VOLUME 24 NUMBER 1

## Orders Being Taken For Farm Pond Fish

The Caprock Soil and Water Conservation District is now taking orders for anyone in Briscoe County who wants to stock their ponds with fish. The district will take orders until Friday, June 24, so orders must be placed promptly. Fish will be delivered to Silverton in early July.

Prices on fish will be as follows:

3"-5" Channel Cat, 35c each; 6"-8" Channel Cat, 60c each; Blue Gill, 35c each; Hybrid Sunfish, 2"-4" Florida Bass, 65c each; Native Bass, 65c each; Fathead Minnows, \$6.50 per pound.

The Caprock SWCD needs to be able to sell a minimum order of 5000 fish. Contact the Soil Conservation Service, 823-2320, for more information and to order fish.

## USDA Exercises PIK Option For 1983 Wheat

Secretary of Agriculture John R. Block said recently it will be necessary to require wheat producers who do not have sufficient quantities of wheat pledged as price support loan collateral to meet their payment-in-kind requirements to obtain loans on their 1983-crop production.

Producers who have no 1983-crop wheat planted for harvest or who do not have sufficient wheat planted for harvest to meet their PIK requirements will receive payment-in-kind

from other wheat in Commodity Credit Corporation inventory, he said.

Block said all producers who signed a contract to participate in the 1983 PIK program agreed to obtain a loan on their 1983 production for PIK purposes to satisfy program needs if required by CCC. USDA decided to exercise this option after determining there is an insufficient quantity of wheat currently available to CCC to meet PIK needs, he said.

CCC has developed special provisions to permit producers to use their 1983 wheat production for PIK purposes even though they do not have warehouse or on-farm storage available, Block said. The producer must certify to the local county office of USDA's Agricultural Stabilization and Conservation Service that the required quantity was harvested from an eligible farm and has not been sold prior to the certification.

The producer can obtain the loan, redeem the loan collateral and sell it to CCC. The producer then will be eligible to immediately receive the payment-in-kind from CCC inventory. However, these producers will not receive the proceeds of the sale of the wheat to CCC until their PIK availability date, Block said.

Producers with eligible 1983 crop wheat stored in an approved structure on the farm or in a warehouse covered by a uniform grain storage agreement may receive a regular price support loan for the wheat and earn storage payments for up to five months beginning on the PIK availability date.

There are two distinct organizations. The Senior Citizens are only working for the Cemetery Association in the upkeep of the cemetery to raise funds for the purchase of a building for the Senior Citizens. Send your Cemetery dues to the Cemetery Association, and your donations to the Senior Citizens Association.

## WTU Files For Rate Increase

West Texas Utilities Company has filed for a general increase in its electric rates for retail customers.

Local manager Jesse Turner said the application, filed Friday, is a systemwide request for higher rates. Simultaneous filings were made in all incorporated towns and with the Public Utility Commission of Texas at Austin for an increase in rural areas, unincorporated towns and in incorporated towns which have ceded jurisdiction over electric rates.

So far, a total of 19 municipalities served by WTU have opted to let the PUC analyze rate requests and to make decisions for them. These are Albany, Chillicothe, Dickens, Eldorado, Goree, Hedley, Lakeview, Matador, McCamey, Mertzon, Moran, Paint Rock, Roaring Springs, Robert Lee, Roby, Rotan, Rule, Trent and Weinert. WTU has filed complete information about the rate request with each of these towns.

The principal reasons cited for the new rate proposal is that the present rates are not adequate to support the investment WTU has made in necessary new facilities since the last rate increase, Turner said.

WTU's current construction program, the core of which is the coal-fired power plant at Oklahoma, is the biggest and most expensive in the Company's history. By the time the proposed rates become effective, WTU will have invested more than \$84.4 million in new facilities and must spend considerably more in the years ahead to satisfy the growing demand for electricity in West Texas.

The proposed rates would produce an increase in total retail revenue of \$26.6 million. This amounts to 11.4 percent.

No major changes in rate structure are included in the proposal. For residential customers, the average electric bill, including fuel costs, would go up by about 13.2 percent, although the actual increase would vary with the amount of usage.

Mrs. Velma Jones, accompanied by Mrs. Buddy Morris, were in Tulia one day last week on business.

Bobby Monk, son of Dellis Monk of McKinney, spent two weeks in Quitaque visiting his grandparents, Mr. and Mrs. P. John Monk.

Mr. and Mrs. Monk and Bobby drove to Tulia Sunday and visited Mrs. Marie White. At 7:30 Sunday evening, the Monks put Bobby on the bus enroute to San Bernardino, California to visit his mother.

## USDA Extends Offer Period For 1982 Cotton

The U. S. Department of Agriculture recently extended by two weeks—until June 16—the period during which farmers may offer their upland cotton to the government for use in the payment-in-kind program. The offer period was to have expired on June 3.

The cotton originally had been pledged as collateral for USDA Commodity Credit Corporation price support loans. The portion of the offered quantity retained by the farmers for compensation will be free and clear of the loan principal, interest and all warehouse charges, except compression charges, through the date title passes to the farmer.

According to CCC Vice President Hoke Leggett, normal spring planting activities, com-

bined in some areas with uncertain weather conditions, have reduced farmers' opportunities to study their options under the bid offer. Also, Leggett said, "there appears to be a misunderstanding by many farmers now regarding how bidding works, their possible levels of compensation and other technical aspects of the offer."

No other provisions of the original offer announcement are being amended, Leggett said.

"We want to give farmers who have 1982-crop upland cotton under loan every opportunity to offer their cotton to CCC," Leggett said. "We want to avoid requiring farmers to obtain CCC loans on their 1983 crop for PIK purposes, if possible."

## Valley Receives Much Needed Rain

### NEWSPAPER BEGINS TWENTY-FOURTH YEAR

The Valley Tribune begins its twenty-fourth year in Quitaque with this issue of the newspaper, June 16.

### New Residents Move to Quitaque

Mr. and Mrs. Hilton (Runt) Vardell moved their trailer house to Quitaque Tuesday morning, according to report. They have sold their home in Tulia and moved here.

Welcome to Quitaque, Nig and Runt!

Visitors in the home of Mr. and Mrs. Buddy Morris Wednesday of last week were his sisters, Mrs. Arthur Gregg of Amarillo and Mrs. J. T. Witcher of Roswell, New Mexico. Mr. Gregg and son, Odis, both of Amarillo, brought the ladies to Quitaque.

Afternoon visitors in the Morris home were Mr. and Mrs. James May and Mr. and Mrs. Morris Wilson, to visit the visitors.

Although some of the Plains area has received more rain than wanted or needed, the Valley area had not received enough moisture for some of the farmers to plant crops.

June started off with some slight promises. On June 6, the Quitaque area received .25 and on June 8, another .30. On June 9, a half-inch of rain fell with the climax coming Saturday morning, June 11, in the early hours when 1.50 inches of rain fell.

## NOTICE!

The Turkey swimming pool is now open for swimming club members. The hours are from 9:00 a.m. to 10:00 p.m. daily, it has been announced.

