BLEAK WINTER RETURNS FOR BRIEF FLURRY

Extra Clothing Feels Good After Two Weeks of Balmly Weather

Those who considered packing their topcoats and long handles away in mothballs only two weeks ago had a sudden change of mind when bleary winter returned with a bang during the past week-end. The balmly spring weather that was already bringing symptoms of spring fever along with fruit blossoms and a few flowers had some of our citizens shedding down to their shirts only to spring a surprise attack of sleet, snow, and freezing temperatures.

Though not as severe as the early January cold spell, this last probably had a more lasting influence. People who failed to take special precautions with their spring gardens had their first garden feasts definitely postponed. And though it is hard to decide as yet whether fruit crops are wiped out it is at least feared that the temperature's toll was considerable.

A query at the cheese factory brings to light the information that dairy herds hereabouts have responded to the chill by falling off in their production. Thirty thousand pounds of milk is usually handled but during the cold weather that figure dropped to 25,000.

At the Sacred Heart Church Father Frowin made an impromptu change in his regular lenten schedule by holding Benediction services immediately after the late Mass rather than in the afternoon, anticipating a very poor attendance if the services were held at the regular time.

4-H Girls of Lindsay Discuss Clothing at Regular Club Meeting

Lindsay, March 16.—"Select materials that will stand wear and repeated washings," Miss Nette Schultz, county home demonstration agent, told members of the 4-H Club in a meeting with the girls Thursday morning, March 11, in the school basement.

Miss Schultz in offering suggestions on the selection of materials for a robe and a sport type dress, two garments which each girl will make as a goal to be reached in her year's club work, stressed the importance of choosing a correct style, color and design, saying that these should be chosen in relation to the wearer. If correctly chosen, and attractively made even a garment fashioned from inexpensive material gives a feeling of being well dressed which in turn lends poise and charm, Miss Schultz said.

The agent concluded her program by displaying samples of seersucker, crepe, crash, and percale, ideal materials from which the garments can be made.

Following the meeting the girls in the company of Miss Shultz visited the club hot bed. At the suggestion of the agent, who stated that the cabbage plants were ready for transplanting each girl returned after school hours and took up her quota of plants and transplanted them to her club garden at home. Twenty-one members and the sponsors were present at the meeting.

REPRESENTATIVE OF WOOL CO. EXPLAINS MARKETING PLANS

Wilson Farrell, a representative of the Midwest Wool Marketing Association of Kansas City spoke briefly to the farmers gathered for the soil conservation program meeting in the Parish Hall Thursday night on cooperative wool marketing.

Emphasizing the fact that his company is striving to improve the quality of wool by selecting on a graded basis he explained his company's plan of securing a better price for wool growers.

The Midwest plan as pointed out by Mr. Farrell is first of all to encourage growing a better grade of wool. This is done by buying on a basis of grade rather than weight only. The next step in the plan is to hold the wool through the low price season and sell when prices rise again. This is accomplished by giving the grower 65 per cent of the

Literary Events Of County Meet Are Held Today

Track and Field Events Set for Tomorrow; Tennis Matches April 3

Public school children of Cooke County are enjoying a holiday today, but for some of them it is anything but a holiday as they go through the grind of competition in literary events at the Interscholastic League meet in Gainesville.

Following the literary events on Friday is the Interscholastic League track and field meet on Saturday, April 3. These programs will end the Cooke County Interscholastic League meet for this year and as soon as figures can be compiled the county champion will be announced.

Muenster's entries in literary events as announced by Mr. Burger and Miss Seyler are: Declamation—senior girl, Mildred Patrick; junior girl, Bertha Jane Hoehn; senior boy, Earl Fisher. Spelling—Louise Schmitz and Eugene Lehnertz. Essay writing—Louise Schmitz. Ex-temporaneous speaking—Albert Hoehn. Ola Lee McEntire and Roland Patrick are Muenster's entries in Grammar declamation.

Muenster will not have any entries in track and field events. It was explained by Mr. Burger that the short time following their strenuous and extended basketball schedule did not permit them to enter

See COUNTY MEET, Page 4

MUENSTER PLAYERS TO PRESENT DRAMA ON EASTER SUNDAY

"The Antics of Andrew," a three-act comedy that is being practiced regularly by the Muenster Players under the direction of Father Francis Zimmerer, will be presented on Easter Sunday rather than the following Sunday, Father Francis announced last Saturday.

The dramatists agreed upon the change of date after definite announcement was made that the Muenster Parish choir will participate in a concert at Dallas on April 4. Werner Becker, one of the members of the dramatic club is also a member of the choir. Furthermore, it is expected that a considerable number of friends will accompany the choir and would materially reduce the number of patrons expected at the play even though some special arrangement were made to provide for Mr. Becker's conflict.

Spring Style Show at Majestic Theatre Will Present New Fashions

Thirty beauties from Gainesville attired in the latest arrivals of Teague Company's new creations in ladies' apparel will take part in the Spring Style Show to be presented at the Majestic Theatre today, it was announced by Martin Wade, manager of the Majestic.

Gowns to be shown were designed by such famous fashion artists as Passarelli, Jeanne Iarvin, Maynox, Suzy, De Garcy, and Fashion Originators Guild.

In connection with the dress parade the Majestic will present as a feature on its picture program "That Girl from Paris," starring Lily Pons, Jack Oakie, and Gene Raymond.

John Cain and his wife of Dallas spent last Sunday here visiting with Henry Wolf, Sr., and other relatives of the Wolf family.

Fisher Brothers Observe Tenth Anniversary of Business Career on Wednesday of This Week

Last Wednesday was more than Saint Patrick's Day to Joe and John Fisher. It was the tenth birthday of their business.

On March 17, 1927, the Fisher brothers, with Walter Pulte assisting them, opened a modern meat market in the northeast corner of the cheese plant building, the two rooms now used for ice storage and a general cooling vault.

They remained in the cheese plant building until May 1 of the following year when a vacancy in the new building constructed the previous summer by Joe Trachta gave them the opportunity of moving to their present location. At that time they were assisted by O. J. Huchtons, a veteran butcher who replaced Mr.

CAKLE BERRIES ARE OVERSIZE IN THIS FARMYARD

Felix Becker was complaining the other day that he can't set the usual number of John Fette's eggs in one incubator tray. He insists that, strange as it seems, the ex-commissioner's eggs are consistently large.

