

## Criticism Made Against Cattle Program Unjust

County Agent Points Out Technicalities Which Slow Up Purchase of Cattle.

County Agent C. W. Lehmburg last week issued the following statement relative to the cattle purchases in this county:

Undoubtedly the biggest underlying the Agricultural Adjustment Administration has undertaken in bringing relief to the farmer and ranchman, is the cattle relief movement. This movement has grown to such proportions where at the present time the A. A. is handling approximately 1,000,000 cattle monthly.

The weekly quota allotted Texas 1,000 head live cattle to be delivered to the government. A quota of 150 head per day for a period of three days per week or 450 head per week has been allotted to Texas county within the 15th area.

In Brown county over 13,000 head of cattle have been listed for sale to the government. Of this number the government has bought 11 head to date.

An immense program is before us and it will require the closest cooperation of all parties concerned in order to handle it in an efficient and just way. In order to make the program function efficiently and effectively community committees were elected at a public hearing two weeks ago whose duty it will be to assemble the cattle in their respective communities in centrally located places, to find out about the best places to keep the county drouth stock informed of the true status in each community. These community committees have accepted the responsibilities of this wholeheartedly and have the well in hand and are giving county drouth director, the permanent inspector and appraisers their wholehearted cooperation.

Because of the congested conditions in the large packing centers shipping points over the county, buying and shipping of cattle has been slowed down considerably.

This has caused some people to become very impatient and to lay the blame on those in charge of the work in the county. Those who are inclined to become impatient and to criticize the men in charge of this work should remember that in this as in all government work, set rules are sent from the Washington office, and no government employee can change or override. They should also ask themselves this question, "What would we do if government had not come to the assistance of the cattle raiser by offering to pay a good price for our cattle at this time?"

We have had a drouth similar to this before and people had to travel their cattle long distances to get or haul water for their cattle and were glad to do so. Now the government steps in to help them, many are grumbling and criticizing because the government does not handle these cattle in their personal whim.

Every cattle raiser in the county is asked to keep in close touch with his committee man and keep informed as to the actual conditions in regard to the water and the situation, but certainly should not try to make matters worse than they really are or undue pressure to bear in order to get their cattle in first.

This is a distress measure and in order to handle the most distressed in the county first. Under ordinary conditions the man who drives his cattle to water or water at a reasonable distance

## GOVERNMENT WILL LEND 12 CENTS ON FARMERS' COTTON

Another Government loan on cotton to help the Southern farmers—12 cents a pound this time—was authorized this week by President Roosevelt.

The announcement was made just before Roosevelt left Washington for the Midwest to attend the funeral of Speaker Henry T. Rainey. The President said he had "requested the Reconstruction Finance Corporation to make funds available to the Commodity Credit Corporation that will enable it to increase its lending from 10 to 12 cents a pound on cotton, classing low middling or better, which is and has been continuously in the possession of the producer."

This means that any cotton grower, if he does not wish to sell his staple at this time, may borrow 12 cents a pound from federal agencies on the commodity.

Detailed regulations were not announced. Officials said that in all essentials they would follow those governing the 10 cents a pound loan last year.

If the same regulations apply, the Government takes the risk should cotton go below 12 cents and stay there. Should the price climb during the season, the grower may repay the loan, sell his bales and pocket the profit.

## SHERIFF'S RAIDS STOP BEER SALES

Sheriff Jack Hallmark resumed his war on Brownwood and Brown county "beer joints" Saturday when he raided a large number of beer selling establishments in the city. Only two places were found in operation by the raiding officers and the men in charge of these establishments were arrested and charged with possession of intoxicating liquor for purpose of sale.

"Shine" Bailey and Gay Meadows were the men arrested. Bailey was taken into custody in the beer garden in the back of Shorty's Cafe on Center Avenue and Meadows was arrested at his home. Mr. Hallmark confiscated 156 bottles of 3.2 beer at Bailey's place of business and took 23 bottles of the beverage at Meadows' place.

Bailey has been released on a \$1,000 bond and Meadows was freed after making a \$500 bond.

Sheriff Hallmark and his deputies visited the beer joints Friday before he made the raids on Saturday and warned one and all to quit selling the beer. All had closed down as ordered with the exception of the two men arrested, Mr. Hallmark stated.

## Banner Manager Is Father Of Baby Girl

A fine 8 1/2 pound baby girl was born Wednesday morning, August 22, to Mr. and Mrs. John Blake, at Medical Arts Hospital, Brownwood. Mr. Blake is business manager of The Brownwood Banner.

The young lady has been named Joann. She and her mother are resting well.

## STATE HIGHWAYS TO BE REDESIGNED

Effective September 1, several changes of highway designations on highways crossing Brown county will be made. The changes in designations were announced this week by state highway department officials.

Under the new designations, Highway No. 129, from Brownwood to Rising Star, will become Highway No. 23 and will be from Cisco to Rising Star to Brownwood, thence to Brady and Menard. Present Highway No. 23 extends from Cisco to Rising Star, to Coleman and to Ballinger but this highway will be known as Highway No. 206 after September 1st.

Present Highway No. 10 from Brownwood to Brady and to Menard will be part of Highway No. 23 in the future and No. 10 will be routed west to Alpine. From Brownwood No. 10 will follow No. 7 to Coleman, thence on No. 23 to Ballinger, on No. 30 to San Angelo and will follow No. 99 from San Angelo to Big Lake, Fort Stockton and Alpine and perhaps to Presidio on the Mexican border. The new designations will make Highway No. 10 a cross state highway from Whitesboro via Denton, Fort Worth, Brownwood and Alpine.

There will be no changes in the route of Highway No. 7 which enters Texas at Shreveport and follows a direct course to Waco, Brownwood and points west.

The Chamber of Commerce's part in getting Brown county designated for emergency drouth relief was also outlined by the secretary.

British film interests have decided to present Shakespearean plays in the talks.

## Cattle Feed on Trees Felled in Drouth Stricken Area

With pastures seared and grain crops falling in the record drouth which has gripped the nation for months, Missouri farmers are felling trees, so that their famine-menaced livestock may have green fodder. Here is a scene in Adair county, where cattle are eating leaves from a tree cut down in a field by a farmer.

## PECAN GROWERS TO MEET IN BROWNWOOD TUESDAY, AUGUST 28

The summer meeting of the West Texas Pecan Growers Association will be held in Brownwood Tuesday, August 28, according to an announcement this week by H. G. Lyles who is in charge of arranging plans for the meeting.

Inspection of pecan work being done at Brownwood by the government experiment station and discussion of the proposed marketing agreement and surplus control plan under the Agricultural Adjustment Association will be the features of next week's meeting, it is stated.

Report of the committee on the marketing committee, appointed at the state pecan growers session in July at Stephenville, will be heard Tuesday. The committee includes A. C. Easley, of Waco, E. C. Butterfield, of Winona, W. S. Price, Jr., of Gustine, Mrs. J. M. Klingeman, of New Braunfels, and Jack Shelton, of Luling.

J. N. Del Curto, of the state department of agriculture, will attend Tuesday's meeting. W. D. Simms, of Waxahachie, also a representative of the state department, is also expected to attend and a representative of the AAA has also been invited to be present.

The meeting Tuesday will begin at 10 a. m. at the courthouse and the program will be completed by noon. During the afternoon field trips will be made to experiment stations located near Brownwood as well as to nearby orchards.

## C. OF C. DIRECTORS HEAR REPORTS ON TWO MONTHS WORK

Major activities of the Brownwood Chamber of Commerce during the past two months were outlined to the board of directors of the organization at a luncheon Wednesday noon by Chester Harrison, secretary. The directors had not met officially during the period covered by Mr. Harrison's report. The regular weekly luncheons of the directors will not be resumed until September.

