Ennis Favors, Pampa Attorney, has authorized the Donley County Leader to announce his candidacy for State Representative of the 122nd District, comprising Gray, Wheeler, Donley and Collingsworth Counties, subject to the action of the Democratic primary July 27.

Mr. Favors in the last election campaigned throughout the entire Panhandle for Gov. W. Lee O'Daniel. He was appointed and began his duties as an Attorney in the Department

of State January 17 last year and served until January 15 this year, at which time he resigned and came back to run for the Legislature. His announcement follows:

"I believe it is time to discharge our constitutional obligations and pay our old people, retired school teachers, dependent children and the blind.

"The poll tax payment should be reduced, or abolished as a qualification for voting.

"I am convinced the 7,000 pound truck load limit in Texas is unfair and should be raised.

"I will strive at all times to drive the best bargain possible for our people.

"If elected your Legislator I will cooperate with your Governor."

Ennis Favors is a married man with a family. He was born and reared on a tenant farm in Central Texas, and is a licensed attorney, 34 years of age, and has made Pampa his home for 14 years.

New Life

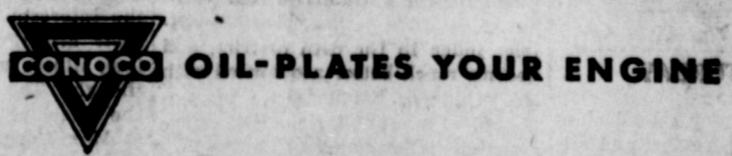

Change now to OIL-PLATING... and "the old gray engine seems more like she used to be"

At birth her cylinder walls were almost like mirrors. The more of that polish you want to keep, the more you want your engine OIL-PLATED by changing now to patented Conoco Germ Processed oil.

OIL-PLATING in your engine, like chrome-plating on bumpers, stays constantly PLATED UP. For an apparently magnet-like attraction comes to Germ Processed oil from its man-made extra ingredient, so that engine parts are surfaced with their close-held shield of OIL-PLATING... drain-proof.

Remaining fully PLATED UP in the highest-speed engines, OIL-PLATING plainly keeps Wear from doing Summer "business as usual" Wear once thrived during starting periods, but now before the starter ever starts, your OIL-PLATED engine is ready-lubricated—a positive step toward preserving the old gray engine... or a new one. OIL-PLATED cylinders long keep the roundness of youth, and that makes your Germ Processed oil keep. Change today—to Your Mileage Merchant's Conoco station. Continental Oil Co.

TEMPLE OF TRUTH

By the Apostle

Interest in the Cordele Dispatch, one of Middle Georgia's most popular newspapers, is greatly increased by the daily contribution of one who writes under the assumed name of "Happy Moron." From his column of recent date we re-produce the following:

There was a land of cotton fields and cavaliers called The Old South. A land of Lords and their Ladies, of Master and Slave. Look not for them herabouts for they are no longer to be found. Male and Female, Black and White, Youth and Aged, they are all down to the picture show seeing *Gone With The Wind*.

Katherine Scarlet O'Hara was our shero. A winsome winch with a figger like a marble statue and a head as hard.

Gerald O'Hara was her pa. By nature, he was most animal like. Proud as a peacock, he roared like a lion and rode like a dog and pony show. After Sherman came he was crazy as a bedbug.

Anyhow, Scarlett was in love with Ashley Wilkes, who was in love with his cousin Melaine who was in love with Ashley, and so they were married. (Ashley and Melaine, in case you're getting confused.)

This irritated Scarlet no end and so, in quick succession she married for spite and cash respectively, a couple of fellers whose names we didn't get. But then, neither did Scarlett for long.

The other major characters were Rhett Butler, Belle Watling and a colored lady exactly like the one on the flapjack box.

Rhett, who was somehow strangely reminiscent of Clark Gable, was a cross between Jesse James and Little Boy Blue.

Uncle Lum considered playing Rhett but turned it down when he found there wasn't anything but

mint in the mint juleps. If Rhett had joined the Lost Cause in the second reel instead of after intermission, the Confederacy would have won the war.

And Belle. You'd have loved Belle. Everybody did.

During the siege of Atlanta, only three things were running. Belle's place, Prissy's nose, and the laundry that kept Rhett's white suits snow white.

Melaine's baby arrived about the same time Sherman did. Both were equally welcome to Scarlett.

It was, so far as our painstaking research has revealed the first baby ever born in technicolor.

Anyway, the South lost the war again in the picture. (What could you expect with a lot of Yankee producers?) and Scarlett married Rhett to get even with him.

Their married life was just like setting in hell's fire and listening to the heavenly choir.

Finally, after Melaine died the doctor's always right) Scarlett realized that she didn't love Ashley but Rhett. Scarlett was as changeable as a baby's underwear.

