Bears Battle Putnam Panthers For District Honors Today

The Baird Bears' football squad will be put to the acid test today when they play the decisive game of the season with Putnam. Not only will this game tell the tale of district honors, but it will settle once and for all the question that is going around, "Are the Bears getting chesty?" There are those who think the winning luck of the Baird eleven has caused an increase in the boys' hat bands, and top heaviness has caused the fall of a great many champions. However, this reporter has faith in the level headedness of Baird boys, who are just too sensible to let a few wins blow them up. One thing's certain, if the Bears start the game with the fighting spirit they usually dust off in the second or with the fighting spirit they usually dust off in the second or 3rd quarter, the game is practically in the bag. But any way you want to look at it, the Putnam tiff is going to be a wrestle from the beginning to the end, with plenty of punch for the sidelines.

The starting lineup for Baird, positions, weights, and sweater numbers are: left end, Jerald Watts, No. 40 at 153 lbs.; left tackle, James Alexander, No. 49 at 196 lbs.; left guard, Bobby Owens, No. 37 at 140 lbs.; center, Russell Chatham, No. 33 at 134 lbs.; right guard, Harville Bains, No. 4 at 150 lbs.; right tackle, Mike Hughes, No. 46 at 155 lbs.; right end, Arthur Burleson, No. 42 at 147 lbs.; quarterback, Clyde Yarborough, No. 36 at 139 lbs.; left half, J. B. Pitzer, No. 47 at 162 lbs.; right half, Gene Finley, No. 34 at 131 lbs.; fullback, Grover Wylie, No. 45 at 171 lbs.; Glenn Gibson, Sterling Reynolds, C. C. Blakely, Bill Hollingshead, Paul Scherrubbe, J. C. Cook, L. W. McIntosh and Roy Wylie, will probably see play and Charles Coats and Louis Hill are more than apt to see a great deal of play.

The Baird Bears won over the Clyde Bulldogs in the Armistice day game 25 to 0. The game was played at Clyde and drew an unusually large crowd.

HOLIDAY NOTICE

The First National Bank of Baird will observe Thursday, Nov. 24, 1938, as a Holiday (Thanksgiving) and will not be open on that date.

Better than a pillow beneath the knees when scrubbing floors is a pair of pot holders, one tucked into the knee of each stocking. This method is equally comfortable and much less trouble.

Recent Bond Vote For Power Plant Upheld In Court

The suit brought in the name of T. E. Powell, B. L. Russell, Sr., C. W. Conner and R. E. Hall as the City officials of Baird to nullify the municipal bond election held September 30, was heard by Judge M. S. Long, Judge of the 42nd judicial court Saturday morning and a verdict rendered by Judge Long in favor of the city. The only point in the case being considered by the court being the payment of a city poll tax as prerequisite to voting in the bond issue. The court holding that the city had full authority to assess and collect a city poll tax and that the payment of this poll tax was a necessary qualifying for voting in that election, and that the election was legally held in every respect, under the constitution.

Attorneys for both the plaintiffs and defendants agreed in a number of facts in the case in order to expedite the hearing of the case.

Attorneys for the contestants were W. E. Marlin and Ben L. Cox of Abilene and B. L. Russell, Sr., of Baird, attorneys for the defendants were Dallas Scarborough and Edmund H. Yates of the firm of Scarborough and Cox of Abilene, L. L. Blackburn and Felix Mitchell of Baird.

The contestants gave notice of appeal.

Second Well In Putnam Field Completed

L. A. Warren and Charles Kleiner, Cisco operators have completed the No. 1 Williams well in section 17, D, and D. A. survey two miles southwest of Putnam, Warren and Kleiner also drilled in the discovery well No. 1 F. E. Clark in section 304 SPRR lands. This well was completed at horizon of 735 feet. A new discovery which was not known in this section and the strikes very important in the fact that the new Clark sand does not correlate with any local sands, thus far developed in this area, same being below. The Gunsite lime in the Cisco section geologically.

Bill West of Putnam who with V. O. Brannon is drilling at 400 feet in the Harvell hill south of Putnam, who was in Baird Wednesday says the well will be drilled to 800 feet or more if necessary to make the new sand. Mr. West informs in that two groups of geologist doing plain table work in the field. Mr. West says there are splendid prospects for extensive drilling in the Putnam area.

