Cisco Adds Needed Industry to Home-Owned Enterprises

The latest acquisition to Cisco's home-owned industrial enterprises is the Cisco Flour Mill and feed plant that opened its place for business last Wednesday, when the Cisco Flour mill opened to custom milling to the farmers of the Cisco country.

It is acknowledged that there is a superiority of home-milled flour to that which is shipped in from the big processed milling plants, where most of the nutriment and real food value of the wheat product is sacrificed in the interest of nicety and beauty of processing. But for real food value, and food that contains those vitamins that are essential to health, there are none who will gainsay that the small mill-processed flour has not an equal, and that is what the Cisco Flour mill is furnishing its patrons.

So with this assurance why should not Cisco feel a bit chesty in gaining such an important industrial enterprise as the Cisco Flour Mill.

In addition to grinding the farmers' wheat, feed and corn, and delivering them their processed product, minus the toll, they will exchange you the best flour that ever made a biscuit for your wheat, or the freshest meal that ever graced a dish of turnip greens, or the purest feed that ever produced a gallon of rich country milk and cream, for your raw products. Just bring them in your home grown wheat, your carefully shelled corn or your feed, and have it processed at the Cisco Flour Mill where you will be sure to get the identical products processed and returned to you in the form of the finished product.

Must Support Local Industries

While all this is one of the greatest benefits to our farmers, yet it is not enough. To have a modern milling plant located in our midst, still that is not enough. Every man, woman and child should insist on their merchants handling Cisco processed flour, meal and feed.

We can never make a town by sending Cisco money to outside towns. We must never expect to be more than a distributing point for the big towns unless we stay with our local industrial enterprises. A home institution must have the support of the home people if we ever expect to build up

(Continued on Back Page)

Starr Urges Duty On Oil Imports Protect The Peanut Industry

W. B. Starr, farmer member of the federal peanut control board, has written the Texas senators and Congressman Blanton urging their support of a duty on imported oils that conflict with domestic peanut oil prices. He points out that the 172,000,000 pounds of cheap refined and crude copra oil would have a depressing influence on the price of peanuts, as imported oils would take the place of two billion pounds of peanuts (peanuts produce about 600 pounds of oil to the ton.)

Mr. Starr, in elaborating on the plans for controlling the price of peanuts, says: "I have just been advised that the desired legislation has not been enacted, a modified plan will be used in trying to sustain the minimum price of peanuts, as established January 27.

"A modification of the plan, also under consideration, would be directed wholly toward market protection, with allotments based on a flat percentage of acreage and prospective production in 1934, instead of upon acreage and production during a selected base period. The allotments would be made, as in the plan formerly discussed, from the amount of the 1934 crop which could be used for cleaning and shelling without endangering the minimum price schedules in the marketing agreement. The allotments would be made by counties and prorated among growers in each county. This plan, it is pointed out, would not penalize growers who have already made plans to plant peanuts in 1934, as they have done in a large portion of the peanut region.

"Under either plan, minimum prices would be paid only for the allotted proportion of the crop, and the surplus would be used for oil, or purposes other than cleaning and shelling."

LOTIEF HERE THIS WEEK

Cecil A. Lotief, floral representative, was a brief but pleasant caller at the Citizen office while en route to Fort Worth, where he attended the races. Lotief is still 100 per cent for his constituents, and will be a candidate again in this year's primaries. The man who has the nerve to oppose him tackles a man's size job.

Advertise in the Citizen.

Feed Mill Opened For Business Last Monday Gin To Be Maintained

J. L. Thornton, manager of Cisco's feed mill and grain and feed store, on South D Avenue, states that the mill and feed store is now taking care of its customers, and supplying all feed and grain to their customers. Also the feed mill is now in operation and custom grinding for the farmers is being done, as has been the practice in the past. The feed store carries a large stock of flour, meal, feed and grain at all times, which is being sold at retail or wholesale.

Preparatory to starting this important industry Mr. Thornton had the entire plant thoroughly overhauled, and his feed mill is now in condition for grinding the most perfect stock feed that has ever been supplied Cisco farmers. He says your feed, when mill processed makes it more economical, as there is practically no waste, and then it contains all the elements to produce better cattle and hogs, as they take on flesh more readily, and when fed as a milk and butter producer the results are always more satisfactory.

