Valley Patriots Defeated By Snook At Austin

The Valley Patriots hit a first when they defeated Follett and won the trip to State to participate in the UIL Class 1-1A competition. As Coach Steve Adams stated: "We have played a lot of good teams to get this far." Coach Adams and his Valley Patriots have nothing to regret because they had a good season and for the first time in Valley School history, they went to State competition in basketball.

Valley drew the stiffest competition in the state to play the first game. That team, the Snook Bluejays, were the five-time defending state champions. The school is small, too, to be eligible to play in Class 1A competition, but as your editor listened to the game being played, the Snook coach was constantly sending in substitutes for his players. Coach Adams didn't have that many substitutes. His two seniors, Brett Cheatham and Randy Fuston, juniors Tommy Williams and Kraig Cox, and freshman Will Williams were the coach's mainstream. Will Williams had

made 9 of 12 scores for the Patriots at halftime, and Cox had added the other three points. The Bluejays were 28-12 at halftime. The Patriots had 14 turnovers in the first half.

The second half was more of the same. The Patriots were just out-manned. Coach Adams stated that he was proud of the Patriots for their character and composure throughout the season, and they kept both through the final battle at State. The coach says he realized that the experience that Snook had going into the game, having been winner at State so many times previously, was a factor. He says that his team has gained experience, and even with losing the seniors, there is a good possibility of having a good team next year.

The final score of 51-28 doesn't really tell the story. It doesn't give credit to the Valley Patriots. This writer thinks they are a "gutzy" team and we commend them and Coach Adams for a job well done.

New Playground Equipment at Park

Looking at the new playground at the Caprock Canyons State Park makes one wish he could go back to being a child again. There is an impressive looking array of all kinds of climbing activities with slides and a little bridge—all built out of heavy wood construction and very attractive. It is located near the swimming beach and picnic area, and last Sunday was swarming with children having a great time playing on it.

In fact, there was a steady stream of cars at Caprock Canyons State Park and a number of campers. It is a great place for a picnic, hiking on trails, and just enjoying the beautiful scenery.

Park officials states there were 1300 visitors over the

By July 4th You May Have Less Independence!

It seems ironical that over 200 years ago our forefathers fought for independence primarily on the declaration that excessive taxation would no longer be tolerated. Yet on July 1, 1983 our Federal Government will enact a law which unfairly withholds 10% of your total interest and dividend income as prepayment on anticipated earnings.

By law, we will be forced to send 10% of your savings interest dollars to the IRS on a periodic basis. You will automatically see the deduction. And, that means your total interest earnings will be reduced even more because you will get less income from reinvestment and compounding.

Join us in our strong opposition to this new law. We know our Texas representatives in Washington will listen and repeal this unnecessary legislation if enough of the people who put them into office raise their voices. Sign your protest to the accompanying letter and send it to your U.S. Senators and Congressman . . . because now taxation with representation is an American right and privilege.

The Honorable
U.S. Congress
Washington, D.C. 20510

Dear

I wish to join other Texans in requesting your work to repeal the 10% withholding tax on savings interest and dividends legislation which will be enacted on July 1, 1983.

I have worked hard to build my savings. Now our Government wants to withdraw a percentage of my earnings prior to the time I have faithfully paid my taxes each year. I respectfully protest.

I should not be penalized for saving money. Yet this new law will keep me from access to my entire savings over the year and give me fewer dollars to compound or reinvest. I ask that you become my voice in Congress and work towards the elimination of excessive and unfair taxation. I'm counting on you.

Sincerely,

Pari-Mutuel Racing Bills To Subcommittees

Pari-mutuel horse racing proponents received serious setbacks in both Texas House and Senate Tuesday of last week, according to Allan L. Maley, jr., Executive Director of the Anti-Crime Council of Texas. Hearings on Senate and House bills 440 were held by the Economic Development Committee of the Senate on the Senate floor Tuesday afternoon and by the House Committee on Urban Affairs on the House floor Tuesday night.

