

THE CISCO DAILY PRESS

COMBINED WITH CISCO DAILY NEWS AND CISCO AMERICAN AND ROUND-UP, NOVEMBER 1, 1937

CISCO—1,614 ft. above sea; immense lake—three miles long, 87 ft. deep at Williamson hollow concrete dam; fish hatchery; 127 blocks paving; A-1 high school; Junior college; natural gas; electric and ice plants; War Industries Training School for Women.

CISCO—One of the healthiest areas in U.S.A., with a countryside devoted to blooded cattle, hogs, sheep, peanuts, cotton, fruits, feeds, poultry, gas, oil; two railroads; Bankhead highway; huge concrete swimming pool.

VOLUME XXIII.

CISCO, TEXAS, FRIDAY, MAY 28, 1943.

NUMBER 189

RAF LOST 23 PLANES IN REICH NIGHT RAID

LT. CRANDALL JONES HOME ON FURLOUGH

Crandall D. Jones, 22, son of Dr. and Mrs. Charles C. Jones, Cisco, who was commissioned second lieutenant at graduation exercises of AAF technical training school, Yale university, May 24, has arrived home for a stay of ten days. From here Lieutenant Jones will go to Clovis, N. M., and assume his duties as an engineer at that air base.

Col. Charles T. Arnett, commanding officer of the school at Yale, states that courses taken by the Cisco young man while stationed there included the principles of aircraft construction and operation; that as one of the men behind the guns of the army air forces the new technical officer has been thoroughly trained to repair and inspect airplanes at advanced flying fields, where he will be in charge of a crew of enlisted men who are specialists in maintenance engineering.

Graduation ceremony was held in the auditorium of Sterling Law building, New Haven, Conn., before a large audience of classmates and friends. When the diplomas had been awarded the audience took part in the ceremony by pinning the gold bars on the new officers.

POPPY SALES START EARLY; PINS SCARCE

Mrs. Irene Hallmark will head the Poppy Day sales committee tomorrow and saleswomen will be on the streets at 7 o'clock and until Cisco's assignment of 500 has been disposed of. Headquarters will be The Man's Store.

Another straw showing the war winds are blowing in this area is the fact that pins to fasten the Poppy to your lapel are so difficult to obtain that Mrs. Hallmark requests Poppy purchasers furnish their own pins when possible. The ladies will make every effort to obtain pins, but it will be nice, indeed, if you find it convenient to furnish your own. It would be funny, too, if each man who buys a Poppy tomorrow should be able to say: "No, thanks, I have my own pin."

Saleswomen are as follows: Mrs. Irene Hallmark, Mrs. E. T. Personett, Mrs. Paul Poe, Misses Gene Grantham, Hope Starr, Dorothy Nell Pugh, Linda Fee, Evelyn Pippin, Mary Jeanette Poe, Patsy May Wilbanks and Lois Clark.

TRUCK MECHANICS ESSENTIAL TO WAR EFFORT

The government has given the green light to specialized truck mechanics, says a bulletin just received by A. G. Motor company. Dealers can now establish their places of business as being essential by hiring specialized truck mechanics. Essential motor vehicle repairs should be given priority over repairs which can be put off without endangering safe operation, or impairing mechanical life of vehicles.

Specialized truck mechanics who engage in the repair and maintenance of cars and trucks necessary to the war effort, will be classified as essential according to the war manpower commission.

SALES TAX. WASHINGTON, May 28.—Chairman Doughton of the tax-framing house ways and means committee, long-time foe of a federal retail sales tax, said today he might favor such a tax "as a last resort" to help finance the war.

BETTY LATCH THROWN FROM HORSE; KILLED

Betty Jean Latch, 12-year-old daughter of Mr. and Mrs. Roy Latch of Monahans, was killed at Odessa yesterday when thrown from a horse.

The child was a granddaughter of Mr. and Mrs. W. Z. Latch of Cisco and was visiting Mrs. Mary Latham, an aunt, in Odessa, when the accident occurred.

Funeral will be held in Odessa at 10 o'clock tomorrow morning and will be attended by Mrs. W. Z. Latch and Miss Lela Latch of this city.

Mrs. Roy Latch, the bereaved mother, will be remembered here as the former Miss Lois Thames, who attended Cisco high school.

HUEY ATTAINS HIGH HONOR IN SUB. SERVICE

Mrs. B. S. Huey is in receipt of a letter from her son, Lieut. Enders Huey of the navy submarine division, stating he had recently been designated a "qualified submarine officer," and that she could wear the special submarine insignia he was sending her.

The letter was written May 20 and a radiogram received Wednesday stated the 25-year-old Ciscoan and Annapolis graduate was safe and well. Huey, who was born and reared in Cisco, entered the submarine service last January.

The designation, "qualified submarine officer," is attained only after months of service in actual submarine duty, followed by a combined oral and written test prescribed by the navy and given by the submarine captain himself. Passing it depends on the skipper's recommendation as to the man's all-around qualifications, as well as his technical knowledge.

Lieutenant Huey's many Cisco friends join his proud mother in whole-hearted congratulations.

A. M. BATEN BURIED YESTERDAY, DALLAS

Anderson M. Baten, 55, died at his home in Dallas Wednesday and was buried in Grove Hill cemetery, Dallas, yesterday, with Dr. George W. Truett officiating at the funeral.

Deceased was a son of the late Dr. A. E. Baten of Cisco, was in the real estate business here for a number of years and will be remembered by many Ciscoans. He was a graduate of Howard Payne College and later studied at Baylor College. He is survived by his wife and several brothers and sisters.

As a young man Baten was an athlete, and became a champion wrestler and boxer in Central West Texas. When he was 23 he accomplished a long cherished desire by winning a county fair weight-lifting contest by raising 250 pounds.

AIR BATTLES RAGE. MOSCOW, May 28.—Sharp land and air battles are raging in the Kuban delta after a period of comparative quiet, but neither official Russian disclosures nor dispatches from the front today confirmed German reports that a Soviet army of 150,000 is attempting an all-out smash to Kerch strait.

