Fall Pastures
September is the month that most small grains should be planted for fall and winter pastures. A good seedbed, a combination of a legume and a small grain, and applications of fertilizer as needed will help to increase the amount of grazing per acre. Allow at least one acre per cow. Remember that these small grain and legume pastures will analyze around 25 percent protein.

Trench Silos
Silage should be considered a substitute for green pasture. It has about the same value in the ration of a dairy cow or beef animal as does green pasture but no greater value unless there is some grain on the feed stuff made into silage.

A silo makes it possible to have green feed when it is too dry or too cold to have a green pasture, or too wet to use pasture. A silo should also be considered a container in which to store a surplus of feed to use when the drought year comes. It is also a container for excess feed in years of plentiful rainfall.

A trench furnishes the cheapest form of a silo from the standpoint of cash expenditure. Other advantages of a trench silo are: it may be constructed in a short time; it is less expensive to fill than an above the ground silo; it is wind proof; fire proof, and frost proof; silage may be placed and packed conveniently; silage may be removed easily; and water can be applied to the silage easily. A trench silo may be also filled with bundles.

Some of the disadvantages of the trench silo are; the walls may have to be smoothed each year unless lined; laborers are exposed to the weather in removing the silage and trouble may be encountered from rain water in the empty portion of the trench unless drainage is provided.

The advantages outweigh the disadvantages when one wishes to construct a cheap silo quickly and will take the necessary precautions in filling and covering. Anyone who wishes to construct a silo may get the details from the county agent. A silo would be a good place to put some of the excess feed for a year. Crops that make excellent silage are the grain sorghums such as kafir, milo, fetaria and hegar. The sweet sorghums such as red top, and other canes are also especially good for dairy cattle and stock cattle. The sweet sorghums and grain sorghums could be mixed. As a rule the sweet sorghums make more tonnage than the grain sorghums.

Mrs. Laura Stratton of McLean, her daughter, Mrs. Vina Myers of Amarillo, and Mrs. Otha Carter of Shafter, California visited with her sister, Mrs. Homer Walker, and other relatives and friends several days and attended the Old Settlers Reunion.

Mr. and Mrs. N. M. George and Jo Lynn George attended the Boys Encampment near Ft. Davis the past weekend.

ABILENE SQUARE DANCERS DAY, SEPTEMBER 9TH

A group of Abilene square dancers are planning the program for Abilene Square Dance Day, Saturday, September 9th. Outstanding callers include: Lee Bedford, Jr., Dr. Vannes Boone, Lloyd Collier and Bob Sumrall. Each will call for the dance at the Maker Airport and during the afternoon clinic at the Square Dance Center.

The Light Crust Doughboys, who are rated as one of the most popular string-bands in the southwest, will furnish the music for the dancers. The Doughboys have been making personal appearances over Texas, Oklahoma, Arkansas and Louisiana for the last 15 years.

Exhibition squares from all over the state will perform. Among them are Bill and Kate Palmer's 'Country Cousins', who are now appearing on WBAP-TV in Ft. Worth. This will be the first time in West Texas that such a large number of exhibition teams have been used. Exhibition squares who wish to participate are invited to contact Betty Casey, 1401 Beech St., in Abilene.

Facilities will be provided for spectators.

THREE BAIRD STUDENTS IN MUSIC RECREATION CAMP

ABILENE — Three students from Baird are among the members of the Eleventh Annual Hardin-Simmons University music recreation camp being held Aug. 14-26 at the Lueders Encampment grounds. They are Marilyn Gilliland, Martha Gilliland and Yvonne Caldwell.

Marilyn enrolled in classes in clarinet, harmony, roping and marching band, while Martha is taking clarinet, harmony and marching band. Yvonne enrolled in marching band and twirling.

Six musicians, who are directing bands or teaching music, are teaching the faculty. They are Pat Arsers, San Antonio, George Gates, Midland; J. D. Schoonever, Bryce Jordan, Mason Sumerlin and Marion B. McClure, of Hardin-Simmons.

Daily ensembles, solos, coaching, and classes in conducting, harmony, and musicianship are conducted for students. Baton twirler Norma Kniffen offers instruction in twirling and drum majoring. Class in roping and section drill also are given.

RED CROSS AIDING OTHER TROOPS IN KOREA

WASHINGTON — The welfare services of American Red Cross field workers in Korea were offered today to the troops of other nations responding to the United Nations call for assistance in the Korean conflict.

In a letter addressed to the Red Cross societies of the nine countries involved, the American organization outlined a 4-point program it could offer other UN troops until their own Red Cross workers join them in Korea. The program includes counseling on personal and family problems, transmitting or requesting information through Red Cross channels, distributing comfort articles, and providing such recreation facilities as may be requested by the military.

