PEEP SHOW—For Ladies Only—

BY MIGNON The heart must overflow To give the lips full speech How can it be much else When here within my reach The maples shower gold About my gypsy feet, That want to skip and dance? They just can't be discreet.

Isn't it wonderful that your conscience tells only you? It would ruin you if it got out and told others. "There was a woman at the beginning of all great things," said Lamartine.

People once talked about, "The lamp of my experience" but I suppose that was before the "voice of experience" got mixed up in the static.

"Pageantry of Thought" by Gertrude Major, Enid, Oklahoma, is everything that the beautiful title would lead you to expect. It is beautiful in symmetry and format, the binding is dainty with gold lettering and it was published by those artist-craftsmen, Nina Pond and her husband Carl, at the Medford Patriot Star office at Medford, Oklahoma. An Oklahoma book that is "of the people, by the people and from the people" in every sense of the word.

The book is divided into seven groups, "Lig's Tapestry," "Nature's Melodies," "Dyphs," "Remembering These," "Vignettes and Shorties," "Humorists" and "Little Pitches."

From the divisions the reader gets a little insight as to what is to follow, yet every line is so replete with loveliness that they must be read over and over for the sheer joy of discovery. The last group is dedicated to Mrs. Major's children and are most interesting to the grown-up as well as the child. The preface is written by Helen McMahan, former State Chairman of Poetry and one of the outstanding poets of the Southwest. Her lines are lilted and joyful and full of the music which is Helen's very breath of life.

The foreword is written by Bess Truitt, who is another Oklahoma woman who is going far in the literary world and who at present is the State Chairman of Poetry. Miss Truitt has the happy faculty of knowing the exact words to string together until any line of hers, whether poetry or prose, is as pearls for a rare necklace. It is a delightful combination to have these two winged pens to introduce Mrs. Major and her lovely poems to the lovers of real poetry.

Mrs. Majors was reared in Iowa but came to Oklahoma as a young lady and was schooled at Phillips U. She holds a B. A. and a B. S. degree and is working toward her Masters in the summer when her school is out for vacation. For this versatile lady has taught primary in Enid for twenty-four years. No wonder she knows the hearts of a youngster and can reveal it to her reader as she does in "Little Pitches." She is a member of the Oklahoma Writers, Oklahoma Poetry Society, A. A. U. W. and of the Enid Writers' club. Her hobby seems to be winning prizes. She has won them left and right and going and coming and not only writes poetry but essays and is busy finishing a novel.

It is so true in Mrs. Major's case that the more one has to do the more one can do. If you like

singing lines of delicate thought, if you like to see the silver shuttle which weaves the gorgeous colors together to make the tapestry of life then read "Pageantry of Thought" address the author, Gertrude Major, 311 N. Jefferson, Enid, Oklahoma. Price \$1.25.

## Elixir Taken by 3 Brownwood Persons Shows No Effect

Before the local supply of drug was recalled by the manufacturer last week, three Brownwood people had taken doses of an elixir containing a medicine of the American Medical Association says has caused 36 deaths in United States this year. Dr. H. L. Lobstein, county health officer, said the local people took the medicine apparently fearing no ill effects. Sufficient medicine has passed since they took medicine to determine whether it would be harmful to them. Two local drug stores had a supply of the medicine, but with telegraphic requests to it back to the manufacturer.

## CONGRESSMAN—

(Continued from Page 1) "If a tenant farmer moves town and goes on relief, the farmer, whether it wants it or not, has some responsibility which would cost the government money to offer a fair inducement to both landowner and tenant would keep him on the farm, to undertake to provide for after he has moved to town a on relief. "Again, the payment should be larger, I believe, to the man who rents, say a thousand acres to families than the man who owns a thousand acres to one man. benefits should also be on a square scale to the man who farms 100 in cotton, and in opinion the government should very little to the man who farms 10,000 or 14,000 acres in cotton. "Something like the domestic allotment may be included, paid subsidy on cotton consumed in United States, up to the point compensation for the expense tariff heaped upon the farm back.

**Estimates Reduced**  
"The bill will likely call for between 27 and 29 million acre was thought that two million could be added to that allotment but more recent estimates cut that down, due probably to fact that, with soil conservation the land in cotton is now more per acre on the average it did before."

In the course of his later cussion South predicted that Secretary Wallace's ever-normal gary plan would be included in farm legislation, establishing a ten of warehouses over the country to store surplus grain in time overproduction, for the benefit both producer and consumer.

