Mental Retardation delayed site selection for a new school for the mentally-retarded in the Dallas-Fort Worth area. Fort Worth, Hillsboro, Cleburne, Waxahachie, Ensi and Mineral Wells offered locations.

Texas Water Quality Board and U. S. Environmental Protection Agency announced agreement on a program to settle differences over water quality management in Clear Lake.

A new attorney general's opinion says court clerks must record defendant's birth dates, drivers license numbers where "reasonably available" in abstracts of judgment and so note where data is

Elm Tree Inn Is Historic Landmark In Tulia Area

The Elm Tree Inn has been designated as a historical landmark by the Texas Historical Society. The history of the Inn has been preserved in its furnishings and hospitality. It was first opened in 1906 as the Tulia Hotel and was a meeting place for cattle buyers, cowboys and travelers of the Panhandle region. The Inn has changed owners several times and has had both good and bad days, but residents of Tulia can't imagine what it would be like not to have the Inn.

About 10 years ago, the L. Dean Butlers of Tulia completely restored and redecorated the Inn at a cost of \$200,000. It is furnished throughout with valuable antiques, and the decor is reminiscent of the turn of the century days when the Inn was first built. A guest takes a step into the past when he enters the crystal chandeliered, red carpeted Inn. The register desk was once a saloon bar, and other decorative furnishings include Tiffany lamps, flocked floral wall paper, an ornately carved buffet, brass spittoons, antique velvet chairs, brass beds, and water closets.

The two-story hotel can accommodate 40 guests. Reservations may be made for daily, weekly or monthly guests, with prices ranging from \$6 to \$14 per day, depending on the room.

The first floor dining room is decorated with a huge Tiffany lamp, stained glass divider, and fancy red tables. Meals are served at the Inn from 6:00 a.m. until 10:00 p.m. every day except Wednesday. All the meals are served homestyle, with charbroiled steak being a specialty of the house. Guests are invited to come as they are, and children are welcome. The management also gives tours of the Inn so that guests may view the full charm of yesterday.

You can't live on love forever.

Okay, you're young. You've got all the love in the world and you're doing your best to live on it. Retirement? That's for when you're old, right?

It's for when you're old if you can afford it.

The kind of retirement you're after isn't the typical rocking-away-on-the-front-porch variety. You probably picture yourself taking extended vacations, pursuing hobbies, or buying that forty acres and living off the land. Pipe dreams? Not if you prepare now.

There's an easy, painless way to make your retirement dreams a reality. Join the Payroll Savings Plan where you work. That way, an amount you specify will be set aside from each paycheck and used to buy U.S. Savings Bonds. It's an easy way to save.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Now is the time to start saving. Money's a nice thing to have while you're living on love forever.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.

CELEBRATION

A fragrant pine wreath festooned with a big red bow encircles the door knocker, a symbol of hospitality. Inside, the tree blazes with rainbow lights, and there is a tiny creche on the mantel. You light the red candles on the table and serve coffee and sandwiches and cake. The atmosphere is rich with warmth and friendliness.

This is Christ's birthday and we are celebrating, and, in a magical way, it seems to instill in all of us a special feeling of friendship and love for our fellowman. What a wonderful thing it would be if we could keep this Christmas spirit in our hearts all year long!

To do so would be perfection—and that is something none of us can quite attain. But through the Church we CAN keep faith and truth within us from one Christmas to the next. Try it, and see.

The Third Southwest Pork Symposium is scheduled for December 6 at Canyon, and will feature carcass evaluation of swine, plus talks on health, nutrition and economic aspects of swine production.

LENDA FAY CRABB

To Marry Soon

Mr. and Mrs. Lenard Crabb of Silverton announce the engagement and approaching marriage of their daughter, Lenda Fay, to Oliver Clark, jr., son of Mr. and Mrs. Oliver Clark of Quitaque. The couple will exchange wedding vows December 29 at 3:30 p.m. in the First Baptist Church in Silverton.

Guests in the Jimmy Pointer home for Thanksgiving were Mr. and Mrs. Jimmy Wayne Pointer and Randy, Mr. and Mrs. Johnny Pointer, all of Lubbock, and Elmore Pointer. Mrs. Elmore Pointer was ill and unable to enjoy the Thanksgiving dinner.

The Jimmy Pointers visited her parents, the Earl Taylors, in Turkey, and Mr. and Mrs. Johnny Pointer visited her father, Harold Ham, in Turkey also.

Mr. and Mrs. Mack Truelock spent Thanksgiving Day with their daughter, Wanda Stephens, in Hereford.

Mr. and Mrs. Monte Stephens of Canyon spent from Friday until Sunday with his grandparents, Mr. and Mrs. Mack Truelock.

Mr. and Mrs. Smith Rees and Will left Wednesday to spend the Thanksgiving holidays down state. They stopped in Abilene and spent the night with a sister, Mr. and Mrs. R. M. Parsley. They drove to Mount Pleasant for Thanksgiving with her parents, Mr. and Mrs. Edgar Lunsford. They attended the funeral services of his cousin, Mrs. D. N. Lewis, at Daingerfield Friday. They returned home Sunday.

