On September 17, 1787, fifty-five men gave you a priceless gift...

It was a gathering peopled with idealists, many of them theheaded and fiercely independent, yet all realists who understood first hand the cost of letting too much power fall into the hands of too few. Men whose names even today excite high emotion: George Washington, James Madison, Benjamin Franklin, Alexander Hamilton...

On September 17, 1787, these fifty-five men gave all Americans the Constitution, a living document for an extraordinary new form of government that today continues to miraculously maintain peace and justice in the land, while it gives you the priceless freedom to be who you want to be.

This year, as we commemorate the 200th anniversary of the Constitution, the eyes of the nation are fixed on today's men and women who have a powerful sense of their freedom. The new entrepreneurs, the new pioneers, the new builders. We look to the future and see a proud and independent nation of doers.

People who try to command respect are wasting their time. Respect cannot be commanded; it has to be earned.

The philosopher who said that work well done never needs doing over, apparently never weeded a garden.

Never tell people how to do things--tell them what to do and they will surprise you with ingenuity.

Gen. George S. Patton, Jr.

Do You Remember?

From the files of The Turkey Enterprise Sept. 18, 1947

A mad coyote was killed Sunday Sept. 7, a mile north of Turkey after it had been in several fights with dogs of the community. The animal's head was brought to George Ray Colvin who packed it in a bucket of ice, and sent it to Austin, who wired back that the coyote definitely had rabies and urged precautionary steps be taken.

Dr. J. E. Garner, City Health Officer, placed a notice in our paper for all Dog owners to confine dogs for a month, any dog running at large in Turkey will be shot.

Here is the story about the coyote, as related by Mr. Colvin:

Sunday night, Mr. and Mrs. Brantly returned home from church to find their dog in a fight with a coyote. Mr. Brantly took a flashlight and gun out to take a few shots at the coyote. He was unable to hold the flashlight and get a good bead on the coyote at the same time. Mr. Brantly called off his dog and went in the house. The coyote hung around until morning.

About 9 o'clock the animal appeared at the S. P. Smith place, a neighbor of Mr. Brantly's, and tackled his dog which was sleeping on the porch. After fighting around a while the dog and coyote called a truce.

The coyote strolled across the porch and looked through the screen door at Mrs. Smith, went out a little piece away from the house and lay down.

When Mrs. Smith could get out of the house, she signaled to Mr. Smith who was plowing not too far away, to come to the house. Mr. Smith took his gun, and shot the coyote seven times before he killed him.

Dr. Gary Tunnell has been in Turkey for a week visiting his sister Mrs. LaBelle Strecker and his father, Curtis Tunnell who is a patient in St. Mary's Hospital in Lubbock. Dr. Tunnell lives in New Zealand and where he teaches Anthropology at the University of Auckland. He surprised his dad with his visit.

Mr. Smith, being suspicious, brought the coyote to town and they arranged to send it to Austin. The telegram sent back read Positive evidence of rabies, treatment necessary if not inoculated.

The Turks play their First Night Football at Turkey Friday night Sept. 19 at Vardy Field, against Matador. The Terrible Turks may need your support and encouragement as the Matadors are a Class A school while the Turks are Class B.

State Board of Insurance Issues Warnings About Possible Fraud

The State Board of Insurance has received reports that some insurance agents are falsely portraying themselves as Medicare Supplement policies after saying they are from the government.

According to members of the board's newly appointed Citizens Working Group on Medicare Supplement Insurance, the practice may be on the increase in the sale of such coverage.

It is a violation of federal law for an agent to say that he or she is from Medicare or another Federal governmental program. The practice is a felony, with penalties of up to five years in prison and a \$25,000 fine for such misrepresentation.

In addition, such conduct, if proven, could lead to revocation of an agent's license to sell insurance in Texas.

Consumers are urged to report agents who try to sell them Medicare Supplement policies after saying they are from the government.

Reports of these violations should be sent to the Complaints Division, State Board of Insurance, 1110 San Jacinto, Austin, 78701-1998.

It is also a violation of the board's advertising rules for insurers to disguise Medicare Supplement advertisements and supplemental material as mailings from the federal government.