DR. SMITH TO ADDRESS SENIORS SUNDAY

Senior graduation ceremonies begin Sunday evening, 8 o'clock, at high school auditorium, with the baccalaureate sermon by Dr. Gary L. Smith, pastor of the First Presbyterian church, with the Presbyterian choir leading the congregation in hymns to be sung as a prelude to the message. The program is as follows:

Processional—Mrs. Ernest Hittson.

Invocation—Rev. L. W. Seymour.

Hymn—"All Hail the Power of Jesus' Name," led by Presbyterian choir.

Scripture reading—Rev. Cooper Waters.

Trio—Selected, Winifred Tichenor, Janette Myrick, Mary Frances Urban.

Sermon—Dr. Gary L. Smith. Hymn—Led by Presbyterian choir.

Benediction—Rev. Russell Dennis.

Recessional—Mrs. Ernest Hittson.

EXERCISES FOR GRAMMAR GRADS TUESDAY NIGHT

Grammar school graduation exercises will be held at high school auditorium Tuesday evening, 8 o'clock, carrying out their program on the self-activities plan, which has been in vogue for several years past. Aside from the address by Rev. Cooper Waters, presentation of the class by Supt. Russell Dennis and the acceptance and delivery of diplomas by O. L. Samey, high school principal, the entire program will be by the students.

Betty Tichenor is valedictorian and Jack King is salutatorian.

Program. Processional—Melvin Sandler. Invocation—Stanley Williams. Piano solo (selected)—Isabel Trevino.

Radio skit—Juakana Youngblood, Martha Lou Smith, Jim Ewell, Jack King, Jerry Paul Westfall.

Music—Barbary Grist, Bobby Wilson.

Address—Rev. Cooper Waters. Introduced by Jack Milner. Presentation of class—Russell Dennis.

Acceptance—O. L. Samey. Presentation of diplomas. Pledge of allegiance to the flag, with audience and class standing. Led by Stanley Williams.

FELL FROM AUTO. Little Sandra Jean Jessup, 21-month-old daughter of Mr. and Mrs. Cecil Jessup, 606 W. Eleventh street, fell out of the car when the door came open as the father was backing out of the garage this morning. The child sustained a bad cut on the head, but was not pronounced serious at Graßam sanitarium, where she was treated. Barring complications the patient should be able to be taken home in a few days, Dr. E. L. Graham stated.

SOFTENING ITALY. NORTH AFRICA, May 28.—Allied bombers and fighters slashed again yesterday at Villacidro and Decimomannu, important Axis air fields in Sardinia, and the Island of Pantelleria. Thirteen enemy fighters were destroyed in combat—all from a hornet's nest stirred up at Decimomannu—and many more on the ground in the continued softening up of Italy's outer defenses.

LIVESTOCK STEADY. F. WORTH, May 28.—All classes of cattle and calves found unchanged prices on the Fort Worth market today. Hogs were steady on all weights and grades with a top of \$14.10, while packers paid up to \$14. Slaughter classes of sheep and lambs were steady with feeders scarce.

BEEF IS SCARCE. FT. WORTH, May 28.—Housewives shopping here today for meat for the Sunday dinner found their best bet was to settle on pork, lamb, chicken or fish. Some beef was available, but only in a fraction of the normal quantity.

BILLS SIGNED. AUSTIN, May 28.—Bills signed by Gov. Coke Stevenson today were the rural school aid, \$19,661,880, an increase of \$2,773,600 over the present biennium. Vocational education, \$2,398,110, up \$25,000. Aid to the needy blind, \$1,400,000, up \$600,000.

INTERNATIONAL MATCH—Delegates of food conference in Hot Springs, Va., get tennis relaxation between sessions. C. B. Pearson, left, of Canada, shakes hands with H. S. Malik of India, as Toby Hansen, tennis pro, looks on.

"I Will Bear True Faith . . ."

"I will bear true Faith and Allegiance . . ." is this young Marine Lieutenant's oath, as she is commissioned in the newest of the women's auxiliary corps, that of the Marines. Her pledge to her flag is backed by disciplined service, and with War Bonds. The Bond you buy on Flag Day helps protect that flag. U. S. Treasury Department

HERE'S MUD IN YOUR EYE—Here's what happens when you don't come in first. Tommy Atkinson, left, who rode Blue Stride, and Joe Renick, who rode Moonlight, at Belmont Park, N. Y., have bad cases of mud in yer eye.

BEEF IS SCARCE. FT. WORTH, May 28.—Housewives shopping here today for meat for the Sunday dinner found their best bet was to settle on pork, lamb, chicken or fish. Some beef was available, but only in a fraction of the normal quantity.

FDR CREATES FORM; BYRNES WILL DIRECT

WASHINGTON, May 28.—President Roosevelt created a new Office of War Mobilization today to be directed by James F. Byrnes, who will exercise virtually complete powers over all home front war efforts.

The new office will develop unified programs and establish policies for maximum use of America's natural and industrial resources for military and civilian needs, for effective use of national manpower outside the armed forces, for maintenance and stabilization of civilian economy and for adjusting that economy to war-time conditions.

TOKYO RADIO CLAIMS 7 U. S. SHIPS LOST

Tokyo radio said today that seven American warships had been sunk off Attu and that U. S. losses on the island since the first attack May 11 would run about 6000 men.

The vessels, according to Tokyo, included a battleship, two cruisers, a destroyer and three other warships.

7 HOOD CO. FIRMS ROBBED THIS AM.

GRANBURY, May 28.—Seven Hood county business firms, six at Lipan and one at Granbury, were entered and robbed in fast succession early today after four gunmen bound a Lipan night-watchman.

Sheriff A. P. Crook said he is convinced that all of the offenses were committed by young men who first struck at Weaver's store in Lipan shortly after midnight, where the night-watchman, W. H. Burns, was tied with rags.

Rangers, state highway patrolmen and county officers were hunting for the men today. The highway officers believe that an auto stolen in Fort Worth last night was used by the burglars.