The offer went to the Red Cross societies of Great Britain, Australia, The Netherlands, The Philippines, Thailand, New Zealand, Bolivia, and Canada and to The Red Cross of Turkey. All of these countries have

announced their willingness to send forces to Korea.

Currently there are 21 American Red Cross field workers in Korea, including three women, providing traditional Red Cross services to American troops. Eleven more workers are en route. The aid offered other UN forces parallels that being given to U. S. servicemen. Since the conflict Red Cross headquarters at Tokyo has requested \$90,000 worth of supplies for use in Korea.

Mrs. Shelba Hollingshead of this place and Miss Beverly Leache of Dallas spent Saturday and Sunday in Lubbock as guests of Mrs. Hollingshead's brother, Wendell Jones, and family.

LONE STAR GAS COMPANY

Boy Oh Boy!

Forced Air Central Gas Heating makes summertime out of Winter

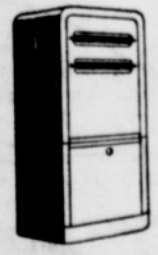

Winter preys on your children's health. Its dangers lurk in drafts... on chilly floors... in unheated rooms. Now, with the many new types of forced air central gas heating systems, any home can be as healthful in winter as in summer.

Through a system of ducts and registers, forced air central gas heating delivers fresh, warm air to every nook and cranny... and returns cold, stale air to the out-of-doors. There are no chilly floors or drafts which cause discomfort and may cause dangerous colds. No heat hangs at the ceiling or wastes itself when you are asleep or away. There's no overheating when "just a little heat" will do.

Forced air central gas heating gives your children the health protection at home that authorities insist they have at school.

You have only to talk to a heating contractor or a Lone Star Gas Company heating specialist to see how practical and how little it takes to put one of the new forced air central gas heating systems in your home. See him—won't you?

Why not, today?

Central gas heating can be installed in a closet, or in the attic, under the floor and in a wall. Here certainly is the heating system for modern living.

EDITORIAL

DON'T LEAVE THE JOB UNFINISHED

Voters are urged to return to the polls Saturday, August 26, and cast their ballot in the Democratic run-off primary election. Voters owe it to the candidates whom they placed in the run-off election to vote on that day to help determine the people's choice. If only a handful of votes are cast, no one will ever know whether the winner was actually the choice of the people or only the choice of the few voters who voted.

There are two run-off races in Callahan County offices. B. C. Chrisman and L. C. Cash are in the race for County School Superintendent. I. G. Mobley and R. B. Taylor are running for County Commissioner, Precinct 3.

The election ticket is published elsewhere in this issue of The Star. Study the ballot before going to vote, and cast your vote for the candidates best qualified to serve you in the various offices.

PUBLIC SENTIMENT SEEMS UNANIMOUS

Newspapers of Texas seem to be of the opinion that voters will be almost unanimous in their selection of state candidates. Many of the newspapers have come out editorially in support of most of the candidates that The Star has decided are most worthy of the offices they seek.

Sentiment is developing rapidly for Ben Ramsey over Pierce Brooks for Lieutenant Governor.

Will Wilson seems to be leading Fagan Dickson for Associate Justice of Supreme Court, Place 1.

Justice Meade F. Griffin, a former Callahan County resident, surely will defeat G. W. Harwood for Place 3 on the Supreme Court.

The newspaper editorials favor W. A. Morrison over Bob Lattimore in their race for Judge of Court of Criminal Appeals.

We hesitate to predict the outcome of the race for Commissioner of Agriculture. Nobody seems to like McDonald's way of handling the office, but he has been coming back for the past 15 years in spite of the fact that the state committee and thousands of Texans are working against him. John C. White, young Midwestern University agriculture professor, surprised politicians by making the run-off with McDonald. This success has brought out tremendous interest in White's campaign.

L. R. Pearson's name will be standing alone on the ticket in the race for Representative of 107th Flatorial District. O. O. Odom went into the run-off with him, but withdrew. Mr. Pearson is required to run to fulfill the law by receiving a majority.

BENEFITS TO VETERANS OF KOREAN CONFLICT

Questions are being asked as to what benefits and procedures are available to members of the United States armed forces engaged in the Korean conflict after they become veterans, and for the dependents of those who have passed on. Briefly, the answer up to this time is that they are peace-time veterans and are eligible to the benefits available to that group with the exception that war-time rates for disability or death resulting from armed conflict, extra-hazardous service or while the United States is engaged in war, are payable (Public 359, 77th Congress, December 19, 1941).

Herewith a summarized outline of benefits available to veterans of the Korean conflict as of August 4, 1950.

AVAILABLE

1. (a) Full war-time rates of disability compensation if disability is direct result of armed conflict, if it is incurred while engaged in extra-hazardous service or while the United States is engaged in war.

(b) Presumption of sound condition at time of enlistment if there was 6 months or more active service.

(c) Presumption of service connection of tropical diseases becoming manifest within one year of separation, if veteran served 6 months and was honorably discharged.

