Aluminum Drive Is Thriving

Aluminum is coming in from all parts of the county H. M. Breedlove, county agent said this morning. Hedley has a place fixed in front of the Security State Bank for the collection of aluminum in that section of the county and people are bringing their aluminum to that collection place as well as the county office. This is a big move in national defense Breedlove said and he is urging all people to collect their old aluminum and bring either to the county agents office in Clarendon or to the place at Hedley in front of the Security State Bank. Let's all get behind this move and have Donley county to get twice as much as their quota.

RELATIVE KILLED IN ACCIDENT

Mrs. J. T. Hoy went to Tulia Tuesday to visit her sister, Mrs. A. N. Baldwin, and to attend the funeral services Wednesday of the eleven year old daughter of Mr. and Mrs. Earnest Baldwin of near Tulia, who was killed in a car accident between Lubbock and Tulia Sunday about 9 p. m. Deceased was a niece of Mrs. Hoy's sister. Her parents are reported in a serious condition in a Lubbock hospital, occasioned by the same accident.

Lelia Farmer Dies Friday

Funeral services for J. F. Reed who died in Amarillo Friday morning were held from the Baptist church in Lelia Lake Saturday afternoon. Rev. V. W. Allen of the Baptist church in Vega gave the sermon and was assisted by Rev. Absin Horton of the Pierce Street Baptist Church of Amarillo.

Mr. Reed was a retired farmer. He had farmed in Donley County for several years and prior to that he farmed around Hollis, Oklahoma. He had lived at Lelia Lake for the last five years. Mr. Reed was taken to Amarillo for treatment a few weeks ago.

He is survived by his widow, Ludie Reed, and six sons, Dennis, Bill, Glen, Clifford, Arnold, and Avery Reed.

YOUNG LADIES TAKE VACATION TRIP

There should be romance and thrill a plenty for the happy group of young ladies leaving here Saturday to spend their vacation high in the Rockies on Red River in New Mexico where "the tall pines kiss the stars and tickle the angel's feet."

Lowes Return To Donley

Several months ago, Mr. and Mrs. W. T. Lowe began a tour of their relatives that took them over east Texas, Arkansas and Tennessee. Near a month ago, Mrs. Lowe was stricken with appendicitis, and had an operation at Nashville.

Friday they returned home where Mrs. Lowe is said to be improving nicely. They were returned here by their daughter, Mrs. W. O. Bower who went from Port Arthur, Texas to Nashville to bring them home.

Mrs. Roy Broadway and children and Mrs. Eunice Farrar of Melrose, N. M. are over this week with their parents. This all added up, has had a lot to do with the improvement in the health of the mother, no doubt.

HERE FROM BROOKLYN

Mrs. T. W. Hardesty, the former Miss Gertrude Wiedman, is spending her vacation here with her mother, Mrs. Carrie Wiedman and other relatives and friends. She visited here some months ago when she and Mr. Hardesty were on their way from Hawaii to Brooklyn, he being an electrical technician in the navy.

COKE R. STEVENSON

Rancher, lawyer and Lt. Governor had a \$30,450,391 state debt dumped into his lap as he became acting governor Monday. The debt is more than ten million dollars more than it was two years ago. Along with it he got a first start as an elected governor two years hence, and the prospect of a special legislative session to do something about these counties that voted highway bonds expecting the state to take them up, last year under the "something for nothing" spasm.

Lt. Governor the past two and a half years and twice speaker of the House, this 53-year-old rancher feels thoroughly at home in any job in Austin. He simply laid aside his hat of broad brim, filled his pipe anew, opened the double doors that had been closed through the administrations of two former governors, and invited the folks to come in and "sit a spell."

He will be formally inaugurated to the governor's office in a ceremony in the Legislative chambers next Friday. It will be a simple affair, in compliance with the wishes of the man who is to become the real governor. He dislikes formality, is a native of Mason county where he was born May 20, 1888, and is said to be the most "uncussed" man in public life in Texas today.

EARL HILL LEASES CARAWAY BAKERY

Earl Hill has disposed of his bakery at Hedley to his brother Chester Hill, and has leased the Caraway bakery here which he is now operating. Mr. Hill has had a number of years of experience in the business in Haskell, and three years in Hedley.

He will bake a complete line of breads and pastries. His special loaf is a one hundred percent whole wheat loaf that he finds a favorite with his patrons.

Mr. and Mrs. Hill have three children, Jesse Earl, Robert Carl and Mary Frances. Mrs. Hill is the former Katherine Cornell, a daughter of Mrs. J. M. Cornell. Their church preference is the Baptist denomination.

GEM RESOURCES LITTLE KNOWN

Fresh-water pearls—as good as the ocean variety—abound in many of Texas' streams. University of Texas economic geologists say. These and other semi-precious stones are available in sufficient quantity in Texas to supply a substantial jewelry industry, they believe.

COLLEGE PRESIDENT PREACHES SUNDAY

Supplying the pulpit of the First Methodist church here at the morning hour was Dr. Frank L. Turner, president of McMurry college of Abilene.

Dr. Turner is well known both as an able minister, and for his wonderful success as head of the well-known college.

HIGHWAY OFFICE ASKS FOR BID

The third request for bids on the local project are being asked for by the State Highway Office August 29th. The simple statement reads:

"Donley County—587 mile Fort Worth and Denver City Railway underpass and approaches on U. S. 287 and State 18 near Clarendon."

GIRLS ON VACATION

Donna Rhea Bryan accompanied her aunts, Misses Maye and Bula Bell of Wellington, on a vacation trip leaving Tuesday morning. They will visit relatives and friends in Houston, San Antonio, Austin and Colorado City before returning home.

Seven Attend Band School

Band instructor Ray Robbins and six of his pupils are attending the Music Recreation Session at West Texas State College in Canyon this week.

The pupils from here are John Burton King, Margaret Faye Wadsworth, Annie Ree Porter, Clyde Benton Douglas, Pat Grady, Nelda Sue Burton and Naomi Morris.

Sixty-one pupils were present for the opening session as compared with fifty-four last year. Many more are expected to enter this week.

In addition to study, there will be games, contests, swims, trips to Palo Duro state park, concerts, singing, golf, tennis, playground ball and many other activities to delight the young folks interested in taking advantage of this opportunity to improve their talents.

SISTERS MEET AFTER SEVENTEEN YEARS

Time gets by in a hurry. Often relatives live within the same state and make plans to get together, and time gets by so rapidly, that each succeeding year finds new plans.

The plans of two sisters became a realization here the past week when Mrs. J. B. Hutson came up from Dallas to spend a few days in the cool Panhandle with her sister, Mrs. J. W. Smithy, the first time in seventeen years. Mrs. Hutson's property interests are at Cotulla, to which place she will go when she leaves here.