The meeting is being sponsored by the Texas Agricultural Extension Service and the School of Agriculture at West Texas State University.

Registration begins at 8:00 a.m. with on-foot evaluation of carcass pigs at 8:30. The judges will include Leland Tribble, professor at Texas Tech University, Larry Tackitt, swine producer from Happy, and John McNeill, head of the animal science department at West Texas State University.

The morning session will be chaired by Dr. Charles Smallwood, head of the School of Agriculture, and the welcome will be given by Dr. James P. Cornette, president of the university. Dr. Gilbert Hollis, Extension area swine specialist at Lubbock, will review the West Texas pork situation. Tribble will tell of current research studies in the region.

Breeding management and problems will be discussed by swine producers Elmer McLaughlin of Pampa and Harold Ham of Dumas. East Texas feeder pig sales and management will be handled by Dr. Randall Grooms, Extension area livestock specialist from Overton. Dr. Steve Nicholson, Extension veterinarian from Louisiana will tell about disease problems associated with pig feeding.

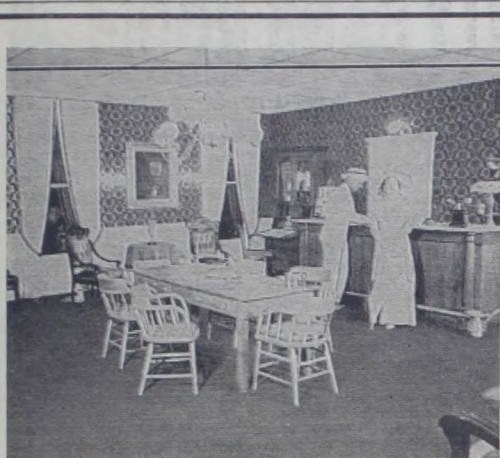

The afternoon session will be chaired by Kenneth Wendland, head of the West Texas State University agricultural economics department, and continue with a discussion by Dr. Nicholson on preventing arthritis and lameness in swine. Compliance with federal regulations on feed additives will be the topic of Dr. Thomas Snodgrass, regional veterinarian for the Food and Drug Administration from Dallas.

Meeting federal environmental standards for swine production will be discussed by James Murphy, Extension agricultural engineer from Kansas. J. D. Lane, vice-president of the pork program for the National Livestock and Meat Board, will tell about pork merchandising and promotion. Hedging on the futures market is the topic from Neal Scott, commodities broker from Amarillo.

A discussion of the pork carcasses from the pigs evaluated that morning will conclude the program with adjournment scheduled at 4:30 p.m.

Mr. and Mrs. James Starkey and son of Plainview visited his mother, Mrs. Grady Starkey, during the holidays.

Mr. and Mrs. Dick Taylor spent Thanksgiving with their daughter and family, Mr. and Mrs. Dan Duncan and children, in Panhandle.

THE LAND

THE LAND is one of man's most valuable assets - we think it is prime collateral. In the past 54 years the Federal Land Bank of Houston has made almost 200,000 loans on Texas farms and ranches.

In other words, we specialize in making farm and ranch real estate loans - long term loans with prepayment privileges. See us today for full details, no obligation of course.

Lieutenant Governor Ben Barnes and George Cates, Texas division manager of the National Federation of Independent Businessmen, are shown going over the responses to a survey of Legislative and economic issues affecting independent businessmen in Texas. A total of 1,075 responses were received.

First Returns In From Survey Of Legislative, Economic Issues

Lt. Governor Ben Barnes has received the first returns of a one-year continuous survey of legislative and economic issues affecting independent businessmen in Texas.

George Cates, Texas division manager of the National Federation of Independent Businessmen, presented to Lt. Governor Barnes the 1,075 responses of the survey containing questions ranging from "hot check" law reform to pari-mutuel betting in Texas.

Cates commended Lt. Governor Barnes on his cooperation with the NFIB in working to determine and solve the needs of independent businessmen throughout the state.

Barnes stated, "Independent businessmen make up 60% of Texas' economy in terms of number of employees, retail and wholesale sales and the results of this poll are invaluable in showing their needs to us in Austin."

"I encourage every State Representative and Senator to come by my office and examine the findings."

Welfare problems emerged as the number one concern among those mailing back the forms. An overwhelming 95% replied "yes" to the question: "Do you favor requiring all able-bodied persons who receive welfare payments to perform some work for the state in exchange?"

Eighty-eight percent favored paying no unemployment compensation or welfare benefits to workers while out on strike.

Paralleling the concern with welfare problems were the responses connected with what form a future tax raise should take.

When asked what tax would be the least objectionable, 36% favored an increase on selective tax items such as alcoholic beverages, tobacco products, amusements, etc. Twenty-nine percent okayed ap-

News From The Extension Service

by Jackie Johnson
Briscoe County
Agricultural Agent

Fall applications of fertilizers for next year's crop has advantages over waiting until spring. Anhydrous ammonia and other nitrogen carriers can be applied anytime after the soil temperature falls below 50° Fahrenheit with little worry about nitrogen loss through leaching.