Work of the organization in securing the location at Lake Brownwood state park of a 250-man CCC camp, the obtaining of information on the difference of gasoline prices in Brownwood and nearby cities and a number of trips to Austin in the interest of highway work in the county, were some of the projects on which Mr. Harrison reported Wednesday.

The CCC camp has been definitely obtained for a one year period and will be moved to the state park as soon as a sufficient water supply for the camp can be provided.

Mr. Harrison stated that he expects to obtain a reduction in gasoline prices in Brownwood, making the price here conform with prices in other cities of this section of the state.

One of the trips to Austin by Chamber of Commerce officials, along with county commissioners and County Judge Courtney Gray, resulted in the securing of an allotment for the paving of seven miles of the Brownwood-Cross Cut road. Mr. Harrison pointed out in his report.

The Chamber of Commerce's part in getting Brown county designated for emergency drouth relief was also outlined by the secretary.

British film interests have decided to present Shakespearean plays in the talks.

## CAMPAIGNING ABOUT OVER AS SECOND PRIMARY DATE DRAWS NEAR; HEAVY VOTE EXPECTED

CAMPAIGNING days are all but over for candidates seeking the favor of the Democrats in Saturday's run-off primary and within a very short while those seeking to serve the public in state, district, county and precinct offices will know their fate. Returns from the July primary eliminated all but the two highest candidates in each office and Saturday the electorate will make their choice between those left in the running.

Several state, district, county and precinct races were definitely determined in the first primary and as a result the ballot for the run-off election has been greatly reduced.

Much interest has been shown throughout the state in the contest between James V. Allred and Tom F. Hunter for the governorship. Equally as much interest has been taken in the campaigns waged by Senator Walter C. Woodward and William McCraw for the Democratic nomination at attorney general.

Two County Races. Only two county races will be decided by the voters Saturday, these being between Lee Meek, present tax collector, and Winston Palmer, who led the primary ticket in the race for the new office of tax assessor-collector, and between I. C. Mullins, incumbent, and Sol Baker, of Blanket, for county treasurer.

The official ballot for Saturday's run-off election follows:  
For Governor:  
Tom F. Hunter of Wichita County.

For Lieutenant Governor:  
James V. Allred of Wichita County.

For Attorney General:  
William McCraw of Dallas County.

For Railroad Commissioner:  
John Pundt of Dallas County.

For Associate Justice of the Supreme Court:  
John H. Sharp of Ellis County.

For District Attorney, Thirty-Fifth Judicial District:  
J. C. Darroch of Coleman County.

For Representative One Hundred Twenty-Fifth District:  
J. W. Golsen of Coleman County.

For Tax Assessor—Collector:  
Lee Meek  
Winston (Wink) Palmer

For County Treasurer:  
Sol Baker.

For Commissioner Precinct Number One:  
E. S. Thompson.  
Lawrence Moore.

For Commissioner Precinct Number Two:  
James W. Phillips  
H. I. Stapp

For Commissioner Precinct Number Four:  
Chas. H. Butler  
Chas. B. Palmer

For Public Weigher Precinct Number One:  
L. M. (Malcom) Collier.  
C. H. Doren.

## STATE FARM DEBT GROUPS WILL HOLD DISTRICT MEETING

A district meeting of county chairmen of the Texas Farm Debt Conciliation Committee, will be held in Brownwood, at the district court room, at 2:30 Friday afternoon, August 24, it was announced this week by J. H. Brown, county chairman for Brown county. The meeting was called by R. J. Murray of Austin, state chairman, who will preside.

Mr. Murray will be assisted by E. A. Tweedy, district supervisor. The meeting is for all county chairmen, and all others interested in agricultural debt adjustment.

Representatives of the Farm Credit Administration and of the Federal Land Bank have been invited to be present, and are expected to be on hand.

Chairmen from Brown, Comanche, Hamilton, Erath, Eastland, Callahan, Coleman, Mills, San Saba, McCulloch, Concho and Menard counties have been instructed to be on hand for the meeting.

## ALL CANDIDATES TO HAVE INNING AT BIG RALLY FRIDAY NIGHT

All candidates for state, district and county office are invited to speak or have representatives at an all-candidate rally to be held Friday night at Memorial Hall. It was announced this week by A. W. (Gus) Slaughter, who is arranging details for the candidates.

A number of district candidates will be present. Mr. Slaughter stated, and all county and precinct candidates are expected to be on hand to present their claims to the voters of the county.

Mr. Slaughter will speak in the interest of County Judge Courtney Gray, candidate for representative, whom he opposed in the first primary.

City Water Still Good, Tests Show. Brownwood's water supply continues to test, "good and free of contamination", according to reports from the water department of the State Department of Health, says Dr. J. M. Horn, city health officer. Sample of water were taken from the mains in various parts of the city last week and sent to Austin and the favorable report was received last Saturday. Samples of the water are sent to Austin at regular intervals and the public has been and will be kept informed of the condition of the water, Dr. Horn states.

City officials have repeatedly pointed out that any rumors that the city's water supply is not pure are entirely without foundation. Dr. Horn also commented on the mad dog scare in the city and stated that the situation seemed to be well under control. He advised that if anyone is bitten by a dog suspected of having rabies that the dog be penned up for observation rather than be killed at once.

City police have continued their relentless war against stray dogs and cats. Scores of these animals have been shot down the past week and police are sparing none. Owners have been warned to keep their dogs and cats off streets and if found running loose, police kill them without asking questions.

## Former Brownwood Man Dies In Fall

Ansel Prather, a brother of Mrs. T. W. Eaton and Mrs. H. A. Vaughn, of Brownwood, and Mrs. R. Morrison, of Zephyr, was killed when he either fell or jumped from the tenth floor of an El Paso hotel where he was formerly employed.

Prather formerly lived in Brownwood and attended public schools here. He worked as a bellhop at the Southern Hotel before going to San Angelo about five years ago. He worked in a San Angelo hotel before going to El Paso to accept a job in a hotel there.

Funeral services for young Prather were held in San Angelo. A brother, Joe Prather, of San Angelo, also formerly lived in Brownwood and was employed at the Southern Hotel.

Inland stream pollution, for which there is no federal regulatory agency, is regarded as the greatest menace to commercial fishing in the United States.

## New Requirements For Skilled Workers By Relief Board

A new plan for classifying budgetary workmen from relief rolls has been announced by E. A. Baugh, chief engineer of the Texas Relief Commission, to apply in Brown and other counties.

Any workman will be classified as a skilled workman when he produces at least two letters from former employers who state in those letters that he has worked for them as a skilled laborer in a certain craft and that his work as such was satisfactory. In lieu of such letters, evidence of paid up membership in a recognized labor organization will be accepted as evidence that the workman is entitled to a classification as a skilled mechanic.

The new procedure developed because many counties reported difficulty in classifying workers as to skilled, semi-skilled, or common laborers until after the men have been on the job and have shown what they can do.

## MORE THAN 400 AT WORK ON PROJECTS IN BROWN COUNTY

More than 400 persons on the relief rolls of Brown county have been employed on work relief projects this week, according to figures released by C. E. Boyett, relief administrator. Work cards were issued to 440 during the week as compared to 367 for the preceding week.

Projects in progress include road work in the four commissioners precincts, work on Lake Brownwood park, clean up work at the federal pean experiment station, the government canning plant in Brownwood and the loading of drouth distressed cattle purchased by the government. A few women have also been assigned to rebinding books at Carnegie Library.

Brown county has received a total of \$18,000 for relief projects during August, this amount being allotted the county by state relief officials.

## Ex-Service Men Are Asked To Register

The Child Welfare survey, being conducted by the relief association and which includes a survey of all ex-service men in the county, will be completed next week, it was announced.

The survey has been enlarged to include all ex-service men and women, whether heads of families or not. Previously ex-service men without families had not been included in the survey.

An enumerator will be at the office of J. A. Collins Typewriter Exchange, on Baker street, all day Saturday, and all ex-service men and women who have not been included in the survey are requested to call by the office Saturday and give the information requested.

