### Card Of Thanks

From Father Frowin

Rev. Father Frowin, former pastor of Sacred Heart parish, has sent word to this paper thanking the Muenster people for their many kind remembrances and greetings.

"I would like to take this means of expressing my thanks and appreciation for the greetings and gifts I received during the holidays. It was almost as though the people of Muenster had come to visit me. It made me very happy. By your thoughtfulness you have shown your love and esteem for your former pastor and I am deeply grateful. Always remember that your pastor is your best friend, from the cradle to the grave. May the good Lord bless and reward you in time and eternity for all you have done for me during my 24 years' pastorate at Sacred Heart parish."

A. Dangelmayr.

Camp Young, Dec. 27.—If I live to be a hundred, I don't expect to forget Christmas of 1942. What a day! It brought weather, nostalgia, entertainment, solemnity and a superb Christmas dinner. Everything considered, the occasion was as memorable as a gang of isolated soldiers could hope for. At the same time it was as miserable—if it is possible to bring both those conditions together in the same memory.

First I'll give my attention to the grief and then turn to the bright side so that I can end this dissertation in a more cheerful frame of mind. That will be better for both me and you.

My worst peeve goes to the weather man. He has really been on a rampage for the past 48 hours. And to think he would have to wait until Christmas to uncork all his fury! Yes indeed, we've had more discomfort around here during the past two days than during the past two months.

We got our first taste of it, a mere sample, about 10:30 Christmas Eve when one of those infrequent desert rains began pattering down. Quite a number of us who had planned to attend midnight mass were beginning to feel low. But luck was with us. The sky cleared within an hour and remained that way until a half hour or so after our return. Then the clouds came back. The patter started again just as I was falling asleep. It must have been two hours later when I was awakened by an honest to goodness down-pour. The patter had become a barrage. Old Jupiter Pluvius was doing his worst.

I pulled my head under the covers. Funny how comforting they can be when the elements get rough. So I didn't really know what was happening to the other fellows until I reluctantly crawled out the next morning. The tent I'm in is one of the few in the company with long flaps or skirts or whatever you call those extensions hanging down at the side. They come all the way down to the base board, actually lapping over a few inches. Other tents have short flaps, leaving about 6 or 8 inch gaps for the weather to pour into. Men on the windward side of those shacks who did not get up and move across the room awoke later in a puddle of water. And that's not all. Barracks bags and clothing were soaked. With all clothes and blankets hanging out, Christmas, in this company area seemed more like an ordinary wash day. The rain brought wind and cold. Christmas was not one of our usual balmy days. Heavy coats were in order all the time.

As if that were not enough, Christmas night proved to be even more exasperating. That chilly wind began picking up a momentum until, shortly after midnight, it had become a storm. Our tent frame was creaking—at times, I thought, swaying a little too—the tent itself was whipping, the gale was howling. I ducked under the canvas again.

Then came the order to pile out and do what we could to hold our tents together. The company commander hatched up the idea when he awoke to find his tent floating down-hill over the loose sand. I got out just in time to see the tent next door crash. Luckily all the boys were already in the open.

Outside we ran into a sand blast. But in spite of it we managed to take up slack in the ropes and secure the loose flapping ends. Also to clean up the debris at the wrecked tent. By 2:30 it was calm enough for us to hit the bunks again.

Naturally, today was clean-up day. We spent all morning shaking out dust, sweeping, scrubbing, and taking inventory. Some of the missing items were found in other tents, but in general they had gone with the wind. One of the boys forgot to take in the clothing he had hung out to dry after the previous night's shower. He needs half a wardrobe now.

As I'm writing this—about 9 o'clock Saturday night—I'm haunted by the thought of another such experience. The wind is getting lusty again. It doesn't have to get much worse to bring serious trouble. Considering the strain those tent frames went through last night, it is easily possible for us to have a much more unpleasant night.