The feed store is well stocked with a variety of practically everything needed to properly take care of all kinds of livestock, especially for dairy cattle. The mill-processed dairy feed can hardly be surprised.

Mr. Thornton stated that the management will still operate the gin here, which at one time, they contemplated removing. This gin plant, which is one of the best in this section, will be thoroughly overhauled in time to take care of the fall cotton crop, and the same courteous and efficient service will be given those who have their cotton processed at the Cisco gin. Thornton will continue to see that the highest prices are paid for the cotton brought to Cisco, which will be good news to those who will have cotton to sell this fall.

The news that J. L. Thornton will remain with this industrial plant will

DR. H. A. HOY OPENS AN OFFICE IN BROWNWOOD

It is with regret that the Citizen mentions the fact that Dr. H. A. Hoy has found it to his interest to locate his permanent office at Brownwood. Dr. Hoy has practiced his profession as doctor of chiropractic science in Cisco for several years, and has performed some remarkable healings among those whom other practitioners have pronounced incurable. Naturally we all regret to have him leave, as his going leaves Cisco without a chiropractic practitioner. He is a splendid gentleman, and will make friends wherever he locates. Brownwood can congratulate herself on his selecting that city as his home office. He still has several patients here whom he is treating, and these he will visit once each week until their recovery is assured, for 'tis a custom with those chiros not to dismiss a patient as incurable, but continue their treatments until a cure is perfect.

Born to Mr. and Mrs. Ed Stuart, East Eleventh street, Easter Sunday, a 10 pound boy.

Raleigh McCann, Cisco oil man, was a business visitor in Burket during the past week.

be gladly received by the farmers generally, as Thornton is one of the best gin and feed men in West Texas. He knows the business from bottom to top, and understands the needs of his patrons, with whom he is very popular. All of them like Thornton by reason of his square dealing and the courteous service he renders. Then, too, they appreciate his untiring efforts to see that their produce brings the highest market prices at all times, and in his dealings with them never wants more than a legitimate profit for the service rendered.

Thornton will have a message to the farmer readers of the Citizen from now on, and it will pay you to watch the columns of this paper for the message its pages will contain from the Mill and Feed Store.

Ideal Theatre Will Be Open Every Night Sat. and Sun. Matinee

Manager K. N. Greer, of the Palace and Ideal theatres, announces that the Ideal theatre will be open every night in the future, with matinees every Saturday and Sunday afternoons.

The Ideal was reopened two weeks ago as an experiment, after being closed for about three years. The experiment has proven that there is a demand for a down-town show house, and Manager Greer, ever on the alert to give the people of Cisco that wholesome amusement they demand, has determined to run sound pictures each evening in the future, as the patronage given the Ideal during the past two weeks every Friday, Saturday and Sunday nights indicate there is a demand for this popular picture show to run every night.

Many have failed to see some of the splendid pictures that have been shown at the Palace for the reason the distance from the down-town section was such that they failed to go up to the other end of town, but after the Ideal was opened to the big section of the down-town district it has been given a liberal patronage.

There will be no matinees in the afternoons at the Ideal except on Saturdays and Sundays, when a well selected picture will be reserved for a special feature for the afternoon crowds. This feature alone will make the Ideal an attraction to people from the rural districts to remain over and enjoy a good show before returning home Saturday afternoons. But every night specially selected pictures will be shown. See the Ideal's advertisement in another section of the Citizen, as will also be seen the picture program for the Palace.

SWINDLE-COTTEN NUPTIALS

Last Wednesday Miss Winnie Ben Swindle and Mr. Tom Cotton took upon themselves the vows that made them husband and wife. The bride is a daughter of Mr. and Mrs. G. Jack Swindle, and the groom is one of the operators of the Conoco Service station, 901 Avenue D. They will spend the first week of their honeymoon with the parents of the groom, Mr. and Mrs. W. B. Cotten, on Lake road, during which time they will select permanent apartments for their future home.