2. Death compensation at war-time rates if death is direct result of one or more conditions cited above (1(a)).

3. National service life insurance is available to persons in active service.

4. (a) Hospitalization for service connected disabilities; and for nonservice connected disability only if discharged for line of duty disease or in receipt of compensation for service connected disability.

(b) Domiciliary care: peacetime veteran may receive on same basis as wartime veteran but he must also show no adequate means of support.

5. Soldiers & Sailors Civilian Relief Act of 1950—Benefits of this act, including Article 4 (guaranty of civilian insurance premiums — see Rehab Circular 18, 5/15/50 are available under Sec. 14, Selective Training Act, 1948, as amended (Public Law 759, 80th Congress).

6. Burial expenses — Payable for peacetime veteran only if he was in receipt of compensation at time of death or if he was discharged or retired for disability in line of duty.

7. Burial flag — Peacetime veteran must have served at least one enlistment or have been discharged for disability in line of duty.

(a) Out-patient treatment for service connected disabilities.

(b) Prosthetic appliances.

(c) Seeing-eye dogs plus certain equipment for the blind.

(d) Special housing assistance, paraplegics, etc.

(e) Burial in national cemetery.

(f) Headstone or marker.

(g) Death gratuity of six months active duty pay for dependents.

8. Reemployment.

9. Job counselling and placement.

10. Veterans preference.

With reference to family allowances and allotments to dependents of enlisted members of the armed forces of the United States, the following bills have been introduced as of this date: H.R. 9260, H.R. 9262, S. 3986. We are informed that the last two have the sanction of the legislative branch of the Department of Defense. There is also the possibility of legislation to restore the \$1500 exemption for federal income tax purposes. As stated above, the National Legislative Director advises that he will have information on all these matters from time to time in his weekly bulletin.

We repeat that the above are benefits available to U. S. veterans of the Korean conflict as of the date of this circular. Numerous pieces of legislation have been introduced to give these veterans war-time status. Assurance is given to the families and dependents of those serving in Korea that the National Commander of the American Legion and the operating divisions concerned are engaged in studying and making preparations for legislation for the protection of Korean veterans and for their dependents. Until present laws are amended, or new laws enacted, the claims of these veterans and their dependents will be passed upon under the provisions of current laws applicable to peacetime service.

Department Adjutant.

SOIL CONSERVATION DISTRICT NEWS

Seeding time of fall cover crops, especially vetch and rye, is generally as important as how the seeding is done. Of course, weather conditions make all thumb rules variable, but most of the time early seeding, from the middle of September until the middle of October allows enough growth to be made to give a good protection to the soil. These early plants are large enough to withstand cold weather much better and in turn are vigorous enough to begin their main growth earlier in the spring. Buying the seed early and making other arrangements such as securing drills and fertilizer assures seeding when the peanuts are plowed up rather than delay looking for seed and drills. Late harvest of peanuts and feed or cotton prohibits early seeding, but it doesn't prohibit eventual seeding. Successful plantings have been made.

Vetch and rye has proven itself to many people in this area as a cover crop and for soil improving on deep sands and mixed or medium textured sands; but there are also some that have tried vetch and rye in regular width rows on heavy land and have liked the way it improved the friability of the tight land, as well as its stimulating effect on following crops.

Board of Supervisors Meet

The board of supervisors of the Lower Clear Fork Soil Conservation District met in Albany Tuesday morning, August 22. Applications for assistance in soil and water conservation were approved for E. L. Clinton on 1620 acres and Tom B. Hadley on 102 acres.

A conservation plan was approved on the farm of Claxton Jones, which consists of 341 acres.

In Our Home Town

By Atrelle Dill

Do you realize that in a few very short weeks Fall will be here? Summer, like the lovely lady she is, gathers up her trailing skirts and makes a graceful exit across the hills, leaving Autumn in her wake.

How do you like the newly completed portion of Highway 80 through the home town? That wide expanse of pavement lead-

ing into town gives Baird the appearance of the progressive "young city" it is.

And the home town will soon have another addition to its residential district. Mr. Olin Jones is building a beautiful tile garage apartment at his home, which will be occupied by his daughter and son-in-law, Pauline and Harold Bass. Completion of the apartment is due this winter.

Baird vacationers are returning home from their visits to places of interest in the country. Mrs. Hugh Ross and daughter, Mary, had a lovely time in Santa Fe, New Mexico. They visited the

ever-lovely Mission of San Miguel, rich in historical value as one of the first church in America, and also the highly colorful Indian celebrations held in Santa Fe each year.

Nice-to-see-Department —The Rays, Grace and Harold, making trips to Ross Acres to watch the building of their new home. Grace is quite breathless with excitement when she talks about it and it really is going to be nice. And how could it be anything else with two such nice people for occupants?

Have you noticed the extraordinarily fine flowers at the courthouse this year? The Zinna plants are waist high, and the blooms as large as saucers.