## Legion Post Will Install New Officers

Isham A. Smith post of the American Legion will formally install recently elected officers on September 7, according to plans completed at the last regular meeting of the post. Joe Blagg will be installed as post commander and others elected for 1934-1935 will be inducted into office at the same time.

State Commander M. J. Bennefield, of Brady, and other state officers will be invited to attend the installation ceremonies.

The child health survey, which includes a survey of all families of ex-service men, was explained by O. H. Turner, division commander, at the last meeting of the Brownwood post.

## First Bale At Bangs

The first bale of cotton for the Bangs community was grown by I. C. Browder and was ginned last week. It was classed as strict middling.

According to reports from Bangs the cotton in that section will make from one-eighth to one-fourth bale to the acre, which is better than the estimated average yield over the entire county.

ON TEXAS FARMS

Gilmer—"The problem with my fruit trees this year will be pruning the limbs again for many of them have been so overloaded that they broke." W. C. Fowler, of the Indian Rock community in Upshur county, told the farm demonstration agent, W. M. Burkes. Mr. Fowler followed the spraying schedule outlined by the agent, and it is this that he attributes the healthy condition of the trees, and the bumper crop.

On account of the drought the fruit is smaller than it normally would have been, but due to torfences to conserve moisture, spraying, pruning and proper cultivation Mr. Fowler has made a profitable crop from his orchard. He has customers coming from eight to ten miles for peaches.

San Benito—J. J. McCarthy of Rio Hondo in Cameron county has found that it paid him \$200 per acre more to plant good tomato seed on his farm than to plant cheaply priced seed, according to Henry L. Alsmeyer, farm demonstration agent. Mr. McCarthy planted two fields to tomatoes this year, one with good seed and the other with a cheaply priced seed. The value of the yield from the good seed exceeded the value of the yield from the cheaper seed by more than \$200 per acre. Next year Mr. McCarthy will plant only the best seed that can be bought.

Childress—Three carloads of good seed wheat have been bought by farmers of Childress county for planting this fall, according to V. E. Hafner, farm demonstration agent. Not only is good seed wheat introduced into the county, but the contract also provides that all of the seed be treated for smut.

College Station—Farmers who entered the cotton plow-up campaign last year and chose the option plan, receiving part cash and part options as payment then later borrowing 4 cents per pound on the optioned cotton, received participation certificates which they are advised to hold on to by G. E. Adams, assistant state agent of the Extension Service. "These farmers who borrowed on their options agreed to pool their cotton and allow it to be sold by the manager of the pool. It is rumored," Mr. Adams said, "that speculators are going through the country buying up these participation certificates for very small sums. These certificates may become worth as much as \$15 per bale and farmers who sell them for less are likely to suffer some loss."

Plains—"I set out some tomato plants April 26 and irrigated them from the surface; I set out some more June 1 and have been subirrigating them through tile. The plants set out over the tile are almost as large as the ones first set out." Mrs. J. V. O'Neal, cooperator in the Plains Home Demonstration Club in Yoakum county, told Lillith Boyd, home demonstration agent. "Of course the plants are younger, but they have small tomatoes," Mrs. O'Neal said. "The vines over the tile are a richer green in color, and I believe they will be the

stronger vines." McKinney—By saving seed from her spring turnips, mustard, and lettuce, Alamo Crone, garden demonstrator for the Cottage Hill 4-H club in Collin county, has seed to partly plant her fall garden, according to Helen Dunlap, home demonstration agent. Miss Crone now has lima beans, pinto beans, and black-eyed peas growing for fall production.

Japanese manufacturers are permitted by the United States government to ship 125,000 gross of pencils into this country annually.

In Fayette county the home demonstration agent gave a demonstration in pickle making—2526 containers of pickles on home pantry shelves resulted. She explained and illustrated the method of canning sandwich spread and forthwith the home demonstration club women put up 600 containers to be used in their children's school lunches.

"You can tell to a row where the cotton was plowed under last summer, because the crop is larger and standing the drouth better there than on other land." Boy Lyles of the McDuff neighborhood in Bastrop county told his county farm demonstration agent, W. S. Millington.

In Archer county Felix Ordner threshed oats and barley for 17 farmers in his neighborhood and in every case where the grain was planted on land on which cotton was plowed under last summer the yield was increased from one-fourth to one-third.

Two trench silos were dug in Brazoria county in 1932. This year there are 75 in use in that county. The two in 1932 carried about 150 tons of silage. In less than three full years this amount has increased to approximately 11,250 tons.

In the fall of 1933 Clyde Keeney of Eldorado, put up the first trench silo of feed ever to be stored in Schleicher county. "Proof of the pudding was in the eating" and the only trouble he had with his livestock in relation to this feed was keeping them off the wagon while he was scattering it. Last year he stored 2700 bundles of feed in the trench. This year's plans are to put up ten or fifteen thousand bundles if the drouth permits.

Some watering, careful cultivation after the watering and a mulch of barnyard manure are factors in the success with shrubs which Mrs. H. N. Harrison of Kleberg county is enjoying in spite of the drouth. She has used many native shrubs that are drouth resistant which has helped, but responsible for her "good luck" more than any of these items she regards the fact that she started with prepared shrub beds with the soil thoroughly pulverized.

Fifty Famous Frontiersmen by ELMO SCOTT WATSON

"35 Battles—35 Victories."

GOVERNOR of the state of Franklin; six terms elected to Congress; a projector and hero of King's Mountain; 35 battles—35 victories; his Indian war cry was: "Here they are! Come on, boys, come on!"

Such is the inscription on one side of a monument in Knoxville, Tenn., and it sums up the career of one of the most romantic figures in frontiers history—that of John Sevier, "Nolichucky Jack."

Born in Virginia in 1744 of a French Huguenot family, Sevier emigrated to James Robertson's Watauga settlement in eastern Tennessee in 1773. Almost immediately the young Virginian became a leader in various forays against hostile Indians. By his audacity and the swiftness and unexpectedness of his attacks on the Indian towns, he broke the spirit of the Cherokees and their allies and prevented their being used by the British in a rear attack on the colonies during the Revolution.

He used the same tactics in one of the most brilliant victories over the British during that war. He was one of the leaders of the mountain men in their swift dash to trap Colonel Ferguson and his troops at King's Mountain before they could receive aid from Cornwallis and thus contributed to the victory at Yorktown.

After the Revolution the Watauga settlement became an orphan. Neither North Carolina nor the new federal government seemed to want it. So in 1784 the settlers organized the independent state of Franklin, a commonwealth unique in American history, and elected "Nolichucky Jack" as their governor. When North Carolina tried to assert its authority over the region again, the settlers resisted.

The governor was singled out for punishment, treacherously betrayed, captured and placed on trial at Morgantown, N. C., for high treason. And at once more than 1,000 of the mountain men assembled to rescue their beloved "Nolichucky Jack." A civil war seemed imminent. But Sevier made a spectacular escape from his captors and a short time later his people elected him to the North Carolina legislature. There was some protest over seating him but eventually he was allowed to take office.

From that time on he was never long out of public life—as congressman from North Carolina, as the first governor of the new state of Tennessee, and then repeatedly re-elected, and thrice re-elected to congress. He died as he had lived—in the harness and in the field. The end came in 1815 in a tent on a surveying expedition for the government, surrounded by his soldiers.

With a shorter ballot before them next Saturday, voters should have less trouble than a month ago in selecting their choice for the state and district offices upon which they will pass judgment. Of major importance in the runoff contest, of course, is the choice of a Democratic nominee for Governor of Texas.

The Banner feels that it is to the best interest of good government that James V. Allred be nominated. This was our feeling prior to the July primary; now that the contest lies between Allred and Tom F. Hunter, we feel that it is even more important to cast your vote for Allred.