Now the big question is, what does he feed those hens?

BURIAL HELD LAST FRIDAY FOR JOE NEU

Early Lindsay Settler Dies of Brain Hemorrhage Wednesday

Lindsay, March 16.—Funeral services for Joseph F. Neu, who died suddenly from a brain hemorrhage at his home last Wednesday were held from St. Peter's Church Friday morning at 8:30 o'clock.

The pastor, Rev. Father John, celebrated the Requiem High Mass, which preceded the burial in St. Peter's cemetery. George Carroll & Sons Funeral Home of Gainesville had charge of arrangements.

Frank Krebs, John Schmitz, Nick, Matt, Frank, and Herman Neu, six nephews of the deceased, were pallbearers.

Mr. Neu was a native of Illinois and came to Texas while still a young man, settling in Cooke County where he has resided for the past 38 years. During that time he became one of the Lindsay community's most progressive farmers, making hundreds of friends who held him in high regard.

He was an exemplary Catholic, a member of the St. Peter's Verein and figured prominently in all enterprises under church auspices.

Mr. Neu leaves his wife, Mrs. Elizabeth Neu; three sons, Joe J., Theodore and Michael; four daughters, Mesdames Joe Hermes, John Kupper, Elmer Gore and J. W. Walterscheid; and a number of grandchildren.

Farmers' Checks Pour In from Washington on Conservation Program

Federal payments to Cooke County farmers who participated in the soil conservation program for 1936 continue to pour into the office of County Agent J. H. Clark.

Ending last Saturday 655 checks had been received for a total of \$55,185.97 as payments on 464 farms. The average check was \$84.25 and the average payment per farm was \$118.94.

It was explained by Mr. Clark that the number of checks was greater than the number of farms because in the case of tenant farmers separate checks were sent to tenants and owners.

Guessing roughly, Mr. Clark estimates that the total received through last Saturday represents hardly half of what will be given to Cooke County farmers by the Federal Government.

John Wieler, accompanied by Walter Collier of Saint Jo, attended a sales meeting of the Magnolia Petroleum Company at the Magnolia building in Dallas Wednesday.

FARMERS BEGIN SOIL PROGRAM FOR 1937

Both Wets and Drys Predict Victory in Saturday Election

With only one day of campaigning left before the local option election that will decide whether Cooke County will legalize the sale of beer or remain legally dry, leaders in both wet and dry camps predict victory.

During the past week extensive work was done by each group to muster the necessary votes for success Saturday. A committee composed of Cooke County business men have held several meetings to plan campaign maneuvers which consist

chiefly in newspaper publicity and advertising along with extensive personal campaigning.

At the same time the group who favor conditions as they now exist held a series of meetings urging voters to defeat the proposed change. Their method of attack in the campaign consists chiefly of personal contact with voters.

Tomorrow's election promises to be a hot one with a very small margin of victory to the winning side.

TO-BE SUMACS LICK HAS-BEENS BY 1-POINT MARGIN WEDNESDAY

An argument that has been raging for several days at the Muenster High School was settled Wednesday night when the "To-Be Sumacs" defeated the "Has-Been Sumacs" in a rip-snorting 13-to-12 fracas at the Gainesville gym.

To basketball players at the school that game serves as the beginning of a hearty razzing campaign as a followup on a campaign of wild predictions. To basketball fans of Muenster it indicates that the Sumac squad of next year have a fair chance to carry on the good work of this year's quintet.

Two of this year's regulars, Pat Stelzer and Bud Hoehn, played on the "To-Be" five since each of them has the opportunity of playing another year under Sumac colors. Their teammates for the tussle were Herbie Camp, Genie Lehnertz, and Herman Fette.

Four of the graduating regulars, Albert Hoehn, Earl Fisher, Richard Fette, and Dan Renfro were assisted in their game by Earl Lehnertz, one of the reserves also slated for graduation.

MISSIONARY SOCIETY SPENDS MONDAY P.M. VISITING MYRA SICK

Myra, March 16.—The Baptist Missionary Society sponsored a visitation trip Monday afternoon to shut-ins.

The group of women visited Grandma Reed, 90 years old, who suffered a broken hip six or seven months ago and is now able to be up in a chair.

Grandma Livingston, 83, was visited; Grandma Cobb, 93, who has been ill for several months, was also called on.

In each home a religious service was held consisting of religious songs, Scriptural reading and prayer. Ten women, accompanied by Rev. and Mrs. C. M. Thomas, made the trip.

Highway Engineers Survey for Sidewalk Beside New Pavement

State highway engineers were busy Tuesday afternoon surveying for the sidewalk that will be built in connection with the highway paving project.

The sidewalk, it was stated, will be constructed on the north side of the road and will extend the five blocks from Main Street to Joe Swingler's residence.

Eighty Persons Here Sign Petition to Ban Proposed Tax on Oil

About 80 signatures were secured in Muenster on petitions prepared by Cooke County business men to induce the senator and the representative of this district to aid in defeating proposed legislation that would increase taxes on crude oil 6c per barrel.

It was explained in the petition that the proposed tax, since it would make the operation of small wells unprofitable, would seriously injure one of the major industries of Cooke County.

MAYOR'S AUTO GONE; FOUND IN TOWN AND KEY HELD BY YOUTH

Joe Tom Aldridge, arrested on a charge of theft in connection with the disappearance of the M. J. Endres 1934 Dodge pick-up truck, was taken into custody by Sheriff Luther McCollum and placed in the Cooke County jail at Gainesville Wednesday afternoon. Upon being notified of the theft, City Marshal Frank Hoedebeck questioned young Aldridge and then searched him to find the key of the car as conclusive evidence.

Mr. Endres stated that he left his pick-up behind his store at 9:30 a. m. Wednesday and did not miss it until 1:30 p. m. when he wished to use it. Absent-mindedly he had left the key in the ignition switch. While looking for Officer Hoedebeck to report the theft he discovered the machine near the Farmers Store with the key missing from the switch.

Young Aldridge, after being found in possession of the key, explained that he wanted the car to drive home and avoid a long walk. He showed signs of drinking, Officer Hoedebeck said.

Sheriff McCollum came from Gainesville for the prisoner in response to a telephone request from Mr. Hoedebeck.

New Mechanic on Staff Of H-5 Service Station

A. D. Garner, an automobile mechanic of 17 years' experience, began last Monday as the new mechanic at H-5 Motor Service.