F. F. A. YOUTHS TO LAKE MCLELLAN

At a meeting of the local organization at the city park last night, the Clarendon F.F.A. members voted to hold their annual summer encampment at Lake McClellan. The boys voted to leave Clarendon from the City Hall at 3 p. m. on the afternoon of August 15th and to return to Clarendon on Sunday, August 17th.

Each youth will provide his own bedding and will pay a small cash sum for his transportation and eats. The group will be divided into committees that will do the cooking and other chores for mtime to time. Each member who desires to swim and fish should bring their own bathing suits and fishing equipment.

The local youths had originally planned a tentative trip to Yellowstone National Park, but decided against the proposed trip due to the expense and unusual crop conditions this year.

CLARENDON TEACHER VISITS AT BOWIE

Down at Bowie lives Mrs. Hettie Kibler who will be 87 years old next month. Crafton is the family home, she being among the pioneers of that section. She also is the grandmother of Miss Fannie McGowan who, with her uncle and aunt, Mr. and Mrs. K. Turner of Olton, recently visited down that way.

They spent some time at Bowie, then went to Crafton to visit other relatives. It was near Crafton where Amon Carter was born in a log cabin. He has fixed up a park there for the folks of that section, and gave it to them two years ago. A large crowd attended the ceremonies and heard Amon Carter speak.

IN LANE HOME

Visiting with their parents here Sunday were Mr. and Mrs. A. G. Lane Jr. and babe of Phillips, Mr. and Mrs. Dalton Ford and children of Groom, Mr. and Mrs. Maurice Lane.

VISIT PARENTS HERE

Mr. and Mrs. G. L. Green's children have been home the past week. This included Mr. and Mrs. Wm. Green and Billy of Trinidad, Texas; Mr. and Mrs. Robert Green and Lee Ann of Munday; Mrs. F. N. Bentley and Mary Helen of Ft. Worth; Louise Green of Claude.

YELLOWJACKETS STING LADY

While working among her flowers Tuesday, Mrs. A. H. Baker was painfully stung on her hand and arm in several places by yellowjackets that had a nest hidden in the flowers on the foundation of the residence. The injury has been quite painful despite immediate application of remedies.

Senate Names Connally Head Big Committee

WASHINGTON, D. C.—Texas' Senior Senator, Tom Connally, has been elevated by the Senate of the United States to head the powerful Foreign Relations Committee. Senator Connally is the first Texan to have ever gained this distinctive honor.

Connally was first assigned to the Foreign Relations Committee of the Senate in 1931. In ten years he has advanced from a position of twentieth on the committee to the chairmanship. Before being elected to the Senate, Connally served on the Foreign Affairs Committee of the House.

The Foreign Relations Committee, rated as one of the three most important committees of the Senate, works in conjunction with the President and the Department of State to form, and to enforce the foreign policy of the United States, a matter of topmost importance at the present time. In their natural course, matters to be taken to Congress relating to foreign policy from the President

TOM CONNALLY

or the State Department pass through the hands of the Chairman of the Foreign Relations Committee.

All treaties before the Senate for ratification, are first passed upon by the Foreign Relations Committee. Recent legislation or national interest which the committee has handled has been the Neutrality Acts and the Lease-Lend Act.

Senator Connally is particularly well suited for his new assignment, with his years of service on the committee in both the House and Senate, his knowledge of conditions in other countries gained by personal visits to all sections of the world, and his acknowledged debating ability.

MOSLEY YOUTH IS CRITICALLY ILL

J. V. Mosley, 15 year old son of Mr. and Mrs. Vestal Mosley, is reported as being in a very serious condition at Pampa where they reside. He has been in poor health most of his life, but lately had shown great improvement in health, being here a few weeks ago on a visit, but last week was stricken again.

Catherine, a daughter, who was operated on there last week has been removed home and is doing nicely.

Band Concert Here Monday

A band concert will be heard at the City Park at 8 p. m. Monday by a massed band from Canyon. Some seventy-five students from the special summer band classes there, under the direction of H. E. Nutt of Chicago, will play.

Mrs. H. E. Nutt will give a demonstration in twirling. Mr. Gross will play an oboe solo. The latter will be something new, since many do not believe there is any more music in an oboe than to be gotten out of a bagpipe. Mr. Hinkle will give a demonstration on brass instruments.

Director Ray Robbins made arrangements for this musical treat to which the entire public is invited.

FROM WELLINGTON

Mrs. Bell and daughters, Misses Mae and Bula Bess spent the week end here with her daughter, Mrs. Reagan Bryan and family.

Attend XIT Reunion

Among the young ladies to ride in the XIT parade in Dalhart Monday was Miss Irene Reamer. She was one of the colorful group to ride here the Fourth.

Lee Landers and Pink Rodgers were the only XIT hands of the old days from this county to attend the reunion.

F. A. White took in the show, and Mitch Bell was right in there mixing with other expunchers. Lee Bell had his Pastime Theater float in the parade and attracted no end of attention.

Mr. and Mrs. Clyde Gilbert and daughters, Hazel and Billie Lou saw the big show. Mr. and Mrs. Lloyd Shelton took it all in.

A. W. Simpson and son Harrison Simpson went up after the family reunion. They were accompanied by R. W. Hill and Chas. Noland. The men took a look at the dust bowl area, finding cane and sudan planted on bald spots, but much of it covered with gramma grass. Mr. Simpson says the country really looks swell up towards the Buffalo Springs division headquarters where the worst part of the dust bowl used to be.

WILL HOLD REVIVAL IN LOUISIANA

Rev. and Mrs. M. M. Miller and daughter, Louise, left Sunday night to spend a few days in Dallas. From there they will visit relatives and friends in Shreveport.

They will spend some two weeks in New Iberia, Louisiana where Rev. Miller was pastor before coming here, and where he will conduct a revival at the urgent request of his former congregation.

Miss June Miller, who has been visiting relatives there, will return with her parents.

HIGHWAY PROJECT IN MUDGLE

County judge R. Y. King, C. B. Morris and some of the county commissioners were in Austin last week end relative to construction on Highway 18, north and south out of Clarendon.

"We found the matter in a muddle," Judge King stated. The hitch appears to be in connecting up with the proposed highway extension in Gray county. Judge King states that the Highway Commission informed him that the proposed route in Gray county comes down several miles west of Jericho along the west line of the property of Commissioner Tom Kirby, and that would make a "jog" in the highway, since the approved route from here north is over practically the same route as it now exists.

RETURN FROM LIONS CONVENTION

Prin. and Mrs. H. M. Lane returned home Friday from New Orleans where they attended the International convention of Lions clubs. Mr. Lane being the Clarendon delegate. They made the return leisurely stopping to see his sister, Mrs. W. R. Blocker at Texas City, and Mrs. W. V. Thomasson at Henrietta.

FLIES TO MICHIGAN WHERE SON IS ILL

Receiving a message early Sunday stating that his son Lewis was ill in a Traverse, Michigan hospital, Fred E. Chamberlain hastened to Amarillo and took a plane from there to the Michigan city.