ITALIAN CITIES BE BOMBED UNTIL DEFEAT

PORTSMOUTH, Eng., May 28.—Foreign Secretary Anthony Eden declared today that Germany and Italy would be bombed "until the utter defeat of the Nazi and Fascist regimes and all they stand for."

He emphasized particularly that Italy "now lies wide open to air attack" and that attack "will be pressed home by all the means in our power."

"We are relentlessly determined to destroy Fascism and prosecute the war against Italy with all the force we possess, so long as Italy fights Hitler's war," the foreign secretary declared at a "Wings for Victory" luncheon here.

Eden said "we have not forgotten" it was Mussolini who asked Hitler for the privilege of sharing in the bombing of London.

Right actions for the future are the best apologies for wrong ones in the past—the best evidence of regret for them that we can offer, or of the world receive.—Tryon Edwards.

Communities have typical manners, like families and individuals. Each person learns to act tough because everybody around him does.

JENA, 500 MI. INSIDE GERMANY, ALSO RECEIVED HEAVY BOMBING FROM MOSQUITO FLEET

LONDON, May 28.—Hundreds of British four-engined bombers heaped new destruction on Germany's bomb-pocked, flood-ravaged Ruhr Valley last night, concentrating on the arms city of Essen.

The Ruhr attack, carried out in "great strength," followed by only a few hours a daring 1000-mile round trip raid by swift British Mosquito medium bombers on the Carl Zeiss instrument works and Schott glass works at Jena in central Germany.

Twenty-three bombers were lost in the Ruhr assault, but only three Mosquitoes failed to return from Jena. Two of the Mosquitoes collided over Germany.

A German communique acknowledged that the RAF caused "major damage" in Essen.

The one-two blows at vital German industrial targets marked an intensification of what Prime Minister Churchill has called an experiment to determine if Germany can be bombed out of the war.

Thousands of block-busters and fire bombs were cascaded on Essen, site of the great Krupp arms works and Germany's most-bombed city, by the huge fleet of four-engined Lancaster, Stirling and Halifax bombers. More than 10,000 tons of bombs already have laid waste vast areas of Essen in the 55 previous raids on the city.

In one raid alone last year, 1000 bombers battered the Krupp works and other targets in Essen. The total weight of bombs unloaded on the city is more than 20 times that dropped on Coventry and exceeded by 8000 tons the explosives dropped on Greater London during the 1940-1941 Blitz.

Hardly had the big bombers returned from Germany than squadrons of RAF fighters swept out across the channel and disappeared over Northwest France this morning, presumably for offensive sweeps.

The Mosquito attack on Jena was carried out from an altitude of only 200 feet despite intense anti-aircraft fire and the presence of barrage balloons over the target area, the Air Ministry said.

The raid marked the deepest penetration—500 miles—of Germany yet attempted by the Mosquito bombers, but their objectives were described as the most important factories of their kind in Germany.

TEXAS PENSIONERS. AUSTIN, May 28.—Old age pensioners who had anticipated more spending money as a result of legislative action raising the "ceiling" on state expenditures get their answer today: their June checks will average 57 cents more than May's. Checks for June will average \$20.31 to the pensioner.

METHODIST ASSEMBLY. GLEN ROSE, May 28.—Methodist Young People's League (ages 18-28) at the Central Texas Conference will hold their annual conference at the Glen Lake Methodist camp here, May 31-June 5. Among the

numerous speakers will be Rev. Leslie Seymour of Cisco.

DISEASE DEATH RATE. AUSTIN, May 28.—A decrease in the Texas death rate of seven communicable diseases in 1942 as compared with 1941 was reported today by the state department of health. The greatest increase in the death rate was in dysentery.

CONVICT STABS DOCTOR. HINTSVILLE, May 28.—Dr. M. D. Hanson, medical supervisor of the Texas prison system, suffered a painful stab wound in the shoulder yesterday from a 43-year-old convict.

THE CISCO DAILY PRESS

(Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.)

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1879.

A. B. O'FLAHERTY, Publisher and General Manager; W. H. LaROQUE, Advertising Manager.

Published daily except Saturday and Monday at Cisco, Eastland county, Texas, by Free Press Publishing Corporation, incorporated under the laws of Texas. Editorial and publication offices at 304-306 D avenue, Cisco, Texas.

National advertising representative: Texas Daily Press League, Dallas, Texas.

SUBSCRIPTION RATES: \$2 per year by mail (outside Cisco) in Eastland, Stephens, Shackelford, Callahan, Brown and Comanche counties, Texas; outside the above-mentioned counties, \$3.50; \$4.75 in U. S. outside of Texas.

Per year, in advance (Cisco) \$5.00
Per week, by carrier boy \$1.00

EARTHY.

A national oil shortage will be inevitable within two years, and responsibility for it can be placed squarely upon the OPA and the federal treasury, says Walter S. Hallanan, member of the Petroleum Industry War council, unless present trends are immediately reversed. He asserted that the nation is producing and consuming five times as much oil as is being discovered, and that the only remedy is price adjustment which will stimulate wildcatting and restore thousands of stripper wells to production.

"It is no time to be concerned about ruffled feelings of some government bureaucrats, or to be fearful of reprisals from Washington, said Hallanan. "This is a down-to-earth problem and it cannot be discussed in terminology of the stratosphere. I may use such an earthy word as 'money,' I know that the starchy-eyed dreamers in Washington regard this as a sordid term, but they have not yet devised any synthetic substitute which can be used by oil men to pay lease rentals, drilling costs and increased taxes."

He added that congressmen, public officials of oil producing states, Federal government committees and "every other disinterested individual or body" has warned of the impending oil shortage and has urged an immediate price correction.

THOROUGH.

There is a heroic flavor and a gargantuan sense of humor in a letter from Private John Pehanick of Taylor, La., but latterly of North Africa. He wrote to his mother that a German prisoner he had captured over there proved to be a cousin of his, named Petach. But after mailing the letter, it dawned on him that he hadn't finished his job. And the Pehanicks are nothing if not thorough. So his mother got a second letter, quickly following the first, saying: "Send me a list of all my cousins still on the other side. I want to catch them all."