However, Rhett had enough of her foolishness and when she told him, he says, "Frankly, my dear, I didn't give a damn."

Gone With The Wind is showing at the Pastime Theatre Friday, Saturday, Sunday and Monday.

MIDWAY
Mrs. John Goldston

Midway people are all stirred up over the terrible car tragedy Sunday night when six of our finest young people were injured, two critically. Ben Chamberlain and Marvin Jones being Midway young men, and Miss Mattie Rhodes Midway's beloved former primary teacher for three years. It seems that the time has

come when our young people are not safe to travel the highways. These young folks were taking Miss Rhodes back to her school work at Ashtola when the wreck occurred. All that saved a head-on collision was the presence of mind of young Gerlach to turn his car as he saw the car driven by negroes come directly toward him, striking his car in the side.

Ben Chamberlain and Miss Rhodes are in Northwest hospital in Amarillo. Mr. and Mrs. John Chamberlain, Will and Mr. and Mrs. Gene Chamberlain went up Tuesday to be with Ben. His mother remained with him.

Mr. and Mrs. Gene Chamberlain and John Goldston were in Amarillo Monday.

Guests in the Pat Longan home Sunday were Mr. and Mrs. Goodpasture and Mr. and Mrs. Reid of Memphis, Mr. and Mrs. Cook, Mr. and Mrs. Bill Gaither of Amarillo, Malley Dorsett of White Deer, Mr. and Mrs. J. C. Longan, and Mr. and Mrs. Ben Andis of Clarendon.

Clarence Davis returned from Los Angeles, Cali. Sunday where he has been since Christmas.

Mr. and Mrs. Henry Riley of Shamrock spent the week end visiting in the W. K. Davis home and with other relatives and friends.

Mr. and Mrs. Everette Stevenson visited in the John Potter home Sun. The Government inspector for the rural electrification was around Friday inspecting the wiring of the houses in this community.

Mrs. Pat Longan, Mrs. Romeo Derrick, Miss Reba Higgins and Mrs. John Goldston attended the style show of the Clarendon home Ec department Friday afternoon.

Mrs. Ruby Bromley entertained her circle of the Baptist church Wed. Mrs. W. K. Davis and Mrs. John Goldston visited with Mrs. Milt Allen Wednesday afternoon.

Manor Lawson is visiting his sister Mr. and Mrs. W. D. Higgins.

Mr. and Mrs. John Goldston visited

Clark Gable and Vivien Leigh in "Gone with the Wind"

Mr. and Mrs. LaVern Goldston of McLean Tuesday.

The Naylor Birthday Club met with Mrs. Scott as hostess the past Thursday. A covered dish lunch was enjoyed at the lunch hour. There were no birthday honorees for April. In the business meeting, Mrs. Williams was elected to membership. The next meeting will be with Mrs. John Naylor, Mrs. John Chamberlain and Mrs. John Naylor being the honorees for May. After the business

meeting Mrs. Scott entertained the members with games, etc. in a very enjoyable manner. Members present were Mesdames Jhon Naylor, John Goldston, H. C. Holland, Algren, A. C. Arnold, Bud Hefner, W. M. Pickering, Leslie Pickering, Gene Chamberlain, Swafford, Wood, Misses Minnie and Ava Naylor, Mrs. Williams, guest and Mrs. Scott hostess.

Mr. and Mrs. Glenn Adkins were in Amarillo Monday.

THE STATE OF TEXAS

To the Sheriff or any Constable of Donley County Greeting:

F. R. Smith, Administrator of the Estate of W. M. Smith, Deceased having filed in our County Court his Final Account of the condition of the Estate of said W. M. Smith, Deceased numbered 460 on the Probate Docket of Donley County, together with an application to be discharged from said Administration.

You are hereby commanded, That by publication of this Writ for ten days in a Newspaper printed in the County of Donley, Texas you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on Monday, the 29th day of April 1940 at the Court House of said County, in Clarendon, Texas, when said Account and Application will be acted upon by said Court.

Boat Safety Rules

AUSTIN, April 16.—The fishing and boating season in Texas is rapidly approaching and the executive secretary of the Texas Game, Fish and Oyster Commission is urging boatmen to be careful in the operation of their crafts, whether they be row-boats and canoes or larger boats. Observance of the following simple rules will assist in holding down the list of drownings, the secretary said:

Never overload a boat, nor allow occupants of a boat to stand up in it. Do not use a motor of too large horsepower for the size of the boat. It is also unsafe to use a small horsepower motor on a large boat because in case of a storm the boat will be uncontrollable.

Every boat should be equipped with: one life preserver for each person in it, fire extinguisher, lights and good oars or paddles.

Every outboard motor should be equipped with a chain or good rope because motors will frequently become loose and be lost at the bottom of the lake.

While a motor is running, never leave it unattended. The motor may give a quick turn and throw you into the water.

