Guthrie Girls and Lady Patriots grapple for the ball in a recent game at Valley.

## Valley Girls Mop Up Motley County

by Coach Browning

Playing tough man-to-man defense enabled us to score easy baskets in the first quarter enroute to a 17 to 2 lead. Our defensive pressure caused Motley Co. a lot of problems. Each girl stayed with the player they were guarding.

We put pressure on the ball and the other girls cut off the passing lanes, forcing several turnovers which led to baskets for us. Our offense was effective when we ran it. We were able to get the ball inside to our post or rove consistently for short jump shots.

We still have some things to correct on defense and need to improve on our free throws since we only made 6 out of 28. We have made some improvement

## THEN & NOW!

by Eunice McFall

Are you always prepared for what is going to happen to you? Of course not, life always has a bunch of surprises in store for us, some very pleasant and some not so pleasant. We have no control over which it will be good or bad. The only control we have in this area of our life is how we react to the surprises!

As parents and grandparents are we preparing our children and grandchildren the best we know how? Sure we always can get them ready to accept the good surprises but how much do we prepare them for the unhappy ones?

When we stop and think about the responsibility of being a role model and teaching our children how to face and overcome adverse happenings in their lives (and believe me, everyone has had or will have a few adverse things happen to them if they are fortunate enough to live a good long productive life.), it is scary! We usually feel quite inadequate when we realize the fact that what we are teaching our children today or are allowing someone else (whether this be teacher, grandparent, friend, or TV) to teach them will govern their reactions to all situations in which they find themselves from now on.

Are we giving our children the ideas that if they want to do something (whatever it may be) they should go ahead and do it regardless of who or what is damaged in the process? Are we telling our children that if the chore or happening is a bit unpleasant, or they just don't like to do it that it's O.K. to leave the job for someone else to complete?

When their generation grows up and are out in the every day work world, how are they going to be able to function efficiently and happily? We all have chores we would rather not do but once they are done, we have such a feeling of satisfaction because if for no other reason the job is done and behind us--Would we take this joy of a job well done from our children?

True none of us want to do things we don't like but as our parents said--These are character builders--So perhaps we need to insist that our children do their chores!

and that's what we are trying to do each game.

We are going to work hard the rest of the week and get ready to play Childress next Monday, Dec. 10 at Childress; game starts at 5:00.

In this filing, GTE-SW proposes to modify its existing 9-1-1 tariff and to add more than 200 new service offerings. The new items of service and equipment in this application have been added to meet the company's increasing 9-1-1 customer demands and to allow GTE-SW to compete more effectively in the 9-1-1 equipment market.

The product line in the new offerings consists of a mini-computer and specialized console package for larger communities, as well as a personal computer with Automatic Number Identification (ANI) display for smaller communities. (ANI displays a caller's telephone number on the emergency dispatcher's computer screen.) In addition, the product line will include ANI and Automatic Location Information (ALI) display units compatible with, and similar to, those offered by Southwestern Bell Telephone Company and other local exchange carriers in Texas. (The ALI feature displays a caller's address on the computer screen.) The rate charged existing 9-1-1 customers may be revised at the expiration of their contracts with GTE-SW if the proposed tariff is approved.

This filing has been assigned Docket No 9667. The hearing on the merits is scheduled for February 25, 1991, at the offices of the Public Utility Commission of Texas. The deadline to intervene in this docket is December 31, 1990.

### Sergeant Visits Valley Students

Sgt. Todd Mills visited with Valley fourth and fifth grade students Friday afternoon while home on leave at his parents home.

The fifth grade had written to Todd earlier in the year asking him to visit them.

He brought pictures of Saudi Arabia for the children to see, pictures of houses, pictures of living conditions over there. Todd also had some petrified clams to show the children. The part of the desert he was in was once a sea.

Valley fifth graders plan to keep up the correspondence with Todd as long as he is serving his country in Saudi Arabia.

## Attends Museum Trimming Party

Monica Ortiz attended the Panhandle-Plains Historical Museum Tree Trimming Party Saturday, December 1, 1990 at Canyon.

Mrs. Cliff Gilmore's fifth grade class hand made Victorian (1880-1900 era) Christmas tree ornaments. Monica's was chosen to represent the class at the tree trimming party.

The party was held in the Natural History basement area of the Museum. Monica, along with other ornament bearing children of the Panhandle hung their hand crafted ornaments on the Christmas tree.

The Panhandle Children's Victorian Christmas Tree will remain on public view until January 7, 1991. After that date the ornaments will be returned to the children.

Accompanying Monica to Canyon were Ofelia Ortiz, her mother, Letty Ortiz and Tina Price, her sisters and a niece, Danielle Price.