1927 G-E introduced the first refrigerator with a 2 YEAR GUARANTEE

1931 G-E Monitor Top the first electric refrigerator to give a 3 YEAR GUARANTEE

1932 Unparalleled G-E performance made possible the first 4 YEAR SERVICE PLAN

NOW 5 YEARS PROTECTION

FOR ONLY \$1 A YEAR!

The standard 1 year warranty . . . PLUS 4 years additional protection on the sealed-in-steel mechanism for only \$5

- The mechanism represents approximately 70% of your investment in any electric refrigerator. Peerless performance of the G-E Monitor Top has made it possible for General Electric to protect your investment 5 years for only \$1 a year!

Now, to this matchless mechanism has been added brilliant new beauty and distinguished cabinet styling. New 1934 models are the finest and most attractive refrigerators General Electric ever built.

In G-E Refrigerators you will, of course, find all the modern features.

Also see the new G-E flat-top model . . . aristocrat of popular priced refrigerators.

BIBLE THOUGHT FOR TODAY

But he being full of compassion, forgave their iniquity, and destroyed them not: yea, many a time turned he his anger away, and did not stir up his wrath.—Ps. 78:38.

Did I forgive? Or was it you?
Who showed Love's presence there?
Perhaps it was that both awoke
To find Christ everywhere.

—Effie B. Fowler.

"Love thy neighbor as thyself," we are admonished by holy writ. So to forgive our neighbors any real or fancied wrong must necessarily mean that we are obeying this commandment.

OLD TICKET RE-ELECTED

Cisco last Tuesday voted to retain the present administration to administer the affairs of Cisco's municipal government. By this vote our people approved the acts of those gentlemen who have operated the affairs of the city by a decisive majority, from which there is no appeal, and as good Democrats we all bow to the will of the majority, and whatever good may come from those now in control of our city affairs we can enjoy the fruits of the administration's victory with the majority who returns to power those gentlemen against whom a creditable minority waged a clean contest to unhorse only to meet a decisive defeat at the polls.

During all of Tuesday partisans for both tickets waged a hot campaign, with the result of bringing to the polls one of the largest votes that has been polled in Cisco in several years. To say the least the result was disappointing to many of Cisco's people, as there was manifest the largest dissatisfaction with the present incumbents that has been seen in Cisco in several years. But despite this apparent dissatisfaction the old administration was returned to power, and not one of the opposition was given even a look-in.

The count of the ballots showed that W. R. Winston led the voting with 533; J. R. Burnett and H. C. Henderson ran almost a dead heat, the former receiving 507, and Henderson having to his credit 506 votes. The peoples' ticket, headed by W. P. Moore, received 432 votes, with L. F. Mendenhall and W. J. Donovan trailing with 394

We presume that this election

and 363 votes respectively, will settle that state of affairs for the next two years, at least, as it seems that the people are really satisfied with the manner in which the present administration has been conducted. At any rate the verdict of the people is acquiesced in by the Citizen. We opposed the re-election of the present incumbents, not on personal grounds, but we did and do now disapprove of star chamber proceedings, and many other acts of those now composing the city government. However, realizing that the people two years ago endorsed the present administration, we did not plan to raise a voice in opposition to the re-election of the present incumbents until their arbitrary action in denying the right of opposing candidates to contest the election we condemned with all our might their act, because of its undemocratic procedure. But the majority has spoken, and the will of the majority is the rule all must bow to, and we congratulate the incumbents on their victory.

True, the act of the commission in denying the opposing candidates to have their names on the ticket is without excuse, and showed a disposition to hog the entire spoils of office, yet, the fact that the printed ballot received the majority of the votes cast is the verdict of the people.

A write-in campaign is always a difficult one to wage, which was realized by those who were supporting the peoples' ticket, yet the fact that the leading candidate on the peoples' ticket was only 74 votes below that polled for the low man on the victorious ticket shows that there were a large percent, and a respectable minority who did have the patriotism to write-in the names of their choice.

But the election is now past history. The people believe in and endorse the methods of the present administration have adopted in carrying on the municipal affairs of Cisco, so we hope our entire population will forget the bitterness that may have been engendered during the present campaign and let us unite in a solid front in working for the general welfare of the city.