If that spirit were universal, it would soon be over, over there.

GREATNESS.

There seems to be something about flying that brings out a man's best qualities. The ace flyers, who have most to brag about, are nearly always very modest. Captain Philip W. Porter, writing from North Africa, says there's no truth at all in the cocky and careless manner, the flair for flashy dress, the sophisticated air, and so on, that are supposed to characterize the air men. They look, and often act, like mere kids. They nearly always disclaim credit for anything remarkable that they have done. Of one famous outfit he says:

"Every time these boys go up into battle, they do something spectacular. Courage and heroism are taken for granted. Narrow squeaks are routine — and death comes often. But to hear them talk, their individual performances are nothing. I wish more Americans could see them and model after them."

THINK.

The Consolidated Edison company of New York in 1942 paid \$75,225,000 in wages, \$66,400,000 for material and supplies, \$64,327,000 for taxes, and \$47,000,000 for interest on savings furnished by investors to build the company.

In other words, capital (the people's savings) has a minority interest in the earnings from the private enterprise it built, in comparison with labor, industry and government that collects taxes.

When considering the political program for federal socialization of the private power industry, it is well for the people to know who has the greatest stake in the

issue—the taxpayers or the investors.

If the Consolidated Edison company was taken over by the government as were the private companies in the TVA area, right off the bat \$64,327,000 in taxes would be transferred to remaining taxpayers because government-owned plants are tax-exempt.

Relatively the same situation prevails in every community where a private electric utility is located.

SLANG.

"She has wham in her woo, and rivets in her romance." This sign, outside a movie house, might be understood by all its patrons under 20, by many between 20 and 30, and by few over 40.

Thus it is always, "Necking" was unfamiliar and startling to an older generation that, on occasion, practised "spooning." Later came "pitching woo" to surprise both.

It is a mistake to decry slang indiscriminately. Many English words in good standing came in by the slang entrance. Such useful words as "tramp," "crook," "boom" and "slump" were once slang. Maybe—Heaven help us!—the language of today's youngsters will be the accepted English speech of tomorrow.

CROSS PLAINS

(Callahan County)

Towns along the route of the M.K.&T. railroad from DeLeon to Cross Plains are being organized in a movement to contest the railroad's application to abandon the line, which was filed with the interstate commerce commission in Washington last week. It is expected that a hearing in the matter will be held at DeLeon June 5. Citizens from Cross Plains, Pioneer and Rising Star met Friday night at Rising Star and perfected an organization to oppose the railroad's application. Jack Scott of Cross Plains was named chairman and J. F. Robertson of Rising Star, secretary. Members of the executive committee include George R. Neel and F. V. Tunnell, Cross Plains; Doss Alexander and L. C. Cash, Pioneer; W. E. Tyler and Jay Koonce, Rising Star. No representatives from DeLeon were present at the meeting. However, this was due to the fact that roads were impassable because of heavy rains. The DeLeon group signified their intention to join in opposing the railroad's application and named two members to the executive committee and further agreed to share a pro rata portion of the expense of retaining an attorney.

General rains over the Cross Plains area were a boon to every phase of the agricultural and livestock industry. On the whole, prospects were never brighter. A government weather gauge in Cross Plains measured the precipitation at 2.18 inches, several sections of the trade area report the fall heavier. Cross Cut for instance, received in excess of three inches. Pioneer, too, had more rain than did Cross Plains.

Grand jurors for the June term of 42nd district court are announced from the office of Sheriff B. O. Brame. The list follows: L. M. Green, Clyde; W. Tom Cox, Cross Plains; Lester Bush, Cottonwood; R. D. Williams, Putnam; T. A. White, Baird; Fred Ellis, route one, Baird; Fred Windham, Oplin; G. M. Smith, route one, Clyde; Fonia Worthy, Cross Plains; R. L. Clinton, Putnam; J. O. Connel, Clyde route; Carl Cook, route one, Baird; J. P. Smedley, Rowden; Ellis Warren route two, Baird; R. D. Bryant, route one, Baird; Pete Neeb, Cross Plains. The jurors are to appear at the courthouse in Baird Monday, June 7.

Funeral services for Curtis Sliger, 17, killed in an automobile collision near Nacona Wednesday night of last week were held at Burkett Saturday afternoon, with Rev. C. E. Poe, pastor of the First Baptist church in Cross Plains

officiating. The youth was the son of Mr. and Mrs. C. W. Sliger, of Cross Plains. Mr. Sliger is employed by the Bryant nursery.

Rev. Robert H. Williams, 84, one of the pioneer preachers of this section, died in Abilene May 8. He was pastor of several churches in Callahan county in past years. He had lived in Abilene since 1905. Mr. Williams was born in Pennsylvania, Nov. 26, 1858, and came to Texas in 1878, riding the first train into Fort Worth.

BRANTON GIN

Albert Neie has the sympathy of his friends in the death of his father who passed away Sunday. Mr. and Mrs. L. D. Richardson and son Gayle Darwin of Ibe,

spent Friday night with his mother, Mrs. P. D. Richardson.

Every one is rejoicing over the fine rain which fell last week.

Miss Delma Fae Richardson who had an appendix operation at Blackwell hospital last week was able to be brought home Wednesday.

Willie Cooper and son Fred and O. A. Criswell transacted business in Brownwood and Coleman Tuesday.

Mrs. Large and daughters Mrs. Billman and Mrs. Bean visited in the Will Moore home at Cook Monday.

Mr. and Mrs. Walter Hill and little grandson spent last weekend with relatives at Junction. George Payne is spending this week with his children at Big Spring.

Mr. Melvin Ezell made a business trip to Ranger Monday. Mr. and Mrs. Andy Reynolds

and children of Cook spent last weekend with her mother, Mrs. George Payne.

Rev. Taylor of Rising Star visited in this community Monday afternoon.

Allen Hines of Camp Barkeley

spent the weekend with home folks.

Bobby Shultz of A. and M. is home to spend the summer with his parents, Mr. and Mrs. Cecil Shultz.