Leave your bottle at home. Water and alcohol do not mix.

Outlook Much Better

The Outlook is much better for those who diversify where possible. They have found out that a "One Crop" idea does not pay. The farm "sidelines" of cream, eggs, poultry often provide a weekly pay check. It counts in paying the bills of the family. Observation has taught all of us that the ground silo, cow, sow and hen must have a place on the well regulated farm. It forms the money crop when field crops fail to come up to the standard.

THE PATHFINDER CLUB

The Pathfinder Club met in the club room Friday afternoon, April 12, with Mrs. Dishman presiding. The club collect was read, followed by several letters from chairman of various departments in the district federation concerning the Federation Meeting to be held in Pampa, April, 30th through May 2nd.

An appropriation of five dollars was made to the park board and an equal amount to the school kitchen. Three names were placed on the waiting list since the club membership of forty is full.

Mrs. Lena Antrobus was leader for the day's program which was a review of Robert E. Sherwood's prize winning drama, "Abe Lincoln in Illinois". Mrs. Antrobus gave an interesting account of Sherwood's life and career as a writer. His outstanding success before this had been "Idiot's Delight." This his latest play and his greatest success, "Abe Lincoln in Illinois," was presented first at the National Theatre in Washington, D. C. in October, 1938, and then in the same month in New York City. Mrs. J. R. Porter brought a very vivid picture of Lincoln's early life of his entrance into politics, of his maturing convictions, and his election as president as given by Sherwood in the play, closing, with the scene where he waves good-bye to his friends in Illinois as he starts to Washington.

The hostesses, Mrs. B. L. Jenkins and Mrs. James Trent, served refreshments befitting the Spring day.

Spring Pasture For Milk Cows

COLLEGE STATION.—Dairymen with cows on good spring pasture can save money by making a slight change in feed.

Usually cows are fed a 22 percent protein grain mixture during the winter when the roughage consists of hay or silage. A lot of dairymen feed their cows the same grain mixture in the spring.

That is where they are making a mistake, according to E. H. Eudaly, dairyman of the Texas A&M Extension Service.

Early spring grass is high in water, protein and minerals but low in carbohydrates. That means that the protein should be cut down to from 10 to 14 percent.

Wheat, oats, clover and young sudan pasture are especially high in

protein, and a 10 percent protein grain mixture does the job. Spring mesquite, buffalo, dallis or carpet grass needs to be supplemented with a 12 percent protein mixture. Bermuda or rhodes grass needs a 14 percent supplement.

Here are some sample grain mixtures: 22 percent protein—100 pounds ground ear corn or maize heads, 100 pounds wheat bran, and 100 pounds cottonseed meal; 14 percent protein, same except only 20 pounds of cottonseed meal; and 10 percent protein, 100 pounds ground ear corn or maize heads and 80 pounds wheat bran.

Since spring grass is high in water, cows should be offered all the dry hay, bundle feed, or cottonseed hulls they will eat—usually 5 to 10 pounds

per day per cow.

Jessie Ingram of Amarillo visited her mother, Mrs. C. B. Ingram, Sun.

Visitors in the E. M. Ozier home Sunday were Miss Annie Lou Richards of Stinnett, her sister Mrs. Rodney Baldwin of New Mexico, their father, Mr. Richards of Wellington.

A new bombing plane has been delivered to the U. S. Navy. The plane weighs 40,000 pounds, is equipped with four 1200 horse power motors, has a speed of 300 miles an hour, a 3000 mile range and a bomb carrying capacity of about four tons.

F.F.A. COOPERATIVE PROJECT PROVES SUCCESSFUL

That high quality "fryers" are in demand has been proven by the experience of the local F.F.A. members who sold a large number of fryers from their cooperative broiler project during the past week. The chapter started their chicks in chapter owned battery brooders when the weather was disagreeable and most people were afraid to start their chicks. The chicks have never left their batteries and now weigh from one and one-half to three pounds. In an effort to produce the highest quality of broiler possible, only the best grades of feed have been fed the broilers. A number of the broilers reached 2½ pounds at nine weeks of age.

The chapter brooded 140 broilers as a chapter project to aid in financing their father-son-business man banquet. In addition to the broilers brooded by the chapter as a group a number of individual members brooded their chicks out under the same conditions and now have a goodly supply on hand for those people desiring extra high quality broilers. The broilers are sold by weight, and anyone desiring high quality broilers can secure them by leaving their order with J. R. Gillham, F.F.A. Adviser, who will in turn notify the members to deliver the fryers.

Mr. J. R. Bain is reported seriously ill at his home.

College Play Great Success

SUPERB ACTING OF LOCAL TALENT APPLAUDED

"Bolts and Nuts", the C.J.C. play as shown on last Friday night, proved to be one of the most entertaining and best acted plays given by the college in many years.