There have been so many charges and counter-charges on the part of both candidates, and partisans for both, that it is with difficulty that the average voter can determine which candidate is entitled to the office. It is unfortunate that such is the case, for it has built up a smoke screen which somewhat beclouds the splendid qualifications of the Attorney General.

Jimmie Allred is a young man, it is true—and this is one of the most serious charges made against his candidacy by supporters of Hunter in this county. Yet Allred has a record of achievement for the people of the state of Texas that belittles any record made by any candidate for Governor in recent years.

He has been the most active Attorney General Texas voters have ever chosen for this office; has saved for the school children of Texas millions of dollars. More than twenty million dollars will ultimately be paid into the permanent school fund out of royalties as a result of his victory in the Whiteside case in the Yates oil fields.

Allred is a lifelong prohibitionist. He favors submission of the repeal of the state prohibition amendment to the vote of the people, but personally opposes repeal. He has been sincere and outspoken on this question. Hunter has evaded the prohibition question as long as possible, but, according to the Dallas News of August 22, Hunter in San Antonio Monday of this week came out definitely in favor of repeal of the state prohibition laws. Thus, the prohibition issue enters the campaign, put there by Hunter, and on this question Allred is dry; Hunter is wet.

Allred is a young man—but he was old enough when this country entered the World War to volunteer and serve throughout that conflict, while his present opponent was building a fortune from war-time oil operations.

He is a young man—yet he is experienced enough in governmental affairs and the schemes of politicians to make no alliances with political factions which would seek to control him after election, and has the interest of his state enough at heart to sacrifice some political gain to retain his independence.

Those who believe in sane, progressive government should vote for Allred Saturday.

Next in importance to Brown county voters—or probably even more important—is the contest for representative in Congress from the new 21st Congressional District. Readers of The Banner are familiar with our stand in this race—enthusiastically for Charles L. South of Coleman.

Most people of Brown county are in accord with this view, and Judge South will receive an overwhelming endorsement from this county on Saturday. We are happy to report that he has been making heavy gains throughout the district during the past week or ten days, and reports from all parts of the big district indicate that he will be nominated Saturday.

He is a most capable man, eminently fitted for the office he seeks, qualified by service and native ability to handle the affairs of the district in Congress with credit to himself and his constituents. He is our friend and neighbor, and despite opinions of others, the ties of personal friendship still are, and ever will be, of importance to us. It is not necessary for us to point out to residents of Brown County the splendid qualifications of the man—our only desire is to remind you to be sure to vote in this race, so as to give Judge South as large a majority from this county as possible.

Several other state races will be decided Saturday. It is not our intention to advise our readers how to vote in these. We believe, however, that we are following your wishes in stating our preferences in these. For lieutenant-governor, two members of the Texas senate are the contestants—Walter Woodul of Houston and Joe Moore of Greenville. We believe that Senator Woodul's richer experience in state affairs entitle him to a more favorable consideration than Senator Moore, although the latter gentleman would serve acceptably. Incidentally, the Ferguson issue has been injected into this race in an off-hand manner through the endorsement by Governor Jim Ferguson of the Woodul candidacy. Yet Senator Woodul was the spokesman in the senate for Governor Sterling, and he has the endorsement of two ex-governors who opposed Ferguson most vigorously—Sterling and Moody.

Senator Walter Woodward is our personal choice for attorney general, yet we concede him little chance for election, and his conduct of the campaign does not meet our approval. In fact, with the office in his grasp, Senator Woodward chose to pitch the campaign in the first primary on such a level that he alienated most of the voters, and he is almost sure to lose the nomination to William McCraw of Dallas. Two splendid attorneys here.

Close friendship of long standing with the Lattimore family is responsible for our endorsement of the candidacy of H. S. Lattimore for Associate Justice of the Supreme Court, but in addition to this, Judge Lattimore is a high type judge, has rendered valuable service to the state, and deserves your vote on his own merits.

The other state office to be filled Saturday is that of Railroad Commissioner. The incumbent, Lon A. Smith, has held office in Texas for many years. His services as railroad commissioner, to us, seem to have fallen far short of what the people should desire in a commissioner. On the other hand, his opponent has connections that we do not consider add to his qualifications for the office. We leave this without any suggestion as to the better course.

Of Coleman Will Appreciate Your Vote for DISTRICT ATTORNEY 35th Judicial District

He is 37 years of age and was born and reared in Coleman County. He has served two terms as City Attorney and is now serving his second term as County Judge. His nine years of experience in the practice of law in all the courts should assure you of his ability to discharge the duties of the office efficiently. He is running the race on his own merits, without the assistance of any particular group or organization. He led the ticket in the first primary by receiving 5091 votes--422 more than his nearest opponent. In his home county of Coleman he received 234 votes more than the combined votes of his two opponents.

VOTE FOR HIM NEXT SATURDAY (Pol. Adv.)

Brownwood, Texas, August 22, 1934

TO WHOM IT MAY CONCERN:

It has been brought to our attention that a report is being circulated that Mr. E. S. Thompson came to us where we were working on one of his lateral roads and told us that if we didn't intend to vote for him that we could work no longer. We wish to use this means to correct this statement in justice to Mr. Thompson. There was no such statement made at any time by Mr. Thompson to any of us, and he has at no time solicited our votes while we were at work. We wish to state that such a report is preposterous and we hope the people will disregard such report and all future reports of such nature that may be circulated. We wish to further state that Mr. Thompson had nothing to do with hiring us as he left that entirely with his foreman, Mr. Joe Tervooren.

43% MORE NON-SKID MILEAGE

"You're too modest!"

Motorists who got the first G-3's put out-- months before the public announcement-- say, "You're too modest!" Many of them report 50% to 100% more non-skid mileage. Why, then, do we insist on only 43%? Well, 43% is a definite test-car-proved figure. Very likely it is low for normal use--because the tests which established the 43% average were gruelling: cars speeding up to 50, jamming on brakes, mile after mile, day and night. Very likely most motorists will get more than 43% more non-skid mileage. But we'll string along with 43%--because it's plenty to deliver at no extra cost. Come see the tire that's the talk of the nation.

WILLIAM A. KNOX, 93, DIES AT HOME OF DAUGHTER HERE

William A. Knox, a 93-year old moderate veteran, died peacefully at 12:30 a. m. Saturday at the home of his daughter, Mrs. S. Chandler, of Durham Street, Brownwood. Mr. Knox had made his home with the Chandlers for nine years, having come here in 1919 where for many years he was actively engaged in mercantile and banking business. Brief funeral services for Mr. Knox were held at 8 o'clock Saturday morning at the First Presbyterian Church with Rev. W. H. Hester, pastor, officiating. The body was then taken to Giddings, Lee county, for burial. During the years Mr. Knox had lived at his home in Brownwood he had acquired a large circle of friends and had become a familiar figure in the community as he appeared in his long, daily walks. His unusual vigor was a source of wonder to all who saw him. His death was attributed to the wearing out of the physical mechanism. The end came a few hours after Mr. Knox had read the day's newspapers for the first time in his life. Mr. Knox was born in Mississippi on February 24, 1841. His father moved to Lee county, Texas, when he was ten years old, and lived there on a large plantation. Mr. Knox lived in that county, in the town of Giddings, until he moved to Brownwood some nine years ago. He was married to Miss Helen Williams, who came to Brownwood with him, and passed away in 1925. Her burial was in Giddings. They had six children, of whom, Harry Knox, Sr., died away only a few weeks ago. Brownwood Others are Mrs. S. Chandler, of Brownwood; Louis Sumner, S. C., who is now in Giddings; Rev. Robert Knox, a Presbyterian minister in Korea; M. M. MacFerrin of Augusta, who was with her father when he died; and Miss Helen Knox of New York City; also a number of grandchildren and great-grandchildren. For nearly three-quarters of a century Mr. Knox was a merchant banker in Giddings, and took very active part in all the life of the community. He was a charter member of the Presbyterian church here, and for many years a deacon in that congregation. For this reason he had retained his membership in the Giddings church when coming to Brownwood. For many years Mrs. Knox served the Giddings church as its organist. Confederate Veteran. When the war of the Confederacy began Mr. Knox enlisted as a private in Colonel Ashby's regiment throughout the conflict. He participated in several of the battles of the war, including the battle of Shiloh and the weeks siege of Vicksburg. Following the war he returned to Giddings and resumed his business activities, aiding in the development of the county and of the state. He retained business and property interests in Giddings until his death.