Maley said, "The Senate hearing drew a packed gallery and the House floor was filled during the Tuesday night hearing. We achieved our goal of sending the pari-mutuel horse racing bills to subcommittees in both the Senate and the House for further study."

Maley opened proceedings for the opposition in both the Senate and House by circulating a report made by Killingsworth Associates of Lexington, Massachusetts, consultants to the pari-mutuel industry. Maley said, "The Killingsworth report clearly points to a bleak picture in the pari-mutuel industry. You must question whether Texas needs another declining industry." He also distributed a statistical summary of 1981 pari-mutuel racing prepared by the National Association of State Racing Commissioners and commented, "This report will show you the very small amounts of revenue now being paid to states from pari-mutuel tracks. You are talking peanuts when you refer to the bills before you as revenue bills."

Gerry T. Fulcher, director of the Delaware Council on Gambling Problems, was the next witness. He stated that their organization "has been involved in intensive research and documentation of gambling problems for six years. Before you count the taxes from state endorsed gambling, you better count the costs of criminal activity related to legalizing gambling such as increases in loansharking, extortion, narcotics, prostitution and murder."

Also appearing for the opponents were Robert Baker, field investigator for the Humane Society of the United States, and Weston Ware, citizenship director of the Baptist Christian Life Commission.

Baker said, "Almost all race tracks have a history of drugging horses. No state has been able to control it. If you have pari-mutuel horse racing you have drugged horses."

Ware concluded his testimony, saying "It is bad social policy for a state to become a partner in a gambling enterprise and push its own citizens to gamble."

Maley explained, "Texans Against Gambling was recently formed by the Anti-Crime Council of Texas to coordinate the opposition to the pari-mutuel gambling bills now before the Texas Legislature. The Anti-Crime Council was formed in 1968 to fight organized crime. We believe organized crime will be greatly increased in Texas if pari-mutuel horse race betting bills are allowed to pass the Legislature."

Mr. and Mrs. Clyde Dudley and children, Lisa and Eric, of Arlington are visiting their parents, Mrs. Faye Dudley and Mr. and Mrs. Lon McKay, in Quitaque this week.

Mr. and Mrs. Reddell Irby had as guests from Friday until Tuesday, their son and family, Mr. and Mrs. Richard Irby, Judson and Jennifer, of Fort Worth.

Mr. and Mrs. Jimmy Stone of San Angelo spent the weekend visiting their parents, Mr. and Mrs. Paul A. Ramsey in Quitaque and Mr. and Mrs. Jimmy Stone in Silverton.

AGRICULTURE ACCOUNTS FOR 20% OF GNP

"The amount of money of U. S. agricultural products, including exports, accounts for about 20% of the nation's gross national product and more than 22% of the jobs," says Elva Reeves, president of Texas WIFE (Women Involved in Farm Economics) and a supporter of the annual National Agriculture Day observance on March 21.

Mrs. Reeves said that these calculations have been made by the United States Department of Agriculture and other government economists and statisticians. They are being given greater exposure in the educational materials for Agriculture Day developed by the Agriculture Council of America Education Foundation.

Gross national product, or GNP, is a commonly used statistic that measures the flow of goods and services in the economy. The flow of agricultural products—including food, clothing, tobacco, shoes, cut flowers, seed and potted plants—generates more than \$156 billion in production agriculture and \$765 billion in the economy off the farms, the studies show.

Likewise, 85% of the 23 million jobs in the "food chain"—from farm suppliers to consumers—are off the farm. Food and clothing manufacturing alone accounts for 4.8 million; with transportation, trade and retailing providing 7.2 million jobs.

Farm exports alone are a major source of new jobs, with an estimated 31,600 jobs created by each additional \$1 billion in increased exports. However, the value of those exports fell in 1982 by about \$4 billion, from the 1981 peak of \$43.3 billion. That was the first significant drop in 13 years, due largely to changes in world trade patterns as a result of four selective embargoes in the last decade and to the world-wide recession.