A capacity house enjoyed a two and one-half hours melee of negro wit, loud-mouthed philosophizing from a house maid, the impetuosity of a quack psychiatrist, a rowdy treasure hunt by a group of pseudo-nuts, and the intrinsic problems of a young couple in love.

The play, "Bolts and Nuts," demanded more individuality and concentrated acting of the cast than the usual play shown by amateurs. The entire cast, however, did itself proud by its resourcefulness, adaptability, and forceful acting.

The role of Luffe Spinks, a loud-mouthed maid, as portrayed by Ethelyn Drenan, was excellent. This part was difficult to act and it is doubtful if anyone else could have done it justice as did Ethelyn. Another comedy role was played by Led Jay as the "slow and easy" negro porter, Henry Goober. Led did a clever bit of acting in portraying the usual superstitious, hypersensitive colored lad. Wallace Biffle was a "find" for the role of Mr. Cadwallader Clippy, a middle-aged bachelor who possessed a great fear of cats of all descriptions—black cats, white cats, yellow cats, brown cats, and even two-legged cats.

Mr. Phineas Plunkett, attas Craig Johnson, was a lawyer with a humility complex. Craig played a double role: one as lawyer Plunkett and the other as a murderous, throat-cutting lunatic. Both parts were well played. Wilda Faye Gibbs was excellent as Martha Grubb, a fortune hunting cook who attempted to frighten everyone away from the Bolt Mansion, so that she could seek the secluded fifteen thousand dollars without any competition. J. R. Naylor portrayed a very strong role as Dr. Hippocrates Joy alias Sam Henry. In his up Phase, Dr. Joy was a radiant, positive, wonder working psychologist, psychoanalyst, and psychiatrist. During his down phase, he was Sam Henry a dejected, heart-broken, intermittently insane man. J. R. played the role very well. Rebecca Eanes and Jo Word did

a fine bit of acting in portraying the part of two fortune hunting women under the guise of being effected by mysophobia and claustrophobia. The bad boy or "spoiled brat" of the play was very ably done by O'dell Davis. His voice was good and his aim with the bean shooter was unerring. The role of Jack Gordon, the handsome young interne from the sanitarium, was well handled by our own handsome Ralph Grady. Christine Knox played an excellent part in the role of Rebecca Bolt, mentally a sublimated old maid of 40 years. This part called for superb acting.

The young lovers of the play, Benita Bolt and Twink Star, were deftly acted by Frances Hott and "Casanova" Jack Gardenhire. "All's well that ends well." So was "Bolts and Nuts," an outstanding play portrayed by a capable and very willing cast. Mr. Drennan and Mr. Hutto deserve much credit for the direction.

A. L. Millsap, former resident for many years, is visiting friends here over the week.

... but what has this automobile to do with your **ELECTRIC SERVICE?**

FRANKLY, it has nothing to do with your electric service. We use it here to illustrate a point.

Automobiles were "rich man's toys" not so many years ago. They cost a lot of money and they cost a lot to run. They were gas-eaters and oil-eaters. The hills they could climb in high were few and far between. If you got them up to fifty miles an hour, the noise and vibration were terrific.

Today millions of American families can afford beautiful, powerful cars that outsmart, outshine and outperform the best models of the Twenties in every way, yet cost less than half as much.

This progress has not been confined to the automobile. Time was when electric service provided only your light. Today you can use more lights,

a radio, refrigerator, vacuum cleaner, washing machine and other appliances, and the electricity to operate all of these costs very little more than you used to pay for light alone.

Like the automobile, your electric service improves steadily year after year. At the same time, its price comes down. This is possible because of the constant effort of the people of your electric company to improve service and reduce rates. It's an effort that goes on and on. Because of it, your electric service will be better and cheaper in the future than it is today. The credit belongs to a group of people who are never content to rest on their laurels, who strive to do their job just a little better today than they did it yesterday. They're the people of your electric company.

REDDY KILOWATT is singing the praises of West Texas, "the Land of Opportunity." We have many things of which to be proud—opportunities for agricultural and industrial growth; sites of scenic beauty and historical significance; great natural resources; fine highways; splendid educational institutions; and a delightful all-year climate. When you write friends in other states, invite them to visit West Texas on their 1940 vacation trip.