Troop Five of the Baird Girl Scouts, and their leaders, Ruth Dyer and Mae Stokes, entertained the Girl Scouts of Putnam this week with a cook-out at the Dyer home, and it was a "good neighbor" gesture that was equally enjoyed by hostesses as well as guests.

As we sign off this week, let's send a "get-well" card to Jimmy and Nancy Johnson, children of Leona and A. N. Johnson, who are in the hospital.

The community was saddened last Friday when word came from an Abilene hospital that Billye Farmer was seriously ill. She is the youngest daughter of Mr. and Mrs. Fred Farmer, and is loved by all who know her. She has been employed for the past year and a half at Fleder-Dillingham Lumber Company at Abilene, and she was on the second week of her vacation when she became ill. Sunday there was great need of type A, or RH negative blood for a blood transfusion. Several carloads of friends and neighbors responded to the call, but none matched. There was none of that type in the Blood Bank. If any of you friends and neighbors have that type of blood, please report at Hendrick Memorial Hospital so that in case of another emergency, they will not have to waste so much time trying to locate it.

Mrs. Clark Glenn and children of San Angelo, are spending this week in the home of her parents, Mr. and Mrs. M. Russell.

Mr. and Mrs. Bill Achley and family, and his mother, Mrs. Martha Achley of Waco, spent the weekend in the home of their son, S. S. Nichols, Mrs. Nichols and family.

Announcement was made Sunday of the engagement and approaching marriage of Rev. Hugh Daniels and Miss Joy Huff. Both are students at McMurry. He is pastor of the local Methodist church. The wedding is set for Tuesday morning, Sept. 5, at Panhandle. He said that he felt safe in inviting his whole congregation. Now wouldn't he get weak in the knees if several from the community showed up at the appointed hour. We send them all our good wishes, regardless.

WALDROP HOUSE FOR SALE 5 Rooms - Bath - Garage \$5,600.00 The N. A. Waldrop house located next door to the new Ross Acres Addition, now under construction, is for sale. And if you are desiring to own a comfortable, nicely located home in Baird, without paying too much for it, this is your opportunity. The house is situated on a corner lot, 100x140 feet, facing south. Mr. Waldrop had the house insulated with Johns-Manville rockwool insulation, both ceiling and walls, and all windows and doors weather stripped, which makes it warm in the winter with a minimum of heater fuel, and very cool in the summer. This place is partly financed at the present time, and the loan can be transferred. All taxes are paid. Good title. For particulars call: THE BAIRD STAR We will be glad to show this place at any time.

FOR SALE — Here is the place for you if you want to own a nice home in Baird, almost new and strictly modern in design. Located near the high school this Austin stone front with large picture window has three bedrooms, spacious living room, large kitchen and breakfast, there are two bath rooms to add to the convenience of this house. Comfortable breezeway as useful as a room. Garage. The lot is 100x140 feet and located with an east front 2 block from school, 2 blocks from paved highway. Built in 1948 under FHA approval, partly financed. For more details inquire at The Baird Star.

WILL WILSON LEADERS PREDICT VICTORY

Backers of Will Wilson, candidate for the Supreme Court, are quick to contend that the district attorney from Dallas is about to become one of the new members of the Texas Supreme Court.

"When voters from all over Texas gave Wilson a commanding lead of more than 85,000 votes in the first primary, they proved their confidence in him," says a release from the Wilson camp. "And as the only veteran in the race, he received the overwhelming support of Texas veterans and their families."

The news dispatch, released from the Dallas office Monday, calls attention to Wilson's fight against organized crime, stating that "Wilson returned from combat in the Southwest Pacific to win a race for district attorney over five opponents and then took the lead in the battle against organized crime. This brought him national recognition. As a consequence he was one of the five district attorneys in the entire United States invited by the U. S. Attorney General to attend a national conference against organized crime."

This week Wilson struck at CIO labor lobbyists by announcing that "On July 31 the secretary-treasurer of the CIO in Austin issued a letter to all members of the CIO—PAC stating that the CIO had committed to the support of Fagan Dickson against Will Wilson."

Said Wilson, "This shows the lengths to which the big labor bosses, who are actively supporting my opponent, will go."

Mrs. S. L. McElroy returned Wednesday from Denton where she attended North Texas State College. Mrs. McElroy took a special course in library work last semester.

CEDAR BLUFF TO HOLD ANNUAL REUNION AUG 27.

Annual homecoming of former citizens of the Cedar Bluff community, 12 miles north of Cross Plains, will be held Sunday, August 27, it was announced by the committee in charge of the arrangements.

The meeting will be opened at 10 o'clock Sunday morning with congregational singing, led by Richard Thompson of Cross Plains. This will be followed by the invocation.

Carl Holsell will deliver the address of welcome and lead a silent tribute to former citizens of the community who have died since the last gathering.