Mr. Garner is taking up his new work here on a percentage basis agreement with H. S. Wilde, owner of the H-5 station. For the time being, he stated, he will continue to make his home in Gainesville but plans to move his family to Muenster as soon as he can find a suitable occupant for his Gainesville house.

Prior to his moving to Gainesville four years ago Mr. Garner spent seven years as service manager for a General Motors garage in Pampa, Texas.

Mr. Hartmann Surprised On 52nd Birthday by Cheese Factory Boys

John Hartman is not 104 years old but he had 104 candles at his birthday party Tuesday night. It seems that in the confusion to organize a surprise party for him there was a slight misunderstanding so that two different persons brought birthday cakes.

Almost every member of the cheese factory staff was on hand to wish John another 52 years of health and prosperity. Mr. and Mrs. Al Walter, son-in-law and daughter of Mr. Hartman, also joined the party.

After presenting their gifts and causing a general commotion the surprise party settled down to sheep-head and rummy playing. Refreshments for the party were provided by the cheese plant group.

RE-ELECT OLD COMMITTEEMEN FOR NEW TERM

Local Block Includes Myra, Muenster, Bulcher Communities

The soil conservation program for 1937 got under way Thursday night of last week when 45 farmers of the Muenster, Myra, Bulcher block assembled at the Muenster Parish Hall to elect committeemen.

With Jake Biffle acting as chairman and County Agent C. H. Clark directing the proceedings, those present re-elected last year's committeemen as follows: Johnny Biffle of Myra, G. H. Hellman of Muenster, and J. G. Dennis of Bulcher. Matt Mueller and John Klement, Sr., were chosen first and second alternates.

County Agent Clark advised that at a meeting in the near future the committeemen would select one of their number as chairman and it would become his duty to represent this block in a meeting with chairmen of the other five blocks, in which three county committeemen would be chosen from their number, and one of them would in turn be chosen chairman to represent the county in district meetings.

It was stressed by Mr. Clark that in this year's program the work is to be conducted by the farmers themselves through their representatives and the county agent will serve as a guide or helper rather than as a leader.

Mr. Clark also explained that in

See CONSERVATION, Page 4

District Meeting of State League to Be at Pilot Point April 20

Preliminary plans are now being made for the annual North Texas District meeting of the Catholic State League at Pilot Point on April 20 and 21, Father Francis Zimmerer advised recently.

Also on the 21st, Catholic clergy of the North Texas District will gather for the Deanery meeting to be conducted also at Pilot Point by the Very Rev. Msgr. O'Donohue of Sherman.

Muenster delegates to the State League meeting will be selected in meetings of parish societies soon, Father Francis advised. Last Sunday the Young Ladies' Sodality was scheduled to choose its delegates in a regular meeting but the meeting itself was postponed because of severe weather. The Holy Name Society delegates are to be elected next Sunday, and delegates for the St. Anne's and St. Joseph's Societies are to be chosen in their next regular meetings.

MRS. JOHN EBERHART AND CHILD INJURED IN ACCIDENT AT VAN

Mrs. John Eberhart, Jr., and her little daughter, 8, escaped death by a close margin last Thursday night when the car in which they were riding turned over on the highway near Van, Texas, their home.

Both mother and child were taken to the hospital in Grand Saline where X-ray pictures revealed that the mother's rib was cracked and a kidney was torn loose. Head injuries to the child, at first thought serious, have since been discovered to be only superficial. According to word received by Mrs. John Eberhart, Sr., both the injured persons are making normal progress in recovering at the present time.

The accident occurred on a highway near Van between 9 and 10 p. m. last Thursday. Reports received by relatives here state that it was caused by a car coming on the main highway from a side road and striking Mrs. Eberhart's car at the rear wheel and causing the tumble that resulted in the injury of the pair.

At the time of the accident Mr. Eberhart was in Louisiana preparing to move an oil rig to a new location in Illinois where he was expected to work for several months.

Local NEWS Briefs

F. E. Schmitz and Jacob Pagel attended the Fort Worth stock show and rodeo Sunday.

Al Eberhart is one of the drillers on the new well being started at Bolivar by Ed Ruwaldt.

Wanted—Two used car salesmen. Apply at Ben Seyler Motor Co. (Advertisement, 17.)

Joe Trachta, Barney Wilde, and Roman Trachta spent Tuesday at the Fort Worth stock show.

Since his uncle John bought a new Ford, Jim Lehnertz is sporting the car John previously drove.

FOR SALE—8 lots, Nos. 13 to 20 in Block 29. Very Cheap. See J. S. Horn. (Adv. 16-1f.)

While in Fort Worth Monday Joe Felderhoff took time out to attend the rodeo and fat stock show.

Two thousand pounds of Muenster poultry was sold by the F.M.A. to an Ardmore, Okla., dealer Monday.

Henry Wolf, Jr., recently purchased a new Ford pick-up truck from Townsley Brothers at Gainesville.

The Wilde relatives here have been informed that their aunt, Mrs. Mary Pfeiffer, recently died at the age of 86.

For Sale—Two John Deere 10-ft. Power Binders; also several 7 and 8 ft. Binders. H. E. Myers & Sons. (Advertisement, 17.)

Joe Wilde was in Dallas Tuesday having a truck bed installed on the new Chevrolet truck he sold to the Dangelmayr brothers Monday.

Members of the Muenster Young Ladies' Sodality were well occupied Tuesday in giving the parish church its regular thorough housecleaning.

John Lehnertz, Matt Mueller, and F. E. Schmitz were in Dallas Wednesday to accept delivery on two new Fords sold by Herr Motor Co. recently.

Mr. and Mrs. Elwyn Hope of Fort Worth were guests in the Ben Seyler home Sunday. Mrs. Hope is better known to Muenster people as Rachel Seyler.

Mrs. Henry Trachta and her son, David, were in Fort Worth Tuesday attending the stock show and visiting with Mrs. Trachta's sister, Mrs. H. C. Bryant.

Mrs. Gerhard Hess was honored Thursday afternoon at a layette shower sponsored by Mrs. McDonald and held in the home of her parents, Mr. and Mrs. John Knabe.

That beautiful new white Chevrolet Sedan that Mrs. J. B. Wilde has been sporting for the past week is a birthday present from her husband. When his latest carload of new cars arrived last Friday Mr. Wilde drove the gift directly to his home and presented it even though his wife's birthday did not occur until Monday.