Mr. and Mrs. Buddy Morris received word last week they have a new great-granddaughter, Nicole Blakeman, born to Mr. and Mrs. Gale Blakeman of Huntington Beach, California. Mr. and Mrs. Danny Morris of New Braunfels, Texas are the grandparents.

## Subscriptions Due

Many of our subscribers have been with us since we started the Valley Tribune which begins its 26th year at the middle of this month. Since we started this month, many of our subscriptions come due this month. Look at the date next to your name, and if it is circled in red it is time to

renew. The Tribune staff takes the subscriptions out with the first issue of the month and begin circling the due date. The postal service requires the subscriptions be kept up to date. The editor doesn't want you to miss a single issue, so please check the date. Thank you.

### PUBLIC NOTICE

There has been a little confusion as to where to send donations to the Quitaque Senior Citizens Association. If a donation is to be made to the organization, send it to the Association, in care of R. E. (Tate) Boyles, Treasurer, Quitaque, Texas 79255.

There are some who have been sending money to the Rest Haven Cemetery Fund and thinking it was going to the Senior Citizens Association.

**WTSU Spring Honor Roll Is Announced**

Honor roll lists at West Texas State University include 740 students for the spring semester.

The President's List includes 131 students whose grade point averages are 3.85 or higher and 609 students are named on the Dean's List for students whose grade point averages range from 3.25 to 3.84. A perfect grade point average at WTSU is 4.0.

To be eligible for inclusion on the WTSU honor rolls, students must have completed a minimum of 12 semester credit hours during the semester for which they are listed.

Students included on the President's List also are included on the dean's honor roll.

Honor roll students are listed for their academic achievement in their major areas in the School of Agriculture, College of Arts and Sciences, School of Business, College of Education, School of Fine Arts, School of Nursing and Graduate School.

Included on the President's List from Quitaque is Cynthia Griffin, senior general studies major; and Cindy Hawkins, a freshman medical technology major.

**Barbara Holland On President's List at Tech**

Barbara Holland of Plainview was on the President's List this past semester at Texas Tech with a grade point average of 4.0. She is the daughter of Mrs. Rusty Matthews of Turkey and the daughter-in-law of Mr. and Mrs. Mutt Holland.

**Hunter Named To Dean's List At ENMU**

Randell Hunter of Flomot is among 425 Eastern New Mexico University students named to the 1983 spring semester Dean's Honor Roll.

Eastern students receive one of four designations as a Dean's Honor Roll student and are graded on a 4.0 scale. Summa cum laude students have a 3.8 to 4.0 grade point average, while magna cum laude recipients have a 3.7 to 3.79 GPA. Cum laude students hold a 3.6 to 3.69 GPA and students receive "honors" if they have a 3.25 to 3.59 GPA.

Mr. Hunter is a senior theatre major and a summa cum laude Dean's Honor Roll student.

**WITH THE SICK**

Mrs. O. E. (Louise) Chandler entered Nichols Clinic at Plainview May 25 and underwent exploratory surgery May 26, according to report. She is home and improving slowly, she reports.

Vollie Hodges was injured seriously in a freak accident at the Panhandle Compress about 4:00 a.m. Friday when he fell down the steps when trying to open the door in a hard blowing rain. He broke his leg in two places, one break above the knee and the other below the knee, and he received a bad laceration above the right eye, according to report, a fractured nose, a fractured cheek bone and other facial lacerations.

Mr. Hodges managed to get back up the steps and into the Compress office, according to the Emts who took him to the hospital but he was not found until R. J. Harmon went to work at 7:00 a.m. The Quitaque Ambulance was summoned and Elgin Conner, Jimmy Davidson and Walter Wayne Taylor answered the call. Mr. Hodges was taken to Lockney General Hospital where he was given emergency treatment and then sent on to Methodist Hospital in Lubbock.

**CALIFORNIA VISITORS**

Bob and Anita Kay Ochsner of San Luis Obispo, California are visiting this week with her parents, Mr. and Mrs. R. C. Green, and brother, Mr. and Mrs. Keith Green. Sunday visitors in the R. C. Green home also were Mr. and Mrs. J. T. Green and Linda Green of Lubbock.

**LETTER TO THE EDITOR**

Lottie, please convey our thanks for the work done on the Quitaque Cemetery to all who worked there. It warmed our hearts to see how you cherish the memory of our loved ones and yours.

Sincerely,  
Lewis and Mozelle Eudy

Janet and Hal House are still patients at Northwest Texas Hospital in Amarillo for treatment of injuries received in a pickup accident June 5. It is reported that Hal will undergo surgery next week for a dislocated shoulder. The doctors have determined that Janet has a cracked vertebrae and she has been fitted with a brace for awhile. Her numerous bruises and abrasions are healing some, but she has a scratched eyeball which they hope will not cause permanent damage. It was learned that in the wreck she was thrown against a mesquite tree which may have caused this injury. Their daughter, Michelle, is staying with her grandparents in Dimmitt while her parents are in the hospital.

OBITUARIES

MIKE B. WOOD

Mike B. Wood, 32, of Plainview died Saturday, June 11.

Services were held at 11:00 a.m. Tuesday at the Trinity United Methodist Church with the Rev. Tommy Ewing, pastor, officiating. Burial was in Plainview Memorial Park Cemetery, with arrangements directed by Lemons Funeral Home.

Mr. Wood was born in Plainview and was a graduate of Plainview High School. He was active in auto mechanics and had been employed at Wood High-Pressure Cleaning Equipment, where he was a shop foreman. He

was a member of the Trinity United Methodist Church.

Survivors include a son, Jared Wood of Plainview; a brother, Stephen L. Wood of Midland; a stepbrother, Don W. Douglas; a sister, Mrs. John A. (Leah) Smith, jr. of Minden, Louisiana; a stepsister, Donna Douglas of Lubbock; his parents, Mr. and Mrs. Berry Wood, jr. of Plainview; his grandmother, Mrs. Oma Martin of Plainview. Mrs. Berry Wood is the former Betty Ruth Merrell.

Those attending the funeral service from Quitaque were Mr. and Mrs. Truman Merrell, Miss Gladys Stroup and Mrs. Jake Merrell.

Mr. and Mrs. Murry Morrison and Joe drove to Clarendon Sunday and spent the day visiting Mr. and Mrs. Mike Spier and children. They attended the music recital in which the grandson, Darren, was a participant.

MEDICARE'S NEW PROSPECTIVE PAYMENT SYSTEM DESCRIBED

by John A. Daeley Regional Director Region VI

U. S. Department of Health and Human Services

The President recently signed into law legislation which he had

proposed to the Congress to provide a new payment system for hospitals, under Medicare. That new system is called Prospective Payment and likely will go into effect on October 1, 1983.

Under the new system, Medicare will set its payment rates in advance rather than paying hospitals, after-the-fact, for whatever costs they incur in treating Medicare inpatients.

The new "prospective" rates will vary according to a patient's diagnosis, but payment for a given diagnosis will be the same for all hospitals, adjusted for local labor costs. The new system will not change Medicare's benefits for individuals, and the high quality standards will be maintained.

Under the present system, hospitals have no real incentive to deliver efficient service. In fact, as Congress recognized, the incentives are backwards. The current system actually rewards excessive costs and inefficiency because it pays virtually whatever the hospital asks.