"Not surprisingly, farm income also fell sharply, for the third straight year, to a level lower than that of the depression years. The point we want to make is that the futures of two million farm operators are not the only futures at stake when farm income falls below production costs. All those jobs and all that business activity mentioned above depend on an agriculture that is as prosperous as it is efficient, productive and top-quality," Mrs. Reeves says.

Much of the volunteer organizing efforts each year at the local and state level are undertaken by associations and groups such as Texas WIFE. The Agriculture Council of America Education Foundation, a non-profit organization supported by all segments of agriculture, coordinates the program at the national level.

Further information about Agriculture Day and the Texas WIFE organization can be obtained by contacting Janine Brooks, 455-1489, Quitaque, or Calvin Shelton, Texas Farmers Union, Silvertown.

TEXAS CRIME RATE RISING STEADILY

The Texas crime rate rose 4.2 percent in 1982, according to DPS director Jim Adams. The rate was 6,297.5 major crimes for every 100,000 residents compared to 6,042.4 in 1981.

"This is not the most dramatic increase we've seen in recent years," Colonel Adams said. "But it does indicate that there can be no let up in law enforcement efforts to address this problem, especially in light of the serious concern by citizens for their safety and security of their property."

Adams said the total number of major index crimes reported in Texas last year was 962,260, an increase of 7.9 percent compared to 1981.

Robbery led the four violent crime categories, registering a volume increase of 17.8 percent in 1982. Aggravated assault cases were up 11.2 percent, while murders increased by one percent. A slight change was recorded in the number of rape cases.

"The murder rate, homicides keyed to population, actually registered a decline of 1.8 percent," Adams pointed out.

In the property crime categories the number of theft cases was up 10.4 percent, while motor vehicle theft and burglary increased by 4.6 percent and 3.7 percent respectively.

Adams said twenty-three percent of the major crimes were cleared by arrests in 1982. Total arrests for all offenses excluding traffic law violations totaled 908,858, an increase of 9.6 percent.

"Included in the total arrests are 112,407 for DWI, up 25.6 percent compared to 1981," Adams said.

The estimated value of property stolen during the commission of all major crimes in 1982 totaled \$927 million with approximately \$194.7 million recovered.

Nine Texas police officers were killed in the line of duty by felonious action last year. Eight others died in duty-related accidents. A total of 3,728 officers were assaulted last year.

Arson cases reported to the DPS in 1982 totaled 8,201. Twenty percent of the cases were cleared by arrests.

The crime statistics are compiled by the DPS Uniform Crime Reporting Bureau based on reports from 755 local law enforcement agencies.

Mr. and Mrs. S. C. Brown visited Rev. and Mrs. Alvin Ham in Tucson, Arizona for two days and nights while on their cross-country tour recently. The Hams send regards to friends in the area. Rev. Ham was pastor of the First Baptist Church in Quitaque at one time.

Mr. and Mrs. W. W. Brantley of Abernathy visited her sister and husband, Mr. and Mrs. S. C. Brown, in Quitaque Sunday. They also visited in Turkey. They are former residents of Turkey.

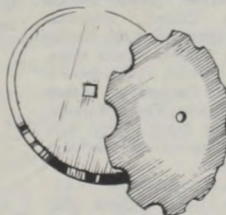

Mrs. W. L. Armstrong gave a program for the United Methodist Women at the First United Methodist Church in Dimmitt Thursday night. She went from there to Hereford and spent the night with her mother and returned home on Friday.

New Officers Elected For "We The Women"

MR. AND MRS. RAYMOND M. WEST

Mr. and Mrs. West To Renew Wedding Vows

Mr. and Mrs. Raymond M. West of Childress observed their fiftieth wedding anniversary quietly Saturday. However, the couple will repeat their wedding vows at two o'clock on Sunday afternoon, March 20, at the Childress Church of Christ during a reception scheduled from two to four o'clock. The reception is open to friends, relatives and the public. The couple requests no gifts.

