Byron Young Resigns As City Commissioner

On December 30, Byron Young resigned as a commissioner for the City of Turkey. He had served a total of 32 years and served the city as mayor for two terms.

He told the Tribune that there had been pleasure in the work and some heartache, but if he hadn't found more good than bad he would have resigned sooner.

Mr. Young is to be commended for his many years of service to the City of Turkey. His term would have been up in April of this year. Another commissioner will be appointed to serve out his term.

Turkey Lions Met Tuesday At Noon

The Turkey Lions Club met Tuesday at noon in the Bob Wills Cafeteria for their regular meeting with Boss Lion Armstrong in charge. Keith Green led the pledge to the flag and Rev. Sybil Young Is New Turkey City Secretary

The mayor and commissioners of the City of Turkey met Monday night, January 9, and selected a new city secretary to replace Ruth Fuston, who resigned. Mrs. Sybil Young was selected from a group of several applicants. Three of the applicants could not be considered because they lived outside the city limits.

In an interview Tuesday morning, Mrs. Young said, "I'm here to serve the people and I want to help out in any way possible."

Sybil is a graduate of Hereford High School and attended West Texas State University for one year. She has had eleven years of experience in office work of various types and feels that she is qualified for the job of city secretary. She moved to Turkey from Amarillo in 1976 when she was married to Byron Young. She was owner and manager of The Cotton Patch for three years and has assisted her husband in his business for the past two years.

"We the Women" Luncheon Held

The regular meeting for "We the Women" was well attended Monday for lunch together at Roye's restaurant.

The program was an interesting and inspiring tape by Joyce Landorf entitled "The Fragrance of Beauty." Mrs. Landorf pointed out the fragrances of beauty she would like in her own life of kindness, humor, honesty, prayer and acceptance.

"We the Women" makes an effort to have programs which will benefit the total woman in all areas of life. The projects undertaken are for benefit of the entire community. The goals of the organization are for better relationships among the people of the community, improvements, beautification, and development of the community and an enrichment to the individuals which comes in working together for worthwhile projects.

This organization is open to every woman in the community. The meetings are held on the second Monday of each month for lunch at Roye's. There are no dues to pay—each woman only paying for her own meal. There is free baby sitting at the First Baptist Church for those with pre-school age children. Take an hour off each month and join "We the Women."

Christmas.

Everyone is invited to attend. This will give people in Quitaque, Turkey, Flomot, Silvertown and the surrounding area an opportunity to encourage Roye and Mary personally and to support them in establishing another home.

BILL SARPALIUS

Sarpalius Seeking Re-Election As State Senator

State Senator Bill Sarpalius, the Panhandle lawmaker from Canyon, said Tuesday he would seek re-election and officially became a candidate in the Democratic Primary set for May 5. He also said he has some new objectives to pursue.

Sarpalius has achieved statewide recognition for his efforts to pass strong driving-while-intoxicated legislation. The legislation is now in effect and the Department of Public Safety says it is already helping to lower the state's accident rate.

"I am proud to have had the opportunity to lead the fight for stiffer penalties for intoxicated drivers. The very awareness of the problem has helped to save lives. The future of our children is a little safer because of it, Sarpalius said.

Sarpalius noted that it was on the same date in 1980 that he first announced his candidacy to the Texas Senate.

When we announced our candidacy four years ago, we promised to work hard and to try our best to represent the people on a local level. He put a mobile office on the road to make sure the people had an opportunity to speak at the local level. The mobile office travels regularly throughout most of the towns in the 29 counties on a monthly basis, visiting almost every town once a month. To know the needs of our constituents we need to

The Superintendent's Corner

by Wilburn Leeper

The Bureau of Census has recently provided schools across the state and nation statistical figures based upon the 1980 census. According to the information the school has received there are 164 children living in the school district in families with incomes below the poverty level. The number for the same category in 1970 was 145 or 19 fewer than now. The number of low income children is the basis upon which federal money is allocated to the school for special designated programs. The 1980 figure will remain the same for funding purposes throughout the 1980's and until the 1990 census is taken.

Federal funding to Valley School has become an ever-increasing part of the school budget and currently the school receives approximately \$130,000. Although the funds are generated through some type of handicapping situation found on the campus at Valley, all students benefit from some program in which they participate. The programs operated by the school which use federal money include the Vocational, Chapter I and II (special reading, library books, science equipment, and etc.), Migrant, and Lunchroom. The lunchroom receives the largest amount of funding.