Officers of the Callahan County Teachers' association are to be elected Saturday at a meeting of that organization in the high school auditorium. The session is to begin at 9:30 a. m.

The Callahan county interscholastic league also is to be organized.

Dr. Walter H. Adams, dean at Abilene Christian college, is to make an address at the meeting. The program lists singing, led by Lodo Dowdy; devotional by the Rev. J. S. Tierce, pastor of the Clyde Baptist church, and entertainment by Bro. Mings and Milton Page from station KRBC Abilene.

Glover-Hyatt Wedding

Miss Dorris Hyatt, daughter of Mr. and Mrs. Ed. Hyatt of Llano, became the bride of Mr. Joe M. Glover, Jr., son of Mr. Joe Glover, So, of Baird, in a beautiful service held at the Walnut Methodist church, Armistice Day at 4:00 P. M. Judge Jas H. Clark of Johnson City united the couple in the ring ceremony surrounded by the relatives of the couple and a few intimate friends who have worked with them. Judge Clark also married the bride's parents, Mr. and Mrs. Ed. Hyatt, 26 years ago.

For the past year, Miss Hyatt was employed by J. Frank Kendall in the mercantile business at Johnson City and it was during this time that she became acquainted with Mr. Glover and in some eight months this acquaintance ripened into a courtship that ended at the altar.

Mr. Glover is the A.A.A. Adjustment Assistant working out of the County Agent's Office at Johnson City. He came to his present position on November 16, 1937, and has worked himself into the hearts and confidence of every person with whom he has had the opportunity of doing any kind of service. He is 28 years old and a 1937 graduate on a Texas A. and M. College. He took his major in Animal Husbandry. He was reared on a farm and ranch at Baird, Callahan County, Texas.

The bride was born just over the line in Kendall County about 11 miles west of Blanco on the Franklin Ranch and has spent her 24 years on that ranch and on another of the Franklin properties located in the southern part of Llano County. Miss Hyatt is the lovable grand daughter of Mr. and Mrs. E. H. McNatt, pioneer settlers of Blanco County, who live in Johnson City. The Hyatt family, originally from England, also were early settlers in that country. She is of a family of four children of one sister, Annie Dee, and two brothers, Owen and Rankin.

After the ceremony, the relatives gathered at the home of the bride and there supper was served to some 52 guests after which the bride and groom motored to Baird where they spent the week end with Mr. Glover's parents, Mr. Glover and daughter, Mrs. Jim Neely of Abilene and Mrs. Clark Edwards and Mr. Edward's attended the wedding.

Three Given Penitentiary Terms

Two men were given prison terms in the 42nd district court Wednesday.

T. D. Crabb entered a plea of guilty to burglary before Judge M. S. Long, and was given a two year sentence, suspended.

A. C. Whitehead pleaded not guilty before a jury to driving while intoxicated, and was given a two-year sentence. He had previously been convicted on a like charge in Shackelford county. Right to drive was revoked for one year.

He then pleaded not guilty before a jury to burglary, but while the jurors were deliberating, he altered the plea to guilty and the court set punishment at two years in prison. The terms will run concurrently.

Little Donald Rutledge, 3 year old heri of the Clyde tornado which struck that town in June 10th, was an honor guest at the semi-monthly luncheon of the Abilene Trading Men's Association last Saturday.

Jack Scott Editor of the Cross Plains Review was in Baird Tuesday enroute home from Big Spring, where he had been on business.

F. F. A. To Hold Stock Exhibit Tomorrow

Date on the F.F.A. stock show, previously scheduled for Saturday November 26th., has been stepped up a week and the exhibit will take place tomorrow on the lot directly west of the court house, and will open at two o'clock. Purpose of the show, as stated before, is to acquaint the public with the splendid work being done by the Baird chapter and to accustom the boys to handling animals at shows.

Several calves will be exhibited and possibly a few hogs and sheep. The boys to show calves include, Gene Finley, Billy Gee Hatchett, Ben Louis Russell, Ben Glover and L. W. McIntosh.