The Citizen will continue to uphold the present administration when they are right, but shall always reserve the right

to condemn every act that we believe illegal, or contrary to the best interest of the city. The majority has spoken, which makes the choice of the voters, so whatever good this victory may mean, let's all join in and participate in the fruits of this victory.

A PROPHECY FULFILLED

Twenty years ago James E. Ferguson became governor of Texas.

Nearly 17 years ago he stood before the bar of the Texas Senate, which heard impeachment charges against him. When the verdict was given, he said: "You have decided to remove me from office so that another man can take it. But you have made a political issue which will follow you and which this state will fight over for the next 20 years.

"You have decided to remove me from office back into the forum of the people I love, and there I will remain. I will appeal to them from the hustings, from the pine trees of East Texas to the plains of the Panhandle—and I will come back."

That prophecy has been fulfilled. Forever barred from holding public office in Texas, Jim Ferguson has just been named Democratic national committeeman for Texas—in his own name.

Jim Ferguson came back twice before his most recent honor—came back twice in the name of his wife, whom he advocated for governor when his own name could not be presented.

When the Texas senate impeached Jim Ferguson, a weaker man would have been crushed, politically, and otherwise. Not Jim Ferguson.

From adversity he rose to heights aspired to by many, attained by few. His most recent honor comes as a tribute to the years of service he and Mrs. Ferguson have given their state, as private citizens and as public officers. — Houston Press.

W. B. STARR ONE OF THE SIGNERS OF KEEL BOND

EASTLAND, April 4.—The names of those who signed the bond on which L. C. Keel of Ranger, who was charged with the robbery of the national guard armory on Feb. 19, were revealed today by Eastland county authorities.

There were four signers of the bond which was for \$1,000 each on charges of burglary and theft, according to the officers. The list includes W. H. Sprager, whose address is not given; T. H. Sparks of Ranger; W. B. Starr, of Cisco, and J. W. Parrish of Ranger.

The 88th district grand jury is now in session in Eastland, and a large number of witnesses have been summoned. No report of the findings of the body has been released by the court officers, as yet, though it was understood earlier in the week that the L. C. Keel case might be taken up for consideration at this session of the grand jury.

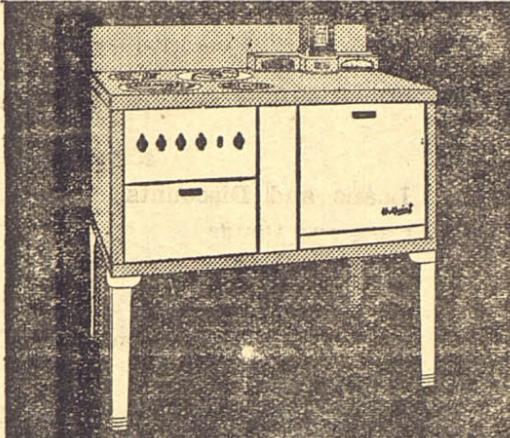

Keel's bond was signed and approved Saturday morning and he was released from the Eastland county jail, where he had been since the time of his arrest in Ranger on Monday night, March 19.

WANTED—Laundry work. Guaranteed. Prices right.—Mrs. L. V. Doyle, 604 E. 8th St. 26tc

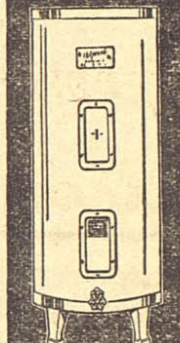

**Learn About
MODERN ELECTRIC
Ranges and Water Heaters**

Here is Good News for all who said, "I'll Cook Electrically when it is Faster and Cheaper."

Progress has been made in Electric Ranges and the new type brings into the home more than just a new "cook stove." It introduces new economy, new cleanliness, new hours of freedom to women... because modern electric cookery is fast.

And before you buy any water heating equipment, see our new low-priced Automatic Electric Water Heater.

The Electric Water Heater operates on a special low rate schedule and gives you dependable, economical service without the disadvantage of flame, noise, fumes, soot or odors. Don't judge modern water heaters by the old-fashioned standards... for progress has been made in water heaters, just as in electric cookery.