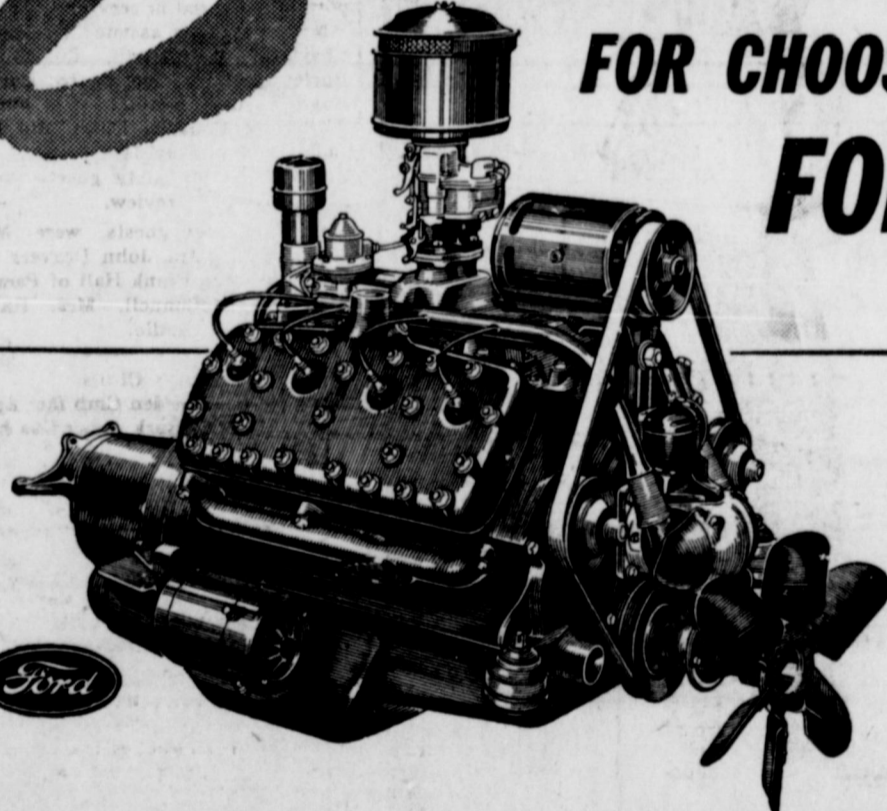

More for your money

In the last 10 to 15 years, the engineering improvements and operating economies of your electric company have made it possible to cut the average price of household electricity just about in half! Many customers now using more household appliances, such as lights, a radio and refrigerator pay very little more to operate all of these than they used to pay for light alone.

Garner Support Gathers Force

DALLAS, April 16.—The people of Texas should, and will, pay tribute to a great Texas statesman by sending a solid Garner delegation to the Democratic national convention in Chicago, Myron G. Blalock, director of the Garner-for-President campaign in Texas, declared in a state-wide address here April 12th.

Mr. Blalock, who is a past chairman of the state Democratic executive committee, spoke over a network of 23 radio stations.

The campaign director explained that a delegation instructed for a favorite son was the normal procedure for any patriotic state to pursue, and declared that every other suggested candidate for the presidency naturally expected Texas to be loyal and stand by its own.

INTERESTING FACTS ABOUT BEER AND BREWING

100 INDUSTRIES BENEFIT FROM BEER AND ALE

Did you know that the return of beer and ale brought increased business to more than 100 industries? It did. Services and materials were needed. New jobs were made for workers.

NATURE MAKES BEER!

A simple natural process produces beer and ale from water, malted grain and hops. The brewer applies his skill to help give these beverages their fine taste.

BEER'S TAXES—\$1,000,000 A DAY—COULD PAY FOR GRAND COULEE DAM IN 186 DAYS

Grand Coulee Dam on the Columbia river will be the most massive structure ever built by man. Beer's taxes—Federal, State and local—could quickly pay for it.

WHY BEER IS THE BEVERAGE OF MODERATION

Beer's alcoholic content is very low . . . lower than any other alcoholic beverage. That is why it is called "the beverage of moderation." You are not likely to get in trouble if you stick to beer.

BOUGHT BY BEER AND ALE: 25 BILLION POUNDS OF FARM PRODUCTS.

Steadily, year after year, the brewing industry gives American farmers a big order for farm products. That's a help farmers appreciate.

OLDER THAN THE PYRAMIDS OF EGYPT

Beer has been brewed since the beginnings of recorded history in many parts of the world. It was known in ancient Egypt, in China, and the Euphrates valley.

"CLEAN-UP OR CLOSE-UP" A NEW PLAN TO PROTECT BEER RETAILING

One of the most interesting things about beer and ale is the brewing industry's program to keep retailing wholesome. This program is now in effect in a number of states. It is being extended. We want you to know about it. Write for booklet. United Brewers Industrial Foundation, 19 East 40th St., New York, N. Y.

Food values can "soak" out of greens if they stand in water too long, warns Nora Ellen Elliott, specialist in food preparation for the A&M College Extension Service. Where greens are to be used raw in a salad, most of the food values can be retained. She says: "Wash the greens quickly, then put them in a cold place to become crisp."