According to the same federal census, the population of the school district is 1,819. The largest age group indicated by the statistics are those 65 to 74 years old. Those comprised 12 percent of the population. The largest school age group was the 10 to 13 year olds and made up 6.2 percent of the total. At the time the census was taken there were 34 people 85 years of age or older and there were 34 less than one year old. Additional population characteristics of the school district show that 83 percent of the population is white, 7 percent is black, and 10 percent is of Spanish origin.

It seems that the cold weather

during the Christmas vacation has brought a certain awareness to some parents concerning how long the vacation should be. One parent wanted to appeal to the School Board to request the vacation period be cut to only one day. He claimed that being enclosed in a house with three children for the long period of time is too much to ask.

Something about former students—Scotty and Sherri Setliff will soon be moving to Lubbock. Scotty will be returning to Texas Tech with intentions of completing his degree and Sherri has been employed by the John Hancock Companies. Scotty was a 1976 graduate of Valley and has recently been employed by the Parks and Wildlife Services of Texas. We regret losing this family from our community but wish them well.

Another former Valley student is doing well these days. Cherri Brown is currently the Donley County Home Demonstration Agent and is living in Clarendon. Cherri graduated from Valley in 1975, received her degree from Texas Tech, taught school in Quanah for two years before accepting her present position.

New students—Isaac Equia is a new student in the sixth grade at Valley. Isaac attended school here two years ago, then moved to Amarillo, and has now returned. Welcome back to Valley, Isaac.

Mr. and Mrs. D. T. Huffines have returned from a month's visit with their daughter, Mr. and Mrs. R. E. Lawrence at Orange, Texas, and also with their granddaughter, Mr. and Mrs. Ted Strahan and daughters, Amy and Bethany. Mrs. Huffines reported that it was very cold there and the folks were not prepared for it. But she said they were very comfortable at her daughter's home and had a nice visit.

Mr. and Mrs. Tom Pierce were in Vernon Friday and Saturday for a belated Christmas celebration at the home of their son and

family, Mr. and Mrs. Robert Pierce. They also celebrated Robert's birthday while they were there.

Mr. and Mrs. Jack Bradley of Dalhart spent Sunday and Sunday night visiting his sister and husband, Mr. and Mrs. Dick Taylor, in Quitaque. The two couples drove to Lockney to visit their mother, Mrs. J. T. Bradley.

The Jack Bradleys left at 5:00 a.m. Monday to return to Amarillo. Her daughter was scheduled for surgery early in an Amarillo hospital.

On Monday after New Year, Mr. and Mrs. Tom Barbee had twenty guests for dinner, including nine grown men. They were Mr. and Mrs. Lawrence Washington, Stacy and Stephanie and a friend, Umbarger; Barnell Washington and a friend, Amarillo; Kenny Kiker and three

friends, Amarillo; Lorene Kiker, Dallas; Shelia Kiker of the U. S. Air Force, Fort Worth, and her friend, also of the U. S. Air Force, Fort Worth; Mr. and Mrs. Earnest Wayne Barbee, Clarendon. All the men came for the quail hunt.

Mrs. Corky Morris of Dimmitt was in Quitaque on business Monday. She had lunch with her in-laws, Mr. and Mrs. Buddy Morris.

Mr. and Mrs. N. A. Shackelford of Amarillo spent Wednesday and Wednesday night visiting her sister, Mrs. Estelle Davidson, in Quitaque. Mr. and Mrs. E. R. Orcutt of Memphis, another sister of Mrs. Davidson, spent Sunday visiting her.

Mrs. Clovis Hill of Amarillo visited her mother, Mrs. A. C. Barrett, Saturday. She and Mrs.

Barrett drove to Lockney to visit Mr. Barrett at the Care Center.

Mr. and Mrs. D. E. Brunson spent the holidays in Oklahoma City visiting her mother, Mrs. Bessie Wormington, and her sister and husband, Mr. and Mrs. George Thrift.

Mrs. Opal Boggs of Tulia spent Monday visiting in the J. A. Mayfield home in Quitaque.

keep in touch with them on a grass-roots level.

"We have worked hard to represent the people by passing legislation the people of the Texas Panhandle and South Plains strongly supported such as the DWI bill, raising the legal drinking age, establishing the gasohol industry, outlawing dog-fighting, establishing a work release program to help with our overcrowded prisons, establishing state standards for emergency medical services, strengthening criminal trespass laws, establishing a commodity assessment program for agriculture, and legislation to help stop the storage of high level nuclear waste in the Panhandle.