MORTUARY

McADEN—Thomas Jefferson McAden, pioneer citizen of the Indian Creek community, died at 11 o'clock Monday morning at 1501 Vincent Street, Brownwood, where he had resided the past few weeks. Funeral services were held at Indian Creek with Rev. Sam Freeman officiating. Burial was made in the Indian Creek cemetery with Austin-Morris Funeral Home directing.

Mr. McAden had lived in Brown county and the Indian Creek community for more than 50 years. He was 62 years of age at the time of his death. Mr. McAden had always taken an active part in the affairs of his community and at the time of his death he was a member of the board of trustees of the Indian Creek district. He was also a member of the I. O. O. F.

Mr. McAden is survived by his wife and by four sons and a daughter as follows: Lee R. Bruni, Texas; Lynn, Voss; Turner, Indian Creek; Forrest, Bruni; and Mrs. Irene McHowell, Santa Fe Springs, California.

SHIELDS—Robert Lee (Kirk) Shields, 42, died last Saturday morning at his home near Santa Anna. Funeral services for Shields were held Sunday afternoon at 3 o'clock at the Whon cemetery with Revs. Cummings, pastor of the Nazarene Church at Brooksmith, Rev. Herschel Murphy, Nazarene evangelist, and Ed Wilson, of Lometa, officiating. Burial was in the Whon cemetery with Mitcham Funeral Home directing.

Mr. Shields was born in Kempner, Texas, January 27, 1892. He served in the United States army for twelve months during the World War and had been an active member of the American Legion since the war. The legion assisted in services at the grave.

Mr. Shields is survived by his widow, his mother, Mrs. Pollie Shields; seven step children, Edwin, L. G. George, Leon, Leonard, Mary Nell and Maggie Lee; eight brothers, Charlie Shields of Brownwood, Fred, of Santa Anna, Sammie, Willie, John, Andrew, Calvin and Dave, all of Whon; four sisters, Mrs. Emma Wells of Trickham, Mrs. Maggie Strickland of Floydada, Mrs. Pearl Holder and Mrs. Minnie French of Whon.

Throughout his life Mr. Knox was actively interested in public affairs, and was a close student of politics and of the recurring campaigns. He was a loyal Democrat, but never an office seeker. An inveterate reader, he was interested in all kinds of literature. For recreation in his declining years he always found pleasure in dominoes, and among his happiest periods were the summer vacations when all his children were able to come from their widely separated fields of activity to visit with him in his home. Mr. Knox's long life was devoted to useful pursuits, his influence was always exerted vigorously for what he considered to be right and his contacts with his fellow men were invariably characterized by sympathy and tolerance. He contributed a great deal to the community in which he spent three-quarters of a century, and to his state as a whole. He and his wife reared a large family of splendid men and women, and have left to them a marvelous heritage which through the years they will cherish above price.

Miss Janie Peavy, Weds Goliad Pastor

Miss Janie Peavy, for several years head of the home economics department at Daniel Baker College, was married last Thursday morning to Rev. Robert A. McCurdy, of Goliad. The ceremony took place in Edna, Texas, at the home of the bride's sister, Mrs. Ray Toland.

Rev. Mr. McCurdy, a former resident of Brownwood, is now pastor of the First Presbyterian Church at Goliad. He is the son of the late Rev. A. H. P. McCurdy, who was at one time pastor of the First Presbyterian Church in Brownwood.

Rev. and Mrs. McCurdy will make their home in Goliad. They expect to be in Brownwood for a few days within the next two weeks.

Mrs. McCurdy, a prominent member of local church and social circles, has been a leader in educational activities of the city and has served as head of the home economics department of Daniel Baker College for several years. Previous to that time she held a similar position at the local high school. She holds bachelor of science and master of science degrees from the College of Industrial Arts and Columbia University, respectively, and has taken graduate work at the Universities of Texas and California.

To the Citizens of Brown County

This is my first time to ask for public office and I have enjoyed every minute of this campaign and have tried to run the cleanest race ever run in Brown County. It is a well known fact that the amount of Taxes we have to pay each year is determined by the valuation of our property, multiplied by the tax rate. For example, if you rendered your property at \$1,000 this year and make the same rendition next year, and the Commissioners Court does not raise or lower that valuation, or the tax rate is not raised or lowered, the amount of Taxes you pay would be exactly the same regardless of who your Assessor-Collector might be. The laws are rigid, the procedure is definitely outlined, and whoever may be in charge of the work has no authority to make any changes. He must follow the law.

My business for the past 12 years being of the same nature as the work required in this office, I believe I am thoroughly qualified to give you good service. We do not have colleges or universities that teach Tax Assessing and Collecting. We can only qualify ourselves to serve. The first and last President of the United States was elected without being experienced in that position, because you must get the office before you can get the experience. There is a difference between qualification for office and experience in office. So I am QUALIFIED, and if you see fit to give me the experience, I'll guarantee you an efficient service as you have heretofore received, and if it is possible, I'll try to give you better service, to show my appreciation.

I am just asking you to give a Brown County boy a chance!

WINSTON 'Wink' PALMER For Tax Assessor - Collector (Pol. Adv.)

Some of the Reasons Why the Farmers and Small-Town Merchants Are Supporting

JAMES V. ALLRED for Governor

- 1. He has a great record of honest, faithful service to his State, as Attorney General.
2. He is running for Governor on his own record and not trying to ride into office on the record and good name of two of Texas' most honored public servants—Sam Houston and James Hogg.
3. His opponent is indorsed and supported by selfish politicians and special interests, seeking to enrich their own private or corporate fortunes at the expense of the State.
4. He offers a sane, sound and workable program of tax relief designed to benefit those who need relief.
5. He proposes to abolish "pardon peddling" and reorganize State law enforcement machinery to stamp out vicious, violent lawlessness in Texas.
6. He proposes to stamp out corrupt lobbying practices at Austin, which are preventing honest and much-needed legislation in behalf of the people.
7. He proposes regulation of the public utilities so that the farmer as well as the city dweller can enjoy the full benefits of modern utilities at a fair and reasonable rate.
8. He proposes to take relief out of politics, and co-operate with the Federal Government in any sensible program that promises to help lift the burden from the backs of the farmer.
9. He offers a sane and constructive program which will benefit the people of the State and speed a sound State recovery.
10. He is the type of man and leader Texas needs for her Centennial Governor in 1936.

Roosters on roller skates, next?

With everything "going mechanical" on the farm these days, one wonders if soon there won't be roosters on roller skates. Trucks, tractors, windmills, pumps, incubators, electric lighting plants—each of them needs some special fuel or some special lubricant. To aid you in keeping track of these needs Sinclair has developed a Call-me-by-postcard Service free to farmers. We supply you with postcards requiring no postage on which is printed a list of the principal Sinclair products. Opposite each item is a space for noting down the number of pounds or gallons you require. As your supply runs low you simply set down the amount required, sign your name and drop the postcard in the mail. The mail carrier and we do the rest. May we call and leave a supply of cards? We sell Sinclair Opaline and Sinclair Pennsylvania Motor Oils, Sinclair Tractor Oils, Sinclair Gasolines, Sinclair Super-Flame Kerosene, Sinclair Cup and Sinclair Axle Greases, Sinclair P. D. insect spray.