L. W. McIntosh, son of Mr. and Mrs. Joe McIntosh, will show two calves and his case is particularly interesting. L. W., a second year boy, began work in the chapter last year with calf feeding but lost something over a dollar on his animal. Though this was a surprisingly small loss for an inexperienced feeder, young McIntosh entered into the work this year with commendable F.F.A. courage, intent on overcoming last year's failure. The way the boy is going about his project, with a veteran's skill and eye to profit is worthy of comment, according to Chapter supervisor, E. E. Jones.

L. W. bought two calves from Owen's herd. In this selection the boy was assisted by his father. The calves, named Clyde and John were put on full feed and began an increase in weight immediately. The initial purchase cost of the calves was twenty five dollars per head and the estimated cost of the feed bill for both animals over the entire period of feeding is thirty dollars. L. W. worked and bought his feed when prices were low, taking full advantage of the extra saving this would mean. The calves have increased in weight at an average of 2.7 lbs. per day at a cost of four cents a pound. One calf now weighs 635 lbs., and the other tips the scales at 620 lbs.

L. W. has fed carefully, gradually increasing the grain in his rations. "This is ideal feeding", concedes Supervisor Jones. L. W.'s feeding rating includes 6 lbs. of corn, 6 of maize, 3 of barley 3 of corn stalk meal, and 6 lbs. of Johnson grass hay per day.

The public is urged to attend the exhibit Saturday and make note of the work being done by the boys. Then to, a visit to this show will enable you to realize the progress which will be made in the animals, between this period and the stock show to be sponsored by the luncheon club next Spring.

Local 4-H Club Boys Shows Best Peanuts At 1938 State Fair

J. W. Faircloth 4-H club boy of Midway community has recently received notice in the form of a \$4.00 check that he had won first place on a gallon of Spanish peanuts exhibited at the State Fair of Texas this fall. Add to the \$4.00 mentioned above \$17.55 won at the county fair and you will find that the gallon of peanuts was worth several bushels of ordinary peanuts. The peanuts were selected from J. W.'s 2 acre peanut demonstration that returned a profit of \$77.25. The Midway club in 1938 was led by J. E. Faircloth who shares with his son, at least, some of the honors. Other club boys working under supervision of local leaders and county agricultural Agent Ross Brison that exhibited crops at the State Fair were: Sidney Johnson and Allen Hodges of the Denton 4-H club of which Herman Scott was the leader; Clemmis Reid of Oplin, Chas. D. Straley, leader; Scott and James Alan Hays and Grady B. Jolly, Clyde Club, Earl C. Hays, leader; David Archer of Eula; R. L. Stephenson, leader; S. E. Webb and J. W. Wilson of Midway; Arden Strahan, of Cottonwood; H. S. Varner, leader; Charles and Billy Wayne Foster and Leonard Swafford of Bayou 4-H club led by Blain Odum.

VILLAGE IS SOLD TO PAY OPERATOR'S WAGES

ORANGEVILLE, Ont. — The entire Dufferin county village of Bowling Green has been sold at auction to pay the back wages of a telephone operator.

Most of the village, including a private telephone line linking 400 farms, was owned by Henry Edgar who died last year, leaving no will.

Miss Phyllis Malthy had worked as the village switchboard operator for six years without being paid, and she claimed \$600 in back wages.

So it was decided to sell the village to satisfy her claim. Bidding at the auction was slow, and the auctioneer was barely able to raise the \$600. Among the objects sold was an old horse for \$25, an old table for \$1, a box of odds and ends for 10 cents, a blacksmith shop and a few old, vacant houses and lots.

COUNTY AGENT NEWS

By Ross H. Brison, Agent

In 1937 L. L. Montgomery of Caddo Peak community plowed under 5 1/2 acres of good peas. There's not much news to that, but in 1938 he planted peanuts on the ground and harvested, he estimates 30 bushels of peanuts per acre. The rest of his peanut acreage averaged 3 1/2 bushels per acre. Assuming that the peas plowed under the year before accounted for the difference. What were the peas worth per acre? 19 1/2 bushels of peanuts lines 50 cents per bushel is one way to figure the value of the peas. Figure it out. It paid him. Perhaps it will pay on lots of other Caddo county farms.

Members of the Caddo county Agricultural Association and friends of Earl C. Hays of Clyde will be

glad to hear that he has been appointed an alternate director from this district on the State Agricultural Association Committee.