In the past four years, Sarpalius has served on the Senate Committees of Natural Resources, State Affairs, Education, Economic Development, Human Resources, the Sunset Commission, and as Chairman of the Agriculture Subcommittee.

Lt. Governor Bill Hobby was impressed with Sarpalius' efforts at conservation and protection of the environment and named him as one of two Texas legislators on a national legislative committee to monitor the disposal of high level nuclear waste. Sarpalius is also a member of the National Committee on Agriculture.

Sarpalius said, "We have tried our best to be an effective State Senator for the past four years but there is still much work to be done." Sarpalius pledged to continue to work on water legislation, such as the establishment of the Buffalo Lake Water District, to conserve the water that we have as well as a long-range water importation program.

Sarpalius also promised to continue to help business and industries throughout the 31st District. Without a strong surge from our businesses, the security that comes from jobs will evaporate.

I can think of no two subjects that need more attention than water and the economy. There are things that can be done, and I will dedicate my efforts to making positive proposals that will help the Panhandle and the whole of Texas," Sarpalius said.

Sarpalius was joined at the news conference by his wife, Donna.

Reports

AUSTIN — Texas has now closed its ledgers on a two-year state budget that managed to hold up under

attack from all sides. While other states were coping with budget shortfalls, Texas survived. Budgeting was not without serious problems. When the Legislature convened in Austin last January to write the 1984-85 budget, we had to strip the state's financing to the bare bones. There were four major reasons the Legislature was forced to cut the budget three times before arriving at a \$31 billion multi-year

expenditure. The national recession, the fall in oil prices, adverse weather conditions in the state and the drop in the value of the Mexican peso combined to bring Texas' explosive growth in the 1970's to a sudden standstill. During the fiscal year 1983, from September 1982 to August 31, 1983, tax collections were down because of drops in oil production and the state sales tax.

proprietors' income in 1980 was for agriculture. The state average is 1.7 percent. Non-agriculture employment in the region was 680,000 in 1982, of which 12.5 percent was oil-gas related. Statewide, five percent of non-agriculture employment is oil and gas. Manufacturing makes up only 14.3 percent of the Plains non-agriculture employment, ranking the area near the bottom of the scale. Statewide the average is 18 percent.

Because of the recession, 1983 total revenue increased by only one percent to \$14.6 billion. Increases in federal funding helped to make up some of the decrease in tax collections.

The same factors that caused revenue collections to decline, caused state expenditures to increase. The economic downturn put many people out of work and increased the need for welfare and unemployment payments.

While we were doing poorly, most of the other states were doing even worse. Because other states were in dire straits many of their residents left for the greener pastures of Texas to find employment. That put further stress on our systems for welfare spending, unemployment compensation, prisons and education.

The net effect of the slowdown in revenue growth and of the increase in state spending was to leave the state with an ending cash balance of \$1 billion — \$300 million less than in 1982. This balance is the state's general revenue fund from which most of the state's spending occurs. We were one of only five states to have a surplus at the end of the fiscal year. We are still one of the strongest of the economies and with continued financial management and a Legislature dedicated to the economic health of Texas, we will continue to prosper even in difficult times.

Our area's employment has followed the level of drilling activity. Employment increased in oil and gas by 60 percent between 1979 and 1981. Non-agriculture employment increased by 16.4 percent over the same period, second only to growth along the Gulf Coast.

When drilling activity collapsed, employment fell sharply. In 1982, oil and gas employment fell by 21 percent and total employment fell by 3.3 percent.

The agriculture sector in Texas and nationally has been undergoing an extended period of falling real income, brought about by falling food prices and rising production costs. The problem intensified as a world recession and the strength of the dollar cut U.S. agriculture exports. The cut in exports drove crop prices even lower.

By 1982, real farm income stood at 60 percent of its 1979 level and about 33 percent of its 1972 level. The severe drought has only worsened matters.

Economists say the outlook for the Plains is dependent on the health of the petroleum and agriculture industries. If stability in oil prices and the drop in equipment costs continue, the Plains will benefit.

Any long-term improvement in agricultural income is in question because of the strong U.S. dollar and increases in interest rates.

Forecasters say we can look for employment levels at 3 percent above the 1983 level. Our employment has been undergoing an adjustment since the overheating by the boom in 1979-82, but the stage is now set for a return to healthy economic growth.

AWAY FROM IT ALL

Would you like to be able to go to a retreat like this when you are worried — a place where you could be alone with your thoughts — a place where you could untangle your problems?