Also, the present system has led to wide variations in what Medicare pays for a similar treatment. For example, Medicare payments for treating a heart attack can average \$1,500 at one hospital and \$9,000 at another, with no apparent difference in quality.

Medicare's present pay-on-demand reimbursement system has been an important factor in causing health care costs to soar, and that hurts every American. As the administration realized, it is time for Medicare to become part of the solution to health care inflation, and cease being part of the problem.

Under the new "prospective" payment system, with uniform Medicare rates set in advance, hospitals will be induced to operate efficiently. If a hospital's costs are lower than the prospective rates, the hospital can keep the difference. If, however, its costs are higher than the rates, the hospital will absorb the difference. Hospitals will be prohibited from billing Medicare patients for costs of covered services above the prospective rates, except for existing deductibles and coinsurance.

Probably the most important aspect of this new plan is to provide the incentive for hospitals to take action on their own. Prospective payment does not

tell hospitals what to do, but it does finally put the incentive for better management and cost-effective quality care where it belongs, at the hospital level. The hospitals themselves will act to become more efficient, and that will benefit all health care consumers, not just Medicare beneficiaries.

Hospital capital costs will be treated separately from the new prospective system, and special provisions will also be made for hospitals where costs are higher due to medical education costs. Special reimbursement will be allowed for the small number of special cases in which costs far exceed the prospective rate for reasons outside the hospital's control.

A diagnosis-based system was chosen because it offers the best opportunity for inducing cost savings in hospital services with-

out diminishing the quality of care afforded Medicare beneficiaries.

The new system will use 467 "diagnosis related groups" (DRGs) to classify illnesses and treatments. Different rates will be set for each DRG, so that a hospital treating more difficult conditions will be paid accordingly.

In developing the new system, demonstration programs were used since 1972 to try out prospective payment. We found that it works and that it provides the needed incentive to hold down hospital costs while continuing to provide the best health care.

A new system for Medicare reimbursement to hospitals had become necessary because the high inflation in health care costs were, and are, threatening not only the Medicare program, but

potentially also the quality of care and access to care for all Americans. It was imperative that the government act to bring health inflation under control, and we firmly believe this new system is a crucial step toward that goal.

The banana does not grow on a tree. It grows on an herb—the largest known of all plants without a woody stem or solid trunk.

DAD IS KING

MATTHEW HANNA

Leadership Is Quality That Characterizes Matthew Hanna

Leadership is the quality that has characterized Matthew Hanna through his high school years at Wellington.

He is a nephew of Mrs. E. L. Geissler of Turkey, and his parents are Mr. and Mrs. Gene Hanna. All the Hannas are formerly from Turkey.

Matthew was president of the senior class, president of the Future Farmers of America Chapter, and was Student Council vice-president.

He was a member of the Skyrocket Varsity football team (the Wrecking Crew of '82) and was selected for the District 2-AA All-District team with double honors. He was named both offensive and defensive lineman. He was also a team captain.

Matthew has been an honor roll student. He belongs to First Baptist Church.

He was born in Wellington February 24, 1965.

He has attended only the Wellington Schools.

His hobbies are hunting, fishing and riding motorcycles.

Outside of school, he works as a farm hand for Danny Watts.

Matthew is undecided if he will attend college next year.

Miss Gladys Stroup spent the weekend in Pampa visiting her brother and family, Mr. and Mrs. Jack Stroup.

Mrs. Horace McDonald, Mrs. Ike Reed and Mrs. E. G. Reed drove to Wichita Falls and spent Friday night. They drove to Saint Jo Saturday morning where they were joined by E. G. Reed, and they all attended the annual cemetery working. They met many old friends and enjoyed the day. They returned home that evening.

James Barefield is at Central Plains Hospital in Plainview undergoing a series of tests this week. His wife is with him, and Mrs. Horace McDonald is working at Caprock Home Center.

Mr. and Mrs. Clovis Hill of Amarillo visited her parents, Mr. and Mrs. A. C. Barrett, in Quitaque Sunday.

Mrs. Lewis Eudy and Mrs. David Guest spent Thursday in Plainview.

Mr. and Mrs. Allen Matthews have returned from a month's visit in Lindale and Garden Valley. They attended a family reunion and visited with relatives and friends. They visited with the Leroy Hamiltons' sister, Ivie (Pat) in Lindale. She is a cousin of Sabra Setliff.

The famous painting of Washington crossing the Delaware was actually done in Dusseldorf, Germany with the Rhine as a model of the river.

10 YEAR NO SWEAT WARRANTY

If Air Conditioning doesn't have it here it probably doesn't have it.

Gas Air Conditioning Has It!

No other air conditioner has a warranty like a gas air conditioner because no other air conditioner is built like a gas air conditioner.

Gas air conditioning has fewer moving parts and no compressor to wear out or break down. This means less wear and tear and lower maintenance costs.

That's why gas air conditioning is so dependable and why it has a warranty that's twice as long as other types of units... a full 10 years!

Find out more about the air conditioning that's backed by the best warranty available. Call Energas today for a free cooling survey and cost estimate. There's no obligation.

Remember, all air conditioning was not created equal. And we have the paper to prove it!

Manufacturer's limited warranty covers all defects in materials and workmanship on the sealed refrigeration unit for ten years from the date of installation of the air conditioner when it is installed in a single family residence. All other parts are warranted for one year from date of installation.

LAURA BOWMAN

### "Teamwork" Is Key For Extension County Director

In a small office tucked away in the corner of the county building at a desk behind a dozen or so mounds of paper, she sat pondering a four-year extension plan of work.

One wall of west-facing windows in her office framed a beautiful panorama of the Colorado Rockies—an inspiration to something, but not necessarily a plan of work.

Laura Bowman was juggling her time that day among the staff plan of work, her contribution to a long-range capital improvement projection for the county, employee conferences and this interview.

"A team effort" is the way she described her leadership for the Colorado State University extension program in Arapahoe County. The extension program services the diverse needs of the 11-mile-wide, 72-mile-long county whose population is agriculturally oriented in the east and "downtown metropolitan" in the west.

Bowman, who has directed the program in Arapahoe County since 1976, manages a staff of 24, not counting the numerous volunteers and other leaders who help keep the extension program functioning.

Bowman has a home economics background and was employed in Arapahoe County as an extension home economist for 18 years before she became county director. She said the basic management principles she learned through her home economics training helped pave the

committees, district directors, CSU specialists, department heads, deans, extension administrators and others involved with extension programs—at the county, state and federal level—way for this job.

Working with staff members, volunteers, leaders, 4-H'ers, clientele, county commissioners, county staff members, advisory

means you must have "teamwork," Bowman said.

"It takes professionals who are self-motivated, flexible, creative thinkers. One of my goals is to have that kind of outstanding staff," she stressed.

"I'm working on building personal strengths to get the maximum benefits from each person—not change personalities."

## CAPITOL UPDATE

*John Tower*  
U.S. SENATOR for TEXAS  
WASHINGTON, D.C. 20510

After weeks of protracted debate, the Senate finally passed its version of the first Budget Resolution for the coming fiscal year. Unfortunately, it is seriously flawed, failing to meet the most basic requirements for a responsible federal budget.