NATION'S CAPITAL BUILDS "NO-MAN'S LAND"

WAR WORK IN WASHINGTON BRINGS NEW PLEASURES FOR CAPITAL NEWCOMERS

WASHINGTON, D. C.—Two hundred "government girls" have said a glad farewell to the discomfort of living four in a room meant for two, and have moved their possessions to the first unit of an "all-girl city" now rising on the banks of the Potomac.

They are the first of some 7000 Washington war workers—all feminine—who will live in Arlington Farms, largest of six housing projects being constructed by the Public Buildings Administration of the Federal Works Agency, for the account of the Federal Public Housing Authority. The six projects will house an approximate 15,000 women.

Arlington Farms, located on what was the Department of Agriculture's experimental farm just across the Potomac from Washington and within walking distance of the Pentagon Building and Navy Annex, provides real "comfort living" for thousands of the girls who have come from every state in the Union to Washington to do the "paper work" of the war—stenographers, clerks, typists, telephone operators and what not. Heretofore, many of them have had to accept living conditions far below those to which they had been accustomed, because of the inevitable crowding of the capital of a nation at war.

Idaho Hall, now housing the first residents of Arlington Farms, and the nine other residence halls—each accommodating between 600 and 700 girls—is a spreading two-story structure of engineered timber construction, with the outer walls of Cesto wall panels, the durable, insulating, weather and fire-resistant building material produced by the Celotex Corporation of which Bror Dahlberg is president. These panels or wall units, only 1 1/2 inches thick, possess greater heat and weather resistant qualities than an ordinary wall of traditional construction—an important feature for Washington weather where the cold is bitter cold and the heat is really hot.

No More Basements
The dormitory-like setup of these halls gives each girl privacy and companionship as well as attractive modern surroundings. After living in hall bedrooms, dark basement quarters and drafty attics, the girls welcomed

the residence halls and moved immediately into Idaho Hall. Since the 200 girls are workers at the Pentagon, not far from the project, they have more leisure time than when they were forced to travel by public transportation from all parts of the city.

Unlike the traditional dormitory, there is no curfew and the girls have complete freedom. The public rooms, however, close at 11 p.m. on weekdays and at midnight on Saturdays. In addition to the large comfortable lounge, there are smaller rooms where card tables and comfortable easy chairs invite meetings, chats and reading.

The majority of the bedrooms are single rooms, which rent for \$24.50 a month. Girls eligible for quarters are limited to the income group from \$1,200 to \$1,800 yearly, to those who arrived in Washington after July, 1941, and those who live beyond reasonable commuting distances.

Rents are Low
The double rooms, which are relatively few compared to the single quarters, rent from \$16.50 to \$24.50 a month. Despite the standardization due to quantity buying, the use of different color schemes and room arrangements allows twenty-one various room combinations, and only a few rooms on the same floor in any wing are alike.

Thought has been given to the various types and tastes of different women and some of the rooms are more tailored in furnishings than others. To do this, rooms are equipped with either boudoir chairs and ottomans or a more tailored chair designed by Walter Baerman and Ethel Saarinen. Miss Gladys Miller was in charge of all furnishings and decoration.

Celotex's Cesto-board is being installed in the buildings in accordance with a system of construction of the John B. Pierce Foundation of New York City, of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

COMFORT, PARADISE IN WASHINGTON

HEAVEN FOR FEMINE WAR WORKERS—That's what Isabelle Mason, above, thinks as she relaxes in her cozy single room that is one of thousands designed to accommodate Government war workers newly-arrived in Washington, D. C. Built of Cesto wall units and designed for modern convenience and comfort, this room—and thousands like it in the Arlington Farms project now under construction—will go far toward making life pleasant for thousands of feminine workers.

RESTRICTED TO NATION'S WAR WORKERS

OLD DWELLINGS FAST GOING IN CLEARANCE AND BUILDING PLAN

WASHINGTON, D. C.—Washington's alley dwellings, once the despair of all who felt that the nation's capital never should possess a slum, are fast disappearing as the Alley Dwelling Authority in the District of Columbia proceeds with plans to turn eye-sore spots into beautiful residence sections.

Now that the Authority has taken on new functions in the construction of housing for war workers, its latest achievement is the awarding of contracts to erect

Pond development has been approved by the D. C. Coordinating Committee and the National Capital Park and Planning Commission. Residents are to be employees of government agencies engaged in war work and will be certified to the Alley Dwelling Authority by the personnel office of their respective employment agencies.

The Calvert Tract houses, to be occupied by essential "immigrant" employees of government war agencies, has site development plans made in consultation with the Maryland National Capital Park and Planning Commission.

CESTO BOARD STIRS WIDESPREAD CAPITAL INTEREST

WASHINGTON, D. C.—Housing experts throughout the nation are keenly interested in a \$7,500,000 project now under way in Washington.

This is Arlington Farms, rising within walking distance of the new Pentagon Building and Navy Annex on the banks of the Potomac, where some 7000 "government girls" will find comfortable and pleasant living quarters in ten huge residence halls.

Housing experts are interested because Arlington Farms is the newest project using Cesto wall panels, the creation of President Bror Dahlberg of the Celotex Corporation.

Developed from the basic Celotex, which in turn is made from bagasse—the waste product of sugar cane—Cesto wall units are made in panels four feet wide and up to 12 feet long, thus permitting speedy construction. Under exhaustive tests it has been proven weather, fire and wear-resistant.

1000 homes for war workers near Shaw Lily Pond in the District of Columbia and on what is known as the Calvert Tract, between Riverdale and College Park in Maryland, just outside the District.

The Shaw Lily Pond contract was let to the C. B. Ross Company, Inc., and the Calvert work went to John A. Johnson Contracting Corporation of Brooklyn, N. Y. The site plan for the Shaw Lily

BROR DAHLBERG TURNS UGLY DUCKLING BOARD INTO BUILDING SWAN

WASHINGTON, D. C.—Combining four functions in a single unit, Cesto wall panels, forming a major part of the PBA-sponsored residence halls for some 7000 "government girls" at Arlington Farms, Washington, D. C., provides exterior finish, interior finish, structural strength and insulation all at once.