ALASKAN SANDWICH SHOP
One-Half Block North of Majestic
GAINESVILLE

For Sale—1 new F20 McCormick-Deering Farmall tractor and equipment; also one 10-20 McCormick-Deering tractor. H. E. Myers & Sons. (Advertisement, 17.)

The Muenster sheephead cronies gathered for another of their regular sessions Sunday night at the home of Joe Walterscheid. John Felderhoff took high score honors.

Mr. and Mrs. G. H. Hellman, accompanied by their son and daughter-in-law, Mr. and Mrs. Arthur Hellman, attended the stock show and rodeo at Fort Worth Wednesday.

Joe Sharp, the boy who "keeps his thumb on the pulse of the oil industry," popped in for several pop calls on his relatives while driving to Wichita Falls on a business trip last Friday.

Marie, the daughter of Mr. and Mrs. Wm. Becker, had her tonsils removed at St. Vincent's Hospital in Sherman last Thursday. She is reported as progressing nicely since her return Friday.

Sam Biffle, an employe on the R. W. "Dub" Trew farm received painful injuries when he was run over by a wagon last Saturday. Three ribs were broken and a general soreness is scattered over his chest.

Miss Eugenia Luke arrived Thursday for a week's rest with friends and relatives here. She is recuperating from an appendicitis operation of three weeks ago and plans to return to her regular duties in Fort Worth after Easter.

The fellows at Herr Motor Co. are dressing up lately. Jim Lehnertz received his new pair of coveralls Wednesday and the rest of the boys expect theirs soon. The coveralls are white with "Herr Motor Co." and the Ford emblem in blue.

Because they were unable to pass their tests last week three of the Muenster Boy Scouts had to miss the regular meeting Monday night. They were victims of a resolution made in the previous meeting that each scout pass at least one test a week.

Of the carload of new Chevrolets received last Friday by J. B. Wilde the Master Town Sedan has been delivered to Mrs. Wm. Walterscheid and the Master DeLuxe Sedan is being used as the Wilde family car. Also included in the shipment were a pick-up and a Master DeLuxe Town Sedan.

Almost the entire crowd of cheese factory employes were in Fort Worth to see the rodeo last night, according to plans being made Wednesday. At that time two of the boys had not decided to join in but the rest of the gang were still working on 'em.

Mr. and Mrs. John Chandler spent Tuesday moving to their new home at Saint Jo where they will remain through the summer. Mr. Chandler made the change in residence in order to be nearer his business location which is three miles east of Saint Jo on the old Highway 5.

Cheese shipments for the past week totaled about 15,000 pounds. Vernon Meat Co.'s truck picked up a capacity load at the cheese factory; 5,000 pounds were shipped by Webster to Waco, Colorado, Iraan, and Abilene; and Paul Hellman delivered a 2,500-pound pick-up load at Dallas Tuesday.

SPECIAL—For only 10c, a 25-lb. sack of Bewley Chick Starter is given with each 100 baby chicks bought. Chicks from Pullorum-Typhoid tested flocks. We buy hens in exchange for chicks, hatching, feed, anything we sell, paying more than market price. GAINESVILLE HATCHERY, 411 N. Commerce St., Mrs. T. J. Clark, Phone 219. (Advertisement, 12-1f.)

Carload of Nails, Fence Received by Shamburger

Shamburger Lumber Co. is preparing for a banner season with the arrival of a carload of nails, fencing, and reinforcing rod for concrete work.

There are 210 kegs of nails, spikes and staples. Re-inforcing rod totals about 5,000 feet. And barbed wire, poultry wire, hog wire, and miles of other wire along with about 200 steel posts provide an abundance of fencing material.

C. D. of A. Have Meeting In John Eberhart Home

Almost a hundred per cent attendance of the membership turned out last Friday night for the regular business meeting of the Catholic Daughters of America in the home of Mrs. John Eberhart, Sr.

In addition to their routine business the members set April 1 as the date for their next social gathering when Mrs. Joe Swirczynski will be hostess to the group in her home. Refreshments consisted of doughnuts and coffee.

Muenster Girls Win One Game at Volley Invitation Tourney

Flashing a brand of stellar performance that would defeat all but the better high school teams in this county Valley View's grammar volleyball team romped through the

Interscholastic League grade school tournament last Saturday.

They took two games in a row from the Callsburg Lassies to repeat the performance of the green clad high school girls and give Valley View a clean sweep in volleyball honors in the county.

Muenster's team, at first entered in the tournament, dropped out because of the difficulty of picking a team from the limited number of grade school pupils.

Pioneers Set March 19 As Holy Day; Muenster People Observe It Now

In keeping with a vow made in the early nineties by Muenster's pioneer settlers, March 19 is being observed as a parish holy day, dedicated to the honor of Saint Joseph. It is not one of the Holy Days of Obligation of the church but one set aside as a special day to invoke

Divine protection against hail and other inclement weather. Saint Joseph's feast was selected by the early residents as the parish holy day to honor him as the patron of the parish.

Services on Saint Joseph's Day are as follows: 6:30 communion Mass; 9:00 High Mass; 3:00 afternoon services.

Bernaer Family Spend Week-end Visiting Here

Mr. and Mrs. Joe Bernauer, accompanied by their daughter Evelyn and their son Louis J. of Panhandle, Texas, were guests of relatives here from Thursday of last week to Monday.

They were residents of Muenster prior to their moving to Hereford about 11 years ago. Several years later the family moved to Panhandle where Mr. Bernauer now owns a large modern machine shop.

Sample Ballot

LEAVE THIS FOR legalizing the sale of vinous and malt liquors that do not contain alcohol in excess of four per cent (4%) by weight.

SCRATCH THIS AGAINST legalizing the sale of vinous and malt liquors that do not contain alcohol in excess of four per cent (4%) by weight.

ARE WE POWERFUL ENOUGH to control the sale of Beer in Cooke County?

Shall we vote to make its selling legal in our county, thereby giving the law enforcing bodies a sufficient grip on the situation to control it with an iron hand or shall we turn our backs, admit defeat, and let the present distasteful, law disregarding situation continue?

THAT IS THE QUESTION VOTERS MUST DECIDE IN SATURDAY'S ELECTION!