Lewis, who was studying band music there, had an appendectomy, and is said to be readily recovering.

MEMBER LOVINGTON SCHOOL FACULTY

Miss Virginia Williams, who received her degree from the University of Illinois in June, has accepted a position with the faculty of the Lovington, New Mexico high school.

HEAR BOOK REVIEW IN CLAUDE

Clarendon ladies to attend the Claude Study Club Thursday and to hear the book review, "They Came to the River", by Allis McKay, were a number of ladies interested in local club work.

Included in the list were Mesdames C. E. Bairfield, C. B. Morris, N. L. Cox, J. R. Porter,

W. LEE O'DANIEL

Governor O'Daniel became Senator O'Daniel when he took the oath of United States Senator in Washington at noon Monday. His first act was to introduce a bill.

Introduces Strike Bill O'Daniel has been assigned by the Senate steering committee to the following committees: Commerce, claims, District of Columbia and irrigation and reclamation. The Senate formally ratified the committee appointments shortly after the Texan was seated.

An informal reception was held in the Vice-President's office at the rear of the Senate rostrum. Connally was host at a luncheon for the new Senator and members of his family and Texas friends in the Senate restaurant. Biscuits, heaped-up plates of them, were served, and the Senator was photographed passing them out.

O'Daniel's first legislative act was to introduce a bill, a copy of the anti-strike violence law passed by the Legislature of Texas at his insistence. The bill, he said, "permits an American to do a day's work when he wants to without being knocked on the head."

The Senator broke another precedent the second day of his term when he made a ringing speech against holding the selectees for a longer period than one year. His side was voted down by a 50 to 21 vote.

THREE-DAY FAMILY REUNION HERE

Meeting here Saturday to Monday in a family reunion were a number of relatives, principally those of Mrs. Simpson. The gathering was at the home of Mr. and Mrs. A. W. Simpson.

Present were Bob Mosley and Geo. Harrison, Tulsa; Mrs. Byron Hill, Whitesboro; Mrs. M. F. Harraison, Ada, Okla.; Mr. and Mrs. R. W. Hill, Ardmore; Mr. and Mrs. Sam Hill, Iowa Park; Mr. and Mrs. Chas. Noland and son, Whitesboro; Mr. and Mrs. G. H. Simpson and son, Dalhart; Mr. and Mrs. Albert Crane and Mr. and Mrs. G. M. Crane of Goodnight.

SAW BEARS DRINK COLORADO BEER

Mr. and Mrs. C. R. Skinner arrived home early Tuesday morning on the Zephyr. They had spent several days with their sons around Denver and Estes Park. Mr. Skinner relates how he saw bears drink beer. He watched the mother bear and a cub play in the park and otherwise took in the sights in a section where they had resided for most forty years before coming to Donley county. Both Mr. and Mrs. Skinner are feeling their best, being much improved in general health.

PEACE OFFICERS WILL MEET

The West Texas peace officers association will meet in Plainview August 12. B. L. Parker is Lynn county sheriff.

The program beginning at 10 a. m. will be held in the district court room, and the barbecue will be found in the city park at noon.

CLAUDE'S RODEO IN FULL BLAST

You don't have to wait to see the big rodeo at Claude. It is going on right now, and will have a session all day tomorrow, Friday. This is the 11th annual rodeo and old settlers meeting sponsored by the American Legion post there.

MRS. ANDERSON ILL

Mrs. G. A. Anderson was returned home Monday from Adair Hospital as improved and out of danger at this time.

Local Woman Gets College Degree

The Master of Arts degree will be conferred on Eva Mae Patching, a resident of Clarendon, in a picturesque twilight graduation ceremony in the Garden Theater at Colorado State College of Education in Greeley, Colorado, Thursday of this week, August 7.

Miss Patching has been attending the Summer School at this prominent teacher-training institution together with nearly 2500 other school teachers and administrators from all parts of the United States.

The 1941 Summer School graduation class, of which Miss Patching is a member, numbers 376, comprising seven candidates for the Doctor of Education degree, two candidates for the Doctor of Philosophy degree, 226 candidates for the Master of Arts degree, 139 for the Bachelor of Arts degree, and two who will receive limited rural certificates.

PANHANDLE IS BEST DURING HEAT WAVE

Returning here a few days ago because of the excessive heat in Oklahoma City were Mrs. Lena Antrobus and daughter, Mrs. Edythe Maher and daughter Marilyn. They were accompanied by Mrs. T. G. Stargel and daughter June. Panhandlers never fully appreciate the cool climate here until they get away from it, one of the party informed the Leader.

Gilberts Take Vacation

An extensive trip into the northwest in which eight days were required enabled Mr. and Mrs. Clyde C. Gilbert and daughters, Hazel and Billie Lou to have one of their most interesting experiences.

Some time was spent in Yellowstone National Park viewing the streams, mountains and the animals roaming loose—principally bears.

A trip to Salt Lake City and seeing the big lake was an experience long to be remembered. Salt Lake City with all of its fine buildings and extremely clean streets and well kept lawns interested these vacationists.

They returned home Monday, spending several hours at the XIT reunion in Dalhart where they saw a number of friends and many interesting sights.

MRS. RIEGER HERE

Mrs. L. D. Hunter of Terrell, Texas, and Mrs. Glenn Rieger, Glenna Rae and George of Decatur, Texas, left for their homes Tuesday, after several days visit here in the J. A. Warren, J. R. Bartlett and Don Matheson homes. Mrs. Hunter stopped over at Decatur as she came up and brought Mrs. Rieger and children here. Billie Nell Warren, who had been visiting her sister at Terrell for some three weeks returned home with them.

Knights Will Make Trip

Having closed out their dairy business here, Mr. and Mrs. C. L. Knight and son J. B. are leaving today for an extended vacation and business trip that will take them into several states.

They will go to Denver, spending some time in the mountains. Then they will go to Wichita, Kansas where Mr. C. L. Knight has a son living, making a swing through Iowa on the way back.

Mrs. Knight has relatives in east Oklahoma, and a stop will be made with them and then back to Texas touring the piney woods section where both have relatives living near the Big Thicket. Stops will be made at Dallas and Fort Worth on the return.

Mr. Knight stated that he might find a new business location on his rounds, the trip being made partly for that purpose.

HUNT INDIAN RELICS

Mr. and Mrs. Chas. M. Lowry and children, Sarah Beth and "Chief", spent several days the past week with relatives and friends in McLean. The men folks managed to accumulate a number of Indian relics to add to the famous Lowry collection, the finest in the Southwest.

SIDE GLANCES ON TEXAS HISTORY
By Charles O. Hucker
University of Texas Library

How The Comanches Got Their Revenge

Early in August, 1840, began one of the most terrifying and most memorably dramatic episodes in the history of early Texas—when, after five months of preparation, the Comanche Indians swept down from the northwestern plains to wreak their vengeance on the white man for the "peace conference" at San Antonio's Council House, which cost them the lives of several high ranking chiefs.