Cesto wall units, developed under the guidance of Bror Dahlberg, president of Celotex Corporation, are panels composed of a cane fibre insulation core sealed with special asphaltic compounds between layers of asbestos cement, and are resistant to weather, fire and wear. They provide a complete exterior wall, which is also finished on the inside.

Dahlberg developed the original Celotex insulating board, which is made from bagasse, the waste material of sugar cane, into a wide array of materials, including the smooth surfaced and hard finished Cesto panels that have been extensively used in private construction and more recent government projects.

Its development is typical of Dahlberg's own energy and vitality, which are principally responsible for the growth of his organization into a world-wide

network of business activity. He is constantly planning new uses for Celotex materials, both in the present national war effort and for the post-war period.

Celotex's Cesto wall units are being installed in the Dormitories in accordance with a system of construction of the John B. Pierce Foundation of New York City of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

BUILDING SAFETY IS PROJECT AIM

Government's \$7,500,000 Residence Halls Are Hazard-Proof

WASHINGTON, D. C.—More than 7000 "government girls," who will form the population of Arlington Farms, an "all-girl city" now rising on the banks of the Potomac, will live in comfort and safety in the ten spacious residence halls of the \$7,500,000 project being constructed by the Public Buildings Administration of the Federal Works Agency on the banks of the Potomac.

Safety and comfort are assured by the use, in the construction, of Cesto wall units, a product of the Celotex Corporation of which Bror Dahlberg is president. These large panels, providing a complete wall, including exterior and interior finish and structural strength, are not only fire-resistant but include insulation so that they keep out both cold and heat as Washington climate knows those temperatures.

All buildings will have engineered wood framing, the ceilings are of fibre board covered with fire-resistant paint, and all rooms are surrounded by fire stops built into the floors which are of double construction, finished off in solid oak. For further protection against weather extremes, roofs are heavily insulated, under their tar and gravel surfacing.

Celotex's Cesto-board is being installed in the Dormitories in accordance with a system of construction of the John B. Pierce Foundation of New York City of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

EFFICIENT SPLENDOR FOR BUSY GOVERNMENT GIRLS

LUXURY DESCRIBES ARLINGTON FARMS—The \$7,500,000 residence halls project designed to become home for thousands of Government girls newly-arrived in Washington, D. C., employ every modern discovery of construction, including weather, fire- and wear-resistant Cesto wall units add safety and comfort to the luxurious surroundings of these beautiful homes for feminine workers. Pictured above is the architect's sketch of a typical entrance room, with Cesto exterior walls and wide windows for the reading rooms on each side.

WASHINGTON'S FAIR FEMALES FIND WAR-TIME HAVEN IN "ALL-GIRL CITY"

WASHINGTON, D. C.—On the banks of the Potomac, the vanguard of an all-feminine community of some 7000 residents is getting comfortably settled in its new quarters, and is the envy of thousands of "government girls" who are still struggling with the problem of living accommodations.

RESIDENCE HALLS OPERATED AS GIANT SORORITY HOUSE

No Curfew for Girls Living in Arlington Farms

WASHINGTON, D. C.—Residence halls at Arlington Farms, the great housing project for girl war workers in Washington which is being built and will be managed by the Public Buildings Administration of the Federal Works Agency, will resemble, in a giant scale, a college sorority house.

Each hall, to house between 600 and 700 girls, will have a house director to exercise general supervision and to be available for advice, and there will be certain rules about how late male visitors may stay, but there will be no curfew for the residents. In these huge residence halls, where the use in construction of Cesto wall units will provide the maximum in safety, comfort, insulation against heat and cold, and attractiveness, ample provision is made for entertaining guests, for group parties, and even for the preparation of midnight snacks in small but adequate kitchens.

But the only rules as to hours are that the public rooms, such as parlors and lounge, will close at 11 p.m. on week-days and at midnight on Saturdays, and that male visitors are taboo after those hours. The girls themselves will be free to come and go as they

IT'S MORALE THAT COUNTS IN CAPITAL

WASHINGTON, D. C.—Because personal surroundings mean much to a woman, some 7000 "government girls" in Washington have been asked to indicate what they would like to have included in their living quarters.

They are the girls applying for rooms at Arlington Farms, a great housing project now under construction on the banks of the Potomac.

Arlington Farms will comprise ten spacious residence halls, each housing between 600 to 700 women. The halls will be of engineered wood construction with walls of Cesto panel units, a Celotex Corporation product. The adaptability of Cesto units has permitted the designers, under the guidance of William J. Bissell, manager of the Public Buildings Administration's Office at Residence Halls, to provide the prospective tenants with living quarters of the highest quality, with other facilities that are comfortable, attractive and definitely "good for the morale."

Celotex's Cesto-board is being installed in the Dormitories in accordance with a system of construction of the John B. Pierce Foundation of New York City of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

wish, with no danger of being locked out.

Celotex's Cesto wall units are being installed in the Dormitories in accordance with a system of construction of the John B. Pierce Foundation of New York City of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

THIRTY EIGHT YEARS OF IMPROVEMENTS

Thirty-eight years of experience and more than seven million roofs made and applied stand behind Certain-teed roofing products— asphalt shingles and roll roofing. During the years since the first shingle and the first roll of roofing were turned out, tests under all types of weather conditions and on varying structures have served to maintain constant improvements.

The "all-girl city" is Arlington Farms, being built by the Public Buildings Administration of the Federal Works Agency, and it will be populated by girls and women employed in the War Department's Pentagon Building and Navy Annex, both within walking distance of this unique "no man's land." They will be girls from every state in the Union, assembled in Washington to help with the gigantic task of managing the war and the war effort.

Arlington Farms will consist of ten large hotels, each two stories in height and each housing between 600 to 700 girls, besides a huge cafeteria building, a recreation building, administration building and post-office, and other features.

It is the largest of six housing projects, four under construction and two tentatively planned, which will accommodate a total of approximately 15,000 "government girls."