It is not a question of whether or not beer will be sold but a question of controlling its sale

If we vote to legalize—to control—the sale of beer in Saturday's election we would cut down by at least three-fourths the number of dispensaries. It would do away with bootlegging joints in respectable residence sections of town. Its price would be less than the bootlegger could profitably handle it. The bootlegger does not buy a license nor does he pay a penny taxes. To sell beer legally a merchant must have a State and County license and taxes would be collected from the beer so sold.

Surely this would be a healthier condition than the one now existing. At least isn't it worth trying? That is all that is asked.

If the county as a whole votes to legalize—to control—the sale of beer and some precincts do not want it—any precinct can then call an election and vote it out.

The present condition is bad. It is embarrassing. It is one to be ashamed of. Let us go to the polls Saturday and **VOTE FOR A CHANGE! TAKE IT OUT OF THE DARK; BRING IT INTO THE LIGHT!**

FISHER BROS. CELEBRATING 10th ANNIVERSARY

(Continued from First Page)

ster territory, is one of the most modern of the State. Being constantly subject to inspection by health officials, it must conform to a high standard of cleanliness, which is assured by fly-proof and dirt-proof construction, white painted walls, and running water. Fishers invite the public to inspect this slaughter house from which originate the fresh meats sold not only by themselves but also by the Farmers' Store. They have done the slaughtering for their competitors since that business originated in 1933.

During the 10 years of their business existence Fisher Brothers have become famous for their country sausage. Every year they find that their demand grows larger as orders are received from new customers in Dallas, Fort Worth, Sherman, and other places as far removed as Chicago and Grand Rapids, Mich.

Along with their business ventures in the market and store, both of the Fisher brothers are interested in sidelines. Joe has been an active Kelvinator service man for the past four years and only a few weeks ago added to his refrigeration knowledge through a course of air conditioning engineering at Dallas. He holds the local Kelvinator agency and has one of the latest model refrigerators now on display in the store. He advises that within a short time he will also have an Electrolux with kerosene burner for those who do not have electrical service.

John Fisher spends a great deal of his spare time as a stock buyer. In partnership with Albert Andrews of Myra he has been recognized for many years as one of the most prominent cattle buyers in western Cooke County.

Both of the Fisher brothers are prominent in local business and civic circles. John is an alderman in the City Council and Joe is a trustee of the Muenster Knights of Columbus Council and also a trustee of the Muenster State Bank.

Mother's Cook Book

GOOD THINGS TO EAT

HERE are several recipes that it will pay you to try out.

Sweet Cider Jelly

Before the sweet cider has grown sour prepare a few glasses of this delightful jelly: Measure one quart of sweet apple cider, add seven and one-half cupfuls of sugar, stir and bring to a boil. Add one cupful of pectin, bring to a boil and boil hard for one minute. Remove and let stand one minute, skim and pour into jelly glasses. Cover the hot jelly with a thin layer of paraffin, then when cold cover with another layer, and there will be no air spaces to spoil the jelly. This recipe makes about eleven glasses of jelly.

Dixie Cake.

Take one and one-half cupfuls of granulated sugar, one-half cupful of shortening, cream together, then add one cupful of fresh coconut milk and grated coconut. Add three cupfuls of flour sifted with three teaspoonfuls of baking powder and one teaspoonful of salt, add one-half teaspoonful of grated lemon peel and two teaspoonfuls of lemon juice. Fold in the stiffly beaten whites of four eggs and bake in a well oiled loaf pan.

Date Bars.

Put one cupful of stoned dates and nut meats through the food chopper. Add one cupful of powdered sugar and two beaten eggs; mix well. Add one tablespoonful of melted butter, two tablespoonfuls of lemon juice, four tablespoonfuls of flour, one-fourth of a teaspoonful of salt. Blend well and spread one-fourth-inch deep in a greased shallow pan. Bake in a moderate oven 30 minutes. Cut into strips and roll in powdered sugar while hot.

Appetizing Salad.

On a bed of crisp fresh water-cress or lettuce lay three slices of tomato. Sprinkle this generously with chopped sour pickle, celery hearts and sweet peppers, using the same amount of each. Add your favorite dressing and place a small sweet pickle on top of each. This is particularly good with steak or fowl.

Pineapple is most delicious with all kinds of meats. With chicken breasts with currant jelly and butter it not only makes a garnish but a most delightful sauce as well. Use the pineapple juice in the gravy and add a bit of the fruit, too, to the brown gravy.

A government air transport monopoly has been planned by the Irish Free State.

When Farmer J. J. Williams of Filley, Neb., was hurt as his team ran away, neighbors got together and put up his winter wood supply.

POTASH DEPOSITS TO AID GREATLY IN TEXAS' PROGRESS

Dallas, Feb. 4.—Conversion of a 57,000,000-ton bed of polyhalite (unique potassium salts) in West Texas into three distinct industrial commodities today was termed one of the greatest "potentials" of all Texas' yet undeveloped natural resources.

In a report to the All-South Development Council Max Agress, discoverer of the unique deposit 12 years ago and a noted potash "explorer," explained that, although experimental work has been going on for more than a decade, only in recent months has Dr. E. P. Schoch of the University of Texas perfected a method for extracting the utmost commercial values from this triple sulphate of pure calcium, magnesium and potassium.

So far as is known polyhalite in this pure form exists nowhere else in the world but in this vast bed blocked out in Midland, Crane and Upton counties, Agress said. Economies in production arising therefrom would give Texas a strikingly important place in the world potash market now dominated by Germany, from which more than 50 per cent of United States potash consumption is imported.

The Schoch process, tested for several months at Austin in 500-ton-a-day model plant operation, produces sulphate of potash (most costly form of potash) magnesium carbonate (desirable for insulating), and a "very superior" hard plaster, with "not a pound" of the mined material wasted.

Operation of this plant has shown that the polyhalite can be mined, shipped to tidewater and refined into these commodities at a cost which, when aligned with market prices for them as produced elsewhere, indicates polyhalite could become one of Texas' most important contributions to the nation's agriculture and industry.

Chief factors affecting development of this, as one of many other prospective and existent natural resource industries in the State, officials of the All-South Development Council pointed out, are potentialities of consumer demand, adjustment of freight rates, and assurance that enterprises will not be penalized by too-restrictive legislation and punitive taxation. A more definite State policy in place of the traditional and constant threat of increased levies, said Horace Loomis, executive secretary of the council, would be a prime factor in encouraging new industries.