Dramatic as was that bloody conference, chronicled briefly in this column last week, its aftermath was equally long-remembered, and for a better reason. For the story of the aftermath, also culled from the Texas Collection of the University of Texas Library, is the story of a terror unknown in Texas since Santa Anna's doomed march to San Jacinto.

In 1840, when the heart of the Republic was still somewhere in the east, South Texas was a wilderness. There were growing settlements at San Antonio and Gonzales, but few more. It was enough of a wilderness so that, early in August, an army of one thousand Comanche braves could beat a war path through it undiscovered.

They Sack Two Towns

On the afternoon of August 6 the Comanches fell unheralded on Victoria. Two days later, so early in the morning as to catch half of the inhabitants still in bed, they struck at Linnville, to the south. And each town—unwarned, unprepared and completely paralyzed by surprise—fell in a few confused, terrifying moments. At each place the death toll, unrecorded in history, must have been tremendous; and the thriving coastal town of Linnville was burned to the ground.

Yet, gratifying as all that must have been, the Comanches satiated their revenge even further with loot from the two towns—

between three and four thousand head of horses and mules and a fortune in merchandise from Linnville, which had been unusually well stocked. And with some of the goods taken—top hats and tail coats, for instance—they bedecked themselves and their horses gleefully for a triumphant return to the north.

Meanwhile, expressmen were spreading the terror northward and eastward: a thousand Comanche warriors, two sacked towns smoldering in their wake, were loose in the south. And men like Felix Houston, Ed Burleson and Ben McCulloch rose up to urge and begin preparations for a counter-attack, so that early in the morning of August 12, six days after the tragedy at Victoria, two hundred Texans met the invaders for a last-ditch fight at Plum Creek some 27 miles below Austin.

The Battle of Plum Creek

The Battle of Plum Creek, remembered chiefly as a display of savage and wonderful daring on the part of several Comanche chiefs who tried to hold off the better-armed Texans until their long baggage train could be got to safety, lasted for only a few minutes and then turned into a running fight which continued for fifteen miles, ending at last in the escape of the greater part of the dispersed Comanche force.

During the entire morning's fighting the Texans failed to lose a man and had only a few men wounded, whereas the Indians paid for their uprising with the lives of eighty braves and with the loss of several hundred pack horses loaded with loot from Linnville. The battle was one of the most successful pitched battles with Indians ever fought by the Texans, and the menace had been shattered.

But the Comanches had got their revenge.

Skunk Experiment Stunk

Halt! Before any more people undertake the experiment, let us pass on the findings of a southern game commission. They report, with regard to the popular theory which says a skunk is thrown out of gear by holding up by his tail, that several men in their ranks can testify this is no safe exploit!

Health Hints For Infant Care

AUSTIN.—"The lives of thousands of Texas babies are being saved this summer by intelligent parental care during hot weather. However, many more infant deaths could be avoided if parents would have a keen realization of the value of simple common sense precautions," states Dr. George W. Cox, State Health Officer.

Records of the State Health Department's Bureau of Vital Statistics show that 2,506 babies died of diarrhea and dysentery during 1940, many of them occurring during hot weather. The infant death rate for diarrhea and dysentery in Texas is too high, as can be seen from the above mortality figures. Public health officials cannot solve the problem alone; parental cooperation is the real key to its solution.

The following suggestions, if followed by parents of infants, would go far in further reducing deaths from diarrhea and dysentery:

1. Whenever possible, infants should be breast-fed for the first 6 to 8 months. When bottle milk is used it should be boiled or pasteurized.
2. Drinking water for the baby always should be boiled.
3. Personal cleanliness should be the rule for every member of the household. Those handling milk or food should be particularly careful.
4. Any member of the family or visitors showing symptoms of disease, no matter how slight, should be kept away from the baby. They should not be allowed to handle any of the food intended for him.
5. The house should be screened to protect not only the baby, but all household food, from flies.
6. Every home should be provided with a sanitary or fly-proof toilet or sewage disposal facilities.
7. Every home should have a safe water supply.

While most of the above suggestions are applicable at all seasons of the year, the following precautions are important in hot weather:

1. The baby should be kept as cool as possible; 2. He should be kept clean; 3. Clothing should be reduced to the simplest essentials; 4. He should be protected against insects; 5. He should not be over-handled; 6. He should be kept in the open as much as possible; 7. Water should be increased internally and externally; 8. He should not be overfed; and finally, if there are signs of illness, the family physician should be consulted promptly.

Bug Chaser

To rid cabin, tent or trailer of wasps, hornets, spiders, flies, mosquitoes, and gnats, dissolve one teaspoonful of menthol crystals and one-half ounce of cedar oil in one ounce of alcohol. Put a teaspoonful in a hot pie tin or on the stove. This dope has a pleasant odor and chases all bugs pronto.

Ike McCuan of Farwell is visiting his daughter, Mrs. Joe Ritter and family.

Mr. and Mrs. Ernest Hunt and children left Wednesday on a vacation trip to Denver and the Rocky mountains in general.

BLACK BUCK CAPTURED

A black deer, far more rare than albinos, has been captured by a Comal County ranchman. The deer is the second of its kind to be seen in that Central Texas county in the last several years. One was killed there in 1935, the state game warden has reported to the executive secretary of the Game Department.

Black animals or birds are known as those afflicted with melanism, which is a condition which results in more than the usual amount of pigments in the hair or feathers. Many albinos (white) are reported in Texas each year, but birds or animals of the melanic variety are extremely rare.

Conservation

"God has lent us the earth for our life. It is a great entail. It belongs as much to those who are to come after us as to us and we have no right, by anything we do or neglect, to involve them in any unnecessary penalties or to deprive them of the benefit which was in our power to bequeath."—John Ruskin.

CARD OF THANKS

We wish to express our sincere thanks to all our friends and neighbors for the love and kindness shown our dear wife, mother and daughter in her long illness.

At a time when the sympathy and helpfulness of friends meant so much you stayed by us in a most wonderful way, and it is very deeply appreciated.

May God bless each of you is our prayer.

THE TEMPLE OF TRUTH
By the Apostle

POOR INDIAN!

While on the San Idelfonso Indian reservation in northwest New Mexico a few days ago, the old Apostle marveled at what civilization had done for the In-

dian. Whereas the squaw, in their heathenish days, spent days making her buck a pair of beaded moccasins, he does it all now himself in two hours. He merely fashions them out of wornout auto tires. When you see the old boy coming down the road on foot, he reminds one of a fleet of aircraft carriers on the ocean.

DIDN'T FISH.

No sir, no fishing. We went

hunting rocks. In the party was Mr. and Mrs. C. E. Griggs, Dr. and Mrs. C. W. Gallaway, Joe Young and the writer. We left Hot Springs, N. M. early Sunday morning and found the gem rocks. We also found the mountain stream bank full that evening and the entire party sat up in the cars all night waiting for the water to recede. At that, we had a lovely picnic outing with not a grumble from any one in the bunch.