This is because of a drastic slowdown in soil microbial activity that is necessary for changing the immobile ammonium ion to the highly-mobile nitrate form of nitrogen. This slowdown begins at 50° and the action stops entirely at about the freezing point.

Most irrigated grain sorghum fields have soil moisture conditions that are favorable for ammonia application right after harvest. This means that less power is

required and that retention of the material is not a problem.

Another distinct advantage of fall application is the availability of equipment and better weather conditions. The fertilizer often costs less in the fall. Also, less soil moisture is lost if the applications are made right after harvest rather than waiting until the next spring.

Phosphorus can also be applied in the fall. The main point to remember with phosphate is that it should be incorporated into the soil before planting.

The Extension Service's Soil Testing Laboratory in Lubbock offers West Texas producers a complete soil testing program. In addition to the routine analyses for soil reaction and the major elements, tests are also made for salt, sodium and the micronutrients.

SEVEN ACCIDENTS REPORTED IN OCTOBER

The Texas Highway Patrol investigated seven accidents on rural highways in Briscoe County during the month of October, according to Sergeant Vernon Cawthon, Highway Patrol Supervisor of this area.

These crashes resulted in two persons injured and no one killed.

The rural traffic accident summary for this county during the first ten months of 1971 shows a total of 32 accidents resulting in one person killed and 20 persons injured.

The weather double-crossed the hunters—first by being too dry in early spring to allow good hatches of birds, then by bringing heavy summer rains to trigger rank vegetation.

Texas Parks and Wildlife Department officials across the state rate the quail populations from "about average" all the way down the scale to "very poor."

Some areas of the state—notably South Texas—will have less than half the number of birds as were seen the year before. In almost every quail area around the state the birds remained on the nest through the summer, and some hatches were noted as late as October.

Overall, the situation in the western third of Texas looks reasonably good, especially in the range of the hardy blue quail. The blues enjoyed some successful late hatches, thanks to added vegetation and insects for food.

The best areas for quail in West Texas probably will be the Permian Basin and the lower portion of the Edwards Plateau toward Lake Amistad. The quail picture in the Trans-Pecos and Panhandle regions is expected to be poorer than last year.

The bobwhite situation is more

dependent on late hatches. Some of the better hunting in the state may be in the Possum Kingdom area. An area north of the lake, bounded roughly by Vernon, Wichita Falls, Breckenridge and Stephenville, also looks good. Quail hunters in northeast Texas are in for some good shooting, find some rough going at the first especially after the first of the year. However, they are going to of the season due to the rank growth of underbrush.

There seems to be plenty of birds, and there is lots of food. Birds are in excellent shape and should remain fat throughout the hunting season. Hunters will find birds in varying stages of maturity, due to nesting conditions.

Quail Hunters May Have To Work Harder For Birds This Year

AUSTIN — Quail hunters will probably have to hunt a little harder for their birds this year.

Bird dogs and their masters will find the going rough, especially early in the season.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for October 1971 shows a total of 595 accidents resulting in 19 persons killed and 294 persons injured. This was 96 more accidents, 14 less fatalities, and 26 more injured than during September.

The 19 traffic deaths for the month of October 1971 occurred in Carson, four; Kent, Lubbock, Wise, Roberts and Wheeler, two each; Crosby, Hale, Parker, Stonewall and Hemphill, one each.

The U. S. Department of Agriculture and the Food and Drug Administration. DES residues are prohibited by law in meat for human consumption.

The hormone is used in many young animals to stimulate growth and is used as a feed additive in most feedlot operations. Feedlots have come under close scrutiny recently regarding the use of DES.

Feedlot managers shipping cattle to slaughter must now certify that the animals have been withdrawn from DES for the prescribed length of time.

Violations of this directive can result in legal action against beef cattle producers.

The use of DES is regulated by

What if you lost your job tomorrow?

Things may be going pretty good now. But you never know what tomorrow will bring.

Suppose it's unemployment. How will you live?

What will you use to tide the family over while you look for a job?

Let's hope you never have to find out. But just in case, why not start saving now, while you have a "job." Join the Payroll Savings Plan where you work and buy U.S. Savings Bonds.

It's an easy way to build a nest egg.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

With any luck at all your emergency fund may become a vacation, a college education, or a happy retirement.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.
Now Bonds pay a bonus at maturity.

CELEBRATION

A fragrant pine wreath festooned with a big red bow encircles the door knocker, a symbol of hospitality. Inside, the tree blazes with rainbow lights, and there is a tiny creche on the mantel. You light the red candles on the table and serve coffee and sandwiches and cake. The atmosphere is rich with warmth and friendliness.

This is Christ's birthday and we are celebrating, and, in a magical way, it seems to instill in all of us a special feeling of friendship and love for our fellowman. What a wonderful thing it would be if we could keep this Christmas spirit in our hearts all year long!

To do so would be perfection — and that is something none of us can quite attain. But through the Church we CAN keep faith and truth within us from one Christmas to the next. Try it, and see.