Although the current import situation is greatly improved over that in the years 1923-28, when 88 per cent of American potash consumption was imported, the "balance of trade" could be swung much more strongly in favor of the United States with development of the Texas deposits, Mr. Agress said, besides bringing economic benefits to Texas

LOVE, HONOR, and OBEY

in the form of extensive mine and refinery payrolls, sizeable shipping contracts, and in making sulphate of potash more economically available for Texas agricultural uses.

A principal advantage in Texas polyhalite conversion is that in the Schoch process sulphate of potash is derived directly from native constituents at a great saving over the foreign method which must depend on synthetic combination of the finished salts of magnesium sulphate and potassium chloride. Also, the Schoch-produced sulphate is free of chlorine, whereas all sulphate of potash now on the market has an ineradicable 2½ per cent of chlorine, Agress said.

Though it is not universally appreciated, sulphate of potash—which under present production conditions has to sell for from 25 to 50 per cent more than the more common muriate of potash—is the form of potash most vital to proper soil amendment for such crops as citrus fruits, tobacco and a wide variety of vegetables. Also it is the indicated ingredient in many industrial uses.

Tillie Clinger says she dreamed last night she had married an airplane pilot, and all their children had wings.

Notice

I have received a fine 3-yr.-old registered Percheron Stallion from the north. He is black, 16 hands high, and weighs 1500 lbs. If interested come see him. Also have a good young Jack.

Single 6-Year Term For President Urged

Washington, Mar. 17.—Declaring that a single six-year term for the presidency would make impossible a dictatorship in the United States, Representative George H. Tinkham (Rep.), Massachusetts, proposed a constitutional amendment to this end.

"There is now no constitutional guarantee against dictatorship in this country and the consequent destruction of the republic," said Tinkham. "The proposed amendment would give that guarantee and it should be adopted."

A single, six-year term, Tinkham said, would eliminate partisan ac-

tion by a president seeking re-election, bring about appointments less political in character and add to the prestige of party government.

Tinkham, in an appeal to Democratic members, pointed out that President Andrew Jackson advocated a single six-year term and that it was in the platform of the Democratic party in 1912.

VOTE TOMORROW

TOMORROW is the time for you red-blooded liberty loving Americans to throw off the yoke of an antiquated blue law. Prohibition, a curse that was foisted on the citizens of this county before our National Government made its big mistake, must be removed just as it was removed from our Federal statutes. In order to do that people must vote, must register their opinion with county authorities and not merely go through their routine complaints.

That every person go to the polls and lend his support in removing this blemish to our county laws, is more than a mere privilege, it is a duty. Every true citizen should and must do all in his power to defeat faulty legislation.

That prohibition is faulty legislation has been proven to the satisfaction of voters generally throughout our Nation. That it is not faulty legislation is the mere contention of a certain group who permit themselves to be led by prejudice rather than by sound reasoning. They confuse drunkenness with legalized beer and persist in their blindness to the fact that the very condition they themselves encourage is one of the causes of drunkenness.

As for the citizens of Muenster, let's face the facts. Our people want beer and they will have it regardless of the law. But do we want honest people and honest business men branded as lawbreakers because of an insane law? And do we want honest businessmen faced with the alternatives of heavy fines or the loss of business? Do we want those same business men held at the mercy of "squealers" who now can have them fined merely to satisfy a personal grudge?

In short, do we wish to run our town honestly and above reproach, or do we wish to continue sneaking our beer in?

Keep this thought uppermost in mind: Beer must be legalized in the entire county if it is to be legalized in Muenster. It is not sufficient to say that Muenster voted wet, to be fair to ourselves we must have every possible vote in Muenster.

DON'T FORGET!! VOTE TOMORROW!!

THE COMMUNISTIC PARADISE

A RECENT issue of the Sunday Visitor carried an article by Dr. Rudolph Malek taken from the Rural Progress Magazine explaining conditions as he actually found them in Russia.

On the borders thousands of soldiers, battleships, planes, and other implements of war prevent helpless Russians from escaping. That gives an indication of the brand of liberty offered by Communism.

In Moscow alone 70 per cent of all the people live under conditions that have no parallel in the slums of any other land. A typical worker receives 400 rubles a month but pays 40 rubles for his one-sixth to one-tenth share of a small filthy room, 60 rubles for a shirt, 140 to 200 rubles for cheaply made shoes, or 400 rubles for a shoddy suit. That is some indication of the comforts offered by Communism.

Farms belong to the government, and farmers have the so-called privilege of earning a bare existence without the slightest prospect of ever having the simpler comforts of life. Though American Communists do not mention it, they are planning that condition as the future of the "Farmer-Labor Party" they are organizing here in America.

People are not permitted to go outside the borders of their country, neither are they permitted to have radios, foreign newspapers, or foreign magazines. Communistic authorities are afraid to let the

SCHEDULE OF SERVICES

The schedule of Divine Services in the Muenster Sacred Heart Church during Holy Week, as announced by Rev. Father Frowin, is as follows:

Palm Sunday, March 21—
6 a.m. and 7:30 a.m.—Communion Mass and Sermon.
9:30 a.m.—Blessing and Distribution of Palms, Procession, High Mass and Sermon. (All are requested to attend and take home the blessed palms.)
3 p.m.—Stations of the Cross, and Benediction.

Wednesday, March 24—
7 p.m.—Stations of the Cross, Lamentations and Tenebrae.

Holy Thursday, March 25—
6:30 a.m.—Distribution of Holy Communion to weak and infirm in the city.
8 a.m.—High Mass, Sermon, and Communion.
Afternoon—General Adoration hours until 7 p.m.
7 p.m.—Devotions, Sacramental Stations, Lamentations, and Tenebrae.

Good Friday, March 26—
8 a.m.—Sermon, Adoration of Christ on the Cross, Mass Presanctified.
12 to 2:30 p.m.—Silent Adoration in Church.
2:30 p.m.—Stations of the Cross.
7 p.m.—Rosary, Lamentations and Tenebrae and Blessing with the Relic of the Holy Cross. (Good Friday collection is for Holy places in Jerusalem.)

Please observe Good Friday by closing places of business between the hours of 12 noon and 3 p.m.

Holy Saturday, March 27—
7 a.m.—Blessing of Fire, Paschal Candle, Baptismal Water; High Mass and General Communion. (Collection for charities.)
7 p.m.—Resurrection Services, Rosary, Procession and Benediction.