MEMBER WHEN?

Harking back to the dark ages of one's existence, you recall that young folks in some communities were not allowed to attend dances. They were forced to be content with a "play party." They went through the motion of dancing without music, one or more doing the sing-song while the bunch on the floor kept time with the song. There was Old Brass Wagon, Ain't Got No Rain, Old

Joe Clark, Shuli-Rub-a-Roo, Weevily Wheat and a lot of others. The inevitable "snap" game always came in handy. It was great exercise, but little else to consider.

TATTLE.

The name of each one of us is on somebody's blacklist. And sometimes, being on a blacklist, is quite an honor.

DON'T MENTION IT.

Some forty years ago when a certain old man in the Panhandle was bitten by a snake, the first aiders gave the treatment to the snake. The old man had been held in "fairly" high esteem, and more than a dozen attended his funeral.

THAT BOOK AGAIN.

The above story will likely appear in full in the forthcoming book, "Predicaments Pave the Panhandle" (without bond issues), giving the name of the party who was permitted to go on to heaven without hindrance. Another story will be about a certain young man who had wasted his sustenance in "strong women and wild drink" until he decided to "blow his dam brains out." He was found alone in his room with his 6-pistol ready and a certain newspaper man of the Panhandle who has been publishing a paper around these parts for forty-odd years, persuaded the young man to "clean up, clean out and stay clean. (With apologies to John R. Brinkley). That young man took the advice and for many years has been president of a leading bank in the Panhandle. He promised to give the whole story the next time he comes to Clarendon, and permit it to be published as a warning to young men who are trying to hinder their futures. If you don't like to hear skeletons rattle, you should never read this book that is in the making. "Many a crook was called a colonel in them days!"

FINANCIAL.
Most men know when they are out of cash. But a lot of them don't know when they are out of credit until some one tells them about it.

HOG JAW SOCIETY.

There was great excitement down at Hog Jaw Wednesday when the almanacs arrived. Oola Yurt was given a shower, Ima Fizzle presenting the gifts while dressed in a nightgown borrowed from the church choir. This social event was occasioned when it was found that Oola's picture appeared in the almanacs in the "your medicine cured my kidneys" column.

Spending the week end in old Donley is some relief. If you think it is hot here, try a few days in southwest New Mexico, pardner.

Mr. and Mrs. Jim Kilgore of California, who had been visiting here last week, left for their home Saturday. They were accompanied home by Miss Brownie Kilgore, who will make an extended visit there.

Chiropractic
RADIOCLAST DIAGNOSIS

How Nerves Are Involved In Rheumatism

Primarily the cause of rheumatism lies in spinal subluxations which interfere with the nerve supply to the membranes of the joint. The membranes of the joint receive vital energy through the nervous system from the brain. It is just as necessary for them to receive that vital energy as it is for the muscles of the body to receive their messages through the nervous system in order to contract. The only place where the nerve trunks conveying this vital energy can be compressed is where they make their exit through the intervertebral foramina. If there is slight abnormality in the position of one or more of the spinal segments, it causes pressure on the nerve trunk which leads to deficient function. The Chiropractor is trained in the knowledge of nerve distribution. He knows that the nerves which supply the knee joint make their exit from the spine, at a certain definite area. By the art of palpation he discovers which spinal segments are abnormal in their position and he then proceeds to correct that condition. By doing so he removes the pressure on the nerve trunk which is responsible and restored normality is the natural consequence. The great virtue in the Chiropractor's procedure is that he removes the cause responsible for the rheumatism and thus the results are lasting.

SOCIETY OF CHRISTIAN SERVICE

The ladies of the Society of Christian Service of the Methodist church met in their regular business meeting Wednesday afternoon at the church.

Following the business session, Circle No. 1 had charge of the

program; subject of which "Inter-denominational Work."

Twenty-two ladies took part on the program. Some of these were dressed in costumes representing China, Korea, India and our own nation.

A solo rendered by Miss Jane Williams, accompanied at the piano by Mrs. Lalar Wilkerson was enjoyed by all. Following this Mrs. Lon Rundell chairman of Circle No. 1 said, "We are the heirs of all the ages, and no part of this splendid heritage means more to us as christian women than the lives of those who have paved the way for us. They truly have been a lamp unto our feet and a light unto our path way, and we want to do honor today in a very small way to some of these." Mrs. Peebles being the oldest member of the society was then presented a lovely white cake made and beautifully decorated by Mrs. L. L. Taylor by the youngest member of Circle No. 1, Mrs. Bill Thornberry. The entire society was then served punch, chicken salad sandwiches and cookies.

Boys Ranch Gets Local Help

County agent H. M. Breedlove stated this morning that various ladies clubs in Donley county are giving to take up the move to "Give A Can Per Person" for food to be given to the Boys Ranch at Old Tascosa. "This is one of the best things that I have ever heard of our local clubs to do for society," Breedlove said, "and the boys at the Ranch will really appreciate this move that has been started in Donley."

Many of the clubs in the county have been contacted Breedlove said and the members have thought it a great thing for each one of them to give one or two cans of their vegetables that they have canned during the year to Boy's Ranch. Those clubs that have not been contacted can go ahead and collect their cans and notify the county agent or Doss Palmer and the cans will be picked up and delivered to Boys Ranch. Each club should set a date Breedlove said and bring in all of their cans one day and in this way they can more easily be picked up. You have no idea how these jars of vegetables will help the boys and

make it possible for more boys to go to the ranch. All clubs giving a can or jar of vegetable per person will be announced over the Cal Farley program and thanked for their contribution to the ranch. Clubs can give more than one can or jar per member if they so desire. Breedlove said that any person in Donley county who did not belong to a club and wanted to give a can or jar of vegetables to the Ranch could bring it to the county agent's office or to Doss Palmer's garage. Be sure to put your name and address on your jars so that those in charge will know who brought the vegetables. This is a great thing and the boys at the ranch will never forget it.

Sunday school and B.T.U. were not so well attended Sunday. We urge everyone to come next Sun.

Our meeting will start the 4th Sunday in August. The meeting will be conducted by Bro. Bryant of Amarillo. We want to urge everyone to be present.

Mr. and Mrs. Roy Morrow of Santa Fe, New Mexico visited friends and relatives here this week end.

A number of the men and boys of this community went camping at McClellan Saturday night. Ralph Morrow was slightly injured in falling from a car.

Mr. and Mrs. A. J. Scivally and family and LaNelle Barnett of Littlefield visited Thursday evening in the W. L. Jordan home.

Billy Rae Marshall spent Saturday night with Frances Easterling of Amarillo.

Mrs. Clyde Marshall and daughter of California are visiting friends and relatives here.

Mr. and Mrs. L. M. Marshall and daughter spent Sunday in the P. M. Marshall home of Ashtola.