It provides insufficient funding for our program to restore our national defense capability. During the past two years, we have begun to make up for the serious neglect of our national security during the 1970s, a neglect which led to an alarming deterioration of our capability in comparison to that of the Soviet Union.

This year, President Reagan asked for an increase which amounted to 10 percent after inflation. He did so because that level of funding for this year would allow us to pay for our modernization effort in a cost-effective way, rather than stretching our programs over a longer time so that they ultimately are more expensive.

The Senate not only rejected that increase, but it also rejected the 7.1 percent increase which would barely fund the minimum requirements for continuing to progress in this vital area.

Second, this budget resolution calls for unacceptably high increases in taxes. The revenue figures called for in the Senate resolution would require an additional \$75.6 billion in taxes over the next three years. Reaching this level of taxation would require at least a cap on the amount of the July tax cut and a repeal of indexing. To repeal indexing would put wage earners in a position of facing ever-higher tax brackets because of inflation. Both of these steps are completely unacceptable.

In passing the economic recovery package which included July's tax cut and future tax indexing, we made a promise to the American people, a promise they expect us to fulfill. Even if the Congress should vote to break this promise, the President is pledged to veto any tax legislation which voids the promised tax relief. This means that the tax portion of the Budget Resolution is not only irresponsible, but also meaningless, because it is clear to everyone that a Presidential veto on this subject could not be overridden in Congress.

Finally, the Budget Resolution calls for \$47.3 billion more in spending for domestic programs over three years than the President requested. It was the uncontrolled growth of this kind of spending which caused the serious deficit crisis which we are facing now. In fact, previous Administrations even referred to most domestic spending programs as "uncontrollable."

For the past two years, we have made some progress in getting control over the rate at which spending for domestic programs has grown, but we have not come so far that we can consider the problem solved. Increases of the magnitude called for in the Senate resolution actually reverse the trend we have begun.

We will not compromise our obligations to elderly Americans, the disabled and those most needy in our society, but the American people have made clear their mandate that we control the size, scope and cost of government.

This Budget Resolution fails to do that, or to meet our other basic obligations as a government. Fortunately, this resolution is not binding. I fear that its shortcomings will defeat the purpose of having a budget resolution, but even so, we must not let its flaws be enacted into law through the appropriations process.

Apple pie is the most popular dessert in American restaurants.

Rev. George Price, Karen and Caleb Luke Price

## Rev. Price Delivers Baby Boy In Car

(taken from a story in the Tulia Herald)

"Although the baby was ten days late, it was about thirty minutes early this morning," Karen Price said Monday, June 6, from her bed in Swisher Memorial Hospital.

She and her husband, Rev. George Price, started the 60-mile trip to Tulia about 6:00 a.m. Monday when she decided it was near the time of the birth of her third baby.

Although the Claude Methodist pastor drove as fast as the little two-door Pontiac would go, he had to stop just west of Vigo Park and deliver the baby in the back seat of the car.

Mrs. Price said it was a great coincidence that the evening before she and her husband had watched a TV program in which a similar incident happened . . . "we knew to lay the baby on my stomach, wrap it up good and let the doctor and nurses do the rest."

Rev. Price is the son of the Levelland funeral home owner and in his high school days aided a lot of emergency ambulance runs . . . so he had some previous experience.

"I feel that I'm qualified for a promotion from Rev. to Dr. now . . . and should be addressed as Dr. Price," he said jokingly.

Dr. L. S. Foreman told Rev. Price, "you could have probably got here sooner, if you hadn't stopped to baptize the new baby!"

Why go 60 miles for delivery?

Mrs. Price said, "when we lived at Quitaque, Dr. Foreman delivered our second son . . . we liked him and the Tulia hospital . . . we like the nurses . . . it's just a good place to go for maternities."

The new son weighed nine pounds, 1 1/2 ounces, and was named Caleb Luke. The new-comer has two older brothers, Jeremy, six, and Zachary, two. A

next-door neighbor took care of the brothers when the couple made their hasty exit out of Claude Monday morning.

Mrs. Price's father is Virgil Kelly, superintendent of schools at Denver City. She and her

husband are graduates of McMurry College, and Rev. Price also has a BD degree from Asbury Seminary in Wilmore, Kentucky.

### NEW ARRIVAL

Mr. and Mrs. Tony Maxwell are the parents of a son, Jason Ray, born Friday, March 4, at Childress General Hospital. His weight was seven pounds and five ounces. The grandparents are Mr. and Mrs. Eddie Maxwell and Mr. and Mrs. Duane Campbell. There are four sets of great-grandparents: Mr. and Mrs. J. W. Maxwell, Mr. and Mrs. J. F. Isaacs, Mr. and Mrs. Richard Campbell and Mr. and Mrs. Gene Hanna.

All these live in Wellington. Jason has three great-great-grandmothers, Mrs. Lettie Hanna and Mrs. Merle Carter of Wellington and Mrs. Jettie Hulen.

### NEW ARRIVAL

Mr. and Mrs. Johnny Butler of Hereford are the proud parents of a new "red haired" daughter, Jennifer Aaron, born Wednesday, June 8, 1983, at 2:30 a.m. She weighed 7 lbs. 9 ozs., and measured 20 inches.

She has a brother, J. Dale Butler.

Grandmother is Mrs. Mildred Hulsey, and great-grandmother is Mrs. Della Tant.

She is the granddaughter of the late Mr. and Mrs. M. M. Hanna of Turkey.

### LACLECHE LEAGUE TO MEET JUNE 20

If you have considered breast-feeding your baby, but have questions about this womanly art, contact the Silvertown LaLeche League. This month's meeting will be held Monday, June 20, at 7:00 p.m. at 906 Sixth Street in Silvertown.

For further information, call 823-2190.

Mr. and Mrs. James May were in Memphis Saturday where they visited a friend.

## Kimbell Reunion Held Sunday

The annual Kimbell reunion was held at the Quitaque Community Center Sunday. The day was spent visiting, eating and looking at old photographs.

Those present were Mr. and Mrs. James Kimbell, Mr. and Mrs. Joe Edd Smith, H. G. Boyles, Lillian White, Margie Boyles, Minnie Roberson, Yolan Roberson, Jim Stell, Maynard Wilson, Lela Mae Hutcheson, J. B. Tiffin, Joe Kirk Smith, Quitaque; Mr. and Mrs. J. J. McCay, Amarillo; Mrs. Jewel Mayfield, Sue and Mitzi Ferguson, Lubbock; J. C. Betty, Andy and Jeff Mabry, Genella Holcomb and Floy Hayes, Tulia.

Others were Kelly and Amanda Gentry, Snyder; Teresa Jackson, Abernathy; Larry and Sue Rawls, Dimmitt; Scott Rawls and Janis Hutcheson, Las Vegas, Nevada; Michelle Cerci, Rex and Connie Faulkner, Causey, New Mexico; Georgia Tilton, Brownfield; Eugene Kimbell, Plainview, and Jana Boyles, Turkey.