Mrs. West is the former Sylvia Payne, daughter of the late Mr. and Mrs. J. D. Payne of Turkey. She became the bride of Ray-

mond M. West on the afternoon of the twelfth of March, 1933 in Hollis, Oklahoma. He is the son of Mrs. Frank D. West and the late Mr. West. He is a semi-retired Church of Christ minister, who plans to become involved in gospel meeting work during 1983.

Mr. and Mrs. West are the parents of one daughter, Mrs. Tim (Carol Ann) Jones of Fort Stockton. They also have two grandchildren, Melanie and Michael. Hosting the reception will be their daughter and grandchildren.

New officers for 1983 were elected at "We the Women" Monday as President Janice Henson steps down after serving for one year. The slate of new officers includes Mary Stark, president; Linda Stark, vice president; Debi Grebenik, secretary; Margie Boyles, treasurer.

"We the Women" were treated to a very entertaining and informative program entitled "Refunding Made Easy!!!" by Linda Stark and Debi Grebenik. There were fifteen ladies present.

"We the Women" is the only service organization of its kind in Quitaque. It is unaffiliated with any other organization and its primary goal is to promote the improvement and beautification

of the community through projects. Almost every woman in the community has participated in fund raising projects, but more women are needed to take an active part in the organization with their support and input of ideas. A community needs the closeness that comes through working together toward a common goal. We have constantly to strive for a progressive, pleasing community—a place that our children can proudly point to as "my home town."

Let's keep Quitaque moving forward—a community with pride. We invite you to start this new year of "We the Women" activities by being present for the meetings on the second Monday of each month.

Mrs. Williams Named CF

Chairman For Turkey

The Lone Star Chapter of the Cystic Fibrosis Foundation announces the appointment of Mrs. Christine Williams as chairman of its 1983 campaign in Turkey.

The campaign will be held to provide the community with information about cystic fibrosis, and to raise funds to support research, education, and care programs.

The No. 1 genetic killer of children, CF is difficult to

diagnose and impossible to cure. Each day five babies are born with the tragic disease that will clog and choke their lungs and inhibit their digestive processes and their growth, the disease that will eventually take their lives as it takes the lives of three people each and every day.

For information about cystic fibrosis and how you can help in the fight to find a cure, please contact Mrs. Williams.

You never mistake the meaning of a Church spire.

Even to those who are cold to the ideals for which the Church stands, that finger of faith always points to something that is comforting, reassuring, safe.

The very presence of a Church, whether in a crowded city street or on a quiet country road, is a benediction to all, including those who are not conscious of worship.

Such an influence, with what it means to those who open their hearts to truth, is worthy of a second thought. It merits acceptance as a refuge. It commands confidence as a port in time of storm.

The Church deserves your support — your membership — because it affords real protection for the family whose welfare it is your duty to defend and whose proper upbringing is your solemn obligation.

Many Winters

There's an old saying that "blue eyes belong to leaders and brown eyes to dreamers..." We can't tell the color of this child's eyes from her picture, but they look a great deal like the eyes of rich wisdom.

Wisdom comes to most of us only after many years of struggle and growth. And even when we feel a bit wiser, we soon realize that there is always much more to learn — that, in truth, learning is a life-long process.

But whatever age and degree of wisdom we may attain, our need for a changeless source of inspiration remains the same. Within your place of worship you will find a power of truth founded on eternal love and maintained by divine wisdom. On such, character is built and wisdom enthanced.

Draw new courage and hope from the wellspring of knowledge that makes men free. Worship this week!

Conservation Program Available To Help Local Landowners

Money is currently available for conservation work on Briscoe County farms and ranches. The Great Plains Conservation Program has been re-funded this year and is available to help apply conservation practices that reduce wind and water erosion.

Cost-share funds can be used on cropland to install terraces, diversions, waterways, irrigation pipelines, and to reseed old cropland fields back to permanent grass. A new practice, planting grass strips on top of

terraces to reduce wind erosion on cotton land, has been added and has proven very successful in the area below the caprock.