Fred Heyser, who is to alternate with Holsell as master of ceremonies, will introduce guests.

The principal address will be delivered just before noon by Randall Jackson, popular Callahan county attorney.

At noon free barbecue is to be served and basket lunches spread picnic style.

The afternoon program will again be opened by congregational singing, and be followed by a talk by Holsell and a report of standing committees. The main address of the afternoon will be made by H. S. Varner, outstanding West Texas educator. Varner is believed to have taught longer in schools of this area than any surviving teacher.

Other features of the afternoon program will be a song by Rosemary Smartt, accompanied at the piano by Rubell Smartt, a talk by B. C. Chrisman, and the introduction of old settlers.

Before concluding the day's program, officers are to be chosen for the ensuing year and charged with the responsibility of arranging next year's reunion.

MAKES HIMSELF USEFUL

When Little Jimmy Bunkley, age 9, son of Mrs. Emogene Bunkley of Pasadena, Calif., and a nephew of Mrs. Lee Estes, was spending his vacation here this summer, he attended the Presbyterian Sunday School. He noticed that some of the chairs in the Sunday School room needed

repairing, so he proceeded to work them over. He obtained the necessary material and got Ed Fraser to help him, and they both donated their work. This is a fine spirit, and the members of the Presbyterian Church appreciate what was done.

To The Voters of Precinct No. 3 ON THE EVE OF THE RUN-OFF PRIMARY ELECTION

As this is the last issue of the paper before the Run-Off primary election, I do not wish to take any undue advantage of my opponent, nor to cast any last minute reflections as a means of gaining a few votes. I have run the race for commissioner of our precinct on a fair basis, and on my own merits. I believe that my opponent has also kept his campaign on a high plane.

My main purpose now is to extend to all the citizens of Putnam and the entire precinct my most sincere thanks and appreciation for everything that has been done in behalf of my campaign. It was impossible for me to get around to see every individual, which I regret very much, but believe that you know that I was on the job as commissioner and did not use county time for campaign purposes.

If you see fit to reelect me as your commissioner, I will continue to give my best efforts for the good of this precinct in particular, and the county at large.

NEW PUBLICATION
IS BEST SELLER

The American people are principally interested in children, aviation, and gardening, as disclosed by sales figures of U. S. Government publications but officials of the Government Printing Office today made ready to add a new best seller to its list as purchasers lined up at the Government Printing Office Book Store in Washington, and mail orders began arriving from all over the country for the new Atomic Energy Commission publication entitled "The Effects of Atomic Weapons."

This publication contains previously unpublished details on atomic explosions and is of primary interest to persons engaged in civilian defense, the building trades, and all others vitally interested in what happens when an atom bomb explodes.

The book, prepared by the Atomic Energy Commission from nonconfidential, scientific, and technical information, presents the most informative and authoritative data that can be disclosed and is now for sale to the public by the Superintendent of Documents, Government Printing Office, at \$1.25 a copy.

Business Leader With Great War Record Tells How Hadacol Has Rebuilt Him Physically

Was run-down, weak, after service in South Pacific due to deficiencies of Vitamins B₁, B₂, Iron and Niacin

Mr. Donald Hedburg, who resides at 1812 Parker in the fashionable Riverside District of Wichita, Kansas, has been an up-and-coming executive member of the staff of the great Wichita Eagle newspaper for over four years.

Mr. Hedburg has an enviable record of combat with the U. S. Army in the South Pacific in World War II. He is very active in civic affairs. And just as he was anxious to pitch in and do a job during the war—he now wants to help his fellow citizens who (like he was once), are physically run-down and weak due to lack of Vitamins B₁, B₂, Iron, and Niacin in their systems.

Here is Donald W. Hedburg's witnessed statement: "When I returned from service, I faced the problem of rebuilding myself physically. I was in a general run-down condition.

"In my present capacity of advertising salesman for Kansas' greatest newspaper, The Wichita Eagle, it's absolutely necessary that I have plenty of vitality—"get up and go." I had real cause to worry. Nothing seemed to rebuild me constitutionally. Then a friend of mine on the national staff told me about HADACOL—asked me to try at least five. I'm on my fourth bottle—ready I feel like my old look forward to a day's and go home—play with the m—work in the yard—fish at midnight! Thanks again to COL, energy and vitality gain course through every of my body. You bet I too, am a missionary for this wonderful HADACOL." HADACOL gives such wonderful results because it not only supplies deficient, weak run-down systems with all the daily needs of important

The Army's New 'Eager Beaver'

Here's a brand new Army Ordnance vehicle—the "Eager Beaver". The 2½-ton truck, now in full production at Reo Motors' plant in Lansing, Mich., is built for high speed on and off the highway, and is designed to operate normally in sub-zero cold, blistering heat, or with its Gold Comet engine completely submerged in water. Reo has been awarded contracts for approximately 8,900 of them at a cost of about \$55,000,000. In the top panel, the "Eager Beaver" is shown "cruising" in Chesapeake Bay, Maryland.