"There are more leaders connected with our government today, including the President, favorable agriculture than we have had Washington in the past 40 or years at least. Even the representatives from the industrial I have recognized that if the far is to keep in the market for goods he must have a fair return for his products."

## RED CROSS—

(Continued from Page 1) and 57,000 families, composed 436,000 individuals, required to begin life anew. The first appeal for help was sounded the Red Cross when 275,000 people were praying for help. Through the local chapters a fund of \$25,780,000 was raised and spent to save lives and start them again in life.

"We are glad our local Red Cross chapter could help. Our appeal now is that we may be able to help more this year by means of our people enrolling in the annual roll call. Also keep in mind that fifty per cent of the money secured from the roll call is kept in Brown County Red Cross chapter to be spent in our county. Emergency needs. We had more such calls last year than our fund could possibly supply. Over people have agreed to take part in this annual roll call. So we feel that every home and business will receive with utmost courtesy workers as they solicit your membership.

"The roll call will begin Tuesday morning, November 2, and completed in two days, if our plan carry out. It is hoped that every home where it is at all possible will see that a Red Cross sign in their window indicating being enrolled as a member of the Red Cross. Also we trust that every business firm will endeavor to secure as many memberships as possible. It will not be the business of the committee members to give any one taking out membership, but rather give every citizen the opportunity. Let us Brown county back to her former high enrollment."

### Studying in Hollywood's School for Stars

Pencils poised and notebooks ready, four of Europe's most beautiful young women and two continental actors, are pictured above as they become just pupils again, knocking down to the tough task of mastering English under direction of their teacher at a Hollywood movie studio. Those shown in the star-class, left to right, are: Tilly Losch, Charles Igou Garin, Lionel Royce, Hedy Lamarr, Mrs. Ruth Roberts, the teacher; Della Lind and Rose Stradner.

### 1937 Farm Income Reveals Increase Over Last Year's

Farmers received \$64,999,999 more for their products in September than in the same month a year before, figures just issued by the Bureau of Agricultural Economics show. Corresponding totals are \$816,000,000 and \$766,000,000. Cash income from marketings the first nine months of this year gained \$609,000,000 over the year before—rising from \$5,222,000,000 to \$5,825,000,000. These figures are exclusive of benefit payments, which

increased total income to \$6,175,000,000.

September farm income was 81 per cent of the 1924-29 monthly average, compared with 85 per cent in August and 77.5 in September a year ago. Failure of income to make the usual increase over August, the bureau reports, was due to a more than seasonal decrease in income from grains and a less than usual increase in income from cotton and cottonseed, as well as from some fruits and vegetables. Many of these products declined sharply in price from August to September and were not accompanied by sufficient volume gains to offset the drops.

### NEW WELLS SPURRED IN BYRDS TERRITORY

Activity in the Byrds oil field north of Brownwood was heightened this week with the spudding of two new wells and announcement that another location will be made within ten days.

Ungren & Frazier of Abilene have Nine months' farm income this year was divided thus: All crops \$2,655,000,000; livestock, \$3,170,000,000; and rental, benefit and conservation payments, \$350,000,000. Total, \$6,175,000,000.

spudded a test in the center of the northwest 40 acres of section 88 of H. T. & B. R. R. Co. survey. The well is being drilled on a block assembled by R. M. Ragsdale of Brownwood, Pitzer and West of Breckenridge also have evidenced interest in the test, which is three-quarters of a mile due south of the Ragsdale No. 1 Taber, discovered well in the area.

S. B. Roberts, J. E. Whiteside and R. M. Ragsdale have spudded a test in the center of the 320-acre A. O. Angle tract, Garvin survey, 3 1-2 miles northeast of No. 1 Taber.

Both wells are tests of the Ranger lime at around 2,505 feet. The Jimmie Cox et al well on the Nichols, after bailing live oil in the Ranger lime at 2,500 feet, will drill deeper to test the lower Ordovician at around 2850 feet. If no production is obtained in the lower formation, the well will be plugged back to the Ranger lime and acidized.

Indiana Oil Company No. 1 on the Moore tract, J. J. Moore survey, is drilling at 1,750 feet and is expecting to top the Caddo lime. The well is 1,900 feet south and 650 feet west on No. 1 Taber. Formations in the well are running about 15 feet higher than in the Taber well.