To the Voters of Precinct 1 Ward Four:

I have been unable to see all of the voters of Precinct One in person, but having served you for the last three and one-half years as your Commissioner, you know me and know the character of work that I have been doing, and I earnestly solicit your approval of my work as commissioner by casting your vote for me on next Saturday. At the July 28th Primary I lacked only 150 votes receiving a clear majority over my three opponents. It is impossible for any man to serve as commissioner without making some mistakes, but if my fair dealing and honesty has ever been questioned by any citizen of the precinct I have never heard of it. In all of my work as commissioner I have made an honest effort to do what was best for all concerned, and if nominated on next Saturday I feel sure that my past experience will enable me to serve you better and to execute my work with less mistakes than I otherwise could. I certainly appreciate the splendid support I had in the July Primary and will be grateful for your support on next Saturday, and if re-elected I shall use my best efforts in serving you as your commissioner, and thereby express my gratitude and thanks for your support in rendering you the very best service of which I am capable. I have nothing but the kindest of feelings and highest regard for those who supported my opponents in the July Primary, and since your choice of candidates was defeated I earnestly solicit your support in the run-off primary. Faithfully yours, E. S. THOMPSON, Commissioner, Precinct No. One. (Pol. Adv.)

Legion Sponsoring Sadler Tent Show Week of August 27

HARLEY SADLER

Harley Sadler and his own company, appearing in what is said to be the most beautiful tent theatre ever built, will be in Brownwood for a week's engagement starting Monday night, August 27, under the auspices of the American Legion. The tent is to be located opposite the Coca-Cola Bottling Company.

Harley Sadler is well and favorably known here, his show having always been a clean, wholesome family entertainment. This year's show is said to surpass all his previous efforts. It numbers more than forty people, band and orchestra, and features eight big time vaudeville acts direct from the larger circuits.

The opening play in Brownwood is "Merton of the Movies," and interspersed between the acts of the play will be vaudeville acts including Muudee and June, jugglers, Whitehouse Twins, singers and dancers, Ewert and Barry, accordionists, Fox sisters, singers and dancers, Gloria Sadler, dancer, Bart Couch, singer, Ralph Thomas, xylophonist, Goldie and Wilson, yodlers.

Preceding the play will be a thirty minute overture by Joe Gofford and his 12 piece band. On Monday night in Brownwood, one lady will be admitted free when accompanied by a paid adult ticket and the ladies free coupon contained in the show's advertisement. Special numbered reserved seats will be on sale at Renfro-McMinn Drug Company.

A Message To The Voters

By NAT LOW

After having served a total of more than five years as a deputy in the County Tax Collector's office, I feel that I am competent to speak of the needs of the county in this office. This office differs radically from any other in the county in that it is the only one which affects directly the purse of almost every human living in the entire county, and doubly so, since it is to be combined with the Assessor's office. Some of the county offices are never used directly at all by a vast majority of the people. But the Assessor-Collector's office is used by all with unflinching regularity for everyone must be taxed in one way or another.

The administration of a tax office is a profession, separate and apart from most other lines of endeavor. There are several vocations which relate in part to the tax office, but there is none that I have ever heard of which, alone, could give to a beginner the knowledge necessary to conduct efficiently all phases of the tax office. Real Estate, Law, Abstracting, Banking, and Bookkeeping are all found in the tax office, but I do not believe that all of these combined would give one the equipment that actual experience would.

Each legislature seems to try to out-do its predecessor in changing the affairs of this office, and in this respect the 42nd Legislature was a "rinky-dink." They ripped it up, clawed it apart, and sewed it up so that there is hardly a place where the edges do not either fail to meet, or overlap. They passed more than 700 bills affecting this office. Indeed, one who held this office 20 years ago would hardly recognize it now.

There are cases constantly occurring where you can not go by the law that you find in the book, for there are many conflicting statutes, and it is up to the Collector to use his OWN judgment—the judgment of a deputy, in such cases, will not do, for it is the Boss who is covered by a bond of over a hundred thousand. That little two thousand dollar bond of the deputy just does not weigh enough.

School districts are constantly changing their boundaries and striving for more taxes. It is very important that these districts be not confused so that each school will get the money it is justly entitled to. Efficiency and speed in the tax office are vitally important to the schools, so they may get their money promptly.

A very important part of the tax office of which little is known by the general public is the Oil Roll. The holders of oil properties in this county are scattered throughout the world. Most of them are in this country, but quite a few are in foreign countries. The greater part of this roll has in the past been assessed by a firm of specialists in this work, on contract with the Commissioners Court. The Court may contract with this firm again—or THEY MAY NOT. And if they do not the Assessor-Collector will have it to do. How would a man who has had no experience, go about such a task? I am positive that my five years of experience would avail me little in this event, though I would have a tremendous advantage over one who is inexperienced. And that Oil Roll is important! In 1931 there was one company that paid this office more than \$4,000.00. Several more paid in excess of \$20,000.00 each, and dozens paid in excess of \$1,000.00 each. We all know that Brown County has not had its last oil field. In time it will happen again.

Inheritance taxes are not to be lightly dealt with either. Once you pay too much, of any tax, through honest error, it is apt to cost you 50 cents for each dollar you get back.

Possibly the most controversial matter the tax officer must handle is the motor vehicle registration. It is controversial because of the ever changing statutes and the many conflicting interpretations put upon them by the various state officials. The Texas motor vehicle registration is a license and not a title as in most other states. This is a big help to the automobile thief and many other unscrupulous persons. It is solely up to the tax collector to determine the authenticity of car papers and if his judgment is not good he may be giving assistance to the thief who has stolen a car, or as is more often the case, he may be helping the thief to sell a hot car to an innocent purchaser. The tax officer must be able to give absolutely correct information regarding highway laws, for when a man takes his car, truck or trailer out on the highway, the highway patrolman is going to take him in if he is wrong. Being misinformed as to the law will not save him from being fined.

Mr. Meek has had two years experience as a deputy in the Assessor's office and five years experience as a deputy in the Tax Collector's office, a total of seven years working as a deputy at the expense of previous office holders, in addition to the time he has served as your regularly elected Tax Collector. He has had to work hard and study constantly in order to give you the best of service obtainable. His experience represents a very valuable asset to the county and should not be discarded, for good tax men are few and hard to find. Then, too, the defeat of a highly efficient officer for purely sentimental reasons causes serious discouragement to the younger man who is working as a deputy, studying hard, trying to honestly fit himself to succeed his employer. It removes the incentive to improve his proficiency when he sees a "free wheeler" cut in at the head of the line. If a man is not willing to go through the training period of deputyship, and train himself adequately, on the consequently lower salary, I do not see how he can be considered eligible to draw the salary of the boss. If the deputy has to do the work for the boss he is entitled to the boss' pay and should be covered by the big bond.

I have wanted this office myself but I can not look you in the eye and honestly say that I am fully qualified after only five years' experience. But I can do something infinitely better. I can commend Lee Meek to you as one who can and will conduct this most important office now.

Signed NAT LOW. (Pol. Adv.)

STUDENTS AT LOCAL COLLEGES WILL GET FEDERAL ASSISTANCE

Howard Payne and Daniel Baker students will get federal aid toward school expenses during the coming year, following a ruling of the F. E. R. A. The students who had not planned to attend school during the coming year because of financial difficulties will now be given campus jobs to aid in payment of expenses.

They are to be allowed a minimum of 30 cents per hour for their labors and the jobs must not be jobs already created by the school and must not include routine work. The school officials will be the judges of the need of the students for the aid and it will be up to them to place the money where it can be of most benefit.

The agreement allows a certain percentage of the students to receive this aid. At Howard Payne there will be between 50 and 60 who will get aid and at Daniel Baker the amount is not known as yet because the number of students has not been determined.