PIERCE BROOKS CONFIDENT OF VICTORY IN CAMPAIGN

Pierce Brooks, Dallas insurance executive, took his aggressive campaign for lieutenant governor into East Texas this week and told supporters that he was supremely confident of winning the Democratic nomination for lieutenant governor on August 28th.

Brooks said he was greatly encouraged by the tremendous number of pledges of support he had received in East Texas. "The groundswell for Pierce Brooks which started out in West Texas has swept into East Texas," he said. "The people are thoroughly aware of the vital issues in this campaign and the smear campaign launched by supporters of the other candidate has been met with cold resentment."

The Dallas county candidate pointed out the lieutenant governor's office is a business office and that the state's financial affairs, now at their lowest ebb in history, can best be solved by a business man.

"The political experience that has brought the state to the brink of its worst financial crisis in history," Brooks said, "is not the type of experience to get the state out of the present financial mess."

Brooks called upon all Texans who believe in free and clean government to go to the polls on August 28th and vote.

"The people have a choice between two candidates for lieutenant governor," Brooks said. "One, Pierce Brooks, is a business man without any political obligations or alliances; the other is a professional office holder who is being supported by a group of poor thirsty and money hungry individuals and corporations."

The Dallas insurance man will bring his campaign to a close Friday night at Tyler with a statewide radio broadcast over the Texas Quality Network.

Mr. and Mrs. E. L. Reese visited Mrs. Reese's parents, Mr. and Mrs. Robert Cox, at Dublin the past weekend. Edwina returned home with her parents after spending the week in Dublin with her grandparents.

BURLESON FAVORS EXILE OF CONVICTED COMMUNISTS

WASHINGTON, Aug. 15 — Congressman Omar Burleson today offered a Resolution in the House of Representatives, which would direct the Judiciary Committee to consider measures to exile aliens and citizens of the United States who are convicted of crimes affecting internal security.

Burleson's Resolution calls for action which would banish the eleven convicted Communists in New York, and such convicted persons as Alger Hiss, Judith Coplan and Axis Sally to an island in the Pacific. He compares his idea with that of the Islands of Elba and St. Helena, and says he believes that is where such criminals of this type belongs, rather than in our Federal prisons, where they are likely to develop a martyrdom and suffer little punishment.

"These traitors, when convicted by a jury in a Court of competent jurisdiction, should be imprisoned on soil removed as far as possible from the United States. They would like this less than the sentences some receive.

"Further," Burleson said, "It is time we get over the idea that we can have no political prisoners. What difference does it make? — they are traitors and hence, are political enemies and inimical to the best interest of this nation."

"Under more strenuous laws governing subversive activities, we are likely to have a great many of such people on hand. Aliens can be deported, but American citizens cannot. They can and should be put out of this country, and this is the only way to do it," Congressman Burleson said. "I saw some places in the Pacific during the war which would be ideal for this purpose, and little expense would be involved.

"We now have several customers for such a place, and if war should come with Russia, we will have a situation incomparable with anything we have ever faced before in quickly ridding this land of such treacherous elements."

Burleson said he is supporting the strongest measures possible to further curb Communist activities, several of which will soon be brought before the Congress. "There was a time when traitors were put to death, and it is difficult for me to divorce some of these acts being perpetrated by subversive elements from acts of treason," Burleson said.

HEALTH FACTS

AUSTIN — City fathers in 3 Texas cities, by artificially adding fluoride salts to their municipal water supplies, are making the dream of fewer tooth cavities come true.

Corpus Christi and Marshall have fluoridation systems working now. Austin has one in the installation process.

If things go according to plan, children in these towns will be spared easily half the visits they now have to make to their family dentists, because they'll have fewer cavities.

State Health Officer Geo. W. Cox describes the fluoridation process as a "tremendous step forward in the fight against dental diseases. It's simple and inexpensive, as well as effective."

"It won't be a cure-all," cautions Dr. Edward Taylor, director of dental health at the State Health Department. "It won't give children complete protection against tooth decay, but it will reduce decay from 23 to 47 percent."

He said that range of reduc-

tion percentage had been established in departmental experiments with artificial fluoridation in Marshall.

The addition of the chemical to drinking water in the ratio of 1 to 1.5 parts per million parts of water now has been recommended as a decay control measure by the United States Public Health Service, the American Water Works Association, and the Association of State and Territorial Dental Health Directors.

Recommendations are subject to approval of state and local health departments, which has been granted in the case of the three Texas cities.

Marshall began artificial fluoridation in 1946 in a controlled experiment and was a leader in the field both nationally and locally. Corpus Christi began the

IT'S TIME for BROOKS! Because...