## Sanders Reunion Held At Caprock Canyons State Park

The family of Mr. and Mrs. Sam Sanders of Hedley met at Caprock Canyons State Park north of Quitaque for a reunion over the weekend.

Those present were Mr. and Mrs. Jim Fowler, Portales, New Mexico; Mr. and Mrs. James Potts and sons, James Edward and Timberly, and grandson, James Lee Potts, Joyce Woodard and daughter, Twana, and her son, Randy, and Bobby Lindsey, all of Hedley.

Mr. and Mrs. Charlie McGuire, Michael and Melanie, Amarillo; Mr. and Mrs. Billy Wiggins, Billy, Cody, Phillip and Michelle, and a friend, Terry, all of Wheeler; Mr. and Mrs. Kenneth Housdon, Ricky, Carri, Angie and Evatt, all of Snyder; Mr. and Mrs. Terry Simpson, Jody and Deana, Panhandle; Mr. and Mrs. Jarrell Rice, Mike, Nadine and Walt, Quitaque.

The group enjoyed hiking, picnicking and just having fun. They thought the park was beautiful, according to report, and they bragged about the courtesy of the Park personnel.

Mr. and Mrs. Corky Morris of Dimmitt spent Saturday and Saturday night in Quitaque visiting his parents, Mr. and Mrs. Buddy Morris. They left Sunday morning and were to visit her mother, Mrs. Robert Rhea, in Silvertown enroute to their home.

Mr. and Mrs. John King spent last week at their home in Quitaque. They spend most of their time on Lake Stamford at their home there. They drove to Roswell, New Mexico to visit his sister and husband, Mr. and Mrs. Roy Winton. They were met there by John's brother and wife, Mr. and Mrs. Joe King, of Dumas.

The John Kings went back to their lake home Saturday.

Dr. Jay Stone and two associates of El Paso visited Friday with his parents, Mr. and Mrs. Leroy Stone. Dr. Stone is an entomologist for Texas A&M University and they were on a research tour.

Mr. and Mrs. Buster Hanna and Mr. and Mrs. Leroy Stone recently spent two weeks visiting the ladies' sisters, Mr. and Mrs. Dallas Farley in Bakersfield, California, and Mrs. Ray George in Grants Pass, Oregon.

Mrs. John Couchman and children of Amarillo spent a recent week visiting her parents, Mr. and Mrs. Aubrey Turner.

Billy Pinkerton is in Amarillo for treatment, but has not entered a hospital. He spent several days last week there also. Mrs. Pinkerton is with him.

Mr. and Mrs. Chester Strickland of Lubbock and Mrs. Gordon Montague of Plainview visited in the R. C. Green home Tuesday.

Mrs. Velma Jones drove to Amarillo Monday and spent the night with her daughter and family, Mr. and Mrs. Roger Arnold and Kelly. She returned home Tuesday.

## PUBLIC NOTICE

In compliance with Sec. 43(a) of Art. 1446c, V.A.C.S., West Texas Utilities Company hereby publishes NOTICE that it has filed, on June 10, 1983, its Statement of Intent to make changes in its retail rates charged for electricity and services sold and rendered inside and outside municipal jurisdictions, such proposed changes to be effective July 16, 1983. Such Statement of Intent includes the proposed revisions of tariffs and schedules and a statement specifying in detail each proposed change, the effect the proposed change is expected to have on the revenues of the Company and the classes and numbers of utility customers affected. Systemwide retail adjusted annual revenues are expected to be increased 11.4 per cent by the new rates. Statements of Intent were filed with the Public Utility Commission of Texas and with the following municipalities:

Abilene	Haskell	Quanah
Alpine	Hawley	Quitaque

MR. AND MRS. CARTER TREW

### Jana Smith Becomes Bride of Carter Trew In Home Ceremony

Miss Jana Smith, daughter of Joe Edd and Janelle Smith of Quitaque, and Carter Trew, son of Don and Barbara Trew of Palo Pinto, Texas, were united in

marriage Saturday, June 4, 1983 at the Smith home in Quitaque.

The double-ring ceremony was performed by the Rev. Cliff Cooper of Afton, Texas.

Given in marriage by her father, the bride wore a street-length dress of ivory chiffon and embroidered lace. She added a pouf veil of fingertip length. She carried a bouquet of ivory lilies and ivy greenery.

For something old, the bride wore her mother's wedding band. Something borrowed was her hat and veil, which belonged to Charlotte Trew. A garter with blue ribbon crocheted by Mrs. Willie Woods, the bride's grandmother, was something blue, and something new was her wedding gown.

Brenda Coker of Lubbock was maid of honor.

Greg Henley of Lubbock served as best man.

A reception followed the ceremony. The bride's table was set with the traditional wedding cake, made by the bride's cousin, Cheryl Cooper. It was served with frosted punch.

The groom's table featured fruit, melon balls, stuffed tomatoes, sausage balls and cheese which was served to the guests.

After a honeymoon trip to Ruidoso, New Mexico, the couple is at home in Canadian, Texas, where the groom is employed by Bartlett Lumber Company.

### Bridal Shower Held In Home Of Mrs. Ottis Mullin

A bridal shower for Miss Misty Nickal of Colorado City, bride-elect of Brum Pinkerton of Turkey, was held in the home of Mrs. Ottis Mullin Friday, June 10, from 4:00 until 5:00 o'clock in the afternoon.

Assisting Mrs. Mullin with hostess duties were Mmes. Billy Fuston, Thomas Fuston, Charles Payne, Billy Shannon, H. E. Mullin, jr., Claude Wilson, Doc Conner, G. P. Driskill, Jesse M. Browning, Darrell Couch, James Fuston, Reona Holcomb, Bobby Clay, Don Mills, David Setliff, Hubert Price, Tom Eudy, Milton Cotton and J. T. Mullin.

The serving table was covered with a white lace cloth over an apricot cloth. Pastel colors were used in decorations. The table was centered with a lovely arrangement of silk flowers in pastel colors flanked by candles. Punch, coffee, coffeecakes and mixed nuts were served.

The honoree received a lovely array of gifts, including a vacuum cleaner from the hostesses.

Among out-of-town guests present were Mrs. Ruth Moore of Loraine, grandmother of the prospective bridegroom, and Jule Daniel of Enid, Oklahoma, Brum's cousin.

### UMW Sponsors Luau at Methodist Church in Turkey

The Turkey United Methodist Women sponsored a Hawaiian Luau in the fellowship hall of the church Monday night, as an outgrowth of the study on the Pacific Islands. Many of those present were dressed in native costumes or wore shirts from Hawaii.

Faye Armstrong, study leader, assisted by Melinda Hinkson and others, worked out details for the meal and program. The Armstrongs spent five years as missionaries in Hawaii and Melinda grew up there and her parents still live there.

Several brought things they had bought in Hawaii when they visited there. Mr. and Mrs. John Adamson brought a picture of them and tourmates taken in 1962 and Mayme wore the mumu she got at that time. Totsey and Gordon Bain, Mary Beth and J. R. Adamson had also toured the Islands. There were two tables of articles on display.

The hall and tables were beautifully decorated in the Hawaiian theme. The menu consisted of roast pork, chicken dishes, fish, rice, mangos, coconut, pineapple and many salads of all types and other native dishes.