Word Portrait of Clark Gable

Clark Gable, the people's choice for the part of Rhett Butler, in David O. Selznick's Technicolor production "Gone with the Wind," beginning Friday at the Pastime Theatre, played an interesting succession of top roles in motion pictures before he was signed to present one of the most amazingly complex characters ever to appear on the screen.

A screen career was not among the early ambitions of Clark Gable, the son of William Gable, Canton, Ohio contractor. The family moved to Hopedale, Ohio, when the young-ster was eight. In this town of 500 people, the boy went to school, and there he decided he would be a doctor. He took every science course offered by the village high school, and upon graduation, went to Akron, where he got a job as timekeeper in a rubber factory at a salary of \$100 a month. His principal interest, however, was his work in a pre-medical course in the night school of the University

of Akron. He struggled with columns of figures all day, and attended classes in physiology and chemistry in the evening. One Sunday evening he met two young actors from a local stock company. They asked him to witness a play from backstage, and he was so impressed with the experience that he quit night school and hung around the theatre for weeks. He had determined to become an actor. Considerable water, however, passed under the mill before Gable reached the full stature of an actor on the Broadway stage in the leading role of "Machinal." In the period between his first decision to become an actor and his later hit in New York, he became a "swamper" on an oil development in Oklahoma, barnstormed with a traveling road company, joined a surveying gang cruising a timber tract, worked for a newspaper, telephone company, and finally, returned to acting in a road company of "Romeo and Juliet" with Jane Cowl.

The part of Sergeant Quirt in "What Price Glory" brought attention to Gable, and he now was able to get some extra work in Hollywood notably a part in "The Merry Widow" with John Gilbert and Mae Murray. He obtained no regular screen work, however, and when he had a chance to play stock in Houston, Texas, he took it. After 37 weeks of this engagement, he took his accumulated savings and went to New York to score in the forementioned "Machinal," as well as in "Conflict," "Gambling," "Hawk Island" and "Blind Windows."

Played Killer Mears Broadway was good to Clark Gable, but he was always a Westerner at heart. So when his old friend, Louis Macloon, sent for him to come back to Los Angeles and play Killer Mears in the state play, "The Last Mile," he took the next train. In the play, Gable was a sensation and Lionel Barrymore, who was then directing at Metro-Goldwyn-Mayer, asked the young actor to take a screen test. Gable took it, and soon

after was called for a part in "The Painted Desert." It was a riding part, and Gable, despite his upbringing on an Ohio farm, wasn't sure of his horsemanship. He hadn't been in a saddle since he was a boy. But after a few lessons he was able to qualify, and when the picture was shot, he rode like an old Rio Grande cowhand. Another part in "The Easiest Way" was so sensational that Metro-Goldwyn-Mayer offered him a contract, and he has been attached to that studio ever since.

Several Brice families attended the one act play and picture show at the Lesley auditorium Wednesday night. Herman Gattis of Lubbock is visiting Mr. and Mrs. Hilburn Gattis several days. The Brice school boys playground ball team played Lesley Wednesday afternoon. The score was Lesley 15, Brice 12. W. H. Youngblood and Hilburn Gattis were visitors in Clovis, New Mexico the first part of last week. Mr. and Mrs. E. F. Hodnett and children were Thursday afternoon guests of Mr. and Mrs. Dewey Myers.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

When you read your garden glances last week the fickle Weatherman had destroyed the scenic spots to which your attention had been directed. However, we dirt gardeners are as undaunted in our efforts to try persistently for another display, as the cheerful tulips. They bent their colorful heads after the freeze, and then quite a few of them stood erect again. At present there is a lovely spot of these blooming in the Meredith Gentry yard. The lawns which have a profusion of evergreens in their landscaping are at a great advantage just now. Some of this type are the Odus Caraway, Evans, and Jim Patman lawns. The Methodist church lawn is being reset with evergreens predominating. There are numerous pines, junipers, and other shrubs being placed in the City Park at present. The park is developing an atmosphere of enchantment. The Chinese elms were not injured by the cold as were our other shade trees. The Chinese elms at the Keys home have been pruned recently, and denote rapid growth since last spring. Mr. Mulkey has acquired quite a few trees and some evergreens to his property where the Lovings reside. There are extensive developments of lawns in various parts of town, and the more contact one has with Nature in this way the more enjoyment he will secure. Mrs. Buel Sanford spent Sunday with relatives in Vernon.