Something must be done now about the runaway cost of our state government—a cost which has increased more than 500 percent in the period between 1935 and 1950. Aside from the cost of World War II, the cost of the Federal government did not increase that much during the same period.

With the State plunging wildly towards a financial crisis, the Lt. Governorship is a business rather than a political office. It needs a business man with a business viewpoint.

Only by the election of a business man can the people of Texas be assured of a direct and vigorous attack on this runaway cost, useless waste, and needless extravagance in our State government.

Only a business man who has not been a part of the system which spawned this era of waste and extravagance can give the problem that searching inquiry and impartial analysis needed now. Pierce Brooks is that man.

The next Lt. Governor of Texas should be above any internal friction, beyond all cross currents of politics, and completely judicial when clashes of personalities arise among members of the Senate. He must be in a position to treat them all alike, to be fair to each, and also to be true to his obligations to the people. Pierce Brooks meets these tests.

Pierce Brooks is the only candidate completely free from the entangling alliances, political obligations, cliques, clans and groups which grow up when men stay in office too long.

The Lt. Governor to be elected in 1950 should not come from the confused atmosphere of the State government, but direct from the people with a program for the people. Pierce Brooks is such a man.

In these crucial times the next Lieutenant Governor should be answerable to the people of the State and not to any group of special interests that has made millions of dollars off the taxpayers.

Pierce Brooks for Lt. Governor

SCRATCH DALLAS CAMPAIGN SWEEPING THE STATE

The country boys' campaign to "scratch Dallas" in the Aug. 26 run-off election is sweeping the state, Chairman Emmett Alexander of Marble Falls said today.

FIFTY HIGH SCHOOL BANDS WILL APPEAR AT STATE FAIR

Fifty of the best high school musical organizations in Texas will take part Oct. 18 in the mammoth Mid-Century Music Festival of the 1950 State Fair of Texas, James H. Stewart, executive vice president and general manager, has announced.

The most colorful and tuneful event of its kind ever presented in the Southwest, the festival is sponsored jointly by the State Fair and the Texas Music Educators Association. About 4000 young musicians will be on hand.

Each individual unit will play or sing a 20-minute concert some time during the day. Concerts will be under way simultaneously at three different places on the 187-acre, \$35,000-000 showgrounds.

Band members will "do the fair" when not performing and will be guests of the State Fair for the evening meal.

A huge massed orchestra concert will be given at 5:30 p. m. in front of the Hall of State and all bands will march and play in the gigantic Parade of the Decades, which will be a nightly feature of the 1950 Fair.

The mile-long parade will begin at 7:30 p. m. on Oct. 19. In the Cotton Bowl at 8 p. m., the combined choruses, bands, and out-of-state units will stage a free massed band and choral pageant, including playing, singing and marching by the combined musicians.

Following the pageant, a fireworks display will be presented.

The following cities are expected to be represented by orchestras, bands or choruses at the Mid-Century Music Festival: San Benito, Harlingen, Temple, Mesquite, Richardson, Lancaster, Baytown, Beaumont, Texas City, Houston, Huntsville, Conroe, Denison, Vernon, Odessa, Gonzales, Brownfield, Borger, Tyler, Greenville, Corpus Christi, Beeville, Kermit, New Braunfels, Fort Worth, Abilene, Amarillo, San Angelo, Austin, Sherman, Graham, Gladewater, Plainview, Littlefield, Mason, Spring Hill, Schulenberg, McCamey, Iraan, Raymondville, Denton, Bowie, Bishop, Laredo, San Marcos, Archer City, San Antonio and Dallas.

Outstanding bands have also been invited from Searcy, Ark., Enid, Okla., and Vivian, La.

THE DOOLINS OF OKLAHOMA COMING TO RIO THEATRE

Out of the dramatic pages of the break-up of the great Western rangelands, doomed by the opening of the Oklahoma Territory, has been fashioned a raw and raging film, crowded with dramatic incident and violent action in Columbia's "The Doolins of Oklahoma." The James Boys and the Dalton Brothers have been pictured in films; now the true, unvarnished story of the Doolin Gang has been brought to the screen, opening at the Rio in Clyde, on Friday and Saturday.

Their sway was unchallenged until U. S. Marshals led by Macready swept into action and forced the Doolin Gang to take temporary cover. Scott, meanwhile, had married and was reluctant to return to a career of outlawry but the others forced his hand by exposing him as the notorious Doolin. Their depredations were doomed as the marshals cornered the gang in what turned out to be Doolin's last stand. The large-scale gun action between the marshals and the Doolins is a compelling climax.

Scott, as the cowboy turned outlaw, makes a vigorous leader of the gang. Macready, as his antagonist, delivers an assured portrayal of the steely, determined marshal; Miss Allbritton makes an attractive dance hall girl in love with Ireland, one of the Doolins; Miss Huston is properly wistful as Scott's wife, while Kemper makes a colorful outlaw.