"Cost-share funds can be used on rangeland for treedozing, chaining, rootplowing, raking and reseeding. Chemical brush control, livestock water pipelines, water storage tanks, earthen dams, cross fences, and water wells can also be cost shared.

Also available for funding are erosion control structures that are used to stop gullies from washing.

In a Great Plains Conservation Program contract the U. S. Department of Agriculture will pay for 50 to 80 percent of the cost of installing the practices.

Everyone interested in this program should contact the Soil Conservation Service in Silverton for more information. Call 823-2320.

If someone commits a crime while free on bail, my bill would call for the sentences on conviction to run consecutively, or one after the other. A three-time robber, for example, would serve 30 years in prison.

I think we should stop apologizing for punishing people who break the law, particularly those who go right on breaking the law while free on bail.

One way we can make people think twice about turning to a life of crime, and help protect our lives and property, is to get some tougher penalties on the books.

Mrs. Ella Mason drove to Springtown and visited her daughter and family, Mr. and Mrs. Paul Chapman. She was surprised when she arrived to find her grandson, Paul Chapman, who was home on leave from the Navy. She returned home Saturday after spending ten days there.

Mrs. C. H. Hamner received word of the death of her sister-in-law, Louise Young of Austin. Mrs. Young died Friday and funeral services were held there Sunday. She is survived by two deaf children. Mrs. Hamner's son, Wilburn Hamner and his wife, of Houston drove to Austin on Wednesday and stayed until after the funeral arrangements were made and the burial. The children have good educations, but can't speak.

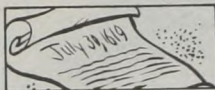

Mr. and Mrs. P. John Monk were in Plainview Monday morning. They went for Mr. Monk to see a doctor for a checkup.

Mr. and Mrs. Orval Cobb spent Sunday visiting their daughter and son-in-law, Mr. and Mrs. James McBee, jr. in Kress. They were met there by Melvin Cobb and son, Michael. Michael remained to visit his aunt this week during Spring Break.

Billy Ray McKay of El Paso visited his mother, Mrs. Ruth McKay, for a few days this week, and also with his sister, Carrie Goodall.

Mr. and Mrs. Dwight McKay and son, Jody, of Amarillo spent Friday and Saturday visiting his parents, Mr. and Mrs. Lon McKay, in Quitaque. On Saturday, they all drove to Plainview and visited Mr. and Mrs. Cecil McKay.

Lloyd Bentsen Report

These days it seems that crime strikes at everyone in America. Those who aren't victims have friends or relatives who are.

Tales of purse snatchings, car vandalism and home burglaries are heard more and more often in conversations with friends, neighbors and co-workers.

News reports are filled with accounts of robberies, assaults and even more violent crimes.

Crime reached all-time high levels in 1980—with violent crime increasing 13 percent over 1979.

Law enforcement efforts in 1981 held crime to the same level as the year before, and that is good news, but there was still one criminal act committed every two seconds. According to a report by the Federal Bureau of Investigation, that averages out to one property-related crime every three seconds and one violent crime every 24 seconds.

In Texas, there were 2,446 murders, 28,528 robberies and 275,978 burglaries in 1981. Statistics for 1982 are still being compiled.

The FBI admits in its own report that while law enforcement is holding its own, "we must concede that we still have a serious crime problem—one that requires new and better methods to combat."

I couldn't agree more.

During the 97th Congress, the Senate approved one of my bills which provided a strong deterrent to people who go right on committing crimes while they're free on bail for an earlier offense.

It was not signed into law, so I intend to resubmit it to the Senate this year.

Under the present system, judges can choose to give such criminals concurrent sentences for their multiple crimes. A person convicted of three robberies and sentenced to 10 years for each robbery could wind up serving only 10 years in prison.

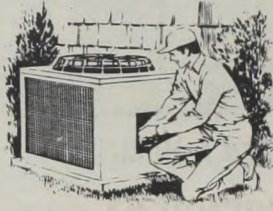

In other words, that person would be paying the penalty for all three crimes at the same time.