PURYEAR ANNOUNCES FOR STATE REPRESENTATIVE

Having served this district in the Legislature two terms prior to the election of Gene Worley, Mr. Puryear is well known over his entire district. In making his announcement, he sums the matter up as follows: "In submitting myself as a candidate for Representative, I would say I have but few promises to make as I know that one man in a body of 181 cannot promise what that body will do. But as for me, if elected, I will represent the people of my district and not the special interests. I will cooperate with whomever you elect as Governor, and see that the old age pensions and teacher retirement funds are paid. I favor city school privileges for every rural child. Economy in government being democratic, I would favor the voters voting on a sales tax or any other question they so desire, and would abide by their decision by such vote. I would favor raising the truck load limit and regulating height, length, etc. I would favor cutting registration of cars to one-half the present price. I think it is time to elect a few farmers and business men to the Legislature. As I am farming, I will not have the time to make a house-to-house campaign, but will do my best to see all voters in the district which is composed of Donley, Gray, Wheeler and Collingsworth counties. I therefore take this method of asking

- What do this Company and associated Companies and their operations mean to your state, to your local governing body, and to your home town?
- These Companies maintain payrolls of some 3,000 employes in the Gulf South, who are paid total annual salaries and wages of over \$5,000,000. Some of these employes live near you, perhaps as your neighbors in your community—paying taxes and spending their money to maintain their homes.
- Because of extensive investments in land,

facilities and equipment, these Companies are among the large taxpayers of your state, paying substantial taxes to your local governing bodies also. Their total 1939 tax bill was over three million dollars.

- In fact, these Companies are substantial citizens of your state and of your own community—and have been for years. The management and personnel alike are proud of that citizenship, and are vitally interested in the progress and welfare of your community and state.

LOCAL HARDWARE STORES TO HOLD OPEN HOUSE

Featuring the value and variety of merchandise found only in a hardware store, the hardware merchants of Clarendon will hold a ten-day Open House as their participation in National Hardware Open House, April 25 to May 4.

Hundreds of manufacturers are furnishing real values for the national event, many of which will be on display at the local stores. This merchandise includes gift items, kitchen wares and home appliances as well as other hardware items of outstanding quality.

The purpose of Open House is to keep the public informed of the new and improved products featured by independent hardware retailers, and to give the public a better understanding of the broad scope of the hardware retailer's service to his community.

Hardware merchants have confined their merchandising plans strictly to items of regular quality, and price reductions or special merchandise will be of outstanding quality and not 'sale' merchandise.

TO ALL VETERANS OF ALL WARS IN TEXAS A HOME

About two years ago the State of Texas gave to the Veterans of All Wars the Confederate Home in Austin, but this Home is very much run down. Many of the buildings have been condemned, except the Main Hospital where there are still a few of the "old Comrades of 65" confined (to be exact, 28).

Now we are endeavoring to raise funds to put this HOME back in operation for ALL VETERANS of ALL WARS. The effort is to raise this money by selling Bluebonnets on April 20, 1940. A Texas flower, on a Texas Day.

Just as Miss Clara Driscoll saved the Alamo, the patriotic citizens of Texas saved the historic spot of Fannin and his brave men at Goliad and immortal San Jacinto Battlefield, so will the grandsons and granddaughters of Texas save another historic spot in Texas History—the Texas Confederate Home—as a domiciliary home for the Veterans of All Wars.

The Veterans Home Central Council notifies all is set for the Bluebonnet Sale on April 20th. On Friday night, April 19, the Veterans Council will put on another State-Wide hook-up over Texas State Network, originating in station KNOW in Austin. The broadcast will be from 8:30 to 9:00 p. m. Champion Drum and Bugle Corps of Travis Post 76 of the American Legion will be on the air, along with Red Lawrence's "Jolly Texans" Fiddle Band. Along with this half hour of music intertainment publicity Chairman will outline for us in more detail, some of the intent and purposes for which this great undertaking is inspired, the work thus far accomplished by the committee and the part we, every patriotic Texan, may render in this great undertaking.

So I am hereby calling for Volunteers of the Sons and Daughters of the American Legion to help put on this sale, report to me at the Legion hall by 10:00 a. m. Saturday, April 20, where we can discuss and organize the Sale campaign. So lets go, we are in competition with all Texas mind you, and show what we can do, and when.

I'll be seeing you,
F. E. Garaway, Chairman
Bluebonnet Sale

Neil McKillop Buried Tuesday

BODY FOUND EARLY MONDAY ON DEPOT PLATFORM

A man's body lying on the freight platform at the depot about 6 a. m. Monday aroused the curiosity of John Batts, colored dishwasher of the Lee Muse cafe.

The attention of J. H. Howze, night operator at the depot, was called to the matter. Mr. Howze immediately called the sheriff's office. Several had arrived before the officers, but Guy Wright, deputy sheriff, was the first to positively identify the body as that of Neil McKillop, aged about 28, a former resident here where he grew to manhood as the son of Mr. and Mrs. John McKillop.

An inquest was held by peace justice R. C. Weatherly resulting in a verdict of suicide. The young man had left four letters, one to Fred Buntin, local mortician in which he asked to be buried beside the bodies of his parents in the local cemetery. One letter was directed to his wife in Ft. Worth, and to his sister, Mrs. Marjorie Glass of Ft. Worth, and one to Joe Goldston. In neither instance is he said to have given any reason for his rash act.