Older Texans who receive such mailouts are encouraged to send them to the State Board of Insurance for investigation.

The board also has a tollfree telephone hotline, 1-800-252-3439, for answering consumer questions.

The legislator could not, however, receive the increased compensation approved during his legislative term.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide that a member of the legislature is eligible to be elected or appointed and to serve in a different state office but may not receive an increase in compensation granted to that office during the legislative term to which he was elected."

PROPOSITION NO. 10 ON THE BALLOT

Subsections (d) and (e) of Section 1 of Senate Joint Resolution 12 propose a constitutional amendment to allow the legislature to exempt from ad valorem taxation all tangible personal property except structures which are used as residential dwellings and property held or used for the production of income. This exemption would be in addition to the personal property homestead exemption already established by the constitution. If the legislature authorizes the exemption of additional personal property from taxation, under this amendment, local political subdivisions may pass resolutions providing for taxation of such property unless the property is exempt from ad valorem taxation under another law.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to exempt from ad valorem taxation certain personal property not held or used for the production of income."

PROPOSITION NO. 11 ON THE BALLOT

Section 1, Subsections (f) and (g) of Senate Joint Resolution 12 propose a constitutional amendment to exempt from ad valorem taxation goods, wares, merchandise, and ores other than oil, gas and petroleum products. These items would be exempt from taxation only if they originated outside the state and were located in the state for a period of 175 days or less for purposes of assembly, storage, manufacture, processing, or fabrication. Such property could be taxed by a county, school district, or municipality if the governing body of the political subdivision took official action to provide for the taxation of the items while they were located in the political subdivision. If the governing body of a political subdivision took official action to tax the items before January 1, 1988, the tax would be effective for the 1988 tax year. If the action were taken after January 1, 1988, and before April 1, 1988, the tax would become effective January 1, 1989.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the exemption from ad valorem taxation of certain property that is located in the state for only a temporary period of time."

PROPOSITION NO. 12 ON THE BALLOT

Senate Joint Resolution 35 proposes a constitutional amendment to allow a married couple to agree in writing that all or part of their community property will become the property of the surviving spouse if one spouse dies.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting spouses to hold community property with right of survivorship."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 27 proposes a constitutional amendment to authorize the creation of special districts to provide emergency services. The commissioners court in a county participating in a district could, upon approval of the voters, levy an ad

valorem tax of up to ten cents (\$.10) per \$100 valuation of the property located in the district.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow for the creation and establishment, by law, of special districts to provide emergency services."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment to allow the state a limited right to appeal criminal cases. Under current law, only criminal defendants are allowed to appeal. This proposed amendment would allow the legislature to pass laws granting state prosecutors the right to appeal in limited circumstances.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment giving the state a limited right to appeal in criminal cases."

PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 35 proposes a constitutional amendment to abolish the office of county treasurer in Gregg County and transfer the duties of that office to the county auditor or an elected official designated by the commissioners court. The amendment would also abolish the office of county treasurer in Fayette and Nueces counties if a majority of the voters in those counties vote in favor of the amendment. In Fayette County, the functions of the treasurer would be transferred to the county auditor or the officer succeeding to the auditor's functions. In Nueces County, the powers, duties, and functions of the treasurer would be transferred to the county clerk.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for the abolition of the office of county treasurer in Gregg, Fayette, and Nueces counties."

PROPOSITION NO. 16 ON THE BALLOT

Senate Joint Resolution 6 proposes a constitutional amendment to allow the commissioners court in a county with a population of more than 150,000 to establish more than one Justice of the Peace court in each Justice of the Peace precinct, i.e., to provide for the election of more than one Justice of the Peace in each Justice of the Peace precinct.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that certain justice precincts may contain more than one justice of the peace court."

PROPOSITION NO. 17 ON THE BALLOT

Senate Joint Resolution 26 proposes a constitutional amendment to allow the legislature to define by law those municipal functions that are governmental and those that are proprietary. This authorization would apply to laws passed by the 70th Legislature, 1987, and by future legislatures in regular or special session. A municipality is liable for damages arising out of acts committed under its proprietary functions, but not its governmental functions. Definition of such functions by the legislature would clarify the liability of a municipality in civil lawsuits filed against it.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to define for all purposes the governmental and proprietary functions of a municipality."