The agreement states that a major portion of the students to be helped must be freshmen. Some of the regulations governing the allotment of funds are given below:

"Funds allotted shall be used to pay students for doing socially desirable work, including the sort customarily done in the institution by students who are working their way through college, such as clerical, library and research work. Regular class instruction shall be excluded, but students may be assigned to extension, adult education, recreation and other activities that increase the usefulness of the college to the community. Each institution shall pass on the acceptability of its own work projects. All jobs must be under the direct charge of the institution.

"Inasmuch as the principal objective of using relief funds for student aid is to increase the number of young men and women going to college, funds allotted shall not be used to replace college funds heretofore available for student aid. Ordinary maintenance work about the college, waiting on table in dining halls and other routine activities that would have to be carried on anyway shall be financed from the usual sources, not from F. E. R. A. funds. Violation of the spirit of this provision shall be considered a cause for withdrawing a college's entire allotment of student aid funds and assigning it to other institutions.

"The students shall be selected for the jobs on the following considerations:

"Need—the student's financial status shall be such as to make impossible his attendance at college without this aid; character and ability to do college work—the students shall be of good character and judged by the usual methods of determining ability employed by the particular college shall possess such ability as to give assurance that they will do high grade work in college; status as to present attendance—at least 50 per cent of the funds allotted to the institution shall be paid to students who were not regularly enrolled in any college or university during January, 1934; equitable division between sexes—jobs shall be allocated between boys and girls in proportion to the enrollment of each in the particular school.

"The hourly rate of pay shall be such as is commonly paid by the institution for the type of service rendered but not less than 30c an hour.

"No student shall work more than 20 hours in any week or 8 hours in any day."

In addition to the federal aid to be given students, the colleges themselves will assist many students in working their way thru school. Some 200 students will be assisted by Howard Payne in addition to those helped by the government.

Elm Street Residence Destroyed By Fire

A five-room, tile and stucco house owned by the Standard Savings & Loan Company and located at 612 Elm Street, was completely destroyed by fire at 12:15 Monday morning. The furniture was owned by R. M. Gooch who has been in Oklahoma the past five months.

Loss on the house was estimated at \$2,000 and the estimated damage to the furnishings has been placed at \$400. The losses were partly covered by insurance. Cause of the fire has been undetermined.

Auto Accident Fatal To Mrs. Grace Wells

Mrs. Grace Wells, wife of Efton Wells, of Brownwood, and a daughter of Mr. and Mrs. E. M. Dumas, also of Brownwood, was killed almost instantly early Sunday morning in an automobile accident in Hobbs, New Mexico. Mr. and Mrs. Wells had been visiting Mr. Wells' brothers in Hobbs and at the time of the tragic accident, were preparing to leave on their return trip to Brownwood. They arose early Sunday morning in order to get in early start on the long trip home and were driving from the home of one of Mr. Wells' brothers to another in Hobbs when Mrs. Wells was fatally injured. Mr. Wells and a brother and sister-in-law were riding in the car and Mrs. Wells and a young lady, who was with them, were riding on the running board. As the car turned a corner, Mrs. Wells fell from the car, her head striking the pavement. She died within half an hour.

The body was returned to Brownwood early Monday in a White & London funeral coach. Funeral services were held from the family residence at 1309 Avenue C at 5 o'clock Monday afternoon. Rev. E. H. Lightfoot, pastor of the Central Methodist church, of which Mrs. Wells was a member, conducted the services. Burial was made in Greenleaf Cemetery.

Mrs. Wells was born in Comanche county in 1905 and came to Brownwood with her parents in 1919. She was married to Efton Wells in 1925. She is survived by her husband and her parents and a sister, Mrs. Hudson Bristow, all of Brownwood.

Roy Chinn's Father Killed In Accident

W. S. Chinn, of Merkle and pioneer of Taylor county, was killed instantly last Friday afternoon when struck in the heart by the charge from a shotgun which went off accidentally as he removed it from the back of his automobile. The accident occurred in the driveway at a son's home in Abilene as Mrs. M. V. Chinn, daughter-in-law, stood watching in the doorway of the residence. As Mr. Chinn removed the gun from the back of his roadster the turtle cover fell against the hammer of the gun, causing it to fire. Mr. Chinn was 78 years of age.

Mr. Chinn was the father of Roy D. Chinn, Brownwood business man. Mr. Chinn received word of his father's death at 4:30 Friday afternoon and left immediately for Abilene. Funeral services were held at Abilene Sunday afternoon.

Awbrey And Moore Open New Business

C. R. Awbrey and Frank A. Moore have opened a new business enterprise on East Lee street between Center and Fisk avenues and are now prepared to do general jewelry and watch repairing.

Mr. Awbrey is well known in Brownwood, having been here most of the time since 1883. He graduated from a horological school in 1904 and from 1907 to 1912 he operated a jewelry store in Tulsa, Oklahoma. In 1915 he entered the employ of the Dutch-Shell Oil Company and helped develop lease interests throughout this part of Texas.

Mr. Moore is a recent addition to the citizenship of Brownwood, having come here from Spearville, Kansas. Mr. Moore says he was attracted to Brownwood by its good homes and school facilities.

The saving of a little feed now may mean the saving of livestock next winter we are told—so watch out for that spark of fire that may cost more property loss than will appear at the moment.

Mrs. Lattimore Is Brownwood Visitor

Mrs. O. S. Lattimore of Austin spent a short time in Brownwood Thursday afternoon, in the interest of her son, Judge H. S. Lattimore, who is a candidate for Associate Justice of the Supreme Court. Judge Lattimore is a resident of Fort Worth.

Mrs. Lattimore was accompanied by Miss Etheridge Mayes of Austin, sister of the editor of The Brownwood Banner.

Paving Of Coggin Avenue Is Complete

Paving of a 1,712-foot section of Coggin Avenue, from Ninth Street west, was completed Sunday afternoon, and opened to traffic about 5 o'clock that afternoon. Workmen started on the job until 10 o'clock Saturday night trying to finish the project but had to complete the work Sunday.

The completion of this project eliminates one of the rougher sections of street in the city, the more noticeable because of the large amount of traffic on Coggin Avenue. The paving of this section affords an all-graded entrance to the city from Highway No. 10, and is a source of joy to the residents of the south part of the city.

TO THE VOTERS OF PRECINCT ONE

The time is near at hand for you to make a final decision on who shall represent you as your Commissioner. The importance of your decision cannot be too much emphasized, for many matters of importance to you, your county and precinct will be brought before the Commissioners Court from time to time, and the work of your Commissioner will no doubt have an important bearing on any measure that will directly benefit you.

I wish to impress upon you that regardless of whatever difficulties may present themselves while I am serving as your Commissioner, that I will never falter or weaken until the job is finished to the best advantage of the people of Precinct 1, and the county as a whole. No particular group or faction will dictate to me other than the people as a whole who may elect me to this office. "The people" are the ones I am to serve should you see fit to allow me this privilege.

When you go to the polls next Saturday to cast your vote, I will appreciate your most serious consideration.

Obediently yours,

LAWRENCE MOORE

Candidate for COMMISSIONER, PRECINCT ONE (Ward 4)

TO THE VOTERS OF BROWN COUNTY

I have worked hard every day since the first primary election and have tried to call on all the voters, in the interest of my candidacy for County Treasurer, but I see that I will not have time to see everyone and so I take this means of asking you for your vote on August 25th. I am grateful for the vote and help of my friends and I pledge my untiring efforts to serve you faithfully.

Sincerely,

SOL BAKER of Blanket

LIFE SAVING CLASS WORK IS COMPLETED

Under the direction of Hilton Gilliam, life saving chairman, the Brownwood chapter of the American Red Cross has just completed a most successful life saving class at Lakewood swimming pool.

Mr. Gilliam states that this summer has been a very successful season in life saving instruction in that several hundred people have been trained in this type of work.