Investigate the cost of cooking and heating water electrically. You may be surprised at the low rate schedule for these appliances.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

**GOVERNMENT GUARANTEES
ALL FEDERAL LOAN BANKS
LOANS PRINCIPAL, INTEREST**

Claude Strickland, secretary-treasurer of the Cisco National Farm Loan association, received word today from Wm. I. Myers, governor of the Farm Credit administration, Washington, D. C., that Federal land bank loans and land bank commissioners loans will be made in the future through the Federal land bank in bonds of the Federal Farm Mortgage corporation, which bonds are guaranteed by the United States government both as to principal and interest, which will be at the rate of 3 1-4 per cent. per annum for the bonds to be issued at this time. These bonds will take the place of the cash distribution in the disbursement of the unclosed loans previously approved by the Federal land banks.

The bonds of the Federal Farm Mortgage corporation, according to the statement by Governor Myers, will have behind them not only the unconditional guarantee of the federal government as to both principal and interest, and the capital of the Federal Farm Mortgage corporation, amounting to about \$200,000,000, but also the consolidated bonds of the Federal land banks issued in exchange for the bonds of the Federal Farm Mortgage corporation and the mortgages accepted by the land bank commissioner as security for loans.

Governor Myers assured Secretary Strickland that the Federal Farm Mortgage corporation bonds will be an attractive investment. "They will be as readily marketable as bonds of the United States government and they will be quoted in all of the principal markets," he continued. "Holders who have to dispose of these bonds should not sell them without first ascertaining their real market value."

The governor particularly stressed the fact that country bankers probably will be large investors in these securities since the creditors of farmers who are being refinanced may not all be in the position where they can hold the bonds so acquired and will find it necessary to sell them. Secretary Claude Strickland states that these bonds, which will be tendered to farmers' creditors in payment of the refinanced indebtedness, are "exempt from all federal, state, municipal and local taxation, except surtaxes and estate, inheritance and gift taxes. They are lawful security for fifteen-day borrowings by member banks of the Federal Reserve system. They are also lawful investments for all trust, public and fiduciary funds of which the deposit or investment is under the authority or control of the government. The payments of the interest on these bonds and the repayment of their principal are guaranteed by the United States, which means that if the Federal Farm Mortgage Corporation should ever be unable to meet the payments on the bonds, the treasury will assume such payments.

"These bonds will be issued in denominations of \$100, \$500, and \$1,000. However, amounts less than \$100 will be disbursed in cash. For example, a loan of \$965 would be made in a \$500 bond, four \$100 bonds and the rest in cash. In addition, to provide for certain debts, such as taxes which cannot be paid in bonds, cash covering the required amounts will be provided.

"Loans which have been applied for and approved, but on which the cash has not been paid out, as well as those approved by the bank in the future,

**E. V. ALLEN, CARBON BANK
ROBBER FACES SECOND TERM**

FORT WORTH, April 2.—E. V. Allen, life term convict, is scheduled to go to trial here Wednesday on a charge of robbery with fire arms and repetition of offense, growing out of the holdup of Tom Penny.

If he is convicted a life sentence is mandatory under the habitual criminal act.

Allen, who was serving a life sentence for bank robbery in Carbon, Texas, was on furlough from the state penitentiary when the robbery here occurred January 8. Penny was robbed of \$30 and a watch. Allen was arrested in Oklahoma a short time later.

Allen is the only man in Texas to be sentenced to death for a robbery in which no one was injured or no shot fired. He was given the death penalty for the Carbon holdup but this later was commuted to life imprisonment.

Two attorneys have been appointed by the court to defend him.

**First Church Of
Christ, Scientist**

First Church of Christ, Scientist, of Eastland, authorized branch of The Mother Church, The First Church of Christ, Scientist, of Boston, Mass., holds services every Sabbath morning at 11 and each Wednesday night at 8. Testimonies on Christian Science healing may be given at the Wednesday evening meetings. Sunday school convenes at 9:45 a. m. All of these services are held in the Church edifice at the corner of Lamar and Plumer street.

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 8.