The program consisted of several Hawaiian dances by Melinda Hinkson and several by another who had spent five years in Hawaii with her parents. Her daughter, Rolanda, danced the first one with her.

Everyone reported a great time and learned a lot of new things about the 51st state.

Lewis Eudy presented a "pounding" brought by members for the pastor and his wife, W. L. and Faye Armstrong. Among the gifts of food was an ice cream freezer. Eudy expressed appreciation to the Armstrongs for the leadership and welcomed them back for another year and hopefully more, as pastor and wife.

### "We The Women" Have Luncheon

The "We The Women" organization met Monday, June 13, in regular session. The ladies present served themselves to a buffet salad luncheon, then Mrs. Randy Stark called the meeting to order in the absence of the president, Mrs. O. R. Stark, jr., who is on vacation.

Mrs. Janice Henson led the group in prayer.

Mrs. R. E. Boyles gave a financial report, followed by the reading of the minutes from the last meeting by Mrs. Mike Grebenik.

Mrs. Henson gave a report on the result of the judging of the "Beautify Texas" statewide contest in which Quitaque participated. Mrs. Henson and Mrs. Scotty Stark are going to Lubbock to participate personally Thursday and Friday of this week in the results of the beautification project. The former winners are to show brochures and discussions are to be presented by former winners for the benefit of those attending for future years projects.

Mrs. Lela Mae Hutcheson received the "Yard of the Month" recognition.

Mrs. Boyles gave a report on the progress of the Senior Citizens organization.

Mrs. Lynda Fogerson, Briscoe County Extension Agent, gave the program on the "Anatomy of a Closet." She gave each one present a design of several closet arrangements from which those present might apply ideas to their own use. She also showed many more arrangements.

The meeting was closed with a prayer by Mrs. R. J. Harmon.

## Estate Planning Seminar To Be Held In Tulia Monday Night

An Estate Planning Seminar, sponsored by the Extension Service offices in Briscoe, Castro and Swisher counties will be held Monday night, June 20, at the Swisher Memorial Building in Tulia at 8:00 p.m.

Speaker will be Dr. Wayne Hayenga, an Extension economist and an attorney from College Station. He will cover such topics as income tax savings, gift tax savings, small corporations and family business, and will explain many tax advantages provided by the Economic Recovery Act.

Dr. Hayenga is very knowledgeable in this field. He conducted a program on Wills and Trusts in Quitaque about a year ago and has conducted numerous estate planning programs across the state. There is no cost for this program and families are urged to take advantage of this excellent opportunity for this type of legal information.

Educational programs of the Texas Agricultural Extension Service serve people of all ages regardless of race, color, sex, socio-economic level, religion or national origin.

## Pecan Orchard A Success In Silverton

Ware Fogerson realized several years ago that irrigating cropland might not always be feasible due to pumping costs and the declining water supply. With this in mind, he began to look for an alternative farm operation on his place south of Silverton.

Fogerson chose pecan trees and began a small orchard about 25 years ago. Planting a few trees every year, Fogerson has built an orchard that covers almost 20 acres. The 851 trees that are in the orchard include pecan varieties such as Western Sly, Mohawk, Shoshone, Wichita, Posneck and 54B. Also found in the Fogerson orchard are five English walnut trees. All of the trees look healthy and productive.

Fogerson says that the success of his orchard is mainly due to a drip irrigation system he installed several years ago. Designed by Leon New of the Texas Agricultural Extension Service, the drip irrigation system provides water directly to individual trees. This system has cut his watering expenses considerably, is almost trouble free, and is very easy to operate. "I just punch a button and open a couple of valves," says Fogerson.

The drip irrigation system provides some additional benefits besides more efficient watering. Since water is applied directly to each tree, weed problems are kept to a minimum. Roundup is used at a rate of one ounce per gallon to control any weeds that come up.

To keep his pecan trees healthy, Fogerson sprays them with zinc every two weeks starting with bud break. Five applications of zinc, applied every two weeks and sprayed directly on the leaves, is the recommended treatment. Fogerson mixes zinc NZN at a rate of 1 1/2 quarts per 100 gallons of water or two pounds of zinc sulfate per 100 gallons.

When planting young pecan trees, Fogerson recommends digging a hole about the same size as the root mass, and just deep enough to put the tap root on hard subsoil. Fogerson does not add any sand, fertilizer, or starter in the hole, but he does fill the hole half full of water before covering the tree roots with soil.

The drip irrigation system is then used to apply about 10 gallons of water per day to each young tree. The drip irrigation system delivers the water at the precise location and rate to really make the young trees grow fast, and increases their survival rate. Last year, Fogerson had a 100 percent survival rate of his newly-planted pecan trees, due mainly to the drip system.

For more information on drip irrigation systems, contact the Soil Conservation Service in Silverton, or go by and see the display of drip irrigation equipment in the front window of the SCS office.

### The Fast, Easy Way To Light Charcoal

When it comes to lighting charcoal briquets, you'll never get a faster start—until you've tried a chimney lighter. Even first-time barbecuers won't have a problem lighting briquets. Chimney charcoal starters are the professional way to light charcoal. They are easier, quicker and more economical than other traditional starting methods.

With the Chimney Quick Superfast Charcoal Starter, a leading chimney charcoal starter, two to four pounds of briquets are cooking-ready in just 6 to 15 minutes without the fuss, mess and expense of liquid, or solid lighter fuels. That's less than half the time it takes with the other methods—and it's safer, too!

In a cost comparison, the Chimney Quick proves it can really save you money. Lighting costs range from 20¢ premium per pound for instant lighting briquets to 30¢ to 60¢ per cookout with liquid starter and standard briquets. The cost per cookout with the Chimney Quick is one piece of newspaper and a match, after the one-time purchase price of \$10-\$15.

To use—pour charcoal into the top section, above the wire grate. Place one sheet of crumpled newspaper in the bottom below the grate and light the newspaper with a match. In just a few minutes, the charcoal is fully lit and up to cooking temperature. Then, pour the briquets into the grill and start cooking!

## AMERICAN CRAFTSMANSHIP

YOU CAN BUILD IT BETTER WITH STRAIGHT LUMBER

Consistently straighter than solid length lumber is finger-jointed lumber. Experts say it's ideal for light framing, modular construction, decking and forms, wherever construction speed and straightness are paramount.

Moreover, finger-jointed lumber is as strong as non-jointed lumber of the same grades for the same applications—and is fully interchangeable. The joints from St. Regis, for example, are precision machined, then pressure-jointed with an exterior adhesive. The adhesive is "Radio Frequency cured." The result: complete joint integrity by 100 percent in-line pull testing—a U.S. industry exclusive for St. Regis.

Finger-jointed lumber is generally more stable than solid lengths. The use of shorter pieces offsets stress, warp and twist. It also gives excellent performance in hot, humid climates and wet/dry exposures.

Going to great lengths to give you straight lumber, St. Regis is backed by six

Finger-jointed lumber from a quality lumber company is generally more stable than solid lengths. That's because the use of short pieces offsets stress and warp.

million acres of timber-land. It is also one of the world's largest producers of 2"x4" studs and dimension lumber, and a major producer of trusses and treated straight lumber.