The broad acres of what once was the Department of Agriculture's experimental farm have been leveled and landscaped into the site for Arlington Farms, complete with streets, roads, walks and all requirements of a small city.

Commissioner W. E. Reynolds heads the Public Buildings Administration, which is building and will manage the project for the account of the Federal Public Housing Authority. George Howe is supervising architect and Gilbert Stanley Underwood is consulting architect. Major General Philip B. Fleming is administrator of the Federal Works Agency of which the Public Buildings Administration is a unit.

The ten big hotels that make up Arlington Farms are designed in modern style and built with a new type of structural insulating wall material known as Cesto, a revolutionary product of materials developed by the Celotex

Corporation, of which Bror Dahlberg is president. These units have previously been used in many other large housing projects where speed of construction, durability, residential comfort and attractive design have been features.

The buildings are of engineered timber construction with outer walls of Cesto insulating wall panels. These panels comprise the complete wall, including exterior and inside finish and ample insulation against heat and cold. The units, which are 1 1/2" thick, are composed of a cane fibre insulating core, sealed with special asphaltic compounds between layers of weather, fire and wear-resistant asbestos-cement.

These wall units provide greater comfort and protection from summer heat and winter cold than do ordinary brick and frame walls and will provide the girl residents with ample protection against the cold and heat of Washington weather.

In line with the Public Buildings Administration's policy of saving every ounce of war-necessary material and also to give a maximum of ventilation, the windows slide horizontally to permit the entire opening to be free.

The ten hotels are placed on the site so that they stand diagonally to the points of the compass, so that every room receives sunshine and air.

Each unit will be complete, with its own staff, its own management, its own house director, its own director of social and athletic activity.

Celotex's Cesto wall units are being installed in the buildings in accordance with a system of construction of the John B. Pierce Foundation of New York City, of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

BRIEFLY TOLD

Mrs. Donald White, formerly Miss Mary Louise Poe and daughter of Mr. and Mrs. E. J. Poe, arrived in Cisco yesterday from her home in Houston for a short visit with family and friends. Mr. White, member of the coast guard and stationed in the Houston area, has mumps and was unable to accompany his wife to Cisco. Mrs. White is an employe of the Anderson-Clayton Compress company and will return to Houston Sunday.

Mrs. Raymond Reames has received word from her husband, first class radioman with the navy, that he has landed in San Francisco and will depart for Cisco soon. The Cisco young man has been serving in the South Pacific since last August.

Camp Wolters public relations branch informs the Daily Press that Homer L. Williams, 18, son of Mrs. B. C. Isbell, 1111 W. Ninth street, has begun training as an infantryman at that camp.

John J. Butts, 19, son of Mr. and Mrs. Edgar Butts, now at Camp Wolters infantry replacement center for his basic training, has been assigned to a battalion stressing heavy weapons, an official communication to the Daily Press states.

Rev. J. W. Tickner of Bluffdale, will preach at the Twelfth-st Methodist church, Cisco, Sunday morning at 11 o'clock. The pastor, Rev. Seba Kirkpatrick, will preach at Romney Sunday morning.

Mr. and Mrs. R. W. Smith were expected to arrive in Cisco today from Odessa for a vacation with relatives. They were accompanied to Cisco by Mrs. Clara Robertson, who had been visiting her children there.

Mr. and Mrs. Tom Stark are spending the week in West Texas, where Mr. Stark is transacting business.

Mrs. Betty Harris left Thursday for her home at Cisne, Ill., after spending the past two weeks with her sisters, Mrs. Fred Hayes and Mrs. C. R. Sanford.

Mrs. Marvin Frazier and daughter Janis Ann have returned to Brownwood after a visit with her mother, Mrs. Charles Flaherty.

Frank Yoder of San Antonio was a guest Thursday in the home of his mother-in-law, Mrs. Ida Shelton.

Mrs. Tige George of Abilene is visiting her cousin, Mrs. Gus Nix.

Tech Sgt. H. T. Rogan of Mojave, Calif., arrived this week to join Mrs. Rogan for a visit in the homes of his mother, Mrs. Clarence Moon and her sister and husband, Mr. and Mrs. Charles J. Kleiner and with her parents, Mr. and Mrs. Elder of the Shady Grove community.

Mr. and Mrs. L. E. Blanchard and son Eddie of Grand Prairie visited her mother, Mrs. C. B. Robinson Wednesday and Thursday. Mrs. Blanchard is the former Miss Hope Robinson.

Mr. and Mrs. Dan Jarrett and children Nancy and Jan of Breckenridge visited in the home of Mr. and Mrs. J. H. Hyatt, this week.

All officers of Eastern Star chapter are asked to meet at Masonic hall Saturday night at 8 o'clock for practice meeting for installation service to be held Monday night.

Staff Sgt. and Mrs. Bobby Russell have returned to their home in Del Rio after spending a furlough with his parents, Mr. and Mrs. I. D. Russell and Mrs. Russell's parents, Mr. and Mrs. J. J. Litchfield.

The district singing convention will meet in Cisco Sunday afternoon at 2:30 o'clock at the Church of God, 1010 F avenue. A program of gospel hymns has been arranged and the public is invited to attend, stated Don Rupe, president.

F. L. Brown of Denton visited relatives in Cisco today.

Mrs. Clarence Moon, Tech. Sgt. and Mrs. H. T. Rogan, Miss Johnnie Bess Rogan and Miss Ivan Elder returned Thursday

from a visit with relatives in Waco.

Mr. and Mrs. Ted Kiper have returned to Fort Worth after a few days here with Mrs. Kiper's parents, Mr. and Mrs. J. J. Litchfield.

Mrs. M. E. Goldberg left Thursday night for a visit with her daughter and husband at San Diego, Calif.

Allen Wood arrived Tuesday from Centre College, Danville, Ky., for a visit with his grandparents, Mr. and Mrs. C. R. West. He plans to remain until June 15 when he will return to his home at Lancaster, Ky. to await his call to the naval reserve about July 1st.