Mr. and Mrs. John Thomas left Wednesday for Wichita Falls to visit their son.

Mr. and Mrs. L. O. Christie and family visited Sunday in the O. L. Jacobs home of Hudgins.

Mrs. Guy Sibley, Mrs. J. T. Easterling and Mrs. Clyde Marshall visited Friday with their parents, Mr. and Mrs. Barker of Lella Lake.

LaVerne Goodman of Amarillo is spending this week end with her parents.

Mr. and Mrs. Earl Easterling of Amarillo visited the week end with friends and relatives.

Mr. and Mrs. J. A. Warren, Jr. of Borger and Barbara, visited Sunday in the J. A. Warren home on their return trip from a visit to relatives at San Angelo.

GARDEN GLANCES
"America beautiful lies in the hands of the gardeners."

August brings lazy weather, the gardener enjoys a shaded nook instead of working the borders, keeping lawns and hedges neat.

The sun-loving portulacas edging many borders, look like small roses and buttercups.

Phlox, orchids and white are flowering profusely in the Tom Connally's yard. Gay annuals and well kept lawn at the Bob Head's denote many hours of work. Among the newer yards, J. W. Kent and G. E. Norwood's are colorful blossoms and lovely lawns.

Salmon pink geraniums are gaily decorating a flower border at David Johnson's and the Latson apartments.

At the Marvin Warren's red cannas are a delightful sight.

Marigolds and zinnias in many bright shades are adding color to the Court House lawn.

Visitors in my garden
As sunny days go by;
Noisy, velvet bumblebee,
A gorgeous butterfly,
Flashing wings of oriole,
Plump toad with watchful eye,
Visitors in my garden
As sunny days go by.

Conditions Improved

AUSTIN.—Forecast of autumn retail sales zooming to the highest peak in the history of this state was made this week by a University of Texas statistician in surveying flourishing Texas business.

While Texas business reveals less spectacular gains than in the country at large, the coming months hold a bright prospect for Texans, Dr. F. A. Buechel, associate director of the University's Bureau of Business Research, predicted.

He warned, however, of rising costs of living, following curtailed production of certain types of consumer's goods.

Wide margins of gains for June over June last year were cited in almost all the bureau's indexes of Texas business—the component in index made up of six major business factors climbing to 114.9 or 16.5 points above June, 1940.

Employment—up 11.9 per cent over June, 1940.

Payrolls—up 26.6 per cent.

Department store sales—up 19.7 per cent.

Electric power consumption—up 9.5 per cent.

Postal receipts—up 13.9 per cent.

Lumber production—up 10.4 per cent; shipments—up 15.8 per cent; unfilled orders at the end of the month—up 180.9 per cent.

Building permits—up 46 per cent.

Commercial failures—down 16.7 per cent in number, down 44.5 per cent in liabilities.

Only discordant notes in the picture were the declines in the number of new firms incorporating under state law and in the purchases of saving bonds. Charters dropped from 97 in June, 1940, to only 48 last month, with a slump from \$1,960,000 to \$651,000 in aggregate capital invested, while money invested in savings bonds in 29 of the state's largest cities declined 19.3 per cent from June, 1940.

Knox Advises Young Men

NEW ORLEANS, La., Aug. 7.—Secretary of the Navy Frank Knox is offering a bit of advice to the youth of the land, urging them to join the Navy or the U. S. Marine Corps, asserting that's just what he would do "if I were 25 today."

Ways in which the youth of today may develop the opportunity to advance were cited by Secretary Knox in reply to a letter received from J. C. Coppage, physics teacher at the Plainview, Texas, High School. Coppage explained that Secretary Knox's reply to the question of "what to do at 25?" would be an inspiration to the youth of the land, who are now facing decisions of utmost importance.

In his letter, a copy of which was received at Eighth Naval District headquarters here, Secretary Knox replied:

"If I were 25 today, I would join the U. S. Navy or the U. S. Marine Corps. I would join for training as an aviator if I could qualify, or seek a commission if I were a college graduate. If I were not eligible for these, then I'd enlist as an apprentice seaman in the Navy or as a private in the Marine Corps if they'd have me, knowing that I was of a select band of volunteers manning my country's and civilization's first line of defense. I don't think any of your students can do better than that—if they are between the ages of 17 and 31. And to prove I am sincere, I have joined the Navy myself at the age of 67."

A few years ago youth was complaining about the lack of opportunity, Secretary Knox pointed out in his letter to Coppage. "Today," he observed, "youth

may complain about the doubtfulness of the future, but it can no longer complain about lack of opportunity. Not today."

Romantic eminence of knights of old is challenged today by young men in roaring, soaring war planes. Secretary Knox wrote. They may drive rumbly tanks of our growing Marine Corps brigades, they may serve in swift motor torpedo boats or other Naval craft on, above or under the sea. To each he said, according to his ability, the opportunity to defend his country is given.

The secretary added:

"And let me point out that in so doing, most young men are giving up very little and gaining much. They are not sufficiently well established—in business or profession—to be making a real sacrifice, and they are offered intimate association with other young American men of like characters, who will come out of this period the stronger and more able for this period of determination and discipline, and of the suspension of materialistic self-seeking."

"No one wants war—no one wants the suspension of peaceful activities and the concentration on military and naval matters that total defense necessitates. But good can be derived from anything if the will is there and there are benefits even to such

conditions as those of today. To those of good will—to young men of the right spirit who enter the present situation with the desire to make the most of it, both for themselves and their country—there is hope and promise of better things when he can once again begin to build our great future."

No one can be truly successful who selfishly ignores the major public necessities of his day and age, Secretary Knox declared also.

"No one," he remarked, "can even be truly successful who seeks to avoid his natural responsibilities, public and private. On the other hand, many of our outstanding successes have begun with the contribution to national safety and solidarity made by young men in past periods of emergency."

CAMERON'S New Farm and Ranch Plan Book and Survey Service

What is CAMERON'S New Plan Book?

Here is a practical, new Plan Book which offers you new plans of Farm and Ranch Buildings—structures which are:

1. The most economical to build for their specific purposes.
2. Are designed to increase your profits and income.
3. Are constructed so as to last—reduce upkeep—increase the value of your investment—save you time and needless steps and work.

These plans contain the accumulated experience of Wm. Cameron & Company's 75 years of meeting and successfully solving Southwestern Farmers' and Ranchers' building problems.

These plans are ready for you to see and use at your nearest Cameron Lumber Store. They are hot off the press—brand new and include the best and latest in Farm and Ranch construction. When you buy your materials from Wm. Cameron & Company, the necessary technical data on ventilation, necessary size of structures for each given number of livestock, etc. Regardless of whether or not you are now planning any building, remodeling or repairing—it will pay you to see this new Plan Book at your nearest Cameron Lumber Store—TODAY!

What is CAMERON'S New Survey Service?