NOW'S THE TIME TO CALL YOUR AIR CONDITIONING SERVICEMAN

(Get a checkup before the heat's on.)

Right now your air conditioning serviceman can easily work your call into his schedule and get your unit ready to deliver dependable cooling through the summer ahead. We know that many people wait until the heat's on to install electric air conditioning or have their units serviced. Later on, your dealer or serviceman may have a waiting list.

PROPER INSULATION... Keeps in the Cool Air You've Paid For

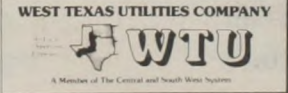

Insulation comes in rolls, loose-fill or batts. Insulation is labeled with a R value showing its ability to resist heat. The better its insulating value, the higher the number. R values up to R 30 in the ceiling and R 18 in the walls are recommended for this area.

Check Caulking and Weatherstripping!

Check all windows and doors, install weatherstripping and caulking where needed. It will save on both heating and cooling costs. An almost invisible 1/4" gap at the base of a standard 36" outside door is equal to a nine-square-inch hole in the side of your house. There are a number of easy-to-install felt and foam rubber products on the market to draft-proof doorways.

Remember REDDY Supplies the energy—
but only YOU can use it wisely!

1983 BUDGET

AUSTIN - The Texas Legislature has spent the last few weeks of this session concentrating on our state's budget. During this time, Comptroller Bob Bullock has published new estimates of Texas revenues for the upcoming years, Governor Mark White has spoken to a joint session of the Legislature to submit

his budget requests and suggestions, and the Texas Senate has met as a committee to specifically deal with our upcoming budget.

On one hand, Texas has the largest cash surplus in the nation (\$804 million), and \$3.3 billion more than two years ago when we wrote our last budget (this

is a 17.8% increase).

On the other hand, the Comptroller has cut his estimate of Texas' revenues twice in the last two months. These cuts have been due mainly to falling world oil prices and sluggish sales tax receipts. The most recent time, Mr. Bullock cut projected income for Texas by \$867 million. This means Texas has about a \$1.6 billion deficit between the requested budget and the projected revenues.

We are fortunate in Texas to have a Constitution that requires the state to have a balanced budget. This keeps us fiscally sound but this year it will most likely force our Legislature to either reduce some services currently provided and/or raise taxes for all Texans.

Governor White feels that Texas can avoid these two evils by raising taxes on discretionary consumption. This would mean an increase in taxes for tobacco, mixed drinks, packaged liquor, and amusement machines like pinball and video games. It is projected that such an increase could raise \$800 million for state coffers.

Our Governor also suggests the selling of bonds to finance much of our needed highway construction. This would require the taking of three fourths of one cent from the current motor fuels tax to service these bonds.

There are many varying opinions around the Capitol as to what the best method is for Texas to overcome

this difficulty. Some do not like the idea of borrowing to make up needed revenue, some would like to see a tax increase on sales, and others are completely opposed to taxes and wish to simply cut services. Whatever the method, they all agree that this is not a short term problem. Texas will be facing such economic troubles as long as our nation and world is in the current economic depression.

In the next few months of the session we promise to closely examine all possible ways of dealing with our budget and will take action for the methods that we feel will be the best for our district and the entire state.

We would like to know what you feel about our budget problems. Please write Senator Bill Sarpalius, P. O. Box 12068, State Capitol, Austin, Texas 78711 or call (512) 475-3222.

BEWARE!

These are blasting caps, and knowing what they look like could save your life. These blasting caps can be dangerous. Explosives are useful tools to construction workers, miners and the like, but they can be destructive in the hands of children or untrained adults. If you ever see something that looks like the blasting caps pictured here, *don't touch it*. Call the police, or fire department. A free poster and helpful information about blasting caps is available from the Institute of Makers of Explosives, Dept. N, 1575 Eye Street, N.W., Suite 550, Washington, DC 20005.