It paid some 13 turkey growers of Bayou community some \$200.00 extra dollars to cooperate in the sale of some 2300 turkeys last week. By pooling their turkey crop and selling them to the highest bidder the group was not only able to get a little above the market price, but the buyer came to the community and hauled the birds to town thus saving some extra expense to the growers for delivering them.

Those profiting by this cooperative effort are: J. R. Childers, Archie Nichols, Oscar White, Delbert Sawyer, H. W. Plowman, Oren Bains, Clard Odell, Dorse Harris, Bernice Nichols, Alvey Williams, Jerry McDonald, Joe Burks, and Henry Wilks.

While we're talking about turkeys Delbert Sawyer is sure sold

on the idea of vaccinating them against rump and typhoid, and Cholera. This past season his turkeys got sick with rump and was advised to vaccinate. He did, at a cost of \$6.00 but the turkeys got well. A little later on typhoid broke out among them and gain they were vaccinated. This cost about \$15.00. However 90% of the turkeys that reached frying size were sold this year. In past years Delbert explains that he thought he was doing fine if he could raise and sell 90% of the turkeys that reached frying size. In 1939 he plans to vaccinate both for rump and typhoid and cholera before the diseases show up in the flock.

ITALY HOLDS RECORD FOR CABLE RAILROAD

ROME. —Italy holds the little known world's record for cable railways, with 24 in use and several in construction.

Germany and Austria combined are second on the list with 21—Austria has 13 and Germany 8. France is third with 14, Switzerland and Japan follow with five and two respectively with Argentina, Poland, Czechoslovakia, Norway and South Africa trail with one each.

The largest number of these cable railroads are in the mountainous regions of north Italy. They are mostly used to exploit

the tourist possibilities of winter seasons. Skiing fields are reached in a few moments instead of the hours required on the old laborious mountain railways.

Sestriere, Italy's foremost skiing resort, is served with four "teleferics" which climb Mont'Alpete Sisois, Blancheta and Monte Pratetive. Bolzano in the Dolomites has two. They connect Bolzano with the heights of Colle and Sant Genesio. There are three in the Appenzel's, one at Trento and another at Claviere.

At present work is proceeding on a new "teleferic" from Korizia, near Trieste, to Monte Santo.

NOBODY'S BUSINESS

AUSTIN—Financial affairs of the State of Texas engaged public attention in Austin this week, as various reports for the fiscal year ended August 31, 1938, became available. Outstanding developments included these facts revealed by the audits and reports:

Income and expenses of the State government reached an all-time peak, with total receipts of the State amounting to \$197,715,961, of which only \$175,311,068 was classed as "revenue receipts." Expenditures for the fiscal year totaled \$157,747,877, an increase of about \$13,000,000 over the previous year.

SCHOOLS COST MOST

Education led all other governmental costs, with \$52,829,722, and highways were next, with \$48,014,442.

Every dollar of State revenue spent included the following major items: Educational purposes 33.48 cents; highways 30.43 cents; public welfare (including old age pensions and Confederate pensions), 18.6 cents.

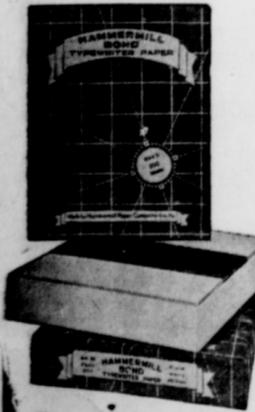

A decline in costs for the year under the previous year were reflected by five governmental departments, including the legislative, executive and administrative, highways and parks and monuments. Government functions which cost more this year were judiciary, protection of life and property, regulation of business and industry, public health, conservation of natural resources (supervision of oil and gas production), eleemosynary and correctional institutions, educational service, and debt service.

Migratory Waterfowl Regulations

Under new federal migratory waterfowl regulations announced recently Texas duck hunters will have a 45-day open season compared to a 30-day open season in 1937; and in addition may shoot a limited number of species hitherto protected. The open season on ducks, geese, Wilson's snipe and coot is from November 15 at 7 a. m. to 4 p. m. on December 29. Shooting hours each day are from 7 a. m.