Easter Sunday, March 28—
6:15 a.m.—Communion Mass and Sermon. (All are urged to receive Holy Communion on Easter morning.)
8 a.m.—High Mass, Communion and Sermon.
10 a.m.—Low Mass and Sermon. (Collection on Easter for Diocesan needs.)
3 p.m.—Vespers and Benediction.

Easter Monday, March 29—
6:30 a.m.—Communion Mass.
8 a.m.—High Mass, Communion and Benediction.
1 to 11:30 p.m.—Social in Parish Hall for all.

Please read bulletin board in church yard throughout Holy Week and observe it.

That the Risen Saviour may bestow His choicest blessings upon all of you is the ardent wish of your pastor, Father Frowin, and his assistant, Father Francis.

people learn of better conditions elsewhere. And to strengthen their point they print in their periodicals nothing but propaganda about the blessings of Russia and the evils of other countries.

Along with those deplorable economic and social conditions Russians have equally bad religious and moral conditions. The few who still have religious convictions are not permitted to observe them openly and those who have lost all ideas of a Divine Master have lost with them all ideas of decency and honesty.

And still we Americans by the millions will calmly sit by as Communists use our priceless gifts of freedom of speech and the press to tear down the very institutions that insure our economic and social security.

THOSE WAGGING TONGUES

A FEW choice bits of gossip that have been making the rounds lately were not at all out of the ordinary but the mere fact that they do rank as ordinary gossip makes them the target of righteous indignation.

All of us are prone to excuse ourselves for gossiping on the grounds that it is one of the weaknesses of human nature. But at the same time all of us are aware of a duty to eliminate weaknesses; and most of us must realize that we would be much better off if we did eliminate the habit of injuring another's reputation.

Along with the idea of self development we should consider the consequences of gossip from a religious standpoint. Gossip injures, and those who injure in that way should remember that "as long as you did it to one of these least of my brethren, you did it also to Me."

Isn't there some way to slow down the wagging tongues? Isn't it possible for people to realize that if they harm others' reputations, others are likely to do as much for them? And isn't it possible for them to realize that a great deal of ill feeling could be avoided by refraining from gossip? For, after all, gossip usually does get back to the person concerned.

It makes no difference whether the tales are true or false, as long as they are harmful they are wrong. And a great deal more good can be done in an effort to eliminate one's own faults than in attempting to rise in the esteem of others by shoving the next person down.

By one simple rule we could eliminate all injury through gossip: Be ever mindful of Christ's statement, "Let him who is without sin amongst you cast the first stone."

Smart for Evening

Upholstery brocade in two shades of dull blue makes this smart evening coat. The simplicity of the fitted bodice and full sweep of the skirt enhance the beauty of the fabric.

Nutrition Vital To Good Health

Austin, March 17—Importance of maintaining uniform good health for all parts of the body is stressed in a message sent out by Dr. George W. Cox, State Health Officer. "More and more," he said, "we are coming to realize that the normal functioning of special parts of the body are dependent to a large extent upon the general condition of the body as a whole."

"All parts of the body are nour-

1936 PONTIAC Coupe

Good condition; driven 7,000 miles. For information call The Muenster Enterprise Office

ished from the blood stream," he said, "and so if all the essential elements of the body are met by an adequate food supply daily each part will receive what it needs to function normally. Experimental work in nutrition in all parts of the world has shed new light on the relationship between a properly balanced food intake and the eyes."

"Essential to adequate nutrition is the inclusion in the diet of foods containing vitamin A. When general bodily health is impaired by a lack of vitamin A, it often happens that the tear glands of the eye cease to function. Such results have repeatedly been shown in animal experimentation, and also among humans in times of food shortage. During the World War extreme cases of this eye disease known as xerophthalmia were found in Denmark among malnourished children who were living on skimmed milk and a very restricted diet. To cure this disease the government ordered that butter be added to the diet and a certain percentage of butter fat be retained in the milk.

"Since vitamin A is such an important factor in growth, development, and health, it is essential that every one, especially children, eat foods containing it. Vitamin A is found principally in green and yellow vegetables, in fresh eggs and cream, and in various animal fats. It may be manufactured from carotene, the yellow coloring matter of these foods.

"Although a deficiency in vitamin A might not result disastrously immediately, its effects over a period of years probably would culminate in a lack of normal growth, physical debility, and injury to various parts of the body."

Woman Accepts Proposal Of 25 Years' Standing

New York, Mar. 17.—Culminating a 25-year romance, the marriage of Clarence Chester Birchard, 70, Boston, Mass., music publisher, and Miss Marie Teresa Armitage, 65, New York singing instructor, was announced here recently.

They met in Boston 25 years ago, and Birchard proposed two years later in Chicago where Miss Armitage was teaching school. She refused to be married, however, until her niece, Terry Armitage, whom she had adopted, had completed her schooling. Her niece recently was graduated from finishing school, and Birchard's standing proposal was accepted.

Paul Oesting of San Francisco left his dog \$500 to "buy the pet the comforts of life."

Safety is now more than sentiment, it is a science. A new crop of engineers and police officers is coming on. They have studied the techniques of highway construction and traffic regulation.

YOU GET **ALL 3** IN THE NEW OLIVER GRAIN-MASTER

SEE IT TODAY!

Here is the small combine that gives you a better method of harvesting all small grains, beans and seeds—the Oliver Grain-Master. It is the new low-cost way. Low in first cost, low in power needed. It ends your hard work of binding, shocking and threshing; ends your wife's work, the feeding of threshing gangs.

The Grain-Master saves more grain and does it at lower cost.

The Oliver hinged and balanced header cuts a full 6-foot swath and lays the standing grain on the draper, straight and smooth. The "hinge-float"

feeder house automatically follows the level of the header. Both are controlled by a single, easily reached, squeeze-grip lever. The grain is carried straight to the feeder house and fed straight to the cylinder. Then grain and straw move straight through the final threshing and cleaning operations that save more of your grain, cleaned to a bright merchantable grade. Draft is light. Weight is light. Price is low.

Roller bearing, air-tired wheels move easily even over soft soils. See us about an Oliver Grain-Master and an Oliver "70" to handle it. Make certain of saving your high-priced crop this year.

Hyacinth Club Meets for Regular Study Session

The Hyacinth Study Club held its regular meeting Monday night in the M. J. Endres residence with Miss Marie Seyler conducting.

As in the past several meetings, membership roll call was answered by each person's giving the name and brief account of some saint whose feast occurs during the current month.