The weapon used was a .32 calibre pistol which was lying in his open hand as he evidently leaned back from where he was sitting on the edge of the platform. The bullet entered his right temple and lodged under the skin on the left side of the head. Mr. Howze stated that he heard a sound similar to a pistol shot about 12:45 a. m. but thought a car had backfired.

Funeral services were conducted Tuesday afternoon from the Joe Goldston home. Rev. J. Perry King, pastor of the Baptist church, conducted the service.

Attending the casket were Messrs. Jordan and Ausmus and Harry Neeley of Amarillo, Walter Neeley of Claude and Fred Bourland and Joe Goldston of Clarendon.

A large number of relatives and friends from a distance were here to attend the last rites. Those from Claude were Mr. and Mrs. John Neeley, Mr. and Mrs. Martel Neeley, Mr. and Mrs. Carl Neeley and Walter Neeley.

Those from Amarillo: Mr. and Mrs. Harry Neeley, Mr. and Mrs. D. Ausmus, Mr. and Mrs. Jordau, Mr. and Mrs. Cecil Nash, Mrs. Flora White, Mrs. Bascom White, Mrs. Myrtle Ridley, Mrs. C. J. Lohoffer, Mr. Neeley.
From Ft. Worth: Mrs. Neil McKillop, Mr. and Mrs. Alex Glass, Mr. Crane, Miss Della Maude Ramsey, Mrs. Julia Ramsey, Mrs. Lewis Thomas, Mr. and Mrs. Chas. Bingham, Mr. and Mrs. Roy Gammons, Mr. and Mrs. Hermon Deaton of Hillsboro.

WORD MAKES STATEMENT

To the voters of Donley County: I am taking this means of acquainting you with my resignation from the office of County Clerk. It is with a feeling of deep regret that I take this step, but for business reasons, I think it best. Again thanking you for your loyal and consistent support, and also for the courtesy and consideration you have always shown me.

I am,
Very truly yours
W. G. WORD

Gas Employees Are Protected

The greatest number of accidents occurs during the hours of 8 to 10 a. m. and 12 noon to 2 p. m. while more accidents happen on Wednesday than on any other day of the week, according to an accident survey recently completed among employees of United Gas Pipe Line Company and released by officials of the Company this week.

The survey, made among approximately 3,000 employees of United Gas Pipe Line Company and associated Companies, shows the most common type of injuries to be abrasions, bruises and contusions. Parts of the body most frequently affected were eyes while fingers and back injuries were next in line.

The survey forms a basis of study for the Safety Department of the Company. By a better understanding of these "weak points", it is possible to make a closer study of working methods and habits and take added precautions to further reduce casualties. It is considered of great value in helping to maintain and improve the Company's splendid record of accident prevention.

This Company, the statement said, fully realizes the importance of protecting its employees in their line of duty. It realizes that destruction of property or material loss can be replaced with the expenditure of money but that no amount of money can replace the loss of life or limb.

United Gas Pipe Line Company has attained an enviable safety record with many of its departments and districts completing as long a period as two years without a lost-time accident.

WELLS

ington over 38 years ago, and lived on the farm until I was 25. As a country editor I have worked with and for the people on the farms and ranches for 15 years. Since Marvin Jones' most important service was rendered in behalf of agriculture, I will strive to continue this service to the limit of my ability.

Not only do I favor the soil conservation program and the farm program, but I will also work for the conservation of human lives. In this district, farmers moving from the land have made worse the plight of workmen who could not find jobs in the towns and cities. For that reason I will support the Farm Security program, the Farm Tenant Act as well as all sound legislation to relieve unemployment.

In my platform, which will be announced shortly, I will be more specific on other important matters and especially the need of enforcing the immigration laws, tightening them if necessary to keep down un-American activities, which in the main are conducted by the foreign born who are sent over here for that purpose by ruthless governments.

I am strongly in favor of social security including pensions for the old, and I will work to create jobs for the young people.

I do not intend to try to fool the people into believing that I know all that there is to know about being a Congressman, but I do know enough about the workings of the Congress of the United States to realize that any new man you may send to Washington will be a freshman in Congress, and that he will have to work as such at first regardless of his age or long he has been in politics. I am new to politics and will be to Congress, but I will work hard and faithfully if you send me there.

I am making this statement in order that my friends over the Panhandle may know for sure that I am in the race. I will appreciate greatly the opportunity of going to Washington and working my way up in order to be in a position to continue the splendid work that has been done by Marvin Jones, whose place cannot be filled but whose sincerity of purpose can. Your task is to judge the candidates and select that sort of a man regardless of whether it be Deck Wells or someone else."

Kenneth Brown, who has been attending school in El Paso for many months, is visiting relatives here this week.