The Golden Text is: "The thoughts of the righteous are right: but the counsels of the wicked are deceit" (Proverbs 12:5).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For though there be that are called gods . . . But to us there is but one God, the Father, of whom are all things, and we in him . . ." (I Corinthians 8:5,6).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We lose the high significance of omnipotence, when after admitting that God, or good, is omnipresent and has all-power, we still believe there is another power, named evil. This belief that there is more than one mind is as pernicious to divine theology as are ancient mythology and pagan idolatry" (page 469)

will be financed on the above basis. This arrangement in no way disturbs or alters the other provisions of the loans. The interest rate on new loans will continue to be 4 1-2 per cent. for the emergency period when made through a national farm loan association and 5 per cent. when made directly by the bank."

**DR. L. C. KEEL RELEASED
ON \$1,000-00 BAIL BOND**

EASTLAND, April 3.—After habeas corpus hearing Dr. L. C. Keel posted the required bond of \$1,000 and was released. The 88th district court grand jury reconvened Monday, and during its sessions will doubtless probe the robbery of the National Guard armory Feb. 19, when four machine guns, 13 army pistols and a quantity of ammunition was stolen.

Four men, L. C. Keel, Jim Fox, Jim Vinson and Otis Dabbs, were arrested following an investigation by Texas rangers, assisted by Eastland county officers, in connection with the case. A charge of theft and one of burglary was filed against each of the four men in Justice Milton Nwmean's court in Eastland.

At a habeas corpus hearing Jim Fox was allowed bond in the sum of \$2,500 in each case against him and was given his liberty upon his posting bonds to appear before the grand jury Monday.

Habeas corpus hearings for Keel and Vinson resulted in their bonds being fixed at \$1,000 in each of the two cases against them. Keel made bond and was released Saturday morning. Vinson and Dabbs had not made bond at noon Saturday.

**REICH LADIES HOME
DEMONSTRATION CLUB**

The following news story from Reich came in too late for the last issue of the Citizen:

The ladies of the Reich Home Demonstration club met at the home of Mrs. G. W. Horn on Wednesday, March 28, for an old fashion, all-day quilting. They worked on a quilt the club ladies had previously pieced for the club. Members present were Mesdames Vanderford, Pollard, Horn, Morris, Owens, Callerman, Harrell, Hazlewood, Dillion, Ezzell and Miss Horn.

The visitors were Mrs. Dungan, of near Baird, and Mrs. Alvey and Miss Dillion, of this community.

The ladies all brought a covered dish and a feast was enjoyed at the noon hour.

On taking their leave all said they had really enjoyed spending the day together. The club ladies are planning many such days this summer, to be spent in canning and other helpful work.

Meeting days are every second and fourth Fridays. Next meeting will be Friday, April 13, and will be at the school house. Miss Ramey is with us on the fourth Fridays. New members and visitors are cordially invited.

**MOTHER OF T. L. COOPER
BURIED AT GORMAN SUNDAY**

EASTLAND, April 2.—Funeral services were held Sunday at 3 p. m., at the First Christian church, Gorman, for Mrs. T. L. Cooper, Sr., 88, mother of T. L. Cooper, Eastland county tax collector, who died at her home in Odessa at 5:20 p. m. Friday.

Last week Mr. Cooper was called to Odessa because of the serious illness of his mother and in the latter part of the week communications were received that little hope was held for her recovery.

In the summer of 1933 Mrs. Cooper visited in Eastland.

Interment was in Gorman cemetery, the Hamner Undertaking company of Eastland having charge of the body.

Surviving the deceased are three sons and one daughter.

CORN-HOG CONTRACTS COMPLETED LAST WEEK

Signing of corn-hog reduction contracts was completed last week and permanent committees elected. Community committees should complete field inspections this week, and in due time producers will be notified to call on the local committee to sign the

completed contracts according to Hubbard Gilbert, who was elected president of the Eastland County Corn-Hog Control association.

Mrs. M. E. Townsend was here from Moran one day this week.

Brazos Valley Pecan Growers Will Hold a Meet At Gorman 10th

Pecan growers of this section will have opportunity to see well developed pecan groves and hear worthwhile talk by pecan experts Tuesday, April 10th, when the Brazos Valley Pecan Growers Association holds its annual spring meeting at Gorman.