Hunting Methods

Hunters may shoot ducks and geese and other waterfowl in season with a shotgun only, not larger than a No. 10 gauge, fired from the shoulder; a dog, a blind or floating device other than a sink box, may be used. The following are not permitted: shooting from an automobile, airplane, motor boat, power boat of any kind, sail boat or any boat or device under tow. Sinkboxes (battery) are not permitted. One may not shoot waterfowl with a gun that is automatic or repeating shot guns that are capable of holding more than three shells, including the chamber and magazine combined. Live ducks or geese decoys are prohibited. It will be against the law to place any feed, grains, such as wheat, oats, corn or like substance out for the purpose of attracting the birds regardless of the distance between the shooter and the feed.

Daily Bag Limits and Possession

One may kill ten ducks in the aggregate of all species, except that he must not have in his daily bag limit more than three of any one or three in the aggregate of canvasbacks, redheads, buffleheads, or ruddy ducks, Geese, including brant five in the aggregate of all species, except no open season on snow geese, Ross' geese, wood ducks, cranes swans, brant and all shore birds. Not more than two days' bag limit of ducks, geese, including brant, and one day's limit of other migratory game birds may be possessed at one time. Ducks and geese may not be kept on cold storage more than ten days after the season closes. All other migratory birds' storage rules are the same as on ducks and geese.

Federal Migratory Bird Hunting Stamp

It is unlawful in the United States for a person over the age of 16 years to take ducks, geese or brant unless he carries on his person an unexpired federal migratory-bird hunting stamp, validated by his signature written in ink across the face. These stamps cost \$1 and are issued by postmasters, not by state game wardens. These stamps are not valid after June 30 following the date of issue.

Dove Season

Dove season in this section of Texas closes at sunset on November 15. One may not keep doves in cold storage more than 10 days after the season closes.

Quail Season

Quail season does not open in Texas until December 1. Many think that quail season opens on November 16 at the time when deer and turkey season open, but it does not.

Putting pennies behind fuses or "doctoring" them in any other way is as dangerous as sealing up the safety valve of a boiler. Unless you are using fustats, the non-tamperable type electrical manufacturers are now making, examine your fuses regularly to make sure no one has tinkered with them.

Special Subscription Offer

The Star is making a special subscription offer this week in order to clean up our subscription list and bring in some much needed cash.

For several years we have been carrying some of our best citizens on our list who were not able to pay their subscription. We realize that money is still scarce—it does 'not grow on trees' and we will let by-gones be by-gones and for \$2.50 each, we will wipe the slate clean and mark you up for one year a head—no matter how far back your date may be—you can take advantage of this offer.

We are doing this in order to get our subscription list cleaned up and also because we need the money, badly.

We believe our subscribers will appreciate this offer and will make an honest effort to clear up the back-due subscription and will place their subscription a year in advance.

Who will be the first to take advantage of this Clean-up-Subscription Proposition?

Our Annual Bargain Rates of \$1.00 in Calahan County and \$1.50 outside of the county is also now in effect.

We are also offering splendid Clubbing Rates with the Abilene Morning News, Fort Worth Star Telegram, Dallas Semi-weekly Farm News, also some splendid clubbing rates with leading magazines.

AGRICULTURE INCOME SHOWS AN INCREASE

Farm cash income in Texas during September rose substantially over the preceding month, but the increase was less than the usual seasonal gain, according to Dr. F. A. Bueschel, assistant director of the Bureau of Business Research, University of Texas. As a result the index of farm cash income dropped more than three points from August to September. He said that in comparison with September last year the drop in farm cash income was considerably more abrupt—from 88.4 a year ago to 66.3 during September of the current year or 25 cent.

"The computed farm cash income, exclusive of government subsidies, representing about 90 per cent of actual farm cash income was \$75,967,000 in September, compared with \$100,957,000 during the corresponding month last year," Dr. Bueschel said. "During the base period upon which the index of farm cash income is computed, 1928-1932, the average September farm cash income was about \$114,189,000. For the first nine months of the current year farm cash income as computed by this bureau was \$274,648,000, compared with \$368,331,000 during the like period last year, a decline of more than 25 per cent.

"The current relatively unfavorable showing of farm cash income in Texas is mainly the result of the decline in production and price of cotton. Since this crop dominates farm cash income during this season of the year, unfavorable comparisons are expected to continue through October and November at least."