## Make Playtime A Safetime

1. Always fly kites and model airplanes on days when there is no rain. Always use wood, paper and dry string in your kite... not wire or metal.
2. Always fly kites and model airplanes away from electric power lines and TV, CB and radio antennas. Avoid busy streets and highways while flying your kite.
3. Only climb trees that are far away from wires... never climb utility poles, substation fences or transmission towers. Always keep away from fallen wires.
4. Build tree houses only in trees that have no wires running through or near them.
5. Use a safe target for accuracy games... never shoot or throw anything at wires, insulators or transformers. Call WTU if anything gets snagged in a power line... don't try to remove it by pulling or poking it or climbing the power pole.
6. Be careful when you dig... some electric lines are buried.

WEST TEXAS UTILITIES COMPANY

Remember WTU supplies you with electric energy, but only YOU can use it Safely...

THURSDAY, JU  
Sena  
AUSTIN — regular session Legislature is time to reflect accomplishment the session affect the peop 31. Several hund resolutions wer both the Texas the House of tives. We at sponsored mo bills and resolu were introduc Houses. Seven the bills and re wrote and sp soon become la We were pleas passage of sev sponsored whi juvenile board tric. Recen legislation ca creation of ju in Sherman, Ha Parmer, Cas Swaher, Lamb

**Senator Bill Sarpalius**

**Reports**

**LOCAL LEGISLATION**

**AUSTIN** Now that the regular session of the 68th Legislature is history, it's time to reflect on the key accomplishments made during the session which will affect the people of District 31.

Several hundred bills and resolutions were passed by both the Texas Senate and the House of Representatives. We authored and sponsored more than 80 bills and resolutions which were introduced in both Houses. Seventy percent of the bills and resolutions we wrote and sponsored will soon become law.

We were pleased to see the passage of several bills we sponsored which will create juvenile boards in our district. Recently approved legislation calls for the creation of juvenile boards in Sherman, Hartley, Bailey, Farmer, Castro, Hale, Swisher, Lamb, Dallam and

Hansford Counties.

Senate Bills 132 and 1269 which we sponsored, and which call for the establishment of the Palo Duro Water District and a Buffalo Lake Water District, have been approved and sent to the Governor.

We gained final approval on our legislation aimed at protecting the Panhandle from the threat of nuclear waste. The Legislature approved strict guidelines for the drilling of mine shafts, and said that the dumping of nuclear waste would be prohibited if it appeared threatening to our natural resources.

A statewide work release program, which was largely modeled after the Potter County Work Program, has been adopted. The bill, which we sponsored, will help ease the problem of prison overcrowding, and it will allow the nonviolent offender to pay for his part-

time incarceration and repay the victim of his crime.

In the area of higher education, we received approval of our bill which would allow Frank Phillips Jr. College to expand its tax base by annexing county territory. We also made changes in the law which will help West Texas State University and other universities complete construction, repair and rehabilitation projects with more ease.

Legislation which we sponsored relating to the Wheeler County Water Supply District was also approved, as well as a bill dealing with the acquisition, administration and sale of materials and equipment by the soil and water conservation districts.

A voluntary registry, which we worked hard on, has been approved by the Legislature. It creates a centralized network where consenting adoptees older than 21 and consenting birth parents could seek assistance in locating one another.

We were also fortunate to gain approval on legislation directing the Texas Department of Human Resources to implement program models, designed to improve the delivery of services to victims of family violence in geographically isolated and under served areas of the state.

Legislation which sets minimum staffing requirements and vehicle standards for emergency medical services also received final approval in both Houses.

One of the major statewide issues which we sponsored dealt with DWI reform. We are proud lawmakers voted to take a strong stand against drunken drivers in Texas.

Our dogfighting legislation, which makes dogfighting a felony offense in Texas, was also approved by the Legislature.

There were many significant issues facing the 68th Legislature when it convened in January. Many of the issues gained the attention of our state lawmakers. We are proud to have had a part in the 68th Legislature. We feel it was a success for the people of our district and all the people of Texas.

If you have any questions or comments about the legislation we authored or sponsored, please contact us by writing, Senator Bill Sarpalius, P.O. Box 12068, Austin, Texas 78711.

The human body is built around a frame containing 206 bones. The whole works is linked together with 60,000 miles of blood vessels.

**CANCER ANSWER LINE**

American Cancer Society  
M. D. Anderson Hospital  
and Tumor Institute

**Question:** Does alcohol consumption increase the risk of breast cancer?

**ANSWERline:** A group of Boston University cancer researchers found an association between drinking and breast cancer, but it was inconclusive. They studied 4,373 women in the U.S., Canada and Israel for four years. Women with breast cancer, numbering 1,152, were questioned about drinking. Their answers were compared with those of women with other forms of cancer and women with other diseases. Drinkers of beer, wine, and spirits were estimated 1.4 to 1.9 times as likely to get breast cancer as those who didn't drink.

**Question:** Does an inverted breast nipple indicate the presence of cancer?

**ANSWERline:** This condition is not necessarily abnormal. However if nipples which once were erect have now become inverted, this unusual change should be brought to the attention of one's doctor immediately.

**Question:** Is there a test for prostate cancer similar to the Pap test for cervical cancer?

**ANSWERline:** No, there is not. The only way to determine conclusively if a tumor is malignant is by biopsy, or the surgical removal of a small piece of tissue from the suspected growth for microscopic examination. But by doing palpitation a doctor can feel an irregular or unusually firm area that may indicate a tumor. Then the doctor may use other tests such as X-rays, urine or blood analysis. Research with semen analysis for detecting prostate cancer is still in progress.

*Do you have further questions? Call your local unit of the American Cancer Society or call M. D. Anderson Hospital & Tumor Institute's Cancer Information Service, 1-800-392-2040 toll-free in Texas, 792-3245 in the Houston area.*

**FISHING TIPS FROM THE PROS**

**Record A Prize Winner**

You've had the good fortune to land a prize-winning fish. Now what do you do to record your catch?

First, make sure you landed the catch legitimately from hook-set to boating your catch. If someone held your rod even for just a moment, your catch will be disqualified.

To register your catch, experts Bill Dance and Roland Martin, members of the DuPont "Stren" Pro Fishing Team, suggest that you:

- 1) Call a State Fish and Game official to oversee the verification process.
- 2) Look for a scale at the dock or in a nearby bait and tackle store or even the butcher or supermarket.
- 3) Weigh your catch on an accurate scale, one that has been certified within the past six months.
- 4) Photograph your fish.
- 5) You need a witness, so if you don't have the Fish and Game official with you, get a signed statement from a disinterested party who can verify the weight.
- 6) Set aside the entire reel until the pound test of your line can be verified.

For a free booklet on record catches for species in your state as compiled by Sports Afield, send a self-addressed, stamped envelope to: "Record Catches," Du Pont Stren, Room G-39878, Wilmington, Delaware 19898.

**NEWS OF SPORTS**

Paraskiing is a relatively new sport that is hitting—literally—ski slopes in some of the most treacherous mountain ranges of the United States.