A Farm or Ranch is, in fact, a factory. Its purpose is to earn profits. The buildings and structures on that Farm and Ranch are important in causing a profit or loss. The location of the buildings in relation to each other, the convenience of their inside layout, their efficiency, upkeep cost, and the time and work they do or do not save determines whether you will have high or low operating costs. The lower your operating costs, the higher your profits will be.

To have a low operating cost Farm or Ranch you must plan your buildings—their location, construction, interior layout and the use of correct materials. You must have a plan—low operating cost farms don't just happen—they are based on careful study and planning.

To meet this need, William Cameron & Company developed their new Farm and Ranch SURVEY SERVICE. Special printed survey forms are provided on which you, with the assistance of your trained local Cameron Man, can:

1. Make a survey of your existing buildings—their layout, location, condition, etc.
2. The findings of this survey are placed on the Cameron Survey Form, furnishing a written record of the layout, design, efficiency, condition, etc., of your existing buildings and equipment.
3. Next, on the basis of this information, plus your needs and the new ideas, plans and data contained in the Cameron Farm and Ranch Plan Book—you can scientifically determine what must be done to make your Farm or Ranch Factory a lower operating cost one.
4. On these facts a definite program is laid out—not to be completed in one year—but over the years a sound plan is set up which will reduce your operating costs and increase your profits. As you proceed with the plan—it will begin to pay for itself.

Right now, take advantage of this new, scientific Cameron Way of increasing your profits. It's the businesslike way—the way factories—your Farm or Ranch Factory—can be made to increase its earnings. See your nearest Cameron Lumber Store NOW—This Cameron Survey Service is free and without obligation.

ANGLER'S DICTIONARY

REEL—A coffee mill invented by Satan and designed to snarl up at critical times, thereby inducing profuse profanity.

FISHING LINE—An expensive piece of string. It snarls, gets snagged, and is guaranteed to break at the right time, thereby creating the alibi for the "whopper" that always gets away.

"WHOPPER"—A term used to describe all fish which get away. Associated words are "whale", "junk", and "sockdolager."

CREEL—The distinctive item of a trout-fisherman's uniform. A fragile wicker basket in which to hide a worm can, carry a fly book, lunch, etc. Occasionally

used to hold small trout.

WADERS—An effective means of carrying water from the stream to a convenient log. Guaranteed to keep the feet hot in summer and freezing in cold weather. "Waders" hold more water than "boots" and are preferred in putting out campfires.

FLIES—A feather imitation of nothing-ever-seen, with very fanciful names, and the favorite food of house moths. Flies are principally used to decorate fishermen's hats and bushes along the stream.

BOAT—A leaky tub, with a tomato can for bailing, and a pair of mismatched oars. Antique boats command a high rental.

PLUG—An instrument for removing trash, old shoes, brush and sunken logs from streams, lakes and ponds. Unusually effective at snagging overhanging limbs, your pants, river bottoms and lily pads. Comes in thirty thousand different forms, sizes and shapes. Designers fondly think of them as lures for fish but they are much more effective in hooking the fishermen.

Mr. and Mrs. Wallace Weatherly of Lorenzo have been here this week visiting relatives and friends.

SANCTUARIES SERVE PURPOSE

Fish sanctuaries established by the Texas Game Department on some lakes and streams do not always meet the approval of the public, but they serve their purpose, that of protecting fish in their favorite spawning areas and ultimately give the anglers much more sport than if the sanctuaries were not set up by the Department.

Sanctuaries are established upon order of the Game Department and the board of county commissioners in the various counties when it is believed that by not allowing fishing or seining in a specific area that many more fish will be produced in a lake or stream.

The sanctuaries are abandoned when they have served their purpose, as is attested by the recent action of taking off the sanctuaries from several areas in Roy Inks Lake, one of the four lakes formed by dams on the Colorado River above Austin.

Mrs. Walter Campbell of Wellington is a guest of her sister-in-law, Mrs. C. D. McDowell this week.

... that's the kind of bargain Your Electric Servant brings YOU NOW under Business Operation

1. Twice the speed. Electric servants breeze through your housework in less than half the time it used to take—at about half the cost. Your bill maybe is about the same as it's always been, but you now get more and better service, plus better lighting, for about what you used to pay for lights alone.

2. Twice the labor saving. Ask the woman who owns a washing machine what electricity has done for her! At present-day low rates, you can afford to use most all the modern appliances. Today electric rates are only about half what they were 10 to 15 years ago. You get about two or three times as much for your money!

3. Twice the light. No blackouts here! Today you can get twice as much light as you used to, for the same money. Electricity today costs only about half as much. (Light bulbs are twice as efficient, so you get four times as much today for the same money.)

4. Twice the comfort. Constant research is developing new and cheaper ways of using electricity. Air conditioning this past summer reached more homes than ever before, bringing cool comfort at small cost. Other usages are being constantly improved at no extra cost to you!

Credit for the steadily improved service to you at steadily reduced rates is due the trained and experienced men and women of this organization. They have devoted many years to the highly technical problems of electric generation and distribution... all without interruption and at low cost.

Letters from the People:

"We used to pay 15 cents a kilowatt-hour. The low rates today enable us to use our many appliances without being extravagant. Besides lights, we now have range, water heater, Frigidaire, sweeper, air conditioner, iron, percolator, toaster, waffle iron, radio, fans and heating pad—making for better and more economical living... The West Texas Utilities always renders courteous, prompt and efficient service for which we are grateful."

Squirrel Battles Snake

Mr. C. C. Barton of Temple, Texas, was driving recently near a creek on a farm he owns eight miles north of Temple when he noticed a large snake twisting and rolling. Barton got out of his car, picked up a club and started for the snake. Then he noticed that an adult squirrel was battling the reptile, twisting and turning with every move it made. The little nut cracker had bitten the snake clear through its head. There was a half grown squirrel under the snake. It was injured but managed to follow its mother to a tree when Barton approached. It wasn't necessary for him to kill the snake.

RECIPE FOR HAPPINESS CAKE

By Mabel Wilton

Take a quart of understanding. And of tolerance,—a cup. Add to that an ounce of pity. A dash of wit and stir it up.

Now with laughter don't be stingy. For of that you'll need a lot; (About this recipe, don't worry. It is bound to hit the spot.)

Next you take a dram of patience. Add some flavoring of good cheer. And a spoonful of compassion; You should always keep that near.

Then you'll need some daily prayer. Just to make it smooth and light.

Now add some love, a heap of friendship. And beat it well with all your might.

Next, throw in some loyal powder. So your cake will never fall. And pour in a glass of truthful nectar; (Do be sure to use it all).

Then you add some sweet forgiveness. And a little bit of song. Now your cake is nearly ready. For the pans—it won't be long.

Instructions

Grease well the pan of no ill feeling. And pour the mixture carefully in. And top it with a sort of sweetmeat. By the name of cheerful grin.