During the ten day period of the class there were twenty-five enrolled. Everyone who entered passed the swimmer's test, which is prerequisite for the life saving work.

Those passing the junior test were: Leroy Chatham, grade 8 1/2; Miss Lucy Cross, grade 7 1/2, and Miss Dorothy Wilson, grade 7 1/2.

The major part of the class were seniors. There were seven who passed this test. Tom Glover renewed grade 80, Miss Authala Williams grade 76, Fritz Sturdivant grade 82, Eynon Gilliam grade 80, and McGee Garnett grade 76, all of Brownwood, and Claud Chastain, grade 77, of Rising Star.

QUOTATIONS FROM SEVERAL LEADING BROWNWOOD CITIZENS

Judge R. E. Lee: "James V. Allred is the only clean man we have in the race for Governor."

Mrs. Mary E. White: "We now have an opportunity to elect a good clean, honest and fearless young man, James V. Allred, for Governor, so let's elect him."

Mr. N. T. Cooper: "Yes, I am for Jimmy Allred, and I don't care who knows it."

Mrs. L. D. Hillyer: "I have had to walk many blocks since Mr. Hillyer has been working for the election of Mr. Allred, but I would walk many miles in behalf of Good Government."

A Family Affair

The voters of this State should be informed that H. S. Lattimore, candidate for Associate Justice of the Supreme Court against Judge John H. Sharpe of Ellis County, is not Judge O. S. Lattimore who is now and has been for the past 16 years a Judge of the Court of Criminal Appeals.

It is conceivable that one family might produce two geniuses of such superlative ability that the State might have need of their services even to the extent of their monopolizing the judiciary.

Judge John H. Sharp of Ellis County is holding his first public office. His candidacy has the endorsement of the overwhelming majority of the attorneys of the State who are thoroughly familiar with the judicial records of both candidates.

The voters of this State should say by their ballots that they do not propose to make our courts a last resort a family affair. Vote for Judge John H. Sharp of Ellis County for Associate Justice of the Supreme Court.

Play-Off Games In County League Will Start September 2

With but one more game remaining to be played in the Brown county baseball league officials and team managers held their semi-monthly meeting Wednesday evening and drew up the schedule for the post-season play-off games.

The play-off games will start with a double-header at Woodland Heights on Sunday, September 2, with the first place Brownwood team meeting the fourth place Fry team. The second game will be between the second place Woodland Heights team and Brooksmith, holder of third place in the league standings.

The one remaining game on the schedule will be played Sunday when Brownwood invades Fry for the final game of the series between the two teams. Fry holds two decisions over the Brownwood aggregation so far this season.

The league standings: W L Pct. Brownwood 15 5 .750. Woodland Heights 13 8 .619. Brooksmith 12 9 .571. Fry 10 10 .500. Winchell 8 12 .400. Zephyr 6 13 .316. Salt Mountain 4 17 .190.

Brown County Mutual Now In New Offices

The Brown County Mutual Life Insurance Association announces the removal of its offices to 303 Citizens Bank building.

The Brown County Life Insurance Association is a local mutual aid association and most of its members are in Brownwood and Brown county.

Discussing the removal of the offices, the secretary of the association stated that this company is witnessing an unusually large growth and it is the intention of the present officers to make this one of the largest mutual aid associations operating in the State.

Further discussing this, the officers said that several years ago, Brownwood had some of the largest associations in Texas, and that they believe there is a demand on the part of Brownwood and Brown county citizens to again build such an association to serve Brown and adjoining counties.

The Brownwood company, it was pointed out by the officers, keeps all the money collected from its members in Brownwood, as every dollar paid into the association is

I wish to thank each and everyone of you who have aided me in my race for re-election as your commissioner. If you see fit to again place me in this responsible office I promise the same courteous service but at the same time I shall continue to be conservative in all business transactions and keep the best interest of the people in mind at all times.

I sincerely believe that my past record will attest to the fact that I have served you well.

Newton Family Hold Reunion

The Newton reunion was held July 25 near Byrds on Henry Newton's place, amid the beautiful trees of the Pecan Bayou. The Newton family of twelve came to this country fifty-seven years ago camping near the identical place where the reunion was held.

Of the ten children six are still living—Jim, Oscar, Mrs. George Gaines and Mrs. A. F. Willys of Cross Cut; Henry of Byrds and John of Brownwood.

There are now about 175 descendants of which a goodly majority are present. Of this household it is interesting to know that only fifteen deaths have occurred.

Preceding the lunch hour a very interesting talk was given by Miss Vicker, a Nazarene preacher, on "Living for God." Songs were led by Frank Wells, a nephew.

The young folk and some of the older ones enjoyed very much the fine swimming and boat riding opportunity offered. The children gave some splendid readings that were unusually interesting.

The Newton reunion was held July 25 near Byrds on Henry Newton's place, amid the beautiful trees of the Pecan Bayou.

The Newton family of twelve came to this country fifty-seven years ago camping near the identical place where the reunion was held.

Of the ten children six are still living—Jim, Oscar, Mrs. George Gaines and Mrs. A. F. Willys of Cross Cut; Henry of Byrds and John of Brownwood.

There are now about 175 descendants of which a goodly majority are present. Of this household it is interesting to know that only fifteen deaths have occurred.

Preceding the lunch hour a very interesting talk was given by Miss Vicker, a Nazarene preacher, on "Living for God." Songs were led by Frank Wells, a nephew.

The young folk and some of the older ones enjoyed very much the fine swimming and boat riding opportunity offered. The children gave some splendid readings that were unusually interesting.

A very fine dinner was served and later in the afternoon plenty of ice cream and watermelons

Roman Relic in London

Workmen excavating for a building in London found a stone altar used by some family worshipping Roman gods in Britain in the First or Second century A. D.

FISHING IS BARRED IN LAKE BROWNWOOD FOR THE NEXT TWO YEARS

Lake Brownwood has been made a fish sanctuary by the State Game, Fish and Oyster Commission and fishing in the lake is prohibited until June 1, 1936, according to information received in Brownwood from officials of the

state commission in Austin. Several weeks ago the lake was closed to fishing during the emergency that followed the draining of the major portion of the lake.

Officially the state department have followed up this order by closing the lake for a two-year period. The purpose of this action is to give ample time for the beautiful lake to be completely restocked.

To the Voters of Brown County:

In making my last minute appeal to you, I wish to correct an erroneous idea. It seems to be the general impression that the manifold duties of this office are similar to an ordinary bookkeeping job. Surely we realize that an office that in the last 3 1-2 years has handled a total of \$1,700,000 worth of business cannot be compared to the simple keeping of accounts of a photographic studio.

This business is handled under the strict supervision of the State Comptroller and the State Highway Department and they allow no deviation from accuracy. A public trust office like this that has required a bond of \$100,000.00 surely cannot be compared to a single entry bookkeeping job.

One who has not had experience in an office of this type, cannot possibly have had similar experience, because no other office is conducted like tax collections. I qualified for this office by two years' work as deputy assessor and three years as deputy collector before I felt qualified to ask you for this office.

LEE MEEK, Candidate for Assessor and Collector

STATE COMPTROLLER OF PUBLIC ACCOUNTS AUSTIN, TEXAS GEORGE H. SHEPPARD

Hon. Geo. H. Sheppard, State Comptroller of Public accounts. Austin, Texas Jan. 22, 1934.

Dear Sir: We have completed an audit of the accounts of Mr. Lee Meek, tax collector of Brown County, Texas, for the period of Jan. 1, 1931, to June, 1933, and attached hereto our report.

We found the records and reports in excellent condition, readily accessible and easy to check.

We wish to express our appreciation to Mr. Meek and his deputies, Mr. Weldon Lancaster and Mrs. Exie Markham, for the many courtesies extended to us while on this assignment.

Yours very truly, LEE HAMILTON BOYD RHEA, Tax Supervisors State Comptroller Department.