Paraskiing is an unlikely combination of two sports—skydiving's jumping-for-accuracy and skiing's giant slalom racing.

Sometime's called the "hit-and-ski" sport, paraskiing will debut this winter at the Camel Ski Adventure events at 28 ski resorts in the United States.

Jumping out of airplanes flying at 2,500 feet, paraskiers try to hit a 5 centimeter disk in the center of a 5 meter target area. They quickly put on their skis and then race down a giant slalom course.

Some jumpers go bare-foot, but most wear sneakers. The cold snow can cause numbing frostbite—a liability that could prevent skiers from competing again.

The name vinegar comes from *vin aigre*, French for "sour wine" which is what vinegar is, or was originally.

The Amazon river has 1,100 tributary streams.

**Prof Ready To Start 38th Summer Tour**

Dr. Charles Townsend, professor of history at West Texas State University, spends his summers re-living the "Old West." For the 38th summer, Townsend will travel the Rocky Mountain circuit to serve as announcer and master of ceremonies for rodeos and roundups.

His schedule begins in mid-June and continues until just a few days before registration for the fall semester in August. "Summers away from WTSU enhance my teaching and I'm ready in the fall to return to students," said Townsend who will announce 11 rodeos in Colorado and one in Oklahoma.

Townsend, known as "Bud" on the circuit, is a sanctioned announcer by the Rodeo Cow-

DR. CHARLES TOWNSEND

boys Association. His rodeo career began when he started riding bulls at age 14 and announcing at 16.

He financed his college education and supported his young

family with his summer earnings on the circuit, according to Townsend. He received a bachelor degree at Midwestern State University at Wichita Falls, a masters degree at Baylor University at Waco, and a doctorate at the University of Wisconsin.

Townsend was named 1982 Outstanding Faculty Member by the WTSU Leadership Board and 1982 outstanding professor by the agriculture students.

Outside the classroom and rodeo arena Townsend has gained recognition with the publication of his biography of Texas western swing musician Bob Wills. "San Antonio Rose: The Life and Music of Bob Wills" is in its second printing, and his album notes to Wills' final recording have won the Grammy Award.

For the past several years, Dr. Townsend has been master of ceremonies for the program held on Bob Wills Day in Turkey.

**Couch Reunion Held In Lubbock**

The children of John and Dena Couch met in Lubbock May 28 through May 30 for a reunion.

Hosts this year were Wanda and Stanley Wiley and Claude and Esther Weeks.

On Saturday a picnic was held at Maxey Park. Sunday, everyone met at the Community Center and had dinner, took pictures and visited. The most interesting thing was looking at the many pictures taken way back when Grandma and Grandpa were young, and on up to this date.

The following were present: Velma Couch Dyess and her daughter, Kathy Mitchell, and husband, John, all of Waxahachie; Esther Couch Weeks and Claude of Lubbock and their three daughters, Wanda and Stanley Wiley and daughters, Janice and Kathy, and son, John; Gwen and Ralph Wilkins and Chad, and Frank Kollman, Lubbock;

Also, Ottis Couch, Niland, California; Stanley and Waynelle Couch and sons, Russell of Amarillo, Kyle and Kirk of Silverton; Darrell and Shirley Couch and Kristin of Turkey, and their two grandchildren, Lyndon and LaShawn of Childress; Mary Ann Couch Carlisle, Bruce and Mitchie Patrick of Midland; Dave and Marilyn Patrick and Russell of Silverton, and Bena Patrick Hester, Will and Katy of Silverton.

Also, Mrs. Weldon (Sal) Couch of Estelline and her daughter, Mary Nell Summerour, and husband, Buzz, of Dalhart, and their son, Barry; Shanna of Arlington and Shelly of San Angelo; Alvin Couch and wife, Margaret, Pansey Mayes and husband, Dempsey, and son, David, all of Abilene; Sonny Couch and wife, Jeanie, and children, Robbie and Christi, of Merkel; Mr. and Mrs. Doyle Couch, Lana and Lisa Shelley and Doyle, jr. of Abilene; Henry

and Lana Mayes and sons, Jason and J. R., of Lubbock.

A wonderful time was had by the 64 present. Next year the reunion will be held in Abilene with Dempsey and Pansy Mayes being hosts. A special thank-you goes to Wanda Wiley, who took the time and effort to get the reunion started. The family greatly appreciates her and Stan for being such gracious hosts. Thank you, and may it always continue.

by Shirley Couch

Lottie Owens helped the Eddie Owens to get moved into their new home in Plainview. The Owens are on vacation and are trying to get everything in order.

Yolanda and Jason Davison of Fort Worth spent last week visiting their grandparents, Rev. and Mrs. W. L. Armstrong, and attended Vacation Bible School at the Methodist Church in Turkey. On Monday of this week, their mother, Mrs. Jackie Pruitt, came for a visit until the middle of the week, and the children accompanied her home.

Rex and Charmaine Adamson and children, Aaron and Ashley of Odessa visited in Turkey for his grandmother's birthday June 4 (Mrs. John Adamson) and they visited his parents, J. R. and Mary Beth Adamson, and her parents, Mr. and Mrs. James Fuston, and other relatives. They let the children stay for a week, and J. R. and Mary Beth took them home last Friday and visited until Saturday.

Mrs. Rick Elmore and children of Brownfield visited her parents, Mr. and Mrs. J. T. Mullin, for a few days last week.

Ricky Johnson, son of Mr. and Mrs. Woody Johnson of Lubbock, visited his grandmother, Mrs. Arlowene Williams, a few days this week.

Mr. and Mrs. Elgin Conner and girls drove to Petersburg Sunday where Elgin spoke at both services. At noon, 21 of the congregation took lunch and drove to the City Park in Plainview and spread a picnic there. In the afternoon, the children played on the swings, the older group played softball, and later the group enjoyed watermelon.

The Connors stopped by Lockney after the evening services and visited her parents, Mr. and Mrs. Frank Duckworth.

Mrs. Fannie Lokey of Lubbock came to Quitaque Saturday. She is visiting relatives here and staying in the Charley Grundy home.

## CARDS OF THANKS

I want to thank everyone who remembered me during my stay in the hospital and since I have returned home. Thanks for the visits, flowers, cards, food, and especially, your prayers. May God bless each and every one of you.

Louise and Babe Chandler

## VETERANS, WE'LL PAY YOU TO PASS ALONG YOUR SKILL.

Teach your military specialty to a new Reservist, and you can earn a good extra income in the Army Reserve. Example: an E-5 with 4 years military experience can earn more than \$1,922 per year to start.

You serve one weekend a month and two weeks a year with a local Reserve unit. Interested? We'll be glad to pass along the information you need. Call your Army Reserve representative, in the Yellow Pages under "Recruiting."

**ARMY RESERVE. BE ALL YOU CAN BE.**

**RICK'S MUFFLER**  
(located at Hester's Gulf)  
For all your exhaust needs, including customizing.  
(806) 823-2015 Silvertown, Texas

In the late 1500s, perfumed gloves were much prized and it was the fashion to give them away at weddings.

The population of New York City is larger than that of many countries, including Denmark, Austria, and Norway.