After reports on assignments the group read and discussed the chapter on "The Sermon on the Mount" from their texts.

Reports for the next meeting were assigned on "Capharnaum and Naim" and the subject for reading and discussion is "The Parables."

Because the regular night for the next meeting falls on Easter Monday, when a parish social gathering will be held at the parish hall, the next meeting was set for Friday, April 2.

CONSERVATION

(Continued from First Page)

the event the committee chairman of this block becomes a county committeeman he will be replaced on the block committee by the first alternate. The second alternate was chosen to provide for a third man in case someone was forced to drop out through sickness or some other cause.

Initial work in drawing up work sheets for the farmers should be under way by the first of April, Mr. Clark stated. In drawing up those sheets committeemen will show the farmers' normal acreage and normal production in each crop, the number of acres to be left idle and the number of acres to be planted in soil conserving or soil building crops.

After the program for the year is completed committeemen will again be active in drawing up the farmers' applications for payment.

Several of those present at the meeting received checks for their part in the soil conservation program of last year. Mr. Clark brought with him 29 checks for farmers of the Muenster, Myra, Bulcher block. He mentioned that up to Thursday night he had received from the Federal Government 211 checks for a total of \$20,871.72 to be distributed to Cooke County farmers.

MARKETING

(Continued from First Page)

market value at the time of delivery and paying the balance after his wool has been sold.

Outstanding merits of the Midwest Wool Marketing Association, Mr. Farrell said, are a reduction in the profits between growers and mills, the better price secured by waiting for a favorable market, and the premium prices to individuals who produce wool of better grades.

Guy Faulkner was introduced by Mr. Farrell as the representative for this district during the coming year.

COUNTY MEET

(Continued from First Page)

both the literary and the athletic events, and that since the boys had had a fair amount of athletic activity in the months past he preferred to have them concentrate their attention on the literary events.

In the tennis tournament of the following week Muenster will, however, have entries. Though they have not been definitely chosen at this time Mr. Burger, boys' tennis coach, and Miss Seyler, girls' coach, announced that the entries will probably be as follows: Senior boys' singles, Albert Hoehn; senior boys' doubles, Clarence Hoehn, Pat Stelzer and Herman Fette (three entries are permitted to provide for a substitution if necessary); senior girls' singles, Louise Schmitz; senior

Knights Have Last Meeting Of Lent Series

The last of a series of lenten meetings held by Knights of Columbus as a Catholic action feature in the Knights Crusade was held Wednesday night in the K. of C. hall with Father Francis Zimmerer leading a discussion on religious problems taken from the Sunday Visitor puzzle contest and reading selections from the book, "Be Gone Satan."

Henry Hennigan, Grand Knight of the Muenster Council, reminded members that no meeting would be held next Wednesday because of a conflict with Holy Week services in the church. It is probable, however, that the series of meetings will be continued after Easter but will be held less frequently.

The highlight of Wednesday's meeting, considered from a point of interest, was the account of an exorcism as revealed in "Be Gone Satan." It vividly explained an occurrence at a convent in Iowa where evil spirits were driven from a possessed woman by calling on supernatural powers.

Home Beautification Urge Strikes Several Residents of Lindsay

Lindsay, March 16. — The home beautification projects in the Lindsay community are extensive and varied.

During the past week Pete Block has torn down the old porch on the east side of his house and replaced it with a new one which follows the architectural lines of the roof, making an attractive front.

Several rooms in the home of Mr. and Mrs. Ben Hermes have been redecorated with new wall paper in pleasing designs. Other improvement features were also added.

Mr. and Mrs. John Neu also have renewed the walls of their upstairs bedrooms with new paper. They chose a design that has a tendency to add light and height to the rooms.

The John Bezner home and surrounding premises are likewise undergoing various improvements. Mr. Bezner has done away with the old frame house which was formerly used for washing and erected a wash house of sheet iron adjacent to his home. He fitted it with all the modern conveniences, electrical appliances, etc., and finished the outside with a coat of aluminum paint. Shortly, Mr. Bezner plans to do extensive interior decorating, which includes the refinishing of the woodwork, and will conclude his improvement plans by applying a coat of paint to the outside of his home.

If you want to sell 'em, you've got to tell 'em—put your ad in The Enterprise.

Prices on Local Market (Wednesday's Prices)

Hens, per lb.	12c
Roosters, per lb.	5c
Cream, b.f. basis, lb.	31c
Milk, b.f. basis, lb.	36c
Hides, per lb.	5c

Scouts Postpone Hike to Elm Until After Easter

The Boy Scout hike to Big Elm Creek which was planned for last Sunday was postponed until some time after Easter, Scoutmaster Nick Miller announced. The cause of the change in plans is that the day set for the hike happened to be Passion Sunday.

It is quite probable that the weather man would have changed plans if Nick had not done so. The day was rather severe for a jaunt through the wilds.

Hays Children Surprise Teacher on Her Birthday

In the intermediate Room of Hays School Tuesday morning at 11:30 a surprise birthday party was given Mrs. R. E. Greene by her pupils.

The party was cleverly planned by the girls of the room. The boys assisted in getting cake and candles.

After the pupils had the table arranged with cake, candles and many nice gifts, hurriedly one of the girls went into the home economics room where Mrs. Greene was conducting class work and told the teacher that there was a fire in the next room. Mrs. Greene madly rushed into the room to find 27 small fires flickering over the birthday candles.

Bobby Flanery, master of ceremonies, then invited her to put out the fire. Many gifts were happily received by Mrs. Greene from each pupil and from other visitors.

CORRECTION

A friend recently advised us of an error in giving the new address of Mr. and Mrs. Henry Luebbert as Denton Street. Their correct address is 910 North Dixon, Gainesville.

Grade Volley Title Won By Valley View Sextet

Dorothy Fette led her volley ball sextet into some tough competition when she accepted to participate in the Valley View invitation tournament last Saturday. The girls lost their opening match to the champion Newark team and later lost a tough contest to Justin in the consolation play-off.

Newark, a team that perfected the bullet return to win the Valley View tournament last year, used the same tactics to win over Muenster by two straight games. They repeated the performance in their semifinal match and then won a bitterly fought match with Valley View's Cooke County champions for the

tournament loving cup. After their defeat by Newark, Muenster entered the consolation finals by winning from Aubrey but were nosed out of consolation honors in a thrilling battle with Justin.