If you would, then you are like most people. Everyone needs a retreat, at moments. And everyone has one! It isn't a mountain cabin or a seaside cottage — but it is a place far better suited to prayer and contemplation, a place to sort out old errors and make new resolutions. It is your place of worship.

Let it be your sanctuary. Go to it when you are troubled. You will find within its walls your moment of peace and you will walk out into the street again far better able to make the most of your life.

Turkey Methodist Men Hear Rev. Dolok At Breakfast Meeting

The Methodist Men's organization of Turkey met Monday morning at 7:00 for breakfast in the church fellowship hall. They were privileged to hear a talk by Rev. Humala Dolokseribu of Jakarta, Indonesia. He spoke

about the beginning of Christianity in his country. He said he was a third generation christian, as his grandfather became a christian when he was in his 60's, five years before his death. His father is a Methodist minister, as is Rev. Dolok.

A delicious breakfast was prepared and served by the men. Seven members were present. Rev. Dolok also spoke at the

evening worship hour at the Methodist Church Sunday, January 8, telling about his country and his family, as well as some beginnings of Christianity in Indonesia. He and Mrs. Faye Armstrong sang a special number, "I Surrender All," in the Batak language, and he gave a prayer in Indonesian and Bro. Armstrong gave the benediction in that language.

Mrs. Armstrong took Rev. Dolok to the Lubbock International Airport Monday morning where he took a plane for Dallas. He was to enroll at the Perkins School of Theology at Southern Methodist University this week.

The Armstrongs and Mr. and Mrs. Gordon Bain were hosts to the Rev. Dolok while he visited in Turkey.

Governor Mark White REPORTS

AUSTIN—When the first Texas Commission on the Status of Women convened here in 1967, a man chaired the meeting and handed out corsages to the female members.

Sixteen years later, Gay Erwin heads the 29-member Governor's Commission for Women which I created by executive order and appointed last April to assess the employment and economic status of women in Texas, monitor legislation affecting women, and integrate women's needs into the state budget process.

In the first eight months of operation, the Women's Commission has reviewed new state statutes for compliance with the Texas Equal Rights Amendment and established itself as a clearinghouse for information on education, job training, support, and counseling programs available to women in Texas. This has eliminated the need for 50 different phone numbers scattered throughout numerous state agencies to supply the same information.

The 68th Legislature appropriated \$150,000 to operate the Governor's Commission for Women for two years, making it only the second such commission in Texas history to receive state funding.

Through workshops held across the state, the Women's Commission addresses such important issues as education, domestic violence, displaced homemakers, women's health, child care, sex discrimination, and legal rights of women. On January 17-18, the commission

and Southwest Texas State University will co-sponsor "Women in Focus" featuring such conference speakers as Sarah Weddington, director of the Office of State-Federal Relations in Washington; Liz Carpenter, former press secretary to Lady Bird Johnson; and San Antonio Mayor Henry Cisneros.

Other projects the commission will undertake in 1984 include printing and circulating a business-size card listing toll-free, hot-line telephone numbers offering a variety of services for women.

State commission members are working with city and county officials to establish local women's commissions in Lubbock, Dallas, Houston, Amarillo, El Paso, San Marcos, Paris, Big Spring, Brenham, and Galveston.

With a \$100,000 criminal justice grant awarded through the Governor's Office, the Commission for Women will operate a Texas Crime Victim Clearinghouse. By next October, the clearinghouse plans to offer a toll-free telephone line for crime victims to obtain community service information.

The Women's Commission will also inaugurate a Women's Hall of Fame as part of "Women in Texas Today Week" planned for September 1984 and will sponsor a statewide essay contest for high school girls to highlight women's achievements.

Through the work of this commission, Texas government is committed to helping open the doors of opportunity even wider for women in our state.

Edge of America

A barren beach — some plunging waves — and then for thousands of miles, the sea. Poets might think that way. But millions share the thought . . . this is the edge of America!

But the edge of our nation has been closing in. Within our restless society we have confronted a new edge of America — a shoreline of *freedom*, of justice, of mutual respect of men for one another and for their institutions. When you leave that shore behind, there is nothing . . .

Look rather at the *heart* of America. Look at the spiritual treasure which inspired patriots to crown religious liberty as the supreme freedom.

Each week our churches pursue their sacred mission. More and more they've been welcoming families like your own . . . folks who have seen the edge of America — and are seeking the heart!
