Shirttail Sermon

"One soweth, and another reapeth." John 4:37.

If we stop to think for a moment, we know this law to be true. We are, today, reaping what others have sown in the realm of science and society. We are amazed at the fact of mans realizing a centuries-old-dream—that of actually setting foot on the moon. It is the result of years of study and experiment. We have reaped what others have sown.

Our world is a restless place in which to live. We have wars in progress in every corner of the world and rumors of more to start at an early moment. This, too, is the reaping of what others have sown.

In turn, we are now sowing what others may reap. Certainly

this issue in the field of politics and economics. Every law passed by legislative bodies and every decision by our courts will have fruit that future generations will reap. Whether that fruit will be good or bad is up to us.

No man now living can be deceived into believing that we will be able to pay for all the expenses being incurred by our generation on a national scale. The national debt is astronomical and getting larger every day. Someone will be paying for generations.

We would remind ourselves that this is a personal law also. We also shall reap in the future what we are sowing today in our private lives. The good seed that we plant today will bear good fruit and the bad seed will bear sorrow and

suffering. We cannot avoid this law of nature by any devious means we can dream up and it cannot be repealed by ourselves.

However, Jesus Christ has offered us a way to avoid the consequences of our foolishness. He gave His life that we might be free from punishment for our sins. He offers this gift: we must accept it or reject it.