Mr. and Mrs. Wm. Isenhower went to Denton Wednesday and accompanied their daughters, Misses Geneva and Dorothy Isenhower to Cisco. Misses Isenhower have been students of State College for Women the past two years.

Mr. and Mrs. Carl Stockard and daughter, Patricia Ann, left today for Magnolia, Ark., after a visit with his parents, Rev. and Mrs. J. S. Stockard and his sister and husband, Mayor and Mrs. Edward Lee.

Miss Josephine Miller arrived in Cisco this week from TSCW, Denton, to spend a brief vacation with her parents, Mr. and Mrs. Joe Clements and her grandmother, Mrs. M. Oldham.

Dr. and Mrs. W. P. Lee enjoyed visits this week from their daughters, Miss Theresa Lee of San Antonio and Miss Sarah Lee of Louisiana University, Baton Rouge.

Among Ciscoans attending the funeral and burial rites for E. M. McCracken at Romney this morning were Mrs. P. R. Warwick, Mrs. E. P. Crawford, Mrs. W. W. Wallace, Mrs. S. E. Hittson, Mrs. J. E. Caffrey, Mrs. Yancey McCrea, Miss Willie Word, Kent Word, Misses Evelyn Reynolds, Marie Hunterman, Jo Nell Rains, Mr. and Mrs. Reed Young, Mrs. Homer Slicker and Mr. and Mrs. H. A. Bible.

Mr. and Mrs. Ernie Wilson and children, Ernie II and Sharon, are in Cisco for a few days' visit with his mother, Mrs. Joe Wilson.

AUXILIARY HELD BUSINESS MEETING.

First Presbyterian auxiliary met at the church Tuesday afternoon for the regular monthly business meeting.

Mr. E. P. Crawford, auxiliary president presided and the meeting was opened with prayer. Miss Willie Word, secretary of spiritual life, brought an interesting devotional. Routine business was transacted and reports

11 STARS—Champion service star mother probably is Mrs. Emma Van Coutren of New York City, who has 11 children already in Uncle Sam's service and another son leaving for armed forces in a few weeks. She has six sons in Navy, three daughters in WAACS, one son in Army and one in Merchant Marine.

were made by various committees and circle chairmen. All circles will meet in the church next Tuesday afternoon.

N&T CLUB WORK MEETING THURSDAY.

The Needle and Thread club was graciously entertained Thursday afternoon by Mrs. Millie McCannies in her home on N avenue. A business meeting was held, at which Mrs. Charles Clark presided. The afternoon was spent in sewing for the Red Cross.

Those present were Patricia Ann Stockard, Magnolia, Ark.; Gail Clark Siddall, Freeport; Nancy Clark, Mary McCrea, Kay Burnam, Toots Clayton, Janet Ferguson, Anna Lake Waters, Betty Bearman, Bernice Ann McCrea, Betty Lou Goetz, Renabel Bible, Mary Jeanette Poe and the hostess, Ann Hughes.

PATRICIA STOCKARD HONORED WEDNESDAY.

Little Patricia Ann Stockard, daughter of Mr. and Mrs. Carl Stockard of Magnolia, Ark., was honoree at a party in the home of Mrs. W. E. Spencer, Wednesday.

day afternoon. Ann Hughes was hostess. Outdoor games on the lawn were directed by Mrs. Spencer, with Misses Mary Jeanette Poe and Renabel Bible assisting. The hostess presented the visiting honoree with a lovely gift. Favors of dainty hair bows were given each guest.

When the games were ended Mrs. Spencer motored the group to Red Front drug store, where they were served ice cream.

Those present were Patricia Ann Stockard, Magnolia, Ark.; Gail Clark Siddall, Freeport; Nancy Clark, Mary McCrea, Kay Burnam, Toots Clayton, Janet Ferguson, Anna Lake Waters, Betty Bearman, Bernice Ann McCrea, Betty Lou Goetz, Renabel Bible, Mary Jeanette Poe and the hostess, Ann Hughes.

WADDELLS ENJOY "HOMEY" PLACE, HERE

Mr. and Mrs. James T. Waddell, who live on a small but

lovely "homey" acreage in the Olson addition, Eastland highway, have really achieved what they set out to do some 17 years ago when they began improving their four lots of ground. They have made it a good place on which to live out their lives in comfort and happiness.

Mr. and Mrs. Waddell may be found most any morning, either gathering berries or vegetables, attending to their chickens or working in the various patches of ground that seems to be groaning with some form of fruit or vegetables.

The soil is sandy, rocky loam but, by means of much toil, the rocks have been taken out and piled in a wall on the lower side of the slope to catch the washings and build the garden several feet higher than the adjacent level.

Berries and plums seem to be growing in profusion, although they are really systematically set out and plowed carefully. There are no weeds growing anywhere in any of the various patches that form this acreage.

The Waddells do not use commercial fertilizer, but do form composts of Johnson grass that is heaped in a pile during the summer and wet down to rot. Plums, peaches, apples, grapes, blackberries and strawberries are thrifty looking and seem to be

loaded with fruit. A grape vine climbs a great oak tree and that is where they get so many grapes, Mr. Waddell said.

Home-made chicken nests and coops dot the place. A few choice fryers are confined in coops to be fattened from table scraps.

Early sweet corn seems to be about ready for roasting ears. Onions and potatoes are practically made. Tomatoes, squash, beans and other garden vegetables are loaded with fruit.

The house is a neat frame building, well painted and arranged — well-built for comfort for life, Waddell said. A storm

cellar and storage was built to endure through eternity — double brick walls set in concrete, top reinforced with iron rails and steel, with not a sign of a leak or seep of water anywhere.

"We just built this place to make us a home to live in and on the rest of our lives," said Mr. and Mrs. Waddell, "and it really keeps us busy, but we enjoy it," they added. Replying to a question they stated that they never lacked for customers to buy what they had to sell. Berries were booked since last fall, they said.

Let's hope New York won't get a "token bombing." Comparing the behavior of Londoners and New Yorkers wouldn't help our morale.