Now set the temperature on smiles. And let it get a little start. Then bake it in the finest oven. Called the portals of the heart.

Icing

Take some milk of human kindness.

Mix with kind words you have said, And beat it well with lots of courage. Until like honey it will spread. P. S. Use full measurements.

MAINSRING

"For the first time in years," writes William R. Khuns, in Banking, "the butcher, baker, and candlestick maker, their sisters, cousins and aunts are beginning to discover what a fine assortment of useful and unsuspected items their bank has for sale."

Many of us used to think of banks as institutions which were only interested in "big money" operations, and which had little to offer the ordinary man. Today, the typical bank is actively seeking accounts of all sizes—and it offers as cordial a welcome to the legitimate borrower who needs a few hundred dollars as it does to the borrower who needs tens of thousands. It finances the purchase of automobiles and homes.

Today the banks are carrying on still another big job—the sale of defense loan securities. It is estimated that more than \$100,000,000 worth of these bonds and stamps must be sold to the public each week if the Treasury is to avoid further inflationary sales of government securities to the banks. Private banking is again proving that it is one of the mainsprings that keep this country going.

TEXAS BIRD IN EAST

Chachalacas, native to the United States only in Texas, strangely enough are thriving on the Blackbeard Island, national wildlife refuge off the coast of Georgia, according to a report received by the Texas Game Department from U. S. Fish and Wildlife Service. They were introduced on that island and upon Sapelo, nearby, about fifteen years ago. At least twenty-five are known to be on Blackbeard Island.

A gallinaceous bird, the chachalaca is related to pheasants, quail and turkey. An adult bird is about half the size of a Leghorn hen and is dusky olive in coloration. The birds are extremely noisy and their common name is an imitation of their unusual cry. They are found in the southwest portion of Texas.

What Next?

Our modern day packing plants, it has often been said, use all of the pig but his squeal. Well, in many respects the shark is more valuable to man than the pig. From the hides of these marine scavengers various grades of durable leather can be made; medicinal and other oils are obtained from the liver and intestines; the head can be converted into glue; the teeth sold to jewelers; fins exported to China for "Chinese turkey" food; bones ground into fertilizer, and the flesh used as food.

The funeral service was postponed today due to the delay in arrival of Mrs. Peabody, who is coming from California.

Comfort Work To Get Started

County Agent, H. M. Breedlove, announced this morning that the Comfort Program started in Donley County the fifth of August.

It is not necessary Breedlove stated for any person to make application for comforts because we already have the mattress application on file and the comforts will be issued according to the numbers of mattresses issued.

Miss Doris Leggett, District Home Demonstration Agent for the Texas A&M College Extension Service held a demonstration for the supervisors of the two plants and instructed them as to how the comforts were to be made by the people.

All persons will be required to make their own comforts, Breedlove said, just as they were under the Mattress Program, however, all persons will only work one day in the plant to receive their comforts providing that they can get them all in one day.

The plants will be open from eight o'clock in the morning until five in the afternoon. All persons are requested to go to the closest plant in order to make their comforts and to make them as soon as possible.

There will be approximately one thousand comforts made for the program.

F. F. A. GROUP TO HAVE EDUCATIONAL BOOTH AT TRI-STATE FAIR

Members of the local F.F.A. organization were notified Wednesday morning that they would be allowed to prepare an educational booth for the Tri-State Fair this fall.

In addition to the booth, the local youths plan to exhibit a large number of prize pigs and poultry, and they will enter poultry and dairy cattle judging teams in the annual judging contests.

LOCAL F.F.A. YOUTHS TO COLLECT BRICKS

Members of the Clarendon F.F.A. will gather brick Saturday to help bolster Clarendon's part in helping build the Panhandle Plains Museum at Canyon.

Recent cash donors to the museum fund include: Mitch Bell \$3.00, Charlie Bell \$1.00, and A. L. Chase \$2.00.

Mr. and Mrs. T. G. Heath of Ft. Worth spent the week end here with his brother, Grover C. Heath and family. T. G. is a mail clerk on U. S. Denver between Ft. Worth and Amarillo, and has been since 1917.

WALLACES GO EAST

Leaving here the first of the week were Mr. and Mrs. L. L. Wallace and children vacation bound.

Judge and Mrs. R. Y. King and the twin daughters, Ruth and Rebecca, spent the week end with his sister, Mrs. Dan Hall, at Tabin, N. M.

VISIT KINSMEN HERE

Mr. and Mrs. E. F. Bryan of Amarillo, and daughter, Mrs. Ed R. Bentley and her son Randolph of Florida spent the week end here with the Allen Bryan family and other relatives.

VACATE IN MEXICO

Among the number to spend a vacation spell in western New Mexico last week were Gilmer Ayers, who was accompanied by his sister, Mrs. Emory Morris of Pampa. They visited the C. W. Galloway family in Hot Springs and spent some time in the copper mining belt around Santa Rita and then to Silver City.

OLD-TIMER HERE

Mr. and Mrs. Chas. Thornton of Muskogee, Okla., and Mrs. Jim Barnett of Channing visited the Bourlands and other old residents here Monday. They resided here many years ago.

Mr. and Mrs. J. J. Losson and son spent Saturday with relatives in Kress.

Mr. and Mrs. M. R. Allensworth are again at home after a delightful vacation on Red River in northern New Mexico.

Tax Rate Is Reduced

Believe it or not, the tax levies by the state on Donley county property has been given an 11-cent rate reduction, effecting a saving to taxpayers of Donley county an approximate total of \$5,066.99.

The entire cut was absorbed by the school fund levy, which dropped from 27 to 16 cents. This was made possible by a surplus in the school fund at present, and the income anticipated from sources other than ad valorem taxes.

Claude C. Smith, conducting a revival in Hedley, visited friends here Friday. He was formerly pastor of the local Church of Christ.

FROM CALIFORNIA

Mr. and Mrs. W. P. Cagle and children of San Pedro, California are spending the week with his sisters, Mrs. Van Kennedy and Mrs. John M. Bass and their families.

Revival At Church Of Christ

Attendance has been large at the Church of Christ where a gospel meeting has been in progress since Sunday.

Two services are being held daily. At 10 a. m. and at 8:30 p. m. An invitation is given the public to hear these gospel messages, pastor J. L. Moyer announced.

Mr. and Mrs. C. E. Griggs returned from Hot Springs, N. M. Wednesday. They visited their daughter and husband, Dr. and Mrs. C. W. Galloway there.

Baptist Revival Continues

The revival at the Baptist church continues with increased interest, the Leader was informed today, with services twice daily, and attendance large at each of the services.

Rev. W. H. Hughes is doing the preaching, a man gifted in portraiture in language the beautiful scriptural lessons that appeal to old and young alike.

J. T. Sisemore has charge of the music, being talented with instrument as well as voice. He has an enthusiastic number of singers aiding in the revival.

The public is cordially invited to attend any or all services.