PROPOSITION NO. 18 ON THE BALLOT

House Joint Resolution 18 proposes a constitutional amendment to authorize the legislature to provide for the creation, operation, and financing of jail districts. Financing of a jail district could be accomplished through the issuance of bonds and other obligations, or by levy of an ad valorem tax on property located in the district if the qualified electors of a district approve an ad valorem tax or bonds secured by a property tax.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the creation, operation, and financing of jail districts."

PROPOSITION NO. 19 ON THE BALLOT

House Joint Resolution 88 proposes a constitutional amendment to authorize the issuance of \$500 million in general obligation bonds, the proceeds of which will be used to establish a superconducting super collider fund. The fund would be used to provide economic incentives for the superconducting super collider research facility, and the agency administering the fund would be authorized to grant land or property to the United States government for undertakings related to the facility.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of general obligation bonds to fund undertakings related to a superconducting super collider research facility sponsored or authorized by the United States government, and to make appropriate grants for such undertakings."

PROPOSITION NO. 20 ON THE BALLOT

House Joint Resolution 96 proposes a constitutional amendment to allow the legislature to provide ad valorem tax relief for mobile offshore oil and gas well drilling equipment. The tax relief would be limited to equipment that is being stored while not in use in a county that is adjacent to the Gulf of Mexico or on a body of water that is adjacent to the Gulf of Mexico.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to provide ad valorem tax relief for certain offshore drilling equipment that is not in use."

PROPOSITION NO. 21 ON THE BALLOT

Senate Joint Resolution 17 proposes a constitutional amendment to provide for legislative involvement in the executive branch of government by permitting the legislature to include the speaker of the house of representatives in the membership of an agency or committee that includes officers of the executive branch of government and performs executive functions. Under current law, the legislature is not allowed to exercise any powers in executive matters under Article II of the Texas Constitution, which provides for the "separation of powers" into three distinct departments.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the legislature to include the speaker of the house of representatives or the speaker's appointee in the membership of an executive agency or committee."

PROPOSITION NO. 22 ON THE BALLOT

Senate Joint Resolution 53 proposes a constitutional amendment to allow the legislature to limit the term of office of a gubernatorial appointee to a vacancy in a state or district office to a partial, temporary term if the appointment is made on or after November 1 of the last year of the governor's term and the governor is not reelected. Under this amendment, the legislature may provide that the tenure of such an appointee would end sooner than the term would normally expire.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to limit the authority of a governor to fill vacancies in state and district offices during the end of the governor's term if the governor is not reelected."

PROPOSITION NO. 23 ON THE BALLOT

Senate Joint Resolution 54 proposes a constitutional amendment to authorize the Texas Water Development Board to issue an additional \$400 million in water development bonds. Of the \$400 million authorized, \$200 million would be designated for conservation and development of water resources, \$150 million would be designated for water quality enhancement, and \$50 million would be designated for flood control. The amendment also authorizes the legislature to provide for review and approval of the issuance of the bonds and the use of the bond proceeds.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the issuance of an additional \$400 million of Texas Water Development Bonds for water supply, water quality, and flood control purposes."

PROPOSITION NO. 24 ON THE BALLOT

House Joint Resolution 83 proposes a constitutional amendment to allow a county to use county equipment and personnel to perform work, without compensation, for another governmental entity if the commissioners court finds that the work will not interfere with the performance of county work and approves performance of the work. The governmental entity must be located wholly or partly in the county, and the governing body of the governmental entity must file a written work request with the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit a county to perform work, without compensation, for another governmental entity."

PROPOSITION NO. 25 ON THE BALLOT

Senate Joint Resolution 5 proposes a constitutional amendment to allow the legislature to authorize Randall County to levy a tax for the benefit of the Amarillo Hospital District. Any such tax could be levied only on property located outside the City of Amarillo and outside the South Randall County Hospital District. The tax could not be more than 75¢ per \$100 property valuation and would be effective only upon approval by the voters in the area to be taxed. If the tax is authorized by the Legislature and approved by voters, the Amarillo Hospital District is to serve residents of part of Randall County. If a tax is levied under this provision, Randall County must repay the State for the cost of publication of this amendment.