In general our company fared very well. We had the other three companies serving as a wind break. The tents at the other end of the battalion area are the ones that took the beating. About a dozen are either torn down or shifted 12 to 20 feet down the hill. Quite a number of the other outfits in the camp were hit harder. Complete rows of tents wiped out, and several mess halls knocked over. But not one serious injury to the whole camp. How's that for luck?

Actually it wasn't such a terrible storm. At home we'd merely (Continued on Page 4)

### LINDSAY MOTHERS HAVE ELECTION OF OFFICERS FOR 1943

Lindsay.—On Sunday, January 3, the Christian Mothers Society of Lindsay held its first business meeting of the year which featured the annual election of officers. Mrs. John Bezner is the new president, replacing Mrs. Joe Hundt, president of the organization for the past 15 years, who resigned the nomination. Mrs. Ben Hermes was elected vice-president to replace Mrs. Al Kuntz, who resigned sometime ago when she moved to Valley View, and Mrs. Matt Fuhrmann is the new secretary-treasurer, replacing Mrs. John Bezner. Both Mrs. Kuntz and Mrs. Bezner had held their respective offices for five years. The annual financial report was given by the retiring secretary and it revealed a gratifying account of receipts and worth-while expenditures.

To Mrs. Hundt, who had so successfully led the organization for the past 15 years went a vote of thanks. She had taken her work seriously, and other members of the society had felt it was a privilege to work with her. During the years she was president Mrs. Hundt attended all meetings, with the exception of a few one Fall when she was ill.

paragraphs represents an intermission of about 14 hours. Pecking away at this typewriter with numb fingers was getting to be a little too unpleasant. So I folded up for the night. And now I'm happy to report that the wind calmed down instead of getting worse. We're having a beautiful, bright, sunny Sunday. Incidentally, a more appropriate condition for giving the promised cheerful report.

The most impressive Christmas incident was the midnight mass. Actually, it should be called a midnight field mass, for it was held in our so-called coliseum, which is nothing more than a stage out in a desert clearing. Benches are supposed to be hauled in for programs, but no one seemed to remember that. Perhaps it was a fortunate oversight. A small decorated tree and a few sprays of poinsettia were the only marks to identify the feast. But we went modern in one respect. Recordings of Silent Night, Adeste Fideles, and other sacred hymns were sent out over the public address system. And even that, apparently coming from nowhere, had its counterpart in the Angelic choir at the stable. All of which goes to show that clouds do have silver linings. Being stranded on the desert meant missing many things we used to take for granted, but it also afforded less opportunity for the real significance of the feast to be crowded out by comfort, excitement, and various other interests.

The Christmas sermon was short and inspiring. Peace to men of good will. As simple as that. No complicated political doctrines, no diplomatic penning, just mankind's return to the spirit of Bethlehem as a solution to the day's problems. The golden rule as a standard to regain and maintain peace. It's a formula that makes sense, one by means of which the least of us can help to make this a better world. No doubt, every one of us has heard this before, but we've never known a time when it had a more profound meaning.

Uncle Sam did his share to make Christmas enjoyable for the boys. Passes were more plentiful than they have been for any other occasion, and the percentage would probably have been greater if transportation facilities were not so limited. The boys who had to stay were treated to a dandy Christmas dinner. Turkey and all that goes with it. Tasted swell in spite of the fact that we had to eat it out of mess kits while shivering through a wintery gale.

Christmas afternoon was featured by a show and broadcast sponsored by Coca Cola. About an hour of top notch stage show in addition to the regular 30 minute radio program. Then a gift for every man in the crowd.

Lest I forget, the company also remembered us on Christmas. Someone finally disregarded the alert long enough to order a water heater for our showers. It arrived a couple of days before Christmas. The only trouble is that they were not able to get someone to install it before the big day. Now at least we have prospects for warm water.

Just happened to remember, this is a New Year's edition, isn't it? Con joins in the spirit of the occasion by wishing each and everyone the best possible new year. Meaning health and good fortune and above all the end of this war.
