LARGEST APPLE FARM. There Are Over Four Hundred Acres

Leavenworth, Kans., April 21.-The rospects for a big fruit crop never looked brighter than at present in Kansas. Apples, peaches and all kinds of fruit trees passed through the winter without injury from freezing, and the budding and blossoming is coming along nicely. So far there has not been the

slighest injury from frost. The planting os several large orchards is now in progress in this section of the state. A force of men, mostly veterans from the soldier's home, are working planting 12,000 apple trees on the farm of ex-Governor E. N. Morrill, south of here, near Leavenworth and Wyandotts

There have been 450 acres of this farm set out in apple trees within three years, and in two years more there will be 80d acres of land in one body in apple trees on the farm. It will be the largest apple orchard in one body in the world when completed. At present the rows of apple trees are one mile and a quarter long

They are 16 feet apart and straight. The 12,000 trees are planted under the supervision of Francis Goble, an expert norticulturist. Most of the trees are o the Jonathan, Ben Davis, Willowtwig, Missouri Pippin and Winesap varieties. Those planted this spring are expected to bear a light crop in three years.