The proposed amendment also permits the legislature to authorize a hospital district to change its boundaries or jurisdiction if the district was created or authorized by a constitutional provision that includes a description of the boundaries or jurisdiction of the district. Any change in the boundaries or jurisdiction of such a hospital district would become effective only upon approval of the voters in the district.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to permit the Amarillo Hospital District to serve certain residents of Randall County, to authorize Randall County to provide financial assistance to the district, and to authorize certain hospital districts to change their boundaries or jurisdiction with voter approval."

EXPLANATORY STATEMENT FOR STATEWIDE REFERENDUM NO. 1

Senate Bill 86 submits to the voters the question of whether the 15 members of the State Board of Education should be appointed instead of elected. If the proposition passes, the Governor will appoint a member of the board for each district, with the consent of the Senate. If the proposition fails, the members will be elected from these districts.

The referendum will appear on the ballot as follows:

"The State Board of Education shall be composed of members who are appointed from districts instead of elected, with equal representation throughout the State of Texas."

EXPLANATORY STATEMENT FOR STATEWIDE REFERENDUM NO. 2

The Texas Racing Act submits to the voters the question of whether pari-mutuel wagering should be legal in Texas on a county-by-county local option basis. If pari-mutuel wagering is adopted by the voters statewide, a county must also pass a separate proposition on pari-mutuel wagering at an election held in the county before any such wagering may be conducted in that county.

The referendum will appear on the ballot as follows:

"The legalization of pari-mutuel wagering under the Texas Racing Act on a county-by-county local option basis."

If you believe that things bring you good luck, what about the guy who bent over to pick up a horseshoe and a car hit him and knocked him over the fence into a patch of 4-leaf clover!?

A hobby is known as hard work which you wouldn't think of doing for a living!

People cover their mistakes in many different ways...architects use ivy, new brides use mayonnaise, and the doctor uses mother earth!

You've never met a conscientious objector to the battle of the sexes!

Caprock Pete says as soon as some women promise to obey...they take command!

Children seldom misquote you...they usually repeat what you shouldn't have said before them in the first place!

Bank ad in newspaper... "We wish to announce the addition of Mr. Gottrocks to our horde of Directors!"

City man to farmer: "Is that your bunch of cows?"

Farmer: "Not bunch, herd."

City man: "Heard what?"

Farmer: "Herd of cows!"

City man: "Sure, I've heard of cows!"

Farmer: "No, no, a cow herd!"

City man: "I don't care what a cow heard. I'm not ashamed of anything I've said!"

Psychiatrist: A person who will listen to you so long as you don't make good sense!

The most combustible kind of

Broxson Family Reunion Held At Quartz Mountain In Oklahoma

The Broxson family met at the Quartz Mt. Park, north of Altus, Okla. for their annual reunion. There was a total of 102 present this year for all or part of the 3-day reunion.

Mr. and Mrs. Dennis Mason served as our president - sec. - treasurer this year. Mrs. Mason is the 3rd generation. Our young couples do a marvelous job of managing the reunion. Mr. and Mrs. Bruce Broxson will serve as our officers for the next reunion, with Mr. and Mrs. Rusty Rucker serving as trainer for 89.

The usual 42 tournament was held with Glenna Smith and Jan Payne being the winners. The hotly-contested volleyball tournament was held Saturday night under the lights at the lodge, and That Broxson Bunch from Sunray took home the traveling trophy. They usually take the trophy one year, and the Rucker Bunch from Clovis take it the next. One of these times, some of the rest of us are going to fool them and win it.

As usual the tables could hardly hold the food.

This year's theme for the reunion was western, with appropriate names to identify each location. Our cook headquarters was named the Chuck Wagon, and drinking table was The Watering Hole. On Saturday morning, a young couple was in line for our brunch looked around and said "Is this a family reunion? Oh, excuse us, we thought it was a CAFE." They were embarrassed, but everyone asked them to stay. They declined the invitation and went on their way. The young people and young at heart had a western fling Sunday night. So all had a good time.