Dr. C. A. Davis, Hobbs, N. M., wrote The Star editor this week to order The Star sent to him for the coming year. His letter, in part, follows: "I just came back from the old settlers reunion east of Baird on Deep Creek and had a wonderful time; saw people I hadn't seen in forty to fifty years."

C. N. Brown wrote the editor from Marathon this week to have The Star and Frontier Times renewed for another year.

DUCK DATE SEASON CHOICE MADE

AUSTIN — The Executive Secretary of the Game, Fish and Oyster Commission said Saturday that the annual fall waterfowl season in Texas will open Friday, November 3, and probably last 45 days.

This is not the date preferred by the Commission for the whole state since it voted at its May meeting for a zoning plan to benefit the widely separated north and south parts of the state. It proposed November 10 for the opening date should the zoning suggestion fail.

The Fish and Wildlife Service, which sets the shooting periods, rejected the Texas proposal and then gave the Commission the choice of either November 3 or November 17 as the opener for the entire state.

Since liberalized Central Flyway regulations are in prospect, a slightly higher bag limit on ducks is considered likely. The limit on ducks last year was four per day per hunter and eight in possession. The Commission at its July meeting requested that both the daily bag and possession limits be set at eight ducks. It is believed that the limit may be placed five per day and ten in possession.

The limit on geese has not been indicated. Last year Texas hunters could bag five geese a day but could have no more than five in possession.

At its May meeting, the Commission voted for a zoning system whereby the hunters in the Panhandle would be permitted to shoot earlier in conformity with the seasons in Oklahoma and New Mexico which frame the extreme northern area of Texas. But the Federal authorities ignored this proposal. The apparent theory was that having two seasons in one state would place an extra burden on the waterfowl since the hunters themselves might become migra-

tory, moving from one part of the state to the other to take advantage of the varied season dates.

In 1949, Texas had a split duck season of 36 days, dating from November 4 to November 21 for the first half and from December 21 to January 7 for the last half. The Executive Secretary explained that this arrangement did NOT suit most of the hunters because of the full-months spread between the shooting periods.

"It's the same old problem," said the Executive Secretary. "In a state as big as Texas, which really covers as much area as the average three states, we have extreme difficulty adjusting our hunting needs to the restrictions applied by the Fish and Wildlife Service."

"An early winter in the north that sends the ducks and geese

down sooner could give all Texas hunters a break. Always we must keep the ducks' angle in mind. The birds must be safeguarded or else we will have no duck hunting at all."

NEW MEDICAL DISCOVERY RELIEVES PAIN OF RHEUMATISM, ARTHRITIS FOR ANY PAIN AT ALL-USE RUMADOL THE DEVELOPMENT OF YEARS OF SCIENTIFIC MEDICAL RESEARCH

RUMADOL is the result of many years of Medical and Scientific research. Its development is based on the combined action of both Calcium Succinate and Salicylate therapy. Succinate therapy is predicated

on its role as a physiological respiratory catalyst correcting the impairment of tissue oxidation which is a major aspect of the systemic disorder in Arthritis.

Tests Prove 95% of 396 Cases Tested Received Welcome Comforting Relief . . . Many Recovered Completely in 14 Days

A thorough study of 396 cases of Arthritis in many forms brought relief with regard to the effect on pain, stiffness, swelling, tenderness, limitation of motion, functional capacity, sedimentation rate, fever, leucocytosis, hemoglobin and X-Ray findings.

The results were astounding. In 95% of the cases of Osteoarthritis recovery was such that no further treatment was necessary after only 8 weeks . . . except reduced doses for 12 weeks as prophylaxis against recurrence. No residual carditis.

In all cases of acute infectious arthritis, all cases recovered promptly and completely. After 14 days no further treatment was necessary. No residual carditis.

All cases of rheumatic fever promptly re-

covered without residual carditis. After 21 days no further treatment was necessary in any case.

Based on this research, doctors, hospitals and clinics are using this formula in ever increasing quantities. It is being prescribed in private practice and the medical profession welcomes this fine formula in the treatment of Arthritis, Rheumatism, Sciatica, Rheumatic Fever, etc.

Over 100 references to every phase of this development were used by the author of his research and study on Arthritis and the other diseases tested in this work. Many of these outstanding articles and other scientific data were by eminent Doctors, Chemists and other outstanding authorities from countries all over the world.

Third of Hens Non-Producers in Summer

IT HAS BEEN ESTIMATED that one out of every three hens go out of egg production during July, August and September. Since egg prices are usually lower during the summer months, non-producing hens, consuming approximately 25c in feed each month, cut down on the profit margin of the poultryman. Some 8,000 Purina dealers and their employees will call poultry flocks this summer. (In Fears (center) Purina salesman, is showing Cooksey Crafton, feed dealer, and Artis Jennings, poultryman, how to tell when a hen is a good layer.