Near Gorman is located the Dallas Jobe 70 acre pecan orchard which is intersert with fruit trees and is prospering on upland sand. In this locality has recently been located a new 150 acre pecan orchard by J. L. Rainey, San Angelo pecan nurseryman. In this area is the tree on the farm of Frank Newell which he calls his tax tree and which has paid the entire taxes on his farm since he has owned it.

The program will open in the movie theatre at Gorman at 9:30 on the morning of April 10th.

The program will open with invocation by J. L. Roden, to be followed by the address of welcome by J. W. Cockrill, with response by J. C. Paterson.

J. L. Rainey, of San Angelo, will talk from the subject "Why I Selected Gorman for my Pecan Orchard." "Pecan Rosette Control" will be discussed by J. H. Burkett, of Clyde.

Delegates and visitors will enjoy a specially prepared luncheon at the noon hour.

In the afternoon the delegates and visitors will be conducted on a tour of the local pecan orchards by Dr. G. T. Blackwell, D. J. Jobe and John Kirk, when demonstrations will be made in budding and grafting under instructions of W. S. Price, Chas. Denny, J. H. Burkett, O. S. Gray and Ross R. Wolf. A business session will feature the closing of the meeting.

Cisco Adds Needed Industry to Home-Owned Enterprises

(Continued From Page 1)

home industries. So, if you expect the Cisco Flour Mill to expand into that sphere of usefulness, and become that local industry that will make Cisco famous, we must get behind our home industries and give them that support that will make them a success.

God knows we have few enough home industries, and will have less unless we support those which we have, but if we will get behind our local industries, give them our hearty support, we will be surprised at their expansion. Instead of sending Cisco money to other cities we will induce a flow of money to Cisco to buy Cisco products.

Several Small Plants

There are several small industrial plants here, but the major projects, around which we should build up an industrial center, is the Cisco Flour Mill, the Canyon Oil & Gas Co., and the Cisco Planing Mill, and the Independent Mattress Factory. Take these industries as a nucleus and we can build up an industrial center that will surprise even the most optimistic.

The Cisco Flour Mill is a modern plant in every particular, equipped to process the best flour with its modern machinery, which was moved to Cisco from a plant that had been in operation less than one year, so it is practically new. The mill has a capacity of 25 barrels of flour per day, and is strictly a Cisco industry. The plant is located on West Sixth street, and Katy tracks, in the Fort Worth Tool & Supply building. The operators are P. K. LeFeuvre and J. H. Kendricks. These gentlemen formerly operated the Putnam Flour Mill, where many of our farmers have enjoyed the products of their mill. Also, these gentlemen have operated a plant at Woodson, and at each of those places they left an enviable reputation that any one might be proud to claim.

In addition to processing all kinds of grain the Cisco Flour Mill will put on the market a breakfast cereal that promises to be a favorite with those who prefer wholesome food.

Mrs. Claude Gaines and daughter, Miss Hazel Theresa, of Oklahoma City, who was accompanied here by Eldon Weakley, were guests of Mrs. Virginia Wilson the last week end.

WANTED—Laundry work. Guaranteed. Prices right.—Mrs. L. V. Doyle, 604 E. 8th St. 26tc

WHEATLEY-CLARKSON

A happy little wedding ceremony was solemnized last Sunday when Mr. Wilson Wheatley was united in marriage with Miss Clarkson, daughter of Mr. and Mrs. C. C. Clarkson, 1007 W. 12th street. The bride is the charming daughter of Mr. and Mrs. Clarkson, and will be an ideal mate for the man whom she has chosen as her husband. The groom, Young Wilson Wheatley, is a Cisco reared boy, who, by his energy and ability has won a place in the industrial world. When the present editor became a member of the old Round-Up newspaper, Wilson was a helper in the newspaper office, but he has advanced far since then, and now holds a nice job with one of the oil companies in East Texas, where he will take his bride to their future home.

PATRICK SIRLS

The many friends of D. E. Waters were pleased to meet this genial gentleman on the streets this week. Waters was a recent victim of an auto accident, in which he received serious injuries, and that he has sufficiently recovered to again mingle with his friends, is gratifying.

W. D. R. Owen, candidate for county judge, was a pleasant caller at the Citizen office Monday while passing through Cisco.
